NEW HAMPSHIRE
DEPARTMENT OF STATE

Paul T. Paul College of Business and Economics Cyber Security Symposium
11/4/2016

Goal: The symposium is being run in conjunction with the New Hampshire Small Business Development Center (NH SBDC) with the primary goal being to enhance New Hampshire Small and Medium Sized Enterprise (SME) cyber security protection through awareness and action.

Attendees and Participants: This symposium will bring together cyber security industry experts, 25-30 NH SMEs with cyber security challenges/or interests, representatives from the NH SBDC, 60-70 students studying cyber security issues, faculty engaged in cyber security research, and the general public.

Schedule:

8:30am - 9:00am	–	Breakfast and Registration
9:00am - 9:15am	–	Welcome Address
9:15am - 9:50am	–	Poster Session
9:50am - 10:00am	–	Break
10:00am - 12:00pm	–	Workshop Session

Symposium Structure: The symposium will run form 8:30am-12:00pm. The symposium will consist of two sessions:
- an "*awareness session*" which will focus on making SMEs aware of various important cyber security issues via student research poster presentations
- an "*action session*" which will consist of a workshop session conducted by cyber security experts and Paul College faculty.

Student Poster Session (*awareness session*)

- Paul College Information Systems and Business Analytics (ISBA) students will present cyber security research that they conducted in their E-commerce course and their Database Management course.
- Poster will be presented by the students in the Great Hall at Peter T. Paul College of Business and Economics from 9:15am-9:50am
- Poster topic include:
  - Securing your accounts
  - Ransomware
  - Password usage and management
  - Desktop security
  - Protecting mobile devices
  - Artificial Intelligence & Cybersecurity
  - Protection from viruses, worms, Trojan horses, and other malicious code
  - Best practices for managing and storing sensitive information
  - Best practices for responding to and recovering from breach incidents

- o Best cyber security solutions for detection and protecting SMEs from data security threats
- o Best practices for keeping cloud-stored data safe
- o Tips for setting up security practices and policies to protect sensitive information
- o Best data backup solution for SMEs.
- o Cyber security solutions for detecting and protecting SMEs from data security threats

Workshop Session (*action session*)

- Following the poster presentations some cyber security experts will conduct a workshop session for the SMEs. The workshop will be moderated by Paul College faculty who are currently engaged in cyber security research
- During the workshop the industry experts will share cyber security strategies, solutions and innovative best practices with the invited SMEs. We would also like to hear from SMEs about their cyber security challenges and how the SMEs deal with them during the Q&A sessions.
- We anticipate that the workshop will be comprised of 25-30 SMEs (owners, senior managers or IT personnel).
- The speakers for the workshop and their topics are as follows:

Time	Topic	Speaker
10:00am -10:30am	Are you prepared to deal with a cyber security breach?	**Denis Goulet** Commissioner / Chief Information Officer NH Department of Information Technology
10:30am -11:00am	Cyber security best practices for SMEs.	**Todd Waskelis,** Vice President at AT&T Security Solutions
11:00am -11:30am	Recovering from a cyber security breach.	**Diana Kelley** Executive Security Advisor, IBM Security
11:30am – 12:00pm	General Q&A + Discussion
