

The State of New Hampshire

Department of Environmental Services

Thomas S. Burack, Commissioner

Celebrating 25 years of protecting New Hampshire's environment.

May 9, 2013

Her Excellency, Governor Margaret Wood Hassan and the Honorable Council State House Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services (DES) to enter into a grant agreement with LRG Healthcare dba Lakes Region General Hospital (LRGH), Laconia, New Hampshire (Vendor # 177161) in an amount not to exceed \$19,000.00 to support the purchase of two MediDock Ambulance Anti-idling Kiosks, effective upon Governor and Council approval through September 30, 2013. Funding is 100% Federal.

Funding is available in account as follows:

03-44-44-443010-2278-072-500573

Dept Environmental Services, Federal DERA Funds, Grants-Federal

FY 2013 \$19,000.00

EXPLANATION

Under the Diesel Emission Reduction Act (DERA) the U.S. Environmental Protection Agency (EPA) provides funding for State Clean Diesel Programs to support projects that reduce harmful emissions produced by diesel vehicles. Diesel particulate emissions have been categorized as a likely human carcinogen by the EPA, have been linked to respiratory and heart diseases, and are known to aggravate asthma and other respiratory ailments. New Hampshire's State Clean Diesel Program plan, approved by the EPA, includes grant funding for projects that reduce the need for diesel engine idling, with a focus on reducing diesel exhaust exposure by sensitive populations such as very young, very old, or ill individuals.

After patient delivery or in anticipation of patient transport, ambulances often idle for extended periods at hospitals due to the need to control interior temperature, to protect vital medications stored within the ambulance, for patient comfort and to maintain battery charge for onboard medical equipment and motor starting. Ambulances often idle directly outside emergency room entrances where their exhaust can be drawn through the doors into the emergency room exposing patients, staff and visitors to diesel exhaust. Ambulance anti-idling kiosks are able to supply heated or air-conditioned air and a 120 volt power supply directly to the waiting ambulance allowing the vehicle's motor to be turned off.

DES reached out to hospitals wishing to participate in a pilot program to test this relatively new technology. Three hospitals responded favorably; Frisbie Memorial Hospital (Rochester), Lakes

Region General Hospital (Laconia) and Elliot Hospital (Manchester). Presently, there are only two companies manufacturing ambulance anti-idling kiosks; Craufurd Manufacturing, LLC. produces the MediDock kiosk, and EnviroDock Inc. produces the EnviroDock kiosk. DES requested technical and cost information from both companies and worked with the three hospitals to determine whether one or both of the available units would meet their needs.

The hospitals had three criteria they considered most important in meeting their needs for an antiidling kiosk: 1) the manufacturer should have a demonstrated success record in the construction, installation and operation of a kiosk; 2) the kiosk heating/cooling air supply hose should retract inside the kiosk to reduce winter maintenance; and, 3) the heating/cooling air supply hose connection to the vehicle should be simple and easy to use.

Of the two available kiosks, only the MediDock unit met all the criteria. LRGH has requested funding for the MediDock unit and DES concurs with their decision. LRGH will provide all site work for the installation of the kiosk, including site preparation, construction of a concrete pad and provision of a 208 volt 3-phase power source to the pad as per manufacturer specifications. DES will provide DERA funds for the purchase price of two MediDock kiosks.

The contract has been approved by the Department of Justice as to form, content, and execution. In the event that the Federal funds become no longer available, General funds will not be requested to support this program.

We respectfully request your approval.

Thomas S. Burack
Commissioner
