REQUESTED ACTION

Authorize the Department of Environmental Services to award a **SOLE SOURCE** agreement to the Rockingham Planning Commission (VC #154887), Exeter, NH, in the amount of \$13,333.00 to provide planning technical assistance to member coastal communities, effective as of July 1, 2013 through June 30, 2014 upon approval of Governor and Council. 100% Federal Funds.

Funding is available in the account as follows. Funding for FY 2014 is contingent upon continuing appropriation and availability of funds.

<u>FY14</u> \$13,333.00

Dept. Environmental Services, Coastal Zone Management, Contracts for Program Services

EXPLANATION

This grant award is **SOLE SOURCE** because the Rockingham Planning Commission is the only entity that provides municipal planning services to its twelve member coastal communities. The New Hampshire Coastal Program (NHCP) annual program budget includes local technical planning assistance funds for the Natural Resources Outreach Coalition (NROC) and the two Regional Planning Agencies – Rockingham Planning Commission (RPC) and Strafford Regional Planning Commission (SRPC) – that serve communities located in the coastal zone. These funds were specifically targeted for technical assistance grants to support partnerships with NROC, RPC and SRPC on environmental issues of common concern where the planning agencies can broaden the NHCP's expertise and outreach to communities throughout the coastal region. The NHCP Technical Assistance grants have been part of the overall NOAA approved program and annual work plans for the past twenty years. NHCP staff meets annually with the directors and staff of the three organizations to develop program priorities and annual work programs for inclusion in the annual NHCP budget. All three agencies provide professional planning assistance to municipal planning boards and staff including master plan updates, zoning and subdivision ordinance revisions, open space plans, build-out analyses, GIS-based natural resource assessments, identification of natural resource protection priorities, and other services.

Her Excellency, Governor Margaret Wood Hassan and The Honorable Council

Page 2 of 2

The purpose of this agreement is to support the RPC in its provision of technical planning assistance to its member coastal communities. Grant funds will be used to 1) provide technical assistance to communities in the areas of land use planning and hazard mitigation planning in conjunction with the Coastal Adaptation Workgroup (CAW); 2) provide technical assistance to coastal communities through the adoption or amendment of local ordinances or regulations to incorporate the Southeast Watershed Alliance's (SWA) storm water management standards; and 3) coordinate with the Natural Resources Outreach Coalition (NROC) in training local officials to understand and better plan for the impacts of intensified coastal storm events and coastal flooding.

Total project costs are budgeted at \$26,666.00. DES will provide \$13,333.00 of the project costs through this federal grant. The RPC will provide \$13,333.00 in matching funds. In the event that Federal Funds become no longer available, General Funds will not be requested to support the project. A budget breakdown is provided in Attachment A.

This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

Thomas S. Burack, Commissioner

Exhibit A Scope of Services

The Rockingham Planning Commission (RPC) will perform the following tasks as described in the detailed proposal titled *Project Proposal for Coastal Program Funding*, which was submitted by RPC and dated February 8, 2013:

- 1. Staff Participation in the Coastal Adaptation Workgroup (CAW): RPC will provide staff support for the CAW through meeting attendance, outreach efforts and other assistance. The CAW coordinates efforts to assist communities in responding to climate change risks, and RPC's provision of technical assistance to communities in the areas of land use planning and hazard mitigation planning are essential to the workgroup. RPC staff will provide support to CAW and will document assistance provided to CAW, including a summary of meeting attendance, outreach efforts and other assistance provided.
- 2. Community Assistance for Storm Water Management: The RPC will provide technical assistance to three coastal communities (to be determined), through the adoption or amendment of local ordinances or regulations, to incorporate the Southeast Watershed Alliance's (SWA) storm water management standards. RPC staff will assist communities through the complete process of customizing and adopting the SWA model storm water standards. Outreach efforts and the community solicitation process will be documented, and draft ordinances will be provided.
- 3. Coastal Adaptation Assistance to a Member Community: The RPC will provide staff time to coordinate with the Natural Resources Outreach Coalition (NROC) to guide one coastal community (to be determined) through the NOAA Roadmap for coastal adaptation planning. RPC staff will assist NROC in training local officials to understand and better plan for climate change and coastal hazard impacts. Outreach information developed for the Roadmap process, including steps to be taken by the selected community to reduce risks of future damage from coastal hazards, will be documented by RPC.
- 4. Outreach: RPC shall work with the New Hampshire Coastal Program (NHCP) Outreach Coordinator to develop at least one outreach product describing various components of the project. Examples of outreach products include press releases, newsletter articles, website updates and links to new website content distributed through social media channels. All outreach materials shall include the NOAA, NHCP and DES logos. All press releases and articles shall state that "The project was funded by NOAA'S Office of Ocean and Coastal Resource Management under the Coastal Zone Management Act in conjunction with the NH Department of Environmental Services and the New Hampshire Coastal Program."
- 5. Progress Report: RPC shall prepare a semi-annual progress report that summarizes work completed for items 1 through 4 above during the period July 1, 2013 through December 31, 2013. The report shall be due no later than January 8, 2014.
- 6. Final Report: RPC shall prepare and submit a final report that summarizes all activity in items 1 through 3 above at the close of the project. One print copy and an electronic version, preferably in .pdf format, shall be submitted. The final report shall summarize the project and shall include a financial summary of project costs. A funding credit statement identical to the quotation in 4 above shall appear on all final work products intended for public distribution. Logos of sponsoring agencies (NHDES, NHCP & NOAA) shall also appear on publications and reports. The final report shall be due no later than July 7, 2014.

Exhibit B Method of Payment and Contract Price

The State shall pay to the Grantee the total reimbursable program costs in accordance with the following requirements:

Reimbursement requests for program costs shall be made by the Grantee using a payment request form as supplied by the State, which shall be completed and signed by the Grantee. The payment request form shall be accompanied by proper supporting documentation in the amount of each requested disbursement and required matching funds. Documentation of reimbursable and matching costs may include invoices for supplies, equipment, services, contractual services, and a report of personnel, travel and indirect costs. For projects that demonstrate progress solely through the submission of interim progress reports, payments shall be made upon receipt, review and approval of the interim progress report and accompanying payment request form. Preagreement costs may be reimbursed or counted as matching funds as long as those costs were incurred within the effective period of the federal grant and after State approval of the project. The Grantee must request prior written approval from the State to incur pre-agreement costs. Payments shall be made to the Grantee no more frequently than monthly.

The total reimbursement shall not exceed the grant award of \$13,333. Matching funds provided by the Grantee shall total at least \$13,333 of non-federal cash and in-kind services.
