CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER

JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER

Bureau of Construction
July 29, 2013

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

Retroactive

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a RETROACTIVE contract with R.S. Audley, Inc. (Vendor 154222) of Bow, NH on the basis of a low bid of \$1,786,097.00 for emergency roadway repair on NH 12A (Alstead Center Road) approximately 700 feet north of the intersection with Walpole Valley Road, from July 26, 2013 through June 20, 2014 effective upon Governor and Council approval, unless extended by the Department in accordance with the Standard Specifications. 100% Highway Funds (with anticipated Federal Emergency Relief Fund reimbursement).

Funding is available as follows: FY 2014
04-96-96-960515-3031
Reimbursable Maintenance & Repair
400-500870 Highway Contract Payments \$1,786,097.00

2. Further authorize that a contingency in the amount of \$178,609.70 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows: FY 2014
04-96-96-960515-3031
Reimbursable Maintenance & Repair
400-500870 Highway Contract Payments \$178,609.70

EXPLANATION

The proposed work is a result of storm damage, which occurred on June 28, 2013. The road is presently closed to through traffic until repairs can be made. The storm damage is too extensive for District Maintenance forces to address. Additionally, repairs from storms in 2004 that affected this same area did not withstand the latest storm event, indicating the need for a more substantial and permanent repair. The project is needed to provide permanent improvements and repairs to eliminate chronic maintenance responses to flooding issues through this area. The contract authorization is retroactive as the contractor has already been engaged due to the urgent nature of the work and the need to restore traffic. An accelerated bid process was employed based on field measurements and preliminary design of repairs needed. Bids were received on July 26 and a notice to proceed and begin work followed immediately.

The project involves work at 15 individual repair sites within this 2800 ft. long damaged section of NH 12A. Work primarily involves slope and shoulder repair, ditch and drainage reconstruction and roadway reconstruction/repaving. Two areas of more extensive damage involve construction of a 125 foot long tie-back retaining wall along the brook, extensive aggregate under drain on the uphill side of the wall and installation of a 10' x 8' concrete box culvert (bridge) to replace a washed out 60" metal culvert.

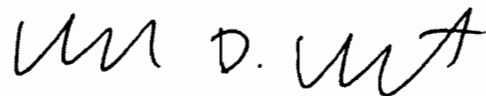

The contingency amount is proposed to be 10% of the contract amount. This is reasonable considering the shortened project development process and construction timeframe implemented to reopen the road to through traffic as soon as possible. The following items involve higher risks that can potentially increase the project costs; the potential for unforeseen issues on this informally constructed road; the presence of bedrock; and changing site conditions due to the instability of the roadway. The contingency amount is in accordance with the Department's guidelines.

The project is being funded through the Reimburse Maintenance and Repairs item (Highway Fund). The work is expected to qualify for Federal Emergency Relief (ER) funds, reimbursable at 80%-100%, depending on the nature of repairs, permanent or emergency. Upon a favorable determination of eligibility and receipt of Federal funds, the account will be reimbursed accordingly.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

CDC/md

Department Estimate: \$2,133,430.75
Contract Amount: \$1,786,097.00
Under Estimate: \$ 347,333.75

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This emergency repair project begins on NH Route 12A (Alstead Center Road) approximately 700 feet north of the intersection with Walpole Valley Road and proceeds north for approximately 2,800 feet. The project includes 15 individual repair sites. The work includes shoulder repair, full box reconstruction, retaining wall construction, ditch repair (including a stone lined ditch for the majority of the project), slope repair, drainage reconstruction (including aggregate underdrain), closed drainage installation, guardrail replacements, box culvert (bridge) construction, ledge removal, pavement reclaim, and paving.

FEDERAL FUNDING: 100% State Funding. Reimbursement funds are being requested from the Emergency Relief Fund.

CONTINGENCY: The contingency amount is proposed to be 10% of the contract amount. This is reasonable considering the shortened project development process and construction timeframe implemented to reopen the road to through traffic as soon as possible. The following items involve higher risks that can potentially increase the project costs; the potential for unforeseen issues on this informally constructed road; the presence of bedrock; and changing site conditions due to the instability of the roadway. The contingency amount is in accordance with the Department's guidelines.

PROJECT INITIATED: As an emergency response to intense rainfall and subsequent flooding on June 28, 2013.

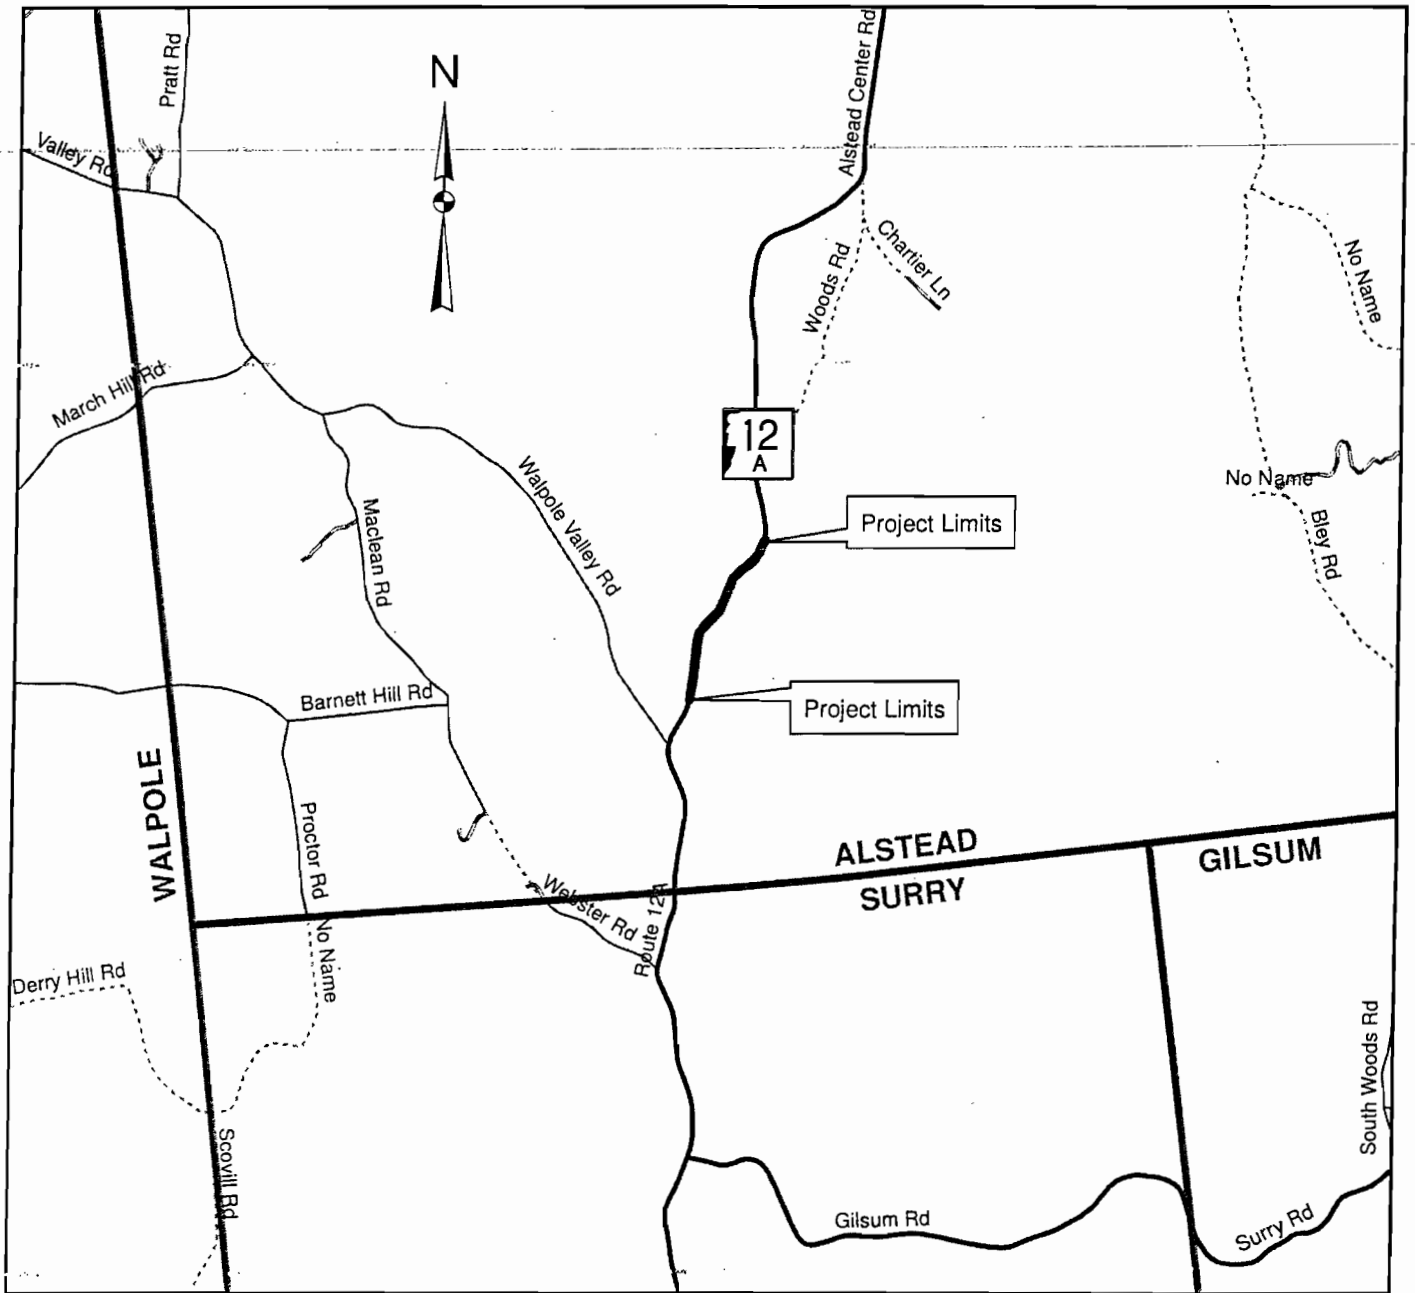

PROJECT EXPLANATION: The proposed work is a result of flooding, which occurred on June 28, 2013. District maintenance forces have closed the road to through traffic. The project is needed to provide permanent improvements and repairs to eliminate chronic maintenance responses to flooding issues through this area.

TRAFFIC IMPLICATIONS: This 2,800 foot segment of roadway is impassable and is closed to through traffic. It will remain closed until construction repairs permit it to be safely re-opened. Local traffic will continue to utilize Walpole Valley Road to circumvent the closure.

INTERMEDIATE COMPLETION DATE: Friday, December 13, 2013. This work shall consist of opening NH Route 12A to two-way traffic on a paved surface. This shall include, but is not limited to: all drainage, slope, ditch, and road box work; retaining wall and box culvert work; guardrail and curb work; binder course pavement and pavement markings.

COMPLETION DATE: Friday, June 20, 2014

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
7/29/2013

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
