PART I.

The first part of the reconciliation process consists of *four separate tallies*: (A) Ballot Inventory, (B) Voter Participation Talled at Check-In, (C) Voter Participation Talled at Check-Out, and (D) Hand Count of Ballots Cast. Ideally, these *four counts should result in the same number* of ballots cast and voters participating (In the end, **TOTAL A = TOTAL B = TOTAL C = TOTAL D = TOTAL Count of Votes (from Part II)**). While we recognize that errors may occur which could result in small differences in the four Part I totals, Moderators are urged to *carefully consider* these tally numbers *before finalizing results* on primary election night.

PART II. EXAMINATION OF INDIVIDUAL RACES IN THE REPUBLICAN PRIMARY

Compare the ballots cast (**TOTALS A--REP, B--REP, C--REP, and D--REP**) from PART I of this form) with the total Republican votes cast for executive council. If there are any significant discrepancies, please ask your election team to carefully review their tallies.

It is important to *resolve discrepancies on election night before announcing results* and avoid errors which, for example, may indicate more votes tallied in a contest than total ballots cast.
