

**THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION**

**CHRISTOPHER D. CLEMENT, SR.
COMMISSIONER**

**JEFF BRILLHART, P.E.
ASSISTANT COMMISSIONER**

Bureau of Construction
January 21, 2014

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Alvin J. Coleman & Son, Inc. (Vendor 154411) of Conway, NH on the basis of a low bid of \$1,569,739.40 for pavement rehabilitation on 1.2 miles of NH 112 (Kancamagus Highway) in the Town of Albany, from the date of Governor and Council approval through August 22, 2014 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows:	<u>FY 2014</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$1,569,739.40

2. Further authorize that a contingency in the amount of \$78,486.97 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2014</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$78,486.97

EXPLANATION

This project is part of the annual Federal Resurfacing Program and Forest Highway funding. The project involves pavement rehabilitation along 1.2 miles of NH 112 consisting of a sandwich treatment (12" of gravel, with 5" of pavement on top of the existing surface) with limited sections of reconstruction. This section of NH 112 was originally constructed in the 1960's and several maintenance overlays have since been performed, with the latest occurring in 1995. The pavement is in poor condition and is exhibiting thermal cracks, longitudinal cracking, rutting, and areas of pavement distortion. District crews have recently performed pavement patching and grader shim, and Bridge Maintenance crews have crack sealed the Albany Bridge No. 030/150 bridge deck. This work will extend the service life of the roadway and provide a smoother riding surface. The project also involves additional work (culvert replacements, minor repairs to Albany Bridge No. 030/150, guardrail replacement, and curb resetting) that will help prevent further deterioration and restore the roadway to eliminate the need for more costly improvements in the short-term future.

The contingency amount is proposed to be 5% of the contract amount. Due to the large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, approximate quantities in a few areas where there is a lack of survey, and unanticipated bridge work, because the true extent of deck repairs on Albany Bridge No. 030/150 is unknown.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Christopher D. Clement, Sr.
Commissioner

CDC/md

Department Estimate: \$1,589,520.25
Contract Amount: \$1,569,739.40
Under Estimate: \$ 19,780.85

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project is located in the Town of Albany on NH 112 (Kancamagus Highway) and extends from about 200 feet west of Downes Brook east approximately 1.2 miles. The existing roadway typical varies. The proposed roadway typical will consist of 11-foot travel lanes and 4-foot shoulders. The proposed pavement work involves about 0.3 miles of full box reconstruction and 0.9 miles of sandwich treatment averaging 12 inches in depth. Other work includes six culvert replacements, slope work to accommodate a 1.5-foot increase in the roadway profile due to the sandwich treatment, minor deck repairs on Albany Bridge No. 030/150 over Downes Brook, replacement of two guardrail runs, and resetting granite curb in the vicinity of the bridge.

FEDERAL FUNDING: Construction funding consists of Forest Highway monies (EFH) at 100% Federal participation, and Federal Resurfacing monies (PRRCS) at 80% Federal with a 20% State match.

CONTINGENCY: The contingency amount is proposed to be 5% of the contract amount due to a large quantity of paving to be performed during a time of unpredictable fuel and asphalt prices, approximate quantities in a few areas where there is a lack of survey, and unanticipated bridgework, because the true extent of deck repairs on Albany Bridge No. 030/150 is unknown.

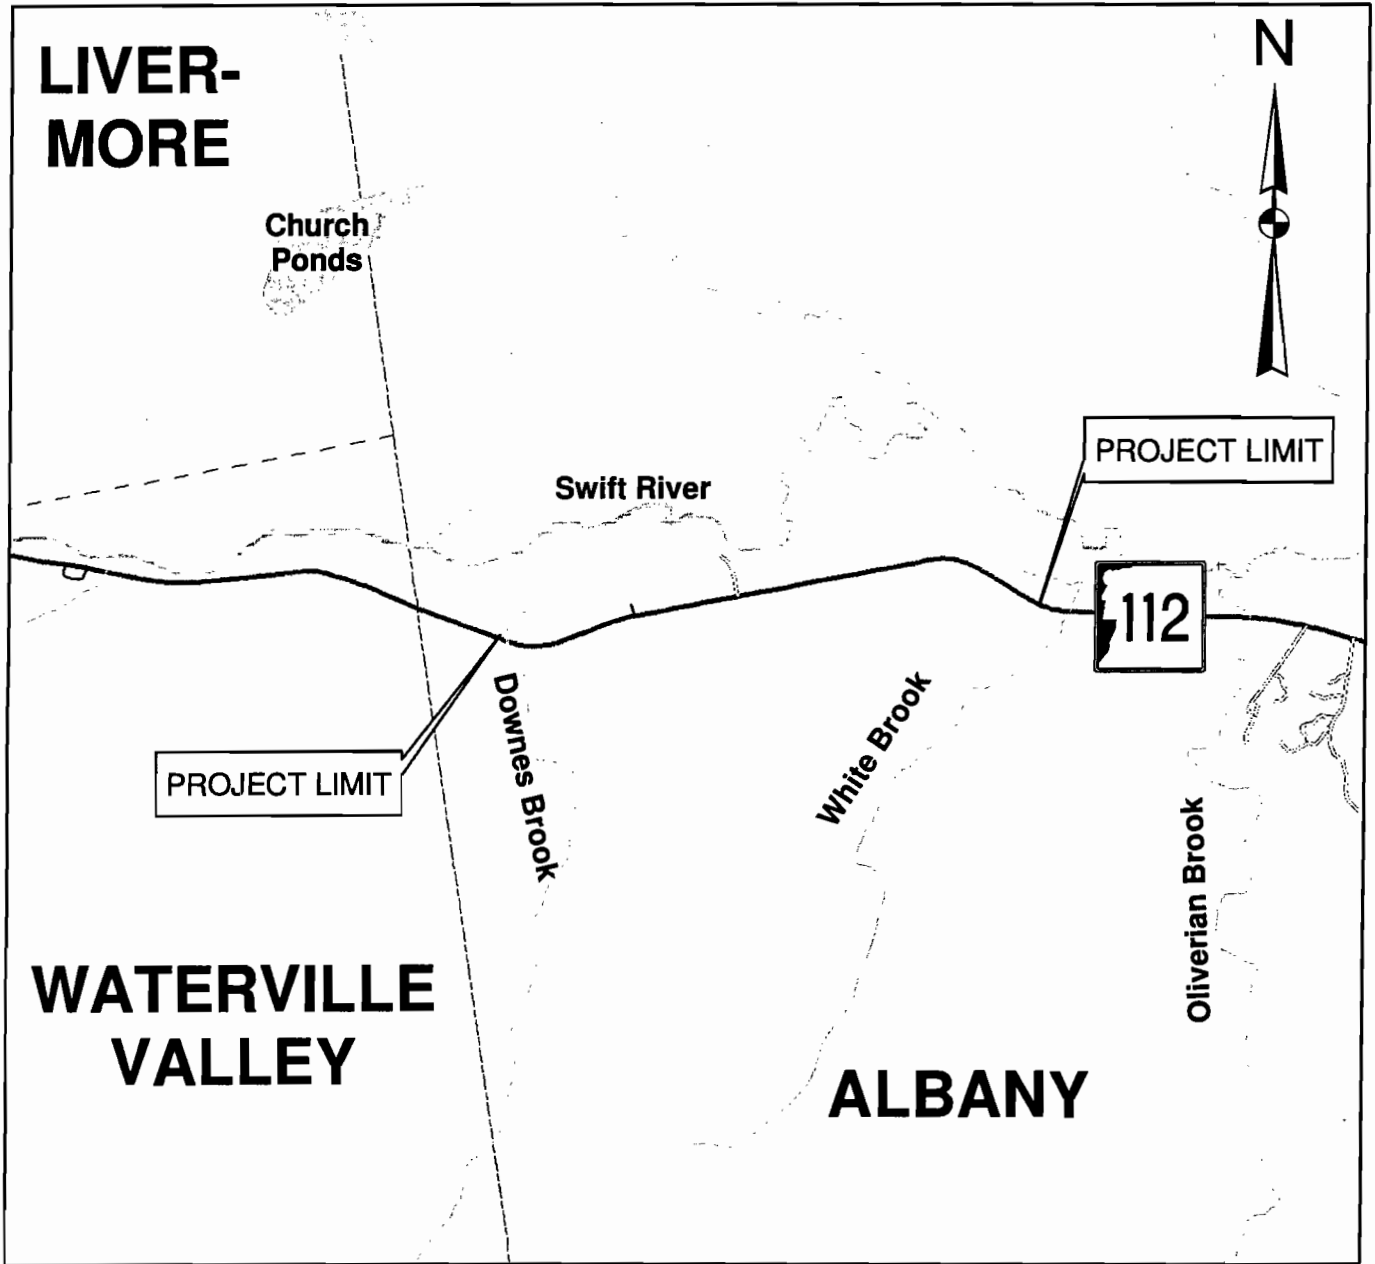

PROJECT INITIATED: This project was initiated under the Forest Highway Program.

PROJECT EXPLANATION: This section of NH 112 was originally constructed in the 1960s, and several maintenance overlays have since been performed, with the latest occurring in 1995. The pavement is in poor condition and is exhibiting thermal cracks, longitudinal cracking, rutting, and areas of pavement distortion. District crews have recently performed pavement patching and grader shim, and Bridge Maintenance crews have crack sealed the Albany Bridge No. 030/150 bridge deck. The pavement will be rehabilitated under this project to extend the service life of the roadway and provide a smoother riding surface. Additional work (culvert replacements, minor repairs to Albany Bridge No. 030/150, guardrail replacement, and curb resetting) will help prevent further deterioration and restore the roadway to eliminate the need for more costly improvements in the short-term future.

TRAFFIC IMPLICATION: Work shall be performed in such a way that does not adversely affect traffic from both sides of the roadway at any location at the same time. Portable changeable message signs shall be used for advanced notice of construction activities. Trailer-mounted speed limit signs may be used for speed reduction at the discretion of the Contract Administrator. Alternating one-way traffic with flaggers shall be utilized during full box reconstruction and sandwich treatment operations, and two-way traffic shall be maintained through these sections during non-work hours. Alternating one-way traffic with portable traffic signals shall be utilized during work on Albany Bridge No. 030/150, which shall be completed in two phases. Only one section of roadway shall be under construction during full box reconstruction and sandwich treatment operations, not to exceed half the length of the project, or a 0.6 mile segment, at any one time. Warning signs shall be used to direct motorcyclists' and cyclists' attention to unpaved sections of roadway, especially during Laconia Motorcycle Week and the numerous cycling events held on NH 112. The length of time the Radeke Cabin driveway is inaccessible shall be minimized.

FINAL COMPLETION DATE: August 22, 2014

CERTIFICATE OF LIABILITY INSURANCE

DATE (MM/DD/YYYY)
1/14/2014

THIS CERTIFICATE IS ISSUED AS A MATTER OF INFORMATION ONLY AND CONFERS NO RIGHTS UPON THE CERTIFICATE HOLDER. THIS CERTIFICATE DOES NOT AFFIRMATIVELY OR NEGATIVELY AMEND, EXTEND OR ALTER THE COVERAGE AFFORDED BY THE POLICIES BELOW. THIS CERTIFICATE OF INSURANCE DOES NOT CONSTITUTE A CONTRACT BETWEEN THE ISSUING INSURER(S), AUTHORIZED REPRESENTATIVE OR PRODUCER, AND THE CERTIFICATE HOLDER.

IMPORTANT: If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).
