ASSISTANT COMMISSIONER**

Bureau of Construction
April 16, 2014

Her Excellency, Governor Margaret Wood Hassan
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Brox Industries, Inc. (Vendor 177569) of Dracut, MA on the basis of a low bid of \$944,825.00 for roadway resurfacing on approximately 0.5 miles of NH 125 in Epping, from the date of Governor and Council approval through September 26, 2014 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows: FY 2014
04-96-96-963515-3054
Consolidated Federal Aid
400-500870 Highway Contract Payments \$944,825.00

2. Further authorize that a contingency in the amount of \$47,241.25 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows: FY 2014
04-96-96-963515-3054
Consolidated Federal Aid
400-500870 Highway Contract Payments \$47,241.25

EXPLANATION

This project is part of the annual Federal Resurfacing Program. The work involves pavement rehabilitation consisting of a 3" inlay. This section of NH 125 was reconstructed as part of developer work to build the Epping Crossing development, which includes Wal-Mart, Lowe's and Applebee's, in 2002. The pavement in this area sees heavy traffic loading and is showing signs of distress. The intersection of NH 125/Main Street/Epping Crossing has extensive rutting. The work also involves signal modifications and pedestrian accommodations at the intersection. All of the proposed work will remain within the right-of-way. This project will improve and extend the life of the pavement service and improve pedestrian safety.

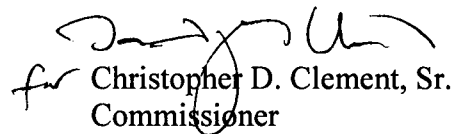

The contingency amount is proposed to be 5% of the contract amount. This is a one-season duration contract, with fixed limits, being constructed during a time of rising fuel prices. Adjusting limits to offset quantity overruns is not practical and potential fuel and asphalt adjustments need to be considered. Construction under high traffic volumes, maintaining two-lane traffic during certain hours, night work and lane closure operations also increase the risk of overruns for traffic control operations.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

for Christopher D. Clement, Sr.
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project involves placing a 3-inch inlay on NH 125 begins at a paving joint just north of the NH 101 exit 7 ramps (end of the concrete island), proceeding north approximately 0.5 mile to a pavement joint just north of the intersection of Railroad Ave. Miscellaneous work includes placing a sidewalk and pedestrian phase at the signal at Main St/NH 125 and placing a pedestrian hybrid beacon at the trail crossing (old railroad) on NH 125.

FEDERAL FUNDING: 80% from Federal Resurfacing Program (PRRCS #452), with anticipated utilization of Turnpike Toll credits as the State's 20% match.

CONTINGENCY: The contingency amount is proposed to be 5% for this contract. This is a one-season duration contract, with fixed limits, being constructed during a time of rising fuel prices. Adjusting limits to offset quantity overruns is not practical and potential fuel and asphalt adjustments need to be considered. Construction under high traffic volumes, maintaining two-lane traffic during certain hours, night work and lane closure operations also increase the risk of overruns for traffic control operations.

PROJECT INITIATED: State's 10-Year Transportation Improvement Program under the "parent" project PRRCS (Statewide Federal Resurfacing Program).

PROJECT EXPLANATION: This section of NH 125 was built as part of developer work to build the Epping Crossing development which includes Wal-Mart, Lowe's and Applebee's in 2002. The intersection of NH 125/Main St/ Epping Crossing has extensive rutting. All of the proposed work will remain within the right-of-way.

TRAFFIC IMPLICATIONS: Minimal traffic implications are anticipated. Work will be done by lane closures returning to normal traffic patterns prior to the beginning of non-work hours. No work will be permitted from May 23 to May 27, July 3 to July 7 and August 29 to September 2, 2014. No work that interferes with traffic shall be allowed Monday through Friday from 5:30 am to 7:30 pm and Saturday or Sunday between the hours of 8:00 am to 9:00 pm.
