

**THE STATE OF NEW HAMPSHIRE**  
DEPARTMENT OF TRANSPORTATION

**JEFF BRILLHART, P.E.**  
**ACTING COMMISSIONER**

Bureau of Construction  
December 18, 2014

Her Excellency, Governor Margaret Wood Hassan  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with Delucca Fence Company, Inc. (Vendor 161385) of Methuen, MA on the basis of a low bid of \$318,518.75 for replacement of substandard cable guardrail and "F" terminal end units on US 302 in the Town of Lisbon, from the date of Governor and Council approval through June 26, 2015 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows: FY 2015  
04-96-96-963515-3054  
Consolidated Federal Aid  
400-500870 Highway Contract Payments \$318,518.75

2. Further authorize that a contingency in the amount of \$31,851.88 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Funding is available as follows: FY 2015  
04-96-96-963515-3054  
Consolidated Federal Aid  
400-500870 Highway Contract Payments \$31,851.88

**EXPLANATION**

This project is part of the annual Highway Safety Improvement Program (HSIP). The intent of the project is to replace the existing sub-standard cable guardrail with new steel post and beam guardrail and extend the guardrail where necessary to bring the guardrail up to current standards. The project limits involve approximately 5 miles of US 302 between Lisbon and Littleton. The existing three-strand cable guardrail was originally constructed in the 1950's. The cable guardrail posts are rotten below ground, the cable is rusted and the height of the rail does not meet current safety standards and requires replacement. This project will also replace obsolete "F" terminals at the ends of existing beam guardrail runs constructed in 1985.

Page 2

The contingency amount is proposed to be 10% of the contract amount. This is a single season guardrail contract, with sites at various locations along US Route 302. Additional guardrail extensions, grading and environmental protection measures based on field condition may cause unanticipated overruns.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and that the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

David J. Brillhart, P.E.  
Acting Commissioner

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** This project involves replacement of substandard cable guardrail and “F” terminal end units. The project begins in the Town of Lisbon on US Route 302/NH Route 10 approximately 0.3 miles north of Pine Knoll Terrace at Pearl Lake Brook and continues north 5 miles ending approximately 0.2 miles north of the Lisbon/Littleton Town line. The new terminal end units will be installed approximately in the same location as the obsolete “F” units or may involve minor extensions of guardrail.

**FEDERAL FUNDING:** The Construction funding is identified from the Highway Safety Improvement Program (HSIP #6767) at 100% federal funding.

**CONTINGENCY:** The requested contingency is 10% of the contract amount. This is a single season guardrail contract, with sites at various locations along US Route 302. Additional guardrail extensions, grading and environmental protection measures based on field condition may cause unanticipated overruns.

**PROJECT INITIATED:** State’s Ten-Year Transportation Improvement Plan.

**PROJECT EXPLANATION:** This project is part of the Highway Safety Improvement Program’s safety improvements for 2015. The intent of the project is to replace the existing sub-standard cable guardrail with new steel post and beam guardrail and extend the guardrail where necessary to bring the guardrail up to current standards. The existing three-strand cable guardrail was originally constructed in the 1950’s. The cable guardrail posts are rotten below ground, the cable is rusted and the height of the rail does not meet current safety standards and requires replacement. This project will also replace obsolete “F” terminals at the ends of existing beam guardrail runs constructed in 1985.

**TRAFFIC IMPLICATIONS:** Two-way traffic will be maintained whenever possible. Daytime shoulder closures will be permitted in conjunction with traffic shifts allowing for guardrail and other operations, where feasible. Lane closures and one lane, alternating two-way traffic will be permitted with the use of flaggers. Eleven foot minimum width lanes will be provided for either one-lane, alternating two-way or two-way traffic patterns. In any event, two-way traffic will be restored prior to non-work hours.

**COMPLETION DATE:** The Completion Date is June 26, 2015.
