EXPLANATION

This agreement is **SOLE SOURCE** because the nonprofit Blue Ocean Society for Marine Conservation, Inc. (Blue Ocean) is the only organization in New Hampshire that conducts regular beach cleanups, coordinates the adopt-a-beach program that annually expands the number of clean-up sites, provides marine debris education and public information, and tracks marine debris data for submission to the UNH marine debris database. In addition, Blue Ocean has coordinated the annual International Coastal Cleanup in New Hampshire for the past ten years. These funds were specifically targeted for marine debris cleanup and data collection in the New Hampshire Coastal Program's (NHCP) annual work program to fulfill the NHCP's role under the federal National Marine Debris Monitoring Program (NMDMP), and to broaden the NHCP's marine debris expertise and outreach to communities throughout the coastal region. Annual grants to Blue Ocean to conduct beach cleanups and collect marine debris data have been part of the overall NOAA approved program and annual work plans for the past ten years.

The purpose of this project is to increase the marine debris collection and monitoring efforts currently being conducted in conjunction with the NMDMP, to include more areas as clean-up sites and increase public awareness of marine conservation issues through improved education and public information efforts. Blue Ocean will recruit and train new volunteers, conduct monthly cleanups at public beaches, involve local community residents in cleanup events and identify new cleanup sites for

the Adopt-a-Beach Program as well as collect, record and analyze data on the type and amount of debris collected. Additionally, Blue Ocean will organize and host a workshop for area educators and naturalists in order to increase awareness of local issues, data and resources. Lastly, the project includes funding for Blue Ocean to plan, coordinate and conduct the 2016 International Coastal Cleanup events in New Hampshire.

Total project costs are budgeted at \$105,825.00. DES will provide \$25,000.00 of the project costs through a federal grant. Blue Ocean will provide \$80,825.00 in matching funds.

In the event that Federal Funds become no longer available, General Funds will not be requested to support the project. This agreement has been approved by the Office of the Attorney General as to form, execution and content.
