## CONTRACT SUPPLEMENTAL INFORMATION SHEET

PROJECT: BPW Project No. 80731R, Contract A – Littleton Readiness Center Additions and renovations.

DESCRIPTION: The project consists of a 4000 square foot addition and minor renovations to the National Guard Readiness Center in Littleton, New Hampshire. Work includes, but is not limited to, structural framing, exterior finishes, roofing, doors & windows, interior finishes, plumbing, mechanical and electrical systems.

EXPLANATION: The readiness Center is in need of increased and improved classroom and office space. The addition will provide three additional classrooms, recruiting space, administrative office space and an historical gallery to display significant historical information about the Guard.

### OVER ESTIMATE

EXPLANATION: After reviewing the estimate numbers with the schedule of values from the apparent low bidder, there are four significant differences between the bid and estimate. The three that were higher on the bid were General condition, \$76,977 higher, Windows and curtain walls, \$81,082 higher and MEP was a total of \$67,700 higher. Structural steel was \$ 22,740 lower. It appears that the difference in General Conditions and MEP reflect the current bidding climate and genuinely less competitive market price. The difference in window and curtain wall price appears to reflect the actual cost for Department of Defense, blast resistance cost.

### ALTERNATES

EXPLANATION: Alternate No. 1: Existing building exterior window replacement. Work to include the complete replacement of all exterior windows associated with the

single story portion of the existing readiness center. Work shall include the removal of existing windows and masonry infill of original windows and associated masonry repairs.

Alternate No. 2: Female Latrine. Scope of work includes interior demolition of existing office and toilet rooms for purpose of creating a new female latrine.
