**EXPLANATION**

This contract is to repair the Pawtuckaway Fire Tower in Nottingham, NH. It is the second phase of a 2-phase project to repair 3 fire towers, i.e. Green Mountain, Kearsarge Mountain, and Pawtuckaway Mountain, all requiring airlift transport to mobilize for construction. The work includes replacement of the tower cabs, reinforcement of tower structural steel, foundation repair, new stair treads and guard rails, and painting of the tower steelwork. Sufficient capital funding to cover the Kearsarge Mountain Fire Tower is unavailable at this time therefore completion of that portion of the multi-phase project is currently on hold.

In December of 2014, an invitation to submit bids for "Airlift Accessible State Fire Tower Upgrades" was advertised on the Department of Administrative Services' website and also on 5 construction industry websites. A mandatory on-site pre-bid meeting was held on December 16, 2014 at the Warner Hill Fire Tower at which 15 general contractors and 1 sub-contractor were present. Bids closed on February 26, 2015 at a public bid opening at DRED's offices in Concord. Four (4) bids were received and Project Resources Group, LLC was selected as the low-bid contractor for the 2-phase project. The Phase 1 contract covered repair of the Green Mountain Fire Tower. That contract price also included a \$15,000 allowance which was originally built in the bid specifications for all bidders to cover any unforeseen costs that might be necessary due to the remote location and age of the towers, as well as the unpredictability of

tower foundation conditions. The Phase 2 contract is for the repairs to the Pawtuckaway Mountain Fire Tower. Due to our previous experience with unforeseen costs associated with the Phase 1 contract, the Department is requesting a \$15,000 contingency for the Phase 2 contract.

The Attorney General's office has reviewed and approved this contract as to form, substance and execution.

Respectfully submitted,

Concurred,

Brad Simpkins
