EXPLANATION

The stipends are received because of the unique opportunity for Physician Assistant students at the Massachusetts College of Pharmacy and Health Sciences, based in Manchester New Hampshire, to spend one month observing autopsies and operations of New Hampshire's death investigation system. This exposes the students to basic anatomy and physiology in a manner unmatched by any cadaver lab or computer simulated anatomic dissection. Furthermore, students learn firsthand the public health mission of the Medical Examiner's office, broadening their education in clinical medicine, making them more effective as health care providers.

Based on need and current projections, these funds will supplement the budget in current expense. There is no cost to the state for providing this service to the students.

Respectfully submitted,

 Joseph A. Foster
