May 15, 2016

Her Excellency, Governor Margaret Wood Hassan  
and The Honorable Council  
State House  
Concord, New Hampshire 03301

REQUESTED ACTION

Authorize the Department of Environmental Services to award a **SOLE SOURCE** agreement to the Rockingham Planning Commission (VC #154887), Exeter, NH, in the amount of \$12,500 to provide planning technical assistance to member coastal communities, effective as of July 1, 2016 through June 30, 2017 upon Governor and Council approval. 100% Federal Funds.

Funding is available in the account as follows.

	<u>FY17</u>
03-44-44-442010-3642-102-500731	\$12,500
Dept. Environmental Services, Coastal Zone Management, Contracts for Program Services	

EXPLANATION

This award is **SOLE SOURCE** because the Rockingham Planning Commission is the only entity that provides municipal planning services to its twelve member coastal communities. The New Hampshire Coastal Program (NHCP) annual program budget includes local technical planning assistance funds for the Natural Resources Outreach Coalition (NROC) and the two Regional Planning Agencies – Rockingham Planning Commission (RPC) and Strafford Regional Planning Commission (SRPC) – that serve communities located in the coastal zone. These funds were specifically targeted for technical assistance to support partnerships with NROC, RPC and SRPC on environmental issues of common concern where the planning agencies can broaden the NHCP's expertise and outreach to communities throughout the coastal region. The NHCP Technical Assistance contracts have been part of the overall NOAA approved program and annual work plans for the past twenty years. NHCP staff meets annually with the directors and staff of the three organizations to develop program priorities and annual work programs for inclusion in the annual NHCP budget. All three agencies provide professional planning assistance and services to municipal planning boards and staff in the communities they serve.

The purpose of this agreement is to support the RPC in its provision of technical planning assistance to its member coastal communities. Funds will be used to 1) provide technical assistance to communities in the areas of land use planning and hazard mitigation planning in conjunction with the Coastal Adaptation Workgroup; 2) provide staff support for the Coastal Risks and Hazards Commission; and 3) provide technical assistance to municipalities to support, prepare and implement a wide range of actions, assessments and engagement designed to incorporate climate adaptation and resiliency into local plans, policies and procedures.

Total project costs are budgeted at \$25,000. DES will provide \$12,500 of the project costs through this federal grant. The RPC will provide \$12,500 in matching funds. A budget breakdown is provided in Attachment A.

In the event that the Federal funds become no longer available, general funds will not be requested to support this program. This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

  
Thomas S. Burack, Commissioner

## Exhibit A Scope of Services

The Rockingham Planning Commission (RPC) will perform the following tasks as described in the detailed proposal titled *Project Proposal for Coastal Zone Program Funding*, which was submitted by RPC and dated January 27, 2016:

1. Staff Participation in the Coastal Adaptation Workgroup (CAW): RPC will provide staff support for the CAW through meeting attendance, outreach efforts and other assistance. The CAW coordinates efforts to assist communities in responding to climate change risks, and RPC's role as one of the CAW partners is important for its success, especially with respect to the delivery of technical assistance to communities in the areas of land use planning and hazard mitigation planning.
2. Staff participation in the NH Coastal Risk and Hazards Commission (CRHC): RPC will provide staff support through meeting participation and other assistance. The CRHC was established under RSA 483-E in 2013 for the purpose of recommending legislation, rules, and other actions to prepare for projected sea level rise and other coastal and coastal watershed hazards such as storms, increased river flooding, and storm water runoff, and the risks such hazards pose to municipalities and state assets in New Hampshire. The Commission has limited access to technical assistance and staff support, except that provided by members and their represented agencies. RPC will provide limited staff support to attend meetings, prepare agendas, provide technical planning assistance and general support until the Commission sunsets, and collaborate with CAW and Coastal Program staff on outreach efforts for the CRHC report and recommendations through 2017.
3. Local technical assistance program for municipalities in the RPC region focused on climate adaptation and resiliency: The RPC will provide technical assistance to municipalities to support, prepare and implement a wide range of actions, assessments and engagement designed to incorporate climate adaptation and resiliency in local plans, policies and procedures, and raise awareness of climate change impacts and issues within the community. Technical assistance may include but is not limited to: A) assisting municipalities with adopting the Southeast Watershed Alliance model stormwater standards; B) assisting municipalities with advanced planning and/or implementation of stormwater pollution reduction or C) implementing recommendations from the Coastal Resilience in the Seacoast (C-RiSe) project. To the extent possible, this work will be planned and coordinated with other Coastal Program partners to avoid duplication and maximize benefit.
4. Funding credit requirement on final work products and outreach materials: All final work products and outreach materials associated with the work for items 1 through 3 above shall include the NOAA, NHCP and DES logos. All work products and outreach materials shall state that "This project was funded, in part, by NOAA's Office for Coastal Management under the Coastal Zone Management Act in conjunction with the NH Department of Environmental Services Coastal Program." Examples of final work products and outreach materials include, but are not limited to, final reports, press releases, newsletter articles, website pages, and signage.
5. Progress Report: RPC shall prepare and submit a semi-annual progress report that summarizes work completed for items 1 through 3 above during the project start date through December 31, 2016. An electronic version in .pdf format shall be submitted. The report shall be due no later than January 13, 2017.

6. Final Report: RPC shall prepare and submit a final report that summarizes all activity in items 1 through 3 above at the close of the project. An electronic version in .pdf format shall be submitted. The final report shall summarize the project and shall include a financial summary by federal budget category of project costs. A funding credit statement identical to the quotation in 4 above shall appear on the final report. Logos of sponsoring agencies (NHDES, NHCP & NOAA) shall also appear on the final report. The final report shall be due no later than June 30, 2017.

**Exhibit B**  
**Method of Payment and Contract Price**

The State shall pay to the Contractor the total reimbursable program costs in accordance with the following requirements:

Reimbursement requests for program costs shall be made by the Contractor using a payment request form as supplied by the State, which shall be completed and signed by the Contractor. The payment request form shall be accompanied by proper supporting documentation in the amount of each requested disbursement and required matching funds. Documentation of reimbursable and matching costs may include invoices for supplies, equipment, services, contractual services, and a report of personnel, travel and indirect costs. For projects that demonstrate progress solely through the submission of interim progress reports, payments shall be made upon receipt, review and approval of the interim progress report and accompanying payment request form. Pre-agreement costs may be reimbursed or counted as matching funds as long as those costs were incurred within the effective period of the federal grant and after State approval of the project. The Contractor must request prior written approval from the State to incur pre-agreement costs. Payments shall be made to the Contractor no more frequently than monthly.

The total reimbursement shall not exceed the grant award of \$12,500. Matching funds provided by the Contractor shall total at least \$12,500 of non-federal cash and in-kind services.
