

Cover Letter

March 31, 2017

Dear Mr. Stevens and the State of New Hampshire Team:

This response is submitted by Tenex Software Solutions, Inc. and Inclusion Solutions with respect to the State of New Hampshire Request for Information RFI Electronic Poll Book System.

Tenex, in conjunction with Inclusion Solutions is uniquely qualified to offer the superior iPad-based Precinct Central ePollbook, the most flexible and comprehensive electronic pollbook solution available today.

Tenex's solution will help the State of New Hampshire reduce election related costs, make the voter check in process quicker and more accurate, and to simplify communication between poll workers, roving deputies, technical support specialists, and election central. The Tenex Precinct Central Touchpad is the optimal solution to help the State of New Hampshire move forward with this new technology. The Tenex Precinct Central ePollbook is built upon the iPad platform, the most optimal platform for electronic pollbooks in terms of security, reliability, and familiarity for poll workers.

Inclusion Solutions has been a trusted partner with counties throughout the State of New Hampshire. Inclusion Solutions has provided thousands of products to many of the counties statewide. Inclusion Solutions has worked with e-pollbook implementations in multiple states, providing customer support for a smooth implementation.

It is our privilege to demonstrate these innovative concepts in person to the State of New Hampshire. On behalf of Tenex and Inclusion Solutions, we are confident that these products and our unmatched team will provide the State of New Hampshire with a superior, integrated, electronic pollbook implementation plan.

Sincerely,

Ravi Kallem, President, Tenex Software Solutions, Inc.

Hollister Bundy, President, Inclusion Solutions Election
