**REQUESTED ACTION**

Authorize the New Hampshire Department of Environmental Services (DES) to award an Aquatic Resource Mitigation (ARM) Fund grant to the Southeast Land Trust of New Hampshire (hereinafter "SELT") of Exeter, NH (Vendor Code #155425) in the amount of \$78,240 for the purpose of acquiring a conservation easement and a parcel of land in Candia and Nottingham, effective upon G&C approval through June 30, 2018. 100% Aquatic Resource Mitigation Funds.

Funding is available in the account as follows:

Dept. Environmental Services, In-Lieu Wetland Mitigation, Grants – Non - Federal

**EXPLANATION**

New Hampshire RSA 482-A:3 requires a wetland permit for any proposed project that involves dredging or filling of a wetland. Before a wetland permit is issued, applicants must show that the proposed project will avoid adverse impacts to wetlands and will minimize and provide compensation for those wetland impacts which are unavoidable.

The DES wetlands program adopted a set of mitigation rules that establish what is necessary for an applicant to provide for wetland compensation. The current department rules spell out ratios for wetland compensation that include creating a new wetland, restoring a former wetland site, or protecting a high-quality aquatic resource by preserving adjacent upland habitat. The newest improvement, begun in 2006, to the mitigation options is commonly referred to as an *in-lieu fee program*. This mitigation option is ideal for projects that have difficulty in locating an appropriate mitigation site. The Aquatic Resource Mitigation Fund (ARM) authorizes the collection of mitigation funds in lieu of other forms of wetland mitigation as part of a Wetlands Permit Application.

The Department issued the request for proposals for ARM Funds available in the Salmon Falls – Piscataqua River watershed in April, 2016. The SELT applications were received and on November 28, 2016, DES announced the decision to fund the SELT projects in the Salmon Falls – Piscataqua River watershed. The two projects proposed by the SELT were recommended for funding by the ARM Fund Site Selection Committee. Attachment A lists the proposals received and Committee members involved in the decision. The review of the awards by the Army Corps of Engineers (hereinafter "Corps") and the New Hampshire Wetland Council resulted in full support of the recommendations.

The Candia project will protect a 127-acre parcel that includes eight large vernal pools and nearly 900 feet of river/stream shoreline in the regionally significant Upper North Branch River Core Focus Area as identified by the Land Conservation Plan for NH's Coastal Watersheds. The Candia property is within a Blanding's turtle priority conservation area identified by New Hampshire Fish and Game Department and connects the property's habitat to an existing 388-acre block of conservation land.

The second project includes the permanent protection of a 65-acre parcel of land in Nottingham owned by Peter A. Zanard. The property is located in the headwaters of Rollins Brook, a tributary to the North River, Lamprey River, and the Great Bay Estuary. This property includes a 13-acre beaver impoundment and three confirmed vernal pools. This property connects to more than 2,000 acres of protected lands east of Pawtuckaway State Park, including the Harvey Forest at Kennard Hill, with more than 1,100 acres of open space. Attachment B includes a map of the two properties.

In the event that other funds no longer become available, general funds will not be requested to support this program. This agreement has been approved as to form, content, and execution by the Attorney General's Office.

We respectfully request your approval.

The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

**SCOPE OF SERVICES**

1. The State of New Hampshire, its successors and assigns, represented by the Department of Environmental Services (DES), agree to grant the Southeast Land Trust of New Hampshire (hereinafter "SELT") the amount of \$78,240.00 for the purpose of acquiring and protecting land owned by Peter A. Zanard, his successors and assigns, an approximately 65.14-acre parcel of land located on Ledge Farm Road in the Town of Nottingham, County of Rockingham, State of New Hampshire, identified on the Nottingham tax records as Tax Map 59 Lots 1 & 2 (hereinafter the "Zanard Property"), and for the purpose of acquiring a conservation easement on an approximately 127-acre portion of land owned by Dennis & Daniel Lewis, their successors and assigns, in the Town of Candia, County of Rockingham, State of New Hampshire, identified on the Candia tax records as Tax Map 406 Lot 94 (hereinafter the "Lewis Property"). 3. As future owner of the fee interest of the Zanard Property and Grantee of the Conservation Easement on the Lewis Property, SELT accepts the following conditions or restrictions:
  - a. To utilize the funds herein provided by the State of New Hampshire, acting through DES, for the acquisition and protection of the Zanard Property and the recordation of a conservation easement on the Lewis Property as soon as practicable, time being of the essence. The project shall be completed within 12 months of the notification of the award.

The sign should contain as a minimum the DES logo and the following statement: "This property has been protected with assistance from the New Hampshire Aquatic Resource Mitigation Fund." Should the DES sign be damaged or destroyed, SELT agrees to work with the Department to repair or replace it with identical signage and to share any costs associated with that repair or replacement to the extent reasonably practicable.
