His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Pike Industries, Inc. (Vendor 177300) of Belmont, NH on the basis of a single bid of \$3,371,025.10 for pavement rehabilitation on I-89 in Grantham and Enfield, from the date of Governor and Council approval through June 29, 2018 unless extended by the Department in accordance with the Standard Specifications. 98% Federal Funds and 2% Betterment funds.

Funding is available for FY 2018 contingent upon the availability and continued appropriation.

Funding is available as follows:	<u>FY 2018</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$3,312,202.90

Funding is available as follows:	
04-96-96-963015-3039	
Highway Betterment Aid	
400-500870 Highway Contract Payments	\$58,822.20

2. Further authorize that a contingency in the amount of \$134,841.00 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 4% of the contract amount.

Funding is available as follows:	<u>FY 2018</u>

Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$134,841.00

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan, under the T 1 Pavement and Preservation Program. This project begins on I-89 at a pavement joint just north of Exit 13 (MM 43.6) in Grantham proceeding north 7.2 miles to a pavement joint just north of Exit 15 (MM 50.8) in Enfield. I-89 travel way will be crack sealed and receive a bonded wearing course treatment. Additional I-89 mainline work includes drainage replacement, sinkhole repair and ledge scaling. Work on the Exit 14 and 15 ramps includes various pavement treatments including crack sealing, pavement inlay, and bonded wearing course. The 1 mile section of the adjacent bike path between Exits 14 and 15 is included on this project. Work on the shared use path includes crack and frost heave repair followed by a 3/4" plant mix surface treatment.

This project is part of the PAVE-T1-PRES Program. This segment of I-89 was originally constructed a barrel at a time with plans dating from 1958 and 1971. This section of I-89 was last resurfaced in 2009 with a leveling course and 1" overlay. Along I-89 and the Exit 15 northbound ramps, the pavement is showing signs of wear and needs to be preserved to maintain the riding surface and extend its service life. The pavement on Smith Pond Road and some of the ramps need rehab due to aging pavement. This pavement preservation project will extend the life of the existing infrastructure and eliminate the need for more costly improvements in the short-term future.

The contingency amount is proposed to be 4% of the contract amount. The project was not surveyed and therefore items have been quantified based on field observations, as-built plans, and aerial photos only. Field adjustments may be required due to varying field conditions.

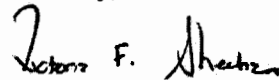

Although there was only one bid received and the bid costs exceeded the Department's estimate by 15%, this bid is felt to be reasonable for the work involved and pricing received is reasonably consistent with other recently opened bids. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

The project is 80% (Federal Resurfacing) with 20% Turnpike Toll Credits (TTC), with the Smith Pond Road section funded by Betterment 2018.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project begins on I-89 at a pavement joint just north of Exit 13 (MM 43.6) in Grantham proceeding north 7.2 miles to a pavement joint just north of Exit 15 (MM 50.8) in Enfield. Paving of the Exit 14 and 15 ramps, Smith Pond Road and the section of the adjacent bike path between Exits 14 and 15 is included on this project. Other work involves replacing median underdrain, asphalt sluice drains with DI-DB's and slope drains, filling in sinkholes, rock scaling and replacing existing slope drains.

FEDERAL FUNDING: The project is 80% (Federal Resurfacing) with 20% Turnpike Toll Credits (TTC), with the Smith Pond Road section funded by Betterment 2018.

CONTINGENCY: The contingency amount is proposed to be 4% of the contract amount. The project was not surveyed and therefore items have been quantified based on field observations, as-built plans, and aerial photos only. Field adjustments may be required due to varying field conditions.

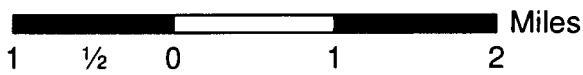

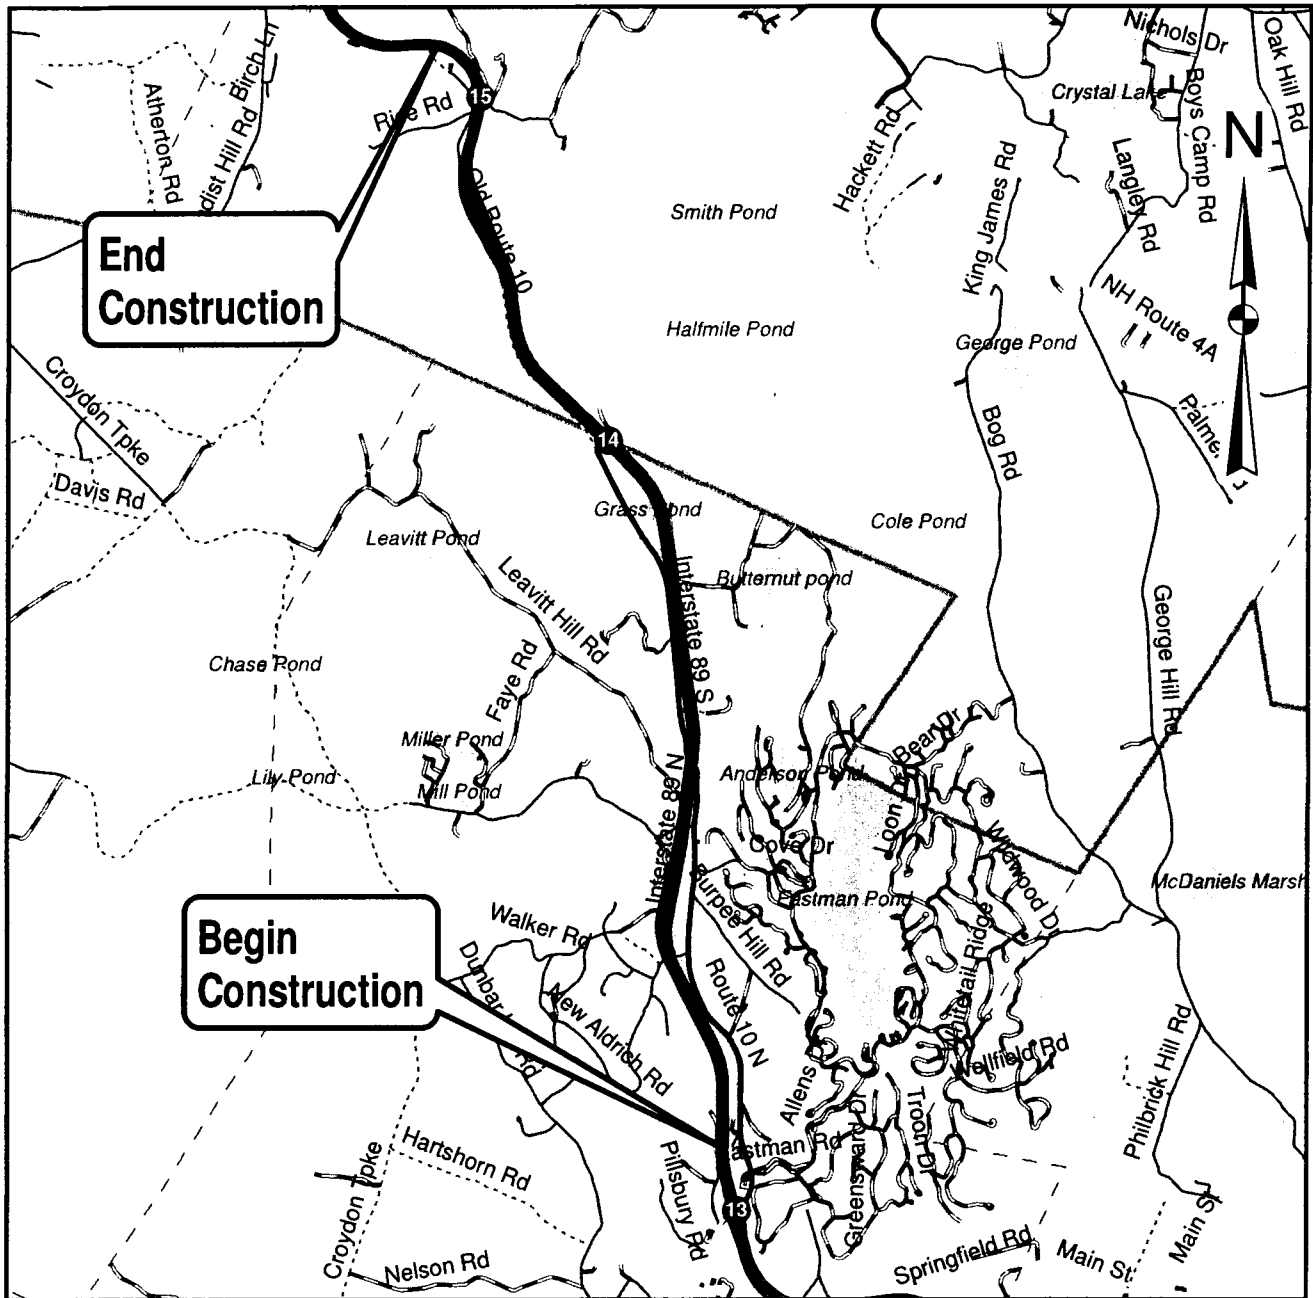

PROJECT INITIATED: State's 10-Year Plan – Tier 1 Pave. Preservation (PAVE-T1-PRES)

PROJECT EXPLANATION: This project is part of the PAVE-T1-PRES Program. This segment of I-89 was originally constructed a barrel at a time with plans dating from 1958 and 1971. This section of I-89 was last resurfaced in 2009 with a leveling course and 1" overlay. Along I-89 and the Exit 15 northbound ramps, the pavement is showing signs of wear and needs to be preserved to maintain the riding surface and extend its service life. The pavement on Smith Pond Road and some of the ramps need rehab due to aging pavement. This pavement preservation project will extend the life of the existing infrastructure and eliminate the need for more costly improvements in the short-term future.

TRAFFIC IMPLICATIONS: The speed limit within the lane shift on I-89 will be reduced from 65 mph to 55 mph while the lane shift is in place at the I-89 Exit 15 SB Off ramp. Ramps will be closed at night one at a time to accomplish ramp work, traffic will be detoured to the nearest ramp for a turn round except for Exit 14 SB Off ramp which will go to Exit 13 SB Off, North on NH Route 10. The Exit 14 NB On ramp detour will go South on NH Route 10 to Exit 13 NB On ramp.
