EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan under the Bridge T1/T2 Maintenance and Preservation Program. This project consists of bridge preservation work (replacement of the bridge deck pavement and membrane and partial and full depth deck repair) on the following four bridges:

- Sunapee Br. No. 067/078, NH 103 over Sugar River – (includes new coping and br rail)
- Sunapee Br. No. 069/079, NH 11 Ramp over Sugar River – (includes painting two beams)
- Sunapee Br. No. 071/087, NH 11 Ramp over Sugar River
- Sunapee Br. No. 103/100, NH 11 Ramp over Sugar River - (includes new coping, sidewalk, and br rail)

Br. Nos. 067/078, 071/087, and 103/100 were built in 1957 and have not been addressed by a preservation contract. Sunapee Br. No. 069/079 has not been addressed since the deck was widened in 1979. The concrete decks of all bridges are showing signs of deterioration, the coping and bridge rail of 067/078 and 103/100 are in need of replacement, and the two beams (the widening) of 069/079 are in need of painting. This preservation project will address and fix these issues to extend the life of these structures and keep them off the State's Red List.

The contingency amount is proposed to be 10%. This work preserves a bridge built in 1923 (Br. No. 069/079) and three bridges built in 1957 (Br. Nos. 067/078, 071/086, and 103/100). These bridges have not received preservation activities except for a deck overlay and membrane of Br. No. 069/079 in 1979. The work includes partial and full depth deck repairs. The extent of this work has been estimated, but the full extent of the work won't be fully known until the existing asphalt and membrane are removed from the bridge. These factors increase the risk of overruns.

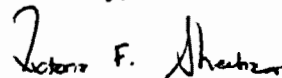

Although the bid costs exceeded the Department's estimate by 1.03%, the low bid of 4 bids received is felt to be reasonable for the work involved. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project consists of bridge preservation work (replacement of the bridge deck pavement and membrane and partial and full depth deck repair) on the following four bridges:

- Sunapee Br. No. 067/078, NH Route 103 over Sugar River – (includes new coping and br rail)
- Sunapee Br. No. 069/079, NH 11 Ramp over Sugar River – (includes painting two beams)
- Sunapee Br. No. 071/087, NH 11 Ramp over Sugar River
- Sunapee Br. No. 103/100, NH 11 Ramp over Sugar River - (includes new coping, sidewalk, and br rail)

FEDERAL FUNDING: 80% with anticipated utilization of Turnpike Toll Credits for the State's 20% match

CONTINGENCY: The contingency amount is proposed to be 10%. This work preserves a bridge built in 1923 (Br. No. 069/079) and three bridges built in 1957 (Br. Nos. 067/078, 071/086, and 103/100). These bridges have not received preservation activities except for a deck overlay and membrane of Br. No. 069/079 in 1979. The work includes partial and full depth deck repairs. The extent of this work has been estimated, but the full extent of the work won't be fully known until the existing asphalt and membrane are removed from the bridge. These factors increase the risk of overruns.

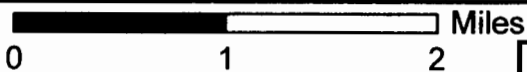

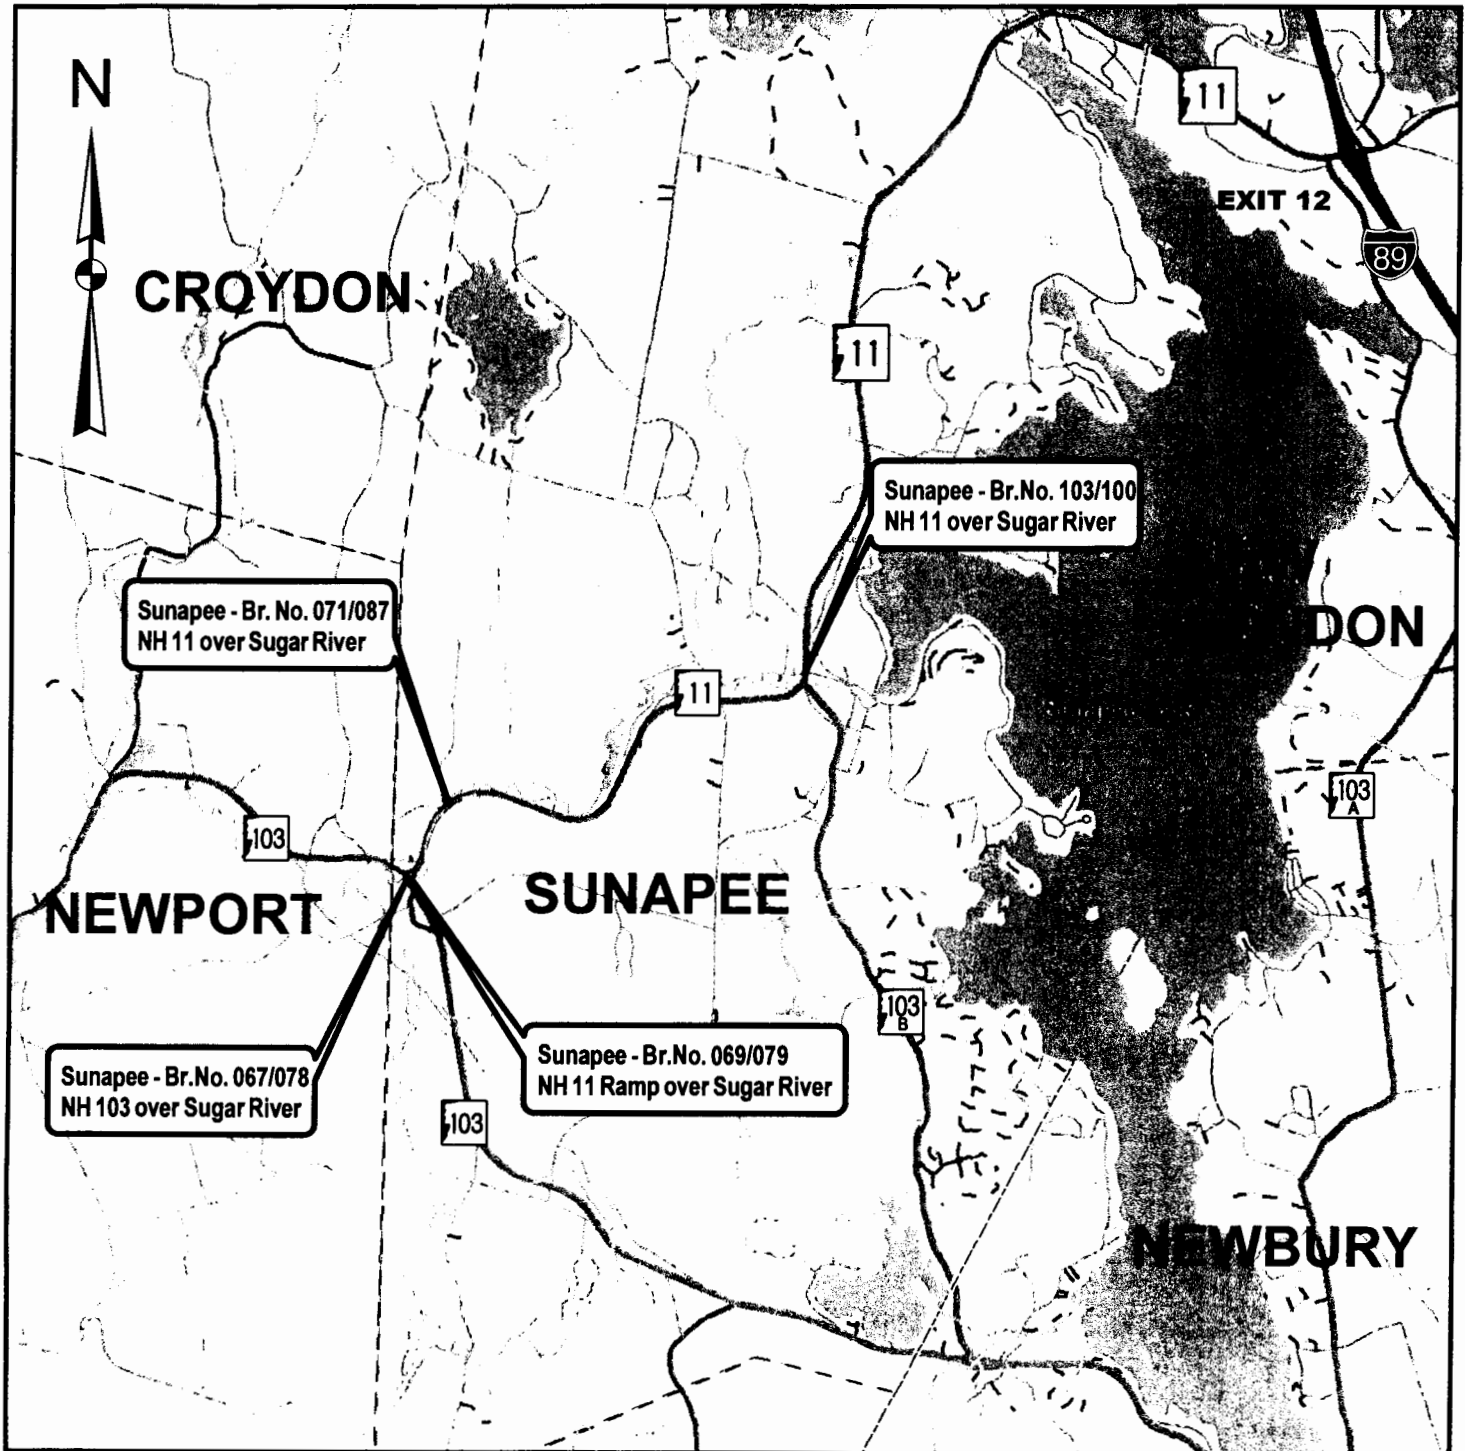

PROJECT INITIATED: 2017 M&P Priority List

PROJECT EXPLANATION: Br. Nos. 067/078, 071/087, and 103/100 were built in 1957 and have not been addressed by a preservation contract. Sunapee Br. No. 069/079 has not been addressed since the deck was widened in 1979. The concrete decks of all bridges are showing signs of deterioration, the coping and bridge rail of 067/078 and 103/100 are in need of replacement, and the two beams (the widening) of 069/079 are in need of painting. This preservation project will address and fix these issues to extend the life of these structures and keep them off the State's Red List.

TRAFFIC IMPLICATION: The project begins in the spring of 2018. Br. Nos. 067/078 and 069/079 will utilize one-lane of one-way only traffic while traffic that would travel in the other direction will be diverted to the adjacent bridge. Slip ramps will be built to allow traffic on the adjacent bridge to move freely. The other two bridges will be reduced to one-lane, alternating two-way traffic using signals.
