

THE STATE OF NEW HAMPSHIRE DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan Commissioner

William Cass, P.E. Assistant Commissioner

His Excellency, Governor Christopher T. Sununu and the Honorable Council State House Concord, New Hampshire 03301

Bureau of Construction April 27, 2018

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Annseal, Inc. (Vendor 160681) of Johnson City, NY on the basis of a low bid of \$583,699.00 for pavement preservation/crack sealing on Tier 1 roadways; a 23 mile section of I-93 in the towns of Ashland, Plymouth, Holderness and Campton, and a 26.5 mile section of NH 101 in the towns of Epping, Brentwood and Exeter, from the date of Governor and Council approval through September 28, 2018 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2018 and 2019 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Table with 3 columns: Funding description, FY 2018, FY 2019. Row 1: Consolidated Federal Aid 400-500870 Highway Contract Payments, \$100,000.00, \$483,699.00

2. Further authorize that a contingency in the amount of \$29,184.95 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Table with 3 columns: Funding description, FY 2018, FY 2019. Row 1: Consolidated Federal Aid 400-500870 Highway Contract Payments, \$29,184.95

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan under the Tier 1 Pavement Preservation Program. This contract consists of crack sealing on two segments of Tier 1 roadways. One segment is a section of I-93 in the towns of Ashland, Plymouth, Holderness, and Campton. The other segment is a section of NH-101 in the towns of Epping, Brentwood, and Exeter.

I-93: MM 75.0 to MM 83.2 and MM 85.0 to MM 86.3 All Ramps of Exits 24, 25, and 26 Total Length including Ramps: 23 miles

NH-101: MM 115.2 to MM 124.6 All Ramps of Exits 6 - 9 EB/WB Truck Inspection Areas Total Length including Ramps: 26.5 miles

The purpose of this project is to preserve and extend the life of existing pavement placed under recent Construction, Rehabilitation, and Resurfacing projects. The above sections were last paved between 2007 and 2014. Crack seal will be full width for all of the proposed sections.

The contingency requested is 5% of the contract amount, and is necessary to account for the variability in the number, length and severity of cracks.

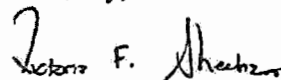

Although the bid costs exceeded the Department's estimate by 39.15%, the low bid of 2 bids received is felt to be reasonable for the work involved. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$419,477.50
Contract Amount: \$583,699.00
Over Estimate: \$164,221.50

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This contract consists of two segments on Tier 1 roadways. One segment is a section of I-93 in the towns of Ashland, Plymouth, Holderness, and Campton. The other segment is a section of NH-101 in the towns of Epping, Brentwood, and Exeter.

I-93: MM 75.0 to MM 83.2 and MM 85.0 to MM 86.3
All Ramps of Exits 24, 25, and 26
Total Length including Ramps: 23 miles

NH-101: MM 115.2 to MM 124.6
All Ramps of Exits 6 – 9
EB/WB Truck Inspection Areas
Total Length including Ramps: 26.5 miles

FEDERAL FUNDING: 80% (Pave-T1-Preservation) with Turnpike Toll Credits anticipated for the State's 20% match.

CONTINGENCY: The contingency requested is 5% of the contract amount, and is necessary to account for the variability in the number, length and severity of cracks.

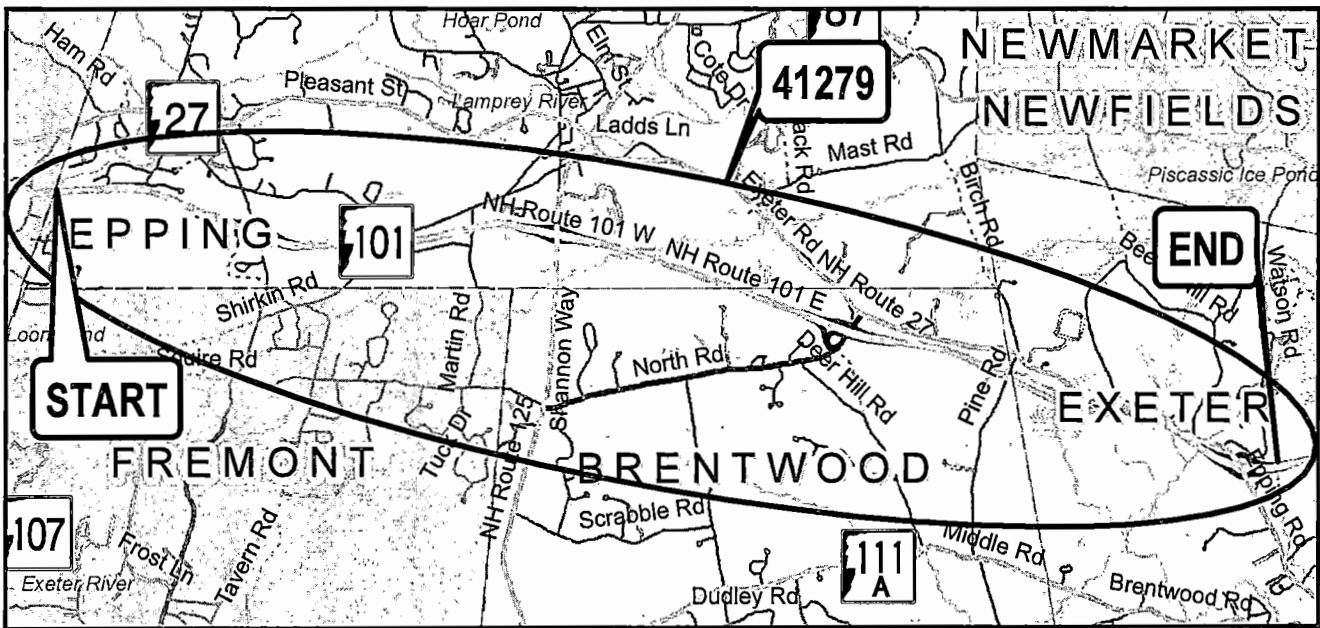

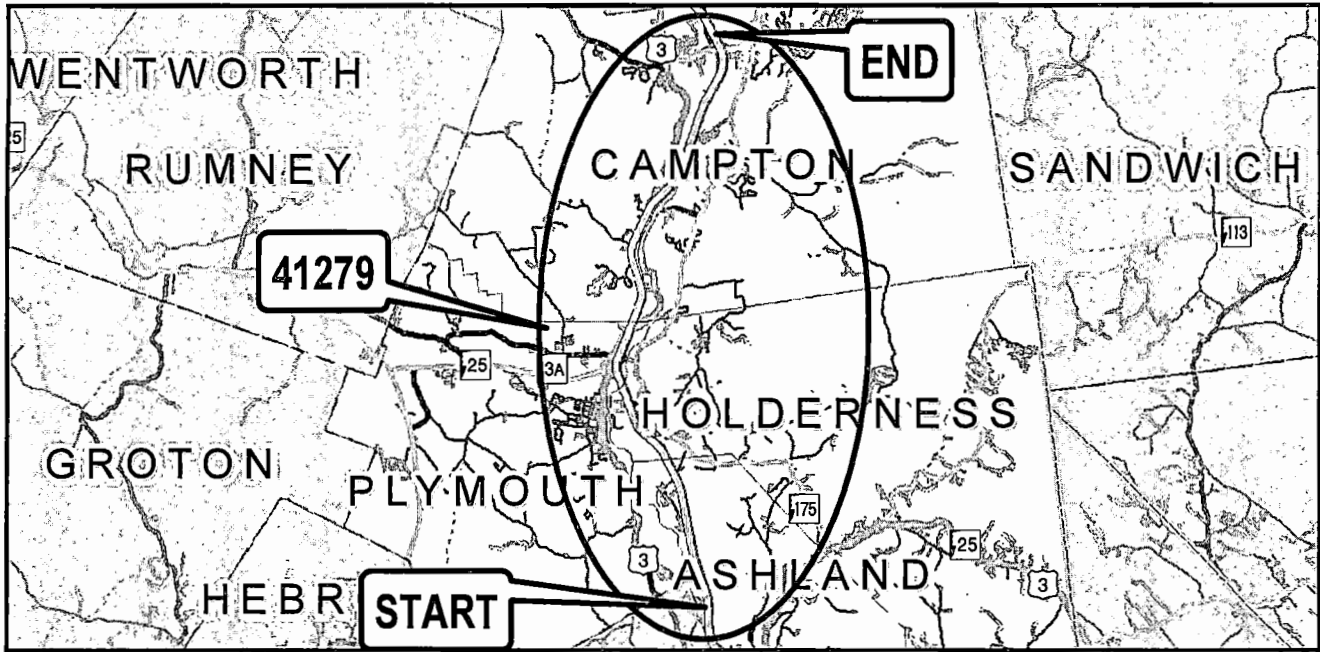

PROJECT INITIATED: State's Ten-Year Plan, under the Pave-T1-Preserve Programmatic

PROJECT EXPLANATION: The purpose of this project is to preserve and extend the life of existing pavement placed under recent Construction, Rehabilitation, and Resurfacing projects. The above sections were last paved between 2007 and 2014. Crack seal will be full width for all of the proposed sections.

TRAFFIC IMPLICATION: Mainline lane and shoulder closures will be required. Lane closures will not be allowed during peak commuting hours, typically when hourly volume exceeds 1,200 vehicles per hour. Maximum length of lane closure will be 1 mile. Speed limits will be reduced by 10 mph on sections posted 50 mph or higher, during work hours only. Night work will be required on NH 101 EB/WB, ramps, and 2 of the ramps on I-93. The remaining ramp work on I-93 will be done half at a time, during low volume periods, typically when the hourly volume is less than 200 vehicles per hour.

FINAL COMPLETION DATE: September 28, 2018
