CONTRACT SUPPLEMENTAL INFORMATION SHEET

PROJECT: DPW Project No. 80959, Contract B – Waterline and Sprinkler Improvements, Communication Drive, Laconia, New Hampshire

DESCRIPTION: The project will replace the existing deteriorated waterline to the Dube and Dwinnell buildings with a new 8-inch ductile iron water main to each of the buildings. The project will also include replacing the existing waterline piping in the pump house.

EXPLANATION: As part of the State's closing of the Lakes Region Facility campus, the two water towers that supplied water to the buildings on the campus have been discontinued. In addition to shutting the towers down, it is reported, that the water mains on the campus were constructed in the years from 1903 to 1949. Due to the age of the water mains and the shutting down of the towers, the new water system to these buildings is needed.

OVER ESTIMATE

EXPLANATION: The reason for the low bid being higher than the DPW estimate is because of the areas that are involved in excavation work will be complicated because of the many unknown buried utilities that need to be avoided.
