REQUESTED ACTION

Authorize the Department of Environmental Services (NHDES) to enter into a contract with Kittery Point Yacht Yard Corp. (KPY), Eliot, ME, (VC #273028), in the amount of \$256,541.50 to inspect, maintain, clean/paint, tow and repair NHDES fleet units in the Little and Great Bay areas and Piscataqua River, effective as of July 1, 2019 through June 30, 2023, upon Governor and Council approval. 100% Oil Pollution Control Funds.

Funding is available in the following account with the authority to adjust encumbrances in each of the State fiscal years through the Budget Office, if needed and justified. Funding for FY 2020-2021 and FY 2022-2023 is contingent upon availability and continued appropriation of funds.

Fund Name and Account Number 03-44-44	FY 2020	FY 2021	FY 2022	FY 2023	Totals
Oil Pollution Control Fund 444010-1400-102-500731	\$64,166.50	\$64,125	\$64,125	\$64,125	\$256,541.50

EXPLANATION

The Oil Pollution Control Fund (OPCF), established under RSA 146-A, provides funding for oil spill response, prevention, and preparedness. Revenue for OPCF is based on license fees that are assigned to oil imported into New Hampshire. This NHDES contract will maintain and repair the fleet of workboats, barges, skimmer boats, and trailers used to satisfy our mission for oil spill response in the coastal bay and river areas.

NHDES prepared a Request for Qualifications (RFQ) and Cost Proposal, dated March 1, 2019, to solicit experience and qualifications documentation, and proposed prices for NHDES vessel repair and annual maintenance services required on NHDES boats and trailers. Three interested marina vendors, listed below, were invited to submit qualifications and cost proposals by April 10, 2019. The RFQ and Cost Proposal were not posted on the NH Department of Administrative Services web-site for Requests for Proposals

since NHDES research identified only local marinas that could meet strict requirements for annual maintenance, repairs, and emergency services. These local marinas needed to be located near where the NHDES fleet is docked in Newington, NH. Kittery Point Yacht Yard, located in Eliot, ME, currently holds the contract with NHDES for vessel maintenance and repairs which expires on June 30, 2019.

The responses from the three prospective area vendors, with a due date of April 10, 2019, were as follows:

- | | | |
|----|---------------------------------|--------------------|
| 1. | Island Marine Service | No Submittal |
| 2. | Great Bay Marine (GBM) | No Submittal |
| 3. | Kittery Point Yacht Yard (KPYY) | Proposal submitted |

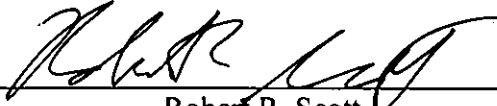

NHDES only received a bid package from KPYY. The KPYY bid package was found to contain adequate information pertaining to the facility's capabilities. The cost proposal provided with the bid package was compared to the previous three-year contract prices and found to contain a reasonable increase in service costs. In addition to the cost proposal, the following evaluation factors helped in selecting KPYY:

- The towing distance to KPYY (Eliot, ME) from the NHDES dock/yard is under 1 mile.
- KPYY has 20 full-time staff at the two ME facilities located at Eliot, ME and Kittery, ME.
- The KPYY Corp. has been in business for over 35 years.
- The KPYY (Eliot, ME) facility is gated and camera monitored.

This requested action will enable NHDES to immediately schedule boats and trailers for annual maintenance, make available normal and emergency towing services, provide for scheduled hull cleaning and painting services, and provide for expert repairs over the four-year contract period.

The agreement has been approved as to form, substance, and execution by the Office of Attorney General.

We respectfully request your approval.

Robert R. Scott
Commissioner
