EXPLANATION

Merrimack Village District requested \$14,214,500 in funding from NHDES to upgrade the water treatment facility for supply wells #7 and #8 for treatment of per- and polyfluoroalkyl substances (PFAS) and to construct a new water treatment facility for supply wells #2 and/or #3 for treatment of PFAS, iron, and manganese, including water transmission mains as required. NHDES through two programs, the Drinking Water and Groundwater Trust Fund (DWGTF) and the Drinking Water State Revolving Loan Fund (DWSRF) has arranged with the District to provide the full \$14,214,500 in the form of a combination of grant and loan funds.

Funding through the DWGTF is a combination of grant and loan funds that the District requested in 2019. The District request for \$1,450,000 in grant funding and \$6,264,500 in loan funding was approved by the Advisory Commission on August 13, 2019. The final grant and loan amounts will be based on the total DWGTF funds disbursed, and may be less than the approved amount. The grant agreement has been approved by the Attorney General's Office as to form, substance and execution. The loan interest rate may be adjusted downward if the DWSRF loan rate in effect upon project completion is less than the current rate of 1.7040% because the DWGTF loan is in concert with the DWSRF loan.

The remaining \$6,500,000 will be from a DWSRF loan to finance the balance of the water system improvements. The final loan amount will be based on the total DWSRF funds disbursed, and may be less than \$6,500,000. The loan interest rate may be adjusted downward if the DWSRF loan rate in effect upon project completion is less than the current rate of 1.7040%. There is currently a balance of \$20,920,528 in the DWSRF available for new loans. Attached is a tabulation of the DWSRF showing the effect of this loan on the funds available for loans.

We respectfully request your approval of this item.
