EXPLANATION

The Department of Natural and Cultural Resources (DNCR) and the Mount Washington Auto Road (Auto Road) have had an agreement since 1975, when Auto Road expanded and improved the summit parking areas at Mount Washington State Park. The 2004 agreement continued to provide Auto Road with use of DNCR's summit parking areas and granted DNCR access to the summit via the auto road, but also provided reimbursement to Auto Road to cover damages to the auto road from the snow cat equipment used by DNCR to access the summit in the winter.

DNCR and Auto Road entered into Non-Disturbance Agreement (NDA) in 2016 in order to allow Auto Road to secure financing for its hotel project located at the base of Mount Washington (approved by the Governor and Executive Council on August 24, 2016, Item #46B). The NDA provided Auto Road rights to use the summit parking areas and DNCR rights to access the summit via the auto road through August 2, 2033. Reimbursement for yearly winter damage to the auto road was not included in the NDA.

Increases in road repair and maintenance costs and the length of the auto road that is now paved resulted in an increase in the damage assessment to \$24,000 from \$22,050 in 2011, an average 1.1% increase per year. G&C approval is necessary because of the change in the threshold amount. For that reason, DNCR respectfully requests approval to make payment to Auto Road.

Respectfully submitted,

Concurred,
