## EXHIBIT A – SCOPE OF SERVICES

### SERVICE SPECIFICATIONS - REPAIR TO CANOPY ROOF - BUILDING 2, CIVIL SUPPORT TEAM (CST) BUILDING, STATE MILITARY RESERVATION (SMR), CONCORD, NH:

The Contractor shall provide the Adjutant General's Department with repair to the canopy roof of referenced building.

The work shall consist of the following:

#### A. Rework canopy roof drainage

1. There are no roof drains or scuppers for this canopy, so it drains by overflowing. The uncontrolled discharge of water has stained the fascia and concrete walkway.
  - Re-work edge flashing and provide scuppers at intervals to control drainage locations. It may be necessary to provide sloped insulation to promote positive drainage, in which case, a new white EPDM membrane may be required for part or all of the roof.
  - Add rain water leaders and drywells at grade as necessary.
  - Provide a 24" wide strip of crushed rock next to the walkway along the length of the canopy to collect water and divert it from the building.

#### B. Provide new soffit

2. Existing gypsum wall board soffit is deteriorating. Probably the wrong kind of gypsum board was used here and this is made worse because there is no ventilation of the soffit.
  - The most likely cause is normal water condensation on the underside of the metal deck, but the flashing along the wall will also be inspected as a potential water leakage pathway.
  - Replace this soffit with a product more suitable for exterior use and provide control joints in soffit panels as necessary. Likely soffit candidate: vented metal soffit.
  - See attached sheets A1 & A2 for Construction Details.

#### Warranty Requirements:

Except as otherwise specified, all work shall be guaranteed by the Contractor against defects resulting from the use of inferior materials, equipment, or workmanship for one (1) year from the Date of Substantial Completion of the work. If, within the guarantee period, repairs or changes are required, in the opinion of the State, the Contractor shall promptly, at his or her own expense: place in satisfactory condition in every particular, all such guaranteed work, correct all defects therein. Make good all damage to the building or site, or equipment or contents thereof, which in the opinion of the State, is the result of the use of materials, equipment, or workmanship which are inferior or defective.

### **Use of United States Flag Carriers.**

a. The state covenants and agrees that travel supported by U.S. Government funds under this agreement shall use U.S.-flag air carriers (air carriers holding certificates under 49 U.S.C. 41102) for international air transportation of people and property to the extent that such service is available, in accordance with the International Air Transportation Fair Competitive Practices Act of 1974 (49 U.S.C. 40118) and the inter-operative guidelines issued by the Comptroller General of the United States in the March 31, 1981, amendment to Comptroller General Decision B138942.

b. The state agrees that it will comply with the Cargo Preference Act of 1954 (46 U.S.C. Chapter 553), as implemented by Department of Transportation regulation at 46 CFR 381.7, and 46 CFR 381.7(b).

### **Debarment and Suspension.**

**Non-federal entities and contractors are subject to the non-procurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR part 180. These regulations restrict awards, sub awards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.** The grantee agrees to comply with the DOD implementation of 2 CFR Part 180 (at 2 CFR Part 1125) by checking the Excluded Parties List System (EPLS) at [www.sam.gov](http://www.sam.gov) to verify contractor eligibility to receive contracts and subcontracts resulting from this Agreement. The grantee and sub recipients shall not solicit offers from, nor award contracts to contractors listed in EPLS. This verification shall be documented in the grantee and sub recipient contract files, and shall be subject to audit by the grantor and Federal/State audit agencies

### **Buy American Act.**

The state covenants and agrees that it will not expend any funds appropriated by Congress without complying with The Buy American Act (41 U.S.C.10a et seq.). The Buy American Act gives preference to domestic end products and domestic construction material. In addition, the Memorandum of Understanding between the United States of America and the European Economic Community (EEC) on Government Procurement, and the North American Free Trade Agreement (NAFTA), provide that EEC and NAFTA end products and construction materials are exempted from application of the Buy American Act.

**Uniform Relocation Assistance and real Property Acquisition Policies.**

The state covenants and agrees that it will comply with CFR 49 part 24, which implements the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. **Copeland “Anti-Kickback” Act.**

The state covenants and agrees that it will comply with the Copeland “Anti-Kickback” Act (18 U.S.C. Section 874) as supplemented in Department of Labor regulations (29 CFR Part 3). As applied to this agreement, the Copeland “Anti-Kickback” Act makes it unlawful to induce, by force, intimidation, threat of procuring dismissal from employment, or otherwise, any person employed in the construction or repair of public buildings or public works, financed in whole or in part by the United States, to give up any part of the compensation to which that person is entitled under a contract of employment.

**Contract Work Hours and Safety Standards Act.**

The state covenants and agrees that it will comply with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. Sections 3701-3708) as supplemented by Department of Labor regulations (29 CFR Part 5). As applied to this agreement, the Contract Work Hours and Safety Standards Act specifies that no laborer or mechanic doing any part of the work contemplated by this agreement shall be required or permitted to work more than 40 hours in any workweek unless paid for all additional hours at not less than 1.5 times the basic rate of pay.

THE ADJUTANT GENERAL'S DEPARTMENT

EXHIBIT D - Environmental Management System  
Notice for Contractors and Contractor employees

The New Hampshire Army National Guard (NHARNG) has implemented an environmental Management System (eMS), in accordance with Executive Orders 13423 and 13514, to guide its operations in an environmentally sound manner. Under its eMS, the NHARNG has identified significant activities, products or services that can interact with the environment (known as aspects) and potential environmental impacts from its operations. The significant environmental aspects are listed below:

- Energy Use
- Vehicle Travel (fleet) Between Work Stations

These significant aspects and their associated impacts are closely monitored by the NHARNG. Further, the NHARNG is tracking the success of the implementation plans established to achieve the NHARNG's objectives.

For the purposes of this notice, applicability is limited to those actions that the contractor or subsequent employees are likely to perform on NHARNG properties.

The primary purpose of this notice is to communicate the three basic tenets of the NHARNG's eMS policy:

- eMS (ISO 14001) is the management system the NHARNG uses to implement the Adjutant General's Environmental Policy;
- The eMS Environmental Policy commits the NHARNG to comply with environmental laws and regulations, to prevent pollution and to promote continual improvement of the eMS; and
- Contractors are responsible for knowing the environmental impacts of their services, and must understand the management requirements for any activities that could affect any of NHARNG's significant aspects, or that could result in potential environmental impacts.

### **Energy Use**

The NHARNG is committed to reducing its consumption of energy. Reducing energy consumption may be realized by turning off electrical equipment when not in use, or reducing heating temperatures/increasing cooling temperatures, using alternative fuels (if available, such as E85 or biodiesel), etc. Contracts that include the use or installation of equipment will seek the most energy efficient technology within the scope of the contract.

### **Vehicle Travel (fleet) Between Work Stations**

The NHARNG is committed to preventing pollution through monitoring of Federal GSA Fleet vehicle usage. Usage of fleet vehicles by contractors is prohibited.

**Significant aspects likely to be affected by contractor's activities, products, or services:**  
(To be discussed at the Kickoff meeting)

**Review of specific contract provisions related to environmental aspects:**
