EXPLANATION

In July of 2019, the hot water system for the bathhouse at Dry River Campground in Crawford Notch State Park failed. The campground was near capacity and this is the only facility at the park offering showers. The Central Region Manager and the Park Manager deemed the lack of hot water to be an emergency. Three contractors were contacted to see if they could repair or replace the system but only Kilbco Plumbing and Heating (Kilbco) was available immediately. Kilbco was able to replace the two hot water tanks and had the bathhouse operational again very quickly. Due to this emergency repair, the Department is now seeking retroactive approval to make payment to the vendor.

Respectfully submitted,

Concurred,

Sarah L. Stewart Commissioner
