EXPLANATION

This request is **Sole Source** because the Contractor is the only contractor able to provide the necessary services, as they are the only Runaway and Homeless Youth (RHY) grantee recipient in the state of New Hampshire. The Consolidated Appropriations Act encourages states to "Expand Contracts with service providers who are currently working with youth and young adults, to provide services through the agencies to which youth are already connected (e.g. supportive housing providers and Runaway and Homeless Youth (RHY) grantees." Waypoint has extensive experience in the state providing services to this population through their community outreach programs, drop in centers for homeless youth and transitional living programs. They are currently connected to over 30 former youth in care and are uniquely positioned to collaborate with DCYF in connecting eligible youth with resources and financial assistance.

His Excellency, Governor Christopher T. Sununu and the Honorable Council Page 2 of 2

The purpose of this request is to assess the needs of eligible youth and young adults, refer them to services as needed and provide them access to Up Together, an online platform that can be used to receive their portion of COVID-19 funds in accordance with the Consolidated Appropriations Act of 2021. The goal is to improve the lives of youth and young adults adversely impacted by the pandemic by providing service referrals to community agencies and to DCYF, and access to one-time financial assistance that they can use to address areas of need including but not limited to housing, food, transportation, clothes etc. Youth and young adults will be prioritized based on their exit status from DCYF with those that aged out of foster care at the age of 18 or older eligible to receive the highest levels of financial support.

Approximately 450 individuals will be served during State Fiscal Years 2022 and 2023.

The population being served is individuals between the ages of 16-27 who were formerly in DCYF foster care and are not currently receiving services from DCYF due to not being eligible or by personal prefèrence.

The Department will monitor services by:

100% of individuals eligible for DCYF Aftercare Services shall be informed about contract services.

100% of youth eligible for the HOPE Program for Extended Foster Care shall be informed about contract services.

80% of individuals assessed receive payment within 30 days of submitting an application..

Chapin Hall, a national leader in the arena of child welfare research, has agreed to conduct an evaluation of the impact of program pending approval of their Institutional Review Board (IRB). Recipients will be surveyed on selected outcome measures including housing situation, food security, and social-emotional well-being/mental health. The results will be shared with Waypoint and DCYF and considered as further use of support for this population is explored.

As referenced in Exhibit A, Revisions to Standard Agreement Provisions, Subsection 1.1 of the attached agreement, the parties have the option to extend the agreement for up one (1) additional year, contingent upon satisfactory delivery of services, available funding, agreement of the parties and Governor and Council approval.

Should the Governor and Council not authorize this request the youth and young adults of NH previously served by DCYF will not have access to needed aftercare resources and funding in order to support continued success in or towards adulthood.

Area served: Statewide

Source of Federal Funds: Assistance Listing Number #93,674, FAIN #2101NHCILC

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette Commissioner

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Waypoint

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Waypoint, which comprise the consolidated statement of financial position as of December 31, 2020, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud, or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness

Merrimack, New Hampshire Andover, Massachusetts Greenfield, Massachusetts Ellsworth, Maine

of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Waypoint as of December 31, 2020, and the changes in net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Summarized Comparative Information

We have previously audited Waypoint's 2019 consolidated financial statements, and we expressed an unmodified opinion on those audited consolidated financial statements in our report dated May 26, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2019 is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Consolidated Schedules of Operating Expenses for 2020 and 2019 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

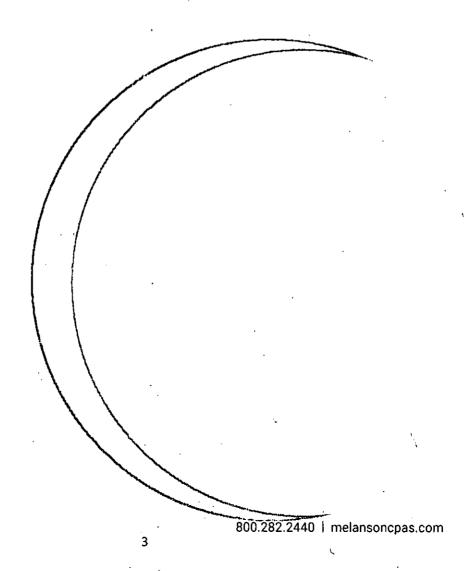

In accordance with Government Auditing Standards, we have also issued our report dated April 21, 2021 on our consideration of Waypoint's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our

testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Waypoint's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Waypoint's internal control over financial reporting and compliance.

WAYPOINT

Notes to Consolidated Financial Statements

For the Year Ended December 31, 2020

1. Organization

Waypoint (the Organization) is a nonprofit organization, founded in 1850, that currently aids more than 20,000 individuals, statewide, through an array of social services.

These services span the life cycle from prenatal to seniors, and can be grouped into the following categories:

Early Childhood - Family Support & Education Services

Over 4,500 parents received education and support to improve parenting, strengthen families, prevent child abuse and neglect, and ensure healthy development of children. Over 500 young children starting life at a disadvantage received critical services to ensure a good beginning and to optimize their chance for life-long success. Some of the programs focused on early childhood include:

Early Support and Services

Early Support and Services provides family-centered support and therapies to infants and toddlers who have developmental disabilities, delays or are at risk of developmental delays. Services work to optimize babies' cognitive, physical, emotional and social development, and chance for success. Services are provided in the child's natural environment (home, day care, playground, etc.).

Home Visiting Services

A number of different prevention programs are offered in the home during those critical early years of a child's life. A spectrum of services includes support to new mothers and those struggling to parent; services for children with chronic health conditions; prenatal services for babies being born at a disadvantage into low-income families; and programs to encourage positive early parent/child relationships and promote optimal early childhood development. Services are provided by nurses, social workers, developmental specialists, occupational therapists, health educators, and home visitors.

Adoption

A licensed child-placing agency, the Organization has been forming families through adoption since 1914. The Organization's adoption professionals provide home studies and adoption services for families looking to adopt and provide counselling and support to birthparents who are considering the adoption option.

Children, Youth, and Family - Intervention and Treatment Programs

The Organization contracts with the State of New Hampshire, the federal government, and insurance companies, to provide a continuum of services for children, adolescents and young adults. Programs are delivered in the home, schools, or community, and include mental health counseling and substance abuse treatment, as well as a complex system of family stabilization and preservation programs, child protection services, and services for at-risk youth. Some of the programs include:

Foster care

The Organization works with the State of New Hampshire in placing children who have been rescued from dangerous home environments, into safe, stable, loving homes. The Organization recruits and supports foster families and works to facilitate permanency for each child.

Home Based Services

The Organization has a number of programs provided in the family home that are designed to help families who are struggling through daily life - where children are at risk. Services work to thwart domestic violence, rebuild families, and to improve family functioning. The Organization empowers families with the skills and resources they need to provide for their children and become self-sufficient.

Runaway and Homeless Youth Services

The Organization is the sole provider of services for runaway and homeless youth in Manchester and the Seacoast. A full spectrum of services features outreach to at-risk youth that includes survival aid on the streets and basic needs fulfillment at the drop-in center, as well as crisis intervention, educational and vocational advocacy, housing, and case management. The Organization also provides behavioral health and substance use counseling where needed. The Organization works with school systems, police, and other agencies in addressing the needs of New Hampshire's homeless youth.

Senior Care and Independent Living

The Organization helps seniors and individuals with chronic illness or disability to live at home safely and with dignity, and to maintain quality of life. Under the title of Home Care, services are delivered by homemakers, companions, personal care service providers, and LNAs. The Organization's caregivers go to client homes to help with everything from cooking and cleaning to personal hygiene, medication reminders, mobility, travel to appointments, paying bills, help with daily tasks, and communication with family members.

Other Programs

Camp Spaulding

Since 1921, Camp Spaulding has helped campers from all types of backgrounds enjoy the benefits of a traditional, resident camp experience.

The New Hampshire Children's Lobby

Established in 1971, the New Hampshire Children's Lobby is the advocacy wing of Child and Family Services. The program's mission is to improve the lives of children and families through legislative, judicial, and public policy initiatives. This combination of advocacy and direct service practice uniquely positions the Organization to serve the best interest of New Hampshire children.

The Children's Place and Parent Education Center

The Children's Place and Parent Education Center (TCP) in Concord, NH provides both educational and social programs and services to strengthen and enrich the lives of families with children, two months through six years old.

2. Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include Waypoint, Child and Family Realty Corporation, and The Children's Place and Parent Education Center, commonly controlled organizations. All inter-organization transactions have been eliminated.

Comparative Financial Information

The accompanying consolidated financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2019, from which the summarized information was derived.

Cash and Cash Equivalents

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents. Cash and highly liquid financial instruments invested for long-term purposes, including endowments that are perpetual in nature, are excluded from this definition.

Accounts Receivable

Accounts receivable consists primarily of noninterest-bearing amounts due for services and programs. The allowance for uncollectable accounts receivable is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Accounts receivable are written off when deemed uncollectable.

Grants Receivable

Grants receivable, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have

been substantially met. Amounts recorded as grants receivable represent costreimbursable federal and state contracts and grants, which the incurrence of allowable qualifying expenses and/or the performance of certain requirements have been met or performed. The allowance for uncollectible grants receivable is based on historical experience and a review of subsequent collections. Management has determined that no allowance is necessary.

Contributions Receivable

Unconditional contributions that are expected to be collected within one year are recorded at net realizable value. Unconditional contributions that are expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the Consolidated Statement of Activities. The allowance for uncollectable contributions is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Contributions receivable are written off when deemed uncollectable. Management has determined that no allowance is necessary.

Investments

Investment purchases are recorded at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the Consolidated Statement of Financial Position. Net investment return/(loss) is reported in the Consolidated Statement of Activities and consists of interest and dividend income, realized and unrealized gains and losses, less external investment expenses.

The Organization maintains pooled investment accounts for its restricted endowment. Realized and unrealized gains and losses are allocated to the individual endowments based on the relationship of the market value of each endowment to the total market value of the pooled investment accounts, as adjusted for additions to or deductions from those accounts.

Beneficial Interest Held in Trusts

The Organization is the beneficiary of perpetual charitable trusts. The beneficial interest in trusts is reported at its fair value, which is estimated as the fair value of the underlying trust assets. Distributions of income from trust assets are restricted as to use and are reported as increases in net assets with donor restrictions until expended in accordance with restrictions. The value of the beneficial interest in the trusts is adjusted annually for the change in its estimated fair value. Those changes in value are reported as increases in net assets with donor restrictions. The assets in the trusts will never be distributed to the Organization.

Property and Equipment

Property and equipment additions over \$5,000 are recorded at cost, if purchased, and at fair value at the date of donation, if donated. Depreciation is computed using the

straight-line method over the estimated useful lives of the assets ranging from 5 to 50 years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related depreciation is removed, and any resulting gain or loss is included in the Consolidated Statement of Activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed. Assets not in service are not depreciated.

The carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in 2020 or 2019.

Interest-Rate Swap

An interest-rate swap is utilized to mitigate interest-rate risk on bonds payable. The related liability is reported at fair value in the Consolidated Statement of Financial Position, and unrealized gains or losses are included in the Consolidated Statement of Activities.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions

Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. The Board has designated, from net assets without donor restrictions, net assets for a board-designated endowment.

Net Assets With Donor Restrictions

Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor-imposed stipulations or a Board approved spending policy. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Revenue and Revenue Recognition

The Organization recognizes contributions when cash, securities or other assets; an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give - that is, those with a measurable performance or other barrier and a right of return - are not recognized until the conditions on which they depend have been met. The Organization records special events revenue equal to the fair value of direct benefits to donors, and contribution income for the excess received when the event takes place.

A portion of the Organization's revenue is derived from cost-reimbursable contracts and grants, which are conditioned upon certain performance requirements and/ or the incurrence of allowable qualifying expenses. Amounts received are recognized as revenue when the Organization has incurred expenditures in compliance with specific contract or grant provisions. Amounts received prior to incurring qualifying expenditures are reported as refundable advances in the Statement of Financial Position.

Revenues derived from providing program services are recognized as the services are provided. Program services fees paid in advance are deferred to the period to which they relate. All other amounts paid in advance are deferred to the period in which the underlying event or rental takes place. Due to the nature and timing of the performance and/or transfer of services, certain contract liabilities at December 31 of each year are recognized in the following year.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to program services, administration, and fundraising and development activities; however, the consolidated financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by Generally Accepted Accounting Principles. Contributed goods are recorded at fair value at the date of donation. Donated professional services are recorded at the respective fair values of the services received. No significant contributions of such goods or services were received in 2020 or 2019.

Advertising Costs

Advertising costs are expensed as incurred and are reported in the Consolidated Statement of Activities and Consolidated Statement of Functional Expenses.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the Consolidated Statement of Activities. The Consolidated Statement of Functional Expenses presents the natural classification detail of expenses by function.

The consolidated financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses

require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include clerical, IT, and administration, which are allocated to program and supporting services based primarily on a percentage of personnel costs related to programs and supporting services.

Measure of Operations

The Consolidated Statement of Activities reports all changes in net assets, including changes in net assets from operating and non-operating activities. Operating activities consist of those items attributable to the Organization's ongoing programs and services and include the Organization's annual endowment transfer to support operations. Non-operating activities are limited to resources outside of those programs and services and are comprised of non-recurring gains and losses on sales and dispositions, investment income, changes in the value of beneficial interests and interest rate swaps.

Income Taxes

Waypoint and the Children's Place and Parent Education Center have been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as organizations described in IRC Section 501(c)(3), qualify for charitable contribution deductions, and have been determined not to be private foundations. Child and Family Realty Corporation is exempt from federal income tax under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(25).

Each entity is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, each is subject to income tax on net income that is derived from business activities that are unrelated to their exempt purpose. In 2020 and 2019, the Organizations were not subject to unrelated business income tax and did not file an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

Estimates

The preparation of consolidated financial statements in conformity with Generally Accepted Accounting Principles requires estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates, and those differences could be material.

Financial Instruments and Credit Risk

Deposit concentration risk is managed by placing cash accounts with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates. Investments are exposed to various risks such as interest rate,

market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Consolidated Statement of Financial Position. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the Investment Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

Fair Value Measurements and Disclosures

Certain assets and liabilities are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency

of the asset and does not necessarily correspond to the assessment of the quality, risk, or liquidity profile of the asset or liability.

New Accounting Standards to be Adopted in the Future

Contributed Nonfinancial Assets

In September 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-07, Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets, intended to improve transparency in the reporting of contributed nonfinancial assets, also known as gifts-in-kind, for not-for-profit organizations. Examples of contributed nonfinancial assets include fixed assets such as land, buildings, and equipment; the use of fixed assets or utilities; material and supplies, such as food, clothing, or pharmaceuticals; intangible assets; and recognized contributed services. The ASU requires a not-for-profit organization to present contributed nonfinancial assets as a separate line item in the Statement of Activities, apart from contributions of cash or other financial assets. It also requires certain disclosures for each category of contributed nonfinancial assets recognized. The amendments in this ASU should be applied on a retrospective basis and will be effective for the Organization for the year ending December 31, 2022. Early adoption is permitted. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements

Leases

In February 2016, the FASB issued ASU 2016-02, Leases. The ASU requires all leases with lease terms more than 12 months to be capitalized as a right of use asset and lease liability on the Statement of Financial Position at the date of lease commencement. Leases will be classified as either finance leases or operating leases. This distinction will be relevant for the pattern of expense recognition in the Statement of Activities. This ASU will be effective for the Organization for the year ending December 31, 2022. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

Credit Losses

In June 2016, the FASB issued ASU 2016-13, Measurement of Credit Losses on Financial Instruments. The ASU requires a financial asset (including trade receivables) measured at amortized cost basis to be presented at the net amount expected to be collected. Thus, the income statement will reflect the measurement of credit losses for newly-recognized financial assets as well as the expected increases or decreases of expected credit losses that have taken place during the period. This ASU will be effective for the Organization for the year ending December 31, 2023. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

Endowment funds consist of donor-restricted endowments and funds designated by the Board to function as endowments. Income from donor-restricted endowments is restricted for specific purposes. The portion of endowment funds that are perpetual in nature are not available for general expenditure.

Board-designated endowment is subject to an annual spending rate as determined by the Board. Although there is no intention to spend from board-designated endowment (other than amounts appropriated for general expenditure as part of the Board's annual budget approval and appropriation), these amounts could be made available if necessary.

As part of its liquidity management plan, the Organization also has a \$1,500,000 revolving line of credit available to meet cash flow needs.

4. Accounts Receivable

Accounts receivable consist of the following at December 31, 2020 and 2019:

	2020	2019
•	Receivable Allowance Net	Receivable Allowance Net
Fees for service	\$ 357,308 (1,700) 355,608	\$ 584,728 \$ (2,300) \$ 582,428

5. Prepaid Expenses

Prepaid expenses at year end relate primarily to prepaid insurance and contracts.

6. Investments

Investments measured at fair value on a recurring basis consist of mutual funds totaling \$21,332,022 and \$18,887,020 at December 31, 2020 and 2019, respectively. During 2020 and 2019, the Organization recognized \$2,269,978 and \$2,935,229, respectively, of net gains and losses on investments. Of those amounts, \$2,269,978 and \$2,935,229 was recognized on investments of equity securities held at December 31, 2020 and 2019, respectively.

Under the terms of the Organization's line of credit agreement (Note 9), the Organization has agreed not to pledge these investments as security on any other debt.

The Organization's policy is to avail itself of a Board-approved percentage of investment income for operations with any remaining interest, dividends, or appreciation reinvested. The spending policy approved by the Board of Trustees was 4.00% of the average fair market value of all investments over the previous twelve quarters for 2020 and 2019.

As discussed in Note 2 to these consolidated financial statements, the Organization is required to report its fair value measurements in one of three levels, which are based on the ability to observe in the marketplace the inputs to the Organization's valuation techniques. Level 1, the most observable level of inputs, is for investments measured at quoted prices in active markets for identical investments. Level 2 is for investments measured using inputs such as quoted prices for similar assets, quoted prices for the identical asset in inactive markets, and for investments measured at net asset value that can be redeemed in the near term. Level 3 is for investments measured using inputs that are unobservable, and is used in situations for which there is little, if any, market activity for the investment.

The Organization uses the following ways to determine the fair value of its investments:

Mutual funds: Determined by the published value per unit at the end of the last trading day of the year, which is the basis for transactions at that date.

7. Beneficial Interest Held in Trusts

The Organization is the sole beneficiary of three funds that are administered by the New Hampshire Charitable Foundation (NHCF). Income from the funds is to provide assistance to children attending Camp Spaulding and for capital improvements to the camp. The fund resolution provides that distributions from the funds can be made at the discretion of the NHCF Board of Directors.

At December 31, 2020 and 2019, the fair market value of the funds, which approximates the present value of future benefits expected to be received, was \$965,181 and \$858,994, respectively.

In addition, the Organization has a split-interest in three charitable remainder trusts. The assets are held in trust by banks as permanent trustees of the trusts. The fair value of these beneficial interests is determined by applying the Organization's percentage interest to the fair value of the trust assets as reported by the trustee.

Trust	Percentage Interest		2020	<u>2019</u>
. <u>11ust</u>	<u>interest</u>		2020	2013
Greenleaf	100%	\$	395,121	\$ 384,004
Spaulding	100%		350,378	332,956
Cogswell	50%	_	277,191	 261,147
Total		\$_	1,022,690	\$ 978,107

Beneficial interest held in trusts is reported at fair value, which is estimated as the present value of expected future cash inflows on a recurring basis. As discussed in Note 2, the valuation technique used by the Organization is a Level 3 measure because there are no observable market transactions.

8. Property and Equipment

Property and equipment is comprised of the following at December 31, 2020 and 2019:

•		2020		2019

9. Line of Credit

The Organization has a \$1,500,000 revolving line of credit agreement with a bank. The line of credit expired on June 30, 2020 and is payable on demand. The line is secured by a first lien on accounts receivable, double negative pledge on all investments of the borrower, and carries a variable rate of interest at the Wall Street Journal prime rate (3.25% at December 31, 2020), adjusted daily. At December 31, 2020 and 2019, the balance on this line of credit was \$0 and \$529, respectively.

10. Bonds Payable

During 2007, the New Hampshire Health and Education Facilities Authority (the "Authority") sold \$5,540,000 of its Revenue Bonds, Child and Family Services Issue, Series 2007, and loaned the proceeds of the bonds to the Organization to refund its Series 1999 Series Bonds and to finance certain improvements to the Organization's facilities. The Series 2007 Bonds were issued with a variable interest rate determined on a weekly basis. Prior to issuing the Bonds, the Organization entered into an interest rate swap agreement (the "Swap Agreement") with Citizens Bank of NH (the "Counterparty") for the life of the bond issue to hedge the interest rate risk associated with the Series 2007 Bonds. The interest rate swap agreement requires the Organization to pay the Counterparty a fixed rate of 3.915%; in exchange, the Counterparty will pay the Organization a variable rate on the notional amount based on the 67% of one month LIBOR. Counterparty payments to the Organization were intended to offset Organization payments of variable rate interest to bond holders. Counterparty credit worthiness and market variability can impact the variable rates received and paid by the Organization, with the potential of increasing Organization interest payments. As

a result, the cost of the interest rate swap for 2020 and 2019 is added to interest expense in the Consolidated Statement of Functional Expenses. The bonds mature in 2038 and can be repaid at any time.

The Organization is required to include the fair value of the swap in the Consolidated Statement of Financial Position, and annual changes, if any, in the fair value of the swap in the Consolidated Statement of Activities. For example, during the bond's 30year holding period, the annually calculated value of the swap will be reported as an asset if interest rates increase above those in effect on the date of the swap was entered into (and as an unrealized gain in the Consolidated Statement of Activities), which will generally be indicative that the net fixed rate the Organization is paying on the swap is below market expectations of rates during the remaining term of the swap. The swap will be reported as a liability (and as an unrealized loss in the Consolidated Statement of Activities) if interest rates decrease below those in effect on the date the swap was entered into, which will generally be indicative that the net fixed rate the Organization is paying on the swap is above market expectations of rates during the remaining term of the swap. The annual accounting adjustments of value changes in the swap transaction are non-cash recognition requirements, the net effect of which will be zero at the end of the bond's 30-year term. At December 31, 2020 and 2019, the Organization recorded the swap liability position of \$1,282,753 and \$1,072,580, respectively. During 2009, there occurred a downgrading of the credit rating of the Counterparty to the letter of credit reimbursement agreement, which triggered a mandatory tender of the Series 2007 Bonds in whole and a temporary conversion of one-hundred percent of the principal amount to a bank purchase mode under the terms of said letter of credit reimbursement agreement. Since it became evident that the credit markets would not soon return to normalcy, the Organization elected to convert the Series 2007 Bonds from a weekly rate mode to a bank purchase mode. This new bank purchase mode created a rate period in which the Series 2007 Bonds bear interest at the tax adjusted bank purchase rate of 68% of the sum of the adjusted period LIBOR (30 day) rate and 325 basis points. The bank purchase mode commenced on July 31, 2009 and expired on July 31, 2014; however, the expiration date was extended by the Counterparty and the Organization had the option to convert back to the weekly rate mode. The Series 2007 Bond documents require the Organization to comply with certain financial covenants. As of December 31, 2020, the Organization was in compliance with these covenants.

The following is a summary of future payments on the previously mentioned bonds payable:

12. Refundable Advance

Refundable advances totaling \$2,529,309 at December 31, 2020 are included primarily of start-up funds and flex funds received in advance from the New Hampshire Department of Health and Human Services for community-based voluntary services. Revenues will be recognized as services are performed.

13. Endowment Funds

The Organization's endowment consists of various individual funds established for a variety of purposes. Endowment includes both donor-restricted funds and funds designated by the Board of Trustees to function as endowments. As required by Generally Accepted Accounting Principles, net assets associated with endowment funds, including funds designated by the Board of Trustees to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Board-designated Endowment

As of December 31, 2020, the Board of Trustees had designated \$18,611,817 of net assets without donor restrictions as a general endowment fund to support the mission of the Organization.

Donor-designated Endowments

The Board of Trustees of the Organization has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date for donor-restricted perpetual endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as perpetually restricted net assets (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. The remaining portion of the donor-restricted endowment fund that is not classified as perpetually restricted is classified as net assets with donor restrictions until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donorrestricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Organization, and (7) the Organization's investment policies.

Funds with Deficiencies

The Organization considers a fund to be underwater if the fair value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. The Organization complies with UPMIFA and has interpreted UPMIFA to permit spending from underwater funds in accordance with prudent measures required under the law. The Organization had no underwater endowment funds at December 31, 2020 or 2019.

Investment Policy

The Organization has adopted an investment and spending policy to ensure a total return (income plus capital change) necessary to preserve and enhance the principal of the fund and, at the same time, provide a dependable source of support for current operations and programs. The withdrawal from the fund in support of current operations is expected to remain a constant percentage of the total fund, adjusted for new gifts to the fund.

In recognition of the prudence required of fiduciaries, reasonable diversification is sought where possible. Experience has shown financial markets and inflation rates are cyclical and, therefore, control of volatility will be achieved through investment styles. Asset allocation parameters have been developed for various funds within the structure, based on investment objectives, liquidity needs, and time horizon for intended use.

Measurement of investment performance against policy objectives will be computed on a total return basis, net of management fees and transaction costs. Total return is defined as dividend or interest income plus realized and unrealized capital appreciation or depreciation at fair market value.

Spending Policy

The Organization's spending policy rate in 2020 and 2019 was 4.00%, of the average total endowment value over the trailing 12 quarters with a 1% contingency margin. This includes interest and dividends paid out to the Organization.

The net asset composition of endowment net assets as of December 31, 2020 and changes in endowment net assets for the year ended December 31, 2020 are as follows:

15. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time, although the Organization expects such amounts, if any, to be immaterial.

16. Paycheck Protection Program (PPP)

In April 2020, the Organization received proceeds in the amount of \$1,741,500 under the Small Business Administration (SBA) Paycheck Protection Program (PPP). The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act (CARES Act), which was enacted March 27, 2020, provides for loans to qualifying organizations for amounts up to 2.5 times the average monthly payroll expenses. The loan and accrued interest may be forgiven after eight or twenty-four weeks providing

the Organization uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains certain payroll levels. The amount of loan forgiveness will be reduced if the Organization terminates employees or reduces salaries during the eight or twenty-four week period. Any unforgiven portion of the PPP loan is payable over two or five years at an interest rate of 1%, with deferral of payments for the first ten months. The Organization used the proceeds for purposes consistent with the PPP requirements. As of December 31, 2020, the Organization has recognized the entire amount of the PPP funds as contribution income and subsequent to year end the entire amount was forgiven.

17. Assistance to Individuals

Assistance to individuals is comprised of the following for the years ended December 31, 2020 and 2019 (rounded to the nearest thousand):

•	<u>2020</u>	<u> 2019</u>
Payment to parents of foster children	\$ 173	\$ 302

Total	\$ <u>725</u>	\$ <u>716</u>

18. Defined Contribution Plan

The Organization maintains a 403(b) Thrift Plan (the Plan). The Plan is a defined contribution plan that all eligible employees may immediately make elective participant contributions to upon hire. A pretax voluntary contribution is permitted by employees up to limits imposed by the Internal Revenue Code and other limitations specified in the Plan. Contributions made to the plan by the Organization for the years ended December 31, 2020 and 2019 totaled \$93,311 and \$0, respectively.

19. Operating Leases

The Organization leases office space under the terms of non-cancellable lease agreements. The Organization also rents additional facilities on a month to month basis. Rent expense under these agreements totaled \$199,910 and \$182,763 for the years ended December 31, 2020 and 2019, respectively.

20. Related Party Transactions

The Organization procures a portion of their legal services from a local law firm that employs an attorney who also serves on the Organization's Board of Directors. The attorney board member does not personally perform the legal services. For the years ended December 31, 2020 and 2019, the total legal expense from related parties was \$4,505 and \$15,680, respectively.

21. Commitments and Contingencies

COVID-19

The COVID-19 outbreak in the United States (and across the globe) has resulted in economic uncertainties. The disruption is expected to be temporary, but there is considerable uncertainty around the duration and scope. The extent of the impact of COVID-19 on the Organization's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on the individuals served, employees, and vendors, all of which are uncertain and cannot be predicted. At this point, the extent to which COVID-19 may impact the Organization's financial condition or results of operations is uncertain.

22. Concentration of Risk

The majority of the Organization's grants are received from agencies of the State of New Hampshire. As such, the Organization's ability to generate resources via grants is dependent upon the economic health of that area and of the State of New Hampshire. An economic downturn could cause a decrease in grants that coincides with an increase in demand for the Organization's services.

23. Subsequent Events

Subsequent events have been evaluated through April 21, 2021, the date the consolidated financial statements were available to be issued.
