EXPLANATION

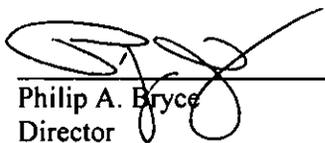

The National Ski Areas Association (NSAA) promotes growth in the sport of skiing and snowboarding and ensures the overall health of the industry. NSAA's website is one of our most valuable tools for ordering catalog materials and registration for upcoming events. As a member of NSAA we have access to information and materials that help with training of our employees and staying abreast of the industry issues and statistics. As a matter of practice, membership relationships are considered an ongoing and fundamentally necessary practice within the ski industry. On that basis of understanding, the management of invoicing and submission of timely payment has typically retained less emphasis while the value of the economic exchange that occurs as a result of the membership relationship is the primary focus. This has caused membership renewal paperwork processing to, in many cases, lapse beyond a prudent standard of timeliness of approval and payment of the membership. For this reason, we seek retroactive approval for our membership with NSAA. Going forward, the Department will be actively managing a comprehensive list of all memberships in order to proactively seek renewal approval and payment prior to the expiration date of any current membership.

Listed below are the answers to the required questionnaire developed for organizational dues and membership requests:

- How long has this organization been in existence and how long has this agency been a member of this organization?** NSAA was established in 1962 and Cannon Mountain has been a member since 1971.
- Is there any other organization which provides the same or similar benefits which your agency belongs to?** No, NSAA provides the only national information for ski resorts. There are regional associations but we are the only national organization.

3. **How many other states belonging to this organization and is your agency the sole New Hampshire state agency that is a member?** NSAA has members in 39 states; though membership is established by individual resorts rather than individual states.
4. **How is the dues structure established? (Standard fee for all states, based on population, based on other criteria, etc.)** The following formula is used to compute our dues payment: the total gross winter lift receipts (GWLR), including season pass sales, for the previous season (if below \$175,000, minimum dues are \$200); multiply .114% (.00114) x GWLR up to \$5,000,000 plus .057% (.00057) x GWLR in excess of \$5,000,000 equals membership dues as calculated.
5. **What benefit does the state receive from participating in this membership?** NSAA provides safety information, training modules and industry statics to resorts, including but not limited to, OSHA regulation information, water rights info, resort employee education, public safety initiatives (helmet campaigns, lift safety, terrain park education), etc.
6. **Are training or educational/ research materials included in the membership?** If so, is the cost included? Explain in detail. Training and education materials can be an added cost, depending on what each resort is looking for. NSAA does send out a complimentary packet of safety information to every member resort for January's National Safety Awareness week. All other materials for purchase can be found by logging into the NSAA website.
7. **Is the membership required to receive any federal grants or required in order to receive or participate in licensing or certification exams? Explain.** No.
8. **Is there any travel included with this membership fee? Explain in detail any travel to include the number of employees involved, the number of trips, destination if known and purposes of membership supported trips.** No.
9. **Which state agency employees are directly involved with this organization? (Indicate if they are members, voting members, committee members, and/or officers of the organization.)** General Manager John DeVivo, Marketing Director Greg Keeler, and Operations Manager George Lemerise.
10. **Explain in detail any negative impact to the State if the Agency did not belong to this organization.** Cannon Mountain would not receive any of the benefits as explained in questions 5 and 6 above which we feel are a necessary part of operating as an active and informed ski industry member.

Respectfully submitted,

Philip A. Bryce
Director

Concurred,
