Requested Action

Authorize the Department of Safety, Division of State Police, to enter into a **sole source** contract with Northeast Scale Company, Inc. (VC#155988-B001), 40 Londonderry Turnpike, Suite 2-E, Hooksett, NH, in an amount not to exceed \$93,000.00, for the purpose of providing preventative maintenance, certification and repair to the scale systems located at the weigh stations on Interstate 93 in Windham. This contract will become effective upon Governor and Council approval for the period July 1, 2015 through June 30, 2017. Funding source: 100% Highway Funds.

Funds are anticipated to be available in the SFY2016 and SFY2017 operating budgets as follows contingent upon the availability and continued appropriation of funds with the authority to adjust between fiscal years through the Budget Office if needed and justified.

024-500255	Maint. Other Than Build-Grnd – Contract Repairs; Machin-Equip	\$46,500.00	\$46,500.00

Explanation

This contract is **sole source** as Northeast Scale Company, Inc. is the only vendor in New Hampshire area that is factory-trained and qualified to perform preventative maintenance, certification, and repair to the scale systems located at the weigh stations on Interstate 93 in Windham. The next closest factory-trained company is located in Albany, NY. The requested contract amount is an estimate based on previous maintenance activities performed at these sites, as well as known items currently awaiting repair in Fiscal Year 2016.

The Department of Safety currently operates the weigh station facility on Interstate 93 (I-93) in the Town of Windham, NH, as the only fixed location operational weigh station facility in the State of New Hampshire. These stations were opened in 2000 to monitor the commercial vehicle traffic utilizing I-93, in both the northbound and southbound directions. These stations are state-of-the-art facilities with the capabilities of processing a large number of commercial vehicles in a timely manner using Weigh-In-Motion technology. This system is advantageous to the trucking industry by imposing only a minimum delay in enforcing the weight and safety requirements of the State of New Hampshire. These scales were originally installed and paid for by the Department of Transportation with federal highway dollars with the original installation being approved by the Governor and Council on June 6, 2001, as Item #143, based on a sole source request from the Department of Transportation.

Respectfully submitted,

John J. Barthelmes
Commissioner of Safety
