

STATE OF NEW HAMPSHIRE

Honorarium or Expense Reimbursement Report (RSA 14-C)
For Legislators and Legislative Employees

Type or Print all Information Clearly:

Name: Michael Yose Work Phone No.: 603-913-4606

Work Address: 107 S. Main, Concord, NH 03042 03301

Office/Appointment/Employment held: State Rep. Rock 9

List the full name, post office address, occupation, and principal place of business, if any, of the source of any reportable honorarium, expense reimbursement, ticket or free admission to a political, charitable, or ceremonial event, or meals or beverages consumed at a meeting or event, the purpose of which is to discuss official business, with a value greater than \$50.

Source of Honorarium, Expense Reimbursement, Ticket or Free Admission, or Meals and/or Beverages:

Name of Source: First Middle Last

Post Office Address:

Occupation:

Principal Place of Business:

If the source is a Corporation or other Entity:

Name of Corporation or Entity: National Conference of State Legislatures

Name of Person Representing the Corporation/Entity: Kristy Hartman

Work Address of Person Representing the Corporation/Entity: 7700 East First Place, Denver, CO 80230

I am reporting:

- A ticket or free admission received pursuant to RSA 14-C:4, I with value over \$50.00.
Meals and/or beverages consumed pursuant to RSA 14-C:4, II with value over \$50.00.
An Honorarium with value over \$50.00.

Value of Honorarium: Date Received: If exact value is unknown, provide an estimate of the value of the gift or honorarium and identify the value as an estimate. Exact Estimate

An Expense Reimbursement with value over \$50.00.

Value of Expense Reimbursement: \$977.00 Date Received: 6/28 If exact value is unknown, provide an estimate of the value of the gift or honorarium and identify the value as an estimate. Exact Estimate

For a report relating to an honorarium or expense reimbursement, you are required to attach a copy of the agenda or an equivalent document which addresses the subjects addressed and the time schedule of all activities at the event. Indicate below the names of the sponsors of activities in cases where they are not indicated on the agenda or equivalent document.

National Conference of State Legislatures

TURN OVER TO CONTINUE

Provide a brief description of the service or event that gave rise to this Honorarium, Expense Reimbursement, ticket or free admission to a political, charitable, or celebratory event, or meals or beverages:

Electricity Markets and State Challenges Workshop in
Indianapolis, IN, which included a tour of Midcontinent ISO

"I have read RSA 14-C and hereby swear or affirm that the foregoing information is true and complete to the best of my knowledge and belief."

Markus Dore

SIGNATURE OF FILER

7/25/18

DATE FILED

RSA 14-C:7 Penalty. Any person who knowingly fails to comply with the provisions of this chapter or knowingly files a false report shall be guilty of a misdemeanor.

Return to: Secretary of State's Office, State House Room 204, Concord, NH 03301

NATIONAL CONFERENCE of STATE LEGISLATURES

The Forum for America's Ideas

Agenda
**Electricity Markets and State Challenges
Workshop**

Hilton Garden Inn
10 East Market Street | Indianapolis, Indiana

The rapid growth of natural gas and renewable energy, combined with new approaches to manage fluctuations in demand and production, are creating structural shifts in regional and state electricity markets. This upending market dynamic is raising questions regarding the reliability of energy sources, what this means for jobs and state economies and the risk implications to the nation's critical energy infrastructure. This meeting will explore how electricity markets function, how these changes affect states in restructured and vertically integrated markets and how states are adapting to these changes. It will also discuss how new energy management technologies, such as energy storage and demand response, are dramatically influencing how the grid is managed.

Wednesday, June 27

7:30 – 8:15
am

Breakfast
(provided on the Mezzanine Level)

8:15 – 8:30
am

Welcome and Introductions
(James Whitcomb Riley Room)

8:30 – 9:30
am

Introduction to Electricity Markets
Electricity markets are evolving rapidly, with the federal government, states and regions taking a broad range of approaches to crafting the regulatory frameworks under which markets and utilities operate. This session will explore these variations within restructured and vertically integrated states and their corresponding wholesale and retail markets, and discuss why and how they evolved differently. It will also investigate recent developments and trends, as well as market operations.
Lopa Parikh, Senior Director of Federal Regulatory Affairs, Edison Electric Institute
Douglas Gotham, Director of State Utility Forecasting Group, Purdue University

<p>9:30 – 10:30 am</p> <p><i>LSE = Load, serving entity</i></p>	<p>Competition vs Regulation</p> <p>Restructuring—implemented by many states in the 1990s as a way to introduce wholesale and retail competition, reduce regulation and lower prices in the electricity market—has continued to evolve. Although the road to wholesale and retail competition has been rocky for many states, approaches have been refined to create thriving competitive markets. How do these markets affect generation choices, prices, reliability, resiliency and satisfaction when compared to vertically integrated markets? What lessons can be learned from the state restructuring experience and where will states be heading in the future? Panelists will explore these questions along with recent state trends and developments.</p> <p><i>William “Bill” Murray, Vice President for State and Electric Public Policy, Dominion Energy</i></p> <p><i>Sanem Sergici, Principal, The Brattle Group</i></p>
<p>10:30 – 10:45 am</p>	<p>Break</p>
<p>10:45 – 11:45 am</p>	<p>The Future for Baseload Electricity</p> <p>The rapid expansion of lower priced natural gas and renewable resources has often come at the expense of coal, but is now putting pressure on many nuclear plants as well. The threatened loss of these traditional baseload resources has raised concern among some stakeholders, spawning a variety of state, regional and federal efforts that would provide market supports, as has occurred for other electricity resources. Presenters will discuss the market outlook for these resources, potential impacts of their loss, policies to support coal and nuclear, and the impacts to markets, prices and reliability.</p> <p><i>Bill Berg, Vice President, Wholesale Market Development, Exelon Corporation</i></p> <p><i>Kelly Lefler, Senior Policy Advisor, Office of Nuclear Energy, U.S. Department of Energy</i></p>
<p>11:45 am – 12:20 pm</p>	<p>Lunch</p> <p><i>(provided on the Mezzanine Level)</i></p>
<p>12:20 – 12:25 pm</p>	<p>Return to the James Whitcomb Riley Room</p>
<p>12:25 – 1 pm</p>	<p>Keynote with Tony Clark</p> <p><i>Senior Advisor, Wilkinson Barker Knauer, LLP</i></p>

1 – 2 pm	<p>Natural Gas and Renewables—Drivers of Change</p> <p>The rapid expansion of renewable energy sources along with low natural gas prices are forecast to continue for the foreseeable future. How will these resources affect the market and what will it mean for pricing, reliability and resilience? What will be the impact of growing generation on the distribution grid? How do state energy policies affect regional energy markets? Speakers will explore these questions and more.</p> <p><i>Craig Glazer, Vice President, Federal Government Policy, PJM</i></p> <p><i>Michael Kessler, Managing Assistant General Counsel, Midcontinent Independent System Operator</i></p>
2 – 2:15 pm	<p>Break</p>
2:15 – 3:30 pm	<p>Energy Management for a Modern Grid</p> <p>Technology has driven major shifts in energy management over the past decade and the rate of change is likely to continue as smarter grid technologies, demand management and energy storage expand. As the resource mix has changed, they are playing an increasing role in adapting the grid to a more diverse and variable energy mix. While these approaches and technologies often lower costs, increase efficiency and improve reliability, market design and utility regulatory policies play a significant role in their ability to compete and expand.</p> <p><i>Katie Guerry, Vice President of Regulatory Affairs, EnerNOC</i></p> <p><i>Chris Villarreal, President, Plugged In Strategies</i></p> <p><i>Patrick Maguire, Director of Corporate Planning & Analysis, Indianapolis Power & Light Company</i></p>
3:30 – 4:30 pm	<p>State Policy and Regional Power Markets</p> <p>State policies and regional markets interact in many ways. There is ongoing debate as to whether certain state efforts to promote economic development, clean energy or jobs, create imbalances and challenges for regional markets. These policies could include zero emissions credits, renewable energy standards, and efforts to protect certain types of generation, among others. Is this an issue that needs to be addressed or is the market adequately incorporating the many divergent state approaches to energy policy? Experts will discuss these issues during a roundtable discussion.</p> <p><i>Lael Campbell, Director, State Governmental and Regulatory Affairs, Exelon Corporation</i></p> <p><i>Dana Horton, Director of RTO Policy, American Electric Power</i></p> <p><i>Craig Glazer, Vice President, Federal Government Policy, PJM</i></p> <p><i>Chris Villarreal, President, Plugged In Strategies</i></p>

4:30 – 5 pm	Wrap Up <ul style="list-style-type: none"> • What did you learn from today's sessions? • Are there other questions or topics that should be considered? • Discuss schedule for Thursday.
5:45 – 7:15 pm	Reception at Tomlinson Taproom (<i>located in the Indianapolis City Market</i>) <i>*Beverages and appetizers will be provided</i>
Thursday, June 28	
8 am	Depart hotel
8:45 am	Arrive at MISO
8:45 – 10 am	Putting It All Together What information regarding the rapidly evolving energy markets can state policymakers take back with them? What questions remain unanswered? Participants will have time to discuss key issues surrounding energy markets, state challenges, and the opportunities for policymakers.
10 – noon	Overview of MISO and Tour Participants will have the opportunity to meet with senior officials and see MISO operations.
Noon – 12:30 pm	Return to Hilton Garden Inn
1:30 – 3 pm	Tour of the Indiana Statehouse (<i>optional</i>)
Afternoon	Legislators depart
