REQUESTED ACTION

Authorize the Department of Health and Human Services, Office of the Commissioner, to amend existing contracts with the Contractors listed below for school-related services for vulnerable New Hampshire refugees, by increasing the total price limitation by \$205,000 from \$600,000 to \$805,000 with no change to the contract completion dates of September 29, 2023, effective upon Governor and Council approval. 100% Federal Funds.

The original contracts were approved by Governor and Council on March 21, 2018, Item #8, amended on September 18, 2019, Item #7, and most recently amended on June 16, 2021, Item #10.

Funds are available in the following accounts for State Fiscal Year 2022, and are anticipated to be available in State Fiscal Years 2023 and 2024, upon the availability and continued appropriation of funds in the future operating budget, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

See attached fiscal details.

EXPLANATION

The purpose of this request is to provide assistance to refugee students grades pre-k through graduation statewide, who are within five (5) years of arrival to the United States in order that they may achieve improved academic performance and social adjustments. Additionally, the

Contractor will now support Office of Refugee Resettlement (ORR) eligible clients from Afghanistan.

Approximately 200 individuals will be served during State Fiscal Years 2022 and 2023.

The Contractors provide culturally competent assistance, in collaboration with agencies who provide health and mental health care services, child care, and social services, in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems. Direct assistance is provided to all newly arrived students and their parents in areas that include:

- School enrollment and orientation for students and their parents;
- Linguistically appropriate tutoring;
- Academic support;
- Interpretation services;
- Social integration and leadership development support; and
- Referrals and guidance for pre-kindergarten supports and services.

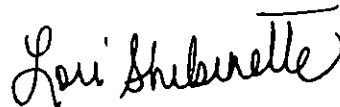

The Department will monitor performance of the contractors through semi-annual progress reports and during in-person meetings to review the employability plans, case notes, and progress reports.

Should the Governor and Executive Council not authorize this request, refugee children and their parents may lack support necessary to succeed in school.

Source of Federal Funds: Assistance Listing Number #93.566, FAIN # Refugee Funds 22G99RSF2, FAIN # Afghan Funds 22G992210.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lori A. Shibinette
Commissioner

INDEPENDENT AUDITORS' REPORT

Board of Directors
Ascentria Community Services, Inc. and Subsidiary
Worcester, Massachusetts

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Ascentria Community Services, Inc. and Subsidiary, which comprise the consolidated statement of financial position as of June 30, 2021 and 2020, and the related consolidated statement of activities, cash flows, and functional expenses, for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Directors
Ascentria Community Services, Inc. and Subsidiary

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Ascentria Community Services, Inc. and Subsidiary as of June 30, 2021 and 2020, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supporting information shown on page 20 is presented for purposes of additional analysis as required by the *Maine Uniform Accounting and Auditing Practices for Community Agencies (MAAP)* and is not a required part of the financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is also presented for purposes of additional analysis and is not a required part of the basic financial statements. The supporting information required by MAAP and the schedule of expenditures of federal awards is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2021, on our consideration of Ascentria Community Services, Inc. and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of Ascentria Community Services, Inc. and Subsidiary's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Ascentria Community Services, Inc. and Subsidiary's internal control over financial reporting and compliance.

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Basis of Consolidation

The accompanying consolidated financial statements present the consolidated financial position, results of operations, changes in net assets, cash flows, and functional expenses of the Organizations. Material intercompany transactions and balances have been eliminated in consolidation.

Method of Accounting

The consolidated financial statements of the Organizations have been prepared on the accrual method of accounting. Accordingly, assets are recorded when the Organizations obtain the rights of ownership or is entitled to claims for receipt and liabilities are recorded when the obligation is incurred.

Cash and Cash Equivalents

The Organizations consider all short-term debt securities purchased with an original maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are recorded net of an allowance of expected losses. The allowance is estimated from historical performance and projections of trends. Credit is extended to customers and collateral is not required. When the accounts become past due, historically, the Organizations have not charged interest to these accounts.

Inventory

Vehicles identified for the purpose of being delivered to program participants are valued based on the average contract reimbursement rate for the reporting period which approximates the lower of cost or net realized value.

Program vehicles expected to be sold at retail are recorded based on trade-in value.

Vehicles expected to be sold at wholesale are valued using the average sales proceeds for all vehicles sold during the reporting period.

Vehicles are recorded as donated vehicles or donated vehicles – wholesale when the vehicle is received.

Property and Equipment

Property and equipment are recorded at cost. Assets with an estimated useful life of more than one year and a historical cost in excess of \$2,500 are capitalized. The Organizations capitalize acquisitions and improvements, while expenditures for maintenance and repairs that do not extend the useful lives of the assets are charged to operations. Donated property and equipment are recorded at its fair market value at date of donation. Gifts of long-lived assets are reported as net assets without donor restriction support unless donor stipulations specify how the assets are to be used, and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support.

**ASCENTRIA COMMUNITY SERVICES, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2021 AND 2020**

**NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)**

Property and Equipment (Continued)

Absent explicit donor stipulation about how long those assets must be maintained, expiration of donor restrictions are reported when the donated or acquired long-lived assets are placed into service. Depreciation is computed using the straight-line method over the estimated useful life of the assets.

Related Party Loans Receivable

The Organizations' loan portfolio is comprised on unsecured related party loans receivable that are noninterest bearing and have no fixed repayment terms, as detailed in Note 3, and is considered a single portfolio class. Related party loans receivable are recorded net of an allowance for expected loan losses (allowance). The Organizations establish an allowance as an estimate of inherent risk in the Organizations' loan portfolio. Although management believes the allowance to be adequate, ultimate losses may vary from its estimates.

The allowance is established through a provision for loan losses that is charged to expense. Loan losses are charged off against the allowance when the Organizations determine the loan balance to be uncollectible. Proceeds received on previously charged off amounts are recorded as recovery in the year of receipt. The Organizations determined that all related party loans receivable are fully collectible as of June 30, 2021 and 2020.

The Organizations review the adequacy of the allowance, including consideration of the relevant risks in the loan portfolio, current economic conditions, and other factors periodically. The Organizations internally monitor related party borrowers to assess the risk of nonperformance. The Organizations determine that changes are warranted based on those reviews, the allowance is adjusted.

Net Assets

Net assets of the Organizations are classified and reported as follows:

Net Assets without Donor Restrictions – Net assets that are not subject to donor-imposed stipulations.

Net Assets with Donor Restrictions – Net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met either by actions of the Organizations and/or the passage of time. Other donor-imposed restrictions are perpetual in nature when the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both. Net assets with donor restrictions consist of \$997,007 and \$841,000 for beneficial interest in net assets of related party and \$90,283 and \$84,844 other program restrictions for the years ended June 30, 2021 and 2020, respectively. There were no net assets invested in perpetuity as of June 30, 2021 and 2020.

Contract and Grant Revenue

The Organizations derive revenues through cost-reimbursable and unit rate federal and state contracts and grants, which are conditional grants based on certain performance requirements and/or the incurrence of allowable qualifying expenses. Accordingly, the Organizations are subject to the regulations and reporting requirements of the applicable governmental and grantor agencies. Amounts received are recognized as earned and are reported as revenue when the Organizations have incurred expenditures in compliance with specific contract or grant provisions. As of June 30, 2021, there was \$2,942,937 of conditional contributions that have yet to be recognized in the consolidated financial statements.

Donated Services

Donated services are recognized in the consolidated financial statements if the services enhance or create nonfinancial assets or require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation.

Donated Vehicle Revenue

Donated vehicle revenue includes vehicles that will be repaired and delivered to program participants. They are valued based on the average contract reimbursement rate for the reporting period. Additionally, donated vehicle revenue includes donated vehicles that do not meet the needs of program participants. These vehicles are sold at auction and valued based on average proceeds for the reporting period. Vehicle auction revenue is recognized at a point in time when the item is sold. As of June 30, 2021 and 2020, there was \$1,400,120 and \$835,817, respectively, included in donated vehicles on the consolidated statement of activities.

Federal and State Relief Grant Revenue

During 2021 and 2020, the Organizations received federal and state grants to provide funding to respond to the COVID-19 pandemic. The Organizations received payments from the CARES Act Provider Relief Fund (PRF), which is administered by the U.S. Department of Health and Human Services (HHS). The Organizations received PRF payments and recognized revenue in the amount of \$587,171 and \$184,667 during fiscal year 2021 and 2020, respectively. The revenues recognized are included in Federal and State Relief Grant Revenue on the consolidated statements of activities. The PRF payments have terms and conditions that the Organizations are required to follow, and these funds are subject to reporting requirements and audit. The PRF payments are subject to potential recoupment by HHS if it is determined that the funds were not spent in accordance with the terms and conditions. Management believes the amounts have been recognized appropriately as of June 30, 2021.

The Organizations received payments and recognized revenue in the amount of \$172,112 and \$461,053 during the fiscal years 2021 and 2020, respectively. The revenues recognized are included in Federal and State Relief Grant Revenue on the consolidated statements of activities. The payments have terms and conditions that the Organizations are required to follow, and these funds are subject to reporting requirements and audit. The payments are subject to potential recoupment by GOFERR if it is determined that the funds were not spent in accordance with the terms and conditions. Management believes the amounts have been recognized appropriately as of June 30, 2021.

Additionally, the Organizations recognized payments from the Commonwealth of Massachusetts Executive Office of Health and Human Services (EOHHS) of \$97,134 as revenues as of June 30, 2021. The revenues recognized are included in Federal and State Relief Grant Revenue on the consolidated statement of activities.

Program Service Revenue

Program service revenue is from private pay services, translation services, and interpretation services. Program service revenue is recognized as services are provided over time. Payments received in advance of services are reported as deferred revenue.

Advertising Costs

Advertising costs are expensed as incurred. Advertising costs paid for by the Organizations amounted to \$184,067 and \$136,170 for the years ended June 30, 2021 and 2020, respectively. Contributions of advertising are recorded at the estimated fair value on the date of the contribution. The Organizations received contributions of advertising estimated to have a value of \$26,216 and \$20,923 for the years ended June 30, 2021 and 2020, respectively.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Functional Allocation of Expenses

The cost of providing the various programs and services are summarized on a functional basis. Costs are generally identified as to program site, and are then allocated between programs and supporting services that benefited based on total direct expenses. Salaries and benefits are allocated on the basis of time and effort. The expenses that are allocated are the portions of depreciation and interest expense that are not directly attributable to specific programs or services. These expenses are allocated on a square footage basis.

Income Taxes

The Organizations are nonprofit corporations as described in Section 501(c)(3) of the IRC and are exempt from federal and state income taxes on related income pursuant to Section 501(a) of the IRC.

Fair Value Measurements

In accordance with professional standards, assets and liabilities measured and recorded at fair value are required to be categorized into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement. Assets and liabilities measured and recorded at fair value by the Organizations are categorized as follows:

Level 1 – Inputs that utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that an entity has the ability to access.

Level 2 – Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 – Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

Fair Value Measurements (Continued)

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in valuation methodology used at June 30, 2021 and 2020.

Change in Accounting Principles

Financial Accounting Standard Board (FASB) issued Accounting Standards Update (ASU) 2018-13 Fair Value Measurement (Topic 820): *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. The ASU removes and modifies disclosure requirements retrospectively for nonpublic entities. The ASU is effective for fiscal years beginning after December 15, 2019. The Organizations' consolidated financial statements reflect the application of ASU 2018-13 using a retrospective approach to each period presented.

New Accounting Pronouncements

In February 2016, the FASB issued ASU No. 2016-02, *Leases*, which is a comprehensive lease accounting standard that requires entities that lease assets (lessees) to recognize the assets and related liabilities for the rights and obligations created by the leases on the balance sheet for leases with terms exceeding 12 months. The lessee in a lease will be required to initially measure the right-of-use asset and the lease liability at the present value of the remaining lease payments, as well as capitalize initial direct costs as part of the right-of-use asset. The FASB issued ASU 2020-05, which deferred the effective date for the Organizations until annual periods beginning after December 15, 2021; however, early application is permitted. The Organizations are currently evaluating the impact this guidance will have on its consolidated financial statements.

In September 2020, the FASB issued ASU No. 2020-07 on Topic 958, *Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. The FASB ASU requires nonprofits to present contributed nonfinancial assets and gifts-in-kind as a separate line item on your consolidated statement of activities. Additionally, gift-in-kind are to be disaggregated into categories based on the type of gift received and additional qualitative disclosures. The FASB ASU requires the new standard to be applied retrospectively for annual periods beginning after June 15, 2021. The Organizations are currently evaluating the impact this guidance will have on its consolidated financial statements.

These amounts may be forgiven subject to compliance and approval based on the timing and use of these funds in accordance with the program. The covered periods from March 2021 to September 2021, is the time that a business has to spend their PPP Loan funds. Subsequent to year-end, the Organizations obtained full formal forgiveness from the SBA for their PPP Loans and their associated accrued interest.

NOTE 11 CONTINGENCIES

A significant portion of the Organizations' net revenues and accounts receivable are derived from services reimbursable under Medicaid programs. There are numerous healthcare reform proposals being considered on federal and state levels. The Organizations cannot predict at this time whether any of these proposals will be adopted or, if adopted and implemented, what effect such proposals would have on the Organizations.

A significant portion of the Organizations' revenues are derived from services reimbursable under Medicaid programs. The base year costs utilized in calculating the Medicaid rates are subject to audit which could result in a retroactive rate adjustment for all years in which that cost base was used in calculating the rates. It is not possible at this time to determine whether the Organizations will be audited or if a retroactive rate adjustment would result.

NOTE 11 CONTINGENCIES (CONTINUED)

The receivables of the Organizations are listed as collateral under the line of credit agreement of Ascentria. The outstanding balance is \$2,290,000 and \$2,500,000 as of June 30, 2021 and 2020, respectively.

NOTE 12 FAIR VALUE MEASUREMENT

The Organizations use fair value measurements to record fair value adjustments to certain assets and liabilities to determine fair value disclosures. For additional information on how the Organizations measure fair value refer to Note 1 – Organization and Summary of Significant Accounting Policies.

The following tables present the Organizations' fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of June 30, 2021 and 2020:

		2021			
		Total	Level 1	Level 2	Level 3
Beneficial Interest in Net					
Assets of Related Party:		\$ 997,007	\$ -	\$ -	\$ 997,007
Total		\$ 997,007	\$ -	\$ -	\$ 997,007
		2020			
		Total	Level 1	Level 2	Level 3
Beneficial Interest in Net					
Assets of Related Party:		\$ 841,000	\$ -	\$ -	\$ 841,000
Total		\$ 841,000	\$ -	\$ -	\$ 841,000

The following table provides a summary of changes in fair value of the Organizations' Level 3 financial assets for the years ended June 30, 2021 and 2020:

		2021	2020
Contributions		\$ 204,543	\$ 64,813
Payments		(43,096)	(201,348)

Since these funds are held by a third party that pools the Organizations' interest with other related organization's assets, management has determined that the inputs are unobservable and therefore, valued using a Level 3 methodology. The principal valuation technique is the fair value of the underlying investments and the unobservable input is the term of distributions.

NOTE 13 AVAILABLE RESOURCES AND LIQUIDITY

The Organization regularly monitors liquidity required to meet its operating needs and other commitments. For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Service considers all expenditures related to its ongoing program activities as well as the conduct of services undertaken to support those activities to be general expenditures.

In addition to financial assets available to meet general expenditures over the next 12 months, the Organization operates a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources. The Organization considers the following to be available to meet cash needs for general expenditures:

	2021	2020
Cash and Cash Equivalents	\$ 4,380,964	\$ 1,088,674
Accounts Receivable, Net	5,193,640	4,618,979

NOTE 14 COVID-19 IMPACT

In 2020, the World Health Organization declared the spread of Coronavirus (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. In response to the pandemic and in an effort to supplement lost revenues and support increased costs incurred to secure personal protective equipment, the federal and state governments issued stimulus payments to the Organizations. See Note 1 for information on funding received by the Organizations in 2021.

COVID-19 may also impact various parts of the Organizations' 2022 operations and financial results including but not limited to additional costs for emergency preparedness, disease control and containment, potential shortages of personnel, or loss of revenue due to reductions in certain revenue streams. Management believes that the Organizations are taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of June 30, 2021.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Ascentria Community Services, Inc. and Subsidiary
Worcester, Massachusetts

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Ascentria Community Services, Inc. and Subsidiary, which comprise the consolidated statements of financial position as of June 30, 2021, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 14, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Ascentria Community Services, Inc. and Subsidiary's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ascentria Community Services, Inc. and Subsidiary's internal control. Accordingly, we do not express an opinion on the effectiveness of Ascentria Community Services, Inc. and Subsidiary's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's consolidated financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Ascentria Community Services, Inc. and Subsidiary's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH
MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Board of Directors
Ascentria Community Services, Inc. and Subsidiary
Worcester, Massachusetts

Report on Compliance for Each Major Federal Program

We have audited Ascentria Community Services, Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Ascentria Community Services, Inc.'s major federal programs for the years ended June 30, 2021. Ascentria Community Services, Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Ascentria Community Services, Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Ascentria Community Services, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Ascentria Community Services, Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, Ascentria Community Services, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2021-001. Our opinion on each major federal program is not modified with respect to these matters.

Ascentria Community Services, Inc.'s response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Ascentria Community Services, Inc.'s response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of Ascentria Community Services, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Ascentria Community Services, Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Ascentria Community Services, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify deficiencies in internal control over compliance that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

Board of Directors
Ascentria Community Services, Inc. and Subsidiary

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

EXPLANATION

This request is **Sole Source** because the Department is extending contract beyond the completion date and there are no renewal options available. The Department is extending these contracts as the Contractors are under contract with the United States Department of State to resettle families via the U.S. Refugee Program. Through these contracts, the Contractors receive pertinent demographic information, and develops and implements integration plans for each refugee arriving in the State of New Hampshire area, therefore the Contractors are uniquely qualified to provide these services.

The purpose of this request is to provide assistance to refugee students in Concord, Manchester and Nashua who are within one (1) year of arrival to the United States in order that they may achieve improved academic performance and social adjustments.

Approximately 400 students in the Concord, Manchester and Nashua area will be served from October 1, 2019 to September 30, 2023.

The Contractors provide culturally competent assistance, in collaboration with agencies who provide health and mental health care services, child care, and social services, in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems. Direct assistance is provided to newly arrived students in these areas:

- School enrollment and orientation for students and their parents.
- Linguistically appropriate tutoring.
- Study support.
- Interpretation services.

The Department will monitor contracted services using the following performance measures:

- Number and percentage of students who achieve academic success;
- Number of parents receiving education or training.
- Number of school personnel who report increased cultural competence;
- Number of incidences of linguistic support provided in schools by Contractors;
- Participation in school-sponsored programs;
- Effectiveness of health care referrals;
- Number of parents attending parent-teacher conferences;
- Percent of referrals and attendance at after school programs; and
- Percentage of students assisted with registration for summer programs.

Should the Governor and Executive Council not authorize this request, refugee children and their parents may lack support necessary to succeed in school.

Area served: Statewide

Source of Funds: CFDA # 93.566 FAIN# 1901NHRSOC

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

EXPLANATION

The purpose of this request is to continue assisting refugee students in Concord, Manchester and Nashua who are within one (1) year of arrival to the United States in order that they may achieve improved academic performance and social adjustments.

Approximately 200 individuals will be served from October 1, 2019 to September 30, 2021.

The original agreements included language in Exhibit C-1, Paragraph 3 that allows the Department to renew the contracts for up to two (2) years, subject to the continued availability of funding, satisfactory performance of service, parties' written authorization, and approval from the Governor and Executive Council. The Department is in agreement with renewing services with each of the vendors for two (2) of the two (2) years at this time.

Direct assistance is provided to newly arrived students in these areas:

- School enrollment and orientation for students and their parents.
- Linguistically appropriate tutoring.
- Study support.
- Interpretation services.

The Contractors provide culturally competent assistance, in collaboration with agencies who provide health and mental health care services, child care, and social services, in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

The following performance measures are used to measure the effectiveness of these contracts:

- Number and percentage of students who achieve academic success;
- Number of parents receiving education or training.
- Number of school personnel who report increased cultural competence;
- Number of incidences of linguistic support provided in schools by Contractors;
- Participation in school-sponsored programs;
- Effectiveness of health care referrals;
- Number of parents attending parent-teacher conferences;
- Percent of referrals and attendance at after school programs; and
- Percentage of students assisted with registration for summer programs.

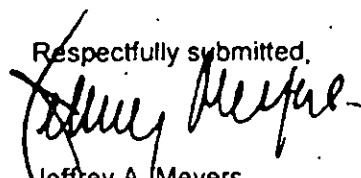

Should Governor and Executive Council not authorize this request, refugee children and their parents may lack support necessary to succeed in the Manchester, Nashua, and Concord school systems.

Area served: Concord, Manchester, and Nashua

Source of Funds: 100% Federal Funds from the Administration for Children and Families, Office of Refugee Resettlement, Refugee and Entrant Assistance, State Administered Programs – Refugee health Promotion Grant, Federal Office of Refugee Resettlement, CFDA# 93.566, FAIN # 1901NHRSOC.

Respectfully submitted,

EXPLANATION

This request is **retroactive** because the U.S. Department of Health & Human Services, Administration for Children and Families, Office of Refugee Resettlement, was delayed in issuing the Notices of Award to all recipients. The delays at the federal level resulted in delays for the New Hampshire Department of Health & Human Services in receiving and accepting the funds for this contract.

Funds in these agreements will be used to assist refugee students in Concord, Manchester and Nashua, who are within one (1) year of arrival to the United States, to achieve improved academic performance and social adjustment. Direct assistance will be provided to newly arrived students in these areas:

- School enrollment and orientation for students and their parents.
- Linguistically appropriate tutoring.
- Study support.
- Translation services.

The selected vendors will provide culturally competent assistance in collaboration with agencies who provide health and mental health care services, child care, and social services in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems.

Ascentria Community Services, Inc., and International Institute of New England, Inc., were selected for this project through a competitive bid process. A Request for Proposals was posted on the Department of Health and Human Services' website from April 10, 2017 through June 8, 2017.

The Department received two (2) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. Their decision followed a thorough discussion of the strengths and weaknesses of the proposals. The final decision was made through consensus scoring. The Score Summary is attached.

These agreements include Exhibit C-1, Revisions to General Provisions, paragraph 3, which reserves the Department's option to renew contract services for up to two (2) additional years, subject to continued funding, satisfaction with vendor services and approval of the Governor and Executive Council.

The following performance measures/objectives will be used to measure the effectiveness of these contracts:

- Number and percentage of students who achieve academic success;

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
Page 3 of 3

- Number of parents receiving education or training.
- Number of school personnel who report increased cultural competence;
- Number of incidences of linguistic support provided in schools by Contractors;
- Participation in school-sponsored programs;
- Effectiveness of health care referrals;
- Number of parents attending parent-teacher conferences;
- Percent of referrals and attendance at after school programs; and
- Percentage of students assisted with registration for summer programs.

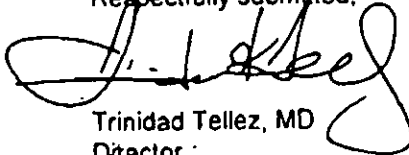

Should Governor and Executive Council not authorize this Request, refugee children and their parents may lack support necessary to succeed in the Manchester, Nashua, and Concord school systems.

Area served: Concord, Manchester, and Nashua

Source of Funds: 100% Federal Funds from the Administration for Children and Families, Office of Refugee Resettlement, Refugee and Entrant Assistance, State Administered Programs – Refugee health Promotion Grant, Federal Office of Refugee Resettlement.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Independent Auditor's Report

To the Board of Directors of
International Institute of New England, Inc.:

Report on the Financial Statements

We have audited the accompanying financial statements of International Institute of New England, Inc. (a Massachusetts nonprofit corporation), which comprise the statements of financial position as of September 30, 2021 and 2020, and the related statements of activities and changes in net assets, cash flows and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of International Institute of New England, Inc. as of September 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Notes to Financial Statements
September 30, 2021 and 2020

1. OPERATIONS AND NONPROFIT STATUS

International Institute of New England, Inc. (the Institute) is a nonprofit organization that provides assistance to the immigrant and refugee populations of Massachusetts and New Hampshire. In fiscal years 2021 and 2020, there were approximately 3,000 unduplicated people, from approximately 112 countries that benefited from the Institute's services, gaining the knowledge and skills necessary for their integration into American life. The Institute's services include English and literacy classes, citizenship education, job training and placement, legal aid and counseling services, and case management.

The Institute is exempt from Federal income taxes as an organization (not a private foundation) formed for charitable purposes under Section 501(c)(3) of the Internal Revenue Code (IRC). The Institute is also exempt from state income taxes. Contributions made to the Institute are deductible by donors within the requirements of the IRC.

2. SIGNIFICANT ACCOUNTING POLICIES

The Institute prepares its financial statements in accordance with generally accepted accounting standards and principles (U.S. GAAP) established by the Financial Accounting Standards Board (FASB). References to U.S. GAAP in these notes are to the FASB Accounting Standards Codification (ASC).

Statements of Activities and Changes in Net Assets

Transactions deemed by management to be ongoing, major, or central to the provision of program services are reported as revenues and expenses in the accompanying statements of activities and changes in net assets. Non-operating revenue (expense) includes investment and property and equipment related activity.

Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property and Equipment and Depreciation

Property and equipment are recorded at cost when purchased or at fair value at the date of donation. Property and equipment are depreciated using the straight-line method over the following estimated useful lives:

Leasehold improvements	Lesser of life of lease or 10 years
Furniture and equipment	3 - 10 years

Allowance for Doubtful Accounts

The allowance for doubtful accounts is recorded based on management's analysis of specific accounts and their estimate of amounts that may be uncollectible, if any. No allowance for doubtful accounts was deemed necessary as of September 30, 2021 or 2020.

INTERNATIONAL INSTITUTE OF NEW ENGLAND, INC.

Notes to Financial Statements
September 30, 2021 and 2020

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash

For the purpose of the statements of cash flows, management considers all highly liquid investments with an initial maturity of three months or less to be cash, except those funds that are included in the Institute's investments (see Note 4).

Fair Value Measurements

The Institute follows the accounting and disclosure standards pertaining to ASC Topic, *Fair Value Measurements*, for qualifying assets and liabilities. Fair value is defined as the price that the Institute would receive upon selling an asset or pay to settle a liability in an orderly transaction between market participants.

The Institute uses a framework for measuring fair value that includes a hierarchy that categorizes and prioritizes the sources used to measure and disclose fair value. This hierarchy is broken down into three levels based on inputs that market participants would use in valuing the financial instruments based on market data obtained from sources independent of the Institute. Inputs refer broadly to the assumptions that market participants would use in pricing the financial instrument, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the financial instrument developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset developed based on the best information available.

The three-tier hierarchy of inputs is as follows:

- Level 1 - Inputs that reflect unadjusted quoted prices in active markets for identical assets at the measurement date.
- Level 2 - Inputs other than quoted prices that are observable for the asset either directly or indirectly, including inputs in markets that are not considered to be active.
- Level 3 - Inputs that are unobservable, and which require significant judgment or estimation.

An asset or liability's level within the framework is based upon the lowest level of any input that is significant to the fair value measurement.

Investments

Investments are recorded in the financial statements at fair value. If an investment is directly held by the Institute and an active market with quoted prices exists, the market price of an identical security is used to report fair value. Reported fair values of shares in mutual funds are based on share prices reported by the funds as of the last business day of the fiscal year. The Institute's interest in a limited liability partnership is reported at the net asset value (NAV) reported by fund managers, which is used as a practical expedient to estimate fair value, unless it is probable that all or a portion of the investment will be sold for an amount different from NAV. As of September 30, 2021, and 2020, the Institute had no plans to sell this investment.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue Recognition

Government Contracts, Grants and Contributions

The Institute's primary sources of revenue are from Federal and state government contracts. Amounts received under these contracts have been recorded in accordance with Accounting Standards Update (ASU) *Topic 958, Not-for-Profit Entities* (Topic 958). These contracts are considered nonreciprocal transactions because the general public receives the benefit as the result of the assets transferred. These conditional contributions are recognized as services are provided or qualifying costs are incurred.

Grants and contributions and United Way allocations are recorded as revenue and net assets without donor restrictions when unconditionally committed. Grants and contributions with donor restrictions are recorded as revenues and net assets with donor restrictions when unconditionally received or pledged. Net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the accompanying statements of activities and changes in net assets as net assets released from restrictions as costs are incurred, time or program restrictions have lapsed, or capital improvements have been placed into service.

In accordance with Topic 958, the Institute must determine whether a contribution (or a promise) is conditional or unconditional for transactions deemed to be a contribution. A contribution is considered to be a conditional contribution if an agreement includes a barrier that must be overcome and either a right of return of assets or a right of release of a promise to transfer assets exists (see Note 8). Indicators of a barrier include a measurable performance-related barrier or other measurable barriers, a stipulation that limits discretion by the recipient on the conduct of an activity, and stipulations that are related to the purpose of the agreement. Topic 958 prescribes that the Institute should not consider probability of compliance with the barrier when determining if such awards are conditional and should be reported as conditional grant advance liabilities until such conditions are met. Assets received before the barrier is overcome are recorded as conditional advances.

A portion of the Institute's revenue is derived from cost-reimbursable and unit-rate contracts (contracts), which are conditioned upon certain performance requirements and/or the incurrence of allowable qualifying expenses. Amounts are recognized as revenue when the Institute has incurred expenditures in compliance with specific contract provisions. Amounts received prior to incurring qualifying expenditures are reported as conditional advances in the accompanying statements of financial position.

Special events revenue, included in grants and contributions in the accompanying statements of activities and changes in net assets, is from the Institute's ability to host fundraising events. Special event income consists of both contributions and sales. The contribution portion of the special event income is recognized as revenue when unconditionally committed or received in accordance with Topic 958. Special events are considered donor restricted if the proceeds of the event are restricted for specific purposes or time periods at the time of the event. The sales portion of the special event income is recognized in accordance with *Revenue from Contracts with Customers* (Topic 606) and is derived from various components, including ticket sales from fundraising events held in which the transaction price is determined annually. Registration fees for these events are set by the Institute and have not been allocated as the events are each considered to be separate performance obligations. The fee portion for these events is immaterial and has not been recognized separately from the contribution portion.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)**Revenue Recognition (Continued)***Revenue from Contracts with Customers - Topic 606*

The Institute generally measures revenue from exchange transactions based on the amount of consideration the Institute expects to be entitled for the transfer of goods or services to a customer, then recognizes this revenue when or as the Institute satisfies its performance obligations under a contract. The Institute evaluates its revenue recognition based on the five-step model under Topic 606: (1) Identify the contract with the customer; (2) Identify the performance obligations in the contract; (3) Determine the transaction price; (4) Allocate the transaction price to separate performance obligations; and (5) Recognize revenue when (or as) each performance obligation is satisfied.

The Institute recognized program service fees for legal and translation services provided for clients, in which the clients either pay for the services themselves or are sponsored by corporations, depending on the service provided. Program service fees generally consist of a single performance obligation to provide services, and agreements with clients do not contain variable consideration. Accordingly, program service fees are recognized at a point in time, which is also when the performance obligation is satisfied. The transaction price is a fixed fee based upon the service provided, which is established by management based on hourly rates and expected number of hours to complete the service.

Contracted services revenue consists of various training and education service programs provided to immigrants and refugees that span over several months based on the nature of the program or course. There is a single performance obligation for all programs, which consists of the completion of the training and education program or course and related events. Revenue is recognized ratably over the period of the program or course, and the transaction price is based on fixed quoted prices. The contract amount may vary based upon the number of participants in the program and the rate per participant. Generally, a fixed-fee contract is signed by either an individual participant in the program or an organization sponsoring the individuals. The transaction price is determined based upon hourly rates established by management and the number of hours estimated to complete a contract.

Other

Investment return consists of interest, dividends, and realized and unrealized gains and losses. Interest income is recorded as earned and dividend income is recorded on the ex-dividend date. Realized gains and losses on investment transactions are recorded based on the average cost method. Unrealized gains and losses are recorded based on changes in fair value. All other revenue is recognized as earned.

Expense Allocations

Program expenses include direct expenses, as well as indirect expenses, which are allocated based upon management's estimate of the percentage attributable to each program. Expenses related directly to a program or supporting function are charged to that function, while all other expenses are allocated based upon management's estimate of the percentage attributable to each function.

Certain categories of expenses are attributable to more than one program or supporting function and are allocated on a reasonable basis that is consistently applied. The expenses that are allocated are salaries, payroll taxes and fringe benefits, which are allocated on the basis of estimates of time and effort; occupancy and depreciation, which are allocated on a square footage basis; and indirect other operating expenses, which are allocated based on management's estimate of usage.

INTERNATIONAL INSTITUTE OF NEW ENGLAND, INC.Notes to Financial Statements
September 30, 2021 and 2020**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)****Advertising Costs**

Costs incurred for producing and communicating advertising are expensed when incurred and are reflected as advertising in the accompanying statements of functional expenses.

Donated Goods and Services

The Institute receives donated goods and services in various aspects of its program services. The value of the donated items is based on values assigned or estimates made by the donors. Donated goods include food and clothing; and donated services include legal, teaching, and consulting work. Donated items received were as follows:

	<u>2021</u>	<u>2020</u>
Donated services	\$ 570,121	\$ 513,454
Donated goods	<u>46,920</u>	<u>46,834</u>
	<u>\$ 617,041</u>	<u>\$ 560,288</u>

The Institute also receives a substantial amount of donated administrative services. Many individuals volunteer their time and perform a variety of tasks that help the Institute accomplish its goals. These services do not meet the criteria for recognition as contributed services under U.S. GAAP and, accordingly, are not included in the accompanying financial statements.

Subsequent Events

Subsequent events have been evaluated through March 28, 2022, which is the date the financial statements were available to be issued. There were no events that met the criteria for recognition or disclosure in the financial statements.

Income Taxes

The Institute accounts for uncertainty in income taxes in accordance with ASC Topic, *Income Taxes*. This standard clarifies the accounting for uncertainty in tax positions and prescribes a recognition threshold and measurement attribute for the financial statements regarding a tax position taken or expected to be taken in a tax return. The Institute has determined that there are no uncertain tax positions which qualify for either recognition or disclosure in the financial statements at September 30, 2021 or 2020. The Institute's information returns are subject to examination by the Federal and state jurisdictions.

Net Assets***Net Assets Without Donor Restrictions:***

Net assets without donor restrictions are those net resources that bear no external restrictions and are generally available for use by the Institute. The Institute has grouped its net assets without donor restrictions into the following categories:

Operating - represents funds available to carry on the operations of the Institute.

Property and equipment - reflect and account for the activities relating to the Institute's property and equipment, net of related liabilities.

INTERNATIONAL INSTITUTE OF NEW ENGLAND, INC.Notes to Financial Statements
September 30, 2021 and 2020**2. SIGNIFICANT ACCOUNTING POLICIES (Continued)****Net Assets (Continued)***Net Assets with Donor Restrictions:*

The Institute receives contributions and grants that are designated by donors for specific purposes or time periods. These contributions are recorded as net assets with donor restrictions until they are either expended for their designated purposes or as the time restrictions lapse.

Net assets with donor restrictions consist of the following at September 30:

	<u>2021</u>	<u>2020</u>
Purpose restricted	\$ 643,495	\$ 175,427
Capital restricted	-	150,000
	<u>\$ 643,495</u>	<u>\$ 325,427</u>

3. RETIREMENT PLAN

The Institute has a defined contribution retirement plan covering all eligible employees over the age of twenty-one who have completed a minimum of 1,000 hours of service within each of their first two years of employment. Employee contributions are vested immediately into the plan upon eligibility. The Institute made \$60,839 and \$60,174 of matching contributions to the plan during the years ended September 30, 2021 and 2020, respectively, which are included in payroll taxes and fringe benefits in the accompanying statements of functional expenses.

4. INVESTMENTS

Investments, which are stated at fair value (see Note 2) in the accompanying statements of financial position, are as follows:

<u>2021</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Limited liability partnership (see below)				<u>1,331,204</u>
Total investments				<u>\$ 7,172,529</u>

In accordance with ASU No. 2015-07, the Institute's investment in a limited liability partnership is valued at fair value using the NAV per share (or its equivalent) practical expedient and has not been classified in the fair value hierarchy. The fair value amounts presented in the table above and on page 12 are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of financial position (see Note 2).

Investments are reported in the accompanying statements of financial position as current or long-term assets based on management's intent with respect to the use of the investments. At September 30, 2021 and 2020, \$300,000 and \$400,000, respectively, were reported as current short-term investments as management's intent is to use these funds for operations in the subsequent year.

The investments are not insured and are subject to market fluctuation.

5. CONCENTRATIONS

The Institute maintains its cash balances with two banks. The Federal Deposit Insurance Corporation (FDIC) insures balances at each bank up to certain amounts. At certain times during the year, cash balances exceeded the insured amounts. The Institute has supplemental coverage at one bank, which insures the portion of deposits in excess of the FDIC's limit. The Institute has not experienced any losses in such accounts. Management believes the Institute is not exposed to any significant credit risk on its operating cash balance.

Funding agencies and donors exceeding 10% of the Institute's operating revenue and support (excluding donated goods and services) or government contracts, contributions and accounts receivables as of and for the years ended September 30, 2021 and 2020, are as follows:

<u>Funder</u>	<u>Operating Revenue and Support %</u>		<u>Government Contracts, Contributions and Accounts Receivables %</u>

6. FUNDING

The Institute receives a significant portion of its funding from government agencies. These contracts are subject to audit by these government agencies. In the opinion of management, the results of such audits, if any, will not have a material effect on the financial position of the Institute as of September 30, 2021 and 2020, or on the changes in its net assets for the years then ended.

7. LEASE AGREEMENTS

The Institute leases its main office space in Boston, Massachusetts under an agreement that runs through July 2026. Monthly lease payments for fiscal years 2021 and 2020 were approximately \$43,000 and \$42,000, respectively, and increase throughout the term of the lease. The Institute records rent on a straight-line basis over the term of the lease. The difference between the monthly lease payments and the related rent expense for a given fiscal year is recorded as deferred rent. The straight-line rent expense combines the escalation amounts and an initial three-month rent-free period. At September 30, 2021 and 2020, deferred rent was \$208,335 and \$215,888, respectively, and is included in deferred rent and lease incentive in the accompanying statements of financial position.

The lease agreement also includes a tenant improvement allowance of \$1,107,822 in the form of a reimbursement for construction and related costs incurred by the Institute for leasehold improvements. This improvement allowance is reported as a liability and is being amortized over the lease term. The improvement allowance is included in deferred rent and lease incentives in the accompanying statements of financial position. Amortization of the lease incentive was \$110,784 during each of the years ended September 30, 2021 and 2020, and is netted with rent and utilities in the accompanying statements of functional expenses.

The Institute leases program and administrative space under various operating leases and tenant-at-will agreements. These leases expire at various dates through January 2023. The leases require the Institute to maintain certain insurance coverage and pay for its proportionate share of real estate taxes and operating expenses.

The Institute entered into an operating lease agreement for program space in Lowell, Massachusetts, which commenced on July 1, 2021, with monthly payments of \$6,756 through June 30, 2031. Rent increases annually based on the Consumer Price Index, which is limited to a maximum annual increase of 3%. There are extension options for two additional five-year periods.

Facility rent expense under all leases was approximately \$521,000 and \$514,000 for the years ended September 30, 2021 and 2020, respectively, which is included in rent and utilities in the accompanying statements of functional expenses.

The Institute also has a copier lease with monthly payments through June 2022.

Future minimum lease payments under the lease agreements are as follows:

2022	\$ 669,029
2023	639,566
2024	635,853
2025	649,445
2026	565,488
Thereafter	<u>441,829</u>
Total	<u>\$ 3,601,210</u>

8. CONDITIONAL GOVERNMENT CONTRACTS AND GRANTS**Conditional Government Contracts and Grants**

During fiscal years 2021 and 2020, the Institute received grants and contributions (including government contracts) that contained donor-imposed conditions that represent a barrier that must be overcome, as well as a right of return of assets or release from obligations. The Institute recognizes these grants and contributions, including government contracts, when donor-imposed conditions are substantially met (see Note 2).

Conditional promises to give at September 30, 2021 and 2020, consist of:

	<u>2021</u>	<u>2020</u>
Incurring qualifying expenses	\$ 773,802	\$ 557,306
Subject to measurable performance barriers	<u>222,907</u>	<u>629,471</u>
Total conditional promises to give	<u>\$ 996,709</u>	<u>\$ 1,186,777</u>

Paycheck Protection Program Loan

During fiscal year 2020, the Institute applied for and was awarded a loan of \$884,501 from the Paycheck Protection Program (PPP) established by the Coronavirus Aid, Relief and Economic Security Act (CARES Act). The funds were used to pay certain payroll costs, including benefits during a covered period as defined in the CARES Act. The Institute believed there was less than a remote chance the loan would be forgiven, and therefore, accounted for it as a conditional grant. As of September 2020, the Institute recognized the full PPP loan amount of \$884,501 as grant revenue as the condition was met as of September 30, 2020, which is included in government contracts in the accompanying fiscal year 2020 statement of activities and changes in net assets. During fiscal year 2021, the entire PPP loan amount and related accrued interest were formally forgiven by the bank and the Small Business Administration.

9. RELATED PARTY TRANSACTIONS

The Institute's President and Chief Executive Officer (CEO) is also the Treasurer of the Board of Directors. Compensation and employee benefits for services provided as the President and CEO are determined by the independent members of the Board of Directors and are based on performance objectives.

The Institute's Chief Financial Officer was the Treasurer of the Board of Directors during fiscal year 2020.

The Institute is substantially supported by grants and contributions without donor restrictions and government contracts. As part of the Institute's liquidity management, the Institute has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due.

11. PROPERTY AND EQUIPMENT AND DEPRECIATION

Property and equipment consist of the following as of September 30:

	<u>2021</u>	<u>2020</u>
Leasehold improvements	\$ 2,354,140	\$ 1,955,962

Depreciation expense was \$326,275 and \$299,534 for the years ended September 30, 2021 and 2020, respectively.

12. CONTINGENCY

The COVID-19 pandemic in the United States has caused business disruption and a reduction in economic activity. While the disruption is currently expected to be temporary, there is considerable uncertainty around the duration. While the Institute expects this matter to negatively impact its operating results, the related financial impact and duration cannot be reasonably estimated at this time.

EXPLANATION

This request is **Sole Source** because the Department is extending contract beyond the completion date and there are no renewal options available. The Department is extending these contracts as the Contractors are under contract with the United States Department of State to resettle families via the U.S. Refugee Program. Through these contracts, the Contractors receive pertinent demographic information, and develops and implements integration plans for each refugee arriving in the State of New Hampshire area, therefore the Contractors are uniquely qualified to provide these services.

The purpose of this request is to provide assistance to refugee students in Concord, Manchester and Nashua who are within one (1) year of arrival to the United States in order that they may achieve improved academic performance and social adjustments.

Approximately 400 students in the Concord, Manchester and Nashua area will be served from October 1, 2019 to September 30, 2023.

The Contractors provide culturally competent assistance, in collaboration with agencies who provide health and mental health care services, child care, and social services, in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems. Direct assistance is provided to newly arrived students in these areas:

- School enrollment and orientation for students and their parents.
- Linguistically appropriate tutoring.
- Study support.
- Interpretation services.

The Department will monitor contracted services using the following performance measures:

- Number and percentage of students who achieve academic success;
- Number of parents receiving education or training.
- Number of school personnel who report increased cultural competence;
- Number of incidences of linguistic support provided in schools by Contractors;
- Participation in school-sponsored programs;
- Effectiveness of health care referrals;
- Number of parents attending parent-teacher conferences;
- Percent of referrals and attendance at after school programs; and
- Percentage of students assisted with registration for summer programs.

Should the Governor and Executive Council not authorize this request, refugee children and their parents may lack support necessary to succeed in school.

Area served: Statewide

Source of Funds: CFDA # 93.566 FAIN# 1901NHRSOC

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

EXPLANATION

The purpose of this request is to continue assisting refugee students in Concord, Manchester and Nashua who are within one (1) year of arrival to the United States in order that they may achieve improved academic performance and social adjustments.

Approximately 200 individuals will be served from October 1, 2019 to September 30, 2021.

The original agreements included language in Exhibit C-1, Paragraph 3 that allows the Department to renew the contracts for up to two (2) years, subject to the continued availability of funding, satisfactory performance of service, parties' written authorization, and approval from the Governor and Executive Council. The Department is in agreement with renewing services with each of the vendors for two (2) of the two (2) years at this time.

Direct assistance is provided to newly arrived students in these areas:

- School enrollment and orientation for students and their parents.
- Linguistically appropriate tutoring.
- Study support.
- Interpretation services.

The Contractors provide culturally competent assistance, in collaboration with agencies who provide health and mental health care services, child care, and social services, in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems:

The following performance measures are used to measure the effectiveness of these contracts:

- Number and percentage of students who achieve academic success;
- Number of parents receiving education or training.
- Number of school personnel who report increased cultural competence;
- Number of incidences of linguistic support provided in schools by Contractors;
- Participation in school-sponsored programs;
- Effectiveness of health care referrals;
- Number of parents attending parent-teacher conferences;
- Percent of referrals and attendance at after school programs; and
- Percentage of students assisted with registration for summer programs.

Should Governor and Executive Council not authorize this request, refugee children and their parents may lack support necessary to succeed in the Manchester, Nashua, and Concord school systems.

Area served: Concord, Manchester, and Nashua

Source of Funds: 100% Federal Funds from the Administration for Children and Families, Office of Refugee Resettlement, Refugee and Entrant Assistance, State Administered Programs – Refugee health Promotion Grant, Federal Office of Refugee Resettlement, CFDA# 93.566, FAIN # 1901NHRSOC.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers
Commissioner

EXPLANATION

This request is retroactive because the U.S. Department of Health & Human Services, Administration for Children and Families, Office of Refugee Resettlement, was delayed in issuing the Notices of Award to all recipients. The delays at the federal level resulted in delays for the New Hampshire Department of Health & Human Services in receiving and accepting the funds for this contract.

Funds in these agreements will be used to assist refugee students in Concord, Manchester and Nashua, who are within one (1) year of arrival to the United States, to achieve improved academic performance and social adjustment. Direct assistance will be provided to newly arrived students in these areas:

- School enrollment and orientation for students and their parents.
- Linguistically appropriate tutoring.
- Study support.
- Translation services.

The selected vendors will provide culturally competent assistance in collaboration with agencies who provide health and mental health care services, child care, and social services in order to strengthen the ability of refugee children to achieve success in New Hampshire school systems.

Ascentria Community Services, Inc., and International Institute of New England, Inc., were selected for this project through a competitive bid process. A Request for Proposals was posted on the Department of Health and Human Services' website from April 10, 2017 through June 8, 2017.

The Department received two (2) proposals. The proposals were reviewed and scored by a team of individuals with program specific knowledge. Their decision followed a thorough discussion of the strengths and weaknesses of the proposals. The final decision was made through consensus scoring. The Score Summary is attached.

These agreements include Exhibit C-1, Revisions to General Provisions, paragraph 3, which reserves the Department's option to renew contract services for up to two (2) additional years, subject to continued funding, satisfaction with vendor services and approval of the Governor and Executive Council.

The following performance measures/objectives will be used to measure the effectiveness of these contracts:

- Number and percentage of students who achieve academic success;

- Number of parents receiving education or training.
- Number of school personnel who report increased cultural competence;
- Number of incidences of linguistic support provided in schools by Contractors;
- Participation in school-sponsored programs;
- Effectiveness of health care referrals;
- Number of parents attending parent-teacher conferences;
- Percent of referrals and attendance at after school programs; and
- Percentage of students assisted with registration for summer programs.

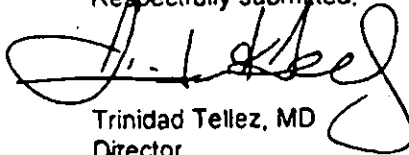

Should Governor and Executive Council not authorize this Request, refugee children and their parents may lack support necessary to succeed in the Manchester, Nashua, and Concord school systems.

Area served: Concord, Manchester, and Nashua

Source of Funds: 100% Federal Funds from the Administration for Children and Families, Office of Refugee Resettlement, Refugee and Entrant Assistance, State Administered Programs – Refugee health Promotion Grant, Federal Office of Refugee Resettlement.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractor's costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
 - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

RECORDS: MAINTENANCE, RETENTION, AUDIT, DISCLOSURE AND CONFIDENTIALITY:

8. **Maintenance of Records:** In addition to the eligibility records specified above, the Contractor covenants and agrees to maintain the following records during the Contract Period:

- 8.2. **Statistical Records:** Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
- 8.3. **Medical Records:** Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.
9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
- 9.1. **Audit and Review:** During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports: Fiscal and Statistical:** The Contractor agrees to submit the following reports at the following times if requested by the Department.
 - 11.1. **Interim Financial Reports:** Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
 - 11.2. **Final Report:** A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.
12. **Completion of Services: Disallowance of Costs:** Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.
13. **Credits:** All documents, notices, press releases, research reports and other materials prepared during or resulting from the performance of the services of the Contract shall include the following statement:
 - 13.1. The preparation of this (report, document etc.) was financed under a Contract with the State of New Hampshire, Department of Health and Human Services, with funds provided in part by the State of New Hampshire and/or such other funding sources as were available or required, e.g., the United States Department of Health and Human Services.
14. **Prior Approval and Copyright Ownership:** All materials (written, video, audio) produced or purchased under the contract shall have prior approval from DHHS before printing, production, distribution or use. The DHHS will retain copyright ownership for any and all original materials produced, including, but not limited to, brochures, resource directories, protocols or guidelines, posters, or reports. Contractor shall not reproduce any materials produced under the contract without prior written approval from DHHS.
15. **Operation of Facilities: Compliance with Laws and Regulations:** In the operation of any facilities for providing services, the Contractor shall comply with all laws, orders and regulations of federal, state, county and municipal authorities and with any direction of any Public Officer or officers pursuant to laws which shall impose an order or duty upon the contractor with respect to the operation of the facility or the provision of the services at such facility. If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

For recipients receiving less than \$25,000, or public grantees with fewer than 50 employees, regardless of the amount of the award, the recipient will provide an EEOP Certification Form to the OCR certifying it is not required to submit or maintain an EEOP. Non-profit organizations, Indian Tribes, and medical and educational institutions are exempt from the EEOP requirement, but are required to submit a certification form to the OCR to claim the exemption. EEOP Certification Forms are available at: <http://www.ojp.usdoj/about/ocr/pdfs/cert.pdf>.

17. **Limited English Proficiency (LEP):** As clarified by Executive Order 13166, Improving Access to Services for persons with Limited English Proficiency, and resulting agency guidance, national origin discrimination includes discrimination on the basis of limited English proficiency (LEP). 19. **Subcontractors:** DHHS recognizes that the Contractor may choose to use subcontractors with greater expertise to perform certain health care services or functions for efficiency or convenience, but the Contractor shall retain the responsibility and accountability for the function(s). Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549; 45 CFR Part 76. See the attached definitions.
6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

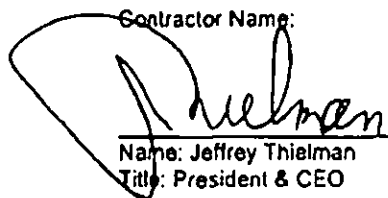

PRIMARY COVERED TRANSACTIONS
