

THE STATE OF NEW HAMPSHIRE DEPARTMENT OF TRANSPORTATION

73

Victoria F. Sheehan Commissioner

William Cass, P.E. Assistant Commissioner

His Excellency, Governor Christopher T. Sununu and the Honorable Council State House Concord, New Hampshire 03301

Bureau of Construction May 11, 2022

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with Northeast Earth Mechanics, LLC (Vendor 156610) of Pittsfield, NH, on the basis of a single bid of \$344,700.00 for rehabilitation of a corrugated metal arch culvert carrying Beards Creek under Madbury Road in Madbury (Project: Madbury 43276), from the date of Governor and Council approval through October 28, 2022, unless amended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Years 2022 and 2023, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Table with 3 columns: Funding description, FY 2022, FY 2023. Rows include Consolidated Federal Aid and 400-500870 Highway Contract Payments.

2. Further authorize that a contingency in the amount of \$34,470.00 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 10% of the contract amount.

Table with 2 columns: Funding description, FY 2023. Row includes 400-500870 Highway Contract Payments.

EXPLANATION

This project is part of the State's Ten-Year Transportation Improvement Plan, under the Culvert Replacement/Rehabilitation and Drainage Repair (CRDR) Program. The project will rehabilitate an existing 58" wide x 36" high x 131' long corrugated metal arch culvert carrying Beards Creek under Madbury Road located approximately one-half mile north of US 4. The proposed rehabilitation will remove approximately 7' of the existing culvert at the inlet, construct a concrete headwall, and slipline the remaining portion of the existing pipe with a polymer coated corrugated metal arch pipe liner. Incidental work includes repair of sinkholes on the inlet and outlet side embankment slopes and matching the existing stream channel to the new headwall at the inlet.

The existing culvert is a 58" x 36" x 131' long corrugated metal arch pipe carrying Beards Creek under Madbury Road. The culvert was originally constructed in 1980 and is in poor condition with heavy rust,

some perforations, and a dent in the lower side of the inlet edge. Sections of missing invert have caused sinkholes and loss of backfill around the culvert ends. The proposed rehabilitation will maintain the hydraulic capacity of the crossing.

The proposed contingency amount is 10% of the contract amount. This is to account for the risks associated with the unknown extent of voids and sinkholes around the existing pipe, unanticipated traffic control needs, and potential risk of over-runs in minor Items such as erosion control.

Although the bid costs exceeded the Department's estimate by 46.34%, the sole bid received is felt to be reasonable for the work involved. There was one item of significance which accounted for 100% of the overage (Polymer Coated Corr.Galv. Steel Liner for Arch Pipe). Readvertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. Putting off the work would lead to more expensive repairs or replacement. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

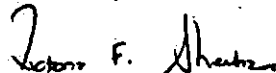

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 80% Federal (Culvert Replacement/Rehabilitation and Drainage Repair (CRDR) Program), with anticipated utilization of Turnpike Toll credits as the State's 20% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan  
Commissioner

VFS/pcj

Department Estimate: \$235,555.00  
Contract Amount: \$344,700.00  
Over Estimate: \$109,145.00

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** The project will rehabilitate an existing 58" wide x 36" high x 131' long corrugated metal arch culvert carrying Beards Creek under Madbury Road located approximately one-half mile north of US 4. The proposed rehabilitation will remove approximately 7' of the existing culvert at the inlet, construct a concrete headwall, and slipline the remaining portion of the existing pipe with a polymer coated corrugated metal arch pipe liner. Incidental work includes repair of sinkholes on the inlet and outlet side embankment slopes and matching the existing stream channel to the new headwall at the inlet.

**FEDERAL FUNDING:** 80% (Culvert Replacement/Rehabilitation and Drainage Repair (CRDR) Program) with anticipated utilization of Turnpike Toll Credits for the State's 20% match.

**CONTINGENCY:** The proposed contingency amount is 10% of the contract amount. This is to account for the risks associated with the unknown extent of voids and sinkholes around the existing pipe, unanticipated traffic control needs, and potential risk of over-runs in minor items such as erosion control.

**PROJECT INITIATED:** State's 10 Year Plan, under the Culvert Replacement/Rehabilitation and Drainage Repair (CRDR) Program.

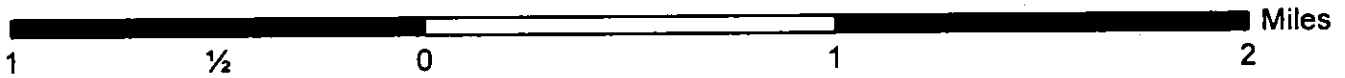

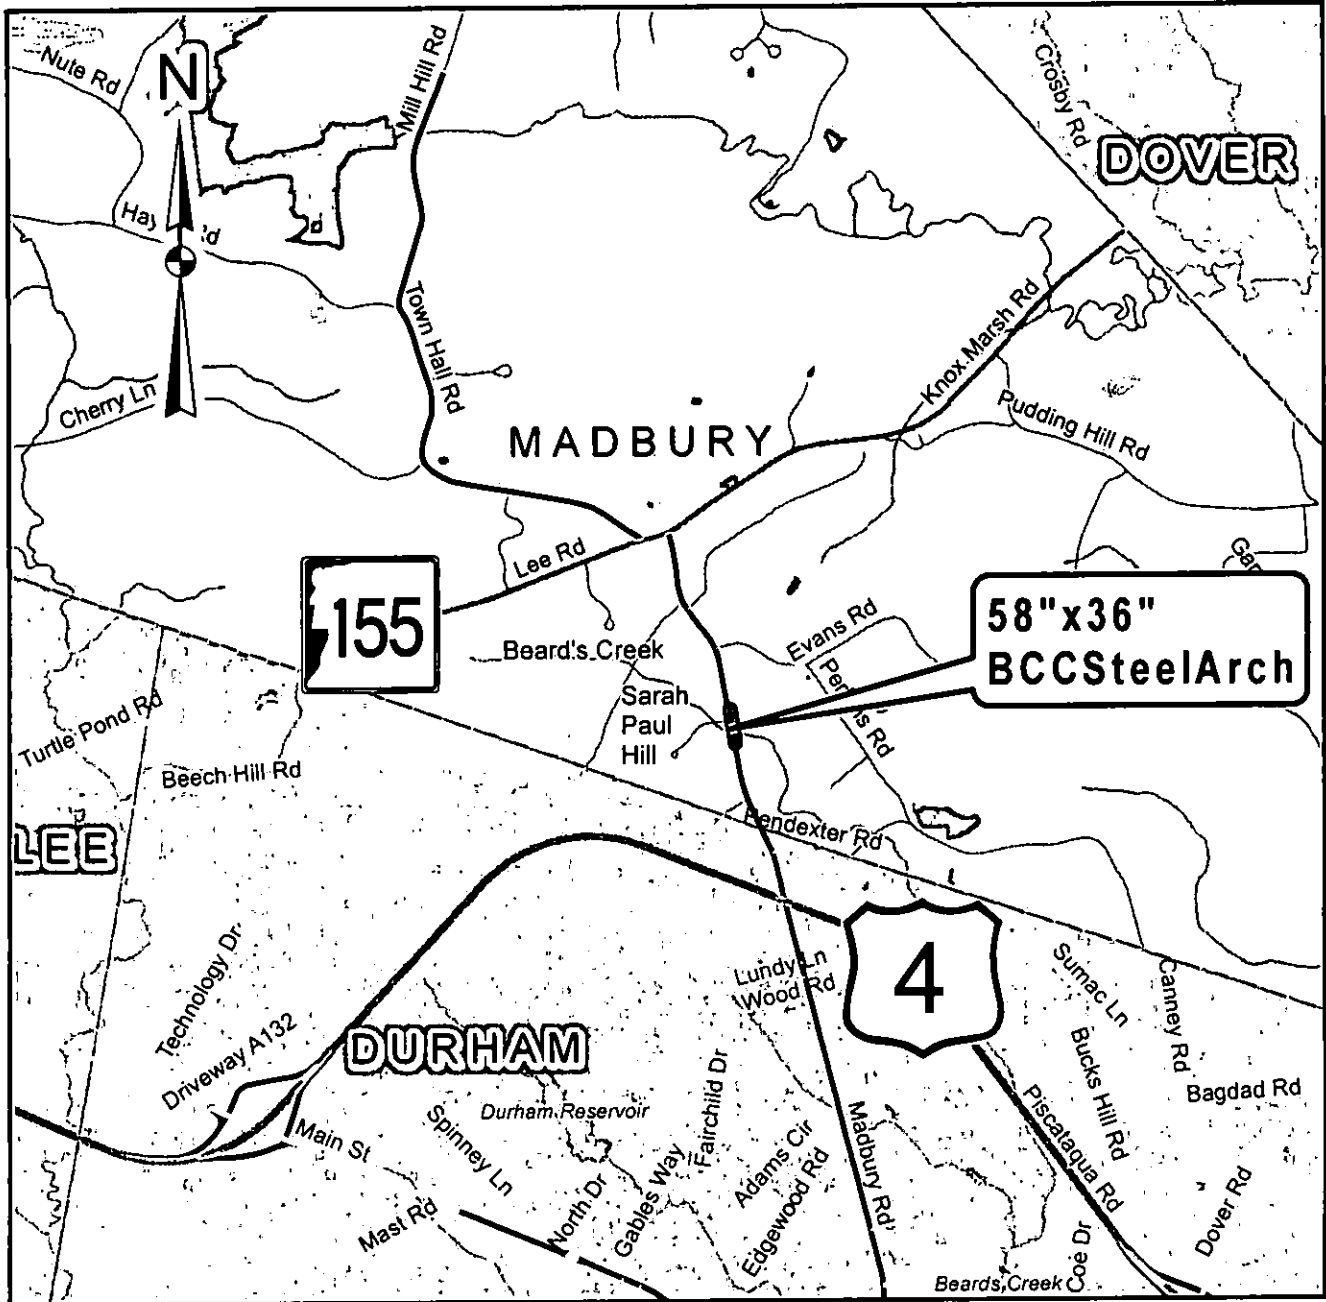

**PROJECT EXPLANATION:** The existing culvert is a 58" x 36" x 131' long corrugated metal arch pipe carrying Beards Creek under Madbury Road. The culvert was originally constructed in 1980 and is in poor condition with heavy rust, some perforations, and a dent in the lower side of the inlet edge. Sections of missing invert have caused sinkholes and loss of backfill around the culvert ends. The proposed rehabilitation will maintain the hydraulic capacity of the crossing.

**TRAFFIC IMPLICATION:** Traffic impacts are expected to be minimal as the culvert work is off the pavement. Access and staging may require minor impacts such as shoulder closures. Occasional short term lane closures will be allowed during off-peak hours for delivery of materials and equipment. Traffic will be returned to normal operation during non-work hours. No night work is proposed. No speed reduction is proposed.

**FINAL COMPLETION DATE:** October 28, 2022.

## Department of State

### CERTIFICATE

I, William M. Gardner, Secretary of State of the State of New Hampshire, do hereby certify that NORTHEAST EARTH MECHANICS, LLC is a New Hampshire Limited Liability Company registered to transact business in New Hampshire on November 09, 1988. I further certify that all fees and documents required by the Secretary of State's office have been received and is in good standing as far as this office is concerned.

Business ID: 136326

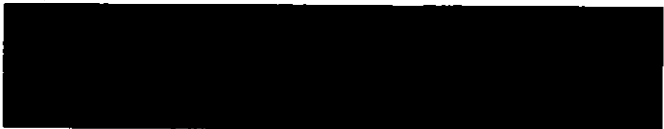

Certificate Number: 0005748447

IN TESTIMONY WHEREOF,  
I hereto set my hand and cause to be affixed  
the Seal of the State of New Hampshire,  
this 4th day of April A.D. 2022.

A handwritten signature in black ink, appearing to read "William M. Gardner".

William M. Gardner  
Secretary of State

**LIMITED LIABILITY COMPANY  
AUTHORIZATION RESOLUTION**

I, Crystal L. Marston, certify that I am the Secretary of NorthEast Earth Mechanics, LLC, a Limited Liability Company organized under the laws of the State of New Hampshire, and that the resolution on this document is a true copy of the resolution adopted at a duly convened meeting held on December 10, 2021 of all persons designated by the members of the Limited Liability Company to manage the Limited Liability Company as provide in the Limited Liability Company Agreement effective December 10, 2021. I also certify that said resolution has not been amended or revoked and is still in full force and effect.

RESOLVED that the President of this Limited Liability Company (LLC) is hereby authorized from time to time, in the name of the LLC to enter into contracts for work to be done with any entity(ies) he deems prudent and to execute and deliver any such agreements and instruments and any related documents in the name of and on behalf of this LLC. The authority given hereunder shall be deemed to be retroactive, and all acts authorized hereunder performed prior to the passage of this resolution are hereby ratified and affirmed.

I further certify that the office referred to in the foregoing resolution is now held by James N. Locke, II.
