THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

Victoria F. Sheehan
Commissioner

William Cass, P.E.
Assistant Commissioner

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Bureau of Construction
November 13, 2019

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with W J Riegel Rail Solutions, LLC (Vendor 278914) of Selkirk, NY, on the basis of a low bid of \$939,773.73 for railroad safety improvements on NH Rt. 16 in Wakefield, from the date of Governor and Council approval through June 26, 2020, unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2020 as follows:

Funding is available as follows:	<u>FY 2020</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$939,773.73

2. Further authorize that a contingency in the amount of \$56,386.42 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 6% of the contract amount.

Funding is available as follows:	<u>FY 2020</u>
04-96-96-963515-3054	
Consolidated Federal Aid	
400-500870 Highway Contract Payments	\$56,386.42

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan under the Railroad Crossings & Signals Program. The project is a railroad safety improvement project is located on NH Route 16 in Wakefield at the 054-237Y railroad grade crossing. This crossing is owned and operated by the NH Northcoast Railroad. Roadway construction work on NH Route 16 will begin approximately 150-feet south and end approximately 150-feet north of the crossing. Railroad track construction will begin approximately 150-feet west and end 150-feet east of the crossing.

The purpose of this project is to improve safety for vehicular and rail traffic at the crossing. The existing railroad signals do not meet current federal requirements.

The proposed contingency amount is 6% of the contract amount. This is to account for the risks associated with the unknown extent of the at-grade crossing repairs, unanticipated traffic control needs, and unforeseen costs associated with the construction of the diversion.

Although the bid costs exceeded the Department's estimate by 8.51% the low bid of two bids received is felt to be reasonable for the work involved. Four items contributed to the overage; high strength pavement, traffic signal alterations, maintenance of traffic and common excavation. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

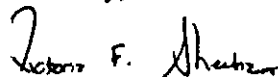

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 90% (Railroad Crossings & Signals Program (RR-RCS)) utilizing Turnpike Toll credits as the State's 10% match, effectively using 100% Federal Funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/pcj

Department Estimate: \$866,035.00
Contract Amount: \$939,773.73
Over Estimate: \$ 73,738.73

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This railroad safety improvement project is located on NH Route 16 in Wakefield at the 054-237Y railroad grade crossing. This crossing is owned and operated by the NH Northcoast Railroad. Roadway construction work on NH Route 16 will begin approximately 150-feet south and end approximately 150-feet north of the crossing. Railroad track construction will begin approximately 150-feet west and end 150-feet east of the crossing.

Railroad improvements include installation of new signal cantilevers, signal equipment, and track reconstruction across NH Route 16.

Roadway improvements include full depth pavement reconstruction adjacent to the crossing, drainage improvements, and installation of updated signing and markings. Additionally, safety improvements will be made to the existing traffic signal at the intersection of NH Route 16/125/153 and to the snowmobile trail crossing located adjacent to the railroad crossing.

Additionally, the 054-235K grade crossing situated on NH 125, 270-feet south of the NH Route 125/153 intersection, includes work on railroad equipment only.

FEDERAL FUNDING: 90% (Railroad Crossings & Signals Program (RR-RCS)) utilizing Turnpike Toll credits as the State's 10% match.

CONTINGENCY: The proposed contingency amount is 6% of the contract amount. This is to account for the risks associated with the unknown extent of the at-grade crossing repairs, unanticipated traffic control needs, and unforeseen costs associated with the construction of the diversion.

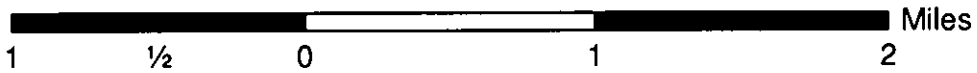

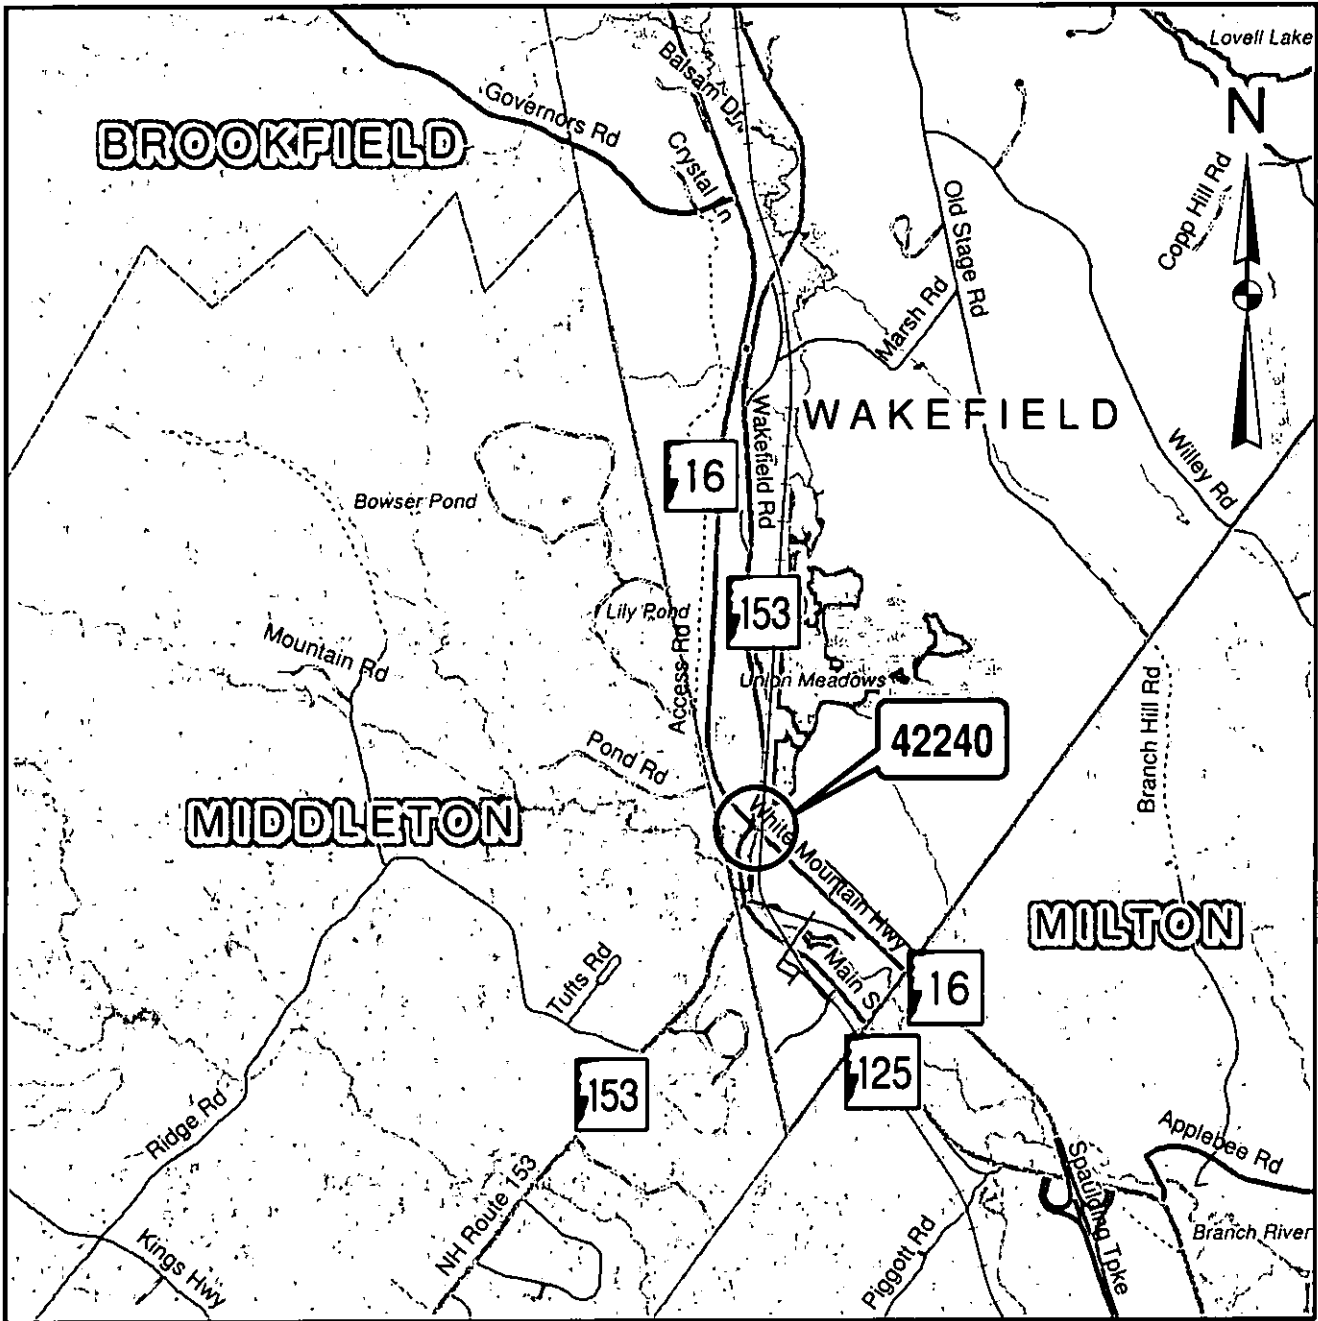

PROJECT INITIATED: Railroad Crossings & Signals Program (RR-RCS)

PROJECT EXPLANATION: The purpose of this project is to improve safety for vehicular and rail traffic at the crossing. The existing railroad signals do not meet current federal requirements.

TRAFFIC IMPLICATIONS: A full roadway closure with detour will be required to complete the railroad track work. This closure will span 72 hours from Friday noon – Monday noon prior to Memorial Day weekend. All other work will be completed with short-term one lane, alternating two-way traffic to complete shoulder work and installing the overhead railroad signal cantilevers.

COMPLETION DATE: June 26, 2020
