EXPLANATION

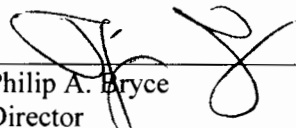

The original pad mount S&C 35kV fused sectional cabinet was installed near Ernie's Haus on the Cannon Mountain access road in 1972. The cabinet has become a safety and reliability concern and needs replacing.

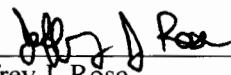

On July 22, 2014, an invitation to submit bids for "Ernie's Haus Primary Switch Upgrade - Cannon Mountain" was advertised on the Department of Administrative Services' and Construction Summary's websites. Royal Electric was the only vendor to submit a formal bid. Royal Electric has performed a great number of projects at Cannon Mountain, including working under the supervision of Lee Carrol, Gorham, NH thus gaining an unparalleled knowledge of the Mountain's electrical infrastructure. This involvement by Royal Electric along with their superior knowledge of Cannon's lift electrical systems, trade expertise, and close proximity to location positions them well to carry out the nature of this highly specialized project.

The Attorney General's Office has reviewed and approved this contract as to form, substance and execution.

Respectfully submitted,

Concurred,

Philip A. Bryce
Director

Subject: FW: Snowbase Upgrade Extension

Hi Elie,

It is our [Cannon Mountain/FNSP] understanding that due to the manufacturer's lead time for ordering the 480 Vault switchgear, the completion date for the Snowbase Pumphouse Electrical Upgrade will be extended from October 31st, 2014 until May 15th, 2015, which corresponds to Cannon's scheduled "shut down period". As discussed, the necessary switchgear will be ordered and on hand in case of an emergency occurring prior to the May 15th date. Additionally, in the meantime temporary services will be completed by Royal Electric to ensure the snowmaking pumphouse is functional for the upcoming winter season.

Could you please confirm these changes regarding the existing contract between Cannon Mountain and Royal Electric.

Thank you,

Nicole Natti
