

Victoria F. Sheehan
Commissioner

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

William Cass, P.E.
Assistant Commissioner

Bow
15

Bureau of Construction
October 31, 2017

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with R.S. Audley, Inc. (Vendor 154222) of Bow, NH on the basis of a low bid of \$13,451,513.85 for roadway reconstruction and bridge replacement along 2.1 miles of NH 9 in the Towns of Roxbury and Sullivan, from the date of Governor and Council approval through July 24, 2020 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available in State Fiscal Year 2018 and 2019 and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2020 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

Funding is available as follows:	<u>FY 2018</u>	<u>FY 2019</u>	<u>FY 2020</u>
04-96-96-963515-3054 Consolidated Federal Aid			
400-500870 Highway Contract Payments	\$4,000,000.00	\$5,451,513.85	\$4,000,000.00

2. Further authorize that a contingency in the amount of \$672,575.69 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 5% of the contract amount.

Funding is available as follows:	<u>FY 2018</u>	<u>FY 2019</u>	<u>FY 2020</u>
04-96-96-963515-3054 Consolidated Federal Aid			
400-500870 Highway Contract Payments	\$100,000.00	\$300,000.00	\$272,575.69

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan. This project along NH 9 begins near the Granite Gorge Ski Area in Roxbury and continues easterly for approximately 2.1 miles to the Centre Street intersection in Sullivan. Limits of work also include Houghton Ledge Road, Valley Road, and Centre Street. The work includes full box reconstruction with a minimum 4-foot shoulder width throughout the length of the project and replacement of the red listed, NH 9 Bridge over Otter Creek. The work also includes drainage improvements, guardrail replacement, stabilization of the

roadway fill slope along Otter Brook, installation of a stormwater treatment swale near Granite Gorge Ski Area, realignment of Houghton Ledge Rd due to impacts from the NH 9 engineered slopes replacing an old stone retaining wall, rehabilitation of the Centre Street Bridge over Otter Brook (094/064) and replacement of membrane on the NH 9 concrete slab bridge over Hubbard Brook (088/125).

This 2.1 mile stretch of NH 9 is the last segment of the route that has not been reconstructed. The purpose of this project is to reconstruct this stretch of NH 9 to extend its service life, improve the vertical/horizontal alignment, provide a consistent shoulder width, replace the failing boulder retaining wall just east of the Granite Gorge Ski Area and replace the red-listed NH 9 Bridge over Otter Brook (093/061) with a design that accommodates a 100 year flood.

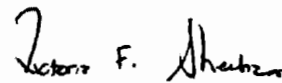

The proposed contingency amount is 5% of the contract amount. This is to account for risks associated with unanticipated traffic control needs, multiple seasons of construction, a complex construction sequence, unknown costs associated with limited re-use soil handling and construction site restraints such as limited space for stockpiling, staging, and traffic control.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal funds with 20% state match. Turnpike toll credit is being utilized for match requirements, effectively using 100% federal funds.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$13,492,980.25
Contract Amount: \$13,451,513.85
Under Estimate: \$ 41,466.40

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project along NH 9 begins near the Granite Gorge Ski Area in Roxbury and continues easterly for approximately 2.1 miles to the Centre Street intersection in Sullivan. Limits of work also include Houghton Ledge Road, Valley Road, and Centre Street. Scope of work includes full box reconstruction, a minimum 4-foot shoulder width throughout the length of the project, full box reconstruction, superelevation improvements, drainage improvements, guardrail replacement, utility pole relocations, stabilization of the roadway fill slope along Otter Brook, installation of a stormwater treatment swale near Granite Gorge Ski Area, and realignment of Houghton Ledge Rd due to impacts from the NH 9 engineered cut slope. Bridge work includes replacement of the red-listed NH 9 Bridge over Otter Brook (093/061), rehabilitation of the Centre Street Bridge over Otter Brook (094/064), replacement of membrane on the NH 9 concrete slab bridge over Hubbard Brook (088/125).

FEDERAL FUNDING: 80% (Federal) with anticipated utilization of Turnpike Toll Credits for the State's 20% match.

CONTINGENCY: The proposed contingency amount is 5% of the contract amount. This is to account for risks associated with unanticipated traffic control needs, multiple seasons of construction, a complex construction sequence, unknown costs associated with limited re-use soil handling and construction site restraints such as limited space for stockpiling, staging, and traffic control.

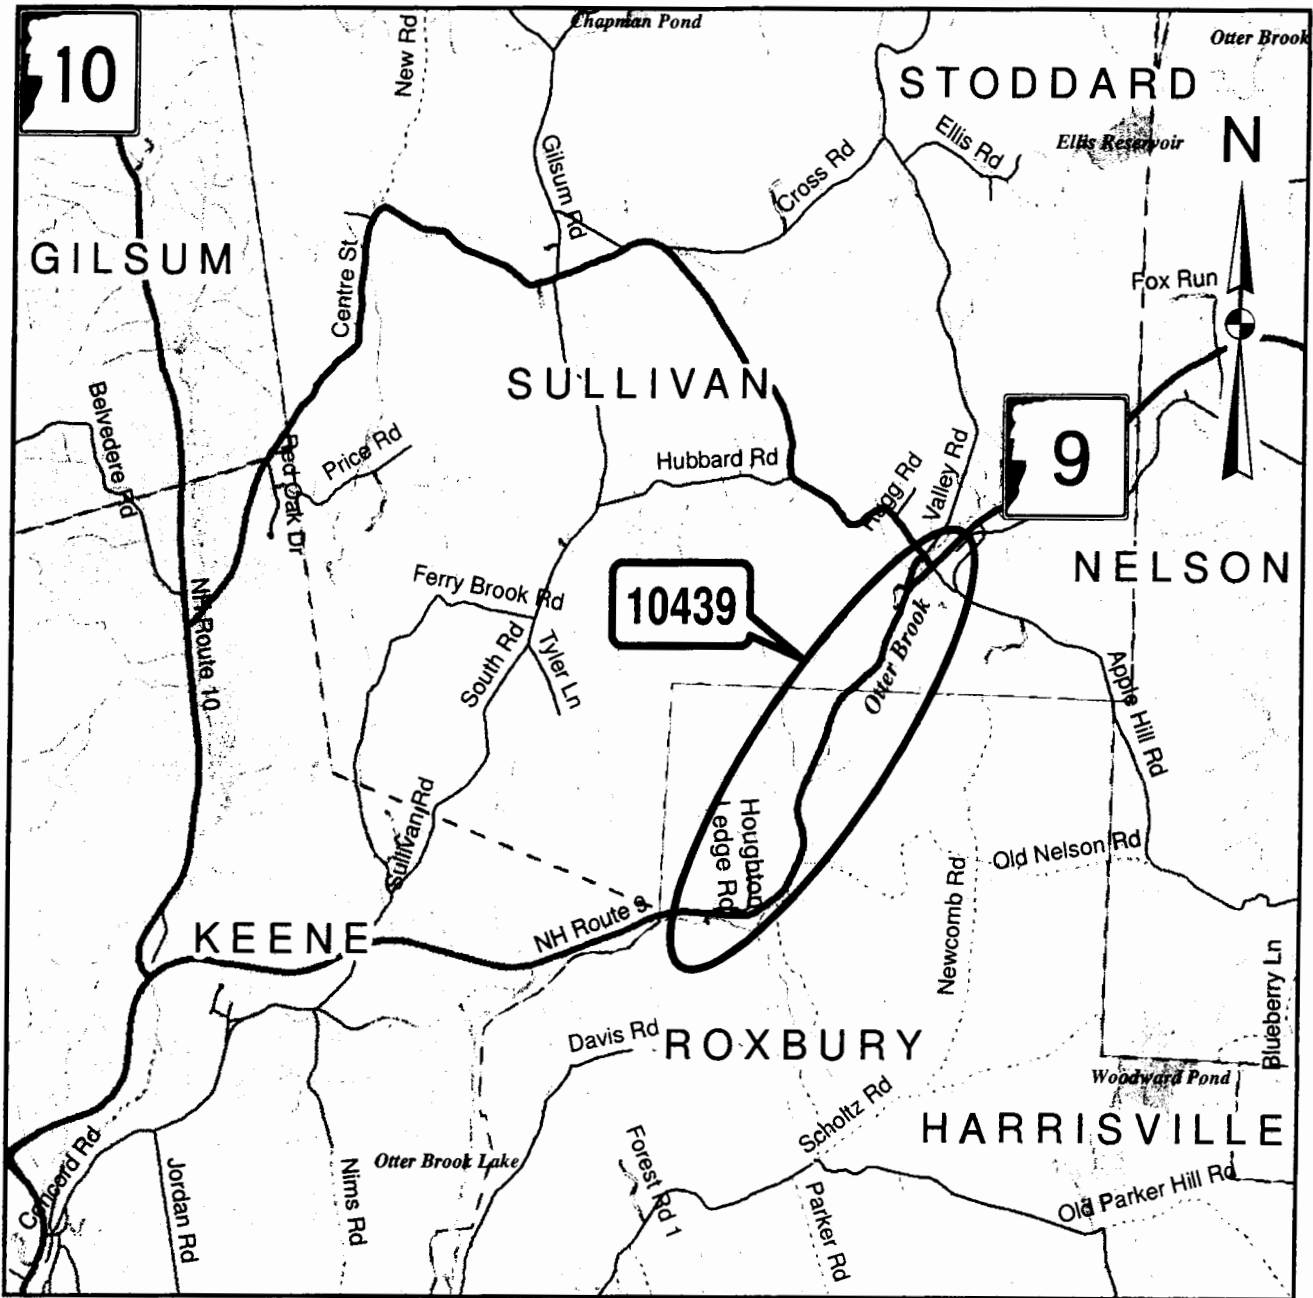

PROJECT INITIATED: This project was initiated through the State's Ten Year Plan.

PROJECT EXPLANATION: This 2.1 mile stretch of NH 9 is the last segment of the route that has not been reconstructed. The purpose of this project is to reconstruct this stretch of NH 9 to extend its service life, upgrade drainage and guardrail, improve the vertical/horizontal alignment, provide a consistent shoulder width, replace the failing boulder retaining wall just east of the Granite Gorge Ski Area with a stone-faced engineered slope, and replace the red-listed NH 9 Bridge over Otter Brook (093/061) with a design that accommodates a 100 year flood.

TRAFFIC IMPLICATION: NH 9 Roadway Work will utilize a one-lane, alternating two-way traffic configuration with flaggers throughout the duration of work (2018-2020). During NH 9 Otter Brook Bridge replacement in 2019, a regional truck detour via US 202/NH 101 and two-way traffic diversion for all other traffic via Centre Street/Valley Road will be set up for the 2019 construction season. NH 9 Hubbard Brook Bridge rehabilitation will be completed in 2019, while the regional truck detour is in place, utilizing a one-lane, alternating two-way traffic configuration with temporary signals. The Centre Street Otter Brook Bridge rehabilitation in 2020 will involve a full closure of Centre Street with a two-way traffic detour via Valley Road to NH 9.

FINAL COMPLETION DATE: July 24, 2020.
