EXPLANATION

The purpose of this request is to continue the Rural Health and Primary Care (RHPC), Section Small Rural Hospital Improvement Program (SHIP) grant services with the Foundation for Healthy Communities to provide technical assistance to small rural hospitals in New Hampshire with twenty-five (25) beds or less. The Foundation for Healthy Communities will work with SHIP funded eligible Critical Access Hospitals (CAHs) to meet value based purchasing (VBP) goals for their organization, enable small rural hospitals to become or join accountable care organizations (ACO) or pursue shared savings programs, or purchase health information technology, equipment and/or training to comply with meaningful use, and payment bundling.

As the emphasis on improving the quality of care increases, the Department and the thirteen (13) critical access hospitals will make some strategic investments in this area, focusing on clinical care delivery. The Foundation for Healthy Communities has proven to be successful in implementing the SHIP option of - Efficiency or quality improvement training in support of value based purchasing related initiatives-. The Foundation was able to recruit fifty five (55) participants for an efficiency training that addressed Medicare billing and coding.

The Foundation also utilized 100% of the scholarship budget to provide no-cost trainings. The RHPC program distributed an evaluation survey to receive feedback on the training that was completed in May, and every participant stated their knowledge of billing and coding improved. Seventy-five percent (75%) of participants stated one or more changes in billing and coding were implemented as a result of the training.

All thirteen (13) SHIP hospitals over the next year will utilize funding in order to complete additional revenue cycle management trainings that will help improve efficiencies in billing. These efficiencies will, in turn, provide revenue needed to maintain the SHIP hospitals financially viable and allow them to target population health initiatives above and beyond their current capacities. In the last year of the contract, the hospitals may choose to continue revenue cycle management trainings, pending their continued success, or focus on a different quality improvement menu option.

Should the Governor and Executive Council not authorize this request; the thirteen (13) NH CAH locations will remain at financial risk, which may result in some hospitals closing. Additionally, should this request not be approved, there may be discontinuation of initiatives that sustain essential services for CAHs, which would negatively impact many of NH's most vulnerable citizens.

FINANCIAL STATEMENTS

December 31, 2017 and 2016

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Trustees Foundation for Healthy Communities

We have audited the accompanying financial statements of Foundation for Healthy Communities (Foundation), which comprise the statements of financial position as of December 31, 2017 and 2016, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Notes to Financial Statements

December 31, 2017 and 2016

Organization

Foundation for Healthy Communities (Foundation) was organized to conduct various activities relating to healthcare delivery process improvement, health policy, and the creation of healthy communities. The Foundation is controlled by New Hampshire Hospital Association (Association) whose purpose is to assist its members in improving the health status of the people receiving healthcare in New Hampshire.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of reporting in the statements of cash flows, the Foundation considers all bank deposits with an original maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management believes all accounts receivable are collectible. Credit is extended without collateral.

Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statements of financial position. Interest and dividends are included in the changes in net assets for operations.

Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

REQUESTED ACTION

Authorize the Department of Health and Human Services, Division of Public Health Services, to enter into a **sole source** agreement with the Foundation for Healthy Communities (Vendor #154533-B001), 125 Airport Road, Concord, NH 03301-3857, to provide assistance and support for the thirteen (13) New Hampshire smäll rural hospitals to implement activities provided annually by the Small Rural Hospital Improvement Program (SHIP) Grant, in an amount not to exceed \$212,494, effective upon the date of Governor and Executive Council approval, through May 31, 2019. 100% Federal Funds.

Funds are available in the following account for State Fiscal Year 2018 and State Fiscal Year 2019, with authority to adjust amounts within the price limitation and adjust encumbrances between State Fiscal Years through the Budget Office if needed and justified, without approval from Governor and Executive Council.

Fiscal Year	Class/Account	Class Title	Job Number	Total Amount
2018	102-500731	Contracts for Program Services	90076001	\$106,247
2019	102-500731	Contracts for Program Services	90076001	\$106,247
			Total:	\$212,494

EXPLANATION

This request is **sole source** because the Division of Public Health Services, Rural Health and Primary Care Section, received the Small Rural Hospital Improvement Program (SHIP) grant from the Federal Office of Rural Health Policy, or Health Resources and Services Administration (HRSA), to assist eligible hospitals (small rural hospitals in New Hampshire with forty-nine (49) beds or less). The Federal Office of Rural Health Policy requires the hospitals to select the Vendor they want to perform the services on their behalf. The CEOs and/or Presidents of the thirteen (13) critical access hospitals

His Excellency, Governor Christopher T. Sununu and the Honorable Council Page 2

(the only hospitals in New Hampshire that meet the small rural hospital eligibility requirements for SHIP grant assistance), chose the Rural Health Coalition network managed by the Foundation for Healthy Communities based on their experience receiving contract deliverables in a timely and effective manner.

(

As part of the SHIP grant application process, the thirteen (13) critical access hospitals are also required to choose the service to be provided from a menu of services defined by SHIP. All hospitals must receive the same amount of money, however pooling of funds in the form of networks or consortia is strongly encouraged by SHIP as a way to increase the purchasing power of hospitals pursuing similar activities. The Foundation for Healthy Communities has coordinated the Small Rural Hospital Improvement Program (SHIP) for the New Hampshire small rural hospitals successfully in the past and is meeting the rural hospitals' requirements for SHIP services.

The thirteen (13) New Hampshire eligible hospitals chose to invest their SHIP funds in efficiency or quality improvement training in support of accountable-care organizations (ACOs) or shared savings, and to pool their funds in the form of a network. Quality improvement has emerged as one of the most important aspects of not only clinical care, but also for changing reimbursement models. The Federal government is moving beyond financial incentives for quality care to financial penalties. With revenues barely covering expenses for the thirteen (13) critical access hospitals, they cannot afford reductions in reimbursements for care.

The efficiency training objective will be addressed using Lean or Six Sigma to improve clinical care. Lean is a customer-centered method used to continuously improve processes through the elimination of waste, or creating more value with fewer resources. Six Sigma is a data-driven approach to improve business processes. As the emphasis on improving the quality of care increases, the Department and the thirteen (13) critical access hospitals will make some strategic investments in this area, focusing on clinical care delivery.

Funds in this agreement will be used to offer staff at the small rural hospitals Lean trainings, certifications and examination preparation, and examination fees. The outcome measures for this agreement will be to document the number of trainings held, the number of participants who completed the trainings, and the number of participants who completed certifications. These trainings will provide a greater number of staff with the knowledge and skills to design and implement performance improvements in their hospitals thereby improving patient experiences through more efficient, effective and safe systems of care within the hospitals.

The Department reserves the right to renew the Contract for up to two (2) additional years, subject to the continued availability of funds, satisfactory performance of services and approval by the Governor and Executive Council.

Should the Governor and Executive Council not authorize this request, the loss of further quality improvement training may affect rural hospitals' quality of care and financial sustainability.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lisa Morris, MSSW

INSTRUCTIONS FOR CERTIFICATION

- 1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
- 2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- 3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
- 4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

- 8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
