EXPLANATION

These funds will be used by the NH State Police (NHSP) Special Enforcement Unit (SEU) to purchase Unmanned Aircraft System (UAS) platforms to be used to respond in disaster situations. The pilots within the SEU have the licenses and experience required to operate UAS platforms during disaster response. The primary mission when responding to disasters is saving lives, which often requires the use of multiple resources. Rotary and fixed-winged aircraft have traditionally performed disaster response missions, such as overhead damage assessment, reconnaissance, and missing person searches. However, with the advancement of UAS systems, there is an opportunity to perform many conventional aerial missions in a safer, more expeditious, and cost-effective manner.

These UAS platforms are critical in establishing an on-scene assessment prior to committing resources downrange in a contaminated or dangerous environment and to assist incident command staff with making personal protective

equipment and population protective action decisions. It will also be used for geo-mapping of disaster or catastrophic incidents and wide area searches for missing persons that are part of those incidents.

Funds are to be budgeted as follows:

- Class 030 Funds, Equipment, are needed to purchase UAS platforms for disaster response missions

These funds were not anticipated or available during the development of the Department's SFY 22/23 biennial budget.

In the event that federal pass-through funds become no longer available, General Funds and/or Highway Funds will not be requested to support this program.
