

The State of New Hampshire
DEPARTMENT OF ENVIRONMENTAL SERVICES

Thomas S. Burack, Commissioner

April 11, 2013

Her Excellency, Governor Margaret Wood Hassan
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve the Town of Center Harbor's request to perform the following work on Lake Winnepesaukee, in Center Harbor. File # 2012-02978. This project will not have significant impact on or adversely affect the values of Lake Winnepesaukee.

Repair/replace and maintain the following in kind with no changes:

1. A piling supported docking facility consisting of two 5 ft. x 71 ft. piers (34 ft. between piers) attached to an 83 ft. x 4 ft. walkway and adjacent to a 5 ft. x 76 ft. pier with three 30 ft. x 4 ft. fingers which is attached to the lakeward end of a 5 ft. x 52 ft. walkway;
2. four ice clusters; and
3. an existing 11 ft. x 60 ft. boat ramp.

Replenish 4065 sq. ft. of an existing beach area with not more than 50 cu. yds. of sand.

The Department imposed the following conditions as part of this approval:

1. All work on this property having an average of 480 ft. of shoreline frontage along Lake Winnepesaukee shall be in accordance with plans by Folsom Design and Construction Management dated February 01, 2013, and as received by the NH Department of Environmental Services (DES) on February 19, 2013.
2. This permit shall not be effective until it has been recorded with the county Belknap County Registry of Deeds office by the Permittee. A copy of the recorded permit shall be submitted to the DES Wetlands Bureau, by certified mail, return receipt requested, prior to construction.
3. The repairs shall maintain the size, location and configuration of the pre-existing structures.
4. This permit to replace or repair existing structures shall not preclude the DES from taking any enforcement action or revocation action if the DES later determines that the structures represented as "existing" were not previously permitted or grandfathered.
5. All construction related debris shall be placed outside of the jurisdiction of the DES Wetlands Bureau.

Telephone: (603) 271-3503 • Fax: (603) 271-6588 • TDD Access: Relay NH 1-800-735-2964

6. Appropriate siltation, erosion, and turbidity controls shall be in place prior to construction, maintained during construction, and shall remain in place until the area is stabilized.
7. Work authorized shall be carried out such that discharges in spawning or nursery areas during spawning seasons shall be avoided, and impacts to such areas shall be avoided or minimized to the maximum extent practicable during all times of the year.
8. Work shall be carried out in a time and manner such that disturbance to migratory waterfowl breeding areas and spawning areas shall be avoided.
9. No more than 50 cu. yds. of sand may be used and all sand shall be located above the normal high water line.
10. All activities shall be in accordance with the Shoreland Water Quality Protection Act, RSA 483-B. The owner is responsible for obtaining any Shoreland Permit that may be required per RSA 483-B, for construction, excavation or fill that will occur within the Protected Shoreland.

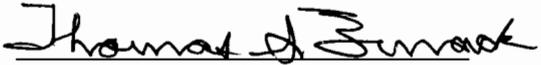

EXPLANATION

The DES Wetlands Bureau approved this project on March 08, 2013. DES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 303.02(o), replenishment of a beach which exceeds the criteria for minimum impact or minor impact beach replenishment projects.
2. The need for the proposed impacts has been demonstrated by the Applicant per Env-Wt 302.01.
3. The Applicant has provided evidence which demonstrates that this proposal is the alternative with the least adverse impact to areas and environments under the Department's jurisdiction per Env-Wt 302.03.
4. The Applicant has demonstrated by plan and example that each factor listed in Env-Wt 302.04(a), Requirements for Application Evaluation, has been considered in the design of the project.
5. The proposed impacts are necessary to maintain structures and facilities providing public access to Lake Winnepesaukee.
6. Public hearing is waived with the finding that the project impacts will not significantly impair the resources of Lake Winnepesaukee.

Application file documents are being forwarded to the Governor and Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully submit this request for your consideration.

Project Description: Repair existing ramp & docking facility in-kind and
replenish existing beach area with new sand.

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. [REDACTED]

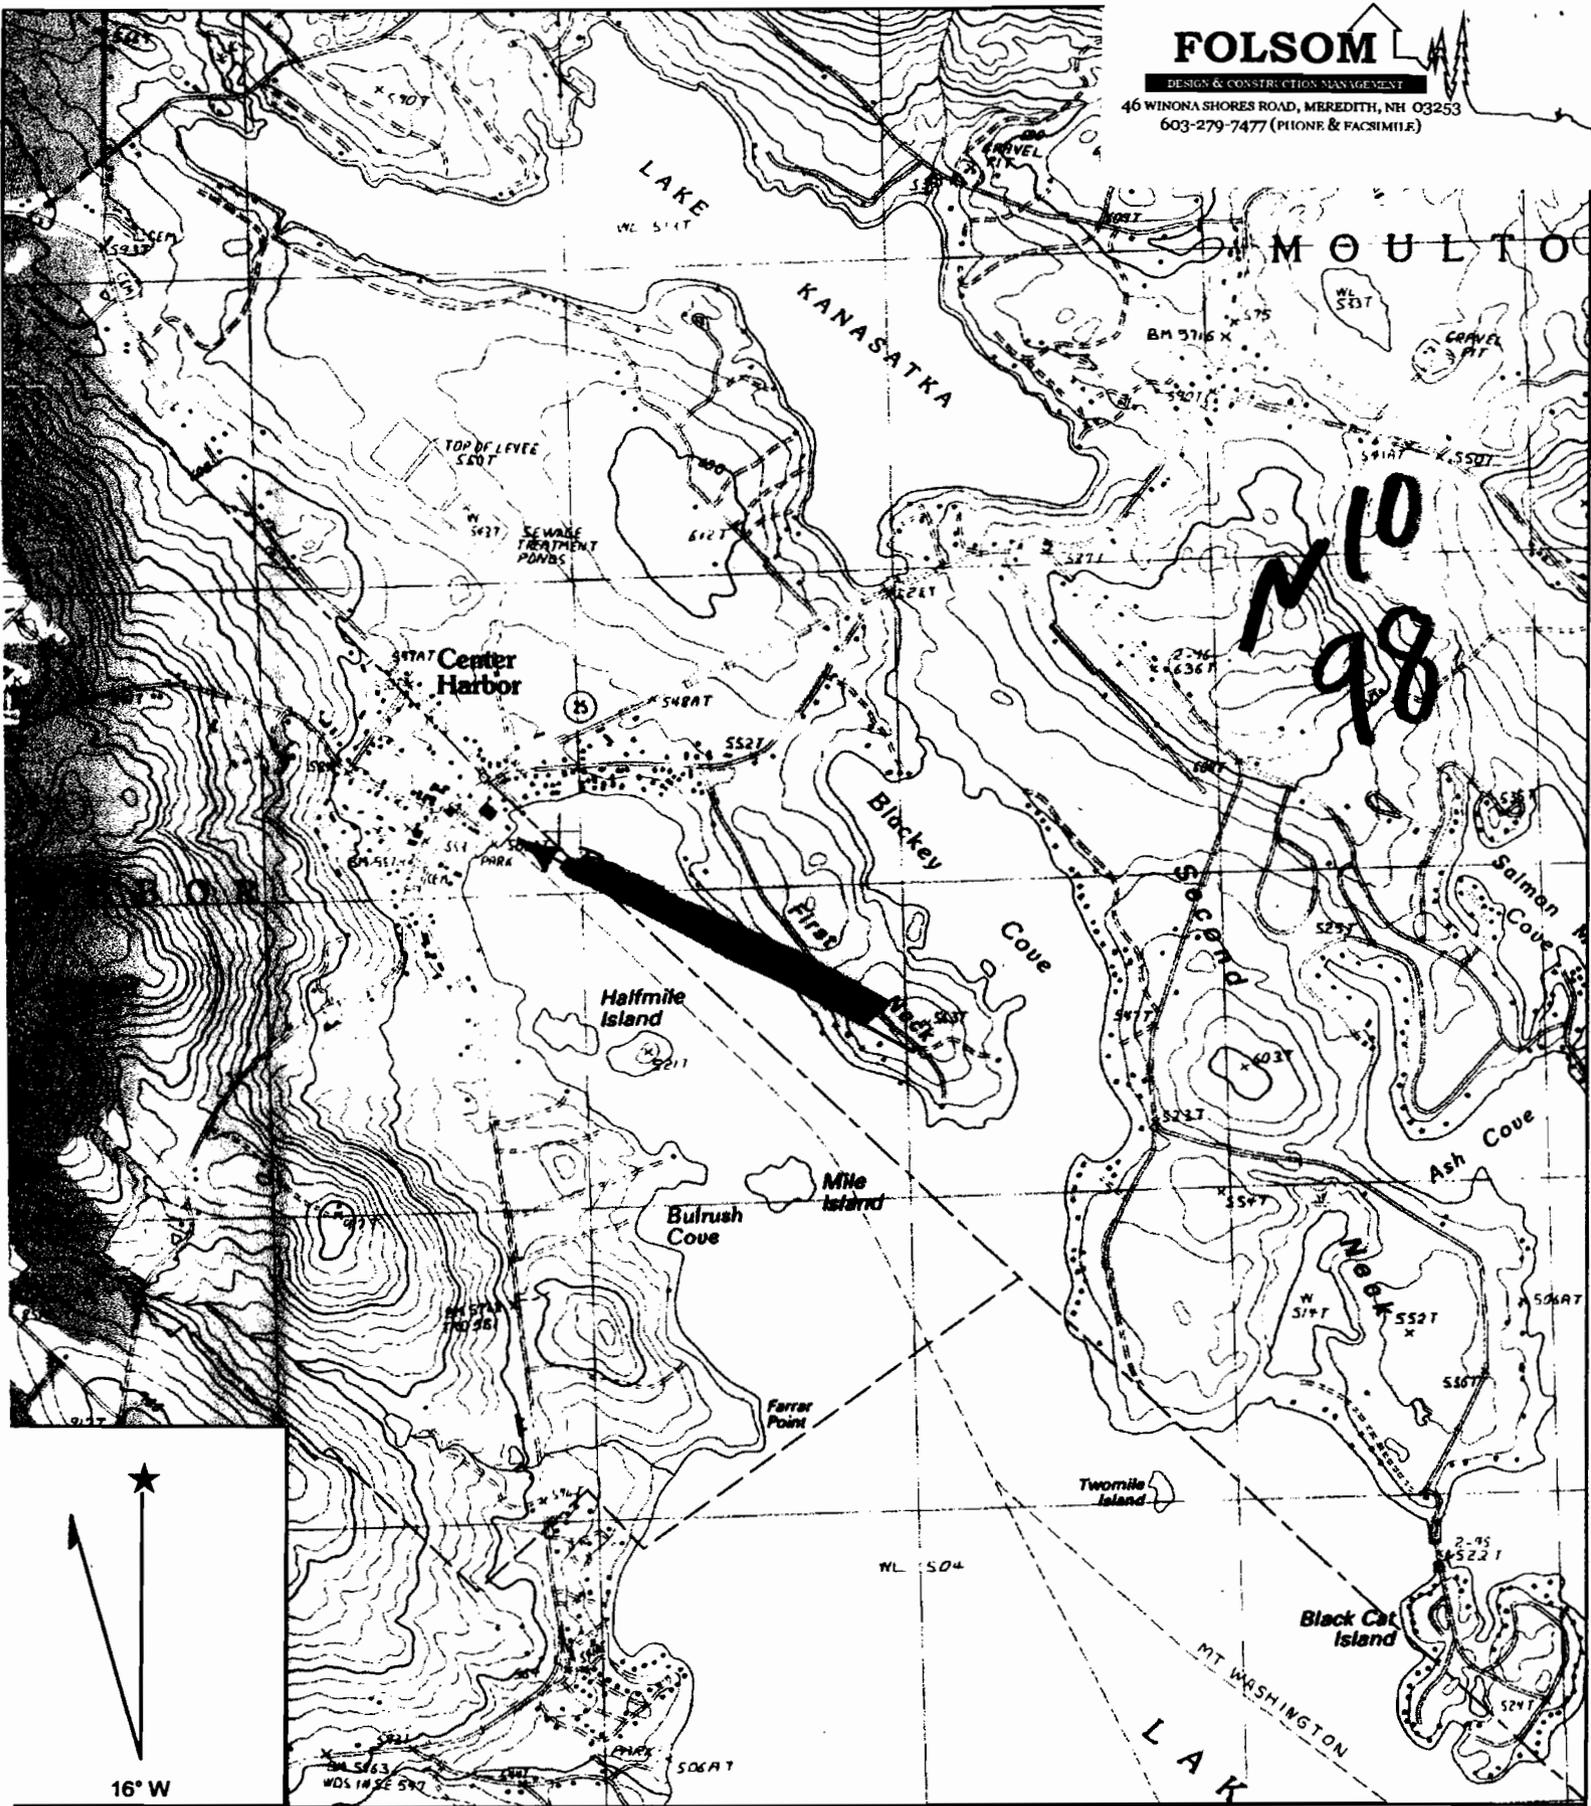

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

This report is valid through 11/6/2013.
