EXPLANATION

The purpose of this request is to ensure continued completion of legislatively mandated expert reviews for the Medicaid preferred drug list and for Medicaid benefits coverage issues requiring highly complex and technical decisions for all Medicaid and Granite Advantage members.

The total number of Medicaid and Granite Advantage members as of May 1, 2019 is 177,164.

The original agreement included language in the Exhibit C-1, Revisions to General Provisions, that allows the Department to renew the contract for up to four (4) additional years, subject to the continued availability of funds, satisfactory performance of services and approval by the Governor and Executive Council. The Department is in agreement with renewing services for four (4) of the four (4) years at this time.

The Department has statutory responsibility to manage the Title XIX Medicaid program. The Medicaid program provides a broad range of medical services, including a pharmacy benefit to residents of all ages who meet the specific eligibility requirements.

The Department utilizes an independent external clinical reviewer when coverage questions arise regarding experimental and investigational treatments, including transplant requests, to ensure fair and impartial determination is fully substantiated and consistent with national standards.

In 2003, the Department implemented a Pharmacy Benefit Management program, which included a preferred drug list that was implemented in 2004. Federal and state laws require independent clinical review services meet the requirements established by Chapter 188:1 of the Laws of 2004. This means that the decision to place a drug on the preferred drug list must be ratified, in writing, by a physician who is board certified in the specialty that most commonly treats the disease for which the drug is prescribed or that most commonly prescribes the relevant therapeutic class of drugs.

The reviewing physician can have no financial relationship with any company managing Medicaid's pharmacy benefits, nor can the physician be a member of the Drug Use Review Board established by the New Hampshire Medicaid program.

The Contractor mandates evidence-based support as an integral part of its expert reviews and presents a robust scrutiny for conflicts of interest. Further, the Contractor clearly demonstrates high quality program operations, which includes the credentialing of its medial reviewers and a review process training continuum. The Contractor utilizes multiple strategies for Health Insurance Portability and Accountability Act of 1996 co retention and disaster recovery capabilities.

Should the Governor and Executive Council not approve this request, the Department would be vulnerable to legal action because independent expert reviews of the Medicaid preferred drug list are legislatively mandated. Additionally, the potential for adverse clinical outcomes for Medicaid clients could occur if impartial expert reviewers are not available to determine if nonstandard practices are consistent with national standards.

Area served: Statewide

Source of Funds: 75% Federal Funds from the Centers for Medicare and Medicaid Services, Medical Assistance Program, Medicaid Title XIX, CFDA # is 93.778, Federal Award Identification Number (FAIN) 1805NH5ADM and 18% General Funds, 7% Other Funds

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Jeffrey A. Meyers
Commissioner

EXPLANATION

The purpose of this request is to ensure completion of legislatively mandated expert reviews for the Medicaid preferred drug list and for Medicaid benefits coverage issues requiring highly complex and technical decisions. The Department utilizes an independent external clinical reviewer when coverage questions arise regarding experimental and investigational treatments, including transplant requests, to ensure fair and impartial determination is fully substantiated and consistent with national standards.

The Department has statutory responsibility to manage the Title XIX Medicaid program. The Medicaid program provides a broad range of medical services, including a pharmacy benefit to residents of all ages who meet the specific eligibility requirements.

In 2003, the Department implemented a pharmacy benefit management program, which included a preferred drug list that was implemented in 2004. Federal and state laws require independent clinical review services meet the requirements established by Chapter 188:1 of the Laws of 2004. This means that the decision to place a drug on the preferred drug list must be ratified, in writing, by a physician who is board certified in the specialty that most commonly treats the disease for which the drug is prescribed or that most commonly prescribes the relevant therapeutic class of drugs.

The reviewing physician can have no financial relationship with any company managing Medicaid's pharmacy benefits, nor can the physician be a member of the Drug Use Review Board established by the New Hampshire Medicaid program.

The Contractor was selected through the competitive bidding process. The Department published a Request for Proposals on March 8, 2016 on the Department's website. The Department received four (4) proposals in response to the request. The proposals were reviewed and scored by a team of three (3) individuals with program and business expertise. The Network Review Company, Ltd. received the highest score and was selected as the contractor. The bid summary is attached.

This agreement contains language which allows the Department the right to renew for up to four (4) additional years, subject to the continued availability of funds, satisfactory performance of services and approval by the Governor and Executive Council.

The Contractor mandates evidence-based support as an integral part of its expert reviews and presents a robust scrutiny for conflicts of interest. Further, the Contractor clearly demonstrates high quality program operations, which includes the credentialing of its medical reviewers and a review process training continuum. Additionally, the Contractor utilizes multiple strategies for Health Insurance Portability and Accountability Act of 1996 compliant communications. The Contractor allows the Department to communicate directly with medical reviewers and provides access to electronic case tracking as well as client-specific databases with record retention and disaster recovery capabilities.

Should the Governor and Executive Council not approve this request, the Department would be vulnerable to legal action because independent expert reviews of the Medicaid preferred drug list are legislatively mandated. Additionally, the potential for adverse clinical outcomes for Medicaid clients could occur if impartial expert reviewers are not available to determine if nonstandard practices are consistent with national standards.

Area Served: Statewide

Source: 50% General Funds

50% Federal Funds (CFDA #93.778 U.S. Department of Health & Human Services, Centers for Medicare and Medicaid Services, Medical Assistance Program, Medicaid; Title XIX FAIN #NH20163)

In the event that Federal Funds become no longer available, General Funds will not be requested to support this program.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

- f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

- c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I.
