Department of Environmental Services, State Mapping Program, Contract for Program Services

EXPLANATION

The **SOLE SOURCE** contracts that are the subject of this request involve the state geological mapping program. The contractors listed in this request were specifically identified in the scope of work for the original grant proposal as required by the funding partner, the U.S. Geological Survey (USGS), under the STATEMAP Cooperative Geological Mapping Program. The qualifications of the contractors are rigorously evaluated by a USGS peer review panel which is convened annually in Washington, DC to make funding decisions for the program. The NH Geological Survey's mapping proposals routinely rate very high compared to all proposals submitted, largely due to the highly qualified contractors employed. Each of the contractors has previously produced high-quality maps that have been accepted by the USGS as deliverables for the STATEMAP program. Mapping contractors are subject to a pre-qualification process involving evaluation by the NH Geological Resource Advisory Committee (NHGRAC), based on a Statement of Qualifications (SOQ). Eligibility criteria include: (1) personal education and experience in the discipline of field mapping, (2) recent successful

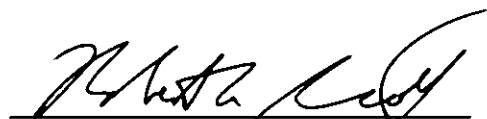

geologic mapping experience, and (3) production of a geological map that has been accepted or published by the USGS in Reston, Virginia.

This STATEMAP program is designed to create or update geological maps in areas of the state where there is a critical need for geologic information. Geological map data are routinely used by hydrogeologic consultants, engineers, scientists, planners, and local officials as the basis for land-use master plans, groundwater availability assessments and groundwater protection initiatives, infrastructure expansion, and for evaluating geologic hazards. In addition, the mapping program contributes to our knowledge about an integral part of New Hampshire's natural history. The selection of areas for detailed mapping was reviewed and approved by NHGRAC, which consists of members from the consulting community, state and federal agencies, academia, industry, and the general public. The criteria used in their selection included 1) critical need, 2) contribution to the state's Geological Mapping Strategic Plan, and 3) return of information for the investment of public funds.

In summary, the New Hampshire STATEMAP program has been very successful using contractors who have performed the field mapping in the past. Contractors will work under the direction of the State Geologist, who will review and approve all work before making a payment recommendation to the Department.

The contracts have been approved by the Department of Justice as to form, content, and execution. In the event that the Federal funds become no longer available, General funds will not be requested to support this program.

We respectfully request your approval.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/ PAYMENT.

5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete

compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

6.2 During the term of this Agreement, the Contractor shall not discriminate against employees or applicants for employment because of race, color, religion, creed, age, sex, handicap, sexual orientation, or national origin and will take affirmative action to prevent such discrimination.

6.3. The Contractor agrees to permit the State or United States access to any of the Contractor's books, records and accounts for the purpose of ascertaining compliance with all rules, regulations and orders, and the covenants, terms and conditions of this Agreement.

7. PERSONNEL.

7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws.

7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this Agreement. This provision shall survive termination of this Agreement.

7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State's representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer's decision shall be final for the State.

8. EVENT OF DEFAULT/REMEDIES.

8.1 Any one or more of the following acts or omissions of the Contractor shall constitute an event of default hereunder ("Event of Default"):

8.1.1 failure to perform the Services satisfactorily or on schedule;

8.1.2 failure to submit any report required hereunder; and/or

8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2 Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:

8.2.1 give the Contractor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely cured, terminate this Agreement, effective two (2) days after giving the Contractor notice of termination;

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 give the Contractor a written notice specifying the Event of Default, treat the Agreement as breached, terminate the Agreement and pursue any of its remedies at law or in equity, or both.

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT B. In addition, at the State's discretion, the Contractor shall, within 15 days of notice of early termination, develop and

submit to the State a Transition Plan for services under the Agreement.

For purposes of this paragraph, a Change of Control shall constitute assignment. "Change of Control" means (a) merger, consolidation, or a transaction or series of related transactions in which a third party, together with its affiliates, becomes the direct or indirect owner of fifty percent (50%) or more of the voting shares or similar equity interests, or combined voting power of the Contractor, or (b) the sale of all or substantially all of the assets of the Contractor.

12.2 None of the Services shall be subcontracted by the Contractor without prior written notice and consent of the State. Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

14. INSURANCE.

14.1 The Contractor shall, at its sole expense, obtain and continuously maintain in force, and shall require any subcontractor or assignee to obtain and maintain in force, the following insurance:

15. WORKERS' COMPENSATION.

15.1 By signing this agreement, the Contractor agrees, certifies and warrants that the Contractor is in compliance with or exempt from, the requirements of N.H. RSA chapter 281-A ("*Workers' Compensation*").

15.2 To the extent the Contractor is subject to the requirements of N.H. RSA chapter 281-A, Contractor shall maintain, and require any subcontractor or assignee to secure and maintain, payment of Workers' Compensation in connection with activities which the person proposes to undertake pursuant to this Agreement. The Contractor shall furnish the Contracting Officer identified in block 1.9, or his or her successor, proof of Workers' Compensation in the manner described in N.H. RSA chapter 281-A and any applicable renewal(s) thereof, which shall be attached and are incorporated herein by reference. The State shall not be responsible for payment of any Workers' Compensation premiums or for any other claim or benefit for Contractor, or any subcontractor or employee of Contractor, which might arise under applicable State of New Hampshire Workers' Compensation laws in connection with the performance of the Services under this Agreement.

16. NOTICE. Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses given in blocks 1.2 and 1.4, herein.

17. AMENDMENT. This Agreement may be amended, waived or discharged only by an instrument in writing signed by the parties hereto and only after approval of such amendment, waiver or discharge by the Governor and Executive Council of the State of New Hampshire unless no such approval is required under the circumstances pursuant to State law, rule or policy.

The wording used in this Agreement is the wording chosen by the parties to express their mutual intent, and no rule of construction shall be applied against or in favor of any party. Any actions arising out of this Agreement shall be brought and maintained in New Hampshire Superior Court which shall have exclusive jurisdiction thereof.

EXHIBIT B

Scope of Services

SURFICIAL GEOLOGIC MAPPING OF THE SOUTHERN HALF OF THE TAMWORTH 7.5-MINUTE QUADRANGLE, NEW HAMPSHIRE

Scope of work:

Surficial mapping of the southern half of the Tamworth 7.5-minute (1:24,000-scale) Quadrangle will include delineation of all surficial materials following the patterns, symbols, and cartography of United States Geological Survey (USGS)-published quadrangles of Nashua North, Kingston, and Rochester, New Hampshire, and previously submitted maps funded by the cooperative STATEMAP program. This includes delineating the till, glaciofluvial deposits, glaciolacustrine deposits, freshwater wetlands, bedrock exposures, shallow bedrock, alluvium, and other materials particular to the area. Symbols should conform to the Federal Geographic Data Committee digital cartographic standards of August 2006. The map shall also include pertinent scientific observations and annotations related to the glacial history of the map area, such as interpreted ice margin positions and locations of meltwater channels, as well as an overlay of four categories of material textures (gravel, mixed sand and gravel, sand with minor silt, and silt and clay with minor sand). The Contractor will incorporate existing geological information, and subsurface information provided by the NH Geological Survey (NHGS), a bureau of the NH Department of Environmental Services (DES), to support their geological interpretations and map products. All map units within the Tamworth Quadrangle must be reconciled with the mapped surficial geology of the Tuftonboro Quadrangle to the southeast, Melvin Village Quadrangle to the south, Center Harbor Quadrangle to the southwest, Center Sandwich Quadrangle to the west, Mount Trip pyramid Quadrangle to the northwest, and Mount Chocorua to the north, so that a seamless coverage can be created for the entire area of the adjoining quadrangles. High-quality photographs of significant geologic features shall be provided to NHGS as digital image files accompanied by descriptive captions and cross-referenced to actual localities indicated on the map. The Contractor shall also provide a concise legend containing a detailed description of each map unit and an approximately one-page narrative description of the glacial history of the quadrangle. A version of each of these documents shall be submitted in an electronic text-based format, preferably as separate Microsoft Word documents. Additionally, the Contractor shall submit a copy of observation data to NHGS. Acceptable formats for the submission of these field data include copies of field notes, electronically tabularized data (preferably in Microsoft Excel format) or all site-specific observations and measurements recorded on a base map. The Contractor shall use a data template provided by NHGS to compile the final map deliverable from digital point, line and polygon data captured in an ArcGIS geodatabase. The contractor will use the vocabulary domains limited within the template geodatabase.

The Contractor shall be available for a day-long field check of the mapped quadrangle. This event shall be arranged at the mutual convenience of the NHGS staff and the Contractor and should be performed toward the end of the contract period.

A map of the southern half of the Tamworth Quadrangle shall be prepared on a base with content equivalent to that of the most recent USGS 7.5-minute series topographic map for the quadrangle area, and which reproduces this content without distortions in scale. The map shall include: (1) scale and contour interval, (2) north arrow and magnetic declination, (3) title, authorship, publisher, and date, (4) location index map, (5) field data or field data stations, (6) description of map units, (7) explanation of map symbols, (8) unit symbols on map, and (9) an acknowledgment that reads "This geologic map (or report) was funded in part by the USGS National Cooperative Geologic Mapping Program under STATEMAP award number G20AC00392, 2020." The Contractor shall deliver this map to the State Geologist for scientific review at least ten (10) working days prior to the September 14, 2021 contract completion date. The Contractor shall submit a final, scale stable, reproducible color copy of the southern half of the Tamworth Quadrangle, consistent with USGS open-file release standards, to the State Geologist to complete the contract.

The Contractor shall adhere to the specifications outlined by DES's Standard Operating Procedures (DES-SOP #101) for accessing private lands. This includes providing NHGS with a copy of all logs indicating dates and times of contact with land owners. Guidance and assistance for operating within the SOP will be provided by NHGS.

EXHIBIT C

Payment Terms

The total contract price shall be \$11,593. This amount will be charged for mapping the southern half of the Tamworth Quadrangle, and billed as the percentage of work is completed. Detailed invoices will be required for all payments.

17. AMENDMENT. This Agreement may be amended, waived or discharged only by an instrument in writing signed by the parties hereto and only after approval of such amendment, waiver or discharge by the Governor and Executive Council of the State of New Hampshire unless no such approval is required under the circumstances pursuant to State law, rule or policy.

20. THIRD PARTIES. The parties hereto do not intend to benefit any third parties and this Agreement shall not be construed to confer any such benefit.

21. HEADINGS. The headings throughout the Agreement are for reference purposes only, and the words contained therein shall in no way be held to explain, modify, amplify or aid in the interpretation, construction or meaning of the provisions of this Agreement.

EXHIBIT A

Special Provisions

Paragraph 14 of the General Provisions of the standard state agreement is expressly waived. This provision is being waived because this is an individual and carrying this general liability insurance would be cost prohibitive.

EXHIBIT B

Scope of Services

BEDROCK GEOLOGIC MAPPING OF THE NORTHERN HALF OF BERLIN 7.5-MINUTE QUADRANGLE, NEW HAMPSHIRE

Scope of work:

Bedrock mapping of the northern half of the Berlin 7.5-minute (1:24,000-scale) Quadrangle will include delineation of all bedrock units following the patterns, symbols, and cartography of USGS, including 1) contacts between lithologic units, 2) faults, joints, and other discontinuities with attention to such structures that may be water bearing, and 3) point observations of features such as bedding, foliations, and hinge lines. Symbols should conform to the Federal Geographic Data Committee digital cartographic standards of August 2006. The Contractor will incorporate existing geological information, and subsurface information provided by the NH Geological Survey (NHGS), a bureau of the New Hampshire Department of Environmental Services, to support geological interpretations and map products. The Berlin Quadrangle should be reconciled with any available bedrock mapping. All map units shall be edge matched at the common boundaries between the Mount Crescent Quadrangle to the west and the Mount Washington Quadrangle to the southwest, so that seamless geospatial data can be created for the entire area of the adjoining quadrangles. The contractor will provide radiometric age dates from analyses performed on bedrock samples collected within the project area to clarify relationships between map units and the chronology of geologic events. These will include radiometric ages of detrital zircons extracted from two different samples and crystallization ages determined for two other representative samples.

High-quality photographs of significant geologic features shall be provided to NHGS as digital image files and accompanied by descriptive captions and cross-referenced to actual localities indicated on the map. The Contractor shall also provide a concise legend containing a detailed description of each map unit and an approximately one-page narrative description of the bedrock geologic history of the quadrangle. A version of each of these documents shall be submitted in an electronic text-based format, preferably as separate Microsoft Word documents. Additionally, the Contractor shall submit a copy of observation data to NHGS. Acceptable formats for the submission of these field data include copies of field notes, electronically tabularized data (preferably in Microsoft Excel format) or all site-specific observations and measurements recorded on a base map. The Contractor shall use a data template provided by NHGS to compile the final map deliverable from digital point, line and polygon data captured in an ArcGIS geodatabase. The contractor will use the vocabulary domains limited within the template geodatabase.

The Contractor shall be available for a day-long field check of the mapped quadrangle. This event shall be arranged at the mutual convenience of the NHGS staff and the Contractor and should be performed toward the end of the contract period.

A map of the Berlin Quadrangle shall be prepared on a base with content equivalent to that of the most recent USGS 7.5-minute series topographic map for the quadrangle area, and which reproduces this content without distortions in scale. The map shall include: (1) scale and contour interval, (2) north arrow and magnetic declination, (3) title, authorship, publisher, and date, (4) location index map, (5) field data or field data stations, (6) description of map units, (7) explanation of map symbols, (8) unit symbols on map, and (9) an acknowledgment that reads "This geologic map (or report) was funded in part by the USGS National Cooperative Geologic Mapping Program under STATEMAP award number G20AC00392, 2020." The Contractor shall deliver this map to the State Geologist for scientific review at least ten (10) working days prior to the September 14, 2021 contract completion date. The Contractor shall submit a final, scale stable, reproducible color copy of the Berlin Quadrangle, consistent with USGS open-file release standards, to the State Geologist to complete the contract.

The Contractor shall adhere to the specifications outlined by the Department's Standard Operating Procedures (DES-SOP #101) for accessing private lands. This includes providing NHGS with a copy of all logs indicating dates and times of contact with land owners. Guidance and assistance for operating within the SOP will be provided by the NHGS.

EXHIBIT C

Payment Terms

The total contract price shall be \$15,993.00. This amount will be charged for mapping the northern half of the Berlin Quadrangle, and billed as the percentage of work is completed. Detailed invoices will be required for all payments.

Notice: This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this Agreement. This provision shall survive termination of this Agreement.

EXHIBIT A

Special Provisions

Paragraph 14 of the General Provisions of the standard state agreement is expressly waived. This provision is being waived because this is an individual and carrying this general liability insurance would be cost prohibitive.

EXHIBIT B

Scope of Services

SURFICIAL GEOLOGIC MAPPING OF NORTHERN OF THE BERLIN 7.5-MINUTE QUADRANGLE, NEW HAMPSHIRE

Scope of work:

Surficial mapping of the northern half of the Berlin 7.5-minute (1:24,000-scale) Quadrangle will include delineation of all surficial materials following the patterns, symbols, and cartography of United States Geological Survey (USGS)-published quadrangles of Nashua North, Kingston, and Rochester, New Hampshire, and previously submitted maps funded by the cooperative STATEMAP program. This includes delineating the till, glaciofluvial deposits, glaciolacustrine deposits, freshwater wetlands, bedrock exposures, shallow bedrock, alluvium, and other materials particular to the area. Symbols should conform to the Federal Geographic Data Committee digital cartographic standards of August 2006. The map shall also include pertinent scientific observations and annotations related to the glacial history of the map area, such as interpreted ice margin positions and locations of meltwater channels, as well as an overlay of four categories of material textures (gravel, mixed sand and gravel, sand with minor silt, and silt and clay with minor sand). The Contractor will incorporate existing geological information, and subsurface information provided by the NH Geological Survey (NHGS), a bureau of the NH Department of Environmental Services (DES), to support their geological interpretations and map products. All map units within the northern half of the Berlin Quadrangle must be reconciled with the mapped surficial geology of the Mount Crescent Quadrangle to the west, Carter Dome Quadrangle to the south, and the Mount Washington Quadrangle to the southwest, so that a seamless coverage can be created for the entire area of the adjoining quadrangles. High-quality photographs of significant geologic features shall be provided to NHGS as digital image files and accompanied by descriptive captions and cross-referenced to actual localities indicated on the map. The Contractor shall also provide a concise legend containing a detailed description of each map unit and an approximately one-page narrative description of the glacial history of the quadrangle. A version of each of these documents shall be submitted in an electronic text-based format, preferably as separate Microsoft Word documents. Additionally, the Contractor shall submit a copy of observation data to NHGS. Acceptable formats for the submission of these field data include copies of field notes, electronically tabularized data (preferably in Microsoft Excel format) or all site-specific observations and measurements recorded on a base map. Upon completion of the map, the Contractor shall consult with the NHGS during the automation of the data into a series of digital data captured in an ArcGIS geodatabase.

Date 9/2/2020

The Contractor shall be available for a day-long field check of the mapped quadrangle. This event shall be arranged at the mutual convenience of the NHGS staff and the Contractor and should be performed toward the end of the contract period.

A map of the northern half of the Berlin Quadrangle shall be prepared on a base with content equivalent to that of the most recent USGS 7.5-minute series topographic map for the quadrangle area, and which reproduces this content without distortions in scale. The map shall include: (1) scale and contour interval, (2) north arrow and magnetic declination, (3) title, authorship, publisher, and date, (4) location index map, (5) field data or field data stations, (6) description of map units, (7) explanation of map symbols, (8) unit symbols on map, and (9) an acknowledgment that reads "This geologic map (or report) was funded in part by the USGS National Cooperative Geologic Mapping Program under STATEMAP award number G20AC00392, 2020." The Contractor shall deliver this map to the State Geologist for scientific review at least ten (10) working days prior to the September 14, 2021 contract completion date. The Contractor shall submit a final, scale stable, reproducible color copy of the northern half of the Berlin Quadrangle, consistent with USGS open-file release to the State Geologist to complete the contract.

The Contractor shall adhere to the specifications outlined by DES's Standard Operating Procedures (DES-SOP #101) for accessing private lands. This includes providing NHGS with a copy of all logs indicating dates and times of contact with land owners. Guidance and assistance for operating within the SOP will be provided by NHGS.

EXHIBIT C

Payment Terms

The total contract price shall be \$10,725.00. This amount will be charged for mapping the northern half of the Berlin Quadrangle, and billed as the percentage of work is completed. Detailed invoices will be required for all payments.
