EXPLANATION

State funds in this agreement will be used to provide payments to Dr. Andrea Berry, New Hampshire Board Certified, Doctor of Osteopathic Medicine, and are to be applied to the principal and interest of qualifying educational loans for actual cost paid for tuition, reasonable educational expenses, and reasonable living expenses relating to graduate or undergraduate education of a primary health care provider.

The State Loan Repayment Program provides funds to health care providers working in areas of the state designated as being medically underserved. These medically underserved areas identified as Health Care Professional Shortage Areas, Mental Health Professional Shortage Areas, Dental Health Professional Shortage Areas, Medically Underserved Areas/Populations, and Governor's Exceptional Medically Underserved Populations are indicators that a shortage of health care professionals exists, posing a barrier to access healthcare services for the residents of these areas. As one of several approaches to improve access to healthcare services, the State Loan Repayment Program has proven to be a successful short and long-term strategy to recruit and retain physicians, dentists, and other healthcare professionals into New Hampshire's underserved communities. In addition, the health care provider and practicing site that are participating in the State Loan Repayment Program agree to provide direct primary health care services especially for uninsured residents who are residing in our medically underserved areas of New Hampshire. A significant percentage of New Hampshire residents continue to face difficulty accessing primary care, mental, and oral health care services, due to workforce challenges.

The Contractor must be a U.S. citizen, not have any unserved obligations for service to another governmental or non-governmental agency, be New Hampshire Board Certified, and ready to begin full-time or part-time clinical practice at the approved site once a contract has been signed. The Contractor is willing to commit to a minimum service obligation of thirty-six months (full-time employee) or a minimum service obligation of twenty-four months (part-time employee) with the State of New Hampshire to work in a federally designated medically underserved area or a State sponsored Dental Program with the Division of Public Health Services/Oral Health Program. A Contractor who has completed their initial service contract obligation with the State Loan Repayment Program may request a contract extension if funding is available.

The Contractor under this agreement is working full-time and is willing to commit to a minimum service obligation of thirty-six months with the State of New Hampshire to work in a federally designated medically underserved area. This Agreement contains the option to extend the Agreement for two additional years contingent upon satisfactory delivery of services, available funding, remaining loan obligation of the Contractor, agreement of the parties and approval of the Governor and Council.

Eligible practice sites include community health centers, migrant health centers, health care entities that provide primary health care services to underserved populations, federally qualified health centers, and other systems of care that provide a full range of primary and preventive health and services.

Should Governor and Executive Council not authorize this Request, it will have a critical impact on the ability of New Hampshire health care facilities to recruit and retain qualified primary care health professionals to work in the State's Health Professional Shortage Areas. It is well-established that a sizeable number of healthcare professionals carry a heavy debt-burden as they come out of training and are attracted to serving in those areas where a share of that burden can be taken away. This program serves to attract and retain such providers into underserved areas by relieving some of their financial burden that would otherwise make service in such areas unattractive. This shortage of health care workers can impact health care in a variety of ways, including decreasing quality of care, decreasing access to care, increasing stress in the workplace, increasing medical errors, increasing workforce turnover, decreasing retention rates and increasing health care costs.

To assure that the highest need areas receive priority, the Rural Health & Primary Care Section has implemented an in-house scoring process for all state loan repayment applications. State Loan Repayment Program applications receive weighted points based on the information required in the program guidelines and application. The criteria are based on: community needs; the specialty of the health professional (ability to meet the needs); the percent of the population served using sliding-fee schedules; bad debt/charity care as a percentage of revenue by the facility; the underserved area being served; the type of facility; indebtedness of the applicant; retention or recruitment needs of the facility; language other than English that is significant to the area; and the applicant's commitment to the community. These criteria may change, as workforce needs of the State change.

The Contractor's commitment begins on April 1, 2014, or the date of Governor and Executive Council approval, whichever is later and the first State payment will begin on the first of the month of the following quarter, and quarterly thereafter for the duration of the contract. State payments are made directly to the Contractor to repay the principal and interest of any qualifying outstanding graduate or undergraduate educational loans. Before initiating each payment to the Contractor, the Rural Health and Primary Care Section will contact the employer to ensure the contract and Memorandum of Agreement are being met.

Each Contractor entering into any State Loan Repayment Program contract agrees to complete a service obligation that runs the length of the contract and remain at the eligible practice site for the term of the contract. Contractors who fail to begin or complete their State Loan Repayment Program obligation or otherwise breach the terms and conditions of the obligations are in default of their contracts and are subject to the financial consequences outlined in their contracts.

Mid-State Health Center, located at 101 Boulder Point Drive, Plymouth, NH 03264, Dr. Andrea Berry's employer, agrees that during the term of the state loan repayment contract signed between the State of New Hampshire and Dr. Andrea Berry, that the facility is willing to pay \$37,500.00 in addition to the \$37,500.00 with this state loan repayment contract throughout the thirty-six month loan repayment period. This local match provided by the employer cannot be part of the salary or bonuses that facility would normally provide the employee.

Dr. Andrea Berry, New Hampshire Board Certified, Doctor of Osteopathic Medicine, is working full-time at Mid-State Health Center, 859 Lake Street, Bristol, NH 03222, NH, which is a Federal Qualified Health Center (FQHC). Mid-State Health Center, Bristol, NH is located in a Health Professional Shortage Area and a Medically Underserved Population Area of New Hampshire. Dr. Andrea Berry's presence in a medically underserved rural area is part of the continuing effort to improve access to medical health care and reduce disparities within New Hampshire. Attached is a copy of the participant's Certificate of Licensure, resume and the employer's (Mid-State Health Center) Insurance Certificate.

2. The Contractor shall:

1. Be a U.S. Citizen or U.S. National.
2. Hold a current New Hampshire License or Certification in good standing in their health profession with no restrictions that would enable the contractor from performing his/her duties at the approved service site. 3. Be employed at an approved service site that is in a federally designated medically underserved area or a State sponsored Dental Program with the Division of Public Health Services/Oral Health Program and meet the required practice hours for full-time and part-time employment.
4. As a New Hampshire Board Certified, Doctor of Osteopathic Medicine, the contractor will be signing for a minimum service obligation of thirty-six months in exchange for full-time primary care health services during the term of the contract. Full-time clinical practice" is defined as working a minimum of 40 hours per week, for at least 45 weeks each service year. The 40 hours per week may be compressed into no less than 4 days per week, with no more than 12 hours of work to be performed in any 24-hour period. Participants do not receive credit for hours worked over the required 40 hours per week, and excess hours cannot be applied to any other workweek. Research and teaching are not considered to be "clinical practice". Time spent for all health care providers and dentists in "on-call" status will not count toward the 40-hour workweek, except to the extent the provider is directly serving patients during that period. Up to 7 weeks (35 work days) of leave is allowed from the service site in each year (vacation, holidays, professional education, illness, or any other reason). At least 32 hours of the minimum hours per week must be spent providing direct patient care in the outpatient ambulatory care setting at the approved service site. The remaining 8 hours of the minimum 40 hours must be spent providing clinical services for patients in the approved practice site(s) providing clinical services in alternative settings (e.g., hospitals, nursing homes, shelters)

The Rural Health & Primary Care Section cannot guarantee that a suspension request will be allowed. If a suspension is requested and approved, the contractor's service commitment end date will be extended and loan repayments will be delayed until the extension contract is approved by the Governor and Council and payments would begin quarterly from approval date.

Contractors under contract with the State who fail to begin or complete their State Loan Repayment Program obligation or otherwise breach the terms and conditions of the obligations are in default of their contracts and are subject to the financial consequences outlined in their contract and Memorandum of Agreements.

Notwithstanding anything to the contrary contained herein the covenants and conditions contained in the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. **Reports:** Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
 - 11.1. Prior to

subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

When the Contractor delegates a function to a subcontractor, the Contractor shall do the following:

- 16.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. 8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

MEMORANDUM OF AGREEMENT
State Loan Repayment Program

Between Dr. Andrea Berry, Mid-State Health Center, New Hampshire Department of Health & Human Services, Division of Public Health Services, Bureau of Public Health Systems, Policy and Performance/Rural Health and Primary Care Section

PURPOSE

The New Hampshire’s State Loan Repayment Program establishes contracts with qualified primary care, mental health and oral healthcare providers practicing full-time or part-time in nonprofit, private, or public sites who provide ambulatory patient care and who are seeking financial support for professional education loan repayments in exchange for their commitment to serving the underinsured population in our medically underserved areas that would otherwise make service in such areas unattractive.

These medically underserved areas; identified as Health Care Professional Shortage Areas (HPSAs), Mental Health Professional Shortage Areas (MHPSAs), Dental Health Professional Shortage Areas (DHPSAs), Medically Underserved Areas/Populations (MUA/Ps), and Governor’s Exceptional Medically Underserved Populations (E-MUP) are indicators that a shortage of primary healthcare providers exist, posing a barrier to access to primary health care services for the residents of these areas. Health care providers participating in the State Loan Repayment Program agree to provide primary care services and dental services to all patients regardless of their ability to pay. In addition, the health care provider and the practice site must offer a sliding discount-to-fee schedule based on current federal poverty guidelines, accept Medicaid, Medicare, and provide free care when medically necessary.

New for the State Loan Repayment Program beginning January 1, 2013, Dentists and Registered Dental Hygienists who work for a State sponsored Dental Program for the N.H. Division of Public Health Services/Oral Health Program and meet the type of provider and required ambulatory care services. Medically underserved designation will be waived for State sponsored Dental Programs.

The New Hampshire Division of Public Health Services, The Bureau of Public Health Systems, Policy and Performance/Rural Health and Primary Care Section administers the New Hampshire State Loan Repayment Program. The Program eligibility requirements are established by federal law authorizing the State Loan Repayment Program (Section 388I of the Public Health Service Act, as amended by Public Law 101-597) and Division of Public Health Services under the provision of Chapter 410, Laws of NH 1994.

Full Time Services

Loan repayment contracts are available to;

“Full-time clinical practice” defined as working a minimum of 40 hours per week, for at least 45 weeks each service year. The 40 hours per week may be compressed into no less than 4 days per week, with no more than 12 hours of work to be performed in any 24-hour period. Participants do not receive credit for hours worked over the required 40 hours per week, and excess hours cannot be applied to any other work week. Research and teaching are not considered to be “clinical practice”. Time spent for all health care providers and dentists in “on-call” status will not count toward the 40-hour workweek, except to the extent the provider is directly serving patients during that period. Up to 7 weeks (35 work days) of leave is allowed from the service site in each year (vacation, holidays, professional education, illness, or any other reason).

- a. For most type of providers, at least 32 hours of the minimum hours per week must be spent providing direct patient care in the outpatient ambulatory care setting at the approved service site. The remaining 8 hours of the minimum 40 hours must be spent providing clinical services for patients in the approved practice site(s) providing clinical services in alternative settings (e.g., hospitals, nursing homes, shelters) as directed by the approved site(s), or performing practice-related administrative activities. Practice-related administrative activities shall not exceed 8 hours of the minimum 40 hours per week.

- b. OB/GYN physicians, family practice physicians who practice obstetrics on a regular basis, certified nurse midwives, and behavioral/ mental health providers: the majority of the 40 hours per week (not less than 21 hours per week) is expected to be spent providing direct patient care. These services must be conducted in an approved ambulatory care practice site during normal schedule office hours, with the remaining 19 hours spent providing inpatient care to patients of the approved service site, or providing clinical services in alternative settings (e.g., hospitals, nursing homes, shelters) as directed by the approved practice site(s), performing practice related administrative activities. Practice-related administrative activities shall not exceed 8 hours of the minimum 40 hours per week.
- c. General Surgeon needs to be employed full time at a "Critical Access Hospital".
