As needs develop, the DEPARTMENT will issue specific Task Orders to the CONSULTANT. A Task Order is an individually funded order with its own unique scope of work issued against the basic contract scope of work, terms and conditions, to carry out a specific project for the DEPARTMENT. These Task Orders will be initiated by a Request for Proposal (RFP) letter that may include a detailed description of the project or elements of work, an outline of the services required, responsibilities of the parties, materials to be supplied by the DEPARTMENT, specified accuracy requirements, and other information necessary to complete the work for the Task Order. The CONSULTANT shall then submit to the DEPARTMENT for approval a scope of work and fee proposal and a tentative work schedule and completion date for each Task Order assigned. The DEPARTMENT will review the CONSULTANT'S proposal and schedule negotiations, if necessary, to clarify the proposed scope of work, the number of work hours needed, and any other associated proposed costs in order to establish the final not-to-exceed or lump-sum amount for the Task Order. Upon approval of the CONSULTANT'S proposal by the DEPARTMENT and FHWA (if applicable), the DEPARTMENT will issue a Task Order Authorization to Proceed Letter. The CONSULTANT shall sign the Authorization to Proceed Letter and return it to the DEPARTMENT. A conference may be required to turn over a Task Order to the CONSULTANT. Costs associated with the CONSULTANT'S preparation of a scope of work and fee for a Task Order are non-reimbursable.

### **F. MATERIAL FURNISHED BY THE DEPARTMENT OF TRANSPORTATION**

The DEPARTMENT will furnish the CONSULTANT with the appropriate materials, in electronic and/or hardcopy format, as needed to perform the assigned work.

## ARTICLE I

The CONSULTANT shall be aware that the services to be performed under this AGREEMENT will be on an as-needed basis. In addition, the CONSULTANT shall realize that emergency situations may arise that will require immediate response/action.

Following approval of the contract by the Governor and Council, the CONSULTANT shall be available to begin performance of the services designated in the Contract promptly upon receipt from the DEPARTMENT of a Notice to Proceed Letter. Upon receipt of a Task Order Authorization to Proceed Letter, the CONSULTANT shall complete the services required for each Task Order without delay unless unable to do so for causes not under the CONSULTANT'S control.

It is imperative that close coordination between the CONSULTANT and the DEPARTMENT be maintained at all times so as to ensure compliance with the DEPARTMENT'S requirements for specific Task Orders.

The CONSULTANT'S sequence of operation and performance of the work under the terms of this AGREEMENT shall be varied at the direction of the DEPARTMENT to give priority in critical areas so that schedules and other STATE commitments, either present or future, can be met.

The CONSULTANT shall report progress monthly for each active Task Order with activity during the billing period, in accordance with the DEPARTMENT'S Standardized Invoicing.

### **H. SUBMISSION OF REPORTS, PLANS AND DOCUMENTS**

Each submission shall be supplemented with such drawings, illustrations and descriptive matter as are necessary to facilitate a comprehensive review of proposed concepts.

### **J. DATE OF COMPLETION**

The date of completion for the professional services rendered under this AGREEMENT is **October 31, 2023** unless terminated earlier upon the depletion of the total amount payable under this AGREEMENT, or extended as allowed by the following provision:

No new tasks may be assigned after the above noted completion date, however, the CONSULTANT shall complete any tasks begun prior to the completion date, but not yet completed, in accordance with the methods of compensation specified in Article II and all other applicable portions and contractual requirements of this AGREEMENT. This shall be subject to the written mutual agreement of both parties, which shall include a revised Date of Completion to allow completion of the previously assigned work.

ARTICLE II

**ARTICLE II - COMPENSATION OF CONSULTANT FOR ON-CALL SERVICES**

**A. AGREEMENT GENERAL FEE**

In consideration of the terms and obligations of this AGREEMENT, the STATE, through the DEPARTMENT, hereby agrees to pay and the CONSULTANT agrees to accept as full compensation for the combined total cost of all work, expenses, and profit for Task Orders issued under this AGREEMENT, an amount not to exceed \$600,000.00. (The CONSULTANT shall note that no payments will be made for work, expenses, or profit, whether authorized or not, exceeding the \$600,000.00 total amount.)

**B. METHOD OF COMPENSATION FOR TASK ORDERS**

The method of compensation for Task Orders issued under this agreement will either be a **Cost-Plus-Fixed-Fee** format with method of payment as described in Section C, or a **Lump-Sum** format with method of payment as described in Section D. A **Task Order Fee Summary** will be included in the DEPARTMENT-issued Authorization to Proceed for a Task Order.

**C. COST-PLUS-FIXED-FEE FORMAT**

1. **Task Order Cost Development** - The negotiated not-to-exceed cost of each cost-plus-fixed-fee format Task Order will be computed as follows:

$$\begin{aligned} & \text{Labor Costs [hours x average rates* + indirect cost rate x (hours x rates)]} \\ + & \text{ Fixed Fee (negotiated amount)} \\ + & \text{ Direct Expenses (estimated amount)} \\ + & \text{ Subconsultant Costs (estimated amount or lump sum)} \\ = & \underline{\hspace{10em}} \\ & \text{Negotiated Task Order Cost} \end{aligned}$$

- \* The average rates are the Average NHDOT Allowed Rates from the most-current version of the **Salary Rate Calculation Form** (see Article I Section C - Staffing).

2. **Task Order Cost Reimbursement** - In consideration of the terms and obligations of this AGREEMENT, the STATE, through the DEPARTMENT, hereby agrees to pay and the CONSULTANT agrees to accept as full compensation for all services rendered to the satisfaction of the DEPARTMENT for each Task Order an amount equal to the sum of the following costs (a)+(b)+(c)+(d)+(e):

- a. Actual salaries\* approved by the DEPARTMENT paid to technical and other employees by the CONSULTANT, including salaries to principals, for the time such employees are directly utilized on work necessary to fulfill the terms of this AGREEMENT.

\* In accordance with DEPARTMENT policy, the maximum direct-labor rate allowed for all positions under this AGREEMENT, including subconsultants, shall be \$60.00 per hour unless a waiver to the salary cap has been specifically approved for specialty services.

## ARTICLE II

- b. Overhead costs applicable to the direct salary costs. The audited indirect cost rates of 158.566%, as submitted to and approved by the DEPARTMENT, will be applied to the direct salary costs. The CONSULTANT agrees that the indirect cost rate shall be extended at that rate for the duration of the Contract in accordance with 23 CFR 172.11 (b)(1)(vi). An overtime premium of one and one half times the direct labor rate for non-exempt employees working beyond the standard 40 hours per workweek may be allowed for special circumstances when approved by the DEPARTMENT in writing in advance. The overhead portion of non-exempt employees' salary rates shall not be adjusted. Engineers are not eligible for overtime premium rates.
- c. A fixed fee amount based on the estimated risk to be borne by the CONSULTANT [maximum 10.00% of Labor Costs (including overhead costs)] for profit and non-reimbursed costs.
- d. Reimbursement for direct expenses, including, but not limited to, subconsultants with a subcontract value of less than \$100,000, printing, reproductions and travel not included in normal overhead expenses. The reimbursable costs for mileage and for per diem (lodging and meals) shall be that allowed by the CONSULTANT'S established policy but shall not exceed that allowed in the Federal Acquisition Regulation (Subpart 31.205-46) and in the Federal Travel Regulation. Mileage and per diem costs shall be subject to approval by the DEPARTMENT. Subconsultants with a subcontract value of less than \$100,000 shall be invoiced as direct expenses and do not require individual invoices.
- e. Reimbursement for actual cost of subconsultants.

The amount payable under categories (a), (b), (d), and (e) may be reallocated within the not-to-exceed Task Order amount upon mutual agreement of the DEPARTMENT and CONSULTANT. The fixed fee (c) shall only change when there has been a significant increase or decrease in the scope of work. The estimated amounts for (a), (b), (d), and (e) and the actual amount for (c) are listed in the Fee Summary section of the Authorization to Proceed for each Task Order.

- 3. **Task Order Limitation of Costs** – The total amount to be paid for any Task Order shall not exceed the sum of the amounts shown in the Task Order Fee Summary limits contained in the Authorization to Proceed Letter. It is expected that the CONSULTANT agrees to use best efforts to perform the work specified in the Task Order Scope of Work and all obligations under this contract within such limiting amount.
- 4. **Task Order Payments** - Monthly payments on account may be made upon submission of invoices by the CONSULTANT to the DEPARTMENT. The CONSULTANT shall follow the

## ARTICLE II

DEPARTMENT'S Standardized Invoicing format. The fixed fee shall be invoiced during the billing period based upon the overall percent complete calculated within the approved progress report found in the DEPARTMENT'S Standardized Invoicing.

### **D. LUMP-SUM FORMAT**

**Task Order Cost Reimbursement** - The negotiated total amount of each lump-sum format Task Order will be considered full compensation for all services for the Task Order performed to the satisfaction of the DEPARTMENT. Said lump-sum amount includes all labor, overhead, profit (maximum 15.00% of total labor + total overhead; based on the estimated risk to be borne by the CONSULTANT), direct expenses, and subconsultant costs. The CONSULTANT shall follow the DEPARTMENT'S Standardized Invoicing format. The lump-sum amount may only be adjusted (increased or decreased) if there is a significant change in the scope or character of the work, as determined by the DEPARTMENT. Any change to the lump-sum amount shall be documented in writing by a DEPARTMENT Bureau-level amendment. For a substantial lump-sum Task Order, the DEPARTMENT'S Lump Sum Article II for standalone agreements will be furnished to the CONSULTANT for additional reference information.

### **E. SUBCONSULTANT SUPPORTING SERVICES**

Subconsultant Supporting Services were not anticipated during negotiations for this AGREEMENT.

Note: Subconsultants can be engaged at any time if needed for a Task Order, whether they were included in the CONSULTANT'S Technical Proposal or not. Subconsultant costs may be either negotiated as a not-to-exceed amount for each Task Order and reimbursed at actual cost or negotiated as a lump-sum amount. See Article IV.G – SUBLETTING for subconsultant Professional Liability Insurance information.

### **F. TASK ORDER AMENDMENTS**

If revisions to a Task Order scope of work, and/or the fee summary or completion date included in the Task Order Authorization to Proceed is/are required, it shall be documented in writing by a DEPARTMENT Bureau-level amendment. The amendment will be filed with the Authorization to Proceed in the AGREEMENT.

### **N. DISADVANTAGED BUSINESS ENTERPRISE POLICY AGREEMENT REQUIREMENTS**

1. Policy. It is the policy of the United States Department of Transportation (USDOT) to ensure nondiscriminatory opportunity for Disadvantaged Business Enterprises (DBE's), as defined in 49 Code of Federal Regulations (CFR) Part 26, to participate in the performance of agreements and any subagreements financed in whole or in part with Federal funds. Consequently, the DBE requirements of 49 CFR Part 26 apply to this AGREEMENT.
2. Disadvantaged Business Enterprise (DBE) Obligation. The STATE and its Consultants agree to ensure nondiscriminatory opportunity for disadvantaged business enterprises, as defined in 49 CFR Part 26, to participate in the performance of agreements and any subagreements financed in whole or in part with Federal funds. In this regard, the STATE and its Consultants shall take all necessary and reasonable steps in accordance with 49 CFR Part 26 to ensure that disadvantaged business enterprises have the opportunity to compete for and perform work specified in the agreements. The STATE and its Consultants shall not discriminate on the basis of race, color, religion, age, sex, handicap, sexual orientation, or national origin in the award and performance of agreements financed in whole or in part with Federal funds.
3. Sanctions for Non-Compliance. The CONSULTANT is hereby advised that failure of the CONSULTANT, or any Subconsultant performing work under this AGREEMENT, to carry out the requirements set forth in paragraphs 1 and 2 above shall constitute a breach of agreement and, after the notification of the United States Department of Transportation, may result in termination of this AGREEMENT by the STATE or such remedy as the STATE deems appropriate.

## ARTICLE IV

### **O. DOCUMENTATION**

The CONSULTANT shall document the results of the work to the satisfaction of the DEPARTMENT and the Federal Highway Administration. This shall include preparation of progress reports, plans, specifications and estimates and similar evidences of attainment of objectives called for in this AGREEMENT.

### **P. CLEAN AIR AND WATER ACTS**

If the amount of the AGREEMENT or subcontract thereunder exceeds \$100,000, the CONSULTANT or subconsultant shall comply with applicable standards, orders or requirements issued under Section 306 of the Federal Clean Air Act (43 U.S.C. 1857(h)), Section 508 of the Federal Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR Part 15), which prohibit the use under non-exempt Federal contracts, grants or loans of facilities included on the EPA List of Violating Facilities. The CONSULTANT or subconsultant shall report violations to the FHWA and to the U. S. Environmental Protection Agency Assistant Administrator for Enforcement (EN-329).

## ATTACHMENT A

### Special Contract Provisions for COVID-19

The CONSULTANT acknowledges and agrees that this AGREEMENT was entered into following the coronavirus disease 2019 (COVID-19) outbreak. The CONSULTANT agrees that to the extent the COVID-19 outbreak, or any federal, state or local orders, regulations, rules, restrictions, or emergency declarations relating to COVID-19, disrupt, delay, or otherwise impact the Scope of Services to be performed by the CONSULTANT as set forth in Article I of this AGREEMENT, any such disruption, delay, or other impact was foreseeable at the time this AGREEMENT was entered into by the Parties and does not excuse the Contractor's performance under this AGREEMENT. The CONSULTANT agrees that any such impact, including any disruption to supply chains, workforce reductions, delays or interruptions in performance, or other effects on businesses, are not the fault of the STATE and the CONSULTANT may not seek damages against the STATE for any such impacts.

If the CONSULTANT experiences or anticipates any such COVID-19-related impacts to this AGREEMENT, the CONSULTANT shall immediately notify the DEPARTMENT'S Contract Manager. In the event of any COVID-19-related impact or anticipated impact to this AGREEMENT, the Contract Manager shall have the right to temporarily modify, substitute, or decrease the services, without the approval of the Governor and Executive Council, upon giving written notice to the CONSULTANT. The STATE'S right to modify includes, but is not limited to the right to modify service priorities, including how and when services are delivered, and expenditure requirements under this AGREEMENT so as to achieve compliance therewith, provided such modifications are within the Scope of Services and cost limitations of this AGREEMENT. By exercising any of the rights described within this subsection, the STATE does not waive any of its right under this AGREEMENT.

In the event that a modification by the STATE under this subsection would result in a permanent reduction of services that cannot be supplemented during the remaining term of this AGREEMENT with either replacement or substituted services of substantially similar value, the Parties shall submit a formal amendment to this AGREEMENT with a commensurate reduction in the price. This amendment will require the approval of the Governor and Executive Council. In order to facilitate reconciliation of services performed under this AGREEMENT, the CONSULTANT shall submit weekly reports detailing the following for any service not fully performed pursuant to the terms of the AGREEMENT:

- 1) The services required to be performed under the terms of this AGREEMENT as written;
- 2) The services actually performed;
- 3) Any replacement or substituted services performed with reference to the associated unperformed contracted services.

EXPLANATION

The Department requires on-call professional environmental/wetlands-related services with a focus on coastal wetlands and resources for Department projects and activities at various locations throughout the State that will complement the work being performed by the staff of the Bureau of Environment. The types of services required shall generally include, but are not limited to, providing coastal wetlands assessment, wetland delineation/impact assessment/permitting, environmental documentation, wetland mitigation, stream crossing data collection/assessment design, monitoring of wetland and/or stream restoration mitigation sites, invasive species delineation, and rare plants/endangered species investigations.

The consultant selection process employed by the Department for this qualifications-based contract is in accordance with RSAs 21-I:22, 21-I:22-c, 21-I:22-d, 228:4 and 228:5-a, and all applicable Federal laws and the Department's "Policies and Procedures for Consultant Contract Procurement, Management, and Administration" dated August 25, 2017. The Department's Consultant Selection Committee is a standing committee that meets regularly to administer the process and make determinations. The Committee is comprised of the Assistant Director of Project Development (Chair), the Chief Project Manager, the Administrators of the Bureaus of Highway Design, Bridge Design, Environment, and Materials and Research, and the Municipal Highways Engineer.

The consultant selection process for this qualifications-based contract was initiated by a solicitation for consultant services for two Statewide On-Call Coastal Wetlands and Environmental Services contracts. The assignment was listed as a "Project Soliciting for Interest" on the Department's website on October 11, 2019, asking for letters of interest from qualified firms. From the list of firms that submitted letters of interest, the Committee prepared a long and then short list of Consultants on December 12, 2019 for consideration and approval by the Assistant Commissioner. Upon receipt of that approval, four (4) shortlisted firms were notified on December 26, 2019

through a technical "Request For Proposal" (RFP). Committee members individually rated the firms' technical proposals on March 12, 2020 using a written ballot to score each firm on the basis of comprehension of the assignment, clarity of the proposal, capacity to perform in a timely manner, quality and experience of the project manager and the team, and overall suitability for the assignment. (A compilation of the completed individual rating ballots and the ranking summary form is attached.) The individual rankings were then totaled to provide an overall ranking of the four (4) firms, and the Committee's ranking was submitted to the Assistant Commissioner for consideration and approval. Upon receipt of the Assistant Commissioner's approval, the short listed firms were notified of the results and the two highest-ranking firms were asked to submit a fee proposal for negotiations.

The long list of seven (7) consultant firms that were considered for this assignment, with the four (4) short-listed firms shown in bold, is as follows:

The CONSULTANT shall provide to the STATE a certificate of insurance evidencing the required coverages, retention (deductible) and cancellation clause prior to submittal of the AGREEMENT to Governor and Council for approval and shall have a continuing duty to provide new certificates of insurance as the policies are amended or renewed.

### 4. No Third-Party Rights

It is not intended by any of the provisions of the AGREEMENT to make the public or any member thereof a third-party beneficiary of the AGREEMENT, or to authorize anyone not a party to this AGREEMENT to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this AGREEMENT. The duties, obligations and responsibilities of the parties to this AGREEMENT with respect to third parties shall remain as imposed by law. No portion of this AGREEMENT shall be understood to be a waiver of the STATE'S sovereign immunity.

### 5. Construction of AGREEMENT

### **K. AGREEMENT MODIFICATION**

The assignment of the CONSULTANT, generally established by the scope of work in this AGREEMENT, shall not be modified in any way without prior approval of the Governor and Council.

### **L. EXTENSION OF COMPLETION DATE(S)**

If, during the course of the work, the CONSULTANT anticipates that he cannot comply with one or more of the completion dates specified in this AGREEMENT, it shall be the CONSULTANT'S responsibility to notify the DEPARTMENT in writing at least ninety (90) days prior to the completion date(s) in question. The CONSULTANT shall state the reasons that a completion date(s) cannot be met and request a revised date(s) for consideration by the DEPARTMENT.

### **M. TITLE VI (NONDISCRIMINATION OF FEDERALLY-ASSISTED PROGRAMS)**

#### **COMPLIANCE**

During the performance of this AGREEMENT, the CONSULTANT, for itself, its assignees and successors in interest agrees as follows:

- (1) Compliance with Regulations: The CONSULTANT shall comply with Title VI of the Civil Rights Act of 1964 regulations relative to nondiscrimination in federally-assisted programs of the DEPARTMENT, such regulations entitled Title 49 Code of Federal Regulations, Part 21, as they may be amended from time to time (hereinafter referred to as the REGULATIONS), and which are herein incorporated by reference and made a part of this AGREEMENT.

## ARTICLE IV

- (2) Nondiscrimination: The CONSULTANT, with regard to the work performed by it during the AGREEMENT, shall not discriminate on the grounds of race, color, religion, age, sex, handicap, sexual orientation, or national origin in the selection and retention of subconsultants, including procurements of materials and leases of equipment specific to this project. The CONSULTANT shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the REGULATIONS, including employment practices when the AGREEMENT covers a program set forth in Appendix B of the REGULATIONS.
- (3) Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by the CONSULTANT for work to be performed under a subcontract, including procurements of materials or leases of equipment specific to the project, each potential subconsultant or supplier shall be notified by the CONSULTANT of the CONSULTANT'S obligations under this AGREEMENT and the REGULATIONS relative to nondiscrimination on the grounds of race, color, religion, age, sex, handicap, sexual orientation, or national origin.
- (4) Information and Reports: The CONSULTANT shall provide all information and reports required by the REGULATIONS or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information and its facilities as may be determined by the DEPARTMENT or the Federal Highway Administration to be pertinent to ascertain compliance with such REGULATIONS, orders and instructions. Where any information required of a CONSULTANT is in the exclusive possession of another who fails or refuses to furnish this information, the CONSULTANT shall so certify to the DEPARTMENT or the Federal Highway Administration, as appropriate, and shall set forth what efforts it has made to obtain the information.
- (5) Sanctions for Noncompliance: In the event of the CONSULTANT'S noncompliance with nondiscrimination provisions of this AGREEMENT, the DEPARTMENT shall impose sanctions as it or the Federal Highway Administration may determine to be appropriate, including, but not limited to:
- (a) withholding of payments to the CONSULTANT under the AGREEMENT until the CONSULTANT complies; and/or
  - (b) cancellation, termination or suspension of the AGREEMENT, in whole or in part.
- (6) The CONSULTANT shall take such action with respect to any subcontract or procurement as the DEPARTMENT or the Federal Highway Administration may direct as a means of enforcing such provisions, including sanctions for noncompliance, provided, however, that in the event a CONSULTANT becomes involved in, or is threatened with, litigation with a subconsultant or supplier as a result of such direction, the CONSULTANT may request the DEPARTMENT to enter

## ARTICLE IV

into such litigation to protect the interests of the STATE, and, in addition, the CONSULTANT may request the United States to enter into such litigation to protect the interests of the United States.

- (7) 23 CFR 710.405(b) and Executive Order 11246 entitled "Equal Employment Opportunity," as amended by Executive Order 11375 and as supplemented in Department of Labor REGULATIONS (41 CFR Part 60), shall be applicable to this AGREEMENT and any subagreements hereunder.
- (8) Incorporation of Provisions: The CONSULTANT shall include the provisions of paragraphs (1) through (7) in every subcontract, including procurements of materials and leases of equipment specific to the project, unless exempt by the REGULATIONS, or directives issued pursuant thereto.

In accordance with EXECUTIVE ORDER 11246, the DEPARTMENT has the authority and responsibility to notify the Office of Federal Contract Compliance Programs of the United States Department of Labor if they become aware of any possible violations of Executive Order 11246 and 41 CFR Part 60. The Office of Federal Contract Compliance Programs is solely responsible for determining compliance with Executive Order 11246 and 41 CFR Part 60 and the CONSULTANT should contact them regarding related compliance issues.

### **N. DISADVANTAGED BUSINESS ENTERPRISE POLICY AGREEMENT REQUIREMENTS**

1. Policy. It is the policy of the United States Department of Transportation (USDOT) to ensure nondiscriminatory opportunity for Disadvantaged Business Enterprises (DBE's), as defined in 49 Code of Federal Regulations (CFR) Part 26, to participate in the performance of agreements and any subagreements financed in whole or in part with Federal funds. Consequently, the DBE requirements of 49 CFR Part 26 apply to this AGREEMENT.
2. Disadvantaged Business Enterprise (DBE) Obligation. The STATE and its Consultants agree to ensure nondiscriminatory opportunity for disadvantaged business enterprises, as defined in 49 CFR Part 26, to participate in the performance of agreements and any subagreements financed in whole or in part with Federal funds. In this regard, the STATE and its Consultants shall take all necessary and reasonable steps in accordance with 49 CFR Part 26 to ensure that disadvantaged business enterprises have the opportunity to compete for and perform work specified in the agreements. The STATE and its Consultants shall not discriminate on the basis of race, color, religion, age, sex, handicap, sexual orientation, or national origin in the award and performance of agreements financed in whole or in part with Federal funds.
3. Sanctions for Non-Compliance. The CONSULTANT is hereby advised that failure of the CONSULTANT, or any Subconsultant performing work under this AGREEMENT, to carry out the requirements set forth in paragraphs 1 and 2 above shall constitute a breach of agreement and, after the notification of the United States Department of Transportation, may result in termination of this AGREEMENT by the STATE or such remedy as the STATE deems appropriate.

## ARTICLE IV

### **O. DOCUMENTATION**

The CONSULTANT shall document the results of the work to the satisfaction of the DEPARTMENT and the Federal Highway Administration. This shall include preparation of progress reports, plans, specifications and estimates and similar evidences of attainment of objectives called for in this AGREEMENT.

### **P. CLEAN AIR AND WATER ACTS**

If the amount of the AGREEMENT or subcontract thereunder exceeds \$100,000, the CONSULTANT or subconsultant shall comply with applicable standards, orders or requirements issued under Section 306 of the Federal Clean Air Act (43 U.S.C. 1857(h), Section 508 of the Federal Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR Part 15), which prohibit the use under non-exempt Federal contracts, grants or loans of facilities included on the EPA List of Violating Facilities. The CONSULTANT or subconsultant shall report violations to the FHWA and to the U. S. Environmental Protection Agency Assistant Administrator for Enforcement (EN-329).

## ATTACHMENT A

### Special Contract Provisions for COVID-19

The CONSULTANT acknowledges and agrees that this AGREEMENT was entered into following the coronavirus disease 2019 (COVID-19) outbreak. The CONSULTANT agrees that to the extent the COVID-19 outbreak, or any federal, state or local orders, regulations, rules, restrictions, or emergency declarations relating to COVID-19, disrupt, delay, or otherwise impact the Scope of Services to be performed by the CONSULTANT as set forth in Article I of this AGREEMENT, any such disruption, delay, or other impact was foreseeable at the time this AGREEMENT was entered into by the Parties and does not excuse the Contractor's performance under this AGREEMENT. The CONSULTANT agrees that any such impact, including any disruption to supply chains, workforce reductions, delays or interruptions in performance, or other effects on businesses, are not the fault of the STATE and the CONSULTANT may not seek damages against the STATE for any such impacts.

If the CONSULTANT experiences or anticipates any such COVID-19-related impacts to this AGREEMENT, the CONSULTANT shall immediately notify the DEPARTMENT'S Contract Manager. In the event of any COVID-19-related impact or anticipated impact to this AGREEMENT, the Contract Manager shall have the right to temporarily modify, substitute, or decrease the services, without the approval of the Governor and Executive Council, upon giving written notice to the CONSULTANT. The STATE'S right to modify includes, but is not limited to the right to modify service priorities, including how and when services are delivered, and expenditure requirements under this AGREEMENT so as to achieve compliance therewith, provided such modifications are within the Scope of Services and cost limitations of this AGREEMENT. By exercising any of the rights described within this subsection, the STATE does not waive any of its right under this AGREEMENT.

In the event that a modification by the STATE under this subsection would result in a permanent reduction of services that cannot be supplemented during the remaining term of this AGREEMENT with either replacement or substituted services of substantially similar value, the Parties shall submit a formal amendment to this AGREEMENT with a commensurate reduction in the price. This amendment will require the approval of the Governor and Executive Council. In order to facilitate reconciliation of services performed under this AGREEMENT, the CONSULTANT shall submit weekly reports detailing the following for any service not fully performed pursuant to the terms of the AGREEMENT:

- 1) The services required to be performed under the terms of this AGREEMENT as written;
- 2) The services actually performed;
- 3) Any replacement or substituted services performed with reference to the associated unperformed contracted services.

**REQUESTED ACTION**

1. Authorize the Department of Transportation to enter into a contract with New England Signal Systems, Inc. (Vendor 174153) of Northwood, NH on the basis of a low bid of \$1,026,755.00 for the installation of 10 Road Weather Information Systems around the State, from the date of Governor and Council approval through August 27, 2021, unless extended by the Department in accordance with the Standard Specifications. 51% Federal Funds, 49% Turnpike Funds.

Funding is available in State Fiscal Year 2021, and is contingent upon the availability and continued appropriation of funds in Fiscal Year 2022 as follows, with the ability to adjust encumbrances through the Budget Office between State Fiscal Years if needed and justified:

	<u>FY 2021</u>	<u>FY 2022</u>
04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments	\$452,593.02	\$66,775.98
	<u>FY 2021</u>	<u>FY 2022</u>
04-96-96-961017-7514 Spaulding Tpk/US 4/NH116 400-500870 Highway Contract Payments	\$442,150.64	\$65,235.36

2. Further authorize that a contingency in the amount of \$30,802.65 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 3% of the contract amount.

	<u>FY 2022</u>
04-96-96-963515-3054 Consolidated Federal Aid 400-500870 Highway Contract Payments	\$30,802.65

EXPLANATION

This project is part of the State's Ten Year Plan, and consists of installing 10 new Road Weather Information System (RWIS) located in Northwood along US 4, in Jefferson along NH 115, in Peterborough along NH 101, in Exeter along NH 101, in Wakefield along NH 16, two in Dover along NH 16, in Rochester along NH 16, and two in Milton along NH 16. This project will bring greater safety to the locations where the RWIS will be installed by allowing NHDOT crews to more efficiently manage storm response and other unplanned event response while working remotely.

The project is needed to enhance the RWIS Program across the State. These installations will supplement and fill in coverage gaps in the existing RWIS network. This project will install 5 new RWIS on the Turnpike system and 5 new RWIS along various routes.

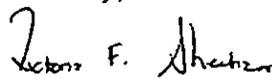

Although the bid costs exceeded the Department's estimate by 36.11%, the low bid of 5 bids received is felt to be reasonable for the work involved. 100% of the overage is related to the RWIS items (10 total). The Department's estimate for these items was consistently lower than the A-Bidder. The B-Bidder prices were 25% higher, on average, than the low bid. Re-advertising this project would result, in our opinion, in higher prices and prevent the completion of the work in a timely manner. The Department considers it to be in the best interest of the State to accept this bid to accomplish these needed repairs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is: 51% Federal (STP-State Flexible, utilizing Turnpike Toll Credits), 49% Turnpike Capital.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

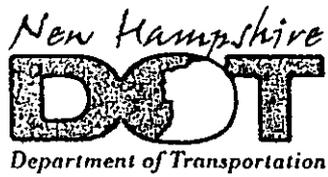

Sincerely,

Victoria F. Sheehan  
Commissioner

## SUPPLEMENTAL PROJECT INFORMATION SHEET

**DESCRIPTION:** This project consists of installing 10 new Road Weather Information System (RWIS) located in Northwood along US 4, in Jefferson along NH 115, in Peterborough along NH 101, in Exeter along NH 101, in Wakefield along NH 16, two in Dover along NH 16, in Rochester along NH 16, and two in Milton along NH 16. This project will bring greater safety to the locations where the RWIS will be installed by allowing NHDOT crews to more efficiently manage storm response and other unplanned event response while working remotely.

**FUNDING:**

**FHWA:** 50% STP-State Flexible utilizing Turnpike Toll Credits

**TPK:** 50% Turnpike Capital

**CONTINGENCY:** The proposed contingency amount is 3% of the contract amount. This is to account for the risks associated with changing ITS technology and the statewide nature of the RWIS locations.

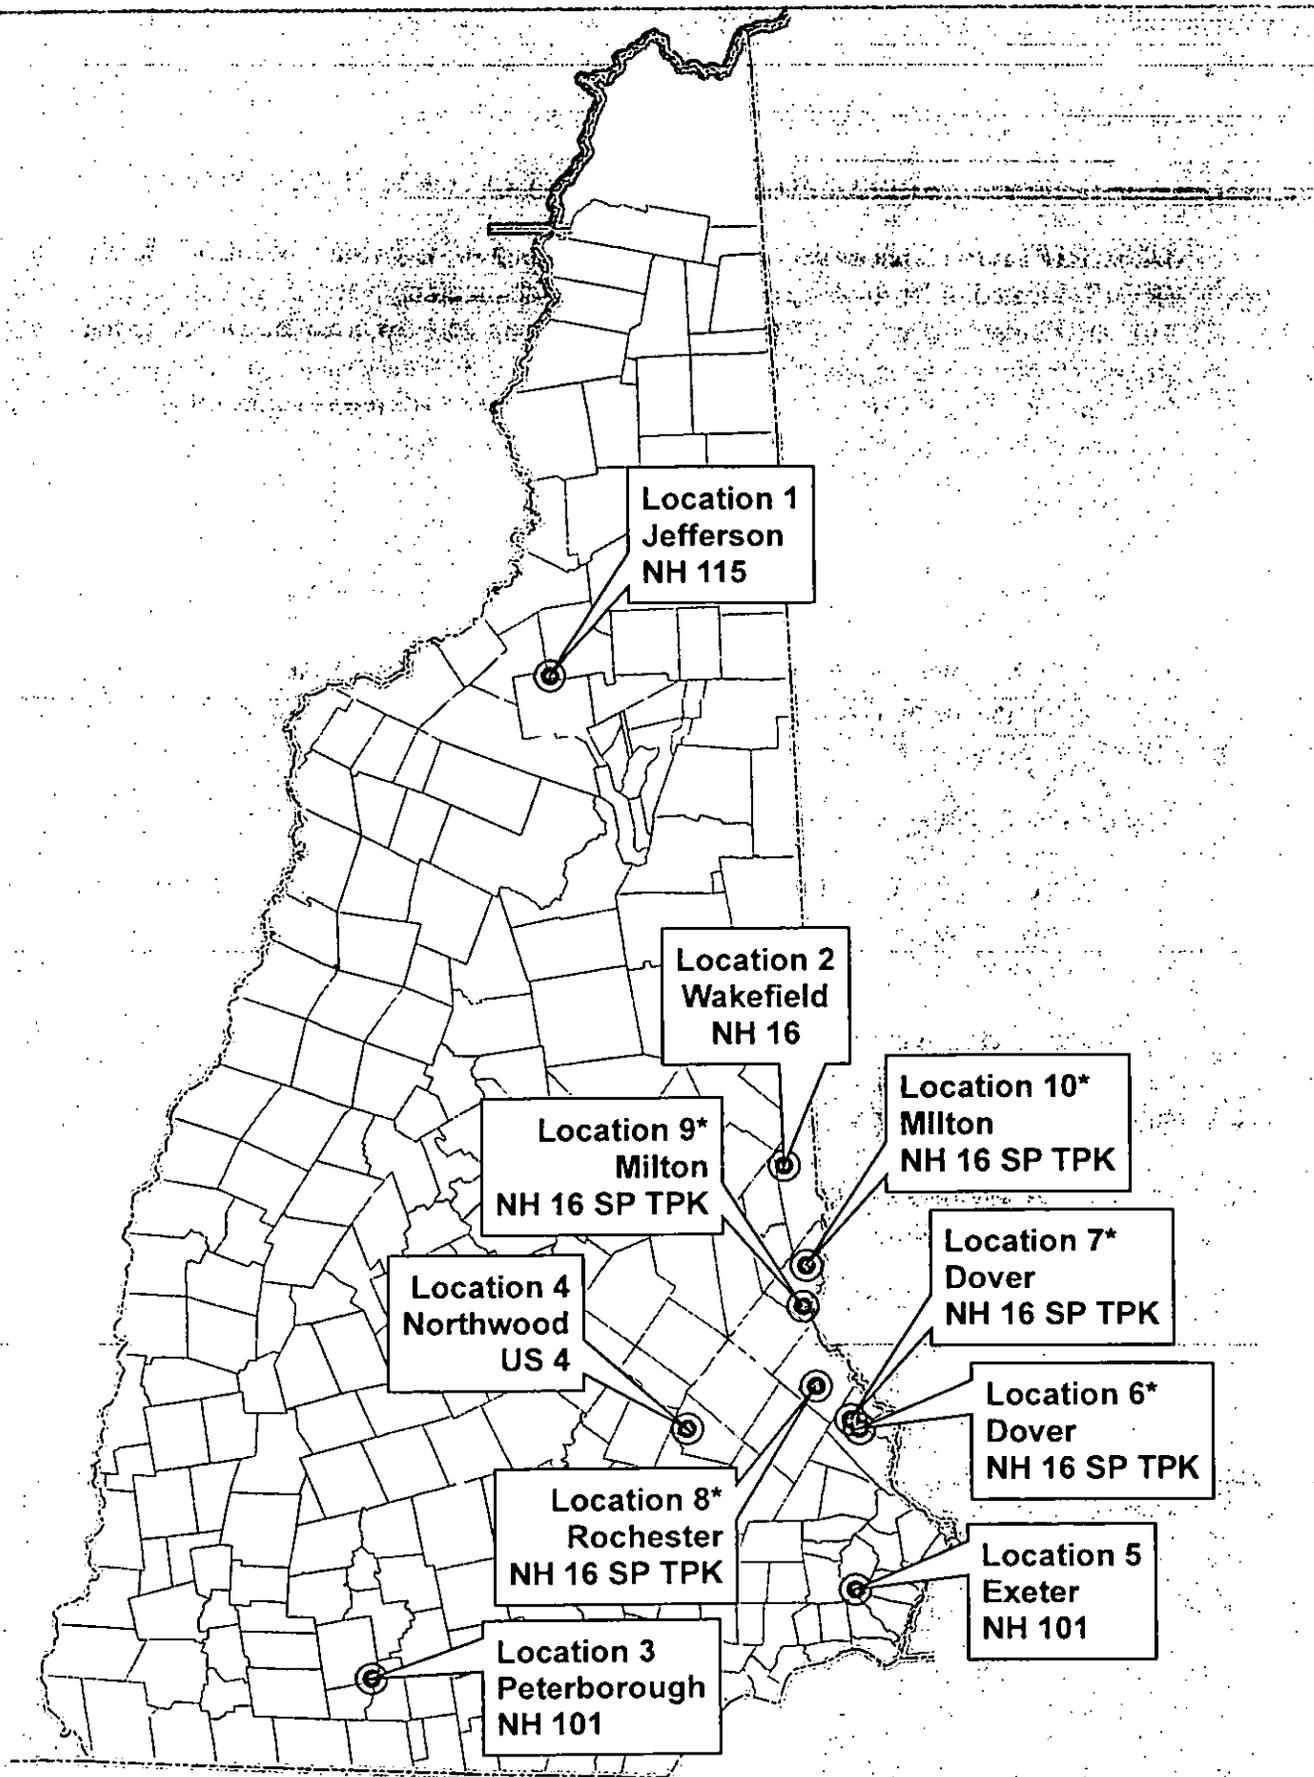

**PROJECT INITIATED:** State's Ten Year Plan

**PROJECT EXPLANATION:** The project is needed to expand the RWIS Program across the State. This project will install 5 new RWIS on the Turnpike system and 5 new RWIS along various routes.

**TRAFFIC IMPLICATION:** The project was designated as "Non Significant" by the Traffic Control Committee on April 16, 2020. Construction is expected to occur in the spring and summer of 2021. There is no reduced speed limit proposed at any of the locations. The work will likely involve closing the shoulder in most locations, however the Northwood location may require a lane shift during working hours and the Peterborough location may require a reduction from a 3 lane section to a two lane section during work hours.

**COMPLETION DATE:** August 27, 2021

## STANDARD EXHIBIT F

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12529 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

### **CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS**

#### *Instructions for Certification*

- (1) By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
- (2) The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- (3) The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
- (4) The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (5) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.
- (6) The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
- (7) The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- (8) A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement List (of excluded parties).
- (9) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (10) Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

**CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER  
RESPONSIBILITY MATTERS - PRIMARY COVERED TRANSACTIONS, cont'd**

*Certification Regarding Debarment, Suspension, and Other  
Responsibility Matters - Primary Covered Transactions*

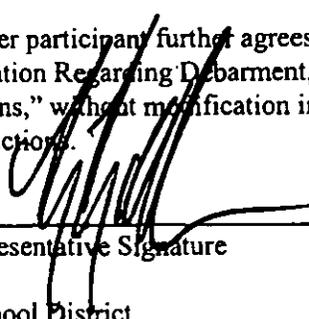

- (11) The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
- (a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
  - (b) have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
  - (c) are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification; and
  - (d) have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- (12) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

*Certification Regarding Debarment, Suspension, Ineligibility and  
Voluntary Exclusion - Lower Tier Covered Transactions  
(To Be Supplied to Lower Tier Participants)*

By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

- (a) are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.

### REQUESTED ACTION

1. Pursuant to RSA 6-A:2, adoption is requested of the attached resolution permitting the State Treasurer to proceed with the sale and issuance of up to \$100 million of general obligation (“new money”) bonds through a competitive process, negotiated sale, or private placement. This resolution will have an expiration date of June 30, 2021.
2. Pursuant to RSA 6-A:10, adoption is requested of the attached resolution permitting the State Treasurer to conduct the sale and issuance of up to \$165 million of general obligation refunding bonds through a competitive process, negotiated sale, or private placement to refund outstanding general obligation bonds of the State to generate net present value debt service savings of at least three percent of the par value of the refunded bonds. This resolution will also have an expiration date of June 30, 2021.

### EXPLANATION

As of September 30, 2020, the State had approximately \$234 million of authorized and unissued general obligation debt outstanding after lapses. This debt has been authorized by the legislature in recent biennia for a variety of capital projects. The purpose of the “new money” bond issue is to finance a portion of these ongoing projects.

In addition, interest rates are presently at levels that enable the Treasury to consider issuing general obligation refunding bonds to refund (refinance) a portion of the State’s outstanding general obligation bonds. Preliminary estimates indicate that net present value savings of the refunding bonds could exceed three percent, which is a threshold that Treasury has historically viewed as advantageous to the State.

RSA 6-A:2 and RSA 6-A:10 provide that the issuance of State bonds shall be authorized by the Governor and Council.

Respectfully requested,

Monica I. Mezzapelle  
Commissioner of the Treasury

The Governor and Council hereby certify that the attached resolutions were adopted at their meeting on October 21, 2020.

Resolved: that the Commissioner of the Treasury or the State Treasurer (hereinafter for purposes of this resolution, the "State Treasurer") is hereby authorized to issue General Obligation Capital Improvement Bonds (the "New Money Bonds"), subject to the following paragraph, in an aggregate principal amount not to exceed \$100,000,000 to finance new project costs, to be dated and to mature on such date or dates as the State Treasurer shall determine, and to bear interest at the rates and to be subject to redemption, all as determined by the State Treasurer at the time of sale of the New Money Bonds.

Further Resolved: that the State Treasurer is hereby authorized to issue all or a portion of the New Money Bonds in one or more series or sub-series, and at one or more times and to reduce the aggregate principal amount of New Money Bonds to be issued if the State Treasurer determines that issuing the New Money Bonds at different times or issuing such aggregate smaller amount of New Money Bonds is in the best interests of the State, and the State Treasurer is authorized to designate each issue in such manner as the State Treasurer determines to be appropriate and to reduce or increase the annual principal maturities of the New Money Bonds of each issue in such a manner as the State Treasurer determines is in the best interests of the State.

Further Resolved: that the sale of the New Money Bonds may be made on a negotiated basis to a syndicate of underwriters selected by the State Treasurer (such manner of sale shall be referred to herein as a "Negotiated Sale"), or on a competitive basis pursuant to an electronic bidding process (such manner of sale shall be referred to herein as a "Competitive Sale") or on a private placement basis to a purchaser or purchasers selected by the State Treasurer (such manner of sale shall be referred to herein as a "Private Placement"); that the State Treasurer is authorized to determine the date or dates of sale of the New Money Bonds, provided that any such date is not later than June 30, 2021; that the State Treasurer is hereby authorized to determine the manner of sales of the New Money Bonds, and that the manner of sales so selected by the State Treasurer is hereby determined to be most advantageous to the State.

Further Resolved: that if the State Treasurer determines that the sale of the New Money Bonds shall be a Negotiated Sale, then the publication and distribution by the State Treasurer of a Preliminary Official Statement substantially in the form customarily provided by the State is hereby authorized; that the sale of the New Money Bonds on a negotiated basis to a syndicate of underwriters selected by the State Treasurer, at an aggregate purchase price to be determined by the State Treasurer is hereby authorized; that the State Treasurer is hereby authorized to execute and deliver a Bond Purchase Contract ("Purchase Contract") and a final Official Statement, to the underwriters of the New Money Bonds; that such Purchase Contract and final Official Statement shall set forth the principal amount of New Money Bonds to be issued, the date of the New Money Bonds, the principal amount of the New Money Bonds maturing each year and the dates and years of such maturities, the New Money Bonds constituting the term bonds and the mandatory redemption amounts related thereto, if any, and the interest rates on the New Money Bonds, and the execution of such Purchase Contract shall constitute conclusive evidence of the approval of the State Treasurer and the approval of the Governor and Council thereof; and the State Treasurer and Governor are authorized to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the New Money Bonds, including any amendment, supplement or update to the final Official Statement authorized hereby.

Further Resolved: that if the State Treasurer determines that the sale of the New Money Bonds shall be a Competitive Sale, then the publication and distribution of a Preliminary Official Statement and Notice of Sale, calling for electronic bids for the purchase of the New Money Bonds, each in substantially the forms customarily used by the State with such changes as the State Treasurer shall determine, are hereby authorized; that the sale of the New Money Bonds upon the terms and conditions set forth in such Notice of Sale is hereby approved; and that the State Treasurer is hereby authorized to award the New Money Bonds to the bidder or bidders offering to purchase all of the New Money Bonds, or a series or subseries thereof, or maturity or maturities thereof, at the lowest true interest cost to the State, as set forth in the Notice of Sale relating to the New Money Bonds as so modified and to execute and deliver a final Official Statement to the purchaser or purchasers of the New Money Bonds, in such form as the State Treasurer deems appropriate, and to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the New Money Bonds.

Further Resolved: that if the State Treasurer determines that the sale of the New Money Bonds shall be a Private Placement, then the publication by the State Treasurer of a Preliminary Private Placement Memorandum in a form approved by the State Treasurer and containing such information pertaining to the State as the State Treasurer determines to be necessary or desirable for inclusion in such Preliminary Private Placement Memorandum is hereby authorized; that the sale of the New Money Bonds on a private placement basis to a purchaser or purchasers selected by the State Treasurer, at an aggregate purchase price to be determined by the State Treasurer is hereby authorized; that the State Treasurer is hereby authorized to execute and deliver a Placement Agreement (“Placement Agreement”) and a final Private Placement Memorandum, to the purchaser(s) of the New Money Bonds; that such Placement Agreement and final Private Placement Memorandum shall set forth the principal amount of New Money Bonds to be issued, the date of the New Money Bonds, the principal amount of the New Money Bonds maturing each year and the dates and years of such maturities, the New Money Bonds constituting the term bonds and the mandatory redemption amounts related thereto, if any, and the interest rates on the New Money Bonds, and the execution of such Placement Agreement shall constitute conclusive evidence of the approval of the State Treasurer and the approval of the Governor and Council thereof; and the State Treasurer and Governor are authorized to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the New Money Bonds, including any amendment, supplement or update to the final Private Placement Memorandum authorized hereby.

Further Resolved: that the State Treasurer is hereby authorized to issue General Obligation Refunding Bonds (the “Refunding Bonds”), subject to the following paragraph, in an aggregate principal amount not to exceed \$165,000,000, to refund any of the State’s outstanding general obligation bonds (such bonds to be refunded hereinafter referred to as the “Refunded Bonds”), as determined by the State Treasurer to be in the best interests of the State, to mature on the dates and in the principal amounts, and to bear interest at the rate or rates, and to be subject to redemption, all as determined by the State Treasurer at the time of the sale of the Refunding Bonds.

Further Resolved: that the State Treasurer is hereby authorized to issue all or a portion of the Refunding Bonds in one or more series or sub-series, and at one or more times and to reduce

the aggregate principal amount of the Refunding Bonds by any amount if the State Treasurer determines that issuing the Refunding Bonds at different times or issuing such aggregate smaller amount of Refunding Bonds is in the best interests of the State; that, at or prior to the delivery of the Refunding Bonds, the State Treasurer shall execute a certificate setting forth the principal amount of Refunding Bonds to be issued, the date of the Refunding Bonds, the principal amount of the Refunding Bonds maturing each year, the dates of the maturities of the Refunding Bonds, the Refunding Bonds constituting the term bonds and the mandatory redemption amounts related thereto, if any, and the interest rates on the Refunding Bonds and the execution of such certificate shall constitute conclusive evidence of the approval of the State Treasurer and the approval of the Governor and Council thereof.

Further Resolved: that the sale of the Refunding Bonds may be made as a Negotiated Sale, as a Competitive Sale or as a Private Placement; that the State Treasurer is authorized to determine the date or dates of sale of the Refunding Bonds, provided that any such date is not later than June 30, 2021; that the State Treasurer is hereby authorized to determine the manner of sales of the Refunding Bonds, and that the manner of sales so selected by the State Treasurer is hereby determined to be most advantageous to the State.

Further Resolved: that if the State Treasurer determines that the sale of the Refunding Bonds shall be a Negotiated Sale, then the publication and distribution by the State Treasurer of a Preliminary Official Statement substantially in the form customarily provided by the State is hereby authorized; that the sale of the Refunding Bonds on a negotiated basis to a syndicate of underwriters selected by the State Treasurer, at an aggregate purchase price to be determined by the State Treasurer is hereby authorized; that the State Treasurer is hereby authorized to execute and deliver a Purchase Contract and a final Official Statement, to the underwriters of the Refunding Bonds; that such Purchase Contract and final Official Statement shall set forth the principal amount of Refunding Bonds to be issued, the date of the Refunding Bonds, the principal amount of the Refunding Bonds maturing each year and the dates and years of such maturities, the Refunding Bonds constituting the term bonds and the mandatory redemption amounts related thereto, if any, and the interest rates on the Refunding Bonds, and the execution of such Purchase Contract shall constitute conclusive evidence of the approval of the State Treasurer and the approval of the Governor and Council thereof; and the State Treasurer and Governor are authorized to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the Refunding Bonds, including any amendment, supplement or update to the final Official Statement authorized hereby.

Further Resolved: that if the State Treasurer determines that the sale of the Refunding Bonds shall be a Competitive Sale, then the publication and distribution of a Preliminary Official Statement and Notice of Sale, calling for electronic bids for the purchase of the Refunding Bonds, each in substantially the forms customarily used by the State with such changes as the State Treasurer shall determine, are hereby authorized; that the sale of the Refunding Bonds upon the terms and conditions set forth in such Notice of Sale is hereby approved; and that the State Treasurer is hereby authorized to award the Refunding Bonds to the bidder or bidders offering to purchase all of the Refunding Bonds, or a series or subseries thereof, or maturity or maturities thereof, at the lowest true interest cost to the State, as set forth in the Notice of Sale relating to the Refunding Bonds as so modified and to execute and deliver a final Official

Statement to the purchaser or purchasers of the Refunding Bonds, in such form as the State Treasurer deems appropriate, and to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the Refunding Bonds.

Further Resolved: that if the State Treasurer determines that the sale of the Refunding Bonds shall be a Private Placement, then the publication by the State Treasurer of a Preliminary Private Placement Memorandum in a form approved by the State Treasurer and containing such information pertaining to the State as the State Treasurer determines to be necessary or desirable for inclusion in such Preliminary Private Placement Memorandum is hereby authorized; that the sale of the Refunding Bonds on a private placement basis to a purchaser or purchasers selected by the State Treasurer, at an aggregate purchase price to be determined by the State Treasurer is hereby authorized; that the State Treasurer is hereby authorized to execute and deliver a Placement Agreement and a final Private Placement Memorandum, to the purchaser(s) of the Refunding Bonds; that such Placement Agreement and final Private Placement Memorandum shall set forth the principal amount of Refunding Bonds to be issued, the date of the Refunding Bonds, the principal amount of the Refunding Bonds maturing each year and the dates and years of such maturities, the Refunding Bonds constituting the term bonds and the mandatory redemption amounts related thereto, if any, and the interest rates on the Refunding Bonds, and the execution of such Placement Agreement shall constitute conclusive evidence of the approval of the State Treasurer and the approval of the Governor and Council thereof; and the State Treasurer and Governor are authorized to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the Refunding Bonds, including any amendment, supplement or update to the final Private Placement Memorandum authorized hereby.

Further Resolved: that in connection with the issuance of the Refunding Bonds the State Treasurer is hereby authorized to execute and deliver a Refunding Trust Agreement with a bank or trust company, as Trustee and Paying Agent, in such form as such officer deems appropriate, and the State Treasurer and Governor are authorized to execute and deliver all other documents and instruments necessary or convenient in connection with the issuance of the Refunding Bonds.

Further Resolved: that the State Treasurer is hereby authorized to obtain municipal bond insurance for either or both of the New Money Bonds and the Refunding Bonds (hereinafter collectively, the "Bonds") if the State Treasurer deems it advantageous to the State, and to execute and deliver any documents and instruments necessary or convenient in connection with the issuance of any such municipal bond insurance policy.

Further Resolved: that the State Treasurer is hereby authorized to issue all or a portion of the Bonds on a federally taxable basis, or on a federally tax-exempt basis, all as determined by the State Treasurer to be most advantageous to the State.

Further Resolved: that if the Bonds or any portion thereof are to be issued on a federally tax-exempt basis, the State Treasurer is authorized to covenant on behalf of the State that the State will pay any rebate due to the United States in connection with the issuance of such Bonds, and that the State will take all lawful action necessary to comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of

such Bonds in order that interest on such Bonds be or continue to be excluded from gross income for federal income tax purposes and it will refrain from taking any action that would cause interest on such Bonds to become included in gross income for federal income tax purposes.

Further Resolved: that the Bonds shall be issued in substantially the following form, with such changes as the State Treasurer and the Governor may deem appropriate, including, without limitation, series designation, redemption provisions, including mandatory sinking fund redemption provisions, if any, and interest rate provisions, all in accordance with the terms determined by the State Treasurer:

The State of New Hampshire (the "State"), for value received, promises to pay to the Registered Owner of this bond or registered assigns the Principal Amount specified above, in lawful money of the United States of America, on the Maturity Date unless this bond is called for earlier redemption, upon presentation and surrender hereof, with interest (calculated on the basis of a 360-day year of twelve 30-day months) at the Interest Rate per annum, payable semiannually on [\_\_\_\_\_] and [\_\_\_\_\_] of each year, commencing \_\_\_\_\_, 20\_\_ (each, an "Interest Payment Date") until the Principal Amount is paid or has been duly provided for. This bond will bear interest from the most recent Interest Payment Date to which interest has been paid or, if no interest has been paid, from the Original Issue Date. The record date for the payment of interest on this bond [shall be the last business day of the month preceding an interest payment date.] [shall be the fifteenth day of the month preceding an interest payment date; provided that if such date is not a business day, the Record Date shall be the next succeeding business day.]

This bond is one of a series of \$\_\_\_\_\_ aggregate principal amount issued by the State pursuant to Chapter 6-A of the New Hampshire Revised Statutes Annotated for [various capital improvements][the refunding of outstanding bonds of the State] and for other public purposes. The bonds are issuable only in fully registered form in the denomination of five thousand dollars (\$5,000) or any integral multiple thereof.

The bonds are general obligations of the State and the full faith and credit of the State is pledged for the payment of principal of and interest on the bonds as the same shall become due and payable.

[The bonds are being issued by means of a book entry system, with bond certificates immobilized at The Depository Trust Company, New York, New York ("DTC") evidencing ownership of the bonds in principal amounts of five thousand (\$5,000) or integral multiples thereof, and with transfers of beneficial ownership effected on the records of DTC and its

participants pursuant to rules and procedures established by DTC. Bond certificates are not available for distribution to the public.] The principal or redemption price, if any, of and interest on this bond are payable by The Bank of New York Mellon Trust Company, N.A., or its successor, as paying agent (the "Paying Agent") for the State, to the Registered Owner of this bond[, as nominee of DTC. Transfer of principal, redemption price, if any, and interest payments to participants of DTC is the responsibility of DTC; transfer of principal, redemption price, if any, and interest payments to beneficial owners by participants of DTC will be the responsibility of such participants and other nominees of beneficial owners. The State is not responsible or liable for maintaining, supervising or reviewing the records maintained by DTC, its participants or persons acting through such participants.]

[In the event that (a) DTC determines not to continue to act as securities depository for the bonds or (b) the State Treasurer determines that continuation of the book entry system of evidence and transfer of ownership would adversely affect the interests of the beneficial owners of the bonds, the State will discontinue the book entry system with DTC. If the State fails to identify another qualified securities depository to replace DTC, the Paying Agent will authenticate and deliver replacement bonds in the form of fully registered certificates.]

This bond is transferable only upon the books of the State which shall be kept for such purpose by the Paying Agent. [This bond may not be transferred or exchanged in a manner which would involve the delivery of bond certificates to the beneficial owners of bonds unless the book entry system has been discontinued by the State in accordance with the preceding paragraph, in which case replacement bonds may be issued in accordance with law and such procedures as the State Treasurer shall deem appropriate.]

[The bonds of this series (except the bonds maturing on or before [\_\_\_\_], 20\_\_, which are not subject to redemption prior to maturity) are redeemable prior to maturity on or after [\_\_\_\_], 20\_\_ at the option of the State, as a whole or in part at any time with maturities to be designated by the State (and by lot within any maturity), at a price equal to the principal amount to be redeemed (without premium), plus accrued interest to the redemption date.] [The bonds of this series are not subject to redemption prior to maturity.]

[The bonds of this issue maturing on [\_\_\_\_], 20\_\_ [and \_\_\_\_\_, 20\_\_] (the "Term Bond[s)"), unless called for earlier redemption as provided above,] shall be retired in part prior to maturity by mandatory serial redemptions in the principal amounts specified below, at a price equal to the principal amount to be redeemed (without premium) plus accrued interest to the redemption date:

The State may purchase all or any portion of the Term Bond[s] from any available funds at a price not exceeding par and accrued interest. The State Treasurer may credit against any mandatory redemption requirement Term Bond[s] of the maturity then subject to redemption which have been purchased and canceled by the State or have been redeemed and not theretofore applied as a credit against any mandatory redemption requirement.]

In the event any bonds are called for redemption, notice will be sent by registered mail not more than sixty (60) days nor less than thirty (30) days prior to the redemption date to the registered owner of such bonds, as nominee of DTC. It will be the responsibility of DTC and its participants to give notice of the redemption to beneficial owners of the bonds to be redeemed. With respect to the redemption of any such bond, failure to mail notice to the registered owner of any other bond, any defect in the notice to the registered owner of any other bond, or failure by DTC and its participants to provide notice of redemption to the beneficial owners of such bond will not affect the redemption of such bond. The redemption notice may state that it is conditioned upon the deposit of moneys in an amount equal to the amount necessary to effect the redemption, in a separate account established by the State for such purpose no later than the redemption date, or that the State may rescind such notice at any time prior to the scheduled redemption date if the State Treasurer delivers a notice thereof to the registered owner of the Bonds. The redemption notice and optional redemption shall be of no effect if such moneys are not so deposited or if the notice is rescinded, and the failure of the State to make funds available in whole or in part on or before the redemption date shall not constitute a default. Notice of redemption having been given as aforesaid, the bonds to be redeemed, or the portions called for redemption, will become due and payable on the redemption date at the applicable redemption price and, moneys for the redemption having been deposited with the Paying Agent, from and after the date fixed for redemption interest on such bonds, or such portions, will no longer accrue.

With respect to any bond subject to redemption, portions of the principal amount of such bond in the amount of five thousand dollars (\$5,000) or any multiple thereof may be redeemed. In the event of such a partial redemption, the identity of the beneficial owners whose beneficial interests in any such bond to be redeemed and the amount of any such redemption shall be determined by DTC and its participants by lot in such manner as DTC and its participants shall deem appropriate. If less than all of the principal amount of any bond is to be redeemed, upon surrender of such bond to the Paying Agent there will be issued to the registered owner, without charge, a new bond for the unredeemed principal sum.]

[The State hereby covenants that it will take all lawful action necessary to comply with all requirements of the Internal Revenue Code of 1986, as amended, that must be satisfied subsequent to the issuance of the bonds in order that interest on the bonds be and continue to be excluded from gross income for federal income tax purposes and it will refrain from taking any

action that would cause interest on the bonds to become included in gross income for federal income tax purposes.]

In connection with the offering of the bonds the State has executed a Continuing Disclosure Certificate (as it may be amended from time to time, the "Certificate"). The State hereby covenants to comply with the provisions of the Certificate, and reference is made to the Certificate for a description of the nature and extent of the obligations of the State and the rights of the owners of the bonds under the Certificate. The Certificate is described in the Official Statement relating to the bonds. A copy of the Certificate is available from the State Treasurer upon request.

This bond will not be valid unless the Certificate of Paying Agent has been signed by the Paying Agent.

[\$ \_\_\_\_\_]  
General Obligation [Capital Improvement][Refunding] Bonds, 20\_\_ Series \_\_  
Dated Date of Delivery

We have acted as Bond Counsel to the State of New Hampshire (the “State”) in connection with the issuance by the State of the above-referenced bonds (the “Bonds”). In such capacity, we have examined the law and such certified proceedings and other papers as we have deemed necessary to render this opinion.

As to questions of fact material to our opinion we have relied upon representations and covenants of the State contained in the certified proceedings and other certifications of public officials furnished to us, without undertaking to verify the same by independent investigation.

Based on this examination, we are of the opinion, under existing law, as follows:

1. The Bonds are valid and binding general obligations of the State, and the full faith and credit of the State are pledged for the punctual payment of the principal of and interest on the Bonds.

2. The interest on the Bonds is exempt from the New Hampshire personal income tax on interest and dividends. We express no opinion as to other New Hampshire tax consequences arising with respect to the Bonds or any tax consequences arising with respect to the Bonds under the laws of any state other than New Hampshire.

3. [Interest on the Bonds is excluded from the gross income of the owners of the Bonds for federal income tax purposes. In addition, interest on the Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. We call your attention to the fact that failure by the State to comply subsequent to the issuance of the Bonds with certain requirements of the Internal Revenue Code of 1986 (the “Code”) may cause interest on the Bonds to become includable in the gross income of the owners of the Bonds for federal income tax purposes retroactive to the date of issuance of the Bonds. The State has covenanted to take all lawful action necessary under the Code to ensure that interest on the Bonds will

remain excluded from the gross income of the owners of the Bonds for federal income tax purposes and to refrain from taking any action which would cause interest on the Bonds to become included in such gross income.] [Interest on the Bonds is included in the gross income of the owners of the Bonds for federal income tax purposes.] We express no opinion regarding any other federal tax consequences arising with respect to the Bonds.

This opinion is expressed as of the date hereof, and we neither assume nor undertake any obligation to update, revise, supplement or restate this opinion to reflect any action taken or omitted, or any facts or circumstances or changes in law or in the interpretation thereof, that may hereafter arise or occur, or for any other reason.

The rights of the holders of the Bonds and the enforceability of the Bonds may be subject to insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable, and their enforcement may also be subject to the exercise of judicial discretion in appropriate cases.

## EXPLANATION

The Commission applied for and received an upward modification to its case closures resulting in an additional \$26,500 in federal revenue. A significant portion of the Commission's federal revenue is derived by the expected number of case closures in the federal fiscal year multiplied by the EEOC approved reimbursement rate, currently \$800 per intake for Federal Fiscal Year (FFY) 2020. The Commission was credited with an additional 30 case closures. Further, the Commission received \$1,000 for the Commission's Annual EEOC Engagement stipend and \$1,500 allotted for conference travel.

The funds will be budgeted as follows:

Class 020 – Current Expenses. Funds will be used to purchase additional office supplies as the office staff has increased.

Class 022 – Rents-Leases Other Than State. Funds will be used to support a 2.8% increase in the rent for the Commission's office space located at 2 Industrial Drive, Concord due to the expiration of the Commission's current lease on October 31, 2020.

Class 030- Equipment. Funds will be used to add any additional furniture needed to support office staff.

Class 037 – Technology – Hardware. These funds will be used to purchase several additional printers and to replace an outdated laptop and to purchase two more for use for on location investigations and off-site trainings.

Class 038 – Technology – Software. Each new laptop must have the appropriate state approved Microsoft software package.

Class 039- Telecommunications. Funds will be used to offset the increase in cost from increasing the HRCs bandwidth from 3M to 10M. The increase is needed to meet the need of holding virtual Commission meetings, mediations, and hearings from the office.

Class 041 – Audit Fund Set Aside per state requirements.

Class 066 – Employee Training. Funds will be used to provide for targeted training from BET.

Class 069 – Promotional/Marketing. Additional funds for the printing of fliers, banners, and other promotional materials through Graphic Services.

Class 102 – Contracts for Program Services. Additional funds added to cover increased cost in Janitorial fees due to additional cleaning needs (i.e. added daily cleaning, deep cleaning of floors, carpets, etc.).

Thank you for your consideration of this request.

Very truly yours,

### REQUESTED ACTION

Authorize the Commission for Human Rights to amend a lease agreement with Gerald P. McCarthy Properties (Vendor Code #174409), West Wareham, MA by increasing the price limitation by \$147,600 from \$207,250 to an amount not to exceed \$354,850 and extending the lease expiration date from October 31, 2020 to October 31, 2023 effective upon Governor and Council approval. The original contract was approved by Governor and Executive Council on September 16, 2015, Item #47 and was subsequently amended on August 28, 2019, Item #58. Source of Funds: 84.5% General and 15.5% Federal.

Funds to support this request are available in FY 2021 and are anticipated to be available in the following account in FY 2022, 2023 ad 2024 upon the availability and continued appropriation of funds in the future operating budgets, with the ability to adjust encumbrances between State Fiscal Years through the Budget Office, if needed and justified:

		<b>Total:</b>	<b>\$147,600</b>

## EXPLANATION

The Commission seeks to amend a five (5) year lease agreement with Gerald P. McCarthy Properties by extending the contract for three years and increasing the price limitation. The Commission moved to its current location in November 2015 after a Request for Proposal solicitation. The current footprint, via the first amendment to the lease, provides a total of 3,500 square feet of ground level office space located in Building #1 at 2 Industrial Drive, Concord, NH. The current office space provides sufficient offices, a general reception area and a small conference room that allows for on-site mediation sessions.

An Request for Proposals (RFP) was issued by the Commission; however, the responses to the RFP were for spaces at a higher rate per square foot and would have also necessitated the Commission incurring the cost for the move. Instead, the Commission determined the best way to proceed was to amend the current agreement with Gerald P. McCarthy Properties. The amendment reflects a 2.8% increase in rent for the first year of the amendment, and a 0% increase for the rent in years 2 and 3 and continues the lease under the same terms and conditions as the prior lease. The current location was ADA compliant when the Commission occupied the premises; and no major construction has been performed since occupancy.

The Commission expects this current location will continue to serve the agency well and will provide an effective, professional space that will allow the agency to best meet the needs of the State. The Commission will start another RFP process with the Department of Administrative Services, Bureau of Planning and Management in approximately 18 months to ensure sufficient time for determining the Commission's future lease needs, for issuance of the RFP and for review of the responses to the solicitation.

Thank you for your consideration of this request.

## EXPLANATION

The Commission seeks to amend a five (5) year lease with Gerald P. McCarthy Properties. The Commission moved to its current location in November 2015 after a Request for Proposal solicitation. The current footprint provides 2,890 square feet ground level space located in

Building #1 at 2 Industrial Drive, Concord, NH. Gerald P. McCarthy Properties has an additional 610 square feet of office space that is adjacent to the Commission's current footprint, requiring only the cut-in of a door between the two areas. The 610 square feet of additional space consisting of offices and a small conference room are necessary for three new positions anticipated to be authorized in the FY 2020-FY 2021 budget, a full-time AmeriCorps VISTA anticipated to start with the Commission in October 2019 and on-site mediation sessions.

The current lease expires October 31, 2020 and has no renewal options. The Commission will be starting the competitive Request for Proposal process with the Department of Administrative Services, Bureau of Planning and Management shortly to ensure sufficient time for determining the Commission's future lease needs, for issuance of the Request for Proposal (RFP) and for review of responses to the RFP.

Thank you for your consideration of this request.

Very truly yours,

## EXPLANATION

The New Hampshire Commission for Human Rights (the Commission) is seeking approval to enter into a new five (5) year lease commencing September 16, 2015 with the occupancy/rental term delayed forty five (45) days to provide the landlord time to complete fit-up, resulting in occupancy and rent commencing on November 1, 2015 and ending October 31, 2020. The proposed 2,890 square foot ground level space is located in Building #1 of 2 Industrial Drive, Concord NH and will replace the Commission's current 2,655 square foot leased space located at 2 Chennel Drive, Concord NH.

As required by Administrative Rule Adm. 610.06 "Public Notice," approximately six months prior to expiration of their current lease term the Commission undertook a competitive "Request for Proposal" (RFP) process by publishing "Public Notice" of the RFP in the Concord Monitor on January 23rd, 2015 while concurrently the Department of Administrative Services Bureau of Planning and Management (DAS/BPM) posted the RFP on the State of New Hampshire's website. The RFP solicitation resulting in receipt of two (2) "Letters of Interest", one from McCarthy Properties offering space located at 2 Industrial Drive, Concord NH, and the other from ZJBV Properties LLC, offering the Commission's current space at 2 Chennel Drive, Concord NH. Both offers were viable for further consideration therefore DAS/BPM provided design-build plans and specifications for each defining the scope of work required for each to conform to the posted RFP specifications; these documents were subsequently released to both parties for their use in evaluating "scope of work" and offering lease proposals inclusive of "turn-key" renovations, the due date for proposals was June 1st, 2015.

1. ZJBV Properties, LLC unfortunately failed to submit a written proposal by the specified closing date and therefore was disqualified from the process. ZJBV Properties did however verbally offer five year renewal starting at the (current) rental rate of \$43,015.08 annually (\$16.20 per square foot) with unspecified % annual increases which would have resulted in a five year total of at least \$215,075.40
2. Gerald P McCarthy Properties offered a five (5) year lease of 2,890 usable square feet of ground level space in Building #1 of 2 Industrial Drive, Concord NH. The proposed annual rent was \$39,504.00 (\$13.67 per square foot) for all five years (0% escalation) of the term, with a resulting five year total of \$197,520.00

The McCarthy Properties offer was selected due to it being the lowest cost conforming proposal. Their renovated space will provide security (lacking in the current space), full "ADA conformance" and fit-up per RFP specifications. The lease shall be at a fixed (0% escalation) rate of \$39,504.00 annually (\$13.67 per SF) for each of the five (5) years at a modified "gross" rate which includes the landlord's provision of parking, heat, sewer & water, electricity, real estate taxes, insurance, snow plowing & removal, building and site maintenance. Provision of janitorial services will be an additional tenant expense, anticipated to cost approx. \$3,613.00 (\$1.25 per square foot) annually.

Approval of the enclosed lease will provide the Commission with a new secure, fully architecturally barrier-free and functional offices space, therefore your favorable consideration is requested.

Respectfully submitted,

**EXPLANATION**

Each year, the National Oceanic and Atmospheric Administration grants the NH Fish and Game Department operational funding for the Great Bay National Estuarine Research Reserve to conduct research, K-12 education programs, municipal outreach, and land management. The grant that began in July, 2019 was impacted by the state continuing resolution and the COVID-19 pandemic. These two factors delayed the hiring of temporary staff positions (that are now frozen positions), prevented planned out of state travel to workshops, and severely limited some of the educational offerings that our organization could implement. Five thousand nine hundred and thirteen dollars (\$5,913) of US Fish and Wildlife Service grant funding to remove a cabin from a parcel of NHFG land were delayed due to the need for historic documentation. Because of these factors, NOAA and USFWS have granted one year extensions for the awards, and this request is to bring forty three thousand and three dollars (\$43,003) of unexpended federal funding into the state FY21 budget.

In addition, seventeen thousand dollars (\$17,000) have been secured in additional grant funding from the National Oceanic and Atmospheric Administration (NOAA) to the Great Bay National Estuarine Research Reserve for the current fiscal year. The Federal FY20 funding is specifically for research supplies for a new Graduate Research Fellow that will be examining nutrient loading in Great Bay; to support a formal disaster response exercise in Great Bay; and to fulfill a national requirement to remap and describe the boundaries of the Reserve. This memo requests a total of sixty thousand and three dollars (\$60,003) be added to the FY21 appropriation. Specific changes to class codes are as follows:

- Class 020: Addition of \$23,030 to support the research fellowship, to complete historic and archeological assessments and hazardous waste assessments at a recently purchased property, to support assistance in running a disaster response exercise, and to support small contracts to create better remote education tools for interpreting environmental science.
- Class 030: Addition of \$25,000 to purchase a truck to replace the vehicle the organization currently uses.
- Class 041: Addition of \$60 dollars to reflect higher federal revenue amount
- Class 072: Addition of \$5,913 associated with the removal of a hunting cabin on NHFG property
- Class 103: Addition of \$6,000 to complete facilities related improvements at the Great Bay Discovery Center campus, and to support GIS and writing contracts to complete a boundary amendment requirement.

No additional New Hampshire Fish and Game funds are required, the required match for this award, is already provided in the authorized budget. General Funds will not be requested to support this project.

Respectfully submitted,

**EXPLANATION**

The US Small Business Administration's State Trade Expansion Program (STEP) grant program, which was created under the Small Business Jobs Act legislation, awards financial assistance grants to states for the purpose of furthering their efforts in assisting small businesses to prepare for new international markets, comply with trade regulations, access export financing, and participate in international trade shows and trade missions. These grants allow for the creation of specialized programs to focus on international markets with the highest growth potential and to engage industries with the greatest and most immediate ability to compete successfully.

The State of New Hampshire has successfully been awarded STEP funds in eight previous rounds of this competitive grant, making the current cycle the ninth round of funding. New Hampshire is one of forty-one states to receive a STEP grant award this year.

The following appropriations are being requested for Fiscal Year 2021:

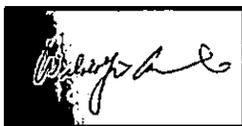

Indirect costs (class 040) per state requirements at 10%

Audit Fund Set Aside (class 041) per state requirements at 0.01%

Contracts for Program Services (class 102) to cover contractual services for matching grant program and training

In the event that Federal Funds are no longer available, General Funds will not be requested to continue the support of this program.

Respectfully Submitted,

## SBA Award Standard Terms

### 1. Standard Term - Acceptance of the Terms of an Award

By drawing or otherwise obtaining funds from the Small Business Administration (SBA), the non-federal entity acknowledges acceptance of the terms and conditions of the award and is obligated to perform in accordance with the requirements of the award. If the non-federal entity cannot accept the terms, the non-federal entity should notify the Grants Management Officer (GMO) within thirty (30) days of receipt of this award notice. Once an award is accepted by a non-federal entity, the contents of the Notice of Award (NoA) are binding on the non-federal entity unless and until modified by a revised NoA signed by the GMO.

**Certification Statement:** By drawing down funds, the non-federal entity certifies that proper financial management controls and accounting systems, to include personnel policies and procedures, have been established to adequately administer federal awards and funds drawn down. Non-federal entities of Small Business Administration (SBA) grants or cooperative agreement awards must comply with all terms and conditions of their awards, including: (a) terms and conditions included in the SBA Grants Policy effective at the time of a new, non-competing continuation, or renewal award, including the requirements of OMB grants administration regulations; (b) requirements of the authorizing statutes and implementing regulations for the program under which the award is funded; (c) applicable requirements or limitations in appropriations acts; and (d) any requirements specific to the particular award specified in program policy and guidance, the Notice of Funding Opportunity (NOFO).

### 2. Standard Term - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for SBA Awards

The NoA issued is subject to the administrative requirements, cost principles, and audit requirements that govern federal monies associated with this award, as applicable, in the Uniform Guidance 2 CFR Part 200.

([https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2tab\\_02.tpl](https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2tab_02.tpl) ).

### 3. Standard Term - Award Expectations

The eligibility and program requirements originally outlined in NOFO must continue to be adhered to as the funded project is implemented. Non-federal entities must comply with the performance goals, milestones, outcomes, and performance data collection and related policy

and guidance. Additional terms and/or conditions may be applied to this award if outstanding financial or programmatic compliance issues are identified by SBA.

**4. Standard Term - Flow down of requirements to sub- recipients**

The non-federal entity, as the awardee organization, is legally and financially responsible for all aspects of this award including funds provided to sub-recipients, in accordance with 2 CFR §§ 200.330 -200.332 Sub-recipient monitoring and management.

**5. Standard Term - Future Funding**

If indicated in the NoA, recommended future support reflects TOTAL costs (direct plus indirect). Funding is subject to the availability of federal funds, and that matching funds, (if applicable), are verifiable, and progress of the award is documented and acceptable.

**6. Standard Term - Non-Supplant**

Federal award funds must supplement, not replace (supplant) nonfederal funds. Applicants or award non-federal entities may be required to demonstrate and document that a reduction in non-federal resources occurred for reasons other than the receipt of expected receipt of federal funds.

**7. Standard Term - Unallowable Costs**

Unless authorized under the Special Terms and Conditions, all costs incurred prior to the award issue date and costs not consistent with the funding opportunity and/or 2 CFR Part 200 are not allowable under this award.

**8. Standard Term - Prior Approval**

SBA anticipates that the non-federal entity may need to modify the non-federal entity's award budget or other aspects of its approved application during performance to accomplish the award's programmatic objectives. In general, non-federal entities are allowed a certain degree of latitude to re-budget within and between budget categories to meet unanticipated needs and to make other types of post-award changes, provided that the changes still meet the statutory program requirements and the regulatory requirements under 2 CFR Part 200, as applicable.

Items that require prior approval (i.e. formal written approval) from the GMO, as indicated in either 2 CFR Part 200 or the SBA Grants Policy Statement, must be submitted in writing to the GMO within 45 days of grant expiration. Based on the nature, extent, and timing of the request, the SBA GMO may approve, deny, or request additional material to further document and evaluate your request. Only responses provided by the GMO are considered valid. If SBA approves the request, an amended Notice of Award (NoA) will be issued. Verbal authorization is not approval and is not binding on SBA. Non-federal entities that proceed on the basis of actions by unauthorized officials do so at their own risk, and SBA is not bound by such responses.

Prior approval is required for, but is not limited to: Changes in Key Personnel and Level of Effort, Budget Revisions, Changes in Scope, Carryover Requests (that fall outside the term for the Expanded Authority for Carryover), and No Cost Extensions.

SBA may confer a one-time extension of the expiration date of this Award for up to 12 additional months if You can demonstrate more time is necessary for the adequate completion of specific project objectives. A request for an extension must be in writing (with supporting justification) and must be received by the Grants Officer Technical Representative (GOTR) at least 45 calendar days prior to the scheduled expiration of this Award. SBA will not approve any extension request that:

- i. Is solely for the purpose of expending remaining funds;
- ii. Is for a project that previously received an extension;
- iii. Is more than 12 months in length;
- iv. Requires the commitment of additional Federal funds; or
- v. Involves any change in the objectives or scope of the project.

#### **9. Standard Term - Administrative and National Policy Requirements**

Public policy requirements are requirements with a broader national purpose than that of the Federal sponsoring program or award that an applicant/non-federal entity must adhere to as a prerequisite to and/or condition of an award. Public policy requirements are established by statute, regulation, DOJ, and OMB memorandums, or Executive order. In some cases, they relate to general activities, such as preservation of the environment, while, in other cases they are integral to the purposes of the award-supported activities. An application funded with the release of federal funds through a grant award does not constitute or imply compliance with federal statute and regulations. Funded organizations are responsible for ensuring that their activities comply with all applicable federal regulation requirements.

#### **10. Standard Term - Executive Pay**

The Consolidated Appropriations Act, 2020 (Pub. L.116-94) signed into law on December 20, 2019, restricts the amount of direct salary to Executive Level II of the Federal Executive Pay scale. The Executive Level II salary per E.O. 13756, was increased to \$197,300 effective December 20, 2019.

For awards issued in those years that were restricted to the Executive Level II amount of \$185,100, including competing awards already issued in FY2017, if adequate funds are available in active awards, and if the salary cap increase is consistent with the institutional base salary, Non-federal entities may re-budget to accommodate the current Executive Level II salary level. However, no additional funds will be provided to these grant awards.

**15. Standard Term - Acknowledgement of SBA Support/Use of SBA's Logo/Publication Requirements.**

It is important that Your clients and the general public are aware of the [grant program name] Program and SBA's role in this project, as well as the taxpayer funded support the Agency is providing under this Award. Therefore, You must include the following acknowledgment of support statement on all materials produced in whole or in part with Project Funds:

"Funded [in part] through a Cooperative Agreement with the U.S. Small Business Administration."

For purposes of this requirement, the term "materials" includes, but is not limited to, press releases, brochures, pamphlets, handouts, reports, advertisements, books, curricula, websites, video or audio productions, and similar items regardless of the medium employed. The term "materials" does not include stationery or business cards and SBA's logo may not be used on such items.

Where You use Project Funds to produce materials featuring editorial content, You must use the following alternate acknowledgment of support statement (either independently or in conjunction with the SBA logo):

"Funded in part through a Cooperative Agreement with the U.S. Small Business Administration. All opinions, conclusions, and/or recommendations expressed herein are those of the author(s) and do not necessarily reflect the views of the SBA."

In addition, You must display signage featuring the SBA logo at all facilities that are open to the public and which are being used for project activities. Such signage must prominently feature the acknowledgment of support statement identified above.

Where used, the acknowledgment of support statement must be presented in a legible typeface, font size, and (where applicable) color contrast and must appear verbatim and may not be altered or replaced with substitute language. However, on materials with severe space constraints such as signs and banners, You may use "SBA" in the acknowledgment of support statement instead of "U.S. Small Business Administration."

You may elect to use SBA's logo on materials produced with Project Funds. You may contact the GMO in order to obtain a high resolution copy of SBA's logo and a copy of SBA's Graphic and Use Guide. Where used, the SBA logo may be positioned in close proximity to Your organization's logo or may be placed in a prominent location elsewhere in the material. However, SBA's logo may not be placed in close proximity to any third party's logo, or used in such a way as may imply that a relationship exists between SBA and any third party (Note: Your organization's parent entity is not

considered a third party). Additionally, in each instance where You use the SBA logo, You must also include the acknowledgement of support statement in reasonably close proximity to the logo.

Neither the SBA logo nor the acknowledgment of support statement may be used in connection with activities outside the scope of this Award. In particular, UNDER NO CIRCUMSTANCES may the SBA logo or acknowledgment of support statement appear on items used in conjunction with fundraising, lobbying, or the express or implied endorsement of any goods, service, entity, or individual. Additionally, You may not use the SBA logo on any social media sites or services without obtaining prior approval from SBA. For further guidance regarding the prior approval process, see Part III(A)(13) above.

#### **31. Standard Term – Whistleblower Protection**

If you are a Federal employee, or employee of a contractor, subcontractor, or grantee submitting information to the SBA OIG regarding fraud waste or abuse in the SBA's programs or operations, you are probably a whistleblower. Please be aware, however that specific criteria apply to whistleblower protections afforded by law. For example, disclosures by current and former federal employees, applicants for federal employment, and employees of a federal contractor, subcontractor, or grantee have special meaning and protections.

Federal law prohibits governmental personnel from retaliating against an employee who acts as a whistleblower by reporting suspected waste, fraud or abuse to the OIG. Under the Federal prohibited personnel practices, 5 U.S.C. §2302(b)(8), employees may not “take or fail to take, or threaten to take or fail to take, a personnel action with respect to any employee or applicant for employment” because the person has disclosed information to an OIG which he or she reasonably believes is evidence of (1) a violation of any law, rule, or regulation, or (2) gross mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety, so long as the disclosure is not specifically prohibited by law or Executive Order.

Reporting Fraud

The OIG encourages all SBA employees and lenders to be on the lookout for fraud. If you suspect fraud, please report it to the OIG immediately by contacting the OIG Hotline at 1-800-767-0385 or [OIGHotline@sba.gov](mailto:OIGHotline@sba.gov)(link sends e-mail).

INTRODUCTION

Nearly a decade after receiving its first State Trade Expansion Program (STEP) grant, New Hampshire demonstrates the value STEP has had on its economy. As it enters Year 9, the State comes off its third record export year, valued at over \$5.8 billion – an increase of 10 percent from 2018. This success is a testament to a state program creatively leveraging public and private resources to encourage and support businesses’ expansion into global markets

In Year 9, the New Hampshire Department of Business and Economic Affairs, Office of International Commerce (OIC) will continue this success by maintaining the hallmark of its approach: working with companies and manufacturers in various sectors by providing counseling, market intelligence, access to markets, sales missions, and trade show support and participation. By providing these opportunities, the grant will continue to afford the means and resources necessary for companies to grow in international markets, while promoting economic development and job creation, particularly post-COVID-19. At the close of New Hampshire’s FY17 STEP grant (sixth year), the state recorded a 25.5 return on investment (ROI) of its

\$267,000.00 award, 19.9 higher than estimated. With 45 ESBCs participating, over \$6,800,000.00 in total sales were reached. OIC anticipates increased interest in this program, specifically in revamping digital strategies, export training and expansion opportunities, and navigating new trade agreements while slowly returning to sector-specific trade shows. Existing partnerships with the Export Assistance Center Office-New Hampshire (USEAC-NH); local Small Business Administration (SBA) liaisons; the Small Business Development Centers (SBDC); the Granite State District Export Council (GSDEC), and the New Hampshire Aerospace and Defense Export Consortium (NHADEC) will coordinate the activities.

**CRITERIA #1 - ORGANIZATIONAL COMPETENCY**

---

Throughout the past eight years of STEP, OIC successfully supported businesses by providing direct financial assistance, technical assistance, and export-related education programs to hundreds of companies. In the ninth year, OIC will continue its support of new-to-export companies with their export goals, seasoned firms with their expansion opportunities into new markets and promotion of the state’s growing aerospace, defense, and life sciences sectors. The following activities support OIC’s mission by providing timely programming to help companies connect with global markets, retain workers and create new jobs.

These activities are:

Activity	Description
Financial Assistance Awards	A matching grant program to assist eligible businesses in trade promotion activities, such as development of digital strategies, sales missions, trade show/mission participation, etc.
Export Training and Expansion Opportunities	A unique combination of services to take businesses from passive exporters to active exporters. OIC and partners will develop beginner online e-courses, comprehensive in-person trainings and expansion offerings via US Commercial Service.

**1. Program Management & Oversight**–The Department of Business and Economic Affairs

(BEA) manages grants with high internal involvement. The STEP project director reports to

the OIC program manager and the director of the Division of Economic Development, who work with the agency's chief accountant and the business office administrator. There is an agency-wide emphasis on timely and complete reporting, approval and submittal of invoices, integration with the state payment structure and auditing functions overseen by the business office. For Year 9, the agency has improved expense reconciliation reports between the GSDEC and BEA's business office, based on recommendations presented by SBA-contracted financial reviewers. The operating procedures are as follows:

- ESBC applications/requests reviewed by appropriate panels through website (nhexportassistance.com).
- Receipts, reimbursement requests, vendor payments (i.e digital services companies, tradeshow, USCS, etc.) reviewed and reconciled by NH STEP project director.
- Payment approvals reviewed and issued by OIC program manager; payment requests issued by OIC program manager to contracted GSDEC accountant.
- Payment confirmations sent to NH STEP project director and staff by GSDEC accountant.
- Monthly reconciliation statements shared with OIC and BEA business office of STEP bank account at GSDEC.
- Payments to GSDEC in accordance to its contract are made with approval by NH STEP project director, OIC program manager and business administrator/chief accountant of BEA business office.
- Daily management of STEP is controlled by OIC, and payment requests are only made by GSDEC accountant, following permission granted by OIC.
- OIC requires GSDEC to carry liability insurance.

2. **Key Personnel** - OIC is experienced in domestic and international grant and client management. Its three team members possess the knowledge, skills and acumen to implement the STEP program effectively and efficiently.

Name(s) of Key Personnel/Title	Experience and involvement in STEP Project	Percentage of Time Devoted to STEP (24 months)
Rachel Adams, STEP Project Director	10 years of client/account management, both domestically and internationally, in both the private sector and state government; responsible for grant administration.	38.00%
Tina Kasim, OIC Program Manager	Nearly 20 years of international economic development and exporting experience; provides grant oversight assistance	24.12924%
Adam Boltk, International Trade Officer	10 years of senior level clients, policy makers across US government, private sector and international agencies; provides support in implementation.	15.00%

For the previous eight STEP grants, OIC has contracted solely with the Granite State District Export Council (GSDEC) to financially administer the grant. The State considers the GSDEC agreement to be a non-competitive (sole-source) contract due to the unique support the organization provides. GSDEC enables OIC to make timely payments on its assistance awards and vendors without going through the state's lengthy disbursement process, which allows OIC to have a better utilization rate of the grant within the performance period.

The GSDEC does not act independently of OIC; its role complements the STEP program and enables OIC to meet efficiently the needs of its clients. In addition to its fiduciary responsibilities, the GSDEC, is made up of members, which include experienced business people and exporters. The contract between the OIC and GSDEC, which includes scope of work and budget (see attachment 14), is enclosed and OIC requests approval to continue the GSDEC as a non-competitive contractor in STEP Year 9. Attachment 14 demonstrates OIC has conducted unsuccessfully searches for organizations that can deliver the same function of fiduciary agent and strategic partnership specific to the support of export growth in the State. The only organization demonstrating the capacity and export knowledge is the GSDEC, whose members are appointed by the US Secretary of Commerce.

**3. Exporting Experience** - Over the past three years, OIC has seen increasing contact with businesses exploring global markets for the first time. In New Hampshire's FY17 STEP grant, OIC saw 28 new-to-export companies selling over \$190,000 in sales. In New Hampshire's FY18 STEP grant, OIC already has seen 20 new-to-export companies participating with over \$6,000,000 in sales. OIC is aware that there will likely be an impact of export sales from COVID-19, however, as of April 2020, New Hampshire's trade statistics are still in the positive range. The team is cautiously optimistic and ready to act depending on the needs of the businesses.

**CRITERIA#2 - PROJECT DESIGN: PERFORMANCE MEASURES, OUTCOMES & COLLABORATION TO DIRECTLY BENEFIT ESBCS**

**Part I – Performance Measures and Outcomes:** New Hampshire’s STEP program builds on the success and experience gained over eight years. STEP offers OIC flexibility to customize strategies for qualified businesses and programs. These include direct assistance in purchasing customized market intelligence and research (i.e. International Partner Search Plus “Virtual Gold Key”, formal Gold Key, Initial Market Checks and International Company Profiles), trainings in export related topics and trade shows and direct support to complement plans in international business development and market potential. The following opportunities support business growth and offer a results-oriented use of STEP funds, with positive ROI:

<i>MILESTONE GOAL DESCRIPTION</i>	<i>ACT TYPE (1-8)</i>	<i>ACTIVITY DESCRIPTION SUPPORTING MILESTONE GOAL</i>	<i># NTE FIRMS</i>	<i>NTE EXPORT SALES</i>	<i># ME FIRMS</i>	<i>ME EXPORT SALES</i>	<i>FEDERAL AWARD EXPENSE</i>	<i>FED AWARD ROI</i>
Goal 1: Support 30 ESBCS through financial assistance awards to participate in export promotion activities	9	FAA will support 9 NTEs and 18 MEs in trade promotion activities such as digital strategy development, translation, marketing material development, etc.	10	\$160,000	20	\$2,800,000	\$215,427.00 (includes GSDEC admin fee)	13.7
Goal 3: Design and implement Export Training and Expansion Opportunities for 30 ESBCs	6	Support 13 NTE and 13 ME ESBCs to participate in export training sessions to enhance and expand their skills on international trade and access U.S. Commercial Service subscription services.	15	\$37,500	15	\$295,000	\$10,000.00	33.3

		<u>TOTAL</u>	25	\$197,500	35	\$3,095,000	\$225,427.00	14.6
--	--	--------------	----	-----------	----	-------------	--------------	------

**Activity 1: Financial Assistance Award Program** – This proposal encourages businesses to apply for STEP grants to offset the costs associated with digital strategy development for global markets, virtual trade shows/trade missions, production of marketing material, and USCS services, enabling companies to continue to drive export activities in the current and post-COVID-19 environments. This activity allocates over \$215,427, with a maximum request of \$6,000 per company, across various sectors. Companies seeking funding must submit a proposal outlining the project/activity and detail how the support will result in higher sales in new or expanding global markets. A review committee that includes, but is not limited to, representatives of OIC, USCS and GSDEC will review all proposals and score accordingly. Since the first STEP award, OIC has refined its processes and best practices for the matching financial assistance program by moving much of this program to a web-based format for easier client access and delivery of on-time reports, receipts and success stories. See [www.nhexportassistance.com](http://www.nhexportassistance.com) and attached images of the website following this proposal.

**Activity 2: Export Training and Expansion Opportunities**

Quality training, education and market intelligence rounds out OIC’s goals for STEP Year 9, thereby creating, supporting and growing a robust pathway for international business development. OIC will support the development of new online e-courses administered through the NH SBDC and partner with the agency for outreach, promotion and recruitment for these courses to target new clients. The e-courses will provide an overview of in-person trainings and participation in the fifth annual Export Boot Camp series. OIC will then host four days of in-

person seminars focusing on the pillars of international business: export controls, logistics, finance and marketing. Funding will secure industry experts to conduct the trainings. OIC and the local USEAC Service will use remaining funds to cover costs of U.S. Commercial Service products, to assist businesses in accessing market intelligence, with little risk. The \$10,000 is available to at least 26 qualified New Hampshire businesses (\$1,000 maximum per ESBCs) in manufacturing and the services sectors.

**Part II – Direct Benefit to ESBCs** – The goal of New Hampshire’s STEP programs is to deliver the best service and opportunities to the ESBCs, ensuring the highest percentage of STEP funding benefits them directly. Year 9 will continue this mission by exceeding the 85 percent minimum required to benefit businesses directly.

- **\$ AMOUNT OF FEDERAL AWARD DIRECTLY BENEFITTING ESBCs: \$220,673.23**
- **PERCENT OF FEDERAL AWARD DIRECTLY BENEFITTING ESBCs: 97 percent**

**Part III- Collaboration – Developing new small business exporters:** To encourage new exporters, OIC promotes education tools available to ESBCs, including the Export Boot Camp, redesigned e-courses from NH SBDC, and its USCS online video guides. While all programs promote the basics of exporting, each tackles slightly different aspects of exporting 101 and act as a feeder to OIC’s program. OIC will continue to work with its partners at SBA’s New Hampshire district office and NH SBDC to identify ESBCs with export-ready products, but have no export development plans. Working with its partners, OIC has identified new ESBCs, enabling it to build a pipeline for NTEs interested in identifying export opportunities, as well as those that passively manage their exports and have only exported to one specific market with no expansion.

**Expanding markets:** The State’s STEP Award ROI can be credited to the keen acumen of New Hampshire’s market-expansion (ME) companies. As seen in New Hampshire’s FY17 STEP

Grant, 17 market expansion firms participated and sold over \$6,620,000 in goods. New Hampshire's FY18 STEP Grant shows 28 market expansion firms with over \$3,411,000 in sales. OIC, with its key partner, USEAC-NH, will support seasoned exporters in high growth sectors at specific trade shows, and with financial assistance awards and customized USCS services.

**Increasing ESBC sales:** Through counseling that occurs in New Hampshire's export eco-system and a "no wrong door" approach, OIC and its partners leverage their resources to prepare STEP clients for success in global markets, a relationship that continues as companies expand in new markets.

### CRITERIA#3 - FINANCIAL ASSISTANCE PLAN

<b>Applicant Process</b>	Following each individual counseling session, recommendations are put forward to the ESBC regarding best activity(ies) under NH's program that can be utilized. Applicants are directed to partner (GSDEC) website to complete applications for specific STEP activities
<b>Criteria and Selection Process</b>	Criteria focuses on company readiness (dependent on NTE or ME status); meets SBA size requirements and company standing (i.e debarment, etc); ensures compliance with Buy American and Hire American laws, as well as how successful ESBC's request for support/plan is in terms of company objective and ROI.
<b>Organization and Title of Selection Panel or Committee Members</b>	<b>Financial Assistance Awards review panel:</b> Gabriele Zeira, vice chair, GSDEC; Taylor Little, senior international trade specialist, NH Export Assistance Center; Tina Kasim, program manager, NH OIC <b>Export Training and Expansion Opportunities:</b> Justin Osowski, director, NH Export Assistance Center; Tina Kasim, program manager, OIC; Rachel Adams, Leanne Spees, GSDEC
<b>Maximum Dollar Amt. of Financial Assistance</b>	Up to \$13,000 per instance – as part of graduating ESBCs from STEP funding making way for new STEP clients. OIC typically allows access to financial assistance awards twice (up to \$6,000 each), and access to US Commercial Service product costs once (up to \$1,000)
<b>Percent % of Export Activity Costs and Percent % covered by both NTE and ME ESBCs</b>	<b>Financial assistance awards:</b> 90 percent export activity cost covered by STEP; 10 percent export activity cost covered by ESBCs <b>Export Training and Expansion Opportunities:</b> Full cost covered by STEP; if service costs exceed \$1,000, client covers balance

<b>Method of Financial Assistance Payments</b>	<b>Matching financial assistance awards:</b> Reimbursements are issued (checks) via GSDEC following OIC review of ESBC receipts and reconciliation; payments only issued upon request by OIC. <b>US Commercial Service:</b> Participation agreements generated by USCS sent to OIC- GSDEC accountant for payment.

<b>Internal Controls</b>	<p>Several steps are taken to monitor and ensure that there is proper use and expenditure of funds:</p> <ul style="list-style-type: none"> <li>• ESBC applications/requests reviewed by appropriate panels.</li> <li>• Receipts and reports reviewed/approved by OIC STEP director and program manager; reconciled by OIC and contracted GSDEC accountant.</li> <li>• Payment approvals and requests issued by OIC program manager to contracted GSDEC accountant</li> <li>• Payment confirmations sent to OIC project director by GSDEC accountant.</li> <li>• Monthly reconciliation statements shared with OIC and BEA business office of STEP bank account at GSDEC.</li> </ul> <p>Payments to GSDEC in accordance to contract are made with approval by OIC project director and business administrator/chief accountant of BEA business office.</p>
--------------------------	---

#### **CRITERIA#4 - DATA COLLECTION & MEASUREMENT OF OUTCOMES**

To measure success and quality of each project, OIC, the USCS and the GSDEC vets businesses through applications and panel review, providing the businesses with expertise from their peers.

Data collection instrument is then used as follows:

- i. **STEP client's level of export experience:** Designation of NTE or ME is reviewed by OIC and panels following the review of applications, in the event clients categorize themselves incorrectly.
- ii. **Actual export sales:** Collected upon the completion of the activity.
- iii. **Projected exported sales:** Collected 12-18 months after activity completion.
- iv. **Client certification for reported data:** Placed at the bottom of the DCI, OIC statement is: *"I certify that the information provided in this report, as well as accompanying documents, are true and complete. I agree to abide by the STEP program funding and reporting policies. I further understand that this information will be reviewed and is pending approval. Please type your name in box below."*
- v. **Number of times results are collected:** ESBCs are required to update results quarterly during the award year and bi-annually beyond the conclusion of the grant year
- vi. **Number of jobs created/retained:** Collected as part of the reporting requirements
- vii. **Non-federal instrument to collect and record data (DCI):** Web-based at <https://nhexportassistance.com/stepreport/>; each activity in which an ESBC participates can be reported on individually via the drop down menu.
- viii. **Opt-In/Out:** OIC uses the following language on all ESBC participation/applications: *"The US Small Business Administration (SBA) would like to give eligible small business concerns the opportunity to expand your knowledge and resources of other programs that are offered by the agency. Please check the appropriate box if you would like your company's name and contact information to be shared with other SBA programs. Your choice to participate or not will not change the status of your participation with STEP. SBA's aim is strictly to share information about other opportunities with you."* This will be followed by Yes and No.

Funding is available in accounts, Central Library Services and Federal Library Programs, as follows:

	<u>FY 2021</u>
03-035-035-353010-25510000-026-500251 - Organizational Dues	\$750
03-035-035-353010-25540000-026-500251 - Organizational Dues	<u>\$2,250</u>
<i>Total:</i>	\$3,000

**EXPLANATION**

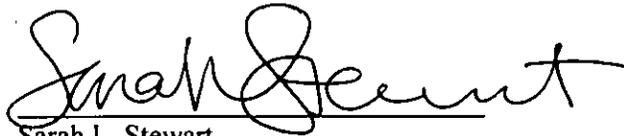

New Hampshire State Library (State Library) is requesting permission to renew its membership with the Council of State Libraries in the Northeast (COSLINE), an independent organization of state libraries. This item is retroactive as COSLINE did not send the invoice until September. The State Library has been a member of COSLINE since its inception and has included the expense in its operating budget.

Listed below are answers to standard questions required for Governor and Executive Council organizational dues and membership approval submissions. A copy of the invoice is also attached.

1. **How long has this organization been in existence and how long has this agency been a member of this organization?** COSLINE has been in existence for 35 years and the State Library is a charter member.
2. **Is there any other organization which provides the same or similar benefits which your agency belongs to?** No, COSLINE is the only regional association for state libraries.
3. **How many other states belong to this organization and is your agency the sole New Hampshire (NH) state agency that is a member?** There are 13 Northeastern and Mid-Atlantic states that are members. Yes, our agency is the sole NH member.
4. **How is the dues structure established?** All members pay \$3,000 annually.

5. **What benefit does the state receive from participating in this membership?** COSLINE is one of three regional organizations for state libraries. By joining together with other state libraries, NH becomes eligible for additional federal funds.
6. **Are training or educational/research materials included in the membership? If so, is the cost included?** Membership in COSLINE gives each member access to its peers around the country through an electronic listserv (at no additional cost). The listserv provides an easily accessible source of information about state-based programs, current issues, and solutions.
7. **Is the membership required to receive any federal grants or required in order to receive or participate in licensing or certification exams?** Membership is not required to receive any federal grants or to participate in licensing or certification exams. However, the membership does allow for opportunities for additional funding from the Institute of Museum and Library Services (IMLS) for regional activities.
8. **Is there any travel included with this membership fee?** COSLINE covers the lodging expenses for attendance at the annual meeting held in a different state each year. It also covers conference expenses for State Library personnel to attend specialized seminars and workshops.
9. **Which state agency employees are directly involved with this organization?** Each State Library is a voting member of the organization; State Librarians may also serve as officers or on the Board of Directors.
10. **Explain in detail any negative impact to the State if the Agency did not belong to this organization.** If the State Library did not belong to this organization it would not have the ability to share in consulting services regarding the IMLS grant and strategic plan.

Respectfully submitted,

The Wuambek Methna Snowmobile Club and their contractor had an earlier than expected window to complete the project, as such this request is retroactive.

The Attorney General's office has approved the attached grant as to form, substance, and execution.

GRANT TOTAL

The maximum amount of funds available to the Grantee pursuant to this agreement shall be \$67,520.00. It is further understood and agreed that the Grantee shall only be reimbursed on the basis of actual costs incurred, and that the State's determination of eligible and approved costs shall be final in all cases.

It is understood and agreed that all payments of all sums by the State hereunder are contingent upon availability and continued appropriation of federal funds, and, if for any reason whatsoever, such funds shall be terminated or reduced or otherwise become unavailable, the State may terminate this grant in whole or part immediately. Any payments allotted but not applied for by the Grantee on the project termination date shall lapse.

## PROJECT PROGRESS REPORT

The Grantee shall submit a project progress report with each request for reimbursement. The report shall outline how each expense item has been applied to the project and provide a plan for future work. Failure to do so may result in the withholding of reimbursement by the State and may also result in impacts to future grant awards. ## SPECIAL PROVISIONS

Any equipment, steel or iron purchased with RTP funds must comply with **Buy America** requirements. The Grantee agrees to retain and use any acquired equipment for intended recreational trail maintenance purposes only in perpetuity.

## REIMBURSEMENT

The State agrees to reimburse the Grantee in accordance with the application rules subject to the following terms and conditions;

1. This agreement may be modified, waived, or discharged only by an instrument signed by the parties hereto.
2. It is understood and agreed by the parties hereto, that in the performance of this grant and the services hereunder, the Grantee and its servants and employees are in all respects independent contractors and shall neither be determined to be employed, nor agents of the State, nor be entitled to any benefits, worker's compensation, or emoluments provided by the State to its employees.
3. The Grantee must pay 100 percent of the cost of an item before submitting a request for reimbursement of eligible costs. The Grantee shall submit invoices for actual costs incurred. Reimbursement from the State will take approximately 60 days. Invoice indicating payment in full for the purchase of equipment must accompany billing.

- a. Billings must be within 30 days of incurring the costs.
  - b. All billings must be accompanied by proof of payment such as credit card receipts or cancelled checks (front & back).
  - c. All billing must be accompanied by a match form showing a 20 percent match has been met for the total cost of the billing until total match for project is met.
4. A request for reimbursement may not be submitted to the State for less than 25 percent of the total grant amount. The final 25 percent of the total grant amount may be withheld until the project is verified complete by the state, the federal grantor agency, or their representatives. Standard reimbursement forms will be provided by the State. All match shall be accounted for before final payment.
  5. Reimbursements will be made only for items that were listed on the Project Application and subsequent approved amendments.

## COMPLIANCE AND CONSTRUCTION INSPECTION REPORT

Project progress inspections may be conducted by State or Federal representatives. State representatives may, at any time, inspect the project and review the Grantee's records and files. Upon notification of project completion, the State will inspect projects and prepare a written report. Recommendations for corrective actions will be made, if appropriate. A copy of the report will be sent to the Grantee. Deficiencies, if any, shall be corrected and reported, in writing to the State within twenty-one (21) days of receipt of the inspection report. Final reimbursement will not be made until deficiencies are corrected.

The Grantee agrees to submit to all requested inspections and audits by State and Federal officials which relate to the services and payments under this grant.

## PENALTIES

1. Termination of Grant: Any failure by the Grantee to abide by or carry out any of the terms or conditions of this grant shall, at the discretion of the State, result in termination of this grant, if, after notice to the Grantee, said default is not remedied within ten (10) days. In the event of termination, no further payments shall be made by the State.
2. Denial of future RTP funds: failure to comply with any and all terms or conditions of this grant may result in denial of future RTP funds for no less than 2 years from current grant year.

## RECORD RETENTION

All program and financial records shall be retained by the Grantee for State and Federal audit purposes and available for public inspection for a period of three (3) years after the final payment on the project.

## SOVEREIGN IMMUNITY AND INDEMNIFICATION

The Grantee covenants to indemnify and hold harmless the State from, and against, any and all losses suffered by the State, and any and all claims, liability or penalties asserted against the State, by or on behalf of any person, on account of, based in, resulting from, arising out of, (or which may be claimed to have arisen out of) the acts or omissions of the Grantee. ---	-------------------------------

**EXPLANATION**

The Department's authority to enter into Grant-In-Aid agreements with non-profit snowmobile clubs is outlined in RSA 215-C:39, VII (b). These agreements are for aiding the clubs in the maintenance and development of snowmobile trails and the purchase and refurbishment of trail maintenance equipment.

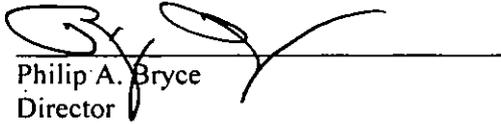

These increases are due to emergency trail re-routes and maintenance that if not completed would result in trail closure, and increases in grooming equipment maintenance costs that must be completed in order for the clubs to be able to conduct grooming this winter. The clubs do not have the means to complete the work without GIA assistance, especially since COVID has been detrimental to their funding events.

These agreements are for aiding the clubs in the maintenance and development of snowmobile trails and the purchase and refurbishment of trail maintenance equipment. Bureau of Trails

GRANT-IN-AID AGREEMENT

This Agreement is made this \_\_\_\_ day of \_\_\_\_\_, 2020, between the STATE OF NEW HAMPSHIRE, acting by and through the Commissioner of the Department of Natural and Cultural Resources; Division of Parks and Recreation; Bureau of Trails, hereinafter referred to as the "State", and the «Org», a non-profit incorporated snowmobile club, hereinafter referred to as the "Club", with a principal place of business in «Location».

WHEREAS, the Club desires to construct/maintain a public snowmobile trail system and/or purchase or recondition trail maintenance equipment, in accordance with grant number «Grant », and;

WHEREAS, by Laws of New Hampshire, RSA 215-C, the Legislature has authorized funds to the Bureau of Trails for Grant-In-Aid to organized snowmobile clubs;

NOW, THEREFORE, IT IS AGREED between the parties hereto:

1. The State agrees to reimburse the Club in accordance with RES 8408, subject to the following terms and conditions; however, should snowmobile revenues fall short of the estimated amounts, grant awards shall be reduced by the amount of the revenue shortfall. If GIA revenues are insufficient to fund Projects and/or Equipment purchases or reconditions at the percentages noted in Res 8403.02, the Bureau shall have the ability to offer partial funding to a club, lower than those proportions noted in Res 8403.02, and the club may determine if they wish to accept the lower grant award.
2. The Club agrees to construct and undertake the approved Project, and/or purchase or recondition Equipment, in accordance with their Approved Application, which is incorporated by reference herein and a copy maintained at the State. Furthermore, the Club agrees to comply with all Federal, State, and local laws, rules, and regulations, which are now, or in the future may become, applicable to the Project and/or purchase or recondition.
3. This Agreement and the obligations of the parties hereunder, shall become effective upon Governor & Council approval, and run through December 31, 2020.
4. The maximum amount of funds available to the Club pursuant to this Agreement shall be «Grant Total». It is further understood and agreed that the Club shall only be reimbursed on the basis of actual costs incurred, and that the State's determinations of eligible and approved costs shall be final in all cases. The club shall submit invoices for actual costs incurred in construction or maintenance of the approved trail; actual costs incurred in the purchase or reconditioning of equipment, along with a receipt from the vendor indicating the equipment has been delivered and paid for. Said receipt shall include the Club's name, the purchase or reconditioning price, the make, model, serial number, and year of manufacture of equipment, and any accessories purchased.
  - a. FIRST PAYMENT; upon receipt of an invoice thirty (30) days after commencement of the Project or purchase, the State agrees to pay the Club percentages as applicable, deemed eligible and approved.

- b. **SUBSEQUENT PAYMENTS;** each successive thirty (30) days after the first payment, the Club shall submit invoices evidencing acceptable costs. If the costs are deemed eligible and approved, the State agrees to pay the club appropriate percentages. Said payments shall continue to be made until authorized reimbursements for the total costs of said Project and/or purchase or recondition have been made, on the condition that invoices are submitted within the Agreement period.
- c. **NOTWITHSTANDING** anything to the contrary contained herein, it is understood and agreed that all payments of all sums by the State hereunder are contingent upon availability and continued appropriation of State funds, and, if for any reason whatsoever, such funds shall be terminated or reduced or otherwise become unavailable, the State may terminate this Agreement in whole or part immediately.
5. Any grant funds allotted, but not applied for by the Club by the termination date of this Agreement, shall lapse and be returned to the Grant-In-Aid Program. Any remaining balances upon Project completion and/or Equipment purchase or reconditioning shall not be used for any other purpose unless prior written permission has been received and approved by the Bureau.
6. The Club shall not amend, revise, or change the Approved Application or Work Plan without the prior written consent of the Bureau.
7. The following events shall result in the termination of the Agreement at the election of the State:
- a. In the event that the owner(s) of the land on which the trail system is developed withdraw permission for the use of said land while the Club's Project grant is in effect, the Agreement will be void and no further payments will be made hereunder by the State, unless the State determines that an alternative route is available to keep the trail network intact and utilize awarded Project funds.
  - b. Failure by the Club to comply with any of the rules governing the reimbursement of funds shall result in the non-reimbursement of any funds owed and shall cause future Grant-In-Aid requests to be denied, providing corrections are not made within 15 working days of notification of any failure of rules compliance.
8. Equipment purchased or reconditioned through the Grant-In-Aid Program shall not be sold or traded by any Club, unless it meets the provisions specified in Administrative Rule Res 8404.04, Terms of Ownership.
9. The State of New Hampshire shall retain an interest in the form of a lien on all equipment purchased or reconditioned through the Grant-In-Aid Program, and the State shall file a financing statement with the Secretary of State pursuant to RSA 382-A:9. Such lien shall be released by the State of New Hampshire when the club has met the requirements of Administrative Rules Res 8404.04 or 8404.05.
10. The Club covenants to indemnify and hold harmless the State from and against any and all losses suffered by the State, and any and all claims, liabilities or penalties asserted against the State, by or on behalf of any person on account of, based in, resulting from, arising out of (or which may be claimed to have arisen out of), the acts or omissions of the Club.

NOTWITHSTANDING THE FOREGOING, nothing herein contained shall be deemed to constitute a waiver of the Sovereign Immunity of the State. This covenant shall survive the termination of the Agreement.

11. The Club agrees to submit to all requested inspections and audits by State officials which relate to the services and payments under this Agreement. Periodic inspections of purchased or reconditioned equipment, trail construction, trail signing, and equipment logs may be made by Bureau officials or designees at any time.
12. This Agreement may be modified, waived, or discharged only by an instrument signed by the parties hereto.
13. It is understood and agreed by the parties hereto that in the performance of the Agreement and the services hereunder, the Club and its servants and employees are in all respects independent contractors and shall neither be determined to be employed nor agents of the State, nor be entitled to any benefits, worker's compensation or emoluments provided by the State to its employees.

### SPECIAL PROVISIONS

1. Equipment purchased or reconditioned through the Grant-In-Aid Program shall be required to display (at locations designated by the Bureau) at least one (1) but not more than two (2), decals indicating that the equipment has been partially funded by this Program. Decals shall be provided by the Bureau.
2. All equipment purchased or reconditioned through the Grant-In-Aid Program shall be kept in good mechanical condition. Clubs are required to maintain a *Maintenance Log*, provided by the Bureau, for each piece of equipment.

The insurance policy shall name the State of New Hampshire Bureau of Trails as a certificate holder.
4. All approved parking facilities shall only be signed with appropriate signs provided by the Bureau of Trails obtained through the Grant-In-Aid Program.

## 9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT B. 10.3 Confidentiality of data shall be governed by N.H. RSA chapter 91-A or other existing law. Disclosure of data requires prior written approval of the State.

11. **CONTRACTOR'S RELATION TO THE STATE.** In the performance of this Agreement the Contractor is in all respects an independent contractor, and is neither an agent nor an employee of the State. Neither the Contractor nor any of its officers, employees, agents or members shall have authority to bind the State or receive any benefits, workers' compensation or other emoluments provided by the State to its employees.

## 12. ASSIGNMENT/DELEGATION/SUBCONTRACTS.

12.1 The Contractor shall not assign, or otherwise transfer any interest in this Agreement without the prior written notice, which shall be provided to the State at least fifteen (15) days prior to the assignment, and a written consent of the State. For purposes of this paragraph, a Change of Control shall constitute assignment. "Change of Control" means (a) merger, consolidation, or a transaction or series of related transactions in which a third party, together with its affiliates, becomes the direct or indirect owner of fifty percent (50%) or more of the voting shares or similar equity interests, or combined voting power of the Contractor, or (b) the sale of all or substantially all of the assets of the Contractor.

12.2 None of the Services shall be subcontracted by the Contractor without prior written notice and consent of the State. The State is entitled to copies of all subcontracts and assignment agreements and shall not be bound by any provisions contained in a subcontract or an assignment agreement to which it is not a party.

13. **INDEMNIFICATION.** Unless otherwise exempted by law, the Contractor shall indemnify and hold harmless the State, its officers and employees, from and against any and all claims, liabilities and costs for any personal injury or property damages, patent or copyright infringement, or other claims asserted against the State, its officers or employees, which arise out of (or which may be claimed to arise out of) the acts or omission of the

Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

STATE OF NEW HAMPSHIRE  
DEPARTMENT of NATURAL and CULTURAL RESOURCES  
NH STATE LIBRARY

20 Park Street Concord, New Hampshire 03301

August 11, 2020

His Excellency, Governor Christopher T. Sununu  
and the Honorable Executive Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

Authorize the Department of Natural and Cultural Resources, New Hampshire State Library, to pay **Retroactively** the Online Computer Library Center (VC #167995), Cincinnati, OH, in the amounts of \$130,322.15 for Fiscal Year 2020 and \$130,419.27 for Fiscal Year 2021 for a total amount of \$260,741.42 for membership dues effective upon Governor and Executive Council approval for the period of July 1, 2019 through June 30, 2021. 100% Federal Funds.

Funding is available in account, Federal Library Programs, as follows:

03-035-035-353010-25540000-500251 - Organizational Dues	<u>FY 2021</u> \$260,741.42
---	--------------------------------

**EXPLANATION**

New Hampshire State Library (State Library) is requesting permission to retroactively renew its membership with the Online Computer Library Center (OCLC), a global library cooperative that provides shared technology services for our New Hampshire libraries through this membership. The FY20 membership is retroactive due to a major change in invoicing procedures while the FY21 membership is retroactive due to annual renewal timing that coincided with the COVID-19 pandemic and the lack of communications between OCLC and the State Library. This membership allows the State Library to obtain catalog records and metadata for collection organization, as well as, the ability to request items from other libraries around the world through the WorldShare ILL subscription.

Listed below are answers to standard questions required for Governor and Executive Council organization dues and membership approval submissions. Copies of the invoices are attached.

- 1. How long has this organization been in existence and how long has this agency been a member of this organization?** OCLC has been in existence for 53 years and the State Library became a member in 1980.
- 2. Is there any other organization which provides the same or similar benefits which your agency belongs to?** No. OCLC is the only global library cooperative.
- 3. How many other states belonging to this organization and is your agency the sole New Hampshire state agency that is a member?** Government agencies in all 50 states are members, along with many public, school, and academic libraries across the US. New Hampshire Law Library (Judicial Branch) is the only other NH state agency that is a member of OCLC.
- 4. How is the dues structure established?** Each library's membership fee is based on average monthly cataloging activity for the previous 2 years.

5. **What benefit does the state receive from participating in this membership?** OCLC provides connection to a global network of libraries for learning, communication and collaboration, as well as access to WorldCat – the most comprehensive global network of data about library collections and services with 2.9 billion holdings and growing.
6. **Are training or educational/research materials included in the membership? If so, is the cost included?** Yes. Training is provided throughout the year to members regarding cataloging and metadata protocols.
7. **Is the membership required to receive any federal grants or required in order to receive or participate in licensing or certification exams?** Membership is not required to receive any federal grants or to participate in licensing or certification exams.
8. **Is there any travel included with this membership fee?** No. There is no travel included with the membership fee.
9. **Which state agency employees are directly involved with this organization? Indicate if they are members, voting members, committee members, and/or officers of the organization.** There are no state agency employees directly involved with OCLC governance.
10. **Explain in detail any negative impact to the state if the agency did not belong to this organization.** If the State Library did not belong to the organization we would not have the ability to obtain standardized cataloging metadata that ensures consistency in searching and recovery of materials requested by the public and state agencies from our collections.

Respectfully submitted,

---

Sarah L. Stewart  
Commissioner

The State of New Hampshire  
**Department of Environmental Services**

**Robert R. Scott, Commissioner**

October 2, 2020

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

Authorize the Department of Environmental Services to approve a loan agreement with Waterville Acres Condominium Associates (VC# 316425-B001), Thornton, NH, in the amount not to exceed \$250,000 to finance water system improvements subject to conditions as outlined in documents substantially in the form presented, under the provisions of RSA 486:14 and N.H. Code of Administrative Rules Env-Dw 1100 et seq. effective upon Governor & Council approval. 100% Drinking Water State Revolving Loan Fund (DWSRF) Repayment Funds.

Funding is available in the following account:

03-44-44-441018-4791-301-500833  
Dept Environmental Services, DWSRF Loan Repayments, Loans

FY 2021  
\$250,000

**EXPLANATION**

The purpose of this loan agreement is to authorize Waterville Acres Condominium Associates to borrow up to \$250,000 from the Drinking Water State Revolving Loan Fund (DWSRF) to finance water system improvements. The improvements include construction of a new pump station; installation of a new storage tank; installation of a new variable speed booster pump and control panel; demolition of the existing pump station; and well replacement or rehabilitation of existing well if funding remains. The original water system infrastructure was installed in the 1970's and several major areas are in need of replacement. The pump station is a confined space entry, the tanks are badly rusted and in poor condition and the well is susceptible to surface water influence during periods of high water in the spring. Currently the system is chlorinating the water due to the surface water influence. This project will address aging infrastructure, safety and drinking water quality issues.

The final loan amount will be based on the total DWSRF funds disbursed, and may be less than \$250,000. The loan interest rate may be adjusted downward if the DWSRF loan rate in effect upon project completion is less than the current rate of 1.296% for a term of 20 years.

The DWSRF is authorized by RSA 486:14 and N.H. Code of Administrative Rules Env-Dw 1100 et seq. There is currently a balance of \$30,059,119 in the DWSRF available for new loans. Attached is a tabulation of the DWSRF showing the effect of this loan on the funds available for loans.

We respectfully request your approval of this item.

9. State's Rights and Remedies Upon Default.

9.1 General State Rights. Upon the occurrence of any Event of Default, all obligations on the part of the State to make disbursements under this Agreement shall, if the State so elects, cease, and, at the option of the State (but subject to the terms and conditions set forth in the Note and any applicable Security Instrument), the Note shall become immediately due and payable, and the State shall thereupon be authorized and empowered to exercise any rights of foreclosure or as otherwise provided for the realization of any security for the Note covered by any of the Security Instruments; but the State may make any disbursements or portions of disbursements, after the occurrence of any such Event of Default, without thereby waiving its right to demand payment of the Borrower's indebtedness evidenced by the Note and secured by the Security Instruments and without becoming liable to make any other or further advances as hereinabove contemplated by this Agreement.

9.2 Possession. In addition to the remedies hereinabove provided by Section 9.1, upon the occurrence of any Event of Default, the State shall be authorized and empowered, at its election, (i) to enter upon the Premises and construct, equip and/or complete the Improvements in accordance with the Plans, with such changes therein as the State may from time to time, in its sole discretion, deem appropriate, and to appoint watchmen to protect the Improvements, all at the risk, cost and expense of the Borrower, (ii) to discontinue, at any time, any work with respect to the Improvements commenced by it or change any course of action undertaken by it in connection therewith, and shall not be bound by any limitations or requirements of time, whether set forth herein or otherwise, and/or (iii) to assume the Construction Contract or related agreement made by the Borrower in any way pertaining to the Improvements and to take over and use all or any part or parts of the labor, materials, supplies and equipment contracted for by the Borrower, whether or not previously incorporated into the Improvements, all in the sole discretion of the State.

9.3 Completion of Improvements. In connection with any construction, equipping and/or completion of the Improvements undertaken by the State pursuant to the provisions of Section 9.2 (but without intending hereby to limit the powers and discretions conferred therein), the State may engage builders, contractors, architects and engineers and others for the purposes of furnishing labor, materials and equipment for the Improvements; pay, settle or compromise all bills or claims which may become liens against the Improvements and the Premises or which have been or shall be incurred in any manner in connection with such construction, equipping and/or completion; and take such action or refrain from acting hereunder as the State may, in its sole discretion, from time to time determine.

9.4 Costs. The Borrower shall be liable to the State for all costs paid or incurred for the construction, completion and/or equipping of the Improvements, whether the same shall be paid or incurred pursuant to the provisions of Sections 9.2 or 9.3 or otherwise, and all payments made or liabilities incurred by the State hereunder of any kind whatsoever shall be paid by the Borrower to the State on demand, with interest at the rate specified in the Note to

the date of payment.

9.5 Cumulative Rights. Upon the occurrence of any Event of Default, the rights, powers, privileges and other remedies available to the State under this Agreement or at law or in equity may be exercised by the State at any time and from time to time, whether or not the indebtedness evidenced and secured by the Note and the Security Instruments shall be due and payable, and whether or not the State shall have instituted any foreclosure proceedings or other action for the enforcement of its rights under the Note or any of the Security Instruments.

9.6 Right of Set-Off. Any deposits or other sums at any time credited by or due from the State to the Borrower and any securities or other property of the Borrower at any time in possession of the State may at all times be held or treated as collateral security for the payment of the loan any and all liabilities of the Borrower to the State. Upon an Event of Default the State may apply or set-off such deposits or other sums or property against such liabilities.

9.7 Power of Attorney. For the purpose of carrying out the provisions and exercising the rights, powers and privileges granted by this Agreement, effective upon an Event of Default, the Borrower hereby irrevocably constitutes and appoints the State its true and lawful attorney-in-fact, with full power of substitution, to execute, acknowledge and deliver any instruments and do and perform any acts that are referred to herein in the name and behalf of the Borrower other than amend this Agreement, the Note or the Security Instruments. The power vested in said attorney-in-fact is, and shall be deemed to be, coupled with an interest and cannot be revoked.

- (i) costs of removal of any and all Hazardous Materials from all or any portion of the Premises or any areas surrounding the same;

\$250,000

Concord, New Hampshire

---

FOR VALUE RECEIVED Waterville Acres Condominium Associates, a New Hampshire condominium association with a principal place of business at 47 Waterville Acres Road, #71, Thornton, New Hampshire 03285 ("Borrower"), promises to pay to State of New Hampshire with an address of c/o Department of Environmental Services, 29 Hazen Drive, P.O. Box 95, Concord, New Hampshire 03302-0095, or its order ("State"), the sum of Two Hundred Fifty Thousand Dollars (\$250,000) or such lesser amount as shall be disbursed to Borrower by State pursuant to a Loan Agreement of near or even date by and between Borrower and State (the "Loan Agreement"), in lawful money of the United States, together with interest thereon at the annual rate of one percent (1%) until the earlier of (i) the date of substantial completion of the Improvements (as defined in the Loan Agreement) as determined by State or (ii) December 1, 2021 (such earlier date being the "Interest Rate Change Date") and commencing on the Interest Rate Change Date at the lower of (A) the annual rate of 1.296% or (B) eighty percent (80%) of the established market rate as determined in Env-Dw 1106.03 and 1106.04 (the interest rate at any given time, the "Applicable Interest Rate"). Capitalized terms used but not defined herein have the meaning given to them in the Loan Agreement.

1. Payments. The interest and principal of this Note shall be paid as follows:

(a) Commencing on the first day of the sixth month after the Interest Rate Change Date, interest only shall be paid in six (6) consecutive monthly installments on the first day of each month.

(b) Commencing with the first day of the twelfth month after the Interest Rate Change Date (the "Conversion Date"), the principal and interest of the Note shall be paid in Two Hundred Forty (240) consecutive equal monthly installments of principal and interest on the first day of each month with the installment amount calculated to amortize the principal balance of the Note over the 240 month period at the Applicable Interest Rate; provided, however, that Borrower shall have the option to elect prior to the first installment payment under paragraph 1(a) to have the interest accruing prior to the Interest Rate Change Date be capitalized and added to the principal amount of the Note rather than paid in the first installment of interest to be paid pursuant to paragraph 1(a) so long as the sum of the principal balance of the Note plus interest accruing prior to the Interest Rate Change Date (such sum being the "Capitalized Amortization Amount") shall not exceed \$250,000, and if the sum of unpaid principal plus interest accruing prior to the Interest Rate Change Date exceeds \$250,000, such excess amount of interest shall be due and payable with the first payment of interest pursuant to paragraph 1(a) above. If Borrower elects to have such interest capitalized,

then the Capitalized Amortization Amount shall be paid in Two Hundred Forty (240) consecutive equal monthly installments of principal on the first day of each month, commencing with the first day of the twelfth month after the Interest Rate Change Date, with interest with the installments calculated to amortize the Capitalized Amortization Amount over such 240 month Period at the Applicable Interest Rate.

2. Prepayment. Borrower shall have the right to prepay any or all sums due under this Note without penalty. Prepayments shall be applied first to accrued interest and then to principal. Partial prepayments of principal shall be applied against the outstanding principal balance; provided, however, that Borrower shall continue to make principal payments in the amounts specified above and on the dates specified above, with interest on the outstanding principal balance recomputed accordingly, until Borrower's obligations under this Note are satisfied in full.

3. Security. This Note and the Loan Agreement are secured by a Security Agreement of near or even date herewith between Borrower and State and other security instruments (collectively with such Security Agreement the "Security Instruments") described in the Loan Agreement.

4. Due Date; Late Payment. All payments of principal and interest shall be due on or before the due date specified above; provided, however, that Borrower shall not be deemed in default hereunder if payment is received by State on or before 4:00 p.m. of the seventh day following the due date. Borrower agrees to pay a late charge of five percent (5%) of the amount of any payment due under this Note that is not paid within seven (7) days of its due date.

5. Applicable Interest. Borrower expressly agrees that the Applicable Interest Rate specified in this Note shall be the applicable interest rate due (i) on amounts outstanding during the term hereof and (ii) with respect to any amount outstanding on and after the maturity date hereof. The interest payable on this Note shall be calculated on the basis of an annual rate of interest applied to twelve thirty-day months over a three hundred sixty (360) day year.

6. Default; Acceleration. Borrower shall be in default of this Note, and all principal and accrued interest thereon shall immediately become due and payable, without notice or demand, upon the occurrence of any of the following events: (a) failure to make prompt payment of any principal or interest installment due hereunder (or within such grace period as may be provided herein), (b) the failure of Borrower to observe or perform any of the other obligations to State under this Note, and the same remains unremedied for a period of thirty (30) days after the date of notice thereof to Borrower by State, (c) the occurrence of an Event of Default under the Loan Agreement, (d) a default or event of default under any Security Instrument or (e) a default in any other obligation of Borrower to State, whether now existing or hereinafter incurred.

If Borrower shall file a petition under any section of the Bankruptcy Code, shall make an assignment for the benefit of creditors, shall have a receiver appointed over its affairs who shall not be discharged within sixty (60) days from the date of appointment, or shall have filed against it a petition under a section of the Bankruptcy Code, or any debtor-creditor act, which petition shall not be dismissed within sixty (60) days of the date of filing of the same, then the balance of principal and interest remaining unpaid on this Note shall become due and payable forthwith without demand or notice.

7. Costs of Collection. If this Note is not paid in full when it becomes due, or if any payment required hereunder shall not be paid when due, or within such grace period as may be expressly provided herein, Borrower agrees to pay all costs and expenses of collection, including attorneys' fees, regardless of whether legal proceedings have been formally commenced.

8. Waiver of Presentment. Borrower hereby waives presentment, demand for payment, notice of dishonor, and all other notices or demands in connection with the delivery, acceptance, performance, default, or endorsement of this Note.

9. Non-Forfeiture of Rights. It is agreed and understood that the waiver by State of any particular default in the terms of this Note shall not constitute waiver of any further default and that acceptance of any payment after it is due shall not be deemed a waiver of the right to require prompt payment when due on all other sums and that acceptance of any payment after default shall not cure said default or operate as a waiver of any rights of State hereunder unless otherwise agreed in writing.

10. Payments, Notices. All payments due under this Note, and any notice required to be made hereunder shall be directed to State or to Borrower, as the case may be, at the addresses above specified, or such other address as State and Borrower may hereafter direct, in writing.

11. Binding on Successors, Etc. The obligation of this Note shall be binding upon the heirs, successors and assigns of Borrower herein and shall inure to the benefit of the successors or assigns of State herein or any holder hereof. Notwithstanding the preceding sentence, Borrower shall not assign this Note without the prior written consent of State.

12. Gender. Whenever the content so requires, reference herein to the neuter gender shall include the masculine and/or feminine gender, and the singular number shall include the plural.

13. References. All references herein to the Loan Agreement and the Security Instruments shall be construed to refer to such instruments as they may be amended from time to time.

14. Governing Law. The Note has been made in the State of New Hampshire, and the provisions hereof shall be governed by and construed in accordance with the laws of the State of New Hampshire (excluding the laws applicable to conflicts or choice of laws).

15. Jurisdiction. Borrower hereby consents to the jurisdiction of all state and local courts of the State of New Hampshire and the United States District Court of the District of New Hampshire in connection with any suit to enforce any rights of State under this Note.

16. Sovereign Immunity. Nothing contained in this Note, the Loan Agreement, any guaranty guarantying this Note or any Security Instrument shall be deemed to constitute a waiver of the sovereign immunity of State, which immunity is hereby reserved to State.

### **COLLATERAL ASSIGNMENT OF CONDOMINIUM ASSESSMENTS**

THIS ASSIGNMENT OF CONDOMINIUM ASSESSMENTS made as of the \_\_\_\_\_ day of \_\_\_\_\_, 2020, by Waterville Acres Condominium Associates, a New Hampshire condominium association (the "Assignor"), having a mailing address of 47 Waterville Acres Road, #71, Thornton, New Hampshire 03285, to the State of New Hampshire, c/o New Hampshire Department of Environmental Services, 29 Hazen Drive, P.O. Box 95, Concord, New Hampshire 03302-0095 (the "Assignee").

#### **RECITALS**

A. Concurrently herewith, the Assignor has executed and delivered to the Assignee a certain Promissory Note in the principal amount of \$250,000 (the "Note"), to evidence a loan to finance the construction of certain water system improvements situated on and in the real property and improvements of the condominium known as Waterville Acres Condominium Associates (the "Condominium") located in Thornton, New Hampshire, more particularly described in Exhibit A annexed hereto (the "Premises"). The Condominium includes 20 residential condominium units (the "Units") and the common area appurtenant to the Units. The Assignor is the condominium association of the Condominium.

B. As additional security for the Note and the obligations of the Assignor thereunder and related documents, the Assignor has executed and delivered to the Assignee this Collateral Assignment of Condominium Assessments.

NOW, THEREFORE, in consideration of Assignee making the loan evidenced by the Note, the Assignor agrees as follows:

1. The Assignor does hereby transfer, assign, deliver and grant a security interest to the Assignee in all of the right, title and interest of the Assignor in and to, all sums now or hereafter assessed by the Assignor against the Units of the Condominium for common area expenses (the "Assessments") and the statutory liens against the Units provided by RSA 356-B:46 securing such assessments, all payments of such assessments due or payable and to become due and payable by virtue of such assessments and proceeds of any of the foregoing (collectively, the "Collateral").

TO HAVE AND TO HOLD the same unto the Assignee, its successors and assigns, for the purpose of securing (1) payment of the Note together with the interest thereon; (2) payment of all other sums, with interest thereon, to become due and payable to the Assignee hereunder, or under instrument securing the Note; and (3) performance and discharge of each and every obligation, covenant and agreement of the Assignor contained herein, or in the Note, the Loan Agreement of near or even date between the Assignor and the Assignee (the "Loan Agreement"), or any Security Instrument (as defined in the Loan Agreement) (said obligations are hereinafter collectively referred to as the "Obligations").

2. Assignor's License to Operate if No Default. So long as no Event of Default (as defined under the Obligations) or other default in the performance of the Obligations shall exist (hereinafter referred to as an "Event of Default"), the Assignor shall have a license to manage and operate the Premises and to collect, receive and apply for its own account all Assessments, and to execute and deliver proper receipts and acquittances therefor, provided, however, that without the written consent of the Assignee the Assignor shall not collect any installment of Assessments in advance of the respective dates assessed.

3. Assignee's Rights in Event of Default.

3.1 Immediately upon the occurrence of any Event of Default, in addition to any other remedies of the Assignee, upon notice from Assignee to each owner of a Unit, all Assessments thereafter payable to Assignor shall be paid to Assignee.

3.2 The Assignor does hereby constitute and appoint the Assignee, irrevocably, with full power of substitution and revocation, effective upon an Event of Default, its true and lawful attorney, for it and in its name, place and stead, to do and perform any or all of the actions that Assignor is entitled to perform in connection with making, collection and enforcement of the Assessments, as fully, to all intents and purposes, as it could do if personally present, hereby ratifying and confirming all that its said attorney or its substitute shall lawfully do or cause to be done by virtue hereof. Any action, or failure or refusal to act, by the Assignee under this Section 3.2 shall be at its election and without any liability on its part.

3.3 The Assignee shall, to the full extent permitted by law, apply the net amount realized from the Collateral received by it from the owners of the Units, in the following order of priority: (i) to payment of all proper costs and charges (including any liability, loss, expense or damage hereinafter referred to in Section 5.1 hereof), (ii) to the payment of all accrued but unpaid interest due under the Note, (iii) to the payment of principal under the Note to be applied to principal installments in the inverse order of maturity, (iv) to the payment of any other amounts owed to Assignee and secured by the Security Instruments, and (v) to the payment of Condominium expenses, (vi) to the Assignor or such persons legally entitled thereto. In its discretion, the Assignee may apply a portion of any Assessment to the Obligations and release the remainder to the Assignor for payment of designated of all Condominium expenses without waiving the Event of Default, its security interest in Assessments or its remedies.

3.4 The rights and powers of the Assignee hereunder shall continue and remain in full force and effect until all amounts secured hereby are paid in full.

4. Covenants of Assignor. The Assignor, for itself and for its successors and assigns, agrees and warrants as follows:

(a) that the Assignor has not sold, assigned, transferred, mortgaged or pledged any of the Collateral or any part thereof, whether now or hereafter to become due, to any person, firm or corporation other than the Assignee;

(b) that no Assessments, or any part thereof, becoming due subsequent to the date hereof have been collected nor has payment of any of the same been anticipated, waived, released, discounted or otherwise discharged or compromised;

(c) that it will not assign, pledge or otherwise encumber the Collateral unless the prior written consent of the Assignee shall have been obtained thereto;

(d) that it will not, without in each case having obtained the prior written consent of the Assignee, amend or modify, directly or indirectly in any respect whatsoever, cancel, compromise, terminate, or any Assessments or the liens therefor;

(e) that it will not waive or give any consent with respect to any default or variation in the payment of an Assessment by a unit owner, but will at all times take proper steps to enforce all of the provisions and conditions thereof;

(f) that it will, upon written request by the Assignee, serve such written notices upon any Unit owner concerning this assignment, and make, execute and deliver all such powers of attorney, instruments of pledge or assignment, and such other instruments or

documents as the Assignee may reasonably request at any time for the purpose of securing its rights hereunder;

(g) that it will furnish to the Assignee, on demand, true copies of all Assessments hereafter executed;

(h) that, it will provide Assignee with a statement of aging Assessments, dated as of the end of each fiscal quarter and certified as correct by the chief financial officer of Assignor, stating with respect to each unit the name of the owner thereof, the Assessment paid by such owner, the date to which such Assessment is paid, and listing all overdue Assessments by date and amount of such owner; and

(i) that it will not enter into any agreement with any management agent or firm with respect to the Premises unless such agent or firm first agrees with Assignee to recognize Assignee's rights under this Collateral Assignment of Condominium Assessments and further agrees to transfer all Assessment payments or proceeds received by such agent or firm directly to Assignee upon Assignee's demand therefor.

#### 5. Indemnification.

5.1 The Assignor hereby agrees to indemnify and hold the Assignee harmless against and from (a) any and all liability, loss, damage and expense, including reasonable attorneys fees, which it may or shall incur or which may be asserted under or in connection with any of the Assessments, or by reason of any of the Obligations, or by reason of any action taken or expenses incurred or paid by the Assignee under this Collateral Assignment of Condominium Assessments or under any of the Obligations (including without limitation any action which the Assignee in its discretion may take to protect its interest in the Premises), and (b) any and all claims and demands whatsoever which may be incurred by or asserted against the Assignor by reason of any alleged obligations or undertakings on its part to perform or discharge any of its claims relating to any of the Assigned Leases.

5.2 Should the Assignee incur any such liability as described in Section 5.1, the amount thereof, together with interest thereon at the rate as set forth in the Note shall be payable by the Assignor to the Assignee immediately upon demand, or at the option of the Assignee, the Assignee may reimburse itself therefor out of any rents, issues or profits of the Mortgaged Premises collected by the Assignee.

5.3 Nothing contained herein shall operate or be construed to obligate the Assignee to perform any of the obligations of the Assignor as a condominium association, or to take any measures, legal or otherwise, to enforce collection of any of the Assessments or other payments, or otherwise to impose any obligation upon the Assignee with respect to any of the Assessments.

5.4 Without actual entry into and taking possession of the Premises by the Assignee, this assignment shall not operate to place upon the Assignee any responsibility for the operation, control, care, management or repair of the Premises, and the execution of this assignment by the Assignor shall constitute conclusive evidence that all responsibility for the operation, control, care, management and repair of the Premises is and shall be that of the Assignor prior to such actual entry and taking of possession.

6. Exercise of Remedies. Failure of the Assignee to avail itself of any of the terms, covenants and conditions of this assignment for any period of time, or at any time or times, shall not be construed or deemed to be a waiver of any of its rights hereunder. The rights and remedies of the Assignee under this assignment are cumulative and are not in lieu of but are in addition to any other rights and remedies which the Assignee shall have under or by virtue of any other of the Obligations. The rights and remedies of the Assignee hereunder may be exercised from time to time and as often as such exercise is deemed expedient.

7. Termination of this Agreement. Upon payment in full of the Obligations, the Assignee shall execute and deliver a termination or discharge of this Assignment.

8. Notice. Any notice, demand, request or other communication given hereunder or in connection herewith (hereinafter "Notices") shall be deemed sufficient if in writing and sent by certified mail, postage prepaid, return receipt requested, addressed to the party to receive such Notice at its address first set forth above or at such other address as such party may hereafter designate by Notice given in like fashion. Notices shall be deemed given when mailed. Notwithstanding the foregoing, routine communications such as ordinary distribution checks, copies of documents, etc. may be sent by ordinary first class mail.

## SECURITY AGREEMENT

THIS AGREEMENT is made this \_\_\_\_\_ day of \_\_\_\_\_, 2020 between Waterville Acres Condominium Associates, a New Hampshire condominium association with a place of business at 47 Waterville Acres Road, #71, Thornton, New Hampshire 03285 (sometimes hereinafter called the "Debtor"), and the State of New Hampshire with an address of c/o Department of Environmental Services, 29 Hazen Drive, P.O. Box 95, Concord, New Hampshire 03302-0095 (hereinafter the "Secured Party") for themselves and their successors and assigns.

### RECITALS

A. The Debtor and the Secured Party have entered into a Loan Agreement of near or even date (the "Loan Agreement"), which Agreement sets forth certain undertakings and obligations of the Debtor to the Secured Party.

B. Pursuant to the Loan Agreement, the Secured Party has agreed to extend credit to the Debtor in an amount not to exceed Two Hundred Fifty Thousand Dollars (\$250,000), in exchange for the Debtor's promissory note (the "Note") to the Secured Party.

C. To secure the obligations it has undertaken under the Loan Agreement and the Note and certain security instruments described in the Loan Agreement and to secure the payment of said sum to the Secured Party and to secure any other obligations of the Debtor to the Secured Party of every kind and description, whether direct or indirect, absolute or contingent, primary or secondary, joint or several, due or to become due, or now existing or hereafter arising or acquired and whether by way of loan, discount, letter of credit, lease or otherwise (collectively the "Obligations"), the Debtor desires to create in the Secured Party a security interest in accordance with the terms of the Uniform Commercial Code, N.H.R.S.A. 382-A.

NOW, THEREFORE the Debtor agrees as follows:

1. Collateral. The Debtor, for valuable consideration received from the Secured Party, hereby grants to the Secured Party to secure all the foregoing Obligations a security interest in the following property (the "Collateral"):

(a) All the Debtor's goods, machinery, equipment, including without limitation, all water storage, collection, distribution and treatment equipment, furnishings and fixtures, motor vehicles, and personal property, including but not limited to such property located on the Debtor's premises at Waterville Acres Road, Thornton, New Hampshire (the Debtor's "Business Premises") or used in connection with the Debtor's business conducted at said Business Premises, and in all inventory including, without limitation, all items held for sale or

lease or furnished or to be furnished under contracts of service, or used or consumed in the Debtor's business (all hereinafter called the "Inventory"), and in contract rights with respect thereto and proceeds thereof, all whether now owned or hereafter acquired.

(b) The Debtor, for valuable consideration received from the Secured Party, hereby also conveys to the Secured Party a security interest in all the Debtor's accounts, accounts receivable, contract rights, notes, personal property leases, mailing lists and customer lists, rents receivable, choses in action, drafts, acceptances, instruments, investment property, letter of credit rights, chattel paper, general intangibles, cash and all other forms of obligations due or to become due to the Debtor, whether now existing or hereafter arising and whether joint, several, or joint and several, and proceeds of any of the foregoing, arising from or relating to the Debtor's business.

The Secured Party, by virtue of this Agreement, in addition to any other security or collateral that it may hold, shall have a continuing security interest in said Collateral and in contract rights with respect thereto and proceeds of both, to secure payment and performance of the liabilities and obligations of the Debtor to the Secured Party hereunder.

2. Records and Audits. The Debtor will keep an accurate record of the Collateral, and all additions thereto, and removals therefrom, and of any of its accounts, accounts receivable, contract rights, leases, general intangibles, rents receivable, notes and choses in action, as they from time to time exist, and the proceeds received or receivable therefrom, and will deliver a copy of such records to the Secured Party at such regular intervals as the Secured Party reasonably may require. When requested by the Secured Party the Debtor shall, at the Debtor's own expense, cause a verification of the Collateral to be made by some independent appraiser approved by the Secured Party and an audit of the accounts receivable, contract rights and proceeds of both, to be made by some independent auditor.

3. Maintenance and Insurance. The Debtor agrees to keep the Collateral in good condition, deterioration resulting from normal use excepted, and also to keep it insured against loss from such hazards and in such amounts as the Secured Party may require and in such companies as the Secured Party may approve, payable in case of loss to the Secured Party as its interest may appear, and the policies evidencing such insurance, or certificates thereof, shall, upon request, be deposited with the Secured Party.

4. No Liens. The Debtor represents and warrants that its title to the Collateral is free and clear of any liens or encumbrances except those listed in Schedule 4 and agrees to keep the Collateral free and clear of any future lien or encumbrance unless it obtains the advance consent of the Secured Party for any such lien or encumbrance.

5. Sale and Use in the Ordinary Course. Until Default the Debtor may sell or lease the Collateral in the ordinary course of business and may also use or consume any raw materials and supplies, the use and consumption of which is necessary in order to carry on the

Debtor's business.

6. Lists of Accounts and Proceeds. Upon request of the Secured Party at any time after Default, the Debtor will deliver to the Secured Party lists or copies of all accounts promptly after they arise and will deliver to the Secured Party, promptly upon receipt, all rents and other proceeds received by the Debtor including proceeds of the accounts referred to above and proceeds of any insurance policies in the exact form in which they are received. The Secured Party in its discretion may apply cash proceeds to the payment of any obligations secured hereby or may release such cash proceeds to the Debtor for use in the operation of the Debtor's business.

7. Default. The Debtor shall be deemed in "Default" of this Agreement:

(a) if the Debtor fails to observe or perform any of the Debtor's agreements expressed herein;

(b) upon default of the Debtor under the terms of any Obligation of the Debtor to the Secured Party secured hereby, or if notice or lapse of time, or both, are therein provided, then upon such notice or lapse of time, or both;

(c) upon the loss, unauthorized sale, unauthorized removal of the Collateral from the locations specified in Section 1, theft, damage or destruction of the Collateral;

(d) if the Secured Party shall deem the Collateral in danger of misuse or loss or removal from this State; or

(e) if the Debtor changes its name or state of organization without at least thirty (30) days prior written notice to the Secured Party.

8. Remedies. Upon a Default the Secured Party shall have all the rights and remedies of a secured party under the Uniform Commercial Code to the same extent as if they were expressly set forth herein in addition to the remedies provided herein or in any other instrument or paper executed by the Debtor, as well as the right to sell all or part of the Collateral, pursuant to New Hampshire law. In such event the Debtor shall pay all the Secured Party's costs of repossession, collection, custody, storage, sale or other dispossession and delivery, (including reasonable attorneys' fees), all of which the Secured Party may deduct from the proceeds. If the Secured Party seeks to take possession of any or all of the Collateral by judicial process, the Debtor hereby irrevocably waives any requirement of bonds, surety or security, whether required by statute, court rule or otherwise, as an incident to such possession and waives any requirement for demand for possession before the commencement of any suit or action to recover with respect thereto.

9. Certain Remedies. The Secured Party may at any time after Default notify the

Debtor's account debtors, or persons otherwise indebted to the Debtor whose obligations are covered by this Agreement, that the Collateral has been assigned to the Secured Party and that payment shall be made directly to the Secured Party. Upon request of the Secured Party at any time after Default, the Debtor will so notify such debtors and will indicate on all billings to such debtors that their accounts must be paid to the Secured Party. The Secured Party shall have full power to collect, compromise, endorse, sell or otherwise deal with the Collateral or proceeds thereof in its own name or in the name of the Debtor. The Debtor shall pay to the Secured Party on demand a collection charge on all accounts collected, that shall include all reasonable attorneys' fees and expenses, and all other reasonable expenses of like or unlike nature that may be expended by the Secured Party to obtain or enforce payment of any account either as against the account debtor, the Debtor or any guarantor or surety of the Debtor or in the prosecution or defense of any action or concerning any matter arising out of or connected with the subject matter of this Agreement, the obligations secured hereby, or the Collateral, or any of Secured Party's rights or interests therein or thereto, including, without limiting the generality of the foregoing any reasonable counsel fees or expenses incurred in any bankruptcy or insolvency proceedings.

10. Power of Attorney. The Debtor does hereby make, constitute and appoint any officer of the Secured Party as the Debtor's true and lawful attorney-in-fact, with power, in the event of a default, to endorse the name of the Debtor or any of the Debtor's officers or agents upon any notes, checks, drafts, money orders, or other instruments of payment (including payments payable under any policy of insurance on the Collateral) or Collateral that may come into possession of the Secured Party in full or part payment of any amounts owing to the Secured Party, to sign and endorse the name of the Debtor or any of the Debtor's officers or agents upon any invoice, freight or express bill, bill of lading, storage or warehouse receipts, drafts against debtors, assignments, verifications and notices, in connection with accounts, and any instrument or document relating thereto or to the Debtor's rights therein; to give written notice to such office and officials of the United States Post Office to effect such change or changes of address so that all mail addressed to the Debtor may be delivered directly to the Secured Party; granting upon the Debtor's said attorney full power to do any and all things necessary to be done in and about the premises fully and effectually as might or could be done, and hereby ratifying all that said attorney shall lawfully do or cause to be done by virtue hereof. This power of attorney shall be irrevocable for the term of this Agreement and all transactions hereunder as long as the Debtor may be indebted to the Secured Party.

11. Cooperation; Secured Party Sales; No Waiver. The Debtor covenants that it will execute any documents requested by the Secured Party to perfect its security interest in the Collateral. When requested by the Secured Party following a Default by the Debtor, the Debtor shall cooperate in the Secured Party's repossession of the Collateral and will assemble the Collateral and make it available to the Secured Party at such place as the Secured Party shall designate which shall be reasonably convenient to both parties. The Secured Party may dispose of the Collateral by public or private sale, upon the place where it is then located, and the Secured Party itself may acquire the Collateral at any such sale. The Debtor agrees that notice

of ten (10) days prior to such sale shall constitute reasonable notice thereof, but that if the Collateral is perishable or threatens to decline quickly in value or is a kind customarily sold on a recognized market, the Secured Party may provide shorter notice or no notice of the sale. The Secured Party shall also have the right to remove the Collateral. No waiver of the Secured Party of any defaults hereunder shall constitute a waiver of any other default or of the same default upon a future occasion.

12. **Reinstatement.** If after receipt of any payment of, or the proceeds of any Collateral for, all or any part of the Obligations, the Secured Party is compelled to surrender or voluntarily surrenders such payment or proceeds to any person because such payment or application of proceeds is or may be avoided, invalidated, recaptured, or set aside as a preference, fraudulent conveyance, impermissible setoff or for any other reason, whether or not such surrender is the result of (i) any judgment, decree or order of any court or administrative body having jurisdiction over the Secured Party, or (ii) any settlement or compromise by the Secured Party of any claim as to any of the foregoing with any person (including the primary obligor with respect to any of the Obligations), then the Obligations or part thereof affected shall be reinstated and continue and this Agreement shall be reinstated and continue in full force as to such Obligations or part thereof as if such payment or proceeds had not been received, notwithstanding any previous cancellation of any instrument evidencing any such Obligation or any previous instrument delivered to evidence the satisfaction thereof or the termination of this Agreement.

13. **Governing Law.** This Agreement shall be governed by and be construed in accordance with New Hampshire law.

14. **Amendment.** This Agreement may be amended only by a written instrument executed by the parties.

15. **Notice.** Any demand, notice or request by either party to the other shall be sufficiently given if delivered to the party intended to receive the same, or if mailed by registered or certified mail addressed to such party at the address of such party stated above, or at such other address as may be stated in a notice delivered or mailed as herein provided.

16. **Binding Effect.** The covenants and agreements herein contained shall bind, and the benefits and advantages thereof shall inure to, the respective heirs, executors, administrators, successors and permitted assigns of the Debtor and the Secured Party.

17. **Conflicting Provisions; References.** In the event of any conflict between the terms, covenants, conditions and restrictions contained in this Agreement, the Note, the Loan Agreement and the Security Instruments, the term, covenant and condition or restriction that imposes the greater burden or obligation upon the Debtor shall control. The determination as to which term, covenant, condition or restriction is the more burdensome or imposes the greater obligation shall be made by the Secured Party in its sole discretion. All references

herein to the Note, the Loan Agreement and the Security Instruments shall be construed to include such instruments as they may be amended from time to time. Wherever used the singular number shall include the plural, the plural the singular, the use of any gender shall be applicable to all genders as the context requires.

18. Invalidity. In any case where any one or more of the provisions of this Agreement are held to be invalid, illegal or enforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions hereof.

19. Sovereign Immunity. Nothing contained in this Agreement, the Loan Agreement, the Note or the other Security Instruments shall be deemed to constitute a waiver of the sovereign immunity of the Secured Party, which immunity is hereby reserved to the Secured Party.

**REQUESTED ACTION**

Authorize the New Hampshire Department of Environmental Services (NHDES) to award an Aquatic Resource Mitigation (ARM) Fund grant to the Southeast Land Trust of New Hampshire (SELT), Exeter, NH (Vendor Code #155425-B001) in the amount of \$300,000 for the purpose of conserving a 214-acre parcel located on Dearborn Road and Chester Turnpike in Candia and Auburn, effective upon G & C approval through June 30, 2021. 100% ARM Funds.

Funding is available in the account as follows:

	<u>FY'21</u>
03-44-44-442010-38710000-073-500581	\$300,000
Dept. Environmental Services, In-Lieu Wetland Mitigation, Grants – Non - Federal	

**EXPLANATION**

New Hampshire RSA 482-A:3 requires a wetland permit for any proposed project that involves dredging or filling of a wetland. Before a wetland permit is issued, applicants must show that the proposed project will avoid adverse impacts to wetlands and will minimize and provide compensation for those wetland impacts which are unavoidable.

The DES wetlands program adopted a set of mitigation rules that establish what is necessary for an applicant to provide for wetland compensation. The current department rules spell out ratios for wetland compensation that include creating a new wetland, restoring a former wetland site, or protecting a high-quality aquatic resource by preserving adjacent upland habitat. The newest improvement, begun in 2006, to the mitigation options is commonly referred to as an *in-lieu fee program*. This mitigation option is ideal for projects that have difficulty in locating an appropriate mitigation site. The Aquatic Resource Mitigation Fund (ARM) authorizes the collection of mitigation funds in lieu of other forms of wetland mitigation as part of a Wetlands Permit Application.

The Department issued the request for proposals for ARM Funds available in the Merrimack River watershed in April, 2019. The SELT application was received and on November 22, 2019, NHDES announced the decision to fund the SELT project in the Merrimack River watershed. The project proposed by the SELT was recommended for funding by the ARM Fund Site Selection Committee. Attachment A lists

Page 2

the proposals received and Committee members involved in the decision. The review of the awards by the Army Corps of Engineers and the New Hampshire Wetland Council resulted in full support of the recommendations.

The SELT project has significant benefits to public drinking water quality by protecting 40 acres of wetlands, all which drain into Little Lake Massabesic and Massabesic Lake— a public drinking water supply for more than 160,000 residents of Manchester and 6 neighboring towns. The parcel consists of a diversity of aquatic resources and their upland buffers including more than 30 distinct wetlands, 12 confirmed vernal pools that support spotted salamander and wood frog breeding habitat, and 5,912 linear feet of stream. The property has been identified as important habitat for Blanding's turtles (endangered in NH) in the "Conservation Plan for Blanding's Turtle and Associated Species of Conservation Need in the Northern United States" by the U.S. Fish & Wildlife Service. In addition, the project contributes to ongoing landscape connectivity efforts in the region having been recognized in The Nature Conservancy's Connect the Coast study which identified 86 acres of the riparian habitat along Murray Mill Brook as a critical wildlife corridor. Attachment B includes a map of the property.

In the event that other funds no longer become available, general funds will not be requested to support this program. This agreement has been approved as to form, content, and execution by the Attorney General's Office.

We respectfully request your approval.

**REQUESTED ACTIONS**

1. Authorize the Department of Environmental Services to amend a Drinking Water and Groundwater Trust Fund grant (PO# 1067926) to the City of Rochester (VC# 177467-B002), Rochester, NH, by increasing the grant amount by \$1,644,000 from \$3,800,000 to \$5,444,000 for water system improvements and extending the completion date from December 1, 2022 to September 1, 2023 under the provisions of RSA 485:F, effective upon Governor and Council approval through September 1, 2023. The original grant was approved by Governor and Council on June 5, 2019, Item #128A. 100% Drinking Water and Groundwater Trust Fund.

Funding is available in the following account:

	<u>FY 2020</u>
03-44-44-442010-3904-073-500580	\$1,644,000
Dept. Environmental Services, Drinking Water and Groundwater Trust, Grants Non-Federal	

2. Authorize the Department of Environmental Services to amend a Drinking Water and Groundwater Trust Fund loan (PO# 1067926) to the City of Rochester (VC# 177467-B002), Rochester, NH, by updating the allocation percentage between grant and loan funds to reflect the requested increase in grant fund action number 1 and extending the completion date from December 1, 2022 to September 1, 2023 under the provisions of RSA 485:F, effective upon Governor and Council approval through September 1, 2023. No additional loan funds are being requested. The original loan was approved by Governor and Council on June 5, 2019, Item #128A. 100% Drinking Water and Groundwater Trust Fund.

**EXPLANATION**

We are requesting approval of this amendment in order to provide the City of Rochester additional time and funds to complete the agreed-upon scope of services. The project is to extend water to serve private residences with significant water quality issues (iron, manganese, arsenic, and radon) and residents with private wells contaminated by MtBE. Additional funds are needed due to increased project costs caused by required design modifications and increased quotes from project vendors, which are consistent with

observed industry cost trends for recently bid projects. The total project cost increase is \$3,880,000. The additional Drinking Water and Groundwater Trust Fund grant funds requested will supplement other funding sources in order to fully fund the project. The Drinking Water and Groundwater Advisory Commission approved the increase in grant funding on May 11, 2020.

The loan is being amended to reflect the increase in grant funds. The increase in the grant funding changes the percentage the City of Rochester is reimbursed from the grant and loan for each disbursement request. The completion dates for the grant and loan are also being extended to allow the City additional time to complete the project. To date, no grant or loan funds have been disbursed.

The grant amendment has been approved by the Attorney General's Office as to form, substance and execution.

We respectfully request your approval of this item.

EXPLANATION

The Drinking Water and Ground Water Trust Fund was created in 2016, using \$276 million of MtBE trial judgement funds, as authorized by RSA 485-F. The purpose of the Trust Fund is to provide sustainable, long-term funding for the protection, preservation, and enhancement of the drinking water and groundwater resources of the state. The Drinking Water and Groundwater Advisory Commission was established to administer the Trust Fund and to provide guidance to the State on the use of the Trust Fund.

On August 30, 2018, the Advisory Commission voted to authorize grants and loans for nineteen drinking water improvement projects. The City of Rochester's Route 202A Water Main Extension Project request for \$5,093,000 was selected for grant and loan funding from the Drinking Water and Groundwater Trust Fund. The City will use the funds to extend water main along Route 202A connecting several small residential developments, the installation of a new storage tank, and connecting several properties with private wells impacted with MtBE. This agreement has been approved by the Attorney General's Office as to form, substance and execution.

Respectfully submitted,

Robert R. Scott, Commissioner

**ORIGINAL LOAN AGREEMENT**

---

---

I. This Agreement is between the State of New Hampshire Drinking Water and Groundwater Trust Fund Loan Program (State) and the City of Rochester, New Hampshire (Loan Recipient) in accordance with RSA 485-F for the purpose of financing, to the extent of the aggregate amount of funds transferred (Disbursements) to the Loan Recipient made hereunder, the Route 202A Water Main Extension Project (Project) now being undertaken by the Loan Recipient. The Project is described in Exhibit A. The Loan Recipient shall abide by all of the requirements of RSA 485:F.

II. The State agrees to loan to the Loan Recipient, and the Loan Recipient agrees to repay to the State, in accordance with the terms of this Agreement, the principal sum of One Million Two Hundred Ninety Three Thousand and 00/100 Dollars (\$1,293,000) (Principal Sum) or such lesser amount as shall equal the aggregate of Disbursements made hereunder by the State to the Loan Recipient. In addition to the principal sum, the Loan Recipient agrees to pay the applicable interest accrued as described in Paragraphs III, V, and VII. Any Disbursement or other payment from the State to the Loan Recipient is contingent upon the availability of funds.

III. Disbursements shall be made on a periodic basis, as requested by the Loan Recipient, but not more frequently than monthly, subject to the approval of the amount of each Disbursement by the State. The State shall approve the amount requested if it determines that the costs covered by the request are eligible under and consistent with the purposes of RSA485-F, and consistent with

1 the project application as approved by the N.H. Drinking Water and Groundwater Advisory  
2 Commission. Such approval shall be within the sole discretion of the State but shall not be  
3 unreasonably withheld. In concert with the City's Drinking Water and Groundwater Trust Fund  
4 (DWGTF) grant for \$3,800,000 each disbursement request will be paid 74.6% grant funds and  
5 25.4% loan funds. The total reimbursement shall not exceed the loan amount of \$1,293,000.  
6 Interest on each Disbursement shall accrue on the outstanding principal balance from the date of  
7 the Disbursement at the rate of 1% per annum computed on the basis of 30-day months and 360-  
8 day years until the date of Substantial Completion of the Project or the date of Scheduled  
9 Completion as noted in Paragraph VII, whichever is earlier. At the option of the Loan Recipient,  
10 such interest may be paid (1) prior to the commencement of Loan repayment, (2) at the time of  
11 the first Loan repayment, or (3) by adding the charges to the outstanding principal Loan balance  
12 so long as the Loan Recipient's authority to borrow is not exceeded.

13  
14 IV. The aggregate of the Disbursements shall be consolidated by a Promissory Note (Note) of  
15 the Loan Recipient in a Supplemental Loan Agreement issued under and in accordance with the  
16 applicable provisions of this Agreement and the Municipal Finance Act, RSA 33, as amended  
17 and supplemented, including the provisions of RSA 485-F. The Note shall be substantially in the  
18 form of Exhibit B.

19  
20 V. The interest rate applicable to the Note will be 3.38%.

21  
22 VI. The Loan Recipient hereby authorizes the State to compute the payments of principal and  
23 interest on the Note. The principal shall be paid in full within twenty (20) years from the date of  
24 the Note. Note payments shall commence within one year of the Substantial Completion date of  
25 the Project or the Scheduled Completion date of the project, whichever is earlier. The Scheduled

1 Completion date is hereby determined to be December 1, 2022; however, should the project  
2 experience an excusable delay, an extension may be granted by the Commissioner of the  
3 Department of Environmental Services upon request in writing by the Loan Recipient.  
4

5 VII. The Loan Recipient reserves the right to prepay, at any time and without penalty, all or any  
6 part of the outstanding principal or interest of the Note.  
7

8 VIII. In the event of a default in the full and timely remittance of any Note payment, any State  
9 Grant funds payable to the Loan Recipient under RSA 486-A may be offset against and applied  
10 to the payment of any obligations that are due hereunder. The Loan Recipient agrees to be liable  
11 for all costs of collection, legal expenses, and attorney's fees incurred or paid by the State in  
12 enforcing this Agreement or in collecting any delinquent payments due hereunder.  
13

14 IX. No delay or omission on the part of the State in exercising any right hereunder shall operate  
15 as a waiver of such right or of any other right under this Agreement. A waiver on any one  
16 occasion shall not be construed as a bar to any right and/or remedy on any future occasion.  
17

18 X. The Loan Recipient agrees to comply, and to require all of its contractors to comply, with all  
19 applicable state requirements.  
20

21 XI. The Loan Recipient is required to develop an asset maintenance and renewal plan for the  
22 assets(s) being funded under the loan or incorporate the funded asset(s) into an existing asset  
23 management plan. At a minimum the plan must include a commitment to asset management,  
24 financing and implementation strategy and an inventory of the funded asset(s).

**REQUESTED ACTION**

Authorize the Department of Environmental Services to **RETROACTIVELY** pay The NELAC Institute (TNI), (VC #172872-B001), Weatherford, TX in the amount of \$7,000.00 for National Environmental Laboratory Accreditation Program Annual Accreditation membership fee for the period of July 1, 2020 to June 30, 2021, effective upon Governor & Council approval. 100% Lab Accreditation Fee Funds.

Funding is available in the account as follows.

03-44-44-442010-6641-026-500251	<u>FY 2021</u>
Dept Environmental Services, Lab Certification, Organizational Dues	\$7,000.00

**EXPLANATION**

TNI is a non-profit /voluntary organization that has the basic goal of establishing a national environmental laboratory accreditation program. Participants include private citizens, municipalities, states and federal agencies. The New Hampshire Environmental Laboratory Accreditation Program (NH ELAP) provides accreditation to environmental laboratories in New Hampshire, as well as out-of-state, to ensure sufficiently accurate, precise, and consistent results of tests, analyses, and measurements. This request is delayed because in July of 2020 when the annual membership fee was due, a pause was placed on all expenditures that were not immediately essential due to COVID-19. Since that time, NELAC has requested payment of dues which are essential for New Hampshire to maintain its ability to coordinate and recognize reciprocity among laboratory accreditation programs in other states. This allows laboratories in New Hampshire to provide services to customers outside of New Hampshire. It is also critical because it provides New Hampshire public water systems with additional laboratory capacity by allowing use of out-of-state laboratories that are accredited.

- How long has this organization been in existence and how long has this agency been a member of this organization?**

The NELAC Institute (TNI) was formed in 2006. It existed under different structures and organizational names in prior years. NH ELAP has participated in this organization since its inception and been a formal member since 2000.

- 2. Is there any other organization which provides the same or similar benefits which your agency belongs to?**

No. The NELAC Institute (TNI) has gone through many changes since the late 1990s. It continues to be a program that involves many interested parties working towards a national laboratory accreditation program among the applicable state entities.

- 3. How many other state's belonging to this organization and is your agency the sole New Hampshire state agency that is a member?**

There are 13 state laboratory accreditation programs. NH ELAP is the only NH agency that has direct involvement in laboratory accreditation.

- 4. How is the dues structure established? (Standard fee for all states, based on population, based on other criteria, etc)**

It is a flat fee of \$7,000.00 for each state (member). The fee is based on benefit and evaluation costs.

- 5. What benefit does the state receive from participating in this membership?**

Membership covers: copies of new laboratory accreditation standards as they are issued, the cost of the triennial NH program evaluation, NH ELAP staff travel costs when participating as an evaluation team member of another state agency and travel costs for one member of NH ELAP to attend the winter TNI meeting.

- 6. Are training or educational/ research materials included in the membership? If so, is the cost included? Explain in detail.**

Training or educational/research materials are not included in membership. Membership discounts may be applicable in some cases. Some free training/guidance material is supplied through the TNI website or state agency websites.

- 7. Is the membership required to receive any federal grants or required in order to receive or participate in licensing or certification exams? Explain.**

No, it is not required for the listed items. It is required if NH ELAP intends to maintain a relationship with other similar state agencies that will grant recognition of each other's laboratory accreditations.

- 8. Is there any travel included with this membership fee? Explain in detail any travel to include the number of employees involved, the number of trips, destination if known and purposes of membership supported trips.**

TNI meetings are held twice a year. The locations vary across the country in order to accommodate different state travel policies. Membership covers the cost of one party attending the winter meeting.

9. Which state agency employees are directly involved with this organization? (Indicate if they are members, voting members, committee members, and/or officers of the organization.)

Bill Hall, Program Manager, is directly involved with this organization as a voting member. He is a permanent member of NELAP – a committee made up of the state agencies responsible for laboratory accreditation. Other committee assignments are voluntary.

10. Explain in detail any negative impact to the State if the Agency did not belong to this organization.

TNI's main goal is to streamline procedures and reduce costs related to national environmental laboratory accreditation. The states involved in this organization are working to perform their accreditations to one standard. In this vein, recognition of one another's work (accreditations) is agreed upon. If NH ELAP were not part of this organization the current accreditations granted to in-state and out-of-state laboratories would be in jeopardy. The NELAP accreditation granted to our laboratories would no longer be in effect. NH ELAP would have to create a new individual state-by-state scheme for offering accreditation (or certification) to the various laboratories involved in our program.

The membership fee is paid from accreditation fees collected by NHDES from laboratories that expect NHDES to participate in TNI so that the accreditations completed by NHDES are recognized by other states.

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, NH 03301

**REQUESTED ACTION**

Authorize the Department of Environmental Services to **RETROACTIVELY** amend a **SOLE SOURCE** agreement (PO #1060256) with the Great Bay Stewards Inc. (VC #208564), Greenland, NH, for the "*Regional Resilience, New Hampshire: Monitoring and evaluating living shorelines for success*" project, by: 1) extending the project completion date from September 30, 2020 to January 31, 2022, and 2) revising the scope of work to include additional reporting deliverables, effective upon Governor and Council approval. The original agreement was approved by Governor and Council on February 21, 2018, Item #39. This amendment is a time extension; no additional funding is requested to support the amendment.

**EXPLANATION**

The Department of Environmental Services (DES) requests approval of this **RETROACTIVE, SOLE SOURCE** amendment in order to provide the Great Bay Stewards Inc. (GBS) with additional time to complete tasks as assigned by the Scope of Services. This amendment is **RETROACTIVE** because the original agreement expires on September 30, 2020. Unfortunately, due to staff limitations posed by COVID-19, there was a delay in processing the required paperwork associated with the amendment, resulting in this request appearing before Governor and Executive Council after the original contract end date. The agreement is **SOLE SOURCE** because it is the second phase of a project conducted by GBS in cooperation with the DES Coastal Program. Due to GBS' experience identifying and working with living shoreline stakeholders in the first phase of the project, GBS is the only organization equipped to complete this project successfully. A copy of the original agreement is included as Attachment A.

DES has signed an agreement with the grantor, The Nature Conservancy – Massachusetts (TNC), to extend the project period to January 31, 2022. The purpose of this amendment is to effectuate TNC's approved amendment to the financial assistance award. Specifically, this amendment will enable GBS to continue participating in regional efforts to establish monitoring guidance and conduct outreach for living shorelines. Exhibit A of the attached Amendment provides revisions to the Scope of Work, including additional interim reporting deadlines.

To date, \$4,909.23 of the original agreement amount of \$18,040 has been spent. No changes to the original budget are requested in this amendment. DES will provide 100% of the project costs through the federal grant. In the event that federal funds become no longer available, general funds will not be requested to support the project. This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

Robert R. Scott, Commissioner

APPROVED G & C

DATE 2/2/18

ITEM # 39

**REQUESTED ACTION**

Authorize the Department of Environmental Services to award a **SOLE SOURCE** agreement to the Great Bay Stewards Inc. (VC #208564), Greenland, NH, in the amount of \$18,040 to conduct outreach and training associated with living shoreline stabilization projects, effective upon Governor and Council approval through September 30, 2020. 100% Federal Funds.

Funding is available in the account as follows.

03-44-44-442010-3642-102-500731 FY18 \$18,040  
Dept. Environmental Services, Coastal Zone Management, Contracts for Program Services

**EXPLANATION**

This award is **SOLE SOURCE** because it is the second phase of a project conducted by the Great Bay Stewards (GBS) in cooperation with the NHDES Coastal Program. In the first phase of the project, GBS and partners completed a needs assessment to identify training and information needs to implement living shorelines in coastal New Hampshire and conducted preliminary training events to specific audiences on the topic of living shoreline applications. In this second phase, GBS seeks to improve coastal resilience in the face of erosion and flood risk by enhancing living shoreline knowledge and encouraging appropriate application of living shoreline projects through outreach and trainings that further meet needs identified in the first phase needs assessment. This grant award, while less than the \$25,000 threshold, requires G&C approval as entity has received funds in excess of the threshold for this fiscal year.

Due to GBS's experience identifying and working with living shoreline stakeholders in the first phase of this project, GBS is the only organization equipped to complete this project successfully. GBS is a named funded partner in the original competitive proposal for this project that was submitted to the National Oceanic and Atmospheric Administration by the NHDES Coastal Program and regional partners in the Northeast.

Funds under this agreement will be used to enable GBS, in cooperation with the New Hampshire Department of Fish and Game Great Bay National Estuarine Research Reserve (GBNERR), to 1) participate in regional collaborative efforts to develop and review living shoreline monitoring and project evaluation guidelines, 2) design an outreach program to train stakeholders about living shoreline applications, 3) organize and execute outreach events to train stakeholders, and 4) evaluate the outreach program.

Total project costs are budgeted at \$18,040. DES will provide \$18,040 of the project costs through a federal grant. No matching funds are required. A budget breakdown is provided in Attachment A.

In the event that the Federal funds become no longer available, general funds will not be requested to support this program. This agreement has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

Agreement. This provision shall survive termination of this Agreement.

September 18, 2020

His Excellency, Governor Christopher T. Sununu  
 and the Honorable Council  
 State House  
 Concord, NH 03301

REQUESTED ACTION

Authorize the New Hampshire Department of Environmental Services (NHDES) to enter into an agreement with the Town of New Durham, NH, (VC #159914) in the amount of \$94,448 to complete the *Merrymeeting Watershed Management Plan Implementation Phase 1: Intersections of South Shore Road and Merrymeeting Road Best Management Practices*, effective upon Governor and Council approval through December 31, 2022. 100% Federal Funds.

Funding is available in the account as follows:

03-44-44-442010-2035-072-500575

Dept. Environmental Services, NPS Restoration Program, Grants-Federal

FY 2021

\$94,448

EXPLANATION

NHDES issued a Request for Proposals (RFP) for the 2020 Watershed Assistance Grants program. The five proposals received were ranked based on the criteria included in the RFP: water quality improvement or protection; cost/benefit ratio; local capacity to complete the project; relative value or significance of the water body; and general quality and thoroughness of the proposal. Based on the results of the selection process and available federal grant funding levels, the five implementation projects were selected to receive funding. Please see Attachment B for a list of project rankings and NHDES review team members.

Watershed Assistance Grants focus on the reduction of nonpoint source (NPS) pollution. NPS pollution occurs when rainfall, snowmelt, or irrigation waters travel through the ground or across land, transporting materials that are then introduced into groundwater or deposited into rivers, lakes, and coastal waters. Pollutants can include chemicals, sediments, nutrients, and toxins that often have harmful effects on drinking water supplies, recreation, fisheries, and wildlife. Land development or changes in land use can also cause NPS pollution by disrupting the natural hydrology of a water body, increasing impervious surfaces, and contributing to the loss of aquatic habitat. Watershed Assistance Grants address NPS pollution by promoting responsible land use practices on the watershed scale.

The Merrymeeting River and Merrymeeting Lake Watershed includes 23,669 acres of land and water in the towns of New Durham and Alton, NH. The Merrymeeting River is the second largest (by volume) tributary entering Lake Winnepesaukee. This project represents the first phase of implementation of the Merrymeeting Watershed Management Plan (MMWMP). This project addresses severe roadside erosion extending from the New Durham Town Beach and Beach Parking Lot down a hill along South Shore Road approximately 150 feet to a catch basin on Merrymeeting Road. Currently this stormwater reaches an undersized culvert which frequently clogs, allowing water to overflow South Shore Road and discharge directly into the Merrymeeting River. This project will address pollution by installing one driveway culvert and replacing one cross-road culvert, developing four sediment forebays, installing a bio-retention facility which uses the existing catch basin as an overflow structure, and converting the east roadside ditch to a six-inch-deep grass channel on the west side. Once constructed, this remediation will reduce sediment from entering roadside ditches, slow stormwater flow and erosion of ditches, control the flow of water via properly sized culverts, and direct the final stormwater into a bio-retention facility. The overall goal is to reduce the sediment (1,262 lbs./y) and nutrients (phosphorus 3.02 lbs./y; nitrogen 1.76 lbs./y) from entering the headwaters of the Merrymeeting River.

The total project costs are budgeted at \$157,445. NHDES will provide \$94,448 (60%) of the project costs through a federal grant, and the Town of New Durham will provide the remaining costs through cash and in-kind services. A budget is provided in Attachment A.

In the event that federal funds become no longer available, general funds will not be requested to support this program. The agreement has been approved by the Office of the Attorney General as to form, execution, and content.

We respectfully request your approval of this item.

  
Robert R. Scott, Commissioner

- Work completed April 1 – September 30, report is due by October 31
- Work completed October 1 – March 31, report is due by April 30

A Pollutants Controlled Report must be completed and received by NHDES within one month following BMP implementation. In the event that the grantee has not completed a timely submittal of the progress reports, all further payments will be suspended until the overdue reports are submitted, and approved by NHDES.

Task 18: Submit a comprehensive final report to NHDES on or before the project completion date. The final report shall include load reduction estimates, photo-documentation of installed system components when applicable, and comply with the NHDES and U.S. Environmental Protection Agency (USEPA) requirements, including ADA compliance, found in the final report guidance document on the NHDES Watershed Assistance Section webpage.

#### Additional Requirements of the Agreement

##### Quality Assurance

All project activities which are to be guided by a quality assurance (QA) document such as a Quality Assurance Project Plan (QAPP) or Site Specific Project Plan (SSPP) must not begin prior to NHDES/USEPA approval of that QA document. In the event that sampling, modeling, or other such activities precede QA document approval, the data will not be considered valid, and the grantee will forfeit the ability to receive payment for those activities.

**Outreach Materials**

All materials produced for public distribution shall be reviewed and approved by NHDES prior to distribution and shall include the NHDES logo and the following citation: "Funding for this project was provided in part by a Watershed Assistance Grant from the NH Department of Environmental Services with Clean Water Act Section 319 funds from the U.S. Environmental Protection Agency". Outreach materials should be made ADA compliant.

**Operations and Maintenance**

Management practices implemented as agreed upon in the scope of services of this grant agreement and with grant funds or matching funds under a Section 319 Watershed Grant, shall be properly operated and maintained for the intended purposes during the life span of the project. The life span of a project shall be determined by the Grantee, tailored to the types of practices expected to be funded in this project, and agreed upon by NHDES. The Grantee shall provide NHDES with an engineering estimate of the design life of the best management practice(s) (BMPs), or in the case of small-scale BMPs which do not have a design life estimation completed by an engineer, the design life of that practice shall be estimated to be ten years.

Operation includes the administration, management, and performance of non-maintenance actions needed to keep the completed practice safe and functioning as intended. Maintenance includes work to prevent deterioration of the practice, repairing damage, or replacement of the practice to its original condition if one or more components fail. The Grantee shall assure that any sub-award of Section 319 funds similarly include the same condition in the sub-award. Additionally, both USEPA and NHDES reserve the right to periodically inspect a practice during the life span of the project to ensure that operation and maintenance are occurring. If it is determined that the participants are not operating and maintaining these practices in an appropriate manner, NHDES may request a refund for that practice supported by the grant.

Exhibit B

Method of Payment and Contract Price

Procurements of goods or services made with grant funds, or those credited as match, shall comply with the terms of this agreement, and must be reported to NHDES. Documentation of match credit shall be provided with each payment request. The cumulative match value for the project shall meet or exceed the amount of grant funds received multiplied by 0.667 (e.g. \$94,448 grant X 0.667 = \$62,997 minimum match required). The grantee shall submit payment requests, procurement reports, and match documentation on the forms provided by NHDES. His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301

**REQUESTED ACTION**

Pursuant to RSA 146-D:5, II, accept the 2019 annual report of the Oil Fund Disbursement Board (Board).

**EXPLANATION**

The Board hereby submits its annual report on the status of the New Hampshire Petroleum Reimbursement Fund Program for the State Fiscal Year that ended on June 30, 2019. We regret the delay of this report, which was primarily caused by administrative issues associated with the COVID-19 pandemic.

The reimbursement fund program has a history of service to New Hampshire citizens, in providing financial resources to remedy environmental impacts due to releases of petroleum products. The Oil Discharge and Disposal Cleanup Fund (ODDCF) operates as comprehensive excess insurance that protects petroleum storage facility owner assets and ensures timely and cost-effective cleanup of contamination. In addition to protecting public health and the environment, this assistance plays a significant and important role in economic development. The fund also provides financial assistance for the problem of methyl tertiary-butyl ether ("MtBE") contamination. MtBE impacts owners of public and private water supply wells statewide, despite a ban on the gasoline additive that was effective January 1, 2007. It is important to note that the ODDCF covers cleanup work for on-going projects and a limited number of new MtBE projects. In addition to, and separate from the ODDCF, settlement monies from the State's 2003 MtBE lawsuit fund additional preventative and corrective measures related to MtBE throughout the state. The ODDCF also provides financial assistance for heating oil contamination cleanup and replacement of substandard on-premise-use heating oil storage tank systems. The tank replacement program for low-income homeowners is part of NHDES efforts to reduce the incidence of heating oil releases to the environment and thus reduce cleanup expenses.

The Board and NHDES monitor fund program revenues and expenses and prioritize cleanup projects in consideration of public health/environmental risk, demand, and availability of funds. NHDES personnel work diligently to assist owners of contaminated public and private water supply wells, and to bring cleanup projects to regulatory closure. NHDES also directs significant effort toward petroleum storage facility owner/operator outreach and training for release prevention. However, existing groundwater contamination in many areas of the state will be slow to degrade, and new contamination projects will still be discovered in

future years despite highly effective release prevention efforts. Thus, continuation of the ODDCF and adequate program funding are vital to protect public health and environmental quality in New Hampshire.

We respectfully request your acceptance of this report.

## **Program Background**

The New Hampshire Petroleum Fund program is a financial assistance program for owners of petroleum storage facilities, owners of public and private water supplies, and owners of properties identified as a source of gasoline ether contamination, predominately methyl tertiary-butyl ether (MtBE). Prior to 2016, the program included four separate dedicated funds authorized by state statute for the cleanup of petroleum contamination: the Oil Discharge & Disposal Cleanup Fund (ODDCF) authorized by RSA 146-D, the Fuel Oil Discharge Cleanup Fund authorized by RSA 146-E, the Motor Oil Discharge Cleanup Fund authorized by RSA 146-F, and the Gasoline Remediation & Elimination of Ethers Fund authorized by RSA 146-G. With passage of HB 664, which became effective July 1, 2016, these four funds were consolidated into a single reimbursement fund established under RSA 146-D.

RSA 146-D was originally enacted into law in July 1988. The program serves New Hampshire citizens by providing financial resources to protect public health, remedy environmental impacts, and avoid financial hardship.

The ODDCF provides "excess insurance" coverage for owners of underground storage tank (UST) facilities, owners of above ground storage tank (AST) facilities, owners of on-premise-use heating oil facilities (primarily residential properties), and owners of land where facilities are or were located. Under federal and state regulations, UST owners are required to demonstrate financial responsibility for contamination cleanup. The ODDCF satisfies both the federal and state financial responsibility requirement. To qualify for state fund coverage, facilities must be in compliance with all applicable state and federal rules for operation and maintenance. Thus, the Fund program provides an incentive to reduce the risk of releases. Out-of-use facilities must be properly closed, which is typically accomplished by removal of the storage tanks from the property. The fund provides a comprehensive excess insurance program that protects facility owners from financial devastation and ensures timely and cost-effective cleanup of petroleum contamination. Owners of petroleum storage facilities may request reimbursement for cleanup costs incurred due to facility releases.

In addition, low-income homeowners may receive up to \$2,250 in funds for repair or replacement of substandard on-premise-use above ground fuel oil storage tank systems, to prevent releases and avoid cleanup expenses.

The ODDCF is also available to specifically address the problem of MtBE contamination in public and private drinking water supply wells throughout the state. Although MtBE was banned as a gasoline fuel additive effective January 1, 2007, it remains a contaminant of concern in groundwater.

The Fund program is administered by the Oil Fund Disbursement Board (Board), which is composed of twelve members representing the N.H. Legislature, the petroleum industry, state agencies and the general public. The Board is administratively attached to the Department of Environmental Services (DES), which performs program support services. The Board meets

regularly to approve activity reports, review policies and procedures, consider rule waiver requests, and hear appeals.

Reimbursements from the ODDCF are subject to N.H. Administrative Rules Chapter Odb 400 and Board policies.

### **Objectives & Activity**

The Board and DES work cooperatively to ensure that the purpose and goals (protection of public health and the environment through the funding of cleanup activities for petroleum contamination in soil and water and funding of activities to prevent releases that cause petroleum contamination) established by statute for the fund are met. DES program staff work to move cleanup projects toward regulatory closure in a timely manner. This activity includes review and approval of cleanup work scopes and budgets, corrective action reports, and reimbursement requests. In a typical month, DES staff will review and approve 90 work scopes/budgets, 450 corrective action reports, and 180 reimbursement requests ranging from under \$1,000 to over \$400,000. Whenever possible, innovative and performance-based strategies are employed to improve cleanup results and decrease the time to complete regulatory closure of a project.

The Board oversees financial management of the fund, including development and implementation of rules, policies, and procedures for fund eligibility and reimbursement request processing. In its efforts, the Board may employ independent auditors or consultants and relies on the Department of Justice for legal counsel.

### **Community Assistance & Economic Development**

Since program inception, \$308,758,271 has been disbursed from the fund to individuals, small and large business owners, political subdivisions, and state agencies for cleanup cost reimbursement, with comparatively low program management and administrative costs. Petroleum storage facility owners or individuals in nearly every community have received Fund program cleanup cost assistance. In addition, \$5,093,687 has been disbursed to low-income homeowners for fuel oil release prevention. See Tables 1 and 2 in the Appendix.

The fund provides benefits in protecting public health and in environmental damage prevention and restoration. Further, the program provides ancillary economic development benefits by offsetting unplanned costs that would otherwise be incurred by property owners and by encouraging property revitalization and reuse. Numerous blighted properties in the state have been successfully redeveloped, including municipally-owned properties where cleanup cost funding often facilitates or leverages private development funds. Properties with low taxable value due to contamination are restored to productive use.

## **Program Recognition**

The New Hampshire Petroleum Fund program continues to receive high marks from USEPA, the consulting community, petroleum industry representatives, and facility owners. New Hampshire has achieved nearly 100% regulatory compliance in its efforts to remove or upgrade substandard underground storage tanks to prevent releases. Therefore, the risk of financial impact to the ODDCF is greatly reduced as compared to when the program began and the rate of releases was much greater. Our compliance standards place us at the top tier nationally among the states.

Completing regulatory closure of existing ODDCF cleanup projects depends on adequate revenues. In addition, the Safetank Release Prevention Program, which also relies on adequate revenues, can greatly reduce future cleanup expenses at on-premise-use heating oil facilities. Thus, the Board and DES work to ensure continuous improvement in management of the fund and make recommendations to the Governor and Legislature on addressing future revenue needs for this vital program.

## **Legislation and Rulemaking**

The most recent revisions to the Fund program rules under N.H. Administrative Rules Chapters Odb 100, 200 and 400 were adopted in September 2011, December 2013, and April 2014. An update to the rules is expected in February 2020.

## **Cleanup Project Activity**

For a typical project, the sequence of "phased" cleanup work from discovery of a release through regulatory closure is: emergency services, initial response, site characterization, site investigation, remedial plan preparation, remedial plan implementation, and monitoring. Monitoring may also occur at projects if remediation is delayed. The nature of the product released dictates the type of work needed to complete cleanup and achieve site closure. A gasoline release will typically spread further in the soil and groundwater than a fuel oil release. Therefore, a comprehensive site investigation is usually required prior to remedial plan development and implementation. In contrast, contamination from a fuel oil release is frequently limited to soil, and cleanup work typically occurs under the initial response phase. These projects can move more quickly to regulatory closure without a comprehensive site investigation.

ODDCF cleanup expenses from 1990 through the present were fairly evenly distributed among the initial response, site investigation, remedial, and monitoring phases as new projects were initiated and existing projects closed. In FY 2019 there were 894 active ODDCF-eligible projects, with 121 new projects reported during the fiscal year. Of the new projects, the majority were releases from on-premise-use fuel oil storage tank systems, with 115 discovered in FY 2019. In future years, DES anticipates the percentage of remedial costs will increase as regulatory closure of active projects is completed and the discovery of new releases requiring investigation diminishes for regulated AST, UST, and on-premise-use heating oil facilities.

Table 3 and Figure 1 in the Appendix, respectively, provide cleanup project statistics and illustrate the historic distribution of cleanup project costs for purposes of comparison among the four categories of ODDCF projects, based on the type of release.

### **Financial Activity**

Management Discussion of Income and Expenses: Annual operating revenue to the ODDCF is provided through import fees on petroleum products collected by the Department of Safety. The statute sets a "ceiling" and "floor" on the unobligated balance of the fund such that import fee collections are suspended when the ceiling is reached and collections resume when the balance is paid-down to the floor. However, current and future demand on the ODDCF will likely preclude reaching the ceiling. Ensuring that sufficient funds are available to support present and future cleanup projects is a primary focus of program planning.

Fund program financial operations follow the State FY calendar of July 1<sup>st</sup> to June 30<sup>th</sup>, and the state biennium budget cycle.

The Board is pleased to report the majority of program revenues are directed to achieving established goals and objectives, with overall program management and administrative costs for the ODDCF averaging approximately 13% of total expenses. DES supervisory, project management, facility compliance, and administrative staff are able to work under the fund on a program basis, through the use of a single administrative expense account that is supported by the fund. Overtime and compensatory time is also available to provide additional staff-hours as needed to meet peak workload demands, versus maintaining sufficient full-time staff to cover all potential workload demands. DES staff processed cleanup and release prevention claims, reimbursed for contracted cleanup costs, and managed cleanup work totaling \$11,385,796 in FY 2019.

Operating Revenues: ODDCF revenues increased 3.56% from \$15,974,503 in FY 2018 to \$16,543,015 in FY 2019. A level motor fuel import trend would reasonably be expected due to increases in vehicle miles traveled in the state being offset by increasing fuel efficiency. Retail price fluctuation of gasoline and diesel fuel may influence imports in future years and the impacts cannot be fully predicted. Revenues from fuel oil imports have generally declined with decreasing imports due to changing weather patterns and conversion to alternate heating fuels, such as natural gas, propane, or wood. The ODDCF balance increased 19.5% from \$12,107,712 at the end of FY 2018 to \$14,473,802 at the end of FY 2019. The increases in the balance are primarily due to significant turnover in program staff at DES, resulting in extended period with vacant positions and the resultant reduced pace of corrective action work approvals.

Program Management & Administrative Costs: Total program management and administrative cost allocations increased 3.1% between FY 2018 (\$2,706,216) and FY 2019 (\$2,791,129). As

noted previously, program management and administrative costs are historically approximately 13% of total expenses. Administrative cost allocation budgets for FY 2020 are based on an assumption that all positions remain filled, and applying conservative estimates for operating expenses and inter-agency transfers for program support costs.

Cleanup Project Expenses: ODDCF cleanup project reimbursements including contracted cleanup costs decreased 7.2% from \$11,853,137 in FY 2018 to \$11,001,020 in FY 2019. Demand is expected to remain steady due to the number of remediation projects. Such projects take time to complete the required preliminary investigations, cost analysis, planning, design, and bidding (if applicable.) Thus, total cleanup project expenses may increase or decrease from year to year. More projects are expected to be completed in FY 2020. The steady average annual demand for cleanup funds is attributable to a relatively slow decline in the number of active projects due to the high percentage with continuing groundwater impacts. Closing these projects requires considerable investment in active remediation or long-term monitoring of natural attenuation. In addition, the average annual demand resulting from on-premise-use facility projects is expected to be steady as new AST projects come to light as old heating oil tanks are removed. The proposed reimbursed cleanup budget for FY2020 and FY2021 is \$12,000,000 per year.

Release Prevention Expenses: Between FY 2018 and FY 2019, Safetank reimbursements increased 29.5%, from \$297,162 to \$384,776. This increase is primarily due to the passage of HB 380-FN in June of 2017, which increased the Safetank reimbursement limit from \$1,500 to \$2,250. Average annual demand of approximately \$450,000 is expected to continue for a number of years. The 2015 passage of HB 664-FN allows DES the opportunity to address the excess demand. Fully funding this important program will continue to offer benefits in future years through reduced cleanup expenses.

Total Available Funds: If total available funds, i.e., new revenues plus fund balance, are not sufficient, cleanup work may be delayed or postponed indefinitely. Delay or postponement increases the risk to public health and the environment as contaminants move further from the source property, through soil and water media. It is also important that reserve funds be available to respond to increases in petroleum releases that can occur following events like floods or ice storms. The total available funds provide DES with flexibility to address these unforeseen events and allow cleanup projects and Safetank work that may have been delayed in prior years to be completed.

Tables 4 and 5, respectively, in the Appendix summarize comparative FY 2018 and FY 2019 financial performance, and FY 2020 and FY 2021 projected revenues and expenses for the program.

Project Type		Total New Projects in FY 2019	Eligible Projects in Progress by Cleanup "Phase"					Eligible Projects Completed	
			Initial Response Action	Site Investigation	Remedial Action	Monitoring	Total In Progress	Number	Average Years to Complete

	Underground Storage Tank (UST)	4	0	71	57	408	536	1,105	8.4

Motor Oil & Used Motor Oil Releases		1	1	3	1	8	13	42	4.7

**Initial Response Action** includes activities to contain a petroleum discharge and abate immediate environmental and public health risks. The work may include soil removal, petroleum recovery and vapor mitigation. Less complex projects, e.g., on-premise-use fuel oil discharges at private homes, may remain in this phase from start to completion.

**Site Investigation** is needed at more complex projects to determine the magnitude and extent of contamination to develop a remedial plan. A typical investigation involves installation of groundwater monitoring wells and sampling/analysis to determine groundwater flow and receptors.

**Remedial Action** is needed at more complex projects to remove or treat contamination in soil and groundwater, and abate vapor problems.

**Monitoring** is performed to determine if/when groundwater contamination has decreased to State standards. For some projects under Monitoring, completion could be accelerated with active remediation. For gasoline ether projects, monitoring also includes a public water supply that is performing additional periodic water quality analysis due to the presence of MtBE.

Remove 258 square feet of existing breakwater, reconfigure the lakeward end of the remaining 39 linear feet of breakwater, repair 4 foot x 45 foot cantilevered pier, construct a 6 foot x 28 foot pier supported by two 6 foot x 6 foot cribs and accessed by a 6 foot 15 foot connecting walkway supported by a single 6 foot x 6 foot crib, install a 14 foot x 30 foot seasonal canopy, a permanent boatlift and two seasonal personal watercraft lifts on an average of 147 feet of frontage along Lake Winnepesaukee on Long Island in Moultonborough.

The New Hampshire Department of Environmental Services (NHDES) imposed the following conditions as part of this approval:

1. In accordance with Env-Wt 307.16, all work shall be done in accordance with the revised plans dated July 28, 2020 by Watermark Marine Construction, as received by the NH Department of Environmental Services (NHDES) on August 3, 2020.

17. No activity shall be conducted in such a way as to cause or contribute to any violation of surface water quality standards specified in RSA 485-A:8 or Env-Wq 1700 as required pursuant to Env-Wt 307.03(a).
18. No agitating or heating device shall be installed for the purpose of inhibiting the formation of ice in proximity to the approved structures unless it has been registered with the municipal clerk of the town in which such device shall be operated pursuant to RSA 270:34 Registration Required.
19. Pursuant to RSA 270:33, Heating, Agitating, or Other Devices in Public Waters; Safety Hazard, no agitating or heating device installed in accordance with RSA 270:34 shall inhibit or prevent the natural formation of ice in such a manner as to impede either the ingress or egress to or from the ice from any property other than that of the owner of the device.
20. Pursuant to RSA 482-A:14, RSA 482-A:14-b, and RSA 482-A:14-c, the NHDES is authorized to take appropriate compliance actions should it be determined that, based upon additional information which becomes available, any of the structures depicted as "existing" on the plans submitted by or on behalf of the permittee were not previously permitted or grandfathered.

#### EXPLANATION

The NHDES approved this project on August 31, 2020. The NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 513.24(c)(3), the proposed docking structures are proposed adjacent to and attached to a breakwater.
2. The applicant has an average of 147 feet of frontage along Lake Winnepesaukee.
3. A maximum of 2 slips may be permitted on this frontage per Rule Env-Wt 513.12, Frontage Requirements for Private and Non-commercial Docking Structures.
4. The proposed docking facility will provide 2 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 513.12.
5. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Lake Winnepesaukee a public hearing under RSA 482-A:8 is not required.
6. The applicant has provided the NHDES with evidence that the property has insufficient water depth as required by Env-Wt 513.08(b).
7. The NHDES has accepted the evidence of the physical hardship and approved the extension of a crib and cantilevered pier beyond that permissible under Env-Wt 513.11(a)(1)(b).
8. The NHDES finds that the project as proposed and conditioned meets the requirements of RSA 482-A and the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900.

Application file documents are being forwarded to the Governor and the Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3, II.(a) as it is a major project in public waters of the state.

We respectfully request your approval of this item.

Remove "L" section of previously approved breakwater (less 258 sq ft - net less 28 cu yds) and add "L" shaped crib dock (290 sq ft) to provide two sub-standard boat slips on 147 ft average frontage. Rebuild/repair existing 4 ft x 45 ft cantilevered dock "in-kind", install a 14 ft x 30 ft seasonal canvas canopy (420 sq ft) and permanent boatlift. Install two seasonal PWC lifts adjacent to the dockage. The net proposed structure meets current regulations and would be readily approved in its entirety so Env-Wt 513.23 "Modification" should not apply.

This site meets the criteria for permanent docks, ice clusters, and breakwater construction.

The project will be surrounded with a turbidity curtain during work and until stabilization.

Total net impacts: 548 sq ft (+ 4 sq ft temp.).

**SECTION 3 - PROJECT LOCATION**

Separate wetland permit applications must be submitted for each municipality within which wetland impacts occur.

**SECTION 8 - AVOIDANCE AND MINIMIZATION**

Impacts within wetland jurisdiction must be avoided to the maximum extent practicable (Env-Wt 313.03(a)). If all impacts cannot be avoided, a functional assessment is required for minor and major projects (Env-Wt 311.03(b)(10)). Any project with unavoidable jurisdictional impacts must then be minimized as described in the Wetlands Best Management Practice Techniques For Avoidance and Minimization and the Wetlands Permitting: Avoidance, Minimization and Mitigation Fact Sheet.

Please refer to the application checklist to ensure that you have attached all documents related to avoidance and minimization, as well as functional assessment (where applicable). You can use the Avoidance and Minimization Checklist, the Avoidance and Minimization Narrative, or your own avoidance and minimization narrative.

**SECTION 9 - MITIGATION REQUIREMENT (Env-Wt 311.02)**

N/A - Mitigation is not required

**SECTION 11 - IMPACT AREA (Env-Wt 311.04(g))**

For each jurisdictional area that will be/has been impacted, provide square feet (SF) and, if applicable, linear feet (LF) of impact, and note whether the impact is after-the-fact (ATF; i.e., work was started or completed without required permitting).

For intermittent and ephemeral\* streams, the linear footage of impact is measured along the thread of the channel. \*Please note, installation of a stream crossing in an ephemeral stream may be undertaken without a permit per Rule Env-Wt 309.02(d), however other dredge or fill impacts should be included below.

For perennial streams/ivers, the linear footage of impact is calculated by summing the lengths of disturbances to the channel and banks.

Permanent impacts are impacts that will remain after the project is complete (e.g., changes in grade or surface materials).

Temporary impacts are impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

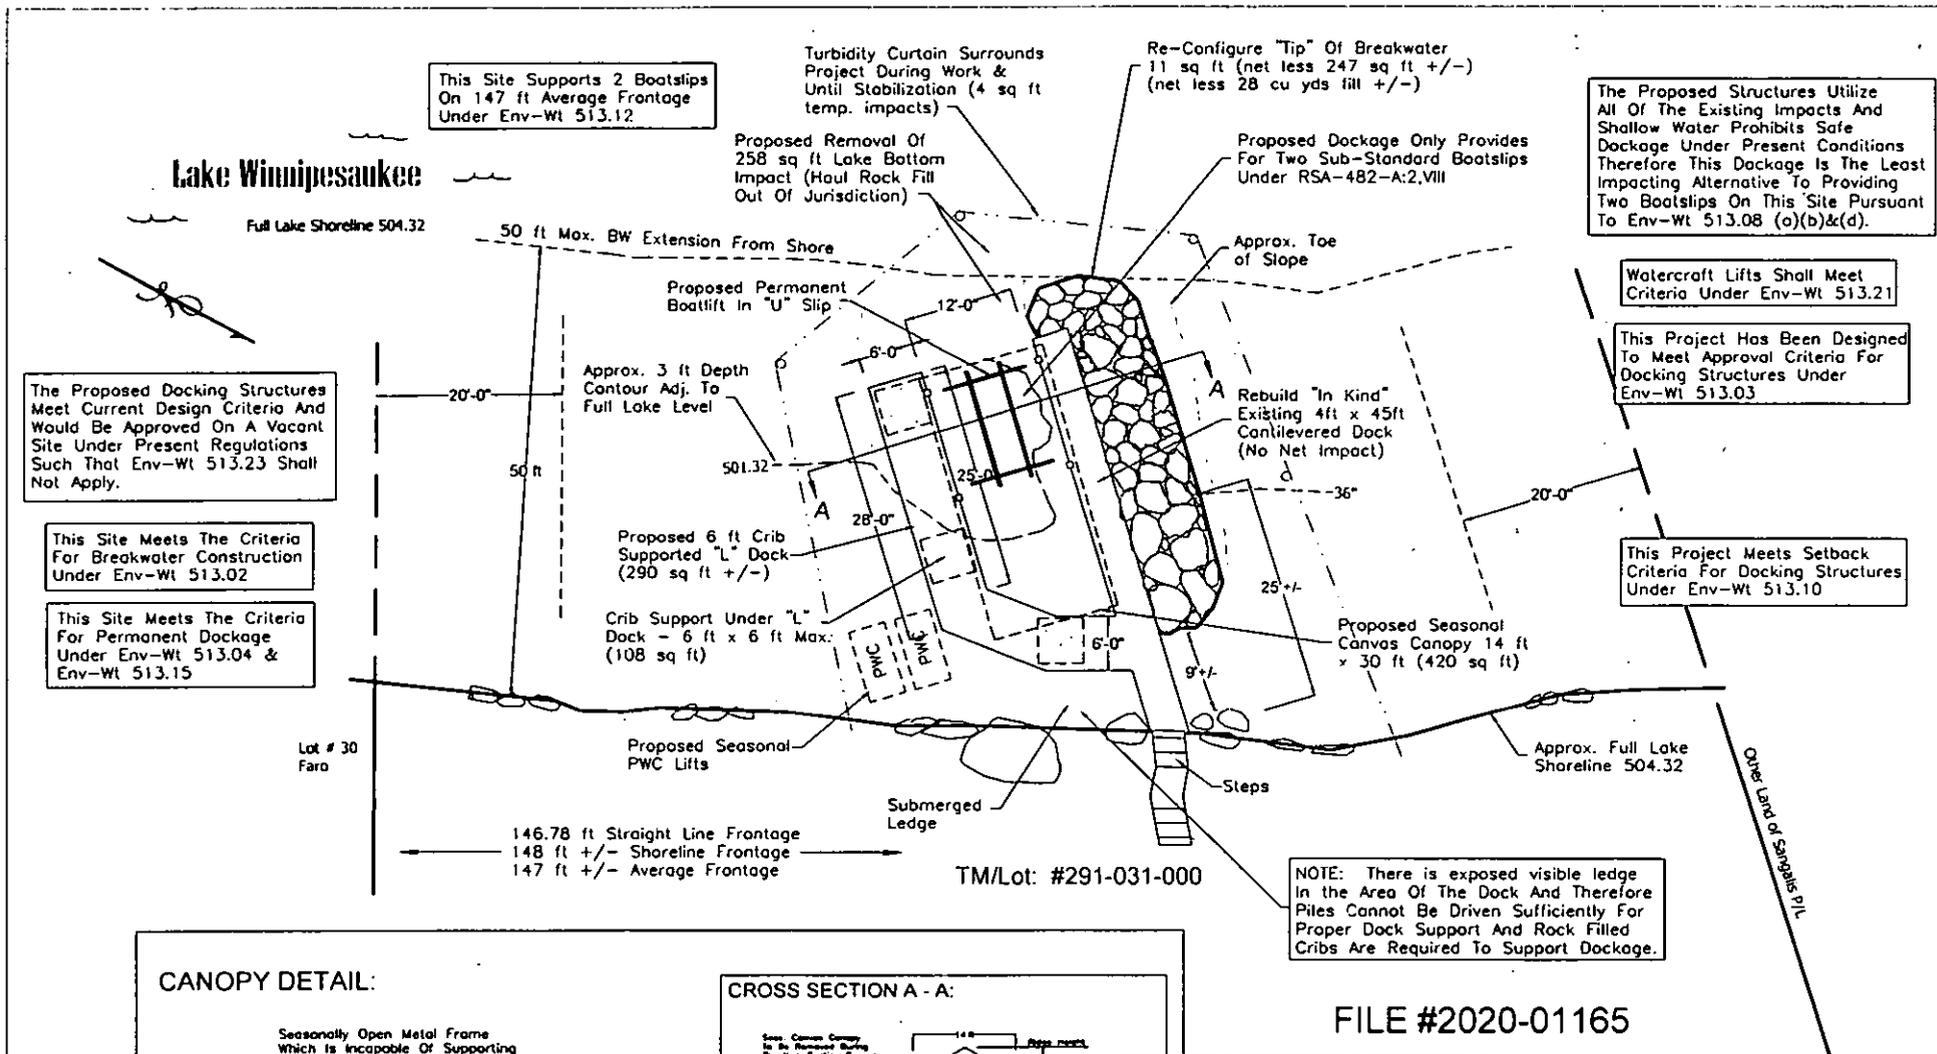

This report is valid through 4/27/2021.

Impact 269 square feet of bank in order to install a 4 foot x 65 foot hill tram, remove an existing 3 foot x 28 foot pier, construct a 6 foot x 30 foot piling pier to be connected to an existing 4 foot x 46 foot cantilevered pier, by a 6 foot x 12 foot walkway, repair 55 linear feet of existing breakwater and 34 linear feet of existing retaining wall, and install a 4 foot x 6 foot platform on an average of 100 feet of frontage along the northwestern portion of Rattlesnake Island on Lake Winnepesaukee located in Alton.

The New Hampshire Department of Environmental Services (NHDES) imposed the following conditions as part of this approval:

1. In accordance with Env-Wt 307.16, all work shall be done in accordance with the revised plans revision date July 31, 2020 by White Mountain Survey & Engineering, Inc. as received by the NH Department of Environmental Services (NHDES) on August 6, 2020.

13. Pursuant to RSA 483-B:9, V, (a)(2)(d)(v), this permit does not authorize the removal of trees or saplings within the waterfront buffer that would result in a tree and sapling point score below the minimum required per RSA 483-B:9, V, (a)(2)(D)(iv).
14. Water quality control measures capable of minimizing erosion; collecting sediment and suspended and floating materials; and filtering fine sediment shall be selected and implemented as appropriate based on the size and nature of the project and the physical characteristics of the site, including slope, soil type, vegetative cover, and proximity to jurisdictional areas as required pursuant to Env-Wt 307.03(c).

#### EXPLANATION

The NHDES approved this project on September 04, 2020. The NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 513.24(c)(3), the proposed docking structures are proposed adjacent to and attached to a breakwater.
2. The applicant has an average of 100 feet of frontage along Lake Winnepesaukee.
3. A maximum of 2 slips may be permitted on this frontage per Rule Env-Wt 513.12, Frontage Requirements for Private and Non-commercial Docking Structures.

4. The proposed docking facility will provide 2 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 513.12.
5. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Lake Winnepesaukee a public hearing under RSA 482-A:8 is not required.
6. The applicant has provided the NHDES with evidence that the property has insufficient water depth as required by Env-Wt 513.08(b).
7. The NHDES has accepted the evidence of the physical hardship and approved the extension of a pier beyond that permissible under Env-Wt 513.11(a)(1)(b).
8. The NHDES finds that the project as proposed and conditioned meets the requirements of RSA 482-A and the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900.

Application file documents are being forwarded to the Governor and the Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3, II.(a) as it is a major project in public waters of the state.

We respectfully request your approval of this item.

**SECTION 8: AVOIDANCE AND MINIMIZATION**

Impacts within wetland jurisdiction must be avoided to the maximum extent practicable (Env-Wt 313.03(a)). If all impacts cannot be avoided, a functional assessment is required for minor and major projects (Env-Wt 311.03(b)(10)). Any project with unavoidable jurisdictional impacts must then be minimized as described in the Wetlands Best Management Practice Techniques For Avoidance and Minimization and the Wetlands Permitting: Avoidance, Minimization and Mitigation Fact Sheet.

Please refer to the application checklist to ensure that you have attached all documents related to avoidance and minimization, as well as functional assessment (where applicable). You can use the Avoidance and Minimization Checklist, the Avoidance and Minimization Narrative, or your own avoidance and minimization narrative.

**SECTION 9 - MITIGATION REQUIREMENT (Env-Wt 311:02)**  
 If unavoidable jurisdictional impacts require mitigation, a mitigation pre-application meeting must occur at least 30 days but not more than 90 days prior to submitting this standard Dredge and Fill Permit Application.

Mitigation Pre-Application Meeting Date: Month:  Day:  Year:   
 N/A - Mitigation is not required

**SECTION 10 - THE PROJECT MEETS COMPENSATORY MITIGATION REQUIREMENTS (Env-Wt 313:01(a)(1)c)**

Have you submitted a compensatory mitigation proposal that meets the requirements of Env-Wt 800 for all permanent impacts that will remain after avoidance and minimization demonstration?  Yes  No  
 N/A - Mitigation is not required

**SECTION 11 - IMPACT AREA (Env-Wt 311:04(g))**

For each jurisdictional area that will be/has been impacted, provide square feet (SF) and, if applicable, linear feet (LF) of impact and note whether the impact is after the fact (ATF, i.e., work was started or completed without required permitting).  
 For intermittent and ephemeral streams, the linear footage of impact is measured along the thread of the channel. *Please note, installation of a stream crossing in an ephemeral stream may be undertaken without a permit per Rule Env-Wt 309:02(d), however other dredge or fill impacts should be included below.*  
 For perennial streams/ rivers, the linear footage of impact is calculated by summing the lengths of disturbances to the channel and banks.  
 Permanent impacts are impacts that will remain after the project is complete (e.g., changes in grade or surface materials).  
 Temporary impacts are impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.

Project Description: Extension of an existing landing and construction of a hill tram (funicular) to facilitate moving supplies over the extremely steep banking; repair of an existing retaining wall along a perched beach; removal of an existing slender finger dock and replacing with a properly sized one; dredging of the boat slip area to maintain access to the site during periods of lake drawdown; returning or replacing fallen stones from an existing breakwater; installation of seasonal steps for water access; addition to an existing deck.

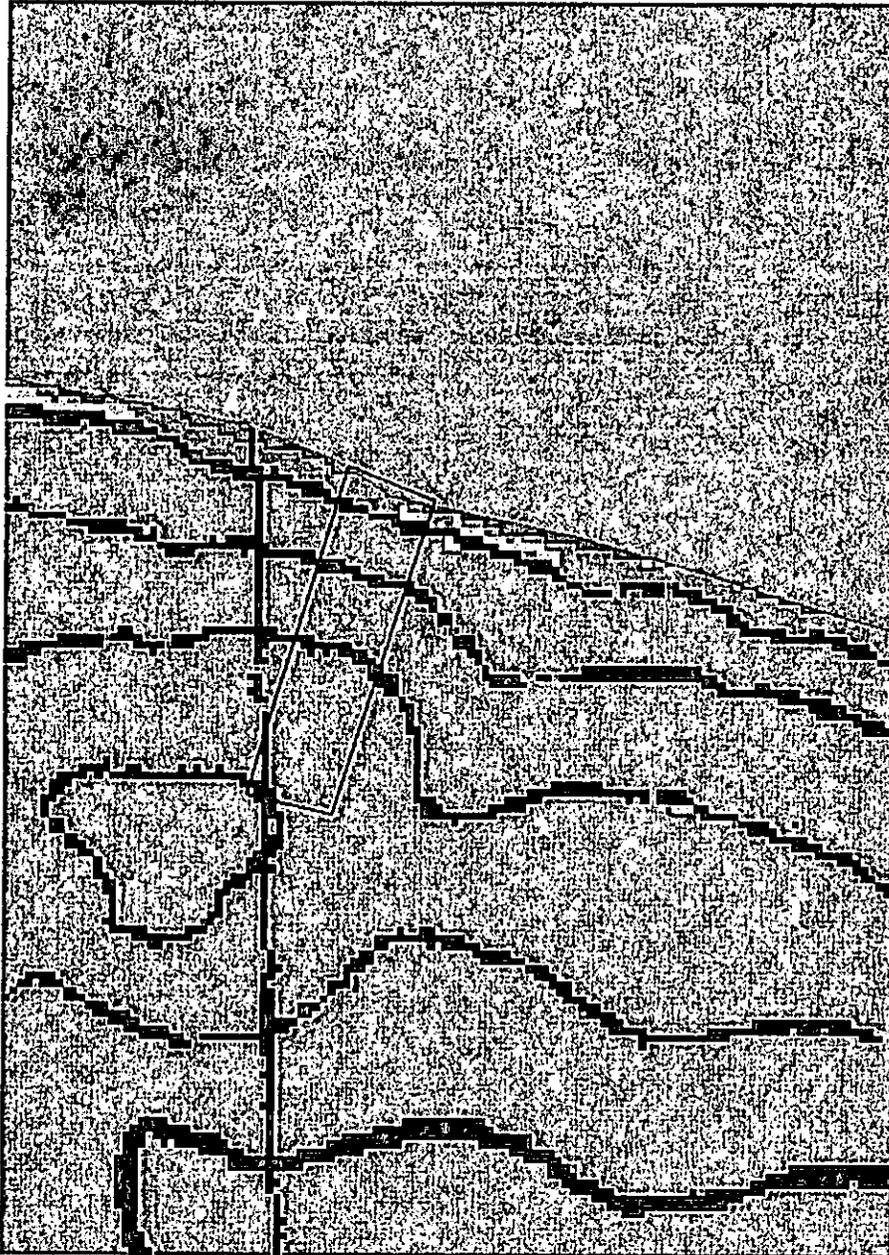

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

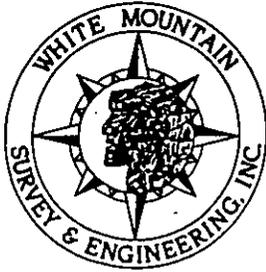

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

This report is valid through 2/19/2021.

**REQUESTED ACTION**

Approve Marceau Real Estate Investments, LLC's request to perform the following work on Lake Winnepesaukee in Gilford. File # 2020-01361. This project will not have significant impact on or adversely affect the values of Lake Winnepesaukee.

Completely remove 95 cubic yards of breakwater fill from 545 square feet of lake bed and a 4 foot x 43 foot cantilevered pier, place 98.8 cubic yards of fill on 568 square feet of lakebed to construct a 43 foot long straight breakwater 20 feet north of the pre-existing structures, construct a 6 foot x 45 foot 6 inch piling pier and 6 foot x 36 foot piling pier connected by a 6 foot x 12 foot walkway in a "U" configuration, install a 14 foot x 30 foot seasonal canopy, a single permanent boatlift, two ice protection clusters, 3 fender pilings along breakwater, and two seasonal personal watercraft lifts on an average of 153 feet of frontage along Lake Winnepesaukee on Governors Island in Gilford.

The New Hampshire Department of Environmental Services (NHDES) imposed the following conditions as part of this approval:

1. In accordance with Env-Wt 307.16, all work shall be done in accordance with the revised plans dated July 30, 2020 by Watermark Marine Construction, as received by the NH Department of Environmental Services (NHDES) on August 3, 2020.
2. This permit shall not be effective until it has been recorded in the Belknap County Registry of Deeds and a copy of the recorded permit has been provided to the NHDES as required pursuant to RSA 482-A:3, and Env-Wt 314.02.
3. All portions of the proposed pile supported docking structure shall be located at least 20 feet from the abutting property lines and no watercraft shall be secured to the docking facility such that it crosses over the imaginary extension of the property lines over the surface water as required by RSA 482-A:3, XIII.
4. In accordance with Env-Wt (e) 512.04(e), the breakwater, when measured from the normal high water line (Elev. 504.32), shall have no point more than 50 feet from the normal high water line, a total length of no more than 43 feet and a gap of 6 feet or more between the breakwater and shoreline.
5. In accordance with Env-Wt 512.05(b), no rocks shall be stockpiled in any jurisdictional area.
6. Any subdivision of the property frontage will require removal of a sufficient portion of the docking structures to comply with the dock size and density requirements in effect at the time of the subdivision as required to maintain compliance with Env-Wt 314.02 and Env-Wt 513.12.

9. The use of this structure shall be limited to the docking and securing of watercraft as required to comply with Env-Wt 307.09.
10. Owners of permanent docking structures which are not maintained so as to be structurally sound and usable for their intended purpose shall remove those docking structures in accordance with Env-Wt 513.22(c), to prevent hazards to public safety, navigation, and recreation.
11. The owner understands and accepts that should these docking structures be found to have an unreasonable impact on the ability of abutting owners to use and enjoy their properties or the public's right to navigation, passage, and use of the resource for commerce and recreation the structures shall be subject to removal pursuant to RSA 482-A:1, RSA 482-A:11, (2), and Env-Wt 513.03(a).

14. Work authorized shall be carried out in accordance with Env-Wt 307 such that appropriate turbidity controls are in place to protect water quality, that no turbidity escapes the immediate dredge area, and that appropriate turbidity controls shall remain until suspended particles have settled and water at the work site has returned to normal clarity.
15. All construction-related debris, and any breakwater material not reused in the new breakwater, shall be placed outside of those areas subject to RSA 482-A or RSA-483-B unless a permit for the deposition of materials within those areas has been obtained as required per RSA 482-A:3 or RSA 483-B:5-b respectively.
16. No activity shall be conducted in such a way as to cause or contribute to any violation of surface water quality standards specified in RSA 485-A:8 or Env-Wq 1700 as required pursuant to Env-Wt 307.03(a).
17. No agitating or heating device shall be installed for the purpose of inhibiting the formation of ice in proximity to the approved structures unless it has been registered with the municipal clerk of the town in which such device shall be operated pursuant to RSA 270:34 Registration Required.

Pursuant to RSA 270:33, Heating, Agitating, or Other Devices in Public Waters; Safety Hazard, no agitating or heating device installed in accordance with RSA 270:34 shall inhibit or prevent the natural formation of ice in such a manner as to impede either the ingress or egress to or from the ice from any property other than that of the owner of the device.
19. Pursuant to RSA 482-A:14, RSA 482-A:14-b, and RSA 482-A:14-c, the NHDES is authorized to take appropriate compliance actions should it be determined that, based upon additional information which becomes available, any of the structures depicted as "existing" on the plans submitted by or on behalf of the permittee were not previously permitted or grandfathered.

#### EXPLANATION

The NHDES approved this project on August 31, 2020. The NHDES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Env-Wt 513.24(c)(3), the proposed docking structures are proposed adjacent to and attached to a breakwater.
2. The applicant has an average of 153 feet of frontage along Lake Winnepesaukee.
3. A maximum of 3 slips may be permitted on this frontage per Rule Env-Wt 513.12, Frontage Requirements for Private and Non-commercial Docking Structures.
4. The proposed docking facility will provide 3 slips as defined per RSA 482-A:2, VIII, and therefore meets Rule Env-Wt 513.12.
5. The NHDES finds that because the project is not of significant public interest and will not significantly impair the resources of Lake Winnepesaukee a public hearing under RSA 482-A:8 is not required.
6. The applicant has provided the NHDES with evidence that the property has insufficient water depth as required by Env-Wt 513.08(b).
7. The NHDES has accepted the evidence of the physical hardship and approved the extension of a crib and cantilevered pier beyond that permissible under Env-Wt 513.11(a)(1)(b).
8. The proposed docking facility is located within the 20-foot abutter setback.
9. In accordance with RSA 482-A:3(XIII)(C), boat docking facilities may be located closer than 20 feet from an abutter's property line in non-tidal waters and 20 feet in tidal waters, if the owner of the boat docking facility obtains the written consent of the abutting property owner.
10. The owner of the proposed boat docking facility has obtained and provided consent from the abutting property owner, and has therefore met the requirement of RSA 482-A:3(XIII)(C).
11. The NHDES finds that the project as proposed and conditioned meets the requirements of RSA 482-A and the Wetlands Program Code of Administrative Rules Chapters Env-Wt 100 - 900.

Application file documents are being forwarded to the Governor and the Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3, II.(a) as it is a major project in public waters of the state.

We respectfully request your approval of this item.

Robert R. Scott  
Commissioner

**SECTION 11 - IMPACT AREA (Env-Wt 311.04(g))**

For each jurisdictional area that will be/has been impacted, provide square feet (SF) and, if applicable, linear feet (LF) of impact, and note whether the impact is after-the-fact (ATF; i.e., work was started or completed without required permitting).

For intermittent and ephemeral\* streams, the linear footage of impact is measured along the thread of the channel. \*Please note, installation of a stream crossing in an ephemeral stream may be undertaken without a permit per Rule Env-Wt 309.02(d), however other dredge or fill impacts should be included below.

For perennial streams/rivers, the linear footage of impact is calculated by summing the lengths of disturbances to the channel and banks.

Permanent impacts are impacts that will remain after the project is complete (e.g., changes in grade or surface materials).

Temporary impacts are impacts not intended to remain (and will be restored to pre-construction conditions) after the project is completed.

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped below. The species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences, based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

This report is valid through 5/5/2021.

**REQUESTED ACTION**

Authorize the Department of Education, Bureau of Vocational Rehabilitation (VR) to enter into a **sole source** contract with Granite State Independent Living (GSIL), Concord, NH, (vendor #155330), in an amount not to exceed \$1,079,294. The contract will provide the "Inspiring the Mastery of Postsecondary Achievement in College (IMPACCT)" program in four regions of NH, effective upon Governor and Council approval through September 30, 2021. 100% Federal Funds.

Funds to support this request are available in the accounts titled VR-Field Programs-Federal in FY 2021 and FY 2022, upon the availability and the continued appropriation of funds in the future operating budget, with the ability to adjust encumbrances between State Fiscal years through the Budget Office, without further Governor and Council approval, if needed and justified.

VR Client Services-Federal		

**EXPLANATION**

This request is **sole source** because GSIL has been providing this program since 2016 and was originally funded through a Request for Proposal process. This request is to continue funding the "Inspiring the Mastery of Postsecondary Achievement in College (IMPACCT)" Pre-Employment Transition Service (Pre-ETS) program, which is a collaboration between the Department of Education, Bureau of Vocational Rehabilitation and Granite State Independent Living. The program was developed and implemented in 2016 after the Workforce Innovation and Opportunity Act was reauthorized, that required VR to set aside 15% of federal funding to provide Pre-ETS to potentially eligible students.

Since 2016, the program has continued in the north country (Berlin/Littleton), Nashua, Manchester and Concord. 669 students have participated in the program, which is a 14 week (fall and spring)

and 5 week (summer) comprehensive Pre-ETS program that provides the five required services: job exploration counseling, work readiness training, work-based learning experiences, counseling on post-secondary training opportunities and self-advocacy.

Students that attend the program also earn high school credit for the program and have earned 2,643 extended learning opportunity have been completed, with 1,380 academic credits obtained. After completing the program 84 students graduated immediately, 43 students attended alternative education and 396 students returned to high school. The average student attendance rate is 93% and 79% of students in IMPACCT have an IEP, as well as 14% have a 504 plan.

HB4, when approved in October 2019, allocated \$400,000 in General Funds to be allocated toward program costs. This funding was allocated to the program in FY20.

The program was originally developed through a request for proposal (RFP) process in 2016 and GSIL was the chosen vendor to provide the program in the state. VR and GSIL are looking to continue this partnership to enhance the provision of Pre-ETS in the state.

Thank you for your consideration of this request.

Respectfully Submitted,

Frank Edelblut  
Commissioner of Education

**6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.**

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. 8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

## 9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT B. In addition, at the State's discretion, the Contractor shall, within 15 days of notice of early termination, develop and

Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant in paragraph 13 shall survive the termination of this Agreement.

### Report on the Financial Statements

We have audited the accompanying financial statements of Granite State Independent Living, which comprise the statement of financial position as of September 30, 2019, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Granite State Independent Living as of September 30, 2019 and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Report on Summarized Comparative Information**

We have previously audited Granite State Independent Living's fiscal year 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated January 17, 2019. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2018 is consistent, in all material respects, with the audited financial statements from which it has been derived.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 3, 2020 on our consideration of Granite State Independent Living's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Granite State Independent Living's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Granite State Independent Living's internal control over financial reporting and compliance.

# GRANITE STATE INDEPENDENT LIVING

## Notes to Financial Statements

For the Year Ended September 30, 2019

### 1. Organization

Granite State Independent Living (the Organization), is a New Hampshire nonprofit corporation providing a wide range of services to improve the quality of life for individuals with disabilities in New Hampshire. This is accomplished through ensuring the availability of a broad range of services, advocacy efforts, and the establishment of social support. The Organization impacts lives through two primary service areas:

**Long-Term Care Program.** The Organization offers a variety of personal care service programs based on eligibility. Personal care attendants provide non-medical, hands-on assistance with activities of daily living for seniors and adults living with disabilities. A personal care worker helps individuals bathe, dress, eat, and navigate a range of other daily tasks. In addition to providing assistance with activities of daily living, personal care workers can assist with housekeeping chores, meal preparation, and medication management. Personal care services can be delivered in either a private home, residential care setting, or an individual's place of employment. The Organization also provides nursing facility transition services.

**Community Economic Development Program.** The Organization is committed to assisting seniors and consumers with disabilities so they can function well within their community and pursue personal goals, whether through employment or earning academic credit through youth transition programs. Options are discussed through a call to Information & Referral Program Service Coordinators, who help individuals set their goals. Services provided can include benefit planning, transportation, ASL referral, peer support, and access modification. Additional services offered may include placement, job coaching; and employment through the Ticket to Work Program.

### 2. Significant Accounting Policies

#### ***Change in Accounting Principle***

On August 18, 2016, FASB issued Accounting Standards Update (ASU) 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. ASU 2016-14 has been implemented in fiscal year 2019 and the presentation in these financial statements has been adjusted accordingly.

### ***Comparative Financial Information***

The accompanying financial statements include certain prior-year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the audited financial statements for the year ended September 30, 2018, from which the summarized information was derived.

### ***Cash and Cash Equivalents***

All cash and highly liquid financial instruments with original maturities of three months or less, and which are neither held for nor restricted by donors for long-term purposes, are considered to be cash and cash equivalents. Cash and highly liquid financial instruments restricted for permanent endowment or other long-term purposes are excluded from this definition.

### ***Accounts Receivable***

Accounts receivable consist primarily of noninterest-bearing amounts due for services and programs. The allowance for uncollectable accounts receivable is based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Accounts receivable are written off when deemed uncollectable.

### ***Investments***

The Organization carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the Statement of Financial Position. Unrealized gains and losses are included in the change in net assets in the accompanying Statement of Activities.

### ***Property and Equipment***

Property and equipment additions over \$1,000 are recorded at cost, if purchased, and at fair value at the date of donation, if donated. Depreciation is computed using the straight-line method over the estimated useful lives of the assets ranging from 3 to 40 years, or in the case of capitalized leased assets or leasehold improvements, the lesser of the useful life of the asset or the lease term. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation is removed, and any resulting gain or loss is included in the Statement of Activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed.

The carrying values of property and equipment are reviewed for impairment whenever events or circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual

disposition. When considered impaired, an impairment loss is recognized to the extent carrying value exceeds the fair value of the asset. There were no indicators of asset impairment in fiscal year 2019.

### ***Net Assets***

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

*Net Assets Without Donor Restrictions* – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions.

*Net Assets With Donor Restrictions* – Net assets subject to donor- (or certain grantor-) imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity while permitting the Organization to expend the income generated by the assets in accordance with the provisions of additional donor-imposed stipulations or a Board approved spending policy. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

### ***Revenue and Revenue Recognition***

Revenue is recognized when earned. Program service fees and payments under cost-reimbursable contracts received in advance are deferred to the applicable period in which the related services are performed or expenditures are incurred, respectively.

### ***Accounting for Contributions***

Contributions are recognized when received. All contributions are reported as increases in net assets without donor restrictions unless use of the contributed assets is specifically restricted by the donor. Amounts received that are restricted by the donor to use in future periods or for specific purposes are reported as increases in net assets with donor restrictions. Unconditional promises with payments due in future years have an implied restriction to be used in the year the payment is due and, therefore, are reported as net assets with donor restrictions until the payment is due unless the contribution is clearly intended to support activities of the current fiscal year. Conditional promises, such as matching grants, are not recognized until they become unconditional, that is, until all conditions on which they depend are substantially met.

### ***Gifts-in-Kind Contributions***

The Organization periodically receives contributions in a form other than cash or investments. Contributed property and equipment is recognized as an asset at its estimated fair value at the date of gift, provided that the value of the asset and its estimated useful life meets the Organization's capitalization policy. Donated use of facilities is reported as contributions and as expenses at the estimated fair value of similar space for rent under similar conditions. If the use of the space is promised unconditionally for a period greater than one year, the amount is reported as a contribution and an unconditional promise to give at the date of gift, and the expense is reported over the term of use. Donated supplies are recorded as contributions at the date of gift and as expenses when the donated items are placed into service or distributed.

The Organization benefits from personal services provided by a substantial number of volunteers. Those volunteers have donated significant amounts of time and services in the Organization's program operations and in its fundraising campaigns. However, the majority of the contributed services do not meet the criteria for recognition in the financial statements. Generally Accepted Accounting Principles allow recognition of contributed services only if (a) the services create or enhance nonfinancial assets or (b) the services would have been purchased if not provided by contribution, require specialized skills, and are provided by individuals possessing those skills.

### ***Grant Revenue***

Grant revenue is recognized when qualifying costs are incurred for cost-reimbursement grants or contracts or when a unit of service is provided for performance grants. Grant revenue from federal agencies is subject to independent audit under the Office of Management and Budget's, *Uniform Guidance*, and review by grantor agencies. The review could result in the disallowance of expenditures under the terms of the grant or reductions of future grant funds. Based on prior experience, the Organization's management believes that costs ultimately disallowed, if any, would not materially affect the financial position of the Organization.

### ***Advertising Costs***

Advertising costs are expensed as incurred and are reported in the Statement of Activities and Statement of Functional Expenses.

### ***Functional Allocation of Expenses***

The costs of program and supporting services activities have been summarized on a functional basis in the Statement of Activities. The Statement of Functional Expenses presents the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

### ***Income Taxes***

Granite State Independent Living has been recognized by the Internal Revenue Service (IRS) as exempt from federal income taxes under Internal Revenue Code (IRC) Section 501(a) as an organization described in IRC Section 501(c)(3), qualifies for charitable contribution deductions, and has been determined not to be a private foundation. The Organization is annually required to file a Return of Organization Exempt from Income Tax (Form 990) with the IRS. In addition, the Organization is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purpose. In fiscal year 2019, the Organization was not subject to unrelated business income tax and did not file an Exempt Organization Business Income Tax Return (Form 990-T) with the IRS.

### ***Estimates***

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and those differences could be material.

### ***Financial Instruments and Credit Risk***

Deposit concentration risk is managed by placing cash with financial institutions believed to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, no losses have been experienced in any of these accounts. Credit risk associated with receivables is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from governmental agencies supportive of the Organization's mission. Investments are made by diversified investment managers whose performance is monitored by the Fiscal Committee of the Board of Directors. Although the fair values of investments are subject to fluctuation on a year-to-year basis, the Fiscal Committee believes that the investment policies and guidelines are prudent for the long-term welfare of the Organization.

### ***Fair Value Measurements and Disclosures***

Certain assets and liabilities are reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions, regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be

observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

*Level 1* – Quoted prices (unadjusted) in active markets for identical assets or liabilities that are accessible at the measurement date.

*Level 2* – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

*Level 3* – Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the assessment of the quality, risk, or liquidity profile of the asset or liability.

When available, the Organization measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. However, Level 1 inputs are not available for certain assets and liabilities that the Organization is required to measure at fair value (for example, unconditional contributions receivable and in-kind contributions).

The primary uses of fair value measures in the Organization's financial statements are:

- Initial measurement of noncash gifts, including gifts of investment assets and unconditional contributions receivable.
- Recurring measurement of investments (Note 6) – Level 1 and 2.
- Recurring measurement of line of credit (Note 8) – Level 2.
- Recurring measurement of contracts payable (Note 9) – Level 2.

The carrying amounts of cash and cash equivalents, restricted cash, accounts receivable, prepaid expenses, accounts payable, accrued payroll and related liabilities, accrued expenses, and deferred revenue approximate fair value due to their short-term nature.

### ***New Accounting Standards to be Adopted in the Future***

#### ***Revenue from Contracts with Customers***

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*. The ASU's core principle is that an organization will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the organization expects to be entitled in exchange for those goods or services. This ASU also includes expanded disclosure requirements that result in an entity providing users of financial statements with comprehensive information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's contracts with customers. This ASU will be effective for the Organization for the fiscal year ending September 30, 2020. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

#### ***Contributions Received and Contributions Made***

In June 2018, the FASB issued ASU 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. The purpose of this amendment, due to diversity in practice, is to clarify the definition of an exchange transaction as well as the criteria for evaluating whether contributions are unconditional or conditional. This ASU will be effective for the Organization for the fiscal year ending September 30, 2020. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

#### ***Leases***

In February 2016, the FASB issued ASU 2016-02, *Leases*. The ASU requires all leases with lease terms more than 12 months to be capitalized as a right of use asset and lease liability on the Statement of Financial Position at the date of lease commencement. Leases will be classified as either finance leases or operating leases. This distinction will be relevant for the pattern of expense recognition in the Statement of Activities. This ASU will be effective for the Organization for the fiscal year ending September 30, 2022. The Organization is currently in the process of evaluating the impact of adoption of this ASU on the financial statements.

### 3. Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the date of the Statement of Financial Position, are comprised of the following at September 30, 2019:

Financial assets at year-end:	
Cash and cash equivalents	\$ 3,503,020
Accounts receivable	1,505,293
Investments	<u>1,035,041</u>
Total financial assets	6,043,354
Less amounts not available to be used within one year:	
Net assets with donor restrictions:	
Time and purpose restrictions not expected to be met in less than one year	(42,283)
Perpetual endowment	<u>(195,642)</u>
Financial assets available to meet general expenditures over the next year	\$ <u>5,805,429</u>

Endowment funds consist of donor-restricted endowments. Income from donor-restricted endowments are available for general use. The portion of endowment funds that are perpetual in nature are not available for general expenditure.

The Organization regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of its available funds. In addition to financial assets available to meet general expenditures over the next year, the Organization operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

As part of liquidity management plan, the Organization also has a \$1,000,000 revolving line of credit available to meet cash flow needs.

### 4. Restricted Cash

The Organization is the fiscal sponsor for Transport NH, an advocacy organization currently seeking exempt status as an organization described in IRC Section 501(c)(3).

**5. Accounts Receivable, Net**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of the investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the Organization's investments to interest rate fluctuations is as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in Years)</u>			
		<u>Less Than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>N/A</u>
Exchange-traded funds	\$ 119,476	\$ -	\$ -	\$ -	\$ 119,476

The Organization's investment policy states that not more than 10% (at cost) of the investment portfolio may be invested in the securities of any one issue, with the exception of the U.S. Government or its agencies. The maximum amount invested in the securities of issuers in the same industry shall not be more than 25% (at cost) of the portfolio. At September 30, 2019, the Organization invested \$100,000 in Freddie Mac U.S. Treasury obligations, which accounted for approximately 10% of total investments (at cost).

**7. Property, Equipment, and Depreciation**

A summary of the major components of property and equipment is presented below:

	<u>2019</u>	<u>2018</u>
Land	\$ 69,198	\$ 69,198
Buildings and improvements	1,386,907	1,380,261

Depreciation expense totaled \$278,014 and \$277,574 in fiscal years 2019 and 2018, respectively.

**8. Line of Credit**

At September 30, 2019, the Organization had a \$1,000,000 revolving line of credit with a bank, secured by all assets. Borrowings under the line bear interest at the bank's LIBOR Advantage rate plus 3.50%, with a floor of 5.00%, adjusted monthly. Interest only payments are required monthly with the principal payable on demand. At September 30, 2019, the Organization had no outstanding balance on the line of credit and did not draw on the line during fiscal year 2019.

**9. Contracts Payable**

In fiscal year 2016, the Organization entered into a lease agreement for a new Nashua office location. The Organization was required to make leasehold improvements which were paid in full by the lessor. As part of the terms of the agreement, the Organization is required to pay the lessor \$663 monthly, in addition to the base rent, for the improvements performed by the lessor. At September 30, 2019, the outstanding balance was \$15,238. The following is a summary of future payments:

<u>Fiscal Year</u>	<u>Amount</u>
2020	\$ 7,950
2021	<u>7,288</u>
Total	<u>\$ 15,238</u>

## 10. Endowment Funds

### *Types of Funds*

The Organization's endowment consists of individual funds established by donors to provide funding for specific activities and general operations. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors has interpreted the New Hampshire Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, unless there are explicit donor stipulations to the contrary. At September 30, 2019, there were no such donor stipulations. As a result of this interpretation, net assets with donor restrictions are classified as (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts donated to the endowment (including contributions receivable net of discount and allowance for doubtful accounts), and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. Donor-restricted amounts not retained in perpetuity are subject to appropriation for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. The following factors were considered in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund.
- The purposes of the Organization and the donor-restricted endowment fund.
- General economic conditions.
- The possible effect of inflation and deflation.
- The expected total return from income and the appreciation of investments.
- Other resources of the Organization.
- The investment policies of the Organization.

### *Investment and Spending Policies*

The Organization has adopted investment and spending policies for the investment funds that attempt to provide a predictable stream of funding for operations while seeking to maintain the purchasing power of the investment assets. Over time, long-term rates of return should be equal to an amount sufficient to maintain the purchasing power of the investment assets, to provide the necessary capital to fund the spending policy, and to cover the costs of managing the investment funds. The target minimum rate of return is the Consumer Price Index plus 5% on an annual basis. Actual returns in

any given year may vary from this amount. To satisfy this long-term rate-of-return objective, the investment portfolio is structured on a total-return approach through which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). A significant portion of the funds are invested to seek growth of principal over time or unless the Organization needs to access for immediate need, with Board approval.

The investment fund spending-rate formula is used to determine the maximum amount to spend from the investment fund each year. The rate, determined and adjusted from time to time by the Board of Directors, is applied to the average fair value of the investment fund investments for the prior 12 quarters at December 31 of each year to determine the spending amount for the upcoming year. During fiscal year 2019, the spending rate maximum was 4.5%. In establishing this policy, the long-term expected return on the investment fund was considered, the rate set with the objective of maintaining the purchasing power of the investment fund over time.

***Funds with Deficiencies***

Due to market conditions, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. There were no deficiencies at September 30, 2019 and 2018.

Changes in endowment net assets for the year ended September 30, 2019 are as follows:

	<u>Perpetual Endowment</u>
Endowment net assets, beginning of year	\$ 193,932
Contributions	1,710
Interest and dividends	-
Investment fees	<u>-</u>
Endowment net assets, end of year	<u>\$ 195,642</u>

## 11. Net Assets With Donor Restrictions

Net assets with donor restrictions are comprised of the following at September 30, 2019 and 2018:

	<u>2019</u>	<u>2018</u>
Time and purpose restricted:		
Access modification program	\$ 18,016	\$ 16,461
Advocacy activities	5,161	-
Community economic development program	6,790	6,790
IMPACCT program	<u>12,316</u>	<u>13,558</u>
Total time and purpose restricted	42,283	36,809
Perpetual endowment	<u>195,642</u>	<u>193,932</u>
Total	<u>\$ 237,925</u>	<u>\$ 230,741</u>

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose or the occurrence of the passage of time as follows for the years ended September 30, 2019 and 2018:

	<u>2019</u>	<u>2018</u>
Subject to expenditure for specified purpose:		
Access modification program	\$ 47,199	\$ 40,086
Advocacy activities	64	-
IMPACCT program	<u>1,242</u>	<u>462</u>
Total	<u>\$ 48,505</u>	<u>\$ 40,548</u>

## 12. Functionalized Expenses

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses may require allocation on a reasonable basis that is consistently applied. Expenses that relate solely to the functional categories are directly charged, however, there are certain expenses that are allocated. Personnel expenses, including salaries and wages, employee benefits, and payroll taxes, are allocated based on time and effort estimates. Building occupancy costs are allocated on a square footage basis.

**13. Retirement Plan**

The Organization provides a tax-deferred annuity plan qualified under Section 403(b) of the Internal Revenue Code. All salaried employees working 30 or more hours a week and are 21 years of age or older may participate in the plan. The Organization matches up to 100% of employee contributions to the plan, to a maximum of 6% of salaries, depending on the years of service. The Organization contributed \$114,166 and \$118,410 for the years ended September 30, 2019 and 2018, respectively.

**14. Operating Leases**

The Organization leases office space under the terms of non-cancellable lease agreements that are scheduled to expire at various times through 2024. The Organization also rents additional facilities on a month to month basis. Rent expense under these agreements, which is included in building occupancy in the Statement of Functional Expenses, totaled \$221,886 and \$274,101 for the years ended September 30, 2019 and 2018, respectively.

Estimated future minimum lease payments are as follows:

<u>Fiscal Year</u>	<u>Amount</u>
2020	\$ 186,321
2021	101,956
2022	59,417
2023	50,742
2024	<u>47,789</u>
Total future minimum rental payments	<u>\$ 446,225</u>

The Organization also leases office equipment under non-cancellable lease agreements that are scheduled to expire at various times through 2022. Equipment rental expense, which is included in equipment lease and maintenance in the Statement of Functional Expenses, totaled \$45,616 and \$44,649 for the years ended September 30, 2019 and 2018, respectively.

**15. Concentrations of Risk**

A material part of the Organization's revenue is dependent upon government sources, the loss of which would have a materially adverse effect on the Organization. During the years ended September 30, 2019 and 2018, Medicaid accounted for 59% and 61%, respectively, of total revenues and 49% and 62%, respectively, of total accounts receivable. The State of New Hampshire contracts with managed care organizations to reimburse the Organization as a provider of services rendered.

**16. Supplemental Disclosures of Cash Flow Information**

The Organization has adopted Accounting Standard Update (ASU) No. 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. The amendments in this update require that a Statement of Cash Flows explain the change during the fiscal year to include restricted cash as part of the total of cash and cash equivalents.

The following table provides a reconciliation of cash, cash equivalents, and restricted cash reported within the Statement of Financial Position that sum to the total of the same such amounts shown in the Statement of Cash Flows.

	<u>2019</u>	<u>2018</u>
Cash and cash equivalents	\$ 3,503,020	\$ 3,198,885
Restricted cash	<u>19,072</u>	<u>30,082</u>
Total cash, cash equivalents, and restricted cash shown in the Statement of Cash Flows	<u>\$ 3,522,092</u>	<u>\$ 3,228,967</u>

**17. Reclassifications**

Certain reclassifications of amounts previously reported have been made to the accompanying financial statements to maintain consistency between periods presented. The reclassifications had no impact on previously reported net assets.

**18. Subsequent Events**

Subsequent events have been evaluated through February 3, 2020, which is the date the financial statements were available to be issued.

**REQUESTED ACTION**

Authorize the Department of Education, Bureau of Vocational Rehabilitation to enter into a grant agreement with Behavioral Health & Developmental Services of Strafford County, Inc., Dover, New Hampshire (Vendor Code 177278), in an amount not to exceed \$100,000, to support the Project SEARCH training program to individuals with developmental and intellectual disabilities, effective upon Governor and Council approval through December 31, 2021. 100% Federal Funds.

Funds to support this request are available in the account titled VR Field Programs Federal in FY 2021 as follows:

	<u>FY 2021</u>

Contracts for Program Services	

**EXPLANATION**

Behavioral Health & Developmental Services of Strafford County, Inc. has been the provider of the Project SEARCH (PS) Seacoast program since 2012. The Project SEARCH program is a sector-based training program for individuals with developmental and intellectual disabilities with an extremely successful placement rate. The Seacoast program was honored with a national award in 2018/2019 due to a 100% placement rate for the participants.

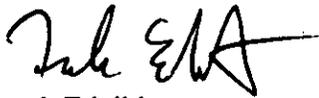

Behavioral Health & Developmental Services of Strafford County, Inc. has a full spectrum of behavioral health and developmental services for residents of Strafford County. Services include: health & wellness and life skills activities, case management, residential programs, supported employment, service link and many more for children, families, adolescents, adults and elders. From 2012 – 2020, 51 graduates have been placed with over 25 different local companies. Companies include: CVS, Newick's Lobster House, FCI Federal, Christmas Tree Shops, Hannaford, St. Anne Long Term Care, Holiday Inn, Staples, Home Depot, Market Basket, Portsmouth Regional Hospital, Regal Cinemas, Fairfield Inn and Port City Pretzel.

Due to the employment status of these individuals, the level of Medicaid funded day services diminishes, and in some cases is not needed at all. The average Medicaid funded day program for an individual is \$40,000 per year. The typical graduating class would have 2 individuals who are employed full time and 5 employed part time which would lead to an annual Medicaid savings of \$180,000. Over a 5 year period that would be a Medicaid savings of \$900,000 for one year of Project SEARCH graduates. In addition this group of individuals who are working successfully will be paying taxes and are contributing members of their community.

Behavioral Health & Developmental Services of Strafford County, Inc. has been offering the Project SEARCH program with great success. This program is vital to the participants who are learning how to function in the employment sector and find meaningful work and fulfillment in their lives. Employment is a critical part of society and life for all individuals. Project SEARCH has developed participants into successful tax-paying citizens with futures full of independence and opportunities.

Should Federal Funds become unavailable, General Funds will not be requested to support this project.

Respectfully Submitted,

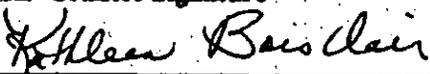

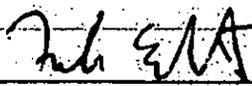

Frank Edelblut  
Commissioner of Education

Explanation

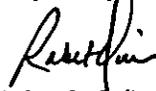

The Division of Homeland Security and Emergency Management requires the transfer of funds to renew the license for the hazardous materials response and reporting software as identified within the FFY 2018 Hazardous Materials Emergency Preparedness (HMEP) federal application submitted in June 2018. As the lead agency for Emergency Support Function (ESF) #10 Hazardous Materials, the Office of the State Fire Marshal provides State support to local, state, and federal agencies in response to and management of an actual or potential release of hazardous materials and oil spills from a natural, manmade, technological disaster, or a terrorist event.

The mission of the hazardous materials response and reporting software for the State is to assist with emergency planning efforts and prepare for hazardous materials exercises, as well as how standard hazmat incidents are handled. The software will help with reviewing and updating Title III emergency response plans, test response plans by creating hazardous materials transportation exercises, determine new hazardous materials threats, assess response capabilities, and perform a partial commodity flow study using Tier II data.

Funds to purchase this software were budgeted in Class 072 requiring an award to the sub-recipient prior to procurement. This transfer eliminates the need for an additional sub-recipient award and allows the Department of Safety to expedite the procurement of the software.

There are no General funds required with this request. In the event that Federal funds are no longer available, General funds and/or Highway funds will not be requested to support this program.

Respectfully submitted,

Explanation

The Assistance to Firefighters Grant is an annual grant award program administered by the Federal Emergency Management Agency (FEMA) and used to support the training of firefighters and emergency medical personnel across the state. The Division of Fire Standards and Training (FSTEMS) has utilized prior year grant awards to replace pediatric manikins, self-contained breathing apparatus (SCBA) cylinders, and the fire-proof lining within a burn building. This year's grant funding is being combined with \$696,000 in previously approved FY20/FY21 capital budget funding to purchase a new Ladder Truck. This new Ladder Truck will replace the existing twenty-four year old apparatus which uses antiquated technology and is no longer fully effective as a learning tool. The capital funds will be used to support the 15% match required by the grant.

At the time the State budget was created, the final federal grant award allocation and amount was unknown. This transfer is needed to reallocate funding between classes to match the final federal award budget. Funds are to be transferred and budgeted as follows:

Funds in class 030, Equipment New/Replacement, will be used to purchase a new Ladder Truck. Funds are available in all other classes due to changes in the final federal award budget.

The following information is provided in accordance with the Budget Officer's instructional memorandum dated April 17, 1985 to support the above requested actions:

- 1) *Does transfer involve continuing programs or one-time projects?* The transfer supports continuing programs.
- 2) *Is this transfer required to maintain existing program level or will it increase the program level?* This transfer is required to maintain existing program levels.
- 3) *Cite any requirements which make this program mandatory.* RSA 21-P:12-a
- 4) *Identify the source of funds on all accounts listed on this transfer.* 100% Federal Funds.
- 5) *Will there be any effect on revenue if this transfer is approved or disapproved?* Without this transfer, federal revenues will go unused.
- 6) *Are funds expected to lapse if this transfer is not approved?* Yes, the federal funds will lapse if the transfer is not approved.
- 7) *Are personnel services involved?* No

In the event that Federal Funds become no longer available, General Funds and/or Highway Funds will not be requested to support this program.

11.2.3 Set off against any other obligation the State may owe to the Subrecipient any damages the State suffers by reason of any Event of Default; and

Effective upon Governor and Council approval through September 29, 2021. Funding source: 100% Federal Funds.

Funding is available in the SFY 2021 operating budget as follows:

072-500574	Grants to Local Gov't - Federal		
Activity Code: 23HMEP 2020			\$10,700.00

Explanation

4. **EFFECTIVE DATE; COMPLETION OF PROJECT.**

4.1. This Agreement, and all obligations of the parties hereunder, shall become effective on the date of approval of this Agreement by the Governor and Council of the State of New Hampshire if required (block 1.17), or upon signature by the State Agency as shown in block 1.14 ("the effective date").

In accordance with the provisions set forth in EXHIBIT B, and in consideration of the satisfactory performance of the Project, as determined by the State, and as limited by subparagraph 5.5 of these general provisions, the State shall pay the Subrecipient the Grant Amount. The State shall withhold from the amount otherwise payable to the Subrecipient under this subparagraph 5.3 those sums required, or permitted, to be withheld pursuant to N.H. RSA 80:7 through 7-c.

5.4. The payment by the State of the Grant amount shall be the only, and the complete payment to the Subrecipient for all expenses, of whatever nature, incurred by the Subrecipient in the performance hereof, and shall be the only, and the complete, compensation to the Subrecipient for the Project. The State shall have no liabilities to the Subrecipient other than the Grant Amount.

5.5. Notwithstanding anything in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made, hereunder exceed the Grant limitation set forth in block 1.8 of these general provisions.

6. **COMPLIANCE BY SUBRECIPIENT WITH LAWS AND REGULATIONS.**

In connection with the performance of the Project, the Subrecipient shall comply with all statutes, laws regulations, and orders of federal, state, county, or municipal authorities which shall impose any obligations or duty upon the Subrecipient, including the acquisition of any and all necessary permits.

Such accounts shall be supported by receipts, invoices, bills and other similar documents.

7.2. Between the Effective Date and the date three (3) years after the Completion Date, at any time during the Subrecipient's normal business hours, and as often as the State shall demand, the Subrecipient shall make available to the State all records pertaining to matters covered by this Agreement. The Subrecipient shall permit the State to audit, examine, and reproduce such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, data (as that term is hereinafter defined), and other information relating to all matters covered by this Agreement. As used in this paragraph, "Subrecipient" includes all persons, natural or fictional, affiliated with, controlled by, or under common ownership with, the entity identified as the Subrecipient in block 1.3 of these provisions.

The Subrecipient warrants that all personnel engaged in the Project shall be qualified to perform such Project, and shall be properly licensed and authorized to perform such Project under all applicable laws.

8.3. The Grant Officer shall be the representative of the State hereunder. In the event of any dispute hereunder, the interpretation of this Agreement by the Grant Officer, and his/her decision on any dispute, shall be final.

9. **DATA; RETENTION OF DATA; ACCESS.**

9.1. As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulae, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations,

computer programs, computer printouts, notes, letters, memoranda, paper, and documents, all whether finished or unfinished.

9.2. Between the Effective Date and the Completion Date the Subrecipient shall grant to the State, or any person designated by it, unrestricted access to all data for examination, duplication, publication, translation, sale, disposal, or for any other purpose whatsoever.

9.3. No data shall be subject to copyright in the United States or any other country by anyone other than the State.

9.4. On and after the Effective Date all data, and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason, whichever shall first occur.

9.5. The State, and anyone it shall designate, shall have unrestricted authority to publish, disclose, distribute and otherwise use, in whole or in part, all data.

10. **CONDITIONAL NATURE OF AGREEMENT.** Notwithstanding anything in this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability or continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available or appropriated funds. In the event of a reduction or termination of those funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this Agreement immediately upon giving the Subrecipient notice of such termination.

11. **EVENT OF DEFAULT; REMEDIES.**

11.1. Any one or more of the following acts or omissions of the Subrecipient shall constitute an event of default hereunder (hereinafter referred to as "Events of Default"):

11.1.2 Failure to submit any report required hereunder; or

11.1.3 Failure to maintain, or permit access to, the records required hereunder; or

11.1.4 Failure to perform any of the other covenants and conditions of this Agreement.

11.2. Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:

11.2.1 Give the Subrecipient a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this Agreement, effective two (2) days after giving the Subrecipient notice of termination; and

11.2.2 Suspend all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the Subrecipient during the period from the date of such notice until such time as the State determines that the Subrecipient has cured the Event of Default shall never be paid to the Subrecipient; and

11.2.3 Set off against any other obligation the State may owe to the Subrecipient any damages the State suffers by reason of any Event of Default; and

11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity, or both.

12. **TERMINATION.**

12.1. In the event of any early termination of this Agreement for any reason other than the completion of the Project, the Subrecipient shall deliver to the Grant Officer, not later than fifteen (15) days after the date of termination, a report (hereinafter referred to as the "Termination Report") describing in detail all Project Work performed, and the Grant Amount earned, to and including the date of termination.

12.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall entitle the Subrecipient to receive that portion of the Grant amount earned to and including the date of termination.

12.3. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Subrecipient from any and all liability for damages sustained or incurred by the State as a result of the Subrecipient's breach of its obligations hereunder.

12.4. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Subrecipient hereunder, the Subrecipient, may terminate this Agreement without cause upon thirty (30) days written notice.

13. **CONFLICT OF INTEREST.** No officer, member or employee of the Subrecipient, and no representative, officer or employee of the State of New Hampshire or of the governing body of the locality or localities in which the Project is to be performed, who exercises any functions or responsibilities in the review or

14. **SUBRECIPIENT'S RELATION TO THE STATE.** In the performance of this Agreement the Subrecipient, its employees, and any subcontractor or subgrantee of the Subrecipient are in all respects independent contractors, and are neither agents nor employees of the State. Neither the Subrecipient nor any of its officers, employees, agents, members, subcontractors or subgrantees, shall have authority to bind the State nor are they entitled to any of the benefits, workmen's compensation or emoluments provided by the State to its employees.
  15. **ASSIGNMENT AND SUBCONTRACTS.** The Subrecipient shall not assign, or otherwise transfer any interest in this Agreement without the prior written consent of the State. None of the Project Work shall be subcontracted or subgranted by the Subrecipient other than as set forth in Exhibit A without the prior written consent of the State.

Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this agreement.
  17. **INSURANCE AND BOND.**
    - 17.1 The Subrecipient shall, at its own expense, obtain and maintain in force, or shall require any subcontractor, subgrantee or assignee performing Project work to obtain and maintain in force, both for the benefit of the State, the following insurance:
      - 17.1.1 Statutory workmen's compensation and employees liability insurance for all employees engaged in the performance of the Project, and

    18. **WAIVER OF BREACH.** No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event, or any subsequent Event. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure of waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Subrecipient.
    19. **NOTICE.** Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses first above given.
    20. **AMENDMENT.** This Agreement may be amended, waived or discharged only by an instrument in writing signed by the parties hereto and only after approval of such amendment, waiver or discharge by the Governor and Council of the State of New Hampshire, if required, or by the signing State Agency.
    21. **CONSTRUCTION OF AGREEMENT AND TERMS.** This Agreement shall be construed in accordance with the law of the State of New Hampshire, and is binding upon and inures to the benefit of the parties and their respective successors and assignees. The captions and contents of the "subject" blank are used only as a matter of convenience, and are not to be considered a part of this Agreement or to be used in determining the intent of the parties hereto.

## EXHIBIT C.1

### Special Provisions Addendum

The "Subrecipient" agrees to be bound to the same terms and conditions of the *Code of Federal Regulations (CFR) Title 2, Grants and Agreements, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (2 CFR 200) in which the State of New Hampshire is bound as "Recipient" as specified here: [https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200\\_main\\_02.tpl](https://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl).

#### 1. Subaward Requirements

Subrecipients of HMEP funds must adhere to the requirements outlined at 2 CFR §200.330 - Subrecipient and Contractor Determinations and 2 CFR §200.331 - Requirements for Pass-Through Entities. The Recipient (NHDOS) must make the proper distinction between contract and a subaward as required by §200.330.

**Subaward** - A subaward is for the purpose of carrying out a portion of a Federal award. See 2 CFR §200.92 - Subaward. Characteristics which support the classification of the non-Federal entity as a subrecipient include when the non-Federal entity:

- Determines who is eligible to receive what Federal assistance;
- Has its performance measured in relation to whether objectives of a Federal program were met;
- Has responsibility for programmatic decision-making;
- Is responsible for adherence to applicable Federal program requirements specified in the Federal award; and
- In accordance with its agreement, uses the Federal funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the pass-through entity.

**Contract** - A contract is for the purpose of obtaining goods and services for the non-Federal entity's own use and creates a procurement relationship with the contractor. See 2 CFR §200.22 - Contract. Characteristics indicative of a procurement relationship between the non-Federal entity and a contractor are when the non-Federal entity receiving the Federal funds:

- Provides the goods and services within normal business operations;
- Provides similar goods or services to many different purchasers;
- Normally operates in a competitive environment;
- Provides goods or services that are ancillary to the operation of the Federal program; and
- Is not subject to compliance requirements of the Federal program as a result of the agreement, though similar requirements may apply for other reasons.

In determining whether an agreement between a pass-through entity and another non-Federal entity casts the latter as a subrecipient or a contractor, the substance of the relationship is more important than the form of the agreement. All of the characteristics listed above may not be present in all cases, and the pass-through entity must use judgment in classifying each agreement as a subaward or a procurement contract.

#### 2. Effect of Award

The Subrecipient, which is the organization named in Block 1.3 of this Grant Agreement, is legally responsible for, and accountable to the NH Department of Safety (NHDOS), as Recipient, for the funds provided. By acceptance of this subaward, which is accomplished by the signature(s) of the authorized Subrecipient official(s) shown on Page 1 in Blocks 1.11 and 1.12 of this Grant Agreement, the Subrecipient agrees to comply with the terms and conditions detailed or referenced below. The subaward may only be modified with the approval of the NHDOS Hazardous Materials Emergency Preparedness (HMEP) Grant Manager, or any HMEP staff to whom the authority is delegated. See Section 21 for information on the process for requesting prior approval for amendments or modifications to the grant award. If the Subrecipient materially fails to comply with the term, the HMEP Grant Program Manager or designated representative may suspend, terminate, or take other remedies as may be legally available and appropriate in the circumstances as provided in 2 CFR Part 200.

#### 3. Award Information

The total amount of funding is shown on Page 1, Block 1.8 of this Grant Agreement. The Subrecipient is responsible for any commitments or expenditures it incurs in excess of the funds provided by this award.

Changes to the approved application are governed by 2 CFR §200.308 and any applicable requirements outlined in this document of terms and conditions, as well as any special terms and conditions outlined in the grant's award letter. See Section 21 of this document for more information on the types of actions that require prior approval, and how requests should be submitted.

**5. Governing Statutes and Regulations**

The administration of this award by USDOT/PHMSA and all recipients will be based on the following Federal statutory and regulatory requirements:

- The authorizing language of 49 U.S.C. 5116;
- The regulations outlined at 49 CFR Part 110;
- 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards;
- Any other applicable Federal statutes and regulations, including, but not limited to the following:
  - The Subrecipient must comply with 49 CFR Part 20, "New Restrictions on Lobbying." 49 CFR Part 20 is incorporated by reference in this award. 49 CFR Part 20 is available at [www.gpoaccess.gov/cfr/](http://www.gpoaccess.gov/cfr/) by clicking on Title 49 CFR Part 20;
  - The Subrecipient must comply with Title VI of the Civil Right Act of 1964, which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance;
  - The Subrecipient must comply with 49 CFR Part 21, "Nondiscrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act of 1964." 49 CFR Part 21 is incorporated by reference into this award. 49 CFR Part 21 is available at: [www.gpoaccess.gov/cfr/](http://www.gpoaccess.gov/cfr/) by clicking on Title 49 CFR Part 21;
  - The Subrecipient must comply with 49 CFR Part 32, "Government wide Requirements for Drug-Free Workplace (Financial Assistance)," which implements the requirements of Public Law 100-690, Title Subtitle D, "Drug-Free Workplace Act of 1988." 49 CFR Part 32 is incorporated by reference in this award. 49 CFR Part 32 is available at: [www.gpoaccess.gov/cfr/](http://www.gpoaccess.gov/cfr/) by clicking on Title 49 CFR Part 32.
- No term or condition of this award is intended to require the Subrecipient to violate any applicable State law;
- The Subrecipient must immediately notify the NH Department of Safety's (NHDOS) HMEP grant program staff of any change in local law, conditions, or any other event, including any litigation challenging the validity of, or seeking interpretation of, any Federal law or regulation applicable to the Federal hazmat program, which may significantly affect the Subrecipient's ability to perform the program in accordance with the terms of this award;
- The Subrecipient must also immediately notify the NHDOS's HMEP Grant Program staff of any decision pertaining to the Subrecipient's conduct of litigation that may affect USDOT's interests.

**6. Order of precedence**

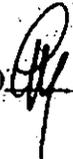

Any inconsistency or conflict in the terms and conditions specified in this award will be resolved according to the following order of precedence:

- The Federal statute authorizing this award or any other Federal statutes, laws, regulations or directives directly affecting performance of this award;
- Any special terms and conditions of this award contained in Exhibit C, Special Provisions;
- General terms and conditions of this award.

**7. General Recipient Responsibilities**

In accepting an HMEP financial assistance award, the Subrecipient assumes legal, financial, administrative, and programmatic responsibility for administering the award in accordance with the laws, rules, and regulations governing grants and cooperative agreements, these general terms and conditions, and any special conditions included in this award.

The Recipient (NHDOS) is responsible for monitoring Subrecipient activities under this subaward to ensure compliance with Federal requirements and performance objectives are being achieved and, if necessary, considering taking enforcement action against non-compliant Subrecipients as described in 2 CFR §200.338 - Remedies for Noncompliance. Monitoring of the Subrecipient must include:

- Reviewing financial and performance reports required by the pass-through entity (NHDOS);
- Following-up and ensuring that the Subrecipient takes timely and appropriate action on all deficiencies pertaining to the Federal award provided to the Subrecipient from the pass-through entity (NHDOS) detected through audits, on-site reviews, and other means;
  - Consideration of whether the results of the Subrecipient's audits, on-site reviews, or other monitoring indicate conditions that necessitate adjustments to the NHDOS's own records;
- Issuing a management decision for audit findings pertaining to the Federal award provided to the Subrecipient from the pass-through entity (NHDOS) as required by 2 CFR §200.521 - Management Decision.

The Subrecipient will be advised by the Recipient (NHDOS) of requirements imposed on them by Federal laws, regulations, and the terms and conditions of this award. These include grant administrative requirements, audit requirements under 2 CFR Part 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Failure to comply with these requirements may result in suspension or termination of the award and USDOT/PHMSA's recovery of funds.

#### 8. Subrecipient Project Director (PD)

The Subrecipient's Project Director (PD) is the individual designated as the Primary Point of Contact in the Subrecipient's application who is responsible for the technical direction of the project. The PD is considered a key person under this award and, if replacement of the PD is required, the HMEP Grant Program Manager must be notified.

Under the terms of this award, the Subrecipient, through the Subrecipient's PD, is responsible for:

- Accomplishing the objectives and, tasks specified in the approved application within the approved budget amounts (Federal share plus matching); and
- Providing required reports that are complete, accurate, and timely.

#### 9. Subrecipient's Authorized Grantee Official

The Authorized Grantee Official is a person(s) with the Subrecipient organization who has authority to legally and financially bind the organization. These are the individual(s) listed in Blocks 1.11 and 1.12 of this Grant Agreement. It is the Subrecipient's responsibility to follow their agency/community's policies and procedures for ensuring that authorized officials are up-to-date and endorse any prior approval actions.

#### 10. Required Registration in the System for Award Management

Per (Appendix A to 2 CFR Part 25), the System for Award Management (SAM) is the Official U.S. Government system that brings together different Federal procurement data systems into a unified system, with the intention of reducing duplication and information technology costs, and to help create a more streamlined and integrated Federal acquisition process. Additional information about registration procedures may be found online at <https://www.sam.gov/>. The Data Universal Numbering System (DUNS) number is the nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. A DUNS number may be obtained from D&B by telephone (currently 866-705-5711) or online at <http://fdgov.dnb.com/webform>. Unless exempted from this requirement under 2 CFR §25.110, the Subrecipient must maintain the information in SAM until the final financial report required under this award is submitted or the Subrecipient receives the final payment, whichever is later. This requires that the Subrecipient review and update the information at least annually after the initial registration, and more frequently if required by changes in your information or another award term.

NHDOS, as Recipient, must:

- Notify potential subrecipients that no entity may receive a subaward unless the entity has provided its unique entity identifier to you.
- Not make a subaward to an entity unless the entity has provided its unique entity identifier to NHDOS.

- The Subrecipient has failed to comply with the project objectives, Federal statutes, regulations, or the terms and conditions of the Federal award.
- The Subrecipient is delinquent in a debt to the United States as defined in OMB Guidance A-129, "Policies for Federal Credit Programs and Non-Tax Receivables."
- While separate depository accounts for grant funds are not required, the Subrecipient must be able to account for the receipt, obligation and expenditure of funds. Advance payments of Federal funds must be deposited and maintained in insured accounts whenever possible.
- The Subrecipient is delinquent in submitting required reports or responding to findings and corrective actions listed during the course of monitoring activities.

Each reimbursement request may be mailed in or made electronically via the HMEP Reimbursement Request Form located in our HSEM Resource Center here: [https://prd.blogs.nh.gov/dos/hsem/?page\\_id=1925](https://prd.blogs.nh.gov/dos/hsem/?page_id=1925). Payments will be made after receipt of required reporting forms and other supporting documentation as requested. Supporting documentation may include accounting records, payroll records, travel receipts, invoices or other receipts. During the normal course of monitoring, NHDOS will perform periodic "spot check" desk reviews of payments and request supporting and/or back-up documentation associated with reimbursement payments. Subrecipients must comply with these requests for information in a timely manner or may face a delay in receiving future payment.

**14. Allowable Costs**

The allowability of costs incurred by the Subrecipient will be determined using the OMB cost principles located at 2 CFR Part 200 – Subpart E.

**15. Pre-Award Costs**

All costs incurred before NHDOS notifies the Subrecipient of the award are at the Subrecipient's risk (i.e., NHDOS is under no obligation to reimburse such costs if for any reason the Subrecipient does not receive a Federal award or if the Federal award is less than anticipated and inadequate to cover such costs).

**16. Flow-Down of Requirements under Subawards**

The requirements of this award that apply to the Recipient (NHDOS) also apply to Subrecipients, i.e., entities that are carrying out part of the substantive programmatic activity, unless an exception is specified. In making subawards under the award, the Recipient must apply the Federal cost principles applicable to the particular type of organization concerned.

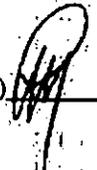

**17. Matching Requirement**

Per 49 U.S.C. §5116(e), the Subrecipient must provide 20 percent of the allowable planning and/or training costs of activities covered under this award from non-Federal sources. Subrecipients may either use cash (hard match), in-kind (soft-match) contributions, or a combination of both to meet this requirement. The types of contributions allowed are listed in 49 CFR § 110.60. Matching costs and contributions also must meet the requirements of 2 CFR §200.306, including that the costs must meet the same requirements of allowability as apply to HMEP funds. Subrecipients are required to maintain documentation of how the matching requirements have been met. This documentation will be reviewed during NHDOS's processing of the Subrecipient's reimbursement request. A lack of documentation for the statutory requirements may result in the Subrecipient being designated high-risk, placed on a corrective action plan, or the recovery of disallowed costs. Federal funds may be expended before non-Federal matching funds, provided that total program costs at completion of the program year reflect the 80 percent Federal/20 percent non-Federal allocation of costs. The matching requirement is in addition to the maintenance of effort required of Subrecipients of HMEP awards under 49 U.S.C. §5116(a)(2)(A) and (b)(2)(A) and 49 CFR §110.30(b)(2) and (c)(2).

**18. Programmatic Performance and Financial Reporting Requirements**

Upon request, the Subrecipient must provide information on activities performed and any expenditure made against the award throughout the grant's period of performance (i.e., quarterly, mid-year progress report, annual report and final report). It is important that requests for information are acted upon immediately as NHDOS sequentially forwards this data to USDOT/PHMSA with strict deadlines in place. Requested information may include:

- A summary of what was accomplished under the HMEP grant award during a specific reporting period or grant year.
- A narrative detailing how planning and/or training goals and objectives for the HMEP grant were achieved during a specific performance period.

Contract Provisions. Subrecipients of HMEP funds must be aware of the procurement requirements required by the jurisdiction and have documented policies and procedures to ensure compliance with these requirements. USDOT/PHMSA grants staff may request these policies and procedures to ensure Subrecipients are following their jurisdiction's procurement requirements as part of the overall monitoring process.

#### 21. Changes to the Approved Application and Budget (prior approval actions)

The approved budget for the Federal award summarizes the financial aspects of the project or program as approved during the Federal award process. It must be related to performance for program evaluation purposes whenever appropriate. Subrecipients are required to report deviations from budget or project, scope or objective, and request prior approvals from the NHDOS HMEP Grant Program Manager for budget and program plan revisions, in accordance with this section.

Recipients must request prior approvals from the NHDOS HMEP Grant Program Manager for the following program or budget-related reasons:

- Change in the scope or the objective of the project or program (even if there is no associated budget revision requiring prior written approval).
- Request for approval to engage in programmatic activities that were not detailed in the Subrecipient's application, budget narrative and project narrative.
- Change in a key person specified in the application or the Federal award (the Subrecipient Project Director).
- The disengagement from the project for more than three months by the approved Subrecipient Project Director.
- Unless described in the application and funded in the approved award, the subawarding, transferring or contracting out of any work under a Federal award, including fixed amount subawards as described in 2 CFR §200.332 - Fixed Amount Subawards. This provision does not apply to the acquisition of supplies, material, equipment or general support services.
- A request for a one-time extension of the period of performance by up to 12 months. For one-time extensions, the Subrecipient must notify the NHDOS HMEP Grant Program Manager in writing with the supporting reasons, the amount of funds unobligated and revised period of performance, at least 90 calendar days before the end of the period of performance specified in the Federal award (shown in Block 1.7 of the executed Grant Agreement). A *Grant Change Request Form* must be used to request an extension and must be signed or endorsed by an official with authority, the Subrecipient Project Director as well as their Financial Officer within the Subrecipient organization. This one-time extension may not be exercised merely for the purpose of using unobligated balances - there needs to be extenuating circumstances to justify approval for an extension to utilize unobligated balances. Extensions require explicit prior approval from NHDOS. Requests for extension may be submitted through the HMEP mailbox at [hmepp@doh.nh.gov](mailto:hmepp@doh.nh.gov).

#### NHDOS HMEP Grant Program Manager's Reply to Prior Approval Requests

Within 30 calendar days from the date of receipt of the request for budget revisions, the NHDOS HMEP Grant Program Manager must review the request and notify the Subrecipient whether the grant agreement revisions will be considered. Any amendments made to the original executed Grant Agreement must receive approval by NHDOS's Director of Administration or by the Governor & Council, depending on the grant's monetary threshold.

#### 22. Assessment of Subrecipient's Risk of Non-Compliance

Each Subrecipient's risk of non-compliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate Subrecipient monitoring, which may include consideration of such factors as:

- The NHDOS HMEP Program Manager completed a risk assessment on each Subrecipient at the time of application;
- The Subrecipient's prior experience with the same or similar subawards;
- The results of previous audits including whether or not the Subrecipient receives a Single Audit in accordance with 2 CFR Part 200 Subpart F - Audit Requirements, and the extent to which the same or similar subaward has been audited as a major program;
- Whether the Subrecipient has new personnel or new or substantially changed systems; and
- The extent and results of Federal awarding agency monitoring (e.g., if the subrecipient also receives Federal awards directly from a Federal awarding agency).

Depending upon NHDOS's assessment of risk posed by the subrecipient, the following monitoring tools may be used to ensure proper accountability and compliance with program requirements and achievement of performance goals:

- Providing Subrecipients with training and technical assistance on program-related matters;
- Performing on-site reviews of the Subrecipient's program operations;
- Arranging for agreed-upon-procedures engagements as described in 2 CFR §200.425 - Audit Services.

### 23. Special Terms and Conditions

As a result of the application review and risk assessment the NHDOS HMEP Grant Program Manager may include special terms and conditions in Exhibit C, Special Provisions that may supplement/amend the general terms and conditions, in accordance with 2 CFR §200.207, Specific Conditions.

Exhibit C, Special Provisions of the Grant Agreement may include conditions that must be fulfilled before Subrecipients may request payment. Subrecipients are reminded to check Exhibit C for special terms and conditions and, submit any outstanding required items.

### 24. Title to Equipment

Title to equipment purchased or fabricated under this award vests in the subrecipients, respectively, unless otherwise specified under 2 CFR §200.313 - Equipment or the special terms and conditions of the grant award.

### 25. Copyrights

USDOT/PHMSA reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal government purposes:

- The copyright in any work developed under a subaward, or a contract under a subaward; and
- Any rights of copyright to which a subrecipient purchases ownership with grant support.

### 26. Audit Requirements

As required by 2 CFR §200.501 - Audit Requirements, Subrecipients that expend \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of the regulation. Subrecipients are expected to review and fully comply with the audit requirements formerly located at A-133, and now located at 2 CFR Part 200, Subpart F.

### 27. Record Retention and Access to Records

The Subrecipient must comply with 2 CFR §200.333 - Retention Requirements for Records and 2 CFR §200.336 - Access to Records. USDOT/PHMSA, the Inspectors General, the Comptroller General of the United States, and the pass-through entity (NHDOS), or any of their authorized representatives, must have the right of access to any documents, papers, or other records of the Subrecipient which are pertinent to the Federal award, in order to make audits, examinations, excerpts, and transcripts. The right also includes timely and reasonable access to the Subrecipient's personnel for the purpose of interview and discussion related to such documents.

NHDOS, through its grant program staff or other authorized representative(s), may make site visits, at reasonable times, to review project accomplishments, management control systems and provide guidance as may be requested or required. If a site visit is made on the premises of the Subrecipient, the Subrecipient must provide reasonable facilities and assistance to NHDOS HMEP grant program representatives in the performance of their duties.

NHDOS, through its HMEP grant program staff or other authorized representative(s), may request a desk audit, at reasonable times, to review project accomplishments, management control systems and provide guidance as may be requested or required. If a desk audit is conducted, the Subrecipient is required to provide, electronically or via postal service, all records requested by NHDOS HMEP Grant Program representatives.

If USDOT/PHMSA requires access to the records of a Subrecipient or contractor under the grant, whether a part of a site visit or for another type of review, USDOT/PHMSA will coordinate the request with NHDOS HMEP grant program staff or other authorized representative(s). All site visits, desk audits, reviews, and evaluations will be performed in a manner to not unduly delay work activity under the award or other activities of the Subrecipient or contractor.

## 28. Contracting with Small and Minority Firms, Women's Business Enterprises, Veteran Owned, and HubZone Area Firms

In keeping with 2 CFR §200.321, Subrecipients are encouraged to take all necessary affirmative steps to assure that small, women-owned, minority disadvantaged businesses, veteran, and HUBZone business firms are used when possible. USDOT/PHMSA's policy is to award a fair share of contracts to small minority business, women-owned, veteran-owned and HubZone firms. USDOT is strongly committed to the objectives of this policy and encourages all recipients of its grants and cooperative agreements to take affirmative steps to ensure such fairness on the awarding of any contracts under USDOT grants or cooperative agreements.

Affirmative steps include:

- Placing qualified small and minority-disadvantaged businesses, women owned business enterprises, veteran-owned and HUBZone business firms on solicitation lists;
- Ensuring that small and minority businesses, women's business enterprises, veteran-owned and HUB Zone business firms are solicited whenever they are potential sources;
- Dividing total requirements, when economically feasible, into small tasks or quantities to permit maximum participation by small and minority businesses, women's business enterprises, veteran-owned, and HUBZone business firms;

- Using the services and assistance of the Small Business Administration and the USDOT Office of Small and Disadvantaged Business Utilization, as appropriate.

## 29. Seat Belt Use Policies and Programs

In accordance with Executive Order 13043, the Subrecipient is encouraged to adopt on-the-job seat belt use policies and programs for its employees when operating government-owned, company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this presidential initiative. For information on how to implement such a program or for statistics on the potential benefits and cost-savings to your company or organization, please visit the Buckle up America section on NHTSA's website at [www.nhtsa.dot.gov](http://www.nhtsa.dot.gov). Additional resources are available from the Network of Employers for Traffic Safety (NETS), a public-private partnership headquartered in Washington, D.C. dedicated to improving the traffic safety practices of employers and employees. NETS is prepared to help with technical assistance, a simple, user-friendly program kit, and an award for achieving the President's goal of 85 percent seat belt use. NETS can be contacted at 1-888-221-0045 or visit its website at [www.trafficsafety.org](http://www.trafficsafety.org).

## 30. Texting While Driving

In accordance with Executive Order, 13513, subrecipients and their contractors are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving personally owned vehicles when on official Government business or when performing any work for or on behalf of the Government. These efforts may include conducting education, awareness, and other outreach for employees about the safety risks associated with texting while driving and should encourage voluntary compliance with the entity's text messaging policy while off duty.

### Requested Action

Pursuant to RSA 21-P:43, the Department of Safety, Division of Homeland Security and Emergency Management (HSEM) requests authorization to enter into a grant agreement with the Town of Grantham (VC#177523-B002) to purchase emergency response on-scene lighting equipment for a total amount of \$9,130.00. Effective upon Governor and Council approval through August 31, 2021. Funding source: 100% Federal Funds.

Funding is available in the SFY 2021 operating budget as follows:

02-23-23-236010-80920000	Dept. of Safety	Homeland Sec-Emer Mgmt	100% EMPG Local Match
072-500574	Grants to Local Gov't - Federal		\$9,130.00
Activity Code: 23EMPG 2018			

### Explanation

This grant provides the Town of Grantham with the funds to purchase emergency response lighting equipment to enhance the community's on-scene response. Governor and Council approval is being sought because the amount of this grant plus the amount of previously approved grant yields a cumulative amount over the approval threshold. The grant listed above is funded from the FFY 2018 Emergency Management Performance Grant (EMPG), which was awarded to the Department of Safety, Division of Homeland Security and Emergency Management (HSEM) from the Federal Emergency Management Agency (FEMA). The grant funds are to be used to measurably improve all-hazard planning and preparedness capabilities/activities, to include mitigation, preparedness, response, and recovery initiatives at the state and local level. Grant guidance and applications are available to all Emergency Management Directors and other qualified organizations in the State. Subrecipients submit applications to this office, which are reviewed by the HSEM Planning Chief, Assistant Planning Chief and Field Representatives and approved by the HSEM Director. The criteria for approval are based on grant eligibility in accordance with the grant's current guidance and the documented needs of the local jurisdictions.

The Emergency Management Performance Grants are 50% federally funded by FEMA with a 50% match requirement supplied by the subrecipient. The subrecipient acknowledges their match obligation as part of Exhibit B to their grant agreement.

In the event that Federal Funds are no longer available, General Funds and/or Highway Funds will not be requested to support this program.

Respectfully submitted,

Robert L. Quinn  
Commissioner of Safety

The grant was approved, and the 50% match will be out of what the Town is paying for the purchase of the Utility Task Vehicle (UTV). The Town will not have to expend any additional monies towards this grant.

The Public Hearing was kept open for the duration of the meeting. There were no citizen comments in opposition to said action.

At 6:35 PM, the Grantham Select Board, in a majority vote, accepted the terms of the Emergency Management Performance Grant as presented in the amount of \$9,130.00 to purchase on scene equipment. Furthermore, the Board acknowledges that the total cost of this project will be \$18,260.00, in which the Town will be responsible for a 50% match (\$9,130.00).

### **APPOINTMENTS TO MEET WITH THE BOARD**

Andy Gelston, Grantham Energy Committee: Grantham Energy Committee Member, Andy Gelston, appeared at the previous Board of Selectmen meeting on August 12, 2020, to discuss an alternative way of purchasing power called Community Power Aggregations. He said he was here to find out what the Selectmen thought about it and if they wanted him to pursue getting more information. Chairman Garland had many questions starting with the individual communities setting up their own committees, which would then set rates, etc. and asked about the process of joining into the whole Consortium of various towns. Gelston explained that the Consortium is there to support the individual communities and

and the Honorable Council  
State House  
Concord, New Hampshire 03301

### Requested Action

Pursuant to RSA 21-P:12-a, the Department of Safety, Division of Fire Standards and Training and Emergency Medical Services (FSTEMS) requests authorization to enter into a grant agreement with the Town of Epping (VC#177517-B003) for a total amount of \$47,620.00 for the purpose of continuing a mobile integrated healthcare (MIH) program called NH Project FIRST. Effective upon Governor and Council approval through September 29, 2021. Funding source: 100% Federal Funds.

Funding is available in the SFY 2021 operating budget as follows:

02-023-023-237010-44570000	Dept. of Safety - FSTEMS - 100% Nat'l Fire Academy Grant (FR-CARA)	SFY 2021
072-500574	Grants to Local Gov't - Federal	\$47,620.00
Activity Code: 23SAMHSA21		

### Explanation

NH Project FIRST (First responders Initiating Recovery, Support, and Treatment) is designed to use specially trained first responders to connect at-risk individuals and their support networks to treatment and other services; train at-risk individuals and their support networks on overdose emergency care including the use of naloxone; and increase the number of first responders trained to carry and administer naloxone.

Since receiving grant funding, the Town of Epping has used grant funds to hire two part-time first responders to implement a mobile integrated healthcare (MIH) program and has begun conducting outreach to at-risk individuals and their support networks. In the current grant year, Epping has trained 15 first responders in CPR and naloxone use as well as 8 in opioid awareness. They join the 28 first responders trained in opioid use disorder and compassion fatigue during the previous grant year. The opioid use disorder training provides education on recognizing and understanding opioid dependence and how to connect individuals to treatment. CPR and naloxone administration training provides the necessary skills to effectively render assistance to individuals experiencing a suspected overdose emergency. One community class was held January 14, 2020 where 15 at-risk or support persons were trained in naloxone use, the Good Samaritan Law, and hands-only CPR. The two new part-time personnel have also taken recovery coach training to learn motivational interviewing skills and outreach skills to guide individuals to treatment and other services. All current recovery coaches attended a hepatitis/HIV training to enhance awareness of issues potentially encountered with opioid use. Epping has completed outreach to the 22 towns in their service area and continues to strengthen ties with them, distributing 20 naloxone kits to authorized entities in those communities. Progress has been made toward placing kits on Exeter ALS ambulances and inclusion in Exeter Hospital Emergency Department trainings. Brochures have been placed in community gathering places throughout the service area to advertise the services available and provide contact information to the public. One client referred by a participating agency completed a 28-day inpatient program, continues to remain in close contact with their recovery coach, and has been sober through Q3 of the grant. Community outreach programs have been suspended due to COVID challenges, but a CPR PowerPoint has been developed and Zoom classes are being considered as replacements. Epping has implemented a Naloxone Leave Behind

initiative with its line staff and incorporated law enforcement into the program. With the approval of grant funds, Epping plans to continue to use funds to expand awareness training and improve information networks and systems to more accurately gather, report, and track vital program data.

The grant listed above is funded from the FFY 2021 First Responder Comprehensive Addiction and Recovery Act, which was awarded to the Department of Safety, Division of Fire Standards and Training and Emergency Medical Services (FSTEMS) from the U.S. Department of Health and Human Services' Substance Abuse and Mental Health Services Administration (SAMHSA). The grant funds are to be used to implement the MIH program to reduce the number of opioid overdoses and opioid overdose deaths, and increase the number of at-risk individuals entering into treatment and recovery services throughout the State.

Grant guidance and applications are available to all New Hampshire licensed emergency medical services (EMS) units. Subrecipients submit applications to this office, which are reviewed by FSTEMS FR-CARA Staff, the FR-CARA Advisory Committee, and approved by the FSTEMS Director. The criteria for approval are based on grant eligibility in accordance with the grant's current guidance and the documented needs of the local communities.

The First Responder Comprehensive Addiction and Recovery Act (FR-CARA) grants are 100% federally funded by SAMHSA with no match requirement. In the event that Federal Funds are no longer available, General Funds and/or Highway Funds will not be requested to support this program.

Respectfully submitted,

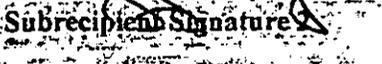

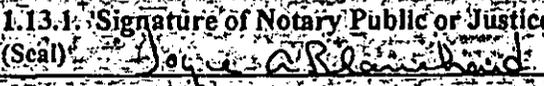

Robert L. Quinn  
Commissioner of Safety

CONCORD, N.H. 03305

ROBERT L. QUINN  
COMMISSIONER OF  
SAFETY

September 4, 2020

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, NH 03301

Requested Action

Pursuant to RSA 21-J:7-c, the Department of Safety, Division of State Police requests authorization to enter into a contract with USI Insurance Services, LLC, (vendor #286651-B001) to provide aircraft liability and inland marine insurance coverage for State Police aircraft in an amount not to exceed \$16,755.00. Effective upon Governor and Council approval for the period of November 1, 2020 to November 1, 2021. Funding Source: 49% General, 28.3% Turnpike, 22.7% Highway.

Funding is available in the SFY2021 operating budget as follows:

02-23-23-234015-40060000 - Dept. of Safety - Division of State Police - Aircraft Traffic Surveillance	<u>SFY2021</u>
020-500250 Current Expenses - Insurance and Bond Premiums:	\$16,347.00
02-23-23-234015-4003000 - Dept. of Safety - Division of State Police - Traffic Bureau	
020-500250 Current Expenses - Insurance and Bond Premiums:	<u>\$ 408.00</u>
<b>TOTAL</b>	<b>\$16,755.00</b>

Explanation

This request is necessary in order to have continued aircraft liability and scheduled equipment insurance coverage on the State Police aircraft. USI Insurance Services (USI) arranged for this purchase in accordance with its contract with the State for *Producer Services*, approved by the Governor and Executive Council on May 16, 2018 as Department of Administrative Services Item #73. The Risk Management Unit (RMU) instructed USI to market the insurance coverage with the same terms and conditions as the current insurance policy.

USI made inquiries to seven insurance markets seeking quotes for aircraft liability and inland marine coverage. Starr Aviation is the incumbent for liability coverage and quoted a renewal premium of \$12,980.00 for the same terms as expiring. Liberty Mutual is the incumbent for inland marine coverage and quoted a renewal premium of \$3,775.00 for the same terms as expiring. The additional carriers that were approached declined to quote indicating they could not compete in price.

The premium is void of agency fee or commission. USI recommends that liability coverage be secured through Starr Aviation and inland marine coverage be secured through Liberty Mutual. RMU concurs with that recommendation.

Respectfully submitted,

Robert L. Quinn  
Commissioner of Safety

**Notice:** This agreement and all of its attachments shall become public upon submission to Governor and Executive Council for approval. Any information that is private, confidential or proprietary must be clearly identified to the agency and agreed to in writing prior to signing the contract.

### Explanation

The New Hampshire State Police Forensic Laboratory is the sole provider of forensic services within the State. These funds will be used for overtime and equipment needs within the Forensic Lab, as well as continuing educational training requirements of the analysts who primarily work in the Firearms/Toolmarks, Identification, Management, and Quality Assurance sections.

The Department included this grant within the SFY2021 budget based on estimated award amounts. The actual federal award exceeded those estimates requiring this requested action to fully utilize available federal funds.

Additional funds are to be budgeted as follows:

Class 18 funds, Overtime, are needed to pay overtime for work done to reduce the backlog of analysis.

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council

Class 060 funds, Benefits, are needed to pay benefits in relation to overtime costs.

Class 066 funds, Employee Training, are needed for continuing educational training required by Lab personnel.

In the event that federal pass-through funds become no longer available, General Funds and/or Highway Funds will not be requested to support this program.

3. **AREA COVERED.** Except as otherwise specifically provided for herein, the Subrecipient shall perform the Project in, and with respect to, the State of New Hampshire.
4. **EFFECTIVE DATE; COMPLETION OF PROJECT.**
- 4.1. This Agreement, and all obligations of the parties hereunder, shall become effective on the date on the date of approval of this Agreement by the Governor and Council of the State of New Hampshire if required (block 1.17); or upon signature by the State Agency as shown in block 1.14 ("the effective date").
- 4.2. Except as otherwise specifically provided herein, the Project, including all reports required by this Agreement, shall be completed in its entirety prior to the date in block 1.7 (hereinafter referred to as "the Completion Date").
5. **GRANT AMOUNT; LIMITATION ON AMOUNT; VOUCHERS; PAYMENT.**
- 5.1. The Grant Amount is identified and more particularly described in EXHIBIT B, attached hereto.

- 5.3. In accordance with the provisions set forth in EXHIBIT B, and in consideration of the satisfactory performance of the Project, as determined by the State, and as limited by subparagraph 5.5 of these general provisions, the State shall pay the Subrecipient the Grant Amount. The State shall withhold from the amount otherwise payable to the Subrecipient under this subparagraph 5.3 those sums required, or permitted, to be withheld pursuant to N.H. RSA 80:7 through 7-c.
- 5.4. The payment by the State of the Grant amount shall be the only, and the complete, payment to the Subrecipient for all expenses, of whatever nature, incurred by the Subrecipient in the performance hereof, and shall be the only, and the complete, compensation to the Subrecipient for the Project. The State shall have no liabilities to the Subrecipient other than the Grant Amount.
- 5.5. Notwithstanding anything in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made, hereunder exceed the Grant limitation set forth in block 1.8 of these general provisions.
6. **COMPLIANCE BY SUBRECIPIENT WITH LAWS AND REGULATIONS.** In connection with the performance of the Project, the Subrecipient shall comply with all statutes, laws, regulations, and orders of federal, state, county, or municipal authorities which shall impose any obligations or duty upon the Subrecipient, including the acquisition of any and all necessary permits.
7. **RECORDS and ACCOUNTS.**
- 7.1. Between the Effective Date and the date three (3) years after the Completion Date the Subrecipient shall keep detailed accounts of all expenses incurred in connection with the Project, including, but not limited to, costs of administration, transportation, insurance, telephone calls, and clerical materials and services. Such accounts shall be supported by receipts, invoices, bills and other similar documents.

Between the Effective Date and the date three (3) years after the Completion Date, at any time during the Subrecipient's normal business hours, and as often as the State shall demand, the Subrecipient shall make available to the State all records pertaining to matters covered by this Agreement. The Subrecipient shall permit the State to audit, examine, and reproduce such records, and to make audits of all contracts, invoices, materials, payroll, records of personnel, data (as that term is hereinafter defined), and other information relating to all matters covered by this Agreement. As used in this paragraph, "Subrecipient" includes all persons, natural or fictional, affiliated with, controlled by, or under common ownership with, the entity identified as the Subrecipient in block 1.3 of these provisions.

- 8.3. The Grant Officer shall be the representative of the State hereunder. In the event of any dispute hereunder, the interpretation of this Agreement by the Grant Officer, and his/her decision on any dispute, shall be final.
9. **DATA; RETENTION OF DATA; ACCESS.**
- 9.1. As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulas, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations, computer programs, computer printouts, notes, letters, memoranda, paper, and documents, all whether finished or unfinished.
- 9.2. Between the Effective Date and the Completion Date the Subrecipient shall grant to the State, or any person designated by it, unrestricted access to all data for examination, duplication, publication, translation, sale, disposal, or for any other purpose whatsoever.
- 9.3. No data shall be subject to copyright in the United States or any other country by anyone other than the State.
- 9.4. On and after the Effective Date all data, and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason, whichever shall first occur.
- 9.5. The State, and anyone it shall designate, shall have unrestricted authority to publish, disclose, distribute and otherwise use, in whole or in part, all data.
10. **CONDITIONAL NATURE OF AGREEMENT.** Notwithstanding anything in this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability or continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available or appropriated funds. In the event of a reduction or termination of those funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this Agreement immediately upon giving the Subrecipient notice of such termination.
11. **EVENT OF DEFAULT; REMEDIES.**
- 11.1. Any one or more of the following acts or omissions of the Subrecipient shall constitute an event of default hereunder (hereinafter referred to as "Events of Default"):
- 11.1.1 Failure to perform the Project satisfactorily or on schedule; or
- 11.1.2 Failure to submit any report required hereunder; or
- 11.1.3 Failure to maintain, or permit access to, the records required hereunder; or

- 11.2. Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:
- 11.2.1 Give the Subrecipient a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this Agreement, effective two (2) days after giving the Subrecipient notice of termination; and
- 11.2.2 Give the Subrecipient a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the Subrecipient during the period from the date of such notice until such time as the State determines that the Subrecipient has cured the Event of Default shall never be paid to the Subrecipient; and
- 11.2.3 Set off against any other obligation the State may owe to the Subrecipient any damages the State suffers by reason of any Event of Default; and
- 11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity, or both.
12. **TERMINATION.**
- 12.1. In the event of any early termination of this Agreement for any reason other than the completion of the Project, the Subrecipient shall deliver to the Grant Officer, not later than fifteen (15) days after the date of termination, a report (hereinafter referred to as the "Termination Report") describing in detail all Project Work performed, and the Grant Amount earned, to and including the date of termination.
- 12.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall entitle the Subrecipient to receive that portion of the Grant amount earned to and including the date of termination.
- 12.3. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Subrecipient from any and all liability for damages sustained or incurred by the State as a result of the Subrecipient's breach of its obligations hereunder.
- 12.4. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice default has been given to the Subrecipient hereunder, the Subrecipient, may terminate this Agreement without cause upon thirty (30) days written notice.
13. **CONFLICT OF INTEREST.** No officer, member of employee of the Subrecipient, and no representative, officer or employee of the State of New Hampshire or of the governing body of the locality or localities in which the Project is to be performed, who exercises any functions or responsibilities in the review or approval of the undertaking or carrying out of such Project, shall participate in any decision relating to this Agreement which affects his or her

personal interest or the interest of any corporation, partnership, or association in which he or she is directly or indirectly interested, nor shall he or she have any personal or pecuniary interest, direct or indirect, in this Agreement or the proceeds thereof.

14. **SUBRECIPIENT'S RELATION TO THE STATE.** In the performance of this Agreement the Subrecipient, its employees, and any subcontractor or subgrantee of the Subrecipient are in all respects independent contractors, and are neither agents nor employees of the State. Neither the Subrecipient nor any of its officers, employees, agents, members, subcontractors or subgrantees, shall have authority to bind the State nor are they entitled to any of the benefits, workmen's compensation or emoluments provided by the State to its employees.
15. **ASSIGNMENT AND SUBCONTRACTS.** The Subrecipient shall not assign, or otherwise transfer any interest in this Agreement without the prior written consent of the State. None of the Project Work shall be subcontracted or subgranted by the Subrecipient other than as set forth in Exhibit A without the prior written consent of the State.
16. **INDEMNIFICATION.** The Subrecipient shall defend, indemnify and hold harmless the State, its officers and employees, from and against any and all losses suffered by the State, its officers and employees, and any and all claims, liabilities or penalties asserted against the State, its officers and employees, by or on behalf of any person, on account of, based on, resulting from, arising out of (or which may be claimed to arise out of) the acts or omissions of the Subrecipient or subcontractor, or subgrantee or other agent of the Subrecipient. Notwithstanding the foregoing, nothing herein contained shall be deemed to constitute a waiver of the sovereign immunity of the State, which immunity is hereby reserved to the State. This covenant shall survive the termination of this agreement.

## EXHIBIT C

### SPECIAL CONDITIONS – Appendix 1

#### 1. Applicability of Part 200 Uniform Requirements

The Uniform Administrative Requirements, Cost Principles, and Audit Requirements in 2 C.F.R. Part 200, as adopted and supplemented by DOJ in 2 C.F.R. Part 2800 (together, the "Part 200 Uniform Requirements") apply to this FY 2018 award from NHDOJ.

The Part 200 Uniform Requirements were first adopted by DOJ on December 26, 2014. If this FY 2018 award supplements funds previously awarded by NHDOJ under the same award number (e.g., funds awarded during or before December 2014), the Part 200 Uniform Requirements apply with respect to all funds under that award number (regardless of the award date, and regardless of whether derived from the initial award or a supplemental award) that are obligated on or after the acceptance date of this FY 2018 award.

For more information and resources on the Part 200 Uniform Requirements as they relate to NHDOJ subawards ("subgrants"), see the United States Department of Justice website at <https://DOJ.gov/funding/Part200UniformRequirements.htm>.

**Record retention and access:** Records pertinent to the award that the subrecipient ("subgrantee" at any tier) must retain -- typically for a period of 3 years from the date of submission of the final expenditure report (SF 425), unless a different retention period applies -- and to which the subrecipient must provide access, include performance measurement information, in addition to the financial records, supporting documents, statistical records, and other pertinent records indicated at 2 C.F.R. 200.333.

In the event that an award-related question arises from documents or other materials prepared or distributed by NHDOJ that may appear to conflict with, or differ in some way from, the provisions of the Part 200 Uniform Requirements, the subrecipient is to contact NHDOJ promptly for clarification.

#### 2. Compliance with DOJ Grants Financial Guide

The recipient agrees to comply with the Department of Justice Grants Financial Guide as posted on the OJP website (currently, the "2017 DOJ Grants Financial Guide"), including any updated version that may be posted during the period of performance.

#### 3. Required training for Point of Contact and all Financial Points of Contact

Both the Point of Contact (POC) and all Financial Points of Contact (FPOCs) for this award must have successfully completed an "OJP financial management and grant administration training" by 120 days after the date of the recipient's acceptance of the award.

In the event that either the POC or an FPOC for this award changes during the period of performance, the new POC or FPOC must have successfully completed an "OJP financial management and grant administration training" by 120 calendar days after (1) the date of OJP's approval of the "Change Grantee Contact" GAN (in the case of a new POC), or (2) the date the POC enters information on the new FPOC in OMS (in the case of a new FPOC).

A list of OJP trainings that OJP will consider "OJP financial management and grant administration training" for purposes of this condition is available at <http://www.ojp.gov/training/fints.htm>. All trainings that satisfy this condition include a session on grant fraud prevention and detection.

#### 4. Requirements related to "de minimis" indirect cost rate

A recipient that is eligible under the Part 200 Uniform Requirements and other applicable law to use the "de minimis" indirect cost rate described in 2 C.F.R. 200.414(f), and that elects to use the "de minimis" indirect cost rate, must advise OJP in writing of both its eligibility and its election, and must comply with all associated requirements in the Part 200 Uniform Requirements. The "de minimis" rate may be applied only to modified total direct costs (MTDC) as defined by the Part 200 Uniform Requirements.

#### 5. Requirement to report potentially duplicative funding

If the recipient currently has other active awards of federal funds, or if the recipient receives any other award of federal funds during the period of performance for this award, the recipient promptly must determine whether funds from any of those other federal awards have been, are being, or are to be used (in whole or in part) for one or more of the identical cost items for which funds are provided under this award. If so, the recipient must promptly notify the DOJ awarding agency (OJP or OVW, as appropriate) in writing of the potential duplication, and, if so requested by DOJ awarding agency, must seek a budget-modification or change-of-project-scope grant adjustment notice (GAN) to eliminate any inappropriate duplication of funding.

#### 6. Requirements related to System for Award Management and Unique Entity Identifiers

The recipient must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at <http://www.sam.gov>. This includes applicable requirements regarding registration with SAM, as well as maintaining the currency of information in SAM.

The recipient also must comply with applicable restrictions on subawards ("subgrants") to first-tier subrecipients (first-tier "subgrantees"), including restrictions on subawards to entities that do not acquire and provide (to the recipient) the unique entity identifier required for SAM registration.

The details of the recipient's obligations related to SAM and to unique entity identifiers are posted on the OJP web site at <http://ojp.gov/funding/Explore/SAM.htm> (Award condition: System for Award Management (SAM) and Universal Identifier Requirements), and are incorporated by reference here.

7. Specific post-award approval required to use a noncompetitive approach in any procurement contract that would exceed \$150,000

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements to obtain specific advance approval to use a noncompetitive approach in any procurement contract that would exceed the Simplified Acquisition Threshold (currently, \$150,000). This condition applies to agreements that - for purposes of federal grants administrative requirements - OJP considers a procurement "contract" (and therefore does not consider a subaward).

The details of the requirement for advance approval to use a noncompetitive approach in a procurement contract under an OJP award are posted on the OJP web site at <http://ojp.gov/funding/Explore/NoncompetitiveProcurement.htm> (Award condition: Specific post-award approval required to use a noncompetitive approach in a procurement contract (if contract would exceed \$150,000)), and are incorporated by reference here.

8. Requirements pertaining to prohibited conduct related to trafficking in persons (including reporting requirements and OJP authority to terminate award)

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements (including requirements to report allegations) pertaining to prohibited conduct related to the trafficking of persons, whether on the part of recipients, subrecipients ("subgrantees"), or individuals defined (for purposes of this condition) as "employees" of the recipient or of any subrecipient.

The details of the recipient's obligations related to prohibited conduct related to trafficking in persons are posted on the OJP web site at <http://ojp.gov/funding/Explore/ProhibitedConduct-Trafficking.htm> (Award condition: Prohibited conduct by recipients and subrecipients related to trafficking in persons (including reporting requirements and OJP authority to terminate award)), and are incorporated by reference here.

9. Compliance with applicable rules regarding approval, planning, and reporting of conferences, meetings, trainings, and other events.

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable laws, regulations, policies, and official DOJ guidance (including specific cost limits, prior approval and reporting requirements, where applicable) governing the use of federal funds for expenses related to conferences (as that term is defined by DOJ), including the provision of food and/or beverages at such conferences, and costs of attendance at such conferences.

Information on the pertinent DOJ definition of conferences and the rules applicable to this award appears in the DOJ Grants Financial Guide (currently, as section 3.10 of "Post award Requirements" in the "2017 DOJ Grants Financial Guide").

10. Requirement for data on performance and effectiveness under the award

The recipient must collect and maintain data that measure the performance and effectiveness of activities under this award. The data must be provided to OJP in the manner (including within the time frames) specified by OJP in the program solicitation or other applicable written guidance. Data collection supports compliance with the Government Performance and Results Act (GPRA) and the GPRA Modernization Act, and other applicable laws.

11. OJP Training Guiding Principles

Any training or training materials that the recipient -- or any subrecipient ("subgrantee") at any tier -- develops or delivers with OJP award funds must adhere to the OJP Training Guiding Principles for Grantees and Subgrantees, available at [http://ojp.gov/funding/ojp\\_trainingguidingprinciples.htm](http://ojp.gov/funding/ojp_trainingguidingprinciples.htm).

12. Effect of failure to address audit issues

The recipient understands and agrees that the DOJ awarding agency (OJP or OVW, as appropriate) may withhold award funds, or may impose other related requirements, if (as determined by the DOJ awarding agency) the recipient does not satisfactorily and promptly address outstanding issues from audits required by the Part 200 Uniform Requirements (or by the terms of this award), or other outstanding issues that arise in connection with audits, investigations, or reviews of DOJ awards.

13. The recipient agrees to comply with any additional requirements that may be imposed by the DOJ awarding agency (OJP or OVW, as appropriate) during the period of performance for this award, if the recipient is designated as "high-risk" for purposes of the DOJ high-risk grantee list.

14. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 42

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 42, specifically including any applicable requirements in Subpart E of 28 C.F.R. Part 42 that relate to an equal employment opportunity program.

15. Compliance with DOJ regulations pertaining to civil rights and nondiscrimination - 28 C.F.R. Part 38

The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable requirements of 28 C.F.R. Part 38, specifically including any applicable requirements regarding

written notice to program beneficiaries and prospective program beneficiaries. Part 38 of 28 C.F.R., a DOJ regulation, was amended effective May 4, 2016.

Among other things, 28 C. F. R. Part 38 includes rules that prohibit specific forms of discrimination on the basis of religion, a religious belief, a refusal to hold a religious belief, or refusal to attend or participate in a religious practice. Part 38 also sets out rules and requirements that pertain to recipient and subrecipient ("subgrantee") organizations that engage in or conduct explicitly religious activities, as well as rules and requirements that pertain to recipients and subrecipients that are faith-based or religious organizations.

The text of the regulation, now entitled "Partnerships with Faith-Based and Other Neighborhood Organizations," is available via the Electronic Code of Federal Regulations (currently accessible at <http://www.ecfr.gov/cgi-bin/ECFR?page=browse>), by browsing to Title 28: Judicial Administration, Chapter I, Part 38, under e-CFR "current" data.

#### 16. Restrictions on "lobbying"

Federal funds may not be used by the recipient, or any subrecipient ("subgrantee") at any tier, either directly or indirectly, to support or oppose the enactment, repeal, modification or adoption of any law, regulation, or policy, at any level of government.

Should any question arise as to whether a particular use of Federal funds by a recipient (or subrecipient) would or might fall within the scope of this prohibition, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

17. Compliance with general appropriations-law restrictions on the use of federal funds  
The recipient, and any subrecipient ("subgrantee") at any tier, must comply with all applicable restrictions on the use of federal funds set out in federal appropriations statutes. Pertinent restrictions, including from various "general provisions" in the Consolidated Appropriations Act, 2016, are set out at <http://ojp.gov/funding/Explore/FY2016-AppropriationsLawRestrictions.htm>, and are incorporated by reference here.

Should a question arise as to whether a particular use of federal funds by a recipient (or a subrecipient) would or might fall within the scope of an appropriations-law restriction, the recipient is to contact OJP for guidance, and may not proceed without the express prior written approval of OJP.

#### 18. Reporting Potential Fraud, Waste, and Abuse, and Similar Misconduct

The recipient and any subrecipients ("subgrantees") must promptly refer to the DOJ Office of the Inspector General (OIG) any credible evidence that a principal, employee, agent, subrecipient, contractor, subcontractor, or other person has, in connection with funds under this award: (1) submitted a claim that violates the False Claims Act; or (2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct.

Potential fraud, waste, abuse, or misconduct involving or relating to funds under this award should be reported to the OIG by-- (1) mail directed to: Office of the Inspector General, U.S. Department of Justice, Investigations Division, 950 Pennsylvania Avenue, N.W. Room 4706, Washington, DC 20530; (2) e-mail to: [oig.hotline@usdoj.gov](mailto:oig.hotline@usdoj.gov); and/or (3) the DOJ OIG hotline: (contact information in English and Spanish) at (800) 869-4499 (phone) or (202) 616-9881 (fax).

Additional information is available from the DOJ OIG website at <http://www.usdoj.gov/oig>.

19. Restrictions and certifications regarding non-disclosure agreements and related matters

No recipient or subrecipient ("subgrantee") under this award, or entity that receives a procurement contract or subcontract with any funds under this award, may require any employee or contractor to sign an internal confidentiality agreement or statement that prohibits or otherwise restricts, or purports to prohibit or restrict, the reporting (in accordance with law) of waste, fraud, or abuse to an investigative or law enforcement representative of a federal department or agency authorized to receive such information.

The foregoing is not intended, and shall not be understood by the agency making this award, to contravene requirements applicable to Standard Form 312 (which relates to classified information), Form 4414 (which relates to sensitive compartmented information), or any other form issued by a federal department or agency governing the nondisclosure of classified information.

1. In accepting this award, the recipient--
  - a. represents that it neither requires nor has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and
  - b. certifies that, if it learns or is notified that it is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.
2. If the recipient does or is authorized under this award to make subawards ("subgrants"), procurement contracts, or both--
  - a. it represents that--

(1) it has determined that no other entity that the recipient's application proposes may or will receive award funds (whether through a subaward ("subgrant"), procurement contract, or subcontract under a procurement contract) either requires or has required internal confidentiality agreements or statements from employees or contractors that currently prohibit or otherwise currently restrict (or purport to prohibit or restrict) employees or contractors from reporting waste, fraud, or abuse as described above; and

it has made appropriate inquiry, or otherwise has an adequate factual basis, to support this representation; and

(2) it certifies that, if it learns or is notified that any subrecipient, contractor, or subcontractor entity that receives funds under this award is or has been requiring its employees or contractors to execute agreements or statements that prohibit or otherwise restrict (or purport to prohibit or restrict), reporting of waste, fraud, or abuse as described above, it will immediately stop any further obligations of award funds to or by that entity, will provide prompt written notification to the federal agency making this award, and will resume (or permit resumption of) such obligations only if expressly authorized to do so by that agency.

20. Compliance with 41 U.S.C. 4712 (including prohibitions on reprisal; notice to employees)

The recipient must comply with, and is subject to, all applicable provisions of 41 U.S.C. 4712, including all applicable provisions that prohibit, under specified circumstances, discrimination against an employee as reprisal for the employee's disclosure of information related to gross mismanagement of a federal grant, a gross waste of federal funds, an abuse of authority relating to a federal grant, a substantial and specific danger to public health or safety, or a violation of law, rule, or regulation related to a federal grant.

The recipient also must inform its employees, in writing (and in the predominant native language of the workforce), of employee rights and remedies under 41 U.S.C. 4712.

Should a question arise as to the applicability of the provisions of 41 U.S.C. 4712 to this award, the recipient is to contact the DOJ awarding agency (OJP or OVW, as appropriate) for guidance.

21. Encouragement of policies to ban text messaging while driving

Pursuant to Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving," 74 Fed. Reg. 51225 (October 1, 2009), DOJ encourages recipients and subrecipients ("subgrantees") to adopt and enforce policies banning employees from text messaging while driving any vehicle during the course of performing work funded by this award, and to establish workplace safety policies and conduct education, awareness, and other outreach to decrease crashes caused by distracted drivers.

22. The recipient agrees to comply with OJP grant monitoring guidelines, protocols, and procedures, and to cooperate with BJA and OCFO on all grant monitoring requests, including requests related to desk reviews, enhanced programmatic desk reviews, and/or site visits. The recipient agrees to provide to BJA and OCFO all documentation necessary to complete monitoring tasks, including documentation related to any subawards made under this award. Further, the recipient agrees to abide by reasonable deadlines set by BJA and OCFO for providing the requested documents. Failure to cooperate with BJA's/OCFO's grant monitoring activities may result in sanctions affecting the recipient's DOJ awards, including, but not limited to: withholdings and/or other restrictions on the recipient's access to grant funds; referral to the Office of the Inspector General for audit review; designation of the recipient as a DOJ High Risk grantee; or termination of an award(s).

23. The recipient agrees to comply with applicable requirements to report first-tier subawards of \$25,000 or more and, in certain circumstances, to report the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients of award funds. Such data will be submitted to the FFATA Subaward Reporting System (FSRS). The details of recipient obligations, which derive from the Federal Funding Accountability and Transparency Act of 2006 (FFATA), are posted on the Office of Justice Programs website at <http://ojp.gov/funding/Explore/FFATA.htm> (Award condition: Reporting Subawards and Executive Compensation), and are incorporated by reference here. This condition, and its reporting requirement, does not apply to grant awards made to an individual who received the award as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

24. To avoid duplicating existing networks or IT systems in any initiatives funded by BJA for law enforcement information sharing systems which involve interstate connectivity between jurisdictions, such systems shall employ, to the extent possible, existing networks as the communication backbone to achieve interstate connectivity, unless the grantee can demonstrate to the satisfaction of BJA that this requirement would not be cost effective or would impair the functionality of an existing or proposed IT system.

25. The recipient agrees that any information technology system funded or supported by OJP funds will comply with 28 C.F.R. Part 23, Criminal Intelligence Systems Operating Policies, if OJP determines this regulation to be applicable. Should OJP determine 28 C.F.R. Part 23 to be applicable, OJP may, at its discretion, perform audits of the system, as per the regulation. Should any violation of 28 C.F.R. Part 23 occur, the recipient may be fined as per 42 U.S.C. 3789g(c)-(d). Recipient may not satisfy such a fine with federal funds.

26. Recipient understands and agrees that award funds may not be used for items that are listed on the Prohibited Expenditure List at the time of purchase or acquisition, including as the list may be amended from time to time. The Prohibited Expenditure list may be accessed here: <https://www.bja.gov/funding/JAGControlledPurchaseList.pdf>.

27. Recipient understands and agrees that award funds may not be used for items that are listed on the Controlled Expenditure List at the time of purchase or acquisition, including as the list

may be amended from time to time, without explicit written prior approval from BJA. The Controlled Expenditure List and instructions on how to request approval for purchase or acquisitions may be accessed here: <https://www.bja.gov/funding/JAGControlledPurchaseList.pdf>

28. The recipient understands that, pursuant to recommendation 2.1 of Executive Order 13688, law enforcement agencies that acquire controlled equipment through Federal programs must adopt robust and specific written policies and protocols governing General Policing Standards and Specific Controlled Equipment Standards. General Policing Standards includes policies on (a) Community Policing; (b) Constitutional Policing; and (c) Community Input and Impact Considerations. Specific Controlled Equipment Standards includes policies specifically related to (a) Appropriate Use of Controlled Equipment; (b) Supervision of Use; (c) Effectiveness Evaluation; (d) Auditing and Accountability; and (e) Transparency and Notice Considerations. Upon OJP's request, the recipient agrees to provide a copy of the General Policing Standards and Specific Controlled Equipment Standards, and any related policies and protocols.

29. Recipient understands and agrees that the purchase or acquisition of any item on the Controlled Expenditure List at the time of purchase or acquisition, including as the list may be amended from time to time, with award funds by an agency will trigger a requirement that the agency collect and retain (for at least 3 years) certain information about the use of 1) any federally-acquired Controlled Equipment in the agency's inventory, and 2) any other controlled equipment in the same category as the federally-acquired controlled equipment in the agency's inventory, regardless of source; and make that information available to BJA upon request. Details about what information must be collected and retained may be accessed here: [https://www.whitehouse.gov/sites/default/files/docs/le\\_equipment\\_wg\\_final\\_report\\_final.pdf](https://www.whitehouse.gov/sites/default/files/docs/le_equipment_wg_final_report_final.pdf)

30. Recipient understands and agrees that failure to comply with conditions related to Prohibited or Controlled Expenditures may result in a prohibition from further Controlled Expenditure approval under this or other federal awards.

31. Recipient understands and agrees that, notwithstanding 2 CFR § 200.313, no equipment listed on the Controlled Expenditure List that is purchased under this award may be transferred or sold to a third party, except as described below:

a. Agencies may transfer or sell any controlled equipment, except riot helmets and riot shields, to a Law Enforcement Agency (LEA) after obtaining prior written approval from BJA. As a condition of that approval, the acquiring LEA will be required to submit information and certifications to BJA as if it was requesting approval to use award fund for the initial purchase of items on the Controlled Expenditure List.

b. Agencies may not transfer or sell any riot helmets or riot shields purchased under this award.

c. Agencies may not transfer or sell any Controlled Equipment purchased under this award to non-LEAs, with the exception of fixed wing aircraft, rotary wing aircraft, and command and control vehicles. Before any such transfer or sale is finalized, the agency must obtain prior written approval from BJA. All law enforcement-related and other sensitive or potentially dangerous components, and all law enforcement insignias and identifying markings must be removed prior to transfer or sale.

Recipient further understands and agrees to notify BJA prior to the disposal of any items on the Controlled Expenditure List purchased under this award, and to abide by any applicable laws and regulations in such disposal.

32. BJA strongly encourages the recipient to submit annual (or more frequent) JAG success stories. To submit a success story, sign in to your My BJA account at <https://www.bja.gov/Login.aspx> to access the Success Story Submission form. If you do not yet have a My BJA account, please register at <https://www.bja.gov/profile.aspx>. Once you register, one of the available areas on your My BJA page will be "My Success Stories". Within this box, you will see an option to add a Success Story. Once reviewed and approved by BJA, all success stories will appear on the new BJA Success Story web page at <https://www.bja.gov/SuccessStoryList.aspx>.

33. Any law enforcement agency receiving direct or sub-awarded JAG funding must submit quarterly accountability metrics data related to training that officers have received on the use of force, racial and ethnic bias, de-escalation of conflict, and constructive engagement with the public.

**Non-supplanting Certification**

**Supplanting defined**

Federal funds must be used to supplement existing funds for program activities and must not replace those funds that have been appropriated for the same purpose. Supplanting shall be the subject of application review, as well as pre-award review, post-award monitoring, and audit. If there is a potential presence of supplanting, the applicant or grantee will be required to supply documentation demonstrating that the reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds. For certain programs, a written certification may be requested by the awarding agency or recipient agency stating that Federal funds will not be used to supplant State or local funds will not be used to supplant State or local funds. See the OJP Financial Guide (Part II, Chapter 3)

<http://www.ojp.usdoj.gov/financialguide/part2/part2chap3.htm>

**Supplanting and job retention**

A grantee may use federal funds to retain jobs that, without the use of the federal money, would be lost. If the grantee is planning on using federal funds to retain jobs, it must be able to substantiate that, without the funds, the jobs would be lost. Substantiation can be, but is not limited to, one of the following forms: an official memorandum, official minutes of a county or municipal board meeting or any documentation, that is usual and customarily produced when making determinations about employment. The documentation must describe the terminated positions and that the termination is because of lack of the availability of State or local funds.

---

The Town of Milan (Applicant) certifies that any funds awarded through grant number 2020DTF15 shall be used to supplement existing funds for program activities and will not replace (supplant) nonfederal funds that have been appropriated for the purposes and goals of the grant.

The Town of Milan (Applicant) understands that supplanting violations may result in a range of penalties, including but not limited to suspension of future funds under this program, suspension or debarment from federal grants, recoupment of monies provided under this grant, and civil and/or criminal penalties.

DEPUTY ATTORNEY GENERAL

October 6, 2020

His Excellency Governor, Christopher T. Sununu  
and the Honorable Council  
State House  
Concord, New Hampshire 03301-6397

Your Excellency and Members of the Council:

**REQUESTED ACTION**

Authorize the Department of Justice to enter into a **sole source** contract with Dr. Renee Robinson, MD, Vendor #282668-B001, North Canton, OH, as a substitute medical examiner, for a total not to exceed \$10,000, to aid the Office of the Chief Medical Examiner (OCME) for the period of November 9, 2020 to November 13, 2020, effective upon the date of Governor and Executive Council approval through January 31, 2021. 100% General Funds.

Funding is available as follows:

02-20-20-202010-1033	<u>FY 2020</u>
Office of Chief Medical Examiner	
234-500783, Autopsy Expense	\$10,000

**EXPLANATION**

This is a **sole source** contract because medical examiners represent a small community and it is very difficult to find a pathologist who is available to serve as an Associate Medical Examiner on a substitute basis. Dr. Jennie Duval, the Chief Medical Examiner (CME), was able to obtain Dr. Robinson's services from November 9, 2020 to November 13, 2020.

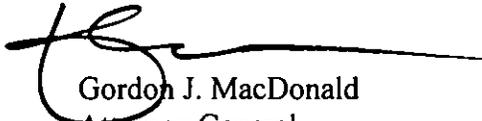

The Attorney General is authorized, pursuant to RSA 611-B:4 to employ such persons as are reasonably necessary to assist the CME in the performance of her duties. Pursuant to RSA 611-B, the CME is required to perform autopsies in cases of death occurring under certain statutorily defined circumstances, including suspicious deaths. The investigative exigencies in such cases require prompt availability of qualified medical examiners to perform the autopsies.

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council  
October 6, 2020  
Page 2 of 2

There are three forensic pathologist positions in the OCME. As of October 1, 2020, the position of Associate Medical Examiner is vacant. Dr. Duval and Dr. Mitchell Weinberg, Deputy Chief Medical Examiner, are the only medical examiners in the OCME. The Department is actively engaged in recruiting for the vacant position. Until that position is filled, the OCME will need substitute medical examiners to aid with the workload.

Please let me know if you have any questions. Thank you for your consideration of this request.

Respectfully submitted,

Gordon J. MacDonald  
Attorney General

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

**4. CONDITIONAL NATURE OF AGREEMENT.**

Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. 5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.

5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete

compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

**6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/ EQUAL EMPLOYMENT OPPORTUNITY.**

6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. 8.1.3 failure to perform any other covenant, term or condition of this Agreement.

8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;

8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.2.4 give the Contractor a written notice specifying the Event of Default, treat the Agreement as breached, terminate the Agreement and pursue any of its remedies at law or in equity, or both.

8.3. No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

## 9. TERMINATION.

9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

9.2 In the event of an early termination of this Agreement for any reason other than the completion of the Services, the Contractor shall, at the State's discretion, deliver to the Contracting Officer, not later than fifteen (15) days after the date of termination, a report ("Termination Report") describing in detail all Services performed, and the contract price earned, to and including the date of termination. The form, subject matter, content, and number of copies of the Termination Report shall be identical to those of any Final Report described in the attached EXHIBIT B. In addition, at the State's discretion, the Contractor shall, within 15 days of notice of early termination, develop and

Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. Attached please find the classification decisions reached by the Classification Section of the Division of Personnel. RSA 21-I:42 II, provides the responsibility to the Division of Personnel to prepare, maintain and periodically revise a position classification plan for all positions in the classified service, based upon similarity of duties performed and responsibilities assumed, so that the same qualifications may reasonably be required for, and the same schedule of pay may equitably be applied to, all positions in the same classification. In cases where this rule applies, Governor and Executive Council action is requested **retroactive** to the date specified for that position.

A thorough analysis of the proposed change specific to each position, both within their respective agency, as well as within the state classification system, has been completed by the Division of Personnel classification staff. A waiver is respectfully requested to proceed with the classification process.

Concord, New Hampshire 03301

**INFORMATIONAL ITEM**

Pursuant to RSA 4:45, RSA 21-P:43, and Section 4 of Executive Order 2020-04, as extended by Executive Orders 2020-05, 2020-08, 2020-09, 2020-10, 2020-14, 2020-15, 2020-16, and 2020-17, Governor Sununu has authorized the Department of Health and Human Services, Office of the Commissioner, to enter into a **Retroactive Sole Source** amendment to an existing contract with SAFEPASSAGES GROUP INCORPORATED, Manchester, NH, (VC# TBD) to continue providing transportation services for individuals experiencing homelessness to either a Quarantine Facility or a Community of Origin, by exercising a renewal option by increasing the price limitation by \$10,000 from \$30,000 to \$40,000 and by extending the contract completion date from August 27, 2020, to December 31, 2020. 100% General Funds.

The original contract was approved by the Governor on June 15, 2020, and presented to the Executive Council on July 15, 2020 (Informational Item #G).

Funds are available in the following account for State Fiscal Years 2021, with the authority to adjust budget line items within the price limitation and encumbrances between state fiscal years through the Budget Office, if needed and justified.

This item is **Retroactive** because the Department needed to ensure that these critical services continue to be provided to individuals experiencing homelessness.

The purpose of this amendment is to continue transporting individuals to the Isolation and Quarantine Facility to align with Centers for Disease Control recommendations relative to quarantine and isolation. The Contractor will also transport individuals back to their Communities of Origin once individuals are cleared to return.

The population served are individuals who are experiencing homelessness and may have suspected or confirmed diagnoses of COVID-19 or are awaiting COVID-19 test results; and

- Are in need of isolation in accordance with the Centers for Disease Control recommendations.
- Are asymptomatic but have had close contact with an individual who has tested positive for COVID-19.
- Are referred to services by the Department, the Manchester Health Department, or the Nashua Health Department.

The Department cannot determine the number of individuals who will be served from May 26, 2020, to December 31, 2020.

The Contractor will provide transportation within one (1) hour of receiving the request for transportation from the Department. Individuals will not be comingled with individuals from other shelters during transport. The Contractor will ensure all drivers receive and complete training on the use of personal protective equipment and follow the Centers for Disease Control Guidelines relative to transportation services for individuals with suspected or positive COVID-19 diagnoses, as appropriate.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, Section 1. Revisions to Form P-37, General Provisions, Sub-section 1.2, Paragraph 3, Effective Date/Completion of Services, Subparagraph 3.3 of the attached contracts, the parties have the option to extend the agreements for up to one (1) additional year, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and appropriate State approval. The Department is exercising six (6) months of the one (1) year available for renewal.

Areas served: Statewide

**INFORMATIONAL ITEM**

Pursuant to RSA 4:45, RSA 21-P:43, and Section 4 of Executive Order 2020-04 as extended by Executive Orders 2020-05, 2020-08, and 2020-09, Governor Sununu has authorized the Department of Health and Human Services, Office of the Commissioner, to enter into a **Retroactive, Sole Source** contract with SAFEPASSAGES GROUP INCORPORATED (VC# TBD) in the amount of \$30,000 to provide transportation services for individuals experiencing homelessness to either a Quarantine Facility; a Decompression site; or Community of Origin, with the option to renew for up to one (1) additional year, effective retroactive to May 26, 2020, through August 27, 2020. 100% General Funds.

			<b>Total</b>	<b>\$30,000</b>

**EXPLANATION**

The Department requested that the Governor retroactively approve this item because the Department identified an immediate need for the transportation of individuals experiencing homelessness to either the Quarantine Facility, a Decompression Site, or their Communities of Origin, as a result of the COVID-19 pandemic. This contract was developed concurrently with the Quarantine Facility contract for the Laconia site, operated by Lakes Region Mental Health Center Inc., which the Governor approved retroactive to April 17, 2020, on May 11, 2020. Transportation requests began immediately after the Quarantine Facility began operations. This item is **Sole Source** because the Department, in the interest of the public's health and safety, identified this vendor as having the capacity to quickly respond to the transportation need caused by the COVID-19 pandemic.

The purpose of this item is to transport individuals to either the Quarantine Facility or a Decompression Site, in order to align with Centers for Disease Control recommendations relative to social distancing and isolation. The Contractor also transports individuals back to their Communities of Origin once they are cleared to return.

The population served are individuals who may be residing in a shelter and individuals who are experiencing homelessness and not residing in a shelter. The population includes individuals who:

- May have a suspected or confirmed diagnosis of COVID-19 or are waiting for COVID-19 test results; and
- Are in need of social distancing in accordance with the Centers for Disease Control recommendations.

The Department cannot determine the number of individuals who will be served from May 26, 2020, to August 27, 2020.

The Contractor provides transportation within 24 hours of receiving the request for transportation, from the Department, the Adjutant General, or the Department of Safety. Individuals from one shelter are not to be comingled with individuals from other shelters during transport. The Contractor ensures all drivers receive and complete training on the use of personal protective equipment and follow Centers for Disease Control guidelines relative to transportation services for individuals with a suspected or positive COVID-19 diagnosis, as appropriate.

As referenced in Exhibit A, Revisions to Standard Contract Provisions, Section 1. Revisions to Form P-37, General Provisions, Sub-section 1.2, Paragraph 3, Effective Date/Completion of Services; Subparagraph 3.3 of the attached contracts, the parties have the option to extend the agreements for up to one (1) additional year, contingent upon satisfactory delivery of services, available funding, agreement of the parties, and appropriate State approval.

Areas served: Statewide

Respectfully submitted,

No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

## 9. TERMINATION.

- l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. **EXPLANATION**

The public health emergency for COVID-19 was declared by the Secretary of Health and Human Services on January 31, 2020. Section 6008(a) of the Families First Coronavirus Response Act (FFCRA) provides a temporary 6.2 percentage point increase to the Federal Medical Assistance Percentage (FMAP) under section 1905(b) of the Social Security Act effective beginning January 1, 2020 and is available for each calendar quarter during the public health emergency, through the end of the quarter in which the public health emergency including any extensions, ends.

The Department is requesting to accept and expend the federal matching dollars to support anticipated costs of the increase in Medicaid caseload resulting from the COVID-19 pandemic. Health Management Associates (HMA), a national healthcare research and consulting firm, estimated the impact of the COVID related economic downturn could result in an increase to New Hampshire's Medicaid caseload from 43,000 to 105,000 increased members.

**EXPLANATION**

This item is **Sole Source** because the Department, in the interest of the public's health and safety, determined Southern New Hampshire Services, Inc. had capacity to quickly respond to the COVID-19 pandemic. The Grantee currently provides Child Care Resource and Referral Services for the Department and was able to assist the Department in responding to the critical need to support child care during the COVID-19 pandemic, in the emergency phase and continuing through the Child Care Recovery and Stabilization phase. This item is **Retroactive** because the Department needed the Grantee to immediately assist with the administration of the Child Care Recovery and Stabilization Program (CCRSP), for which the funding expires on December 30, 2020. The goal of the CCRSP, funded through the Governor's Office for

Emergency Relief and Recovery (GOFERR), is to provide emergency financial support to NH child care programs due to the economic disruption caused by COVID-19. The CCRSP will provide funding and support to eligible child care programs to assist in the recovery and stabilization process.

The purpose of this grant agreement is for Southern New Hampshire Services, Inc. to collaborate with the Department to support the administration of the CCRSP. The Grantee will provide training, technical assistance, coaching, and support to professionals in the field of early childhood education and afterschool programs on COVID-related priority topics and issues such as health and safety, and social emotional issues, and developing new or alternative child care models.

The Grantee will work with local leads, as identified by the Department, to assist with regional capacity to meet the changing needs of families, businesses and communities by developing strategies and implementing local solutions to COVID-related challenges. Activities include, but are not limited to, facilitating E-Community Collaboratives and supporting local capacity building by working with local organizations.

The Grantee will also provide staffing to work in close coordination with the Department to administer COVID-related functions and activities for up to sixty (60) hours per week. The Grantee will assist the Department with supporting CCRSP initiatives and provide support to child care providers. In addition, it will maintain and update the CCRSP data spreadsheet for billing and program data and will work with the Department to create a final report protocol for CCRSP awardees to complete.

The Grantee will generate weekly CCRSP reports to collect data that includes, but is not limited to, the number of trainings provided, the number of children served by program, the status of community collaboratives, and the amount of funding distributed. In addition, the Grantee will actively and regularly collaborate with the Department to enhance grant management, improve results, and adjust program delivery and policy based on successful outcomes.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

## **MISSION STATEMENT**

Southern New Hampshire Services, Inc. (SNHS) is a private non-profit corporation chartered in the State of New Hampshire, May 21, 1965 to serve as the Community Action Partnership for Hillsborough County in compliance with the Economic Opportunity Act of 1964. From 1965 through 1969, SNHS was known as the Community Action Agency for Hillsborough County and served the City of Nashua and the twenty-nine towns. In 1969 SNHS became the Community Action Partnership for the City of Manchester as well. In 1974 the agency's name was changed to Southern New Hampshire Services, Inc. In July 2011, Rockingham Community Action (RCA), the Community Action Agency serving Rockingham County, was merged with Southern New Hampshire Services. As a result of this merger, SNHS now provides services to residents of the 65 towns and 3 cities in Hillsborough and Rockingham Counties.

The Economic Opportunity Act of 1964 and subsequent federal legislation establishing the Community Services Block Grant define our basic mission. Under these provisions the fundamental mission of SNHS is:

- A. To provide a range of services and activities having a measurable and potentially major impact on causes of poverty in the community or those areas of the community where poverty is a particularly acute problem.
- B. To provide activities designed to assist low-income participants including homeless individuals and families, migrants, and the elderly poor to:
  1. Secure and retain meaningful employment
  2. Attain an adequate education
  3. Make better use of available income
  4. Obtain and maintain adequate housing and a suitable living environment

## **Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards***

To the Board of Directors  
Southern New Hampshire Services, Inc. and Affiliate  
Manchester, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the combined financial statements of Southern New Hampshire Services, Inc. (the Organization) and affiliate, which comprise the combined statement of financial position as of July 31, 2019, and the related combined statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the combined financial statements, and have issued our report thereon dated February 12, 2020.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the combined financial statements, we considered the Organization's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the combined financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Organization's combined financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Southern New Hampshire Services, Inc. and affiliate's combined financial statements are free from material misstatement, we performed tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance and Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

To the Board of Directors  
Southern New Hampshire Services, Inc. and Affiliate  
Manchester, New Hampshire

### **Report on Compliance for Each Major Federal Program**

We have audited Southern New Hampshire Services, Inc. (the Organization) and affiliate's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Southern New Hampshire Services, Inc. and affiliate's major federal programs for the year ended July 31, 2019. Southern New Hampshire Services, Inc. and affiliate's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

### ***Management's Responsibility***

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on compliance for each of Southern New Hampshire Services, Inc. and affiliate's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Southern New Hampshire Services, Inc. and affiliate's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Southern New Hampshire Services, Inc. and affiliate's compliance.

### ***Opinion on Each Major Federal Program***

In our opinion, Southern New Hampshire Services, Inc. and affiliate complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended July 31, 2019.

### **Report on Internal Control over Compliance**

Management of Southern New Hampshire Services, Inc. and affiliate is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Southern New Hampshire Services, Inc. and affiliate's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Southern New Hampshire Services, Inc. and affiliate's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## **Report on Schedule of Expenditures of Federal Awards Required by Uniform Guidance**

We have audited the combined financial statements of Southern New Hampshire Services, Inc. and affiliate as of and for the year ended July 31, 2019, and have issued our report thereon dated February 12, 2020, which contained an unmodified opinion on those combined financial statements. Our audit was conducted for the purpose of forming an opinion on the combined financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the combined financial statements as a whole.

## INDEPENDENT AUDITOR'S REPORT

To the Board of Directors  
Southern New Hampshire Services, Inc. and Affiliate  
Manchester, New Hampshire

### **Report on the Financial Statements**

We have audited the accompanying combined financial statements of Southern New Hampshire Services, Inc. (a nonprofit organization) and affiliate, which comprise the combined statements of financial position as of July 31, 2019 and 2018, and the related combined statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the combined financial statements.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the combined financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## ***Opinion***

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Southern New Hampshire Services, Inc. and affiliate, as of July 31, 2019 and 2018, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 12, 2020, on our consideration of Southern New Hampshire Services, Inc. and affiliate's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Southern New Hampshire Services, Inc. and affiliate's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Southern New Hampshire Services, Inc. and affiliate's internal control over financial reporting and compliance.

**Nature of the Organization**

Southern New Hampshire Services, Inc. (SNHS) is an umbrella corporation that offers an array of services to the elderly, disabled, and low-income households in New Hampshire's Hillsborough County and Rockingham County. The Organization's programs provide assistance in the areas of education, child development, employment, energy and its conservation, housing and homelessness prevention. The Organization is committed to providing respectful support services and assisting individuals and families in achieving self-sufficiency by helping them overcome the causes of poverty. The primary source of revenues is derived from governmental contracts. Services are provided through Southern New Hampshire Services, Inc. and SNHS Management Corporation.

**Basis of Accounting and Presentation**

The Organization prepares its combined financial statements in accordance with accounting principles generally accepted in the United States of America, which involves the application of accrual accounting, and accordingly reflect all significant receivables, payables, and other liabilities. The financial statement presentation follows the recommendation of the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-14, *Not-For-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. Under ASU 2016-14, net assets, revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

*Net Assets without Donor Restrictions* - Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization. These net assets may be used at the discretion of the Organization's management and the board of directors.

*Net Assets with Donor Restrictions* - Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be fulfilled and removed by actions of the Organization pursuant to those stipulations or by passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as an increase in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities.

The Organization has no net assets with donor restrictions at July 31, 2019 and 2018.

**Combined Financial Statements**

All significant intercompany items and transactions have been eliminated from the basic combined financial statements. The combined financial statements include the accounts of SNHS Management Corporation because Southern New Hampshire Services, Inc. controls more than 50% of the voting power.

**Use of Estimates**

The preparation of combined financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results may differ from these amounts.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Cash and Cash Equivalents**

For the purpose of the combined statements of cash flows, the Organization considers all unrestricted highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

**Current Vulnerabilities Due to Certain Concentrations**

The Organization maintains its cash balances at several financial institutions located in New Hampshire and Maine. The balances are insured by the Federal Deposit Insurance Organization (FDIC) up to \$250,000 per financial institution. In addition, on October 2, 2008, the Organization entered into an agreement with its principal banking partner to collateralize deposits in excess of the FDIC insurance limitation on some accounts. The balances, at times, may exceed amounts covered by the FDIC and collateralization agreements. It is the opinion of management that there is no significant risk with respect to these deposits at either July 31, 2019 or 2018.

**Accounts and Contracts Receivable**

All accounts and contracts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Receivables are recorded on the accrual basis of accounting primarily based on reimbursable contracts, grants and agreements. Balances outstanding after management has used reasonable collection efforts are written off through a charge to bad debt expense and a credit to the applicable accounts receivable. Management does not believe an allowance for uncollectible accounts receivable is necessary at July 31, 2019 and 2018.

**Revenue Recognition**

The Organization's revenue is recognized primarily from federal and state grants and contracts generally structured as reimbursed contracts for services and therefore revenue is recognized based on when their individual allowable budgeted expenditures occur. Refundable advances result from unexpended balances from these exchange transactions. Federal and state grant revenue comprised approximately 91% and 90% of total revenue in the fiscal years ended July 31, 2019 and 2018, respectively.

**Contributions and In-Kind Donations**

Support that is restricted by the donor is reported as an increase in net assets without donor restrictions, if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions, depending on the nature of the restriction. When a restriction expires, (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the combined statements of activities as net assets released from restrictions. In-kind revenues and expenses represent fair market value of volunteer services and non-paid goods which were donated to the Organization during the current fiscal year. All in-kind revenues in the fiscal year 2019 and 2018 were generated through the Head Start and Economic Workforce Development programs. Since the recognition criteria is not met, no in-kind revenues are recognized as contributions in the combined financial statements and the in-kind expenses have been eliminated.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Investments**

The Organization carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the combined statements of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying combined statements of activities.

**Fixed Assets**

Fixed assets acquired by the Organization are capitalized at cost if purchased or fair value if donated. It is the Organization's policy to capitalize expenditures for these items in excess of \$5,000. Major additions and renewals are capitalized, while repairs and maintenance are expensed as incurred. Depreciation is calculated using the straight-line basis over the estimated useful lives of the assets, which range from three to forty years. Depreciation expense for July 31, 2019 and 2018 was \$499,974 and \$427,069, respectively.

Fixed assets purchased with grant funds are owned by the Organization while used in the program for which they were purchased or in other future authorized programs. However, the various funding sources have a reversionary interest in the fixed assets purchased with grant funds. The disposition of fixed assets, as well as the ownership of any proceeds is subject to funding source regulations.

**Advertising**

The Organization uses advertising to promote programs among the people it serves. The production costs of advertising are expensed as incurred.

**Functional Allocation of Expenses**

The Organization allocates its expenses on a functional basis among its various programs and support services. Expenses that can be identified with a specific program and support services are allocated directly according to their natural expenditure classification. Other expenses, that are common to several functions, are allocated by management based on effort. Supporting services are those related to operating and managing the Organization and its programs on a day-to-day basis. Supporting services have been sub-classified as follows:

*Management and General* - includes all activities related to the Organization's internal management.

**Subsequent Events**

Management has made an evaluation of subsequent events through February 12, 2020, which represents the date on which the combined financial statements were available to be issued and determined that any subsequent events that would require recognition or disclosure have been considered in the preparation of these combined financial statements.

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**Recently Adopted Accounting Pronouncements**

In August 2016, the FASB issued Accounting Standards Update (ASU) No. 2016-14, *Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities*. ASU 2016-14 requires significant changes to the financial reporting model of organizations who follow the not-for-profit reporting model. The changes include reducing the classes of net assets from three to two – net assets with donor restrictions and net assets without donor restrictions. The ASU will also require changes in the way certain information is aggregated and reported by the Organization, including required disclosures about liquidity and availability of resources.

The new standard is effective for the Organization's year ending July 31, 2019 and thereafter and must be applied on a retrospective basis. The Organization adopted the ASU effective August 1, 2018. Adoption of the ASU did not result in any reclassifications or restatements of net assets or changes in net assets.

**Recent Accounting Pronouncements**

*Revenue Recognition*

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers*, to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and International Financial Reporting Standards. The core principle of the guidance requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance is effective for the Organization's year ending July 31, 2020. Management is currently evaluating the impact of adoption on the Organization's financial statements.

*Leases*

In February 2016, the FASB released ASU 2016-02, *Leases* (Topic 842), which provides users of the financial statements a more accurate picture of the assets and the long-term financial obligations of organizations that lease. The standard is for a dual-model approach; a lessee will account for most existing capital leases as Type A leases, and most existing operating leases as Type B leases. Both will be reported on the statement of financial condition of the organization for leases with a term exceeding 12 months. Lessors will see changes as well, primarily made to align with the revised model. The guidance is effective for the Organization's year ended July 30, 2022. Management is currently evaluating the impact of adoption on the Organization's financial statements.

NOTE 2: RESTRICTED CASH

The Organization, as stipulated in many of the loan agreements associated with the housing projects included in SNHS Management Corporation, is required to maintain separate accounts and make monthly deposits into certain restricted reserves for the replacement of property and other expenditures. In addition, the Organization is required to maintain separate accounts for tenant security deposits and any surplus cash that may result from annual operations. These accounts are also not available for operating purposes and generally need additional approval from oversight agencies before withdrawal and use of these funds can occur.

NOTE 3: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the organization has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2019 and 2018.

*Mutual Funds:* Valued at the net asset value of shares held on the last trading day of the fiscal year, which is the basis for transactions at that date.

None of the financial assets are subject to donor or other contractual restrictions. Accordingly, all such funds are available to meet the needs of the Organization in the next 12 months. In addition, the Organization maintains several reserve funds for property taxes, insurance expenses, and repair and replacement or emergency needs which are required by financing authorities. These funds may be withdrawn only with the approval of the financing authority and are not considered by the Organization to have donor restrictions.

The Organization manages its liquidity by developing and adopting annual operating budgets that provide sufficient funds for general expenditures in meeting its liabilities and other obligations as they become due.

NOTE 7: OPERATING LEASES

The Organization leases various facilities and equipment under several operating leases. Total lease payments for the years ended July 31, 2019 and 2018 equaled \$686,840 and \$708,379, respectively. The leases expire at various times through October 2020. Some of the leases contain renewal options that are contingent upon federal funding and some contain renewal options subject to renegotiation of lease terms.

The following is a schedule of future minimum lease payments for the operating leases as of July 31, 2019:

2020	\$ 319,979
2021	<u>33,189</u>
Total	<u>\$ 353,168</u>

NOTE 8: RETIREMENT BENEFITS

The Organization has an Employer-Sponsored 403(b) plan offering coverage to all of its employees. Participating employees must contribute at least 1% of their wages, while the Organization contributes 10% of their wages. The pension expense for the years ended July 31, 2019 and 2018 was \$861,928 and \$838,296, respectively.

NOTE 9: RISKS AND UNCERTAINTIES

The Organization is operated in a heavily regulated environment. The operations of the Organization are subject to the administrative directives, rules and regulations of federal, state and local regulatory agencies. Such administrative directives, rules, and regulations are subject to change by an act of Congress or Legislature. Such changes may occur with little notice or inadequate funding to pay for the related cost, including the additional administrative burden, to comply with a change.

NOTE 10: CONTINGENCIES AND CONTINGENT LIABILITIES

The Organization receives contract funding from various sources. Under the terms of these agreements, the Organization is required to use the funds within a certain period and for purposes specified by the governing laws and regulations. If expenditures were found not to have been made in compliance with the laws and regulations, the Organization might be required to repay the funds. No provisions have been made for this contingency because specific amounts, if any, have not yet been determined.

Cotton Mill Square

In 2015, SNHS Management Corporation entered into a contract as part of the Community Development Investment Tax Credit Program with the Community Development Finance Authority (CDFA) and was awarded \$1,000,000 to provide funding for the development and adaptive reuse of an abandoned historic cotton mill in downtown Nashua, NH. Under this program, the Project (Cotton Mill Square) created 109 units of housing and was required to reserve 55 of these units for low to moderate income households.

NOTE 10: CONTINGENCIES AND CONTINGENT LIABILITIES (Continued)

**Cotton Mill Square (Continued)**

As stipulated by the contract and after a 20% program fee retained by the CDFA, SNHS Management Corporation entered into a subrecipient agreement with the owners of the Project (Cotton Mill Square LLC) to provide a promissory note and mortgage of the remaining award amount of \$800,000. The 20 year note to Cotton Mill Square LLC is non-interest bearing and the principal is forgivable at a rate of 5% each year the Project maintains the required minimum of 55 low to moderate income household units.

The Cotton Mill Square Project was awarded the certificate of occupancy on August 22, 2014 and remains in full compliance with the required regulations as of July 31, 2019 and 2018. SNHS Management Corporation feels that it is extremely unlikely that the Project will fall into noncompliance in future periods. Therefore, SNHS Management Corporation has not recorded any contingent receivable or liability related to this transaction. The note repayment is accelerated if the units fall out of compliance.

In October of 2017, the subrecipient agreement with Cotton Mill Square LLC was amended to cease the annual 5% debt forgiveness. This modification effectively holds the promissory note balance at \$720,000 which will now be forgiven in full at the end of the agreement as long as the Project maintains compliance with the original agreement's terms. This modification did not change the contingent receivable or liability with SNHS Management Corporation.

**J. Brown Homestead Property**

On July 1, 2011, Rockingham Community Acton (RCA) was acquired by SNHS. As part of this merger, SNHS assumed all the assets, liabilities and obligations of RCA which included the J. Brown Homestead Property.

The J. Brown Homestead Property was conveyed to RCA in 1999 by the Town of Raymond for \$1 and a mortgage lien of \$604,418. The property contains four apartments limited to low-income seniors, office space for the Outreach operations, space for the Food Pantry operation, and a common meeting room for use by Town of Raymond organizations. The Town of Raymond included a requirement that the property be used for a social service center for a period of 20 years, called the benefit period, after which this requirement terminates.

In the event that SNHS sells or otherwise conveys the property within the benefit period, the remaining lien will be either paid from the proceeds of the sale or remain with the land to any subsequent purchaser for the remaining benefit period.

This mortgage lien has no scheduled principal or interest payments and is forgivable at a rate of 5% each year of the benefit period until it is completely forgiven in year 2019. The value of this lien at July 31, 2019 and 2018 is \$30,221 and \$60,442, respectively. SNHS has no plans to sell or transfer this property. Therefore, the contingent mortgage lien liability has not been included in the financial statements.

**EXPLANATION**

This request is being made to accept additional grant funds available for SFY 2021 to administer the New Hampshire Immunization Program under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136. These supplemental funds will support the Department's effort to improve and expand influenza vaccination coverage throughout New Hampshire in an effort to decrease the burden on health care systems during the coronavirus pandemic (COVID-19). The funding will also be instrumental in the development of state-wide plans with key partners for the distribution and administration of anticipated SARS-CoV-2

vaccine(s). Lastly, the funding will provide additional resources to complete the full implementation of a state-wide Immunization Information System (IIS) that will be instrumental in overall vaccine accountability for the anticipated receipt, distribution and administration of the SARS-Co-V2 vaccine(s).

The funds are to be budgeted as follows:

Class 020	The funds will be used to pay for current expense items.
Class 030	The funds will be used to pay for equipment.
Class 038	The funds will be used to pay for computer software.
Class 041	The funds will be used to pay for audit fund set aside.
Class 059	The funds will be used to pay for full time temporary positions.
Class 060	The funds will be used to pay for benefits.
Class 070	The funds will be used to pay for in-state travel.
Class 102	The funds will be used to pay for contracts.

The following information is provided in accordance with the comptroller's instructional memorandum dated September 21, 1981:

1. List of personnel involved: Approximately 3 Temporary full time positions; 1 Systems Development Specialist III, 1 Program Specialist III, and 1 Program Specialist II.
2. Nature, Need, and Duration: The positions will provide for the increased needs caused by the COVID-19 public health event and the Immunization Information System (IIS) implementation. The positions are needed for expanding and improving influenza vaccination coverage, COVID-19 response efforts and for on-going, appropriate IIS staffing levels.
3. Relationship to existing agency programs: This is a new public health event.
4. Has a similar program been requested of the legislature and denied? No
5. Why wasn't funding included in the agency's budget request? At the time of budget submission, COVID-19 was not a known public health event and this funding opportunity had not been offered.
6. Can portions of the grant funds be utilized? All grant dollars are being used for this request.
7. Estimate the funds required to continue this position(s): These positions will be considered for permanent status, based on the needs of the IIS Program area and available federal funding in SFY 2022.

Area served: Statewide

Source of Funds: 100% Federal funds from the Centers for Disease Control.

If Federal Funds become no longer available, General Funds will not be requested to support the program expenditures.

Respectfully submitted,

For

This item is **Sole Source** because MOP 150 requires any amendment increasing the original price limitation by more than 10 percent of the original contract amount be identified as sole source.

The Contractor currently supports the New Hampshire Health Care Coalition by acting as an Administrative Lead Organization and enhancing the healthcare sector's ability to effectively prepare for, respond to, and recover from emergencies. The purpose of this amendment is to add funding to support COVID-19 emergency preparedness and response activities at healthcare facilities statewide. The Contractor will procure and distribute ventilators, infection control supplies, personal protective equipment, and other supplies to healthcare facilities. The Contractor will also provide technical assistance to long-term care and other residential facilities to prepare them for providing COVID-19 vaccinations to residents and staff. In addition, the Contractor will conduct an after action review of the medical surge component of the New Hampshire Health Care Coalition's response to COVID-19.

The New Hampshire Health Care Coalition includes members from across the healthcare sector, including hospitals and hospital-based health systems, emergency medical services, emergency management services, public health, long-term care facilities, home health, primary care, and specialty practices. Approximately 1.3 million individuals will be served from July 1, 2019, to June 30, 2021.

The Department will monitor contracted services by reviewing semi-annual progress reports and documentation of cost sharing for activities.

Area served: Statewide

Source of Funds: CFDA #93.889, FAIN # U3REP190580

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

FINANCIAL STATEMENTS

December 31, 2019 and 2018

With Independent Auditor's Report

DRAFT

## INDEPENDENT AUDITOR'S REPORT

Board of Trustees  
Foundation for Healthy Communities

We have audited the accompanying financial statements of Foundation for Healthy Communities (Foundation), which comprise the statements of financial position as of December 31, 2019 and 2018, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of December 31, 2019 and 2018, and the changes in its net assets and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

**Other Matter**

*Changes in Accounting Principles*

As discussed in Note 1, in 2019 the Foundation adopted Financial Accounting Standards Board Accounting Standards Update (FASB ASU) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), and related guidance, FASB ASU No. 2016-01, *Recognition and Measurement of Financial Assets and Liabilities*, and FASB ASU No. 2018-08, *Clarifying the Scope of the Accounting Guidance for Contributions Received and Contributions Made*. Our opinion is not modified with respect to these matters.

# FOUNDATION FOR HEALTHY COMMUNITIES

## Notes to Financial Statements

December 31, 2019 and 2018

### Organization

Foundation for Healthy Communities (Foundation) was organized to conduct various activities relating to healthcare delivery process improvement, health policy, and the creation of healthy communities. The Foundation is controlled by New Hampshire Hospital Association (Association) whose purpose is to assist its members in improving the health status of the people receiving healthcare in New Hampshire.

### 1. Summary of Significant Accounting Policies

#### Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), which identifies a five step core principle guide for organizations to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the organization expects to be entitled in exchange for those goods or services. This ASU and related guidance were adopted by the Foundation for the year-ended December 31, 2019. Adoption of this ASU did not have a material impact on the Foundation's financial reporting.

The Foundation also adopted FASB ASU No. 2016-01, *Financial Instruments - Overall: Recognition and Measurement of Financial Assets and Financial Liabilities*, during the year ended December 31, 2019. The ASU was issued to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. This ASU changes how entities account for equity investments that do not result in consolidation and are not accounted for under the equity method of accounting. The accompanying financial statements reflect the adoption of this ASU.

In July 2018, FASB issued ASU No. 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*, to clarify and improve the accounting guidance for contributions received and contributions made. The amendments in this ASU assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of Accounting Standards Codification (ASC) Topic 958, *Not-for-Profit Entities*, or as exchange (reciprocal) transactions subject to other accounting guidance, and (2) distinguishing between conditional contributions and unconditional contributions. This ASU was adopted by the Foundation for the year ended December 31, 2019. Adoption of the ASU did not have a material impact on the Foundation's financial reporting.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

# FOUNDATION FOR HEALTHY COMMUNITIES

## Notes to Financial Statements

December 31, 2019 and 2018

### Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified as follows based on existence or absence of donor-imposed restrictions.

**Net assets without donor restrictions:** Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Foundation. These net assets may be used at the discretion of the Foundation's management and the Board of Trustees.

**Net assets with donor restrictions:** Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity. Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities and changes in net assets. At December 31, 2019 and 2018, the Foundation did not have any funds to be maintained in perpetuity.

### Cash and Cash Equivalents

For purposes of reporting in the statements of cash flows, the Foundation considers all bank deposits with an original maturity of three months or less to be cash equivalents.

### Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Management believes all accounts receivable are collectible. Credit is extended without collateral.

### Investments

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the statements of financial position. Interest and dividends are included in the changes in net assets from operations.

Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

## Notes to Financial Statements

December 31, 2019 and 2018

### Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is provided over the estimated useful lives of each class of depreciable asset and is computed using the straight-line method.

### Employee Fringe Benefits

The Foundation has an "earned time" plan under which each employee earns paid leave for each period worked. These hours of paid leave may be used for vacation or illnesses. Hours earned but not used are vested with the employee and may not exceed 30 days at year-end. The Foundation accrues a liability for such paid leave as it is earned.

### Grants and Contributions

Grants awarded and contributions received in advance of expenditures are reported as support for net assets with donor restrictions if they are received with stipulations that limit the use of the grants or contributions. When a grant or contribution restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities and changes in net assets as "net assets released from restrictions". If there are unused grant funds at the time the grant restrictions expire, management seeks authorization from the grantor to retain the unused grant funds to be used for other unspecified projects. If the Foundation receives authorization from the grantor, then the Board of Trustees or management internally designates the use of those funds for future projects. These amounts are released from net assets with donor restrictions to internally designated net assets without donor restrictions and reported in the statement of activities and changes in net assets as "net assets released from restrictions".

Grant funds conditional upon submission of documentation of qualifying expenditures or matching requirements are deemed to be earned and reported as revenues when the Foundation has met the grant conditions.

The amount of such funds the Foundation will ultimately receive depends on the actual scope of each program, as well as the availability of funds. The ultimate disposition of grant funds is subject to audit by the awarding agencies.

Grant funds awarded of which conditions have been met in the year of award are reported in the consolidated statement of activities and change in net assets included in program services.

Contributions of long-lived assets are reported as support for net assets without donor restrictions unless donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. Absent explicit donor stipulations about how long these long-lived assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

## Notes to Financial Statements

December 31, 2019 and 2018

### Change in Net Assets from Operations

The statement of activities and changes in net assets include a measure of change in net assets from operations. In 2019, the Foundation adopted FASB ASU No. 2016-01; as a result, net realized and unrealized gain are included in operations. At December 31, 2018, net realized and unrealized gains are included in operations. At December 31, 2018, net realized and unrealized losses were excluded from change in net assets from operations.

### Income Taxes

The Foundation is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (Code) and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code.

### Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. GAAP, the Foundation has considered transactions or events occurring through REPORT DATE, which was the date that the financial statements were available to be issued.

## 2. Availability and Liquidity of Financial Assets

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to optimize the investment of its available funds.

For purposes of analyzing resources available to meet general expenditures over a 12-month period, the Foundation considers all expenditures related to its ongoing activities and general and administration, as well as the conduct of services undertaken to support those activities to be general expenditures.

In addition to financial assets available to meet general expenditures over the next 12 months, the Foundation operates with a balanced budget and anticipates collecting sufficient revenue to cover general expenditures not covered by donor-restricted resources.

As of December 31, 2019, the Organization has working capital of \$814,638 and average days (based on normal expenditures) cash on hand of 185 which includes cash and cash equivalents, and investments.

## Notes to Financial Statements

December 31, 2019 and 2018

### 5. Conditional Promise to Give

During 2016, the Foundation was awarded a grant from the State of New Hampshire in an amount not to exceed \$1,800,000 to facilitate the expansion of New Hampshire's addiction identification and overdose prevention activities. Since the original award, the State of New Hampshire has amended the award amount increasing the grant to an amount not to exceed \$4,575,824 as of December 31, 2019. Receipt of the grant and recognition of the related revenue is conditional upon incurring qualifying expenditures. For the years ended December 31, 2019 and 2018, the Foundation recognized program and grant support related to this award in the amount of \$552,082 and \$941,414, respectively.

### 6. Related Party Transactions

The Foundation leases space from the Association. Rental expense under this lease for the years ended December 31, 2019 and 2018 was \$40,331 and \$48,909, respectively.

The Association provides various accounting, public relation and janitorial services to the Foundation. The amount expensed for these services in 2019 and 2018 was \$160,362 and \$155,552, respectively. In addition, the Association bills the Foundation for its allocation of shared costs. As of December 31, 2019 and 2018, the Foundation owed the Association \$61,687 and \$47,264, respectively, for services and products provided by the Association.

The Association owed the Foundation \$112,530 and \$113,330 as of December 31, 2019 and 2018, respectively, for support allocated to the Foundation. For the years ended December 31, 2019 and 2018, the Foundation received support from the Association in the amount of \$443,120 and \$423,121, respectively.

### 7. Retirement Plan

The Foundation participates in the Association's 401(k) profit-sharing plan, which covers substantially all employees and allows for employee contributions of up to the maximum allowed under Internal Revenue Service regulations. Employer contributions are discretionary and are determined annually by the Foundation. Retirement plan expense for 2019 and 2018 was \$45,109 and \$43,219, respectively.

### 8. Functional Expenses

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses allocated to general and administration include salaries and related taxes, allocated based on the estimated time to be utilized on programs and insurance and depreciation, allocated using bases estimating the proportional allocation of total building square footage.

**FOUNDATION FOR HEALTHY COMMUNITIES**

**Notes to Financial Statements**

**December 31, 2019 and 2018**

Expenses related to services provided for the public interest are as follows:

**9. Concentrations of Credit Risk**

From time-to-time, the Foundation's total cash deposits exceed the federally insured limit. The Foundation has not incurred any losses and does not expect any in the future.

**10. Fair Value Measurement**

FASB ASC Topic 820, *Fair Value Measurement*, defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP, and expands disclosures about fair value measurements.

FASB ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

# FOUNDATION FOR HEALTHY COMMUNITIES

## Notes to Financial Statements

December 31, 2019 and 2018

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Foundation's investments are measured at fair value on a recurring basis and are considered Level 1.

### 11. Uncertainty

Subsequent to December 31, 2019, local, U.S., and world governments have encouraged self-isolation to curtail the spread of the global pandemic, coronavirus disease (COVID-19), by mandating the temporary shut-down of business in many sectors and imposing limitations on travel and the size and duration of group meetings. Most sectors are experiencing disruption to business operations and may feel further impacts related to delayed government reimbursement, volatility in investment returns, and reduced philanthropic support. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. Accordingly, while management cannot quantify the financial and other impacts to the Foundation as of REPORT DATE, management believes that a material impact on the Foundation's financial position and results of future operations is reasonably possible.

**EXPLANATION**

The purpose of this request is to continue supporting New Hampshire's statewide Health Care Coalition through the services of an Administrative Lead Organization in order to prepare for, mitigate, respond to and recover from emergencies that impact the health care sector.

Approximately 1.3 million individuals will be served from July 1, 2019 through June 30, 2021 through contracted services.

The original agreement, included language in Exhibit C-1, that allows the Department to renew the contract for up to two (2) years, subject to the continued availability of funding, satisfactory performance of service, parties' written authorization and approval from the Governor and Executive Council. The Department is in agreement with renewing services for two years remaining at this time.

The Administrative Lead Organization will continue to coordinate preparedness and response activities among health care organizations, which is the primary requirement for receiving federal funding from the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response. Such activities assist in the prevention or reduction in illnesses and deaths during emergencies. The Health Care Coalition conducts statewide assessments related to potential hazards that impact the health care sector and provides training and technical assistance to its members to address gaps. The Health Care Coalition also assists the State of New Hampshire with emergency planning and preparedness activities in order to mitigate the impact of emergencies on the citizens of New Hampshire.

The New Hampshire Health Care Coalition includes members from across the health care sector including, but not limited to:

- Hospitals and hospital-based health systems;
- Emergency medical services;
- Emergency management services;
- Public health; and
- Long-term care facilities, home health, primary care, and specialty practices.

The Administrative Lead Organization will continue to provide administrative management services that will support the Health Care Coalition. The selected Vendor will guide the Health Care Coalition in providing essential services by conducting activities that will promote capabilities including but not limited to:

- Ensuring the community's health care organizations and other stakeholders are coordinated in order to identify hazards and risks as well as prioritize and address gaps through planning, training, exercising and managing resources;
- Coordinating health care and medical responses so members of the Health Care Coalition can share and analyze information, manage and share resources, and coordinate strategies to deliver medical care to all populations during emergencies and planned events;
- Ensuring continuity of health care service delivery by ensuring health care workers are well-trained, well-educated, and well equipped to care for patients during emergencies; and
- Assisting in coordinating information and available resources so members can maintain services during a surge when medical resources are needed/.

The following performance measures/objectives are used to measure the effectiveness of the amendment agreement:

- Percentage of participation of core member organizations (acute care hospitals, EMS, emergency management, public health) in the Health Care Coalition: 100%
- On an annual basis, complete at least (2) redundant communication drills to test the effectiveness of systems and platforms used for information sharing (e.g., bed/resource tracking, amateur and commercial radios, satellite phones, Health Alert Network, etc.): Completed January 30, 2019 and May 15, 2019
- Conduct annual Coalition Surge Test to simulate evacuation and placement of 20% of New Hampshire's acute care bed capacity: Completed May 3, 2018
- Conduct a Hazard Vulnerability Assessment: Completed Spring 2018
- Develop a Health Care Coalition Preparedness Plan by June 30, 2018: Completed

Should the Governor and Executive Council not approve this request, New Hampshire's emergency preparedness and response capabilities may be less coordinated and comprehensive throughout the state. Without an Administrative Lead Organization to implement a health care coalition that coordinates preparedness and response activities among health care organizations, the Department may lose federal funding from the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response. Developing a strong, statewide infrastructure to convene, coordinate, and facilitate an improved systems-based approach will, over time, reduce costs and improve health outcomes.

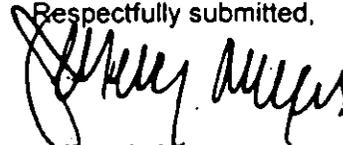

Area served: statewide.

His Excellency, Governor Christopher T. Sununu  
and the Honorable Council

Source of Funds: 100% Federal Funds from the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response, Hospital Preparedness Program Cooperative Agreement.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

**REQUESTED ACTION**

Authorize the Department of Health and Human Services, Division of Public Health Services, Bureau of Policy and Performance, to enter into an agreement with the Foundation for Healthy Communities (Vendor # 154533-B001) 125 Airport Road, Concord, NH 03301, to serve as the Administrative Lead Organization of a statewide Health Care Coalition of organizations from across the health care sector in order to prepare for, respond to and recover from emergencies in an amount not to exceed \$1,224,000, effective upon Governor and Executive Council approval through June 30, 2019. 100% Federal Funds.

Funds are available in State Fiscal Year 2018 and State Fiscal Year 2019 in the following account with the ability to adjust amounts within the price limitation and to adjust encumbrances between State Fiscal Years through the Budget Office without further approval from the Governor and Executive Council, if necessary and justified.

2019	102-500731	Contracts for Program Services	90077700	\$612,000
			<b>Total:</b>	<b>\$1,224,000</b>

**EXPLANATION**

The purpose of this request is to implement a Health Care Coalition through the services of an Administrative Lead Organization in order to prepare for, mitigate, respond to and recover from emergencies that impact the health care sector.

Implementing a health care coalition to coordinate preparedness and response activities among health care organizations is a primary requirement for receiving federal funding from the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response. Such activities assist in the prevention or reduction in illnesses and deaths during emergencies. An established Health Care Coalition has the ability to provide training and technical assistance to its members in order to assist them in meeting emergency preparedness requirements issued by the U. S. Centers for Medicaid and Medicare Services.

The New Hampshire Health Care Coalition will include members from across the health care sector including, but not limited to:

- Hospitals and hospital-based health systems.
- Emergency medical services.
- Emergency management services.
- Public health, long-term care facilities; primary care and specialty practices.
- Behavioral and substance use disorders providers.

The Foundation for Healthy Communities was selected for this project through a competitive bid process. A Request for Proposals was posted on the Department of Health and Human Services' website from April 10, 2017 through May 8, 2017. The Department received one proposal, which was reviewed and scored by a team of individuals with program specific knowledge. The Score Summary is attached.

The selected Vendor will serve as the Administrative Lead Organization by organizing and supporting the Health Care Coalition through the provision of subject matter expertise in the areas of healthcare system and emergency preparedness, response and recovery. The Administrative Lead Organization will also provide administrative and financial management services that will support the Health Care Coalition. The selected Vendor will guide the Health Care Coalition in providing essential services by conducting activities that will promote capabilities including but not limited to:

- Ensuring the community's health care organizations and other stakeholders are coordinated in order to identify hazards and risks as well as prioritize and address gaps through planning, training, exercising and managing resources.
- Coordinating health care and medical responses so members of the Health Care Coalition can share and analyze information; manage and share resources; and coordinate strategies to deliver medical care to all populations during emergencies and planned events.
- Ensuring continuity of health care service delivery by ensuring health care workers are well-trained, well-educated, and well equipped to care for patients during emergencies.
- Assisting in developing coordination of information and available resources so members can maintain services during a surge in need of medical resources.

As referenced in the Request for Proposals and in Exhibit C-1 of this contract, this Agreement has the option to extend for up to two (2) additional year(s), contingent upon satisfactory delivery of services, available funding, agreement of the parties and approval of the Governor and Council.

Performance measures that ensure the selected Vendor is providing optimal services are detailed in Exhibit A, Scope of Services, Section 8, Performance Measures.

Should the Governor and Executive Council not approve this request, New Hampshire's emergency preparedness and response capabilities may be less coordinated and comprehensive throughout the state. Without an Administrative Lead Organization to implement a health care coalition that coordinates preparedness and response activities among health care organizations, the Department may lose federal funding from the U.S. Department of Health and Human Services, Assistant Secretary for Preparedness and Response. Developing a strong, statewide infrastructure to convene, coordinate, and facilitate an improved systems-based approach will, over time, reduce costs and improve health outcomes.

Area served: statewide.

Source of Funds: 100% Federal Funds from Centers for Disease Control and Prevention, Hospital Preparedness Program Cooperative Agreement.

In the event that the Federal Funds become no longer available, General Funds will not be requested to support this program.

Respectfully submitted,

Lisa Morris

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.
2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.
3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.
4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared Ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.
5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
  - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
  - 7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

- 7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

**INSTRUCTIONS FOR CERTIFICATION**

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. 6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.
7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

Information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

William Cass, P.E. Assistant Commissioner

His Excellency, Governor Christopher T. Sununu and the Honorable Council State House Concord, NH 03301

Bureau of Rail & Transit September 28, 2020

INFORMATIONAL ITEM

Pursuant to RSA 4:45, RSA 21-P:43, and Section 4 of Executive Order 2020-04 as extended by Executive Orders 2020-05, 2020-08, 2020-09, 2020-10, 2020-14, 2020-15, 2020-16, 2020-17 and 2020-18 and suspend the Manual of Procedures 150, V., A., 5., requirement, Governor Sununu has authorized the Department of Transportation to enter into a sole source contract amendment with Boston Express Bus, Inc. (Vendor 166250), Concord, NH, to increase the contract amount by \$1,286,174.00 from \$2,535,907.00 to \$3,822,081.00 for daily commuter bus services along the FE Everett Turnpike between Manchester-Nashua-Tyngsborough-Boston, through December 31, 2023. The original contract was approved by Governor and Executive Council on January 10, 2007, Item 123A, amended November 17, 2010, Item 215; amended November 6, 2013, Item 119; amended June 18, 2014, Item 185; and amended December 19, 2018, Item 28. 100% Federal Funds.

Funding is available as follows for FY 2021:

	<u>FY 2021</u>
04-96-96-964010-2050	
Public Transportation	
103-502664 Contracts for Operational Services	\$1,286,174.00

EXPLANATION

The requested \$1,286,174.00 of FTA Section 5307 CARES Act funds will enable Boston Express, via this sole source amendment, to resume services and to recover to its pre-pandemic economic vitality. Following passage of the Coronavirus Aid, Relief, and Economic Security (CARES) Act on March 27, 2020, the Federal Transit Administration (FTA) apportioned funding to all states to support operating, capital, and other expenses generally eligible under the FTA Section 5307 Urbanized Area Formula Program (Section 5307) to prevent, prepare for, and respond to COVID-19. The Department's SFY 2021 operating budget includes funds from the Section 5307 program that provides funds for operating, capital, and planning assistance for public transportation in urbanized areas with populations of more than 200,000.

The Department has allocated FTA Section 5307 CARES Act funding for operating assistance in SFY 2021 and SFY 2022 to four intercity and commuter bus agencies including Boston Express, C&J Bus Lines, Concord Coach Lines, and Dartmouth Coach. These agencies suspended all service in March 2020 due to the COVID-19 pandemic. With the exception of Boston Express's, I-93 service, all services

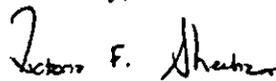

provided by these agencies – including Boston Express’s FE Everett Turnpike service that is the subject of this agreement -- were profitable and sustained by passenger fare revenue prior to the pandemic. Combined, they provided flexible and frequent bus service throughout the State for over 1.5 million passengers annually and managed and maintained seven state-owned transit facilities/park & ride lots for public use, infrastructure valued at over \$100 million, all at minimal cost to the State. The public has come to value and rely on these transit services for commuting to work and for leisure travel, and the services provide the added environmental benefit of reducing single-occupancy vehicle usage, thus significantly reducing traffic congestion on the roadways and carbon emissions into the atmosphere.

All other provisions of the agreement shall remain in effect. In the event that Federal Funds become unavailable, General Funds will not be requested to support this program.

The amendment has been approved by the Attorney General as to form and execution and the Department has verified that the necessary funds are available. Copies of the fully executed amendment are on file at the Secretary of State’s Office and the Department of Administrative Services, and will be on file at the Department of Transportation.

The Governor approved this sole source contract on September 27, 2020 (attached).

Sincerely,

Victoria F. Sheehan

103-502664 Contracts for Operational Services	\$ 0	\$10,140.00	\$10,140.00

EXPLANATION

Boston Express Bus, Inc. provides daily commuter bus service along the FE Everett Turnpike between Manchester-Nashua-Tyngsborough-Boston, consisting of at least nine round trips per weekday between the hours of 6:00 am and 9:00 pm. This sole source contract amendment will maintain the current level of service without interruption while adequately addressing escalating operational and maintenance

expenses. This amendment provides an additional \$69,180.00 of Federal Transit Administration (FTA) funds to assist with net operating expenses, capital facility repairs, maintenance and terminal capital equipment, and park and ride facility maintenance through December 31, 2023. Federal funds will be matched with approved Toll Credits, effectively using 100% Federal funds. The use of Toll Credits for this project was approved by the Capital Budget Overview Committee on November 29, 2018 (approval letter attached).

The Department entered into a contract agreement with Boston Express Bus, Inc. in 2007 to initiate commuter bus service along the FE Everett Turnpike to Boston, using State and FTA funds to defray operating, preventative maintenance, capital, and marketing expenses. The total revised contract amount, including previous amendments, is \$2,535,907.00. The additional funding will allow Boston Express Bus to maintain existing service levels through December 31, 2023. This commuter bus service is well utilized and is a tremendous asset to the State and greatly appreciated by commuters and travelers. Ridership has grown from under 8,000 per month when first initiated to over 20,000 per month currently.

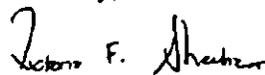

All other provisions of the agreement shall remain in effect.

In the event that Federal Funds become unavailable, General Funds will not be requested in support of this project.

The Amendment has been approved by the Attorney General as to form and execution and the Department will verify the necessary funds are available for the contract period pending enactment of the Fiscal Year 2020 through 2024 budgets. Copies of the fully executed agreement are on file at the Secretary of State's Office and the Department of Administrative Services' Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Your approval of this resolution is respectfully requested.

Sincerely,

Victoria F. Sheehan

Re: Request for Approval of the Department of Transportation, Toll Credit Match  
Boston Express FE Everett Turnpike and I-93 Operating and Capital

Dear Chairman McConkey and Honorable Members of the Committee:

**REQUESTED ACTION:**

Pursuant to the provisions RSA Chapter 228:12-a, Use of Toll Credits, the New Hampshire Department of Transportation (NHDOT) requests the Capital Budget Overview Committee approve the Department's use of Toll Credits to meet funding match requirements for Boston Express Bus service. The Department will seek an increase in funding through contract amendments to support commuter bus service along the FE Everett Turnpike and I-93 corridors between Manchester and Boston through December 31, 2023. The total amended project costs shall not exceed \$9,032,077.00 in Federal funds and based on these estimated costs, the amount of Turnpike Toll Credits requested is \$3,809,726.00.

**EXPLANATION**

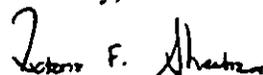

This project will provide funds for the continued operation of daily commuter bus service for the general public between Manchester-Nashua-Tyngsborough-Boston along the FE Everett Turnpike and between Manchester-Londonderry-Salem-Boston along the I-93 corridor. Boston Express Bus operates this service under contract to the State and the requested funds will be used to support costs including operations, vehicle maintenance, and facility maintenance. The Department will utilize Federal Transit Administration (FTA) Section 5307 Boston Urbanized Area funds to support these activities and the commuter bus service through December 31, 2023. As the required non-Federal matching ratio is 50% for operating and 20% for capital expenses, including vehicle and facility maintenance, the net toll credit match requested is 42%.

The Department entered into a contract with Boston Express Bus, Inc. in 2007 to initiate commuter bus service along the FE Everett Turnpike from Nashua to Boston, using State and FTA funds to defray operating and capital expenses. The Department also entered into a contract with Boston Express Bus, Inc. in 2008 to initiate commuter bus service along the I-93 corridor from Manchester, Londonderry, and Salem to Boston, using State and Congestion Mitigation and Air Quality Improvement (CMAQ)

Program funds to defray operating and capital expenses and to make capital improvements. Both services have been very successful, with ridership and revenues growing each year and FTA funds have continued to be used for eligible expenses including operations, vehicle maintenance and facilities maintenance. However, additional subsidy is needed to maintain the aging facilities and equipment and to operate a robust commuter bus service and the Department will pursue contract amendments for Boston Express Bus' services on the FE Everett Turnpike and I-93 corridor to extend the completion dates to December 31, 2023 and add approximately \$9,032,077.00 of FTA funds, requiring a \$3,809,726.00 toll credit match.

Your approval of this resolution is respectfully requested.

Sincerely,

Termination shall be effected by serving a notice of termination to contractor setting forth the manner in which contractor is in default. Contractor shall only be paid the contract price for supplies delivered and accepted, or for services performed in accordance with the manner of performance set forth in the contract.

If it is later determined by the recipient that contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of contractor, the recipient, after setting up a new delivery or performance schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.

c. Opportunity to Cure (General Provision) the recipient in its sole discretion may, in the case of a termination for breach or default, allow contractor an appropriately short period of time in which to cure the defect. In such case, the notice of termination shall state the time period in which cure is permitted and other appropriate conditions. If contractor fails to remedy to the recipient's satisfaction the breach or default or any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by contractor or written notice from the recipient setting forth the nature of said breach or default, the recipient shall have the right to terminate the Contract without any further obligation to contractor. d. Waiver of Remedies for any Breach In the event that the recipient elects to waive its remedies for any breach by contractor of any covenant, term or condition of this Contract, such waiver by the recipient shall not limit its remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

e. Termination for Convenience (Professional or Transit Service Contracts) the recipient, by written notice, may terminate this contract, in whole or in part, when it is in the recipient's interest. If the contract is terminated, the recipient shall be liable only for payment under the payment provisions of this contract for services rendered before the effective date of termination.

Termination for Default (Supplies and Service) If contractor fails to deliver supplies or to perform the services within the time specified in this contract or any extension or if the contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. Contractor shall only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner or performance set forth in this contract.

If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

g. Termination for Default (Transportation Services) If contractor fails to pick up the commodities or to perform the services, including delivery services, within the time specified in this contract or any extension or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. Contractor shall only be paid the contract price for services performed in accordance with the manner of performance set forth in this contract.

If this contract is terminated while contractor has possession of the recipient goods, contractor shall, as directed by the recipient, protect and preserve the goods until surrendered to the recipient or its agent. Contractor and the recipient shall agree on payment for the preservation and protection of goods. Failure to agree on an amount shall be resolved under the Dispute clause. If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

h. Termination for Default (Construction) If contractor refuses or fails to prosecute the work or any separable part, with the diligence that will insure its completion within the time specified, or any extension, or fails to complete the work within this time, or if contractor fails to comply with any other provisions of this contract, the recipient may terminate this contract for default. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature of default. In this event, the recipient may take over the work and complete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing the work. Contractor and its sureties shall be liable for any damage to the recipient resulting from contractor's refusal or failure to complete the work within specified time, whether or not contractor's right to proceed with the work is terminated. This liability includes any increased costs incurred by the recipient in completing the work.

Contractor's right to proceed shall not be terminated nor shall contractor be charged with damages under this clause if:

1. Delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of contractor. Examples of such causes include: acts of God, acts of the recipient, acts of another contractor in the performance of a contract with the recipient, epidemics, quarantine restrictions, strikes, freight embargoes; and

2. Contractor, within 10 days from the beginning of any delay, notifies the recipient in writing of the causes of delay. If in the recipient's judgment, delay is excusable, the time for completing the work shall be extended. The recipient's judgment shall be final and conclusive on the parties, but subject to appeal under the Disputes clauses.

If, after termination of contractor's right to proceed, it is determined that contractor was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if termination had been issued for the recipient's convenience.

i. Termination for Convenience or Default (Architect & Engineering) the recipient may terminate this contract in whole or in part, for the recipient's convenience or because of contractor's failure to fulfill contract obligations. The recipient shall terminate by delivering to contractor a notice of termination specifying the nature, extent, and effective date of termination. Upon receipt of the notice, contractor shall (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the recipient all data, drawings, specifications, reports, estimates, summaries, and other information and materials accumulated in performing this contract, whether completed or in process. If termination is for the recipient's convenience, it shall make an equitable adjustment in the contract price but shall allow no anticipated profit on unperformed services. If termination is for contractor's failure to fulfill contract obligations, the recipient may complete the work by contract or otherwise and contractor shall be liable for any additional cost incurred by the recipient.

If, after termination for failure to fulfill contract obligations, it is determined that contractor was not in default, the rights and obligations of the parties shall be the same as if termination had been issued for the recipient's convenience.

j. Termination for Convenience or Default (Cost-Type Contracts) the recipient may terminate this contract, or any portion of it, by serving a notice of termination on contractor. The notice shall state whether termination is for convenience of the recipient or for default of contractor. If termination is for default, the notice shall state the manner in which contractor has failed to perform the requirements of the contract. Contractor shall account for any property in its possession paid for from funds received from the recipient, or property supplied to contractor by the recipient. If termination is for default, the recipient may fix the fee, if the contract provides for a fee, to be paid to contractor in proportion to the value, if any, of work performed up to the time of termination. Contractor shall promptly submit its termination claim to the recipient and the parties shall negotiate the termination settlement to be paid to contractor. If termination is for the recipient's convenience, contractor shall be paid its contract close-out costs, and a fee, if the contract provided for payment of a fee, in proportion to the work performed up to the time of termination.

If, after serving a notice of termination for default, the recipient determines that contractor has an excusable reason for not performing, such as strike, fire, flood, events which are not the fault of and are beyond the control of contractor, the recipient, after setting up a new work schedule, may allow contractor to continue work, or treat the termination as a termination for convenience.

Public Transportation Employee Protective Arrangements. The Recipient agrees that 49 U.S.C. § 5333(b) requires employee protective arrangements to be in place as a condition of award of FTA assistance made available or appropriated for FTA programs involving public transportation operations. U.S. DOL recognizes the following categories of arrangements:

(1) U.S. DOL Certification. When its Project involves public transportation operations and is financed with funding made available or appropriated for 49 U.S.C. §§ 5307, 5309, 5312, 5337, or 5339, as amended by Map-21, or former 49 U.S.C. §§ 5308, 5309, 5312, or other provisions of law as required by the Federal Government, U.S. DOL must provide a Certification of employee protective arrangements before FTA may provide financial assistance for the Project. Therefore, the Recipient understands and agrees, and assures that any Third Party Participant providing public transportation operations will agree, that: (a) It must carry out the Project as provided in its U.S. DOL Certification, which contains the terms and conditions that U.S. DOL has determined to be fair and equitable to protect the interests of any employees affected by the Project, (b) It must comply with 49 U.S.C. § 5333(b), and any future amendments thereto, (c)

It will follow the U.S. DOL guidelines, "Guidelines, Section 5333(b), Federal Transit Law," 29 C.F.R. part 215, except as U.S. DOL determines otherwise in writing, (d) It must comply with the terms and conditions of the U.S. DOL certification of public transportation employee protective arrangements for the Project, which certification is dated as identified on the Underlying Agreement, including: 1 Alternative comparable arrangements U.S. DOL has specified for the Project, 2 Any revisions U.S. DOL has specified for the Project, or 3 Both, and

(e) It must comply with the following documents and provisions incorporated by reference in and made part of the Underlying Agreement for the Project: 1 The U.S. DOL certification of public transportation employee protective arrangements for the Project, which certification is dated as identified on the Underlying Agreement, 2 The

documents cited in that U.S. DOL certification for the Project, 3 Any alternative comparable arrangements that U.S. DOL has specified for the Project, and 4 Any revisions that U.S. DOL has specified for the Project, (2) Special Warranty. When its Project involves public transportation operations, and is financed with funding made available or appropriated for 49 U.S.C. § 5311, as amended by Map-21, for former 49 U.S.C. § 5311 in effect in FY 2012, or a previous fiscal year, or for section 3038 of TEA-21, as amended by section 3039 of SAFETEA-LU, U.S. DOL will provide a Special Warranty for those projects, including projects under the Tribal Transit Program. Therefore, the Recipient understands and agrees, and assures that any Third Party Participant providing public transportation operations will agree, that: (a) It must comply with Federal transit laws, specifically 49 U.S.C. § 5333(b),

(b) Follow the U.S. DOL guidelines, "Guidelines, Section 5333(b), Federal Transit Law," 29 C.F.R. part 215, except as U.S. DOL determines otherwise in writing, (c) It will comply with the U.S. DOL Special Warranty for its Project that is most current on the date when it executed the Underlying Agreement, and documents cited therein, including: 1 Any alternative comparable arrangements U.S. DOL has specified for the Project, 2 Any revisions U.S. DOL has specified for the Project, or 3 Both, and (d) It will comply with the following documents and provisions incorporated by reference in and made part of the Underlying Agreement: 1 The U.S. DOL Special Warranty for its Project, 2 Documents cited in that Special Warranty, 3 Alternative comparable arrangements U.S. DOL specifies for the Project, and 4 Any revisions that U.S. DOL has specified for the Project, and (3) Special Arrangements for 49 U.S.C. § 5310 Projects. The Recipient understands and agrees, and assures that any Third Party Participant providing public transportation operations will agree, that although pursuant to 49 U.S.C. § 5310, and former 49 U.S.C. §§ 5310 or 5317, FTA has determined that it was not "necessary or appropriate" to apply the conditions of 49 U.S.C. § 5333(b) to Subrecipients participating in the program to provide public transportation for seniors (elderly individuals) and individuals with disabilities, FTA reserves the right to make the following exceptions: (a) FTA will make case-by-case determinations of the applicability of 49 U.S.C. § 5333(b) for all transfers of funding authorized under title 23, United States Code (flex funds), and (b) FTA reserves the right to make other exceptions as it deems appropriate.

*Sole Source*

**REQUESTED ACTION**

Authorize the Department of Transportation to enter into a sole source contract amendment with Boston Express Bus, Inc., (Vendor # 166250), Concord, NH, to increase the contract amount by \$912,605 from \$1,554,122 to \$2,466,727, effective upon Governor and Council approval through December 31, 2018. This amendment only contains funding through the next fiscal biennium, or June 30, 2017. The original agreement was approved by Governor and Council on January 10, 2007 (Item 123A) and amended November 17, 2010 (Item 215) and November 6, 2013 (Item 119). 100% Federal funds.

Funding for this amendment is available as follows for FY 2015, and is contingent upon the availability and continued appropriation of funds in FY 2016 and 2017, with the authority to adjust encumbrances in each of the State fiscal years through the Budget Office if needed and justified.

	<u>FY 2015</u>	<u>FY 2016</u>	<u>FY 2017</u>

400-500869 Construction Buildings	\$ 6,000	\$ 4,000	\$ 2,000

**EXPLANATION**

This item is contingent upon approval of a funding transfer at the June 9, 2014 Fiscal Committee meeting and also at the June 18, 2014 Governor and Council meeting to transfer appropriation into class 103 of accounting unit 2916. The sole source contract amendment is based on the need to maintain the current level of service without interruption while adequately addressing escalating operational and maintenance expenses.

Boston Express Bus, Inc. provides daily commuter bus service along the FE Everett Turnpike between Manchester-Nashua-Tyngsborough-Boston, consisting of at least nine round trips per weekday between

the hours of 6:00 am and 9:00 pm. This contract amendment provides an additional \$912,605 of Federal Transit Administration (FTA) funds to assist with net operating expenses, marketing, and capital facility repairs and improvements through June 30, 2017. Federal funds will be matched with approved Toll Credits, effectively using 100% Federal funds. The use of Toll Credits for this project was approved by the Capital Budget Overview Committee on April 15, 2014 (approval letter attached).

The Department entered into a contract agreement with Boston Express Bus, Inc. in 2007 to initiate commuter bus service along the FE Everett Turnpike to Boston, using State and FTA funds to defray operating, preventative maintenance, capital, and marketing expenses. The additional funding will provide net operating expenses (total operating expenses less revenues), marketing expenses for the development and implementation of a marketing and customer service program, and capital for approved transit facility repairs and improvements at the State owned bus terminals along the FE Everett Turnpike. The total revised contract amount, including previous amendments, is \$2,466,727. The additional funding will allow Boston Express Bus to maintain existing service levels through June 30, 2017. This commuter bus service is well utilized and is a tremendous asset to the State and greatly appreciated by commuters and travelers. Ridership has grown from under 8,000 per month when first initiated to over 16,000 per month currently.

All other provisions of the agreement shall remain in effect.

In the event that Federal funds become unavailable, general funds will not be requested in support of this project.

The Amendment has been approved by the Attorney General as to form and execution and the Department will verify the necessary funds are available for FY 2016 and 2017 pending enactment of the Fiscal Year 2016 and 2017 budget. Copies of the fully executed agreement are on file at the Secretary of State's Office and the Department of Administrative Services' Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Your approval of this resolution is respectfully requested.

Sincerely,

  
for Christopher D. Clement, Sr.  
Commissioner

**EXPLANATION**

The Department of Transportation submitted a successful proposal for Congestion Mitigation & Air Quality (CMAQ) funds in 2006 to initiate commuter bus service from Exits 8 and 6 in Nashua to Boston. Using CMAQ funds, the State will provide funding to Boston Express Bus, Inc. to operate daily commuter bus service between Nashua and Boston.

This project will also provide funding for marketing of the new service, and to manage and operate ticketing facilities at the Welcome Center at Exit 6 of the F.E. Everett Turnpike.

Boston Express Bus, Inc. is an affiliate of Concord Coach Lines, Inc. (Concord Trailways), which submitted the original proposal for this new service and the only response to a Request for Proposals issued by the Department.

The total cost of the proposed contract is \$1,130,000, of which \$1,048,000 is the Federal share and \$82,000 is the State share. Boston Express Bus, Inc. will provide an additional \$180,000 in matching funds. The total project budget is provided below:

Funds for this agreement are available in the FY 2007 operating budget of the Department. The Federal funds were approved in a Federal Transit Administration (FTA) grant on August 10, 2006.

This Agreement has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available. Copies of the fully executed Agreement are on file at the Secretary of State's Office and the Department of Administrative Services, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Authorize the Department of Transportation to enter into a retroactive contract amendment (Contract # 191358) with Boston Express Bus, Inc. (Vendor #166250), Concord, NH, for bus service between Nashua and Boston, MA by increasing the contract amount by \$424,122 from \$1,130,000 to \$1,554,122, effective November 1, 2010 through December 31, 2015. The original agreement was approved by Governor and Council on January 10, 2007 (item # 123A). 100% Federal funds.

EXPLANATION

This contract amendment authorizes Boston Express to operate and maintain a bus terminal at FE Everett Turnpike Exit 8 on behalf of the state for a period of five years. The amendment also provides additional Federal funds for preventive maintenance, which is considered an eligible capital expense, for up to three years. This amendment is retroactive due to processing delays at the Department.

The Department entered into a contract with Boston Express Bus, Inc. in 2007 to initiate commuter bus service from the FE Everett Turnpike Exit 8 park and ride lot and Exit 6 Welcome Center in Nashua to Boston, using State and Federal Transit Administration (FTA) funds to defray operating and marketing expenses and make capital improvements. This service has been very successful, with ridership growing from under 8,000 to over 12,000 per month on 11 daily round trips.

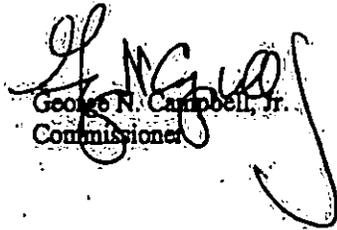

As directed in the 2010-11 Capital Budget, the State is now constructing a bus terminal at Exit 8 and converting the Exit 6 Welcome Center into a Division of Motor Vehicles substation and E-Z-Pass customer service center. Boston Express will operate out of the new bus terminal at Exit 8 and a park and ride lot in Tyngsboro, MA starting with completion of the new terminal. Boston Express projects that the availability of more parking at the two lots will support growth in ridership and will enable the bus service to break even and operate without further subsidy within three years.

In the event that Federal funds become unavailable, general funds will not be requested to support this program.

The Agreement has been approved by the Attorney General as to form and execution, and the Department has verified that the necessary funds are available. Copies of the fully executed agreement are on file at the Secretary of State's Office and the Department of Administrative Services' Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Your approval of this resolution is respectfully requested.

**REQUESTED ACTION**

Authorize the Department of Transportation to enter into a contract amendment with Boston Express Bus, Inc., (Vendor # 166250), Concord, NH, to extend the overall contract completion date and preventative maintenance subsidy to December 31, 2018 from December 31, 2015, effective upon Governor and Council approval. The original agreement was approved by Governor and Council on January 10, 2007 (Item #123A) and amended November 17, 2010 (Item #215). This is a time extension only, requiring no additional funds.

**EXPLANATION**

Boston Express Bus, Inc. provides daily commuter bus service along the FE Everett Turnpike to Boston, Massachusetts, consisting of 16 trips per weekday and 12 trips per weekend between the hours of 6:00 am and 11:00 pm. This contract amendment authorizes Boston Express Bus, Inc. to continue to operate and maintain a bus terminal at FE Everett Turnpike Exit 8 on behalf of the State and continue to provide reimbursement for eligible preventive maintenance expenses (not to exceed the net operating deficit) through December 31, 2018. The amendment also revises the "Insurance" provision in the agreement to be consistent with other similar contracts based on guidance provided by the Department of Administrative Services' Risk Management Unit.

The Department entered into a contract with Boston Express Bus, Inc. in 2007 to initiate commuter bus service along the FE Everett Turnpike to Boston, using State and Federal Transit Administration (FTA) funds to defray operating and marketing expenses and make capital improvements. The total contract amount, including previous amendments, is \$1,544,122. This service has been very successful, with ridership growing from under 8,000 per month when first initiated to over 16,000 per month currently. Extending the contract completion date will allow Boston Express Bus, Inc. to fully utilize available preventative maintenance funds, approximately \$169,335, remaining in this contract and the amended contract completion date will also coincide with the contract completion date of the Boston Express Bus, Inc. I-93 contract.

All other provisions of the agreement shall remain in effect.

The amendment has been approved by the Attorney General as to form and execution. Copies of the fully executed amendment are on file at the Secretary of State's office and the Department of Administrative Services' office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

Your approval of this resolution is respectfully requested.

The Honorable David Campbell, Chairman  
Capital Budget Overview Committee

Re: Request for Approval of the Department of Transportation, Toll Credit Match  
Boston Express FEE Turnpike and I-93 Operating, Capital, and Marketing

Dear Chairman Campbell and Honorable Members of the Committee:

Requested Action

Pursuant to the provisions RSA Chapter 228:12-a, Use of Toll Credits, the New Hampshire Department of Transportation (NH DOT) requests the Capital Budget Overview Committee approve the Department's use of Toll Credits to meet funding match requirements for Boston Express Bus service. The Department will seek an increase in funding through contract amendments to support commuter bus service along the FE Everett Turnpike and I-93 corridors between Manchester and Boston through June 30, 2017. The total amended project costs shall not exceed \$5,364,848 in Federal funds and the usage of up to \$1,337,751 in Toll Credit match is requested.

Explanation

This project will provide funds for the continued operation of daily commuter bus service for the general public between Manchester-Nashua-Tyngsborough-Boston along the FE Everett Turnpike and between Manchester-Londonderry-Salem-Boston along the I-93 corridor. Boston Express Bus operates this service under contract to the State and requested funds will be used to support costs including operations, vehicle maintenance, facility maintenance, and marketing. The Department will utilize I-93 project funds and Federal Transit Administration (FTA) Section 5307 Urbanized Area funds to support these activities and the commuter bus service through June 30, 2017.

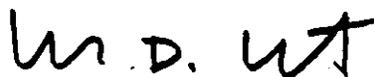

The Department entered into a contract with Boston Express Bus, Inc. in 2007 to initiate commuter bus service along the FE Everett Turnpike from Nashua to Boston, using State and Federal Transit Administration (FTA) funds to defray operating and marketing expenses. The Department also entered into a contract with Boston Express Bus, Inc. in 2008 to initiate commuter bus service along the I-93 corridor from Manchester, Londonderry, and Salem to Boston, using State and FTA CMAQ funds to defray operating and marketing expenses and make capital improvements. Both services have been very successful, with ridership and revenues growing each year. However, additional subsidy is needed to

---

maintain the aging facilities and equipment and to operate a robust commuter bus service. The Department will pursue a contract amendment for the FE Everett Turnpike service to increase the contract amount by \$912,605 Federal, requiring a \$447,302 toll credit match and a separate contract amendment for the I-93 service to increase the contract amount by \$4,452,243 Federal, requiring a \$890,449 toll credit match.

Your approval of this resolution is respectfully requested.

Sincerely,

Christopher D. Clement, Sr.  
Commissioner

The State shall withhold from the amount otherwise payable to the Subrecipient under this subparagraph 5.3 those sums required, or permitted, to be withheld pursuant to N.H. RSA 80:7 through 7-c.

5.4. The payment by the State of the Grant amount shall be the only, and the complete payment to the Subrecipient for all expenses, of whatever nature, incurred by the Subrecipient in the performance hereof, and shall be the only, and the complete, compensation to the Subrecipient for the Project. The State shall have no liabilities to the Subrecipient other than the Grant Amount.

5.5. Notwithstanding anything in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made, hereunder exceed the Grant limitation set forth in block 1.3 of these general provisions.

6. **COMPLIANCE BY SUBRECIPIENT WITH LAWS AND REGULATIONS.**

In connection with the performance of the Project, the Subrecipient shall comply with all statutes, laws, regulations, and orders of federal, state, county, or municipal authorities which shall impose any obligations or duty upon the Subrecipient, including the acquisition of any and all necessary permits.

7.2. Between the Effective Date and the date three (3) years after the Completion Date, at any time during the Subrecipient's normal business hours, and as often as the State shall demand, the Subrecipient shall make available to the State all records pertaining to matters covered by this Agreement. The Subrecipient shall permit the State to audit, examine, and reproduce such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, data (as that term is hereinafter defined), and other information relating to all matters covered by this Agreement. As used in this Agreement, the word "data" shall mean all information and things developed or obtained during the performance of, or acquired or developed by reason of, this Agreement, including, but not limited to, all studies, reports, files, formulas, surveys, maps, charts, sound recordings, video recordings, pictorial reproductions, drawings, analyses, graphic representations,

computer programs, computer printouts, notes, letters, memoranda, paper, and documents, all whether finished or unfinished.

9.2. Between the Effective Date and the Completion Date the Subrecipient shall grant to the State, or any person designated by it, unrestricted access to all data for examination, duplication, publication, translation, sale, disposal, or for any other purpose whatsoever.

9.3. No data shall be subject to copyright in the United States or any other country by anyone other than the State.

9.4. On and after the Effective Date all data, and any property which has been received from the State or purchased with funds provided for that purpose under this Agreement, shall be the property of the State, and shall be returned to the State upon demand or upon termination of this Agreement for any reason, whichever shall first occur.

9.5. The State, and anyone it shall designate, shall have unrestricted authority to publish, disclose, distribute and otherwise use, in whole or in part, all data.

10. **CONDITIONAL NATURE OF AGREEMENT.** Notwithstanding anything in this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability or continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available or appropriated funds. In the event of a reduction or termination of those funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this Agreement immediately upon giving the Subrecipient notice of such termination.

11.2.1 Give the Subrecipient a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely remedied, terminate this Agreement, effective two (2) days after giving the Subrecipient notice of termination; and

11.2.2 Give the Subrecipient a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the Grant Amount which would otherwise accrue to the Subrecipient during the period from the date of such notice until such time as the State determines that the Subrecipient has cured the Event of Default shall never be paid to the Subrecipient; and

11.2.3 Set off against any other obligation the State may owe to the Subrecipient any damages the State suffers by reason of any Event of Default; and

11.2.4 Treat the agreement as breached and pursue any of its remedies at law or in equity or both.

12. **TERMINATION.**

12.1. In the event of any early termination of this Agreement for any reason other than the completion of the Project, the Subrecipient shall deliver to the Grant Officer, not later than fifteen (15) days after the date of termination, a report (hereinafter referred to as the "Termination Report") describing in detail all Project Work performed, and the Grant Amount earned, to and including the date of termination.

12.2. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall entitle the Subrecipient to receive that portion of the Grant amount earned to and including the date of termination.

12.3. In the event of Termination under paragraphs 10 or 12.4 of these general provisions, the approval of such a Termination Report by the State shall in no event relieve the Subrecipient from any and all liability for damages sustained or incurred by the State as a result of the Subrecipient's breach of its obligations hereunder.

12.4. Notwithstanding anything in this Agreement to the contrary, either the State or, except where notice of default has been given to the Subrecipient hereunder, the Subrecipient, may terminate this Agreement without cause upon thirty (30) days written notice.

18. **WAIVER OF BREACH:** No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event, or any subsequent Event. No express waiver of any Event of Default shall be deemed a waiver of any provisions hereof. No such failure of waiver shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other default on the part of the Subrecipient.
19. **NOTICE:** Any notice by a party hereto to the other party shall be deemed to have been duly delivered or given at the time of mailing by certified mail, postage prepaid, in a United States Post Office addressed to the parties at the addresses first above given.
20. **AMENDMENT:** This Agreement may be amended, waived or discharged only by an instrument in writing signed by the parties hereto and only after approval of such amendment, waiver or discharge by the Governor and Council of the State of New Hampshire, if required, or by the signing State Agency.
