

The State of New Hampshire
DEPARTMENT OF ENVIRONMENTAL SERVICES

Thomas S. Burack, Commissioner

May 29, 2014

Her Excellency, Governor Margaret Wood Hassan
and The Honorable Council
State House
Concord, NH 03301

REQUESTED ACTION

Approve Kenneth Anderson for Ea2 LLC's request to perform the following work on the Piscataqua River, in Newington. File # 2013-02918. This project will not have significant impact on or adversely affect the values of the Piscataqua River.

Impact a total of 5,185 sq. ft. of undeveloped upland tidal buffer zone and 21,061 sq. ft. of tidal surface water on the Piscataqua River to construct a commercial marine contractor facility in two phases including the following:

- a) Phase 1: Construct a 40 ft. wide x 132.5 ft. long permanent pier connecting to a 7 ft. wide x 50 ft. long ramp connecting to a 10 ft. wide x 24 ft. long landing float, connecting to a 8 ft. wide x 258 ft. long float to a 10 ft. wide 140 ft. long float in a modified L-configuration; install eighteen, single, 12-inch diameter float support piles immediately adjacent to all float sections; install three 12-inch diameter 3-pile cluster tie-off piles immediately adjacent to further-most float section, and install six, 12-inch diameter, 5-pile cluster independent dolphins within approximately 80 ft. down-river of the docking structure and impact 5,185 sq. ft. of undeveloped upland tidal buffer zone to construct a gravel driveway and parking area. Proposed compensatory mitigation involves a payment of \$109,010.05 to the Aquatic Resource Mitigation Fund for Phase 1 surface water and tidal buffer zone impacts.
- b) Phase 2: Expand permanent pier permitted in Phase 1 with further construction extending the permanent pier an additional 320 ft. in length at same 40 ft. width, final overall permanent pier length from Phase 1 & 2 to be 452.5 ft. Proposed compensatory mitigation involves a payment to the Aquatic Resource Mitigation Fund (ARM) for Phase 2 impacts.

Applicant requests a waiver to Rule Env-Wt 806.04(b) for the Phase 2 payment to allow the deposit to occur prior to Phase 2 construction rather than within 120 days of notice by DES. The Phase 2 ARM Fund payment would be calculated and adjusted at the time of payment.

The Department imposed the following conditions as part of this approval:

1. All work shall be in accordance with revised plans by Tighe & Bond, Inc. dated February 27, 2014, as received by the Department on February 28, 2014.
2. This approval is contingent on receipt by DES of a payment of \$109,010.05 to the DES Aquatic Resource Mitigation (ARM) Fund for Phase 1 impacts. The payment shall be received by DES within 120 days of the date of the approval letter or the application will be denied.
3. Phase 2 approval is contingent on receipt by DES of a payment to the DES Aquatic Resource Mitigation (ARM) Fund for Phase 2 impacts. Phase 2 impacts to be calculated and adjusted according to ARM Fund calculation at time of Phase 2 payment.
4. Phase 2 construction may not proceed without receipt by DES of a payment to the DES Aquatic Resource Mitigation (ARM) Fund for Phase 2 impacts as calculated per condition 3. above.
5. Any project changes that are within the jurisdiction of the DES Wetlands Bureau will require a new application and/or further permitting and compensatory mitigation.
6. This permit shall not be effective until recorded at the Rockingham County Registry of Deeds Office by the permittee. A copy of the recorded permit shall be submitted to the DES Wetlands Bureau prior to construction.
7. Appropriate siltation/erosion/turbidity controls shall be in place prior to construction, shall be maintained during construction, and remain in place until the area is stabilized. Silt fence(s) must be removed once the area is stabilized.
8. Work shall be conducted in a manner so as to minimize turbidity and sedimentation to surface waters and wetlands.
9. Work shall be conducted in a manner that avoids discharges of sediments to fish spawning areas.
10. Construction of this commercial tidal docking structure consisting of impact of 26,246 sq. ft. of undeveloped upland tidal buffer zone and tidal surface water of the Piscataqua River to construct a commercial marine contractor facility in two phases shall be the only dock structure on this water frontage.
11. Work shall be conducted in a manner so as to minimize turbidity and sedimentation to surface waters and wetlands.
12. Work shall be conducted in a manner that avoids excessive discharges of sediments to fish spawning areas.
13. Construction of the dock shall occur from a barge and crane to reduce impacts to the estuarine/riverine resource.

EXPLANATION

The DES Wetlands Bureau approved this project on 04/29/2014. DES supported its decision with the following findings:

1. This is a major impact project per Administrative Rule Wt 303.02(a), projects in sand dunes, tidal wetlands, or bogs, except for the repair of existing structures pursuant to Wt 303.04(v), and per Rule 303.02(b) projects occurring in the undeveloped upland tidal buffer zone.
2. The need for the proposed impacts has been demonstrated by the applicant per Wt 302.01.
 - a) The project purpose is to construct a commercial marine contractor facility located within a waterfront industrial area; access to which requires construction of parking and a commercial docking structure capable of berthing heavy marine construction vessels such as barges, tug boats, push boats, and work skiffs. There is currently no parking and no docking structure on the property to provide access to the water.
3. The applicant has provided evidence which demonstrates that this proposal is the alternative with the least adverse impact to areas and environments under the department's jurisdiction per Wt 302.03. The applicant has minimized impacts to identified potential eel grass habitat by extending the proposed pier to deeper water where eel grass is less likely to be present. The applicant revised the original plan and removed a proposed 1,000 sq. ft. bulkhead and eliminated a portion of the fixed pier, known as Phase 3, consisting of a 50 ft. wide x 300 ft. long fixed pier attached to the end of Phase 2.
4. The applicant has demonstrated by plan and example that each factor listed in Wt 302.04(a) and (c), Requirements for Application Evaluation, has been considered in the design of the project. This project has been reviewed by the Pease Development Authority Division of Ports and Harbors and Harbor Pilots which determined that the project would have no negative effect on navigation, per letter dated January 22, 2014; and the docking structure is located greater than 20 ft. off the abutting property lines.
5. Due to the commercial nature of the facility and its associated vessels, and its location within an industrial waterfront area, DES has determined that Rule Env-Wt 402.13, Frontage over 75', with its limit of one boat slip per 75' of water frontage (plus one) for non-commercial use, does not apply to this proposal.
6. This dock is consistent with other heavy commercial/industrial tidal dock approvals in the seacoast.
7. This project has received an extensive inter-agency coordinated review between the state and federal levels.
8. The applicant has reviewed on-site options for mitigation and the department has determined that this project is acceptable for payment to the Aquatic Resource Mitigation (ARM) Fund.
9. The payment calculated for the proposed Phase 1 impacts equals \$109,010.05.
10. The Department decision is issued in letter form and upon receipt of the ARM fund payment, the Department shall issue a posting permit in accordance with Env-Wt 803.08(f).
11. The payment into the ARM fund shall be deposited in the DES fund for the Salmon Falls-Piscataqua River watershed per RSA 482-A:29.

12. Phase 2 approval is contingent on receipt by DES of a payment to the DES Aquatic Resource Mitigation (ARM) Fund for Phase 2 impacts. Phase 2 impacts will be calculated and adjusted according to ARM Fund calculation at time of Phase 2 payment. The applicant requested and DES approved of a waiver from Env-Wt 806.05(b) to allow the applicant relief from Phase 2 ARM Fund payment to be paid within 120 days of notice by DES.
13. DES staff field inspection on March 25, 2014 found that the site is accurately represented in the application.
14. The Newington Conservation Commission recommends approval of this project.
15. In accordance with RSA 482-A:8, DES finds that the requirements for a public hearing do not apply as impacts to the resources will be mitigated through a significant mitigation package. Additionally, there have been no requests for a public hearing and the Conservation Commission has recommended approval.

Application file documents are being forwarded to the Governor and Executive Council in connection with their consideration of this matter pursuant to RSA 482-A:3,II.(a) as it is a major project in public waters of the state.

We respectfully submit this request for your consideration.

Thomas S. Burack
Commissioner

WETLANDS PERMIT APPLICATION

File No.: 2013-02918	Check No.: 5837	Amount: \$28,953.00	Initials: EMK

1. REVIEW TIME: Check the applicable box to indicate your review time. Refer to Guidance Document A for a summary of the minimum impact criteria to determine if your review time is Standard or Expedited.

Standard Review (Minimum, Minor or Major Impact)

Expedited Review (Minimum Impact)

2. APPLICATION CHECKLIST: This checklist is provided to allow you to confirm all the required items are submitted.

Please initial next to each item below to confirm these items, required for administrative review, are included in your application. Please note that your application and accompanying items will be returned to you if the below items are not provided. Refer to the number in parentheses next to each item for detailed instructions for completing that item.

- PMC Check for the application fee (no. 9A)
- PMC Completed application form with project description (no. 7) and required signatures (no.'s 10 & 13)
- PMC Completed U.S. Army Corps of Engineers New Hampshire Programmatic General Permit Appendix B (no. 9B)
- PMC Natural Heritage Bureau (NHB) report (no. 9C)
- PMC Is the project within a ¼ mile of a designated river? Y N. If yes, provide confirmation a copy of application sent to the Local Advisory Committee (no. 9D)
- PMC Color copy of a USGS map (no. 9E)
- PMC Photographs of the impact area (no. 9F)
- PMC Plans (no. 9G)
- PMC Copy of your tax map (no. 9H.1)

Please initial next to each item to confirm that the following items, required for technical review, as applicable, are included in your application. Please note that if applicable items are not provided, you may receive a letter requesting outstanding items or your application may be denied.

- PMC Abutters list and copies of certified mail slips (no. 9H.2)
- N/A Response to the two (2) minimum impact questions (no. 9I)
- PMC Attachment A - Response to the twenty (20) minor and major impact questions
- N/A Copies of comments, beyond the required NHB report, from NHB or the New Hampshire Fish and Game Department (NHFG) (no. 9C)
- PMC Mitigation Agreement Form and materials (no. 9J)
- PMC Date, time, contact information and a copy of notes for any pre-application meetings or correspondence with Wetlands Bureau Staff
- PMC Property Owner or Applicant permission, as required (no.'s 3 & 4)
- PMC Attachment B - Design Consideration & General Plan Requirements
- N/A Attachment C - Stream Crossing Requirements & Information
- PMC Function and Value Assessment

6. PROJECT LOCATION (A separate application must be filed with each municipality that jurisdictional impacts will occur in)

ADDRESS: Shattuck Way TOWN/CITY: Newington

TAX MAP: 20 BLOCK: LOT: 1 UNIT:

US GEOLOGICAL SURVEY TOPO MAP WATERBODY NAME: Piscataqua River

LOCATION COORDINATES (If known): 43d6'17"N / 70d47'51"W Latitude/Longitude
 UTM State Plane

7. PROJECT DESCRIPTION Provide a brief description of the project outlining the scope of work. Attach additional sheets as needed to provide a detailed explanation of your project. DO NOT reply "See Attachment" in the space provided below as your application will be returned as incomplete.

The proposed project is for a marine contractor facility. The project includes the construction of a docking structure in the Piscataqua River. The project also includes the construction of an associated access drive and gravel laydown area in the 100' undeveloped tidal buffer zone on an existing undeveloped lot.

The docking structure including pier, bulkhead, gangway, and floats will result an overall impact of 39,690 SF. The docking structure will be constructed in two (2) phases. The first phase will result in 13,650 SF of tidal water impact and 7,265 SF of 100' undeveloped tidal buffer zone impact for the gravel drive and laydown area. The second phase will remove 4,140 SF of tidal water impact constructed in Phase 1 for floats and piles and will add 30,180 SF of docking structure expansion for a Phase 2 net impact of 26,040 SF.

For each jurisdictional area that will be directly or indirectly impacted, provide estimates of the anticipated impacts. Temporary impacts that are not expected to remain after the project is completed. After the fact impacts occur after completion of this application.

Minimum Impact Fee (Standard & Expedited Review): Flat fee of \$ 200

OR

Minor or Major Impact Fee (Standard Review): Complete the application fee table below

Permanent impacts (non-docking):	<u>7,265</u> sq. ft.	X \$0.20 =	<u>\$1,453</u>
Temporary impacts (non-docking):	_____ sq. ft.	X \$ 0.20 =	_____
Temporary (seasonal) docking structure:	_____ sq. ft.	X \$1.00 =	_____
Phase 1 Permanent docking structure:	<u>13,650</u> sq. ft.	X \$2.00 =	<u>\$27,300</u>
Phase 2 Permanent docking structure:	<u>26,040</u> sq. ft.	X \$2.00 =	<u>\$52,080</u>
Projects proposing shoreline structures add \$200 =			<u>\$200</u>
Total =			<u>\$81,033</u>
The Application Fee is the above calculated Total or \$200, whichever is greater =			<u>\$81,033</u>
			<u>\$81,033; Ph2=\$52,080</u>

B. **Appendix B:** Attach a completed U.S. Army Corps of Engineers New Hampshire Programmatic General Permit (PGP) Appendix B - Corps Secondary Impacts Checklist. Link: http://www.nae.usace.army.mil/Regulatory/SGP/NH_PGP.pdf

C. **NHB Review:** Documentation from the Department of Resources and Economic Development's Natural Heritage Bureau (NHB) indicating that NHB has reviewed your project. Documentation can be obtained online at: https://www2.des.state.nh.us/nhb_datacheck/ or by phone (603) 271-2215 x 323.
Attach the REQUIRED letter/memo and map provided by NHB; and
Provide copies of any additional comments received from NHB and/or the NHFG.
 Indicate species identified by the NHB Review: None Identified

D. **Designated Rivers:**

1. Is the project within a ¼ mile of a designated river? Y N

Designated river list and map link: <http://des.nh.gov/organization/divisions/water/wmb/rivers/designriv.htm>

2. If yes: Indicate river: _____

3. As required by RSA 482-A:3, I(d)(2), I have notified the Local River Advisory Committee (LAC) by sending a copy of the complete application and supporting materials via certified mail on: Month: ___ Day: ___ Year: ___

LAC link: <http://des.nh.gov/organization/divisions/water/wmb/rivers/lac/index.htm>

- E. **USGS Map:** Attach a copy of a U. S. Geological Survey topographic map upon which the property lines and project limits have been outlined (surveyed property boundaries not required). The map must be at an unaltered scale of 1:24,000 or 1" = 2,000 feet (1:25,000 metric map). (Env-Wt 501.02(a)(4) & 505.01(g))

Topographic Map Links: <http://des.nh.gov/organization/divisions/water/wetlands/categories/technical.htm>

- F. **Photographs:** Attach legible and labeled color photographs clearly depicting the jurisdictional areas to be impacted, the resource outside of impact area, any shoreline structures and culvert inlet/outlets (Env-Wt 501.02(a)(3) & 505.01(i))

- G. **Plans:** Attach plans (Env-Wt 501.02). See Attachments B & C for detailed plan requirements.

- H. 1. **Tax Map:** Attach a legible copy or tracing of the tax map from the municipal office (Env-Wt 501.02(a)(1) & 505.01(e))

If applicable items outlined in H.2 - J are not provided, you may receive a letter requesting the outstanding information. Please note that a DES request letter is a courtesy and applications that do not include the required information may be denied.

2. **Abutter Notification:** Confirm the submitted tax map illustrates the property of the applicant, the location of the proposed project on the property, and the location of properties of abutters (defined Env-Wt 101.03) with each lot labeled with the abutter's name(s) and mailing address(es); or provide a list of abutters' names and mailing addresses to cross-reference with the tax map (Env-Wt 501.02(a)(1) & 505.01(f))

Exemption: Abutter notification shall not be required for logging operations, minimum impact agricultural projects, projects in utility rights-of-way, or public highway construction. (Env-Wt 501.01(c))

Permission: If jurisdictional impacts occur within 20 feet of an abutting property line or imaginary extension thereof over surface water signed permission letter(s) from the affected abutters must be included with this application (Env-Wt 304.04). This letter must be notarized if your project is a boat docking facility (RSA 482-A:3-XIII(c)). Notarized abutter permission is not required for maintenance projects.

- I. **Need and Minimization & Avoidance (Env-Wt 302.03, Env-Wt 302.04, 505.01):**

Minimum: Attach statements demonstrating:

1. The need for the proposed project; and
2. That the proposal is the alternative with the least adverse impact to areas and environments under the department's jurisdiction.

-OR-

Minor & Major: Attach statements in response to the 20 questions in Attachment B

- J. **Mitigation: Minor & Major Impact Projects ONLY:** Does the project require compensatory mitigation? Y N

Projects that require mitigation are listed in section Env-Wt 302.03 and mitigation requirements in Chapter Env-Wt 800 of the Wetland Rules Env-Wt 100-900 Link: <http://des.nh.gov/organization/commissioner/legal/rules/documents/env-wt100-900.pdf>

If yes: Attach a completed Mitigation Agreement Form and materials outlined on the form (Env-Wt 501.02(a)(6) & 501.06)

Link: http://des.nh.gov/organization/commissioner/pip/forms/wetlands/documents/mitigation_form.doc

10. PROPERTY OWNER SIGNATURE (authorized applicant or agent signature acceptable with required permission(s) above; 3 & 4)

By signing the application, I am certifying that:

1. All abutters have been identified in accordance with RSA 482-A:3, I and Env-Wt 100-900.
2. I have read and provided the required information outlined in Env-Wt 302.04 for the applicable project type.
3. I have read and understand Env-Wt 302.03 and have chosen the least impacting alternative.
4. Any structure that I am proposing to repair/replace was either previously permitted by the Wetlands Bureau or would be considered grandfathered per Env-Wt 101.44.
5. I have submitted a copy of the application materials to the NH State Historic Preservation Officer.
Link:<http://www.nh.gov/nhdhr/review/>
6. I authorize DES and the municipal conservation commission to inspect the site of the proposed project.
7. I have reviewed the information being submitted and that to the best of my knowledge the information is true and accurate.
8. I understand that the willful submission of falsified or misrepresented information to the New Hampshire Department of Environmental Services is a criminal act, which may result in legal action.
9. I am aware that the work I am proposing may require additional state, local or federal permits which I am responsible for obtaining.
10. The mailing addresses I have provided are up to date and appropriate for receipt of DES correspondence. DES will not forward returned mail.

11. APPLICATION SUBMITTAL DIRECTIONS FOR APPLICANT

1. If you are seeking expedited review, submit the original application form and accompanying items to the conservation commission for signature before submitting the application to the town/city clerk for mailing to DES. Standard review applications do NOT require conservation commission signature.
2. All applications require the original application form and accompanying items, with four copies, application fee and any required municipal fees (authorized by RSA 482-A:3, I) are submitted to the town/city clerk for their required signature and mailing via certified mail to DES. Municipal fees means an administrative fee not to exceed \$10 plus the cost of postage by certified mail

12. CONSERVATION COMMISSION SIGNATURE (Expedited review only)

Expedited review requires that the conservation commission's signature is obtained in the space below. Standard review applications do NOT require the conservation's commission's signature. The Conservation Commission signature should be obtained prior to submitting the original application and four copies to the town/city clerk for mailing to the DES. The Conservation Commission may refuse to sign. If the Conservation Commission does not sign this statement for any reason, then the application is not eligible for expedited review and the application will reviewed in the standard review time frame.

The signature below certifies that the municipal conservation commission has reviewed this application, and:

1. Waives its right to intervene per RSA 482-A:11;
2. Believes that the application and submitted plans accurately represent the proposed project; and
3. Has no objection to permitting the proposed work.

X

Authorized Commission Signature

Print name legibly

Date

13. TOWN / CITY CLERK (All applications require this section to be completed by the Town/City Clerk)

As required by Chapter 482-A:3 (amended 1991), I hereby certify that the applicant has filed five application forms, five detailed plans, and five USGS location maps with the town/city indicated below and I have received and retained certified postal receipts (or copies) for all abutters identified by the applicant.

Project Description: The proposed project includes the construction of a
laydown and access area and a

The NH Natural Heritage database has been checked for records of rare species and exemplary natural communities near the area mapped on the site. Species considered include those listed as Threatened or Endangered by either the state of New Hampshire or the federal government. We currently have no recorded occurrences for sensitive species near this project area.

A negative result (no record in our database) does not mean that a sensitive species is not present. Our data can only tell you of known occurrences based on information gathered by qualified biologists and reported to our office. However, many areas have never been surveyed, or have only been surveyed for certain species. An on-site survey would provide better information on what species and communities are indeed present.

This report is valid through 6/4/2014.
