Dear Kevin,

The Town of Bradford has fallen behind in submitting reimbursement requests for the Bernent Bridge rehabilitation project for several reasons. Perhaps the most significant reason is simply inexperience. This is the first LPA project I have managed. At the onset of this project in 2016, I had just started in the position of Town Administrator. In addition to learning all the other aspects of the job, I had a large bridge project to oversee. I didn't fully understand the attention such a project would demand. Significant easement issues that delayed the project, the burdens COVID placed on the office and the fact that I am one of only two administrative people in a busy Town office added to the challenge.

I commit to the following schedule to bring the Town's reimbursement requests current. Reimbursement for the months of June – December 2018 will be submitted by June 18<sup>th</sup>; reimbursement for January – December 2019 will be submitted by July 2<sup>nd</sup>; reimbursement for January – December 2020 will be submitted by July 16<sup>th</sup>; and reimbursement for payments made to date in 2021 will be submitted by July 31<sup>st</sup>.

Experience is a valuable educator. Having been through an LPA project from start to finish now, I understand the process, the attention such a project demands and the importance of staying current.

Thank you,

Karen Hambleton Town of Bradford
