EXPLANATION

This request is for a **sole source** amendment to increase the price limitation by an amount greater than ten percent (10%) and extend the completion date beyond the original contract period. The annual budget for this amendment has been frozen at the 2017 level through to the completion date of this amendment. The purpose of this request is to ensure the continued provision of required audit services for the New Hampshire Medicaid Electronic Health Records Incentive Program. The Medicaid Electronic Health Records Incentive Program is a federal initiative, administered by the Centers for Medicare and Medicaid Services under the Health Information Technology for Economic and Clinical Health Act, which requires ongoing post-payment audits.

This vendor has been performing these complex audits since February 6, 2013, the beginning of the Medicaid Electronic Health Records Post Incentive Payment Audit Program. This vendor has fulfilled all of the requirements of the original contract and the Department is satisfied with their continued performance.

The Post Incentive Payment Audit Plan, which includes the review of up to five (5) Eligible Hospitals and thirty (30) Eligible Professionals payment records annually and employs a risk-based strategy to identify the incentive payments having the highest likelihood of mispayment according to the established risk assessment methodology. With the experiences gained through the completion of the second year of "Adopt Implement and Upgrade" payment reviews and the first year of "Meaningful Use" payment reviews, it is evident that the reviews of the "Meaningful Use" measures are more time intensive than the "Adopt Implement and Upgrade" reviews. Thus there has been an increased level of work invested based on the experience gained to date over the original base line estimates. It is the Department's belief that amending and extending the current contract is the most effective way to ensure continuity of the provision of federally required, Post Incentive Payment Audits given the dependable, quality service provided by Myer's and Stauffer, LC.

Section 4201 of the American Recovery and Reinvestment Act of 2009 provides funding for incentive payments to eligible hospitals and eligible professionals for adopting, implementing, upgrading and engaging in the subsequent Meaningful Use of certified electronic health records. The objective of the program is to provide payments to Eligible healthcare Professionals and Eligible Hospitals as incentive to adopt, implement, upgrade, or meaningfully use certified Electronic Health Records technology.

The incentive payments are made by state Medicaid programs with 100% federal funding. The New Hampshire Department of Health and Human Services, Office of Medicaid Services estimates that nearly all of the State's twenty-six (26) Eligible Hospitals and five hundred (500) or more Eligible Professionals could apply for incentive payments over the course of the ten-year Medicaid Electronic Health Records Incentive Program. Based on this estimate, eligible hospitals could receive 19 million dollars in incentive payments and eligible professionals could receive 31 million dollars in incentive payments through the year 2021.

Important elements of monitoring the integrity of the Medicaid Electronic Health Records Incentive Program are pre-payment and post-payment audit activities which ensure compliance with the requirements of the program. The New Hampshire State Medicaid Health Information Technology Plan, published December 8, 2011, states that the Department of Health and Human Services, Office of Medicaid Services and the Office of Improvement and Integrity "will implement an audit strategy to identify 'at risk' providers and conduct pre-payment and post-payment verifications/audits to ensure compliance with program eligibility criteria in a timely manner following an Eligible Professional or Eligible Hospital payment."

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

Should the Governor and Executive Council not approve this request provider incentive payments may be delayed. The delay could negatively affect the pace of transition to, and maintenance of, certified electronic health record systems by New Hampshire providers. This delay could impede the Department's progress in achieving planned improvements in clinical data quality and more effective, cost-efficient program initiatives. Further, progress toward more effective, cost-efficient program initiatives could also be delayed.

Area served: Statewide.

Source of funds: 90% Federal Funds Catalog of Federal Domestic Assistance (CFDA) 93.778, (FAIN) 1705NH5ADM, Federal Agency, Centers for Medicare and Medicaid Services, Health Information Technology for Economic and Clinical Health Act, 10% General Funds.

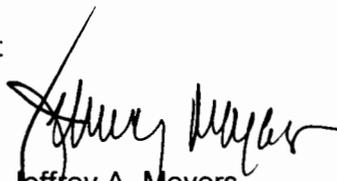

In the event that Federal Funds became no longer available, no further General Funds will be requested to support this program.

EXPLANATION

This request is **sole source** because it increases the price limitation by an amount greater than ten percent (10%) and extends the completion date of the current contract. This amendment increases the price limitation by \$205,665 from \$212,190 to \$417,855 and extends the completion date from June 30, 2015 to June 30, 2017. The purpose of this request is to ensure the continued provision of required audit services for the New Hampshire Medicaid Electronic Health Records Incentive Program. The Department supports this request.

During the first year of reviewing 'meaningful use' incentive payments, it became evident that the reviews were more time intensive and complex than past incentive payment reviews because of the additional federal requirements that needed to be verified for each audit. The additional federal requirements substantially lengthens the time needed to complete the audits, which results in an increase of cost for each audit.

The vendor has performed these complex audits since the inception of the Medicaid Electronic Health Records Post Incentive Payment Audit Program. The Department has been satisfied with the vendor's performance of the contract requirements. Further, the vendor is familiar with the risk assessment methodology used and is best able to complete the audits to ensure provider payments are processed in a timely manner.

The Medicaid Electronic Health Records Incentive Program is a federal initiative, administered by the Centers for Medicare and Medicaid Services, under the Health Information Technology for Economic and Clinical Health Act. The program requires ongoing audits of post-payments made to hospitals and healthcare professionals in the form of incentive payments for meaningful use of electronic health records.

Section 4201 of the American Recovery and Reinvestment Act of 2009 provides funding for incentive payments to eligible professionals and eligible hospitals for adopting, implementing, upgrading and engaging in the meaningful use of certified electronic health records. The objective of the program is to provide payments to eligible healthcare professionals and eligible hospitals as incentive to adopt, implement, upgrade, or meaningfully use certified electronic health records technology.

The New Hampshire Department of Health and Human Services, Office of Medicaid Business and Policy estimates that approximately 26 eligible hospitals and at least 500 eligible professionals could apply for incentive payments over the course of the ten-year Medicaid Electronic Health Records Incentive Program. Based on this estimate, eligible hospitals could receive up to 19 million dollars in federally funded incentive payments and eligible professionals could receive 31 million dollars in federally funded incentive payments through the year 2021.

Important elements of monitoring the integrity of the Medicaid Electronic Health Records Incentive Program are pre-payment and post-payment audit activities to ensure program compliance. The New Hampshire State Medicaid Health Information Technology Plan, published in December 8, 2011, requires the Department to implement an audit strategy to identify at risk providers by conducting pre-payment and post-payment audits to ensure compliance with program eligibility criteria. These post-payment audits are known as the Post Incentive Payment Audit Plan, which requires that audits be completed in a timely manner after an incentive payment is disbursed to an eligible hospital or eligible professional.

The Post Incentive Payment Audit Plan includes the annual review of payment records for at least 5 eligible hospitals 30 eligible professionals. The audit plan uses a risk-based strategy to identify incentive payments that have the highest likelihood of error, resulting in mispayment, based on an established risk assessment methodology.

On August 22, 2012, the Office of Improvement and Integrity issued a Request for Proposals (RFP #13-OII-EHR-01) for the audit services related to the Medicaid Electronic Health Records Incentive Program. The Department received four proposals. Myers and Stauffer LC attained the highest evaluation score and was selected as the vendor to best provide auditing services.

Should the Governor and Executive Council not approve this request, program implementation activity will not be initiated and provider incentive payments will be delayed. The delay could negatively effect the pace of transition to, and maintenance of, certified electronic health record systems by New Hampshire providers. This delay would impede the Department's progress in achieving planned improvements in clinical data quality. Further, progress toward more effective, cost-efficient program initiatives could also be delayed.

Area served: Statewide.

Source of funds: 90% Federal Funds Catalog of Federal Domestic Assistance (CFDA) 93.778, (FAIN) NH20151, Federal Agency, Centers for Medicare and Medicaid Services, Health Information Technology for Economic and Clinical Health Act, 10% General Funds.

In the event that Federal Funds became no longer available, no further General Funds will be requested to support this program.

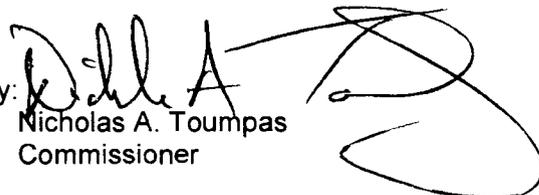

Respectfully submitted,

for

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.
6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.
7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
 - 7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;

- 8.2. **Statistical Records:** Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.
- 8.3. **Medical Records:** Where appropriate and as prescribed by the Department regulations, the Contractor shall retain medical records on each patient/recipient of services.
9. **Audit:** Contractor shall submit an annual audit to the Department within 60 days after the close of the agency fiscal year. It is recommended that the report be prepared in accordance with the provision of Office of Management and Budget Circular A-133, "Audits of States, Local Governments, and Non Profit Organizations" and the provisions of Standards for Audit of Governmental Organizations, Programs, Activities and Functions, issued by the US General Accounting Office (GAO standards) as they pertain to financial compliance audits.
- 9.1. **Audit and Review:** During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.
- 9.2. **Audit Liabilities:** In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

If any governmental license or permit shall be required for the operation of the said facility or the performance of the said services, the Contractor will procure said license or permit, and will at all times comply with the terms and conditions of each such license or permit. In connection with the foregoing requirements, the Contractor hereby covenants and agrees that, during the term of this Contract the facilities shall comply with all rules, orders, regulations, and requirements of the State Office of the Fire Marshal and the local fire protection agency, and shall be in conformance with local building and zoning codes, by-laws and regulations.

16. **Equal Employment Opportunity Plan (EEO):** The Contractor will provide an Equal Employment Opportunity Plan (EEO) to the Office for Civil Rights, Office of Justice Programs (OCR), if it has received a single award of \$500,000 or more. If the recipient receives \$25,000 or more and has 50 or

more employees, it will maintain a current EEOP on file and submit an EEOP Certification Form to the OCR, certifying that its EEOP is on file. For recipients receiving less than \$25,000, or public grantees with fewer than 50 employees, regardless of the amount of the award, the recipient will provide an EEOP Certification Form to the OCR certifying it is not required to submit or maintain an EEOP. Prior to subcontracting, the Contractor shall evaluate the subcontractor's ability to perform the delegated function(s). This is accomplished through a written agreement that specifies activities and reporting responsibilities of the subcontractor and provides for revoking the delegation or imposing sanctions if the subcontractor's performance is not adequate. Subcontractors are subject to the same contractual conditions as the Contractor and the Contractor is responsible to ensure subcontractor compliance with those conditions.

- 19.1. Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function

EXPLANATION

The purpose of this Request is to secure federally required audit services for the Medicaid Electronic Health Records Incentive Program.

Section 4201 of the American Recovery and Reinvestment Act of 2009 provides funding for incentive payments to eligible professionals and eligible hospitals for adopting, implementing, upgrading and the subsequent meaningful use of certified electronic health records. The Medicaid Electronic Health Records Incentive Program is a federal initiative administered by the Centers for Medicare and Medicaid Services under the Health Information Technology for Economic and Clinical Health Act. The objective of the program is to provide payments to eligible healthcare professionals and hospitals as incentive to adopt, implement, upgrade, or meaningfully use certified Electronic Health Records technology. The incentive payments are made by state

and the Honorable Council

Medicaid programs with 100% federal funding. The New Hampshire Department of Health and Human Services, Office of Medicaid Business and Policy estimates that nearly all of the State's 26 eligible hospitals and 500 or more eligible professionals could apply for incentive payments over the course of the ten-year Medicaid Electronic Health Records incentive program. Based on this estimate, eligible hospitals could receive \$19 million in incentive payments and eligible professionals could receive \$31 million in incentive payments through 2021.

Important elements of the program integrity monitoring of the Medicaid Electronic Health Records Incentive Program are pre-payment and post-payment audit activities to ensure compliance with the requirements of the program. The New Hampshire State Medicaid Health Information Technology Plan (December 8, 2011) states that the Department of Health and Human Services, Office of Medicaid & Business Policy and the Office of Improvement and Integrity "...will implement an audit strategy to identify 'at risk' providers and conduct pre- and post-payment verifications/audits to ensure compliance with program eligibility criteria and good standing in New Hampshire's Medicaid program. Post-payment audits will be conducted in a timely manner following an EP (Eligible Professional) or EH (Eligible Hospital) payment."

On August 22, 2012, the Office of Improvement and Integrity issued a Request for Proposals (RFP 13-OII-EHR-01) for the audit services related to the Medicaid Electronic Health Records Incentive Program. Four proposals were submitted by the required deadline. The Evaluation Committee, comprised of four Department employees, evaluated each proposal in accord with the evaluation criteria described in the Request For Proposals. Myers and Stauffer LC was selected by the Committee because it attained the highest evaluation score. Myers and Stauffer LC also submitted the least costly proposal. Attached is the Bid Summary including the scores for each proposal and the Evaluation Committee members and their qualifications for participation in the selection process.

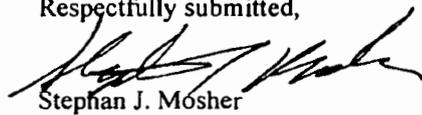

Should Governor and Council determine to not authorize this request to procure federally required post-payment audit services, program implementation activity will not be initiated and provider incentive payments shall be delayed. The delay could negatively affect the pace of transition to certified electronic health record systems by New Hampshire providers and ultimately impair the Department's progress achieving planned improvements in clinical data quality and more effective and cost efficient program initiatives.

- 2.2.4 Provide the Department with a monthly status report with detailed outcomes to include the results of completed audits as well as a schedule of upcoming audits.
- 2.2.5 Provide documented findings for each audit conducted in a format that supports the Department's required reporting of audit activities to CMS and coordination with CMS auditors, when necessary.
- 2.2.6 Provide the Department with work papers for current or closed audits, as needed.
- 2.2.7 In the event of suspected fraud or abuse, communicate with the Department's program integrity unit following the procedures established.
- 2.2.8 Provide assistance to the Department with provider appeals process.
- 2.2.9 Provide expert testimony related to our findings at any hearing or trial resulting from this engagement.
- 2.2.10 Other auditing tasks and responsibilities requested by the Department/CMS.

2.3 Audit Contingencies - Contractor audit services are subject to the following contingencies:

- 2.3.1 EHs or EPs that received a Medicaid incentive payment selected for audit in accordance with the approved plan are subject to a post-payment review in the form of a desk review or on-site review.
- 2.3.2 The Contractor shall consider all members in a group practice that utilized the group proxy to be one audit. However, because MU (Meaningful Use) measures are individual to the provider (only eligibility can be reported via group proxy), it shall be necessary to make provisions to account for audits associated with reviews of EP MU and CQMs (Clinical Quality Measures) when eligibility was reported using the group proxy.
- 2.3.3 The number of desk reviews and on-site reviews shall be determined as part of the post-payment audit priority matrix.

2.3.4 Number of audits - While the Department has established a maximum number of audits to be performed, the Contractor and the Department **may** determine that a fewer number of audits is required after completion of the audit risk matrix. The Contractor shall work closely with the Department to select those EHs and EPs that are most likely to have a misstatement in their attestations that shall render an incentive payment (or payment amount) improper. Once the proper number of audits, and the providers to receive an audit are selected, the Contractor shall conduct a desk review on the majority selected.

2.3.5 Audit minimums – The Contractor shall perform at least one (1) on-site audit of an EH, and at least five (5) on-site audits of an EP. The Contractor shall perform at least five (5) EH audits (combined on-site and desk-review audits) annually as well as perform a minimum of thirty (30) EP audits (combined on-site and desk-review audits) annually (during a twelve (12) month period).

2.3.6 Desk review insufficiencies - In the event that desk review procedures are not sufficient to adequately verify a provider's self reported attestation, an on-site review shall be conducted. In the event that some providers did not fully understand the program requirements to maintain detailed auditable data to support their attestations and obtaining relevant complete documentation is more effective when an on-site audit is conducted then an on-site audit shall be conducted by the Contractor. Additionally, in the event that some providers do not have the expertise to comply with HIPAA (Health Insurance and Portability Accountability Act) regulations in order to securely submit documentation needed to complete a desk review, then an on-site audit shall be conducted by the Contractor.

2.3.7 Audits and Criteria - Specific criteria shall be audited according to the following steps to be completed during desk review and on-site audits:

2.3.7.1 Review pre-payment audit results and other information available.

2.3.7.2 Classify providers into appropriate risk pools in accordance with the approved plan.

2.3.7.3 Select the desired number of audits from each risk pool in accordance with the approved plan.

2.3.7.4 Notifications - Notify the selected providers, a few at a time, via letter on the Department letterhead. The Contractor shall create an audit notification letter, to be approved by CMS. A desk review and on-site letter for EPs and a desk review and on-site letter for EHs can be updated with the Department's information and signature. Contact the provider either by e-mail or telephone. Allow the provider fourteen 14 days to comply with the documentation request. Notify the provider after fourteen 14 days if they are not in compliance with the

documentation request, and at the Department's preference allow the provider an extension as defined by the Department.

2.3.7.5 Determine whether the documentation submitted for AIU and/or MU supports the provider's attestation and meets minimum program requirements.

2.3.7.6 Prepare work papers documenting the review process.

2.3.7.7 Request additional documentation, as needed.

2.3.7.8 In the event the documentation does not support compliance with minimum program eligibility requirements, meet with the provider to resolve issues, and if necessary, allow the provider to identify and document another eligibility period.

2.3.7.9 If applicable, request a sample of medical records as recommended by clinical staff related to the meaningful use measures and clinical quality measures.

2.3.7.10 Document indicators of fraud or abuse and notify the Department program integrity.

2.3.7.11 Conduct supervisory review of audit work.

2.3.7.12 Conduct closeout of audit procedures to include:

2.3.7.13 Confirm all procedures have been completed.

2.3.7.14 Prepare report summary for inclusion in monthly audit report to the Department.

2.3.7.15 Obtain project manager comments, changes, and approval.

2.3.7.16 Obtain quality control review of individual on-site audit reports.

2.3.7.17 Submit draft report to the Department for comment.

2.3.7.18 Address any comments from the Department and issue final report.

2.3.7.19 Work Papers - File completed work papers in electronic format, including a back-up copy in appropriate network folders. Box and inventory hard copy data, if applicable. Send hard copy data and information to off-site storage with retention instructions. Destroy or return all confidential and/or protected participant information, as applicable.

2.3.7.20 Prepare and submit monthly summary reports that identify completed desk reviews.

2.3.7.21 Prepare final on-site reports within thirty (30) days of completion of fieldwork and submit to the Department.

2.3.7.22 Audit Recommendations - For each audit, make appropriate recommendations based on the results of audit:

2.3.7.22.1 Make no adjustment.

2.3.7.22.2 Adjust payment upward/downward and the adjustment amount.

2.3.7.22.3 Recoup payment.

2.3.7.22.4 Include other findings and report categories consistent with CMS reporting requirements.

2.3.7.22.5 Other – specific explanation of audit recommendations.

2.3.7.23 The Contractor shall ensure that post-payment audit protocols support and complement the Department's existing processes, and shall provide further refinement of post-payment audit protocols and identify changes needed in existing processes if inefficiencies are observed. The Contractor shall:

2.3.7.23.1 Provide regular feedback to the Department including suggestions for process improvement.

2.3.7.23.2 Prepare an analysis of the existing pre-payment verification process for eligibility.

2.3.7.23.3 Submit recommendations to the Department for process improvements and assist with implementation.

2.3.7.23.4 Provide the Department with a CMS-approved calculator to assist providers in the application and calculation of eligibility and aggregate incentive payments and Stage 1 meaningful use measures and clinical quality measures, which also streamlines pre-payment review procedures.

2.3.7.23.5 Assess whether ePIP (*NH-Electronic Provider Incentive Payment system*) queries are complete and designed in accordance with CMS regulations.

2.3.7.23.6 Provide additional input as needed.

2.4 Monthly Status Report - The Contractor shall submit a monthly status report to the Department detailing the current status of all outstanding deliverables and/or activities, including, but not limited to assessments, analysis and audits that are in progress. The monthly status report shall include estimated completion dates for each audit in progress. The Monthly Status Report is include a minimum of the following information and may be modified as necessary during the course of the contract:

2.4.1 Detailed current status of all outstanding deliverables and estimated completion dates.

2.4.2 Summary of planning activities in progress.

2.4.3 Summary of audit work in progress.

2.4.4 Assessments of outstanding items to be provided by the Department to the Contractor and, or to be provided by the Contractor to the Department.

2.4.5 Further, if information needs to be communicated to the Department regarding an activity in progress, the Contractor shall not wait until the monthly status report, but shall be in contact with the Department regularly and provide interim updates when necessary.

2.5 Findings - The Contractor shall report the findings for the first year's post-payment audit results as they relate to EH and EP audits and as they relate to program operations. Findings for desk reviews completed during a month shall be reported to the Department on or about the 10th day of the following month in conjunction with the monthly status report, discussed below. Findings shall be presented in an order and manner consistent with CMS reporting requirements to which the Department must adhere, so the Department can transfer the results of the findings to CMS easily. For example, if the Department intends to use the CMS Business Intelligence Reporting Tool, the desk review summary report shall present the information specific to each provider in the order the Department accesses the reporting options online. An individual agreed-upon procedures report shall be prepared for each on-site audit within 30 days of completion of the fieldwork for that audit. For program operations, we can identify areas for improvement and recommend appropriate solutions. For example, if the Contractor identifies an incorrect payment amount, payment to a provider that was deemed ineligible, duplicate payments, or other payment errors we shall determine the weaknesses that allowed for these mistakes and recommend controls that shall reduce the risk of mispayment through provider attestations or program operations.

2.6 Appeals - In the event of an appeal, the Contractor shall provide assistance to the Department, and shall assign an associate who did not perform the original post-payment audit procedures. The Contractor shall provide support to the Department until resolution of the appeal is achieved. The work papers prepared by the Contractor during the course of an audit shall be maintained in accordance with applicable professional standards. These work papers shall document the scope of the audit, the information received from the provider, the methodology utilized in reviewing the documentation, and the conclusion reached. These

work papers serve as the documentary support for the Contractor's recommendations and are usually in the form of Excel spreadsheets, Word documents, and Portable Document Format (PDF) documents.

2.7 Additions to Contractual Services - Any additional services that are not provided as part of the planning and development activities, auditing activities, or reporting activities described above shall be negotiated and shall be in writing by formal contract amendment.

Michael Johnson, CPA/CFE, member (partner/owner), will serve as a *project director*. Mr. Johnson is a partner in our Atlanta, Georgia, office, which includes the program integrity data center, and engagements involving auditing (including EHR), financial analysis (including health information exchange[HIE]), data warehouse development, health plan auditing, data mining, and fraud and abuse detection for our state Medicaid clients. Mr. Johnson has recently coauthored a CMS-approved EHR audit plan for multiple states. He also recently led an onsite engagement with a national Medicaid MCO evaluating the encounter submission process and the nature of the MCO's ability to detect and collect mispayments related to fraud, waste, and abuse. He previously served 14 years as a manager for the Georgia Department of Audits and Accounts and has performed numerous Yellow Book performance audits. Mr. Johnson's involvement in numerous firm projects with similar program integrity objectives, and data warehouse and mining requirements makes him the ideal resource to oversee the needs of this project. Mr. Johnson's expertise with EHR payment rules and potential integration with HIE for reporting clinical quality measures is firmly established and will be utilized effectively under this contract. Accordingly, the knowledge necessary for this project currently exists and can easily and expediently be applied to the Department's needs.

Kevin Londeen, CPA, member (owner/partner), will provide *quality assurance* for this engagement. He will attend project meetings, direct activities of the project team, and be available to New Hampshire Medicaid staff on a daily basis. He is responsible for reviewing deliverables and coordinating the professional resources based on the work plan. Our quality assurance system monitors firm activities and reports to the highest levels of the firm. We have written standard operating procedures that are applied to all engagements. As a part of these procedures, Mr. Londeen will perform quality assurance checks that promote adherence to contract compliance criteria and other management policies. He will oversee quality control reviews and processes and provide high-level strategic input into the overall project. In addition, he will review deliverables and monitor contract performance milestones. Mr. Londeen has more than 20 years of experience providing auditing, consulting and accounting services to state Medicaid agencies. He has consulted with state agency clients during development of nursing facility, ICF/MR, and hospital reimbursement systems, including reimbursement processes for

routine (administrative and health care) cost and capital cost. He served as lead consultant to the Department of Justice examining fraudulent and abusive Medicare cost reporting practices for hospitals, skilled nursing facilities and home health agencies.

Mr. Londeen serves as the project director for several of the firm's DSH audit contracts. He has established procedures and protocol for completing the DSH audits in accordance with federal regulations published in the December 19, 2008, Federal Register. Mr. Londeen co-chaired our firm-wide training seminar educating internal staff on specific requirements of the new DSH audit regulation in February 2009. He has also conducted Medicaid DSH audit training sessions for the Mississippi, North Carolina and Louisiana Medicaid programs to educate hospital providers on the new federal DSH audit regulation.

Charlyn Shepherd, CPA, will be the *project manager* and provide leadership, management skills, authority and the necessary resources to guide this project. Ms. Shepherd's recent experience includes co-authoring a CMS-approved EHR audit plan, conducting firm-wide training on performing EHR audits, assisting with an onsite engagement for a national Medicaid MCO evaluating the encounter submission process and the nature of the MCO's ability to detect and collect mispayments related to fraud, waste and abuse. Ms. Shepherd has 25 years of health care program integrity experience performing and managing agreed-upon procedures engagements and performance audits conducted in accordance with GAGAS, and testifying as an expert witness for state and federal government agencies.

Ms. Shepherd served as an audit manager for the Georgia State Auditor; served as the first chief auditor of Georgia's Medicaid Fraud Control Unit (MFCU) when it was created in 1995; and was deputy director of the claims audits section of the Georgia Department of Audits and Accounts (DOAA). During her time with DOAA, Ms. Shepherd conducted performance audits of skilled nursing facility cost reports and physicians' claims in accordance with GAGAS 1993 and 1997 revisions, and reviewed planning documents and report templates for compliance with the 2011 revision. Ms. Shepherd prepared and presented continuing professional education on several occasions to staff members on cost report auditing, leadership, and understanding and complying with GAGAS. In addition, Ms. Shepherd supervised the 2008 and 2009 audit teams that conducted the single audit work for the adoption assistance program, foster care program, and HIV care formula grants.

Melanie Herndon and **Jeff Wroblewski** will be *senior analysts* on this project. As senior analysts, they will be responsible for the detailed day-to-day activities outlined in this agreement. This group of analysts represents individuals with unique perspectives, including policy, clinical, information technology and financial reporting. We believe this diverse mix of skill sets will provide DHHS with information that addresses each of the objectives from a global perspective rather than a one-dimensional approach.

Debra Moss, M.D. and Vickie Bartlett, will serve as *clinical consultants*. They will provide medical insight on meaningful use measures and clinical quality measures. Dr. Moss is a medical doctor and former CEO of DLM & Associates, a health care consulting firm. Dr. Moss brings not only her medical skill to this project, but also her Medicaid consulting expertise.
