If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

b. Business Associate may use or disclose PHI:
   I. For the proper management and administration of the Business Associate;
   II. As required by law, pursuant to the terms set forth in paragraph d. below; or
   III. For data aggregation purposes for the health care operations of Covered Entity.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of Horizon Counseling Center, Inc.
Gilford, NH 03246

We have audited the accompanying financial statements of Horizon Counseling Center, Inc. (a nonprofit organization), which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Horizon Counseling Center, Inc. as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Horizons Counseling Center, Inc.
Notes to Financial Statements
June 30, 2013 and 2012

Note 1: Organization

Horizons Counseling Center, Inc. is a New Hampshire non-profit organization incorporated March 2, 1990. The Organization is dedicated to providing quality mental health care services for the comprehensive prevention, assessment and treatment of substance abuse and dependence, and related behavioral matters. Services are provided to substance abusers, their families and others affected by the substance abuse. The Organization is dedicated to providing these services to those of limited financial ability, regardless of their ability to pay.

Note 2: Summary of Significant Accounting Policies

Accounting Method

The financial statements have been prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recorded at the time liabilities are incurred.

Net Assets

The Organization reports its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets include the portion of funds that are not restricted by donor or grantor and are available for support of the Organizations' operation.

Temporarily Restricted Net Assets include the portion of funds for which donor or grantor restrictions have not yet been met and for which the ultimate purpose of the proceeds are not permanently restricted.

Permanently Restricted Net Assets include the portion of funds for which donor or grantor imposed restrictions require the funds to be maintained permanently by the Organization.

Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Organization considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable is stated at net realizable value and consists of amounts due from clients for services rendered. Service fees are recorded in the year in which the service is performed. Uncollectible amounts, estimated by management based on historical data, are recorded in the period during which the services are provided even though the actual amounts may become known at a later date.

Note 2: Summary of Significant Accounting Policies – continued

Accounts Receivable - continued

Under terms of the State grant the Organization receives, no patient may be denied services for an inability to pay, resulting in services that are provided but are never expected to result in cash flows. These services estimated at approximately 54% of billings, do not qualify for recognition as receivables or revenue.

Property and Equipment

Property and equipment are recorded at cost or, if donated, at their fair market value at the date of donation. Maintenance and repairs are charged to operations when incurred; major purchases and improvements are capitalized. Fixed assets, consisting of computer and telephone equipment are being depreciated over a five year period using the straight line method.

Grants

The State of New Hampshire, in accordance with a grant contract with the Organization, allows any surplus of revenues over expenses to be used on activities approved by the grant contract with the State of New Hampshire, Department of Health and Human Services – Bureau of Drug and Alcohol Services (BDAS) to cover Medicaid shortfalls, or to be expended at HCC's discretion to increase or improve service delivery within the programs specified by the contract except that such expenditures shall not increase the annualized operating cost of such programs without the prior written approval of BDAS. (See Note 6)

Contributions

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions. When a restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. The Organization has chosen to record restricted contributions whose restrictions are met in the same reporting period as unrestricted contributions.

Schedules of Functional Expenses

The costs of providing various program and management services have been summarized on a functional basis in the Statement of Functional Expenses. Accordingly, certain costs have been allocated amongst the program services and management services benefited based on actual costs and analysis of personnel time.

Note 2: Summary of Significant Accounting Policies – continued

Use of Estimates

Preparation of the Organizations' financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could vary from these estimates.

In-Kind Contributions

In-kind contributions are recorded at fair market value and recognized as revenue in the accounting period in which they are received. During the years ended June 30, 2013 and 2012, donated professional services of $6,400 and $0 were received and recorded in the financial statements. Volunteers, mainly board members, donate time to the Organization's program services. These services have not been included in donated materials and services because their value has not been determined.

Federally Insured Limits

The Organization maintains its cash account at one financial institution, which is secured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000 in aggregate. The Organization has not exceeded this limit for the years ending June 30, 2013 and 2012.

Tax Status

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code and did not conduct unrelated business activities. Therefore, there is no provision for federal income taxes in the accompanying financial statements. In addition, the Organization has been determined by the IRS not to be a private foundation within the meaning of Section 590(a) of the Internal Revenue Code.

Uncertainty in Income Taxes

The Organization recognizes uncertain income tax positions as required by generally accepted accounting principles. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained

Note 2: Summary of Significant Accounting Policies – continued

Uncertainty in Income Taxes - continued

upon examination by taxing authorities. The Organization has analyzed its tax positions taken for filing with the Internal Revenue Service and the State of New Hampshire. The Organization believes that the income tax filing positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organization's financial condition, results of operations, or cash flows. Accordingly, the Organization has not recorded any reserves or related accruals for interest and penalties for uncertain tax positions at June 30, 2013.

The Organization is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations in progress for any tax period. The Organization believes it is no longer subject to income tax examinations for fiscal years ended prior to June 30, 2010.

Note 3: Leased Facilities and Related Party

The Organization rents the Gilford office from a related party, the spouse of the Executive Director. The rental agreement is unwritten, but annual rental payments are approved each year by the Board of Directors. For the years ended June 30, 2013 and 2012 the total rent paid to the related party was $14,406.

For the years ended June 30, 2013 and 2012, the Organization also rented space in Plymouth, New Hampshire. A 24 month lease agreement was entered into on January 1, 2012, which calls for monthly rent payments of $475. The total rent for the Plymouth office for the June 30, 2013 and 2012 was $5,550 and $5,700, respectively.

Effective August 6, 2012, the Organization rented space in Gilford, New Hampshire. The lease is for one year, which calls for monthly rent payments of $900. Total rent paid for the year ended June 30, 2013 was $9,900.

Note 4: Concentration of Risk

The Organization grants credit to its patients, most of whom are local residents and some of whom are insured under third-party payer agreements. Based upon factors surrounding the credit risk of specific patients, historical trends, and other information, the Organization has estimated the collectible balances for patient receivables. No collateral or other security to support patient receivables is required.

The Organization receives the majority of its support from the New Hampshire Department of Health and Human Services. In the event that this support were to be eliminated, it is likely that the Organization would need to reduce its current operations.

Note 5: Grant Revenue and Support

The Organization receives substantial funding in the form of grants from the New Hampshire Department of Health and Human Services - Bureau of Drug and Alcohol Services (BDAS). The Organization reports the grant funding as income for the period in which services are rendered and costs are incurred.

Under the terms of the grant, no patient may be denied services due to an inability to pay for such services. Consequently, all patients are billed on a sliding fee scale based upon their financial resources. The difference between the established rates and the amount collectible and the difference between the established rates and third-party payments are deducted from gross service revenue.

Note 6: Related Party

During the year ended June 30, 2013, the Organization received donations totaling $10,500 from relatives of the executive director.

Note 7: Subsequent Events

Management has evaluated subsequent events through November 6, 2014, which is the date the financial statements were available to be issued.

The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

c. To the extent Business Associate is permitted under the Agreement to disclose PHI to a third party, Business Associate must obtain, prior to making any such disclosure, (i) reasonable assurances from the third party that such PHI will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the third party; and (ii) an agreement from such third party to notify Business Associate, in accordance with the HIPAA Privacy, Security, and Breach Notification Rules of any breaches of the confidentiality of the PHI, to the extent it has obtained knowledge of such breach.

d. The Business Associate shall not, unless such disclosure is reasonably necessary to provide services under Exhibit A of the Agreement, disclose any PHI in response to a request for disclosure on the basis that it is required by law, without first notifying Covered Entity so that Covered Entity has an opportunity to object to the disclosure and to seek appropriate relief. If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

a. The Business Associate shall notify the Covered Entity's Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor's business associate agreements with Contractor's intended business associates, who will be receiving PHI

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Easter Seals New Hampshire, Inc. and Subsidiaries (Easter Seals NH), which comprise the consolidated statements of financial position as of August 31, 2014 and 2013, and the related consolidated statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Directors
Easter Seals New Hampshire, Inc. and Subsidiaries

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Easter Seals NH as of August 31, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying other financial information is presented for purposes of additional analysis rather than to present the financial position and results of operations of the individual companies and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014 on our consideration of Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Easter Seals New Hampshire, Inc. and Subsidiaries' internal control over financial reporting and compliance.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Easter Seals New Hampshire, Inc. and the subsidiaries of which it is the sole member. Significant intercompany accounts and transactions have been eliminated in consolidation.

2. **Summary of Significant Accounting Policies (Continued)**

Cash and Cash Equivalents

Easter Seals NH considers all highly liquid securities purchased with an original maturity of 90 days or less to be cash equivalents. Cash equivalents consist of cash, overnight repurchase agreements and money market funds, excluding assets limited as to use.

The management of Easter Seals NH has implemented a practice to establish cash reserves on hand. Approximately $2,483,000 and $2,432,000, respectively, of cash and cash equivalents, and approximately $2,512,000 and $2,238,000, respectively, of investments were on-hand under this practice as of August 31, 2014 and 2013, respectively.

Assets Limited as to Use and Investments

Assets limited as to use consists of cash and cash equivalents, short-term certificates of deposit with original maturities greater than 90 days, but less than one year, and investments. Investments are stated at fair value. Realized gains and losses on investments are computed on a specific identification basis. The changes in net unrealized and realized gains and losses on investments are recorded in other nonoperating expenses, gains and losses in the accompanying consolidated statements of activities and changes in net assets. Donated securities are stated at fair value determined at the date of donation.

Beneficial Interest in Trusts

Easter Seals NH is the beneficiary of several trusts held by others. Easter Seals NH has recorded as an asset the fair value of its interest in the trusts and such amount is included in permanently restricted net assets, based on the underlying donor stipulations. The change in the interest due to fair value change is recorded within other nonoperating expenses, gains and losses as permanently restricted activity.

Fixed Assets

Fixed assets are recorded at cost less accumulated depreciation and amortization. Expenditures for maintenance and repairs are charged to expense as incurred, and expenditures for major renovations are capitalized. Depreciation is computed on the straight-line method over the estimated useful lives of the underlying assets.

Fixed assets obtained by Easter Seals NH as a result of acquisitions on or after September 1, 2011 are recorded at estimated fair value as of the date of the acquisition in accordance with generally accepted accounting principles guidance for acquisitions by a not-for-profit entity.

Donated property and equipment not subject to donor stipulated conditions is recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support or, if significant uncertainties exist, as deferred revenue pending resolution of the uncertainties. In the absence of such stipulations, contributions of property and equipment are recorded as unrestricted support. See also note 5.

Property held for sale is recorded at the lower of net realizable value or carrying value. Easter Seals NH recognized impairment losses on certain property held for sale in 2014 of $139,698, which is recorded in other nonoperating losses.

2. Summary of Significant Accounting Policies (Continued)

Intangible Assets and Long-Lived Assets

Accounting rules require that intangible assets with estimable or determinable useful lives be amortized over their respective estimated useful lives to their estimated residual values, and be reviewed by management for impairment. Intangible assets at August 31, 2014 and 2013 consist of a patient list obtained in the acquisition of Webster Place.

Expected amortization of intangible assets through the end of their useful lives is as follows:

2015	$ 33,130
2016	33,130
2017	33,130
2018	33,130
2019	33,130
Thereafter	66,263
	$231,913

Amortization expense recognized for the patient list in 2014 and 2013 totaled $33,130.

When there is an indication of impairment, management considers whether long-lived assets are impaired by comparing gross future undiscounted cash flows expected to be generated from utilizing the assets to their carrying amounts. If cash flows are not sufficient to recover the carrying amount of the assets, impairment has occurred and the assets are written down to their fair value. Significant estimates and assumptions are required to be made by management in order to evaluate possible impairment.

Based on current facts, estimates and assumptions, management believes that no long-lived assets were impaired at August 31, 2014 and 2013.

Bond Issuance Costs

Bond issuance costs are being amortized by the straight-line method over the repayment period of the related bonds, or the expected time until the next refinancing, whichever is shorter. Amortization expense recognized during 2014 and 2013 was $9,638.

Revenue Recognition

Revenue generated from services provided to the public is reported at the estimated net realizable amounts from clients, third-party payors and others based upon approved rates as services are rendered. A significant portion of Easter Seals NH's revenues are derived through arrangements with third-party payors. As such, Easter Seals NH is dependent on these payors in order to carry out its operating activities. There is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. Differences between amounts previously estimated and amounts subsequently determined to be recoverable or payable are included in other fees and grants in the year that such amounts become known. Easter Seals NY recognized additional revenue of approximately $7,654 in 2014 and $1,046,000 in 2013 due to favorable rate adjustments approved by the State of New York.

2. Summary of Significant Accounting Policies (Continued)

A third-party payor for three Easter Seals NY programs charged a facility tax assessment on a monthly basis in 2014 and 2013. The charges are a part of Easter Seals NY's reimbursement contract with the payor. The facility tax assessment is based on approved rates. As of August 31, 2014 and 2013, the facility tax assessment due was approximately $136,000 and $138,000, respectively, and is recorded in deferred revenue in the accompanying statements of financial position.

Revenues are recognized as earned, or attributable to the period in which specific terms of the funding agreement are satisfied, and to the extent that expenses have been incurred for the purposes specified by the funding source. Revenue balances in excess of the foregoing amounts are accounted for as deferred revenue until any restrictions are met or allowable expenditures are incurred.

The allowance for doubtful accounts is provided based on an analysis by management of the collectibility of outstanding balances. Management considers the age of outstanding balances and past collection efforts in determining the allowance for doubtful accounts. Accounts are charged against the allowance for doubtful accounts when deemed uncollectible. The bad debt provision in 2014 and 2013 totaled $265,007 and $774,569, respectively.

Unconditional contributions are recognized when pledged.

Advertising

Easter Seals NH's policy is to expense advertising costs as incurred.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities and changes in net assets. Accordingly, certain costs have been allocated among the programs and supporting services based mainly on time records and estimates made by Easter Seals NH's management.

Charity Care (Unaudited)

Easter Seals NH has a formal charity care policy under which program fees are subsidized as determined by the Board of Directors. Free and subsidized services are rendered in accordance with decisions made by the Board of Directors and, at established charges, amounted to approximately $6,802,000 and $7,373,000 for the years ended August 31, 2014 and 2013, respectively.

Income Taxes

Easter Seals New Hampshire, Inc., Easter Seals NY, Easter Seals ME, Easter Seals VT, Easter Seals RI, Harbor Schools, Manchester Alcoholism Rehabilitation Center and Easter Seals CT are exempt from both federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code and, for Easter Seals NY of the Not-for-Profit Corporation Law of the State of New York. Agency Realty, Inc. received a determination letter from the Internal Revenue Service stating that it qualifies for tax-exempt status under Section 501(c)(2) of the Internal Revenue Code.

2. Summary of Significant Accounting Policies (Continued)

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position historically taken on various tax exposure items including unrelated business income or tax status. In accordance with accounting principles generally accepted in the United States of America, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position.

Management has evaluated tax positions taken by Easter Seals New Hampshire, Inc. and its subsidiaries on their respective filed tax returns and concluded that the organizations have maintained their tax-exempt status, do not have any significant unrelated business income, and have taken no uncertain tax positions that require adjustment to or disclosure in the accompanying consolidated financial statements. Easter Seals New Hampshire, Inc. and its subsidiaries are no longer subject to income tax examinations by the federal or state tax authorities for years prior to 2011.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Derivatives and Hedging Activities

Accounting guidance requires that Easter Seals NH record as an asset or liability the fair value of the interest rate swap agreements described in note 8. Easter Seals NH is exposed to repayment loss equal to the net amounts receivable under the swap agreements (not the notional amount) in the event of nonperformance of the other party to the swap agreements. However, Easter Seals NH does not anticipate nonperformance and does not obtain collateral from the other party.

As of August 31, 2014 and 2013, Easter Seals NH had recognized a liability of $3,329,813 and $2,758,346, respectively, as a result of the interest rate swap agreements discussed in note 8. As a result of changes in the fair value of these derivative financial instruments, Easter Seals NH recognized an decrease in net assets of $571,467 ($23,387 of which is included in deconsolidation of affiliate as an increase in net assets) for the year ending August 31, 2014, and an increase in net assets of $2,377,632 for the year ending August 31, 2013 related to swap agreements.

Increase in Net Assets from Operations

For purposes of display, transactions deemed by management to be ongoing, major or central to the provision of services are reported as revenue and expenses that comprise the increase (decrease) in net assets from operations. The primary transactions reported as other nonoperating expenses, gains and losses include the adjustment to fair value of interest rate swaps, the increase in the fair value of beneficial interest in trusts held by others, gains and losses on sales and disposals of property, plant and equipment, and net realized and unrealized gains on investments.

Reclassifications

Certain amounts in the 2013 consolidated financial statements have been reclassified to conform to the 2014 presentation.

Subsequent Events

Events occurring after the statement of financial position date are evaluated by management to determine whether such events should be recognized or disclosed in the consolidated financial statements. Management has evaluated events occurring between the end of Easter Seals NH's fiscal year end and December 5, 2014, the date these consolidated financial statements were available to be issued.

3. Classification of Net Assets

In accordance with the *Uniform Prudent Management of Institutional Funds Act* (UPMIFA), net assets are classified and reported based on the existence or absence of donor-imposed restrictions. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of donated assets. Temporarily restricted net assets are those whose use by Easter Seals NH has been limited by donors to a specific time period or purpose. When a donor restriction expires (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of activities and changes in net assets as net assets released from restrictions. Permanently restricted net assets have been restricted by donors to be maintained by Easter Seals NH in perpetuity, the income from which is expendable to support all activities of the organization, or as stipulated by the donor.

Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

In accordance with UPMIFA, Easter Seals NH considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (a) the duration and preservation of the fund; (b) the purpose of the organization and the donor-restricted endowment fund; (c) general economic conditions; (d) the possible effect of inflation and deflation; (e) the expected total return from income and the appreciation of investments; (f) other resources of the organization; and (g) the investment policies of the organization.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires Easter Seals NH to retain as a fund of permanent duration. Deficiencies of this nature are reported in unrestricted net assets. There were no deficiencies between the fair value of the investments of the endowment funds and the level required by donor stipulation at August 31, 2014 or 2013.

Investment and Spending Policies

Easter Seals NH has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that Easter Seals NH must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of an appropriate market index while assuming a moderate level of investment risk. Easter Seals NH expects its endowment funds to provide an average rate of return over a five year period equal to the rate of 2% over the inflation rate. Actual returns in any given year may vary from this amount.

3. Classification of Net Assets (Continued)

To satisfy its long-term rate-of-return objectives, Easter Seals NH relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Easter Seals NH targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Easter Seals NH may appropriate for distribution some or all of the earnings and appreciation on its endowment for funding of operations. In establishing this policy, Easter Seals NH considered the objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to, so long as it would not detract from Easter Seals NH's critical goals and initiatives, provide additional real growth through new gifts and investment return.

4. Leases

Easter Seals NH leases certain assets under various arrangements which have been classified as operating leases. Total expense under all leases (including month-to-month leases) was approximately $2,420,000 and $2,168,000 for the years ended August 31, 2014 and 2013, respectively. Some of these leases have terms which include renewal options, and others may be terminated at Easter Seals NH's option without substantial penalty. Future minimum payments required under the leases in effect at August 31, 2014, through the remaining contractual term of the underlying lease agreements, are as follows:

Year Ended August 31:

2015	$2,018,870
2016	1,486,328
2017	1,044,716
2018	385,129
2019	221,698
Thereafter	31,240

Easter Seals NY leases certain facilities for school operations from unrelated parties at lease terms that are either below fair market value, or that are almost entirely rent-free. Under accounting principles generally accepted in the United States of America, lease agreements must be evaluated based upon their economic substance rather than legal form, and a lease subsidy would be recorded as both contribution and rental expense. However, Easter Seals NH has determined that such amounts would not be material to the accompanying consolidated financial statements.

Easter Seals NY subleases certain office space located at 11 West 42nd Street in New York to an unrelated party. The sublease agreement expires in February 2014. Total rental income earned under this sublease agreement for the years ended August 31, 2014 and 2013 was approximately $65,000 and $144,000, respectively.

During 2012, Easter Seals NH received a donated building with an estimated fair value of approximately $1,100,000. Under the terms of the donation, for a period of six years, Easter Seals NH must continue to use the building as a child care center. Should Easter Seals NH cease to operate the program, or wish to sell or donate the property, Easter Seals NH must first provide the donor with the opportunity to purchase the property for $1. The contribution representing the fair value of the building has been recorded as deferred revenue at August 31, 2014 and 2013.

Lines of Credit and Other Financing Arrangements

Easter Seals New Hampshire, Inc. had an agreement with a bank for a $500,000 nonrevolving equipment line of credit. The line of credit was used to fund the purchase of New Hampshire titled vehicles for use by Easter Seals NH through April 2, 2014. The interest rate charged on outstanding borrowings was at a fixed rate at the then prime rate minus 0.75% for maturities up to a five-year term. Upon maturity of this agreement, the balances outstanding under the note payable at August 31, 2014 and 2013 were converted to various term notes secured by vehicles, as described above.

Easter Seals New Hampshire, Inc. also has an agreement with a bank for a $500,000 revolving equipment line, which can be used to fund the purchase of New Hampshire titled vehicles for use by Easter Seals NH through June 2017. Advances are converted to term notes as utilized. The interest rate charged on outstanding borrowings is at a fixed rate equal to the then Business Vehicle Rate at the time of the advance for maturities up to a five year term. Included in long-term debt are two notes payable of $33,925 and $9,979 at August 31, 2014 that originated under this agreement. Availability under this agreement at August 31, 2014 is approximately $456,000.

Easter Seals New Hampshire, Inc. (the sole member of Easter Seals NY and Harbor Schools), Easter Seals NY and Harbor Schools have a revolving line of credit with a bank, with available borrowings up to $7 million (a portion of which is secured by available letters of credit of $59,000). Outstanding advances are due on demand. The revolving line of credit has the following sub-limits which were last amended in May 2013: Easter Seals NH $3.725 million, Easter Seals NY $3 million and Harbor Schools $275,000. The interest rate charged on outstanding borrowings is at LIBOR plus 2.25% (2.41% at August 31, 2014). Under an event of default, the interest rate will increase from LIBOR plus 2.25% to LIBOR plus 5.25%. The line is secured by a first priority interest in all business assets of Easter Seals New Hampshire, Inc., Easter Seals NY and Harbor Schools. The agreement requires that collective borrowings under the line of credit be reduced to $3,500,000 for 30 consecutive days during each calendar year. The agreement also limits each borrower's ability to incur additional indebtedness in excess of $500,000. Amounts outstanding under this revolving line of credit agreement at August 31, 2014 and 2013 were $262,356 and $262,356, respectively, related to Harbor Schools, $1,935,548 and $1,599,505, respectively, related to Easter Seals NY and $0 and $1,425,875, respectively, related to Easter Seals NH.

The line was secured by all business assets and property of Easter Seals CT, except for certain assets limited as to use ($3,444,569 carrying value as of August 31, 2013). Additionally, this line was guaranteed by Easter Seals NH. The agreement also limited Easter Seals CT's ability to incur additional indebtedness in excess of $1,000,000 related to real estate, and was cross collateralized with all Easter Seals NH borrowings at this bank. Amounts outstanding under this revolving line of credit agreement at August 31, 2013 were $924,658 (see deconsolidation of affiliate – note 12).

NHHEFA 2004A Revenue Bonds

In connection with the NHHEFA 2004A Revenue Bonds, Easter Seals NH is required to make deposits of interest and principal of sufficient amounts to make the required interest payments and to retire the bonds when due. The 2004A Revenue Bonds require that Easter Seals NH maintain certain reserve funds with a trustee for current required principal and interest payments. Such amounts, which are included within assets limited as to use, totaled $300,046 and $288,778 at August 31, 2014 and 2013, respectively. This agreement also requires bank approval prior to Easter Seals NH incurring additional indebtedness. Easter Seals NH has two letters of credit securing the bonds for $14,450,993 each (expiring and subject to renewal on March 15, 2015, and mainly to support future principal and interest repayments due under the 2004A Revenue Bonds). Easter Seals NH is required to replace or renew the two $14,450,993 letters of credit upon their expiration or the related bonds may be subject to early redemption. Easter Seals NH pays an annual fee for the two letters of credit relating to the 2004A NHHEFA Revenue Bonds. Fees incurred on these letters of credit totaled approximately $183,000 and $157,000 in 2014 and 2013, respectively.

Series 2010 Revenue Bonds

On December 1, 2010, Easter Seals NY, in connection with the Monroe County Industrial Development Corporation and RBS Citizens, issued $5,250,000 in Series 2010 tax-exempt Revenue Bonds (the Series 2010 Bonds). The Series 2010 Bonds were used to finance the acquisition of certain property located in Irondequoit, New York, provide for improvements to a school building and an existing rehabilitation facility, and construct two residential rehabilitation facilities. Additionally, proceeds were used to refinance certain Easter Seals NY outstanding debt.

The Series 2010 Bonds are secured by a mortgage on all properties and improvements financed by the bonds, and are guaranteed by Easter Seals NH. Easter Seals NY may elect to prepay some portion or all of the outstanding bonds subject to a prepayment fee, as defined. This agreement also requires bank approval prior to Easter Seals NY incurring additional indebtedness. The Series 2010 Bonds are subject to tender for mandatory purchase at the election of the bondholder beginning June 1, 2016, and thereafter every five years through June 1, 2036.

Interest Rate Swap Agreements

Easter Seals NH has an interest rate swap agreement with a bank in connection with the Series 2004A Revenue Bonds. The swap agreement has an outstanding notional amount of $14,275,000 and $14,660,000 at August 31, 2014 and 2013, respectively, which reduces, in conjunction with bond principal reductions, until the agreement terminates in December 2034. Easter Seals NH remits interest at the fixed rate of 3.54% and receives interest at a variable rate (0.06% at August 31, 2014).

On February 23, 2011, Easter Seals NY entered into an interest rate swap agreement with a bank in connection with the Series 2010 Revenue Bonds. The swap agreement had an outstanding notional amount of $4,929,360 and $5,052,360 at August 31, 2014 and 2013, respectively, which reduces, in conjunction with bond principal reductions, until the agreement terminates in January 2031. Easter Seals NY remits interest at a fixed rate of 2.99% and receives interest at a variable rate (68% of monthly LIBOR).

8. Borrowings (Continued)

On December 27, 2010, Easter Seals CT entered into an interest rate swap agreement in connection with an outstanding mortgage payable of $2,470,000 at August 31, 2013. The original notional amount of $1,800,000 reduces ratably in conjunction with repayment of the note payable. The swap agreement effectively changed the variable rate to a fixed rate of 2.72% for the notional amounts outstanding, which is approximately 65% of the related mortgage payable (see deconsolidation of affiliate – note 12).

The fair value of the above interest rate swap agreements totaled $3,329,813 and $2,758,346 at August 31, 2014 and 2013, respectively, $615,570 and $708,132 of which was current at August 31, 2014 and 2013, respectively. During the years ended August 31, 2014 and 2013 net payments required by the agreements totaled $674,448 and $692,269, respectively. These payments have been included in interest expense within the accompanying consolidated statements of activities and changes in net assets. See note 11 with respect to fair value determinations.

Debt Covenants

In connection with the bonds, lines of credit and various other notes payable described above, Easter Seals NH is required to comply with certain financial covenants including, but not limited to, minimum liquidity and debt service coverage ratios. At August 31, 2014, Easter Seals NH was in compliance with restrictive covenants specified under the NHHEFA bonds, Series 2010 Bonds, and other debt obligations.

9. Donated Services

A number of volunteers have donated their time in connection with Easter Seals NH's program services and fundraising campaigns. However, no amounts have been reflected in the accompanying consolidated financial statements for such donated services, as no objective basis is available to measure the value.

10. Related Party Transactions

Approximately 13% of other fees and grants revenue is derived from a pass-through grant from Easter Seals, Inc. for both years ended August 31, 2014 and 2013. Easter Seals NH is a member of Easter Seals, Inc. As of August 31, 2014 and 2013, Easter Seals NH had a receivable of $334,352 and $247,471, respectively, from Easter Seals, Inc. related to amounts due under this grant. Easter Seals NH also has an amount due from Easter Seals CT of $7,301 at August 31, 2014 (see also note 12). Membership fees to Easter Seals, Inc. were $122,586 and $121,780 for the years ended August 31, 2014 and 2013, respectively and are reflected as support of National programs on the accompanying consolidated statements of activity and changes in net assets.

11. Fair Value of Financial Instruments

Fair value of a financial instrument is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at their measurement date. In determining fair value, Easter Seals NH uses various methods including market, income and cost approaches, and utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in factors used in the valuation. These factors may be readily observable, market corroborated, or generally unobservable. Easter Seals NH utilizes valuation techniques that maximize the use of observable factors and minimizes the use of unobservable factors.

Certain of Easter Seals NH's financial instruments are reported at fair value, which include beneficial interest held in trusts, investments and the interest rate swaps, and are classified by levels that rank the quality and reliability of the information used to determine fair value:

Level 1 – Valuations for financial instruments traded in active exchange markets, such as the New York Stock Exchange. Valuations are obtained from readily available pricing sources for market transactions involving identical instruments.

Level 2 – Valuations for financial instruments traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar instruments.

Level 3 – Valuations for financial instruments derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

The following describes the valuation methodologies used to measure financial assets and liabilities at fair value. The levels relate to valuation only and do not necessarily indicate a measure of investment risk. There have been no changes in the methodologies used by Easter Seals NH at August 31, 2014 and 2013.

Investments and Assets Limited as to Use

Cash and cash equivalents are deemed to be Level 1. The fair values of marketable equity securities, money market and mutual funds and government and agency securities that are based upon quoted prices in active markets for identical assets are reflected as Level 1. Investments in certain other mutual funds and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2. Investments in certificates of deposit are at cost plus accrued interest, which is estimated to approximate fair value and are included in Level 2.

11. Fair Value of Financial Instruments (Continued)

Beneficial Interest in Trusts Held by Others

The beneficial interest in trusts held by others has been assigned fair value levels based on the fair value levels of the underlying investments within the trusts. The fair values of marketable equity securities, money market and mutual funds, government and agency securities and other asset funds are based upon quoted prices in active markets for identical assets and are reflected as Level 1. Investments in marketable equity securities, mutual funds and corporate and foreign bonds where securities are transparent and generally are based upon quoted prices in active markets are valued by the investment managers and reflected as Level 2. Investments in alternative and other asset funds are derived from other methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions, and are reflected as Level 3. Level 3 valuations incorporate certain assumptions and projections in determining fair value.

Interest Rate Swap Agreements

The fair value for the interest rate swap liabilities is included in Level 3 and is estimated by the counterparty using industry standard valuation models. These models project future cash flows and discount the future amounts to present value using market-based observable inputs, including interest rates.

At August 31, 2014 and 2013, Easter Seals NH's assets and liabilities measured at fair value on a recurring basis were classified as follows:

11. Fair Value of Financial Instruments (Continued)

The table below sets forth a summary of changes in the fair value of Easter Seals NH's Level 3 assets and liabilities for the years ended August 31, 2014 and 2013:

	Interest Rate Swaps	Alternative and Other Asset Funds
Beginning balance, August 31, 2012	$(5,135,978)	$ 78,614
Unrealized gains, net	2,377,632	10,220
Ending balance, August 31, 2013	(2,758,346)	88,834
Unrealized loss, net	(594,854)	–
Deconsolidation of affiliate – see note 12	23,387	(88,834)
Ending balance, August 31, 2014	$(3,329,813)	$ –

Excluding the impact of the deconsolidation of an affiliate (see note 12), the net amounts of unrealized gains (losses) for the period attributable to the change in unrealized gains (losses) relating to the interest rate swaps still held at August 31, 2014 and 2013 were $(594,854) and $2,377,632, respectively. The amount of unrealized gains for the period attributable to the change in unrealized gains relating to the Level 3 investments still held at August 31, 2014 and 2013 were $0 and $10,220, respectively.

Easter Seals NH's other financial instruments, including cash and cash equivalents, accounts receivable from affiliates, program and other accounts receivable, contributions receivable, accounts payable, lines of credit, and long-term debt, have fair values approximating their carrying values because of the short-term nature of the financial instruments or because interest rates approximate current market rates.

12. Deconsolidation of Related Entity

On July 31, 2014, Easter Seals NH entered into an agreement with The Connecticut Institute for the Blind, Inc. d/b/a Oak Hill (Oak Hill), an unrelated entity, whereby Easter Seals NH agreed to transfer its sole member interest in Easter Seals CT to Oak Hill for no consideration. Accordingly, all of the assets, liabilities and net assets of Easter Seals CT were transferred to Oak Hill effective July 31, 2014. Easter Seals NH was concurrently released from all guarantees and other obligations related to Easter Seals CT. Easter Seals NH recognized a decrease in net assets of $5,841,079 as a result of the deconsolidation of Easter Seals CT. CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    - 11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    - 11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    - 11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
    - 11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Serenity Place
National Council on Alcoholism and Drug Dependence Affiliate
Manchester, New Hampshire

We have audited the accompanying financial statements of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate (a non-profit organization), which comprise the statement of financial position as of June 30, 2014 and 2013, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate as of June 30, 2014 and 2013, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted.

Nature of Organization:

Serenity Place, National Council on Alcoholism and Drug Dependence Affiliate (the "Organization") is a non-profit organization existing for the purpose of providing alcohol and drug abuse information, education, referral, crisis intervention, and residential services.

Note 1 - Summary of Significant Accounting Principles:

A. Basis of Presentation

The Organization presents its financial statements on the accrual basis of accounting. The accrual basis recognizes income when earned and expenses when they occur.

B. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Organization considers all highly liquid deposits with maturity of three months or less to be cash and/or cash equivalents.

C. Use of Estimates in the Preparation of Financial Statements

Management used estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

D. Accounting Principles

Under current accounting standards, the Organization is required to report information regarding its financial position and activities according to three classes of net assets. Those three classes are as follows:

Unrestricted Net Assets:
The portion of net assets of a not-for-profit Organization that is neither permanently restricted nor temporarily restricted by donor imposed stipulations.

-Continued on Next Page-

Note 1 - Summary of Significant Accounting Principles - continued:

D. Accounting Principles - Continued

Temporarily Restricted Net Assets:
The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that either expire by passage of time or can be fulfilled and removed by actions of the Organization pursuant to those stipulations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) for reclassifications to or from other classes of net assets as a consequence of donor-imposed stipulations, their expiration by passage of time, or their fulfillments and removal by actions of the Organization pursuant to those stipulations. Temporarily Restricted Net Assets at June 30, 2014 and 2013 were $28,556 and $18,420, respectively.

Permanently Restricted Net Assets:
The portion of net assets of a not-for-profit Organization resulting (a) from contributions and other inflows of assets whose use by the Organization is limited by donor-imposed stipulations that neither expire by the passage of time nor can be fulfilled or otherwise removed by actions of the Organizations, (b) from other asset enhancements and diminishments subject to the same kinds of stipulations, and (c) from reclassifications from or to other classes of net assets as a consequence of donor-imposed stipulations. There are no Permanently Restricted Net Assets at June 30, 2014 and 2013.

E. Income Taxes

The Organization is exempt from Federal Income Tax under Section 501(c)(3) of the Internal Revenue Code. There are no state income taxes due to the fact that the State of New Hampshire recognizes Section 501(c)(3) for exemption of organizations that are organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes. The Center's evaluation on June 30, 2014 and 2013 revealed no uncertain tax positions that would have a material impact of the financial statements.

The Organization's information returns are subject to possible examination by the taxing authorities. For federal purposes the returns essentially remain open for possible examination for a period of three years after the respective filing deadlines of those returns.

-Continued on Next Page-

Note 1 - Summary of Significant Accounting Principles - Continued:

F. Fixed Assets

Fixed assets are recorded at historical cost at the time of acquisition. Depreciation is calculated by the straight-line method over their estimated useful lives ranging from three to thirty-nine years. Repairs and maintenance are charged to operations as incurred, whereas major betterments are capitalized. The estimated useful lives of the assets are as follows:

Description	Method	Life
Furniture and Fixtures	Straight-Line	5-7 years
Equipment	Straight-Line	3-5 years
Vehicles	Straight-Line	5 years
Buildings and Improvements	Straight-Line	5-39 years

G. Accounts Receivable

Accounts receivable are reported at net realizable value. Net realizable value is equal to the gross amount of receivables less an estimated allowance for uncollectible accounts. Historically, the Organization has not experienced material write offs, and therefore has not established an allowance account.

H. Donor-Restricted Contributions

The Organization's policy is to report donor-restricted contributions whose restrictions are met in the same reporting period, as unrestricted support, as there is no effect to reported restricted net assets.

I. Investments

The Organization accounts for investments following current accounting standards, under which its marketable investment securities are reported at fair market value at the date of the financial statements. Accordingly, realized gains and losses resulting from sales or distributions, as well as unrealized holding gains and losses are included in the statement of activities. Realized gains or losses are reflected as increases or decreases in the Organization's unrestricted net assets. The net change in unrealized holding gains or losses since the last fiscal year end are also recorded as increases or decreases in the Organization's operations. See Note No. 9.

-Continued on Next Page-

Note 1 - Summary of Significant Accounting Principles - Continued:

J. Advertising

The Organization follows the policy of charging the costs of advertising to expense as they are incurred. Advertising expenses were $814 and $1,576 for the years ended June 30, 2014 and 2013, respectively.

K. Functional Allocation of Expenses

The costs of providing the various program services have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Treatment at a qualitatively different level of care or type of service, or discharge from treatment, is therefore indicated; or

19.4.9. In the event that there is a dispute between the program and the guardian, the program shall inform the guardian of his or her right to bring the dispute to the attention of the probate court that appointed the guardian.

20. Termination of Services.
  20.1. A client shall be terminated from a contractor's service if the client:
    20.1.1. Endangers or threatens to endanger other clients or staff, or engages in illegal activity on the property of the program;
    20.1.2. Is no longer benefiting from the service(s) he or she is receiving;

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of
Phoenix Houses of New England, Inc.:

We have audited the accompanying financial statements of Phoenix Houses of New England, Inc. ("PH New England"), which comprise the statements of financial position as of June 30, 2015 and 2014, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform our audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to PH New England's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PH New England's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material aspects, the financial position of Phoenix Houses of New England, Inc. as of June 30, 2015 and 2014, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purposes of forming an opinion on the financial statements of PH New England as of and for the years ended June 30, 2015 and 2014, taken as a whole. The supplementary information included on pages 18 and 19 is presented for purposes of additional analysis and is not a required part of the financial statements. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Phoenix Houses of New England, Inc. ("PH New England") is a Section 501(c)(3) not-for-profit organization, exempt from federal income taxes under Section 501(a) of the Internal Revenue Code (the "Code"). PH New England is also exempt from state and local taxes under similar provisions. 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP"). Accordingly, the net assets of PH New England and changes therein are classified and reported based upon the existence or absence of donor-imposed restrictions as follows:

- Unrestricted net assets represent expendable resources that are used to carry out PH New England's operations and are not subject to donor-imposed stipulations.
- Temporarily restricted net assets represent resources that contain donor-imposed restrictions that permit PH New England to use or expend such resources only as or when specified. Restrictions are satisfied either by the passage of time or by actions of PH New England.
- Permanently restricted net assets contain donor-imposed restrictions that stipulate that such resources be maintained permanently. PH New England had no permanently restricted net assets at June 30, 2015 and 2014.

Cash and Cash Equivalents

PH New England considers all highly liquid financial instruments, which principally consist of money market funds, with original maturities of three months or less from the date of purchase to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The allowance for doubtful accounts on accounts receivable and the fair value of donated goods represent significant accounting estimates reflected in the accompanying financial statements. Actual results could differ from those estimates.

Donated Goods

Donated goods are recorded as revenues and assets (at fair value when received) and expenses (when used) on the statement of operations and changes in net assets. Food stamps are recorded at face amount, which is the same as fair value, as revenues and assets and are charged to resident sustenance when expended.

Property and Equipment

Property and equipment are stated at cost, if purchased, or if donated, at fair value at the date of gift, less accumulated depreciation and amortization. PH New England capitalizes assets acquired for greater than $1,000 and with useful lives greater than three years. Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Buildings and improvements	4 - 40 years
Furniture, fixtures and equipment	3 - 7 years
Computer equipment and vehicles	3 - 5 years

Furniture, fixtures and equipment acquired under capital lease arrangements are amortized on the straight-line method over the shorter of the lease term or the estimated useful life of the asset.

Statement of Operations and Changes in Net Assets

PH New England's operating income includes all unrestricted revenues and expenses. Other items include depreciation on non-operational assets and losses on disposals of capital assets. The statement of operations and changes in net assets also includes the caption "excess of (deficiency in) revenues over expenses," which is the performance indicator. Other changes in net assets, which are excluded from the performance indicator, consistent with industry practice, include restricted contributions (including assets acquired using contributions which by donor restriction are to be used for the purposes of acquiring such assets).

Revenue and Support

Contributions (including unconditional promises to give) are recorded at fair value when received. Revenues and expenses relative to special events are recognized upon occurrence of the respective event. Contributions received with donor stipulations that limit the use of the donated assets are reported as either temporarily or permanently restricted support. Unconditional promises to give, with payments due in future years, are reported as either temporarily restricted or permanently restricted support and discounted to present value. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is fulfilled, temporarily restricted net assets are reclassified to unrestricted net assets and reported on the

statement of operations and changes in net assets as net assets released from restrictions. Contributions restricted by donors for the acquisition of property and equipment are released from their restrictions when the respective assets are acquired or constructed and placed into service. Such contributions and related releases are reported below the performance indicator, "excess of (deficiency in) revenues over expenses."

Special Events Revenue

Special events revenue consists of proceeds from fundraising events, reported net of direct donor benefits, if any. Revenue and related expenses are recognized upon occurrence of the respective event to which they pertain. For the years ended June 30, 2015 and 2014, direct benefits to donors totaled approximately $13,600 and $0, respectively.

Government Contract Revenue

PH New England's contracts and other program funding arrangements with government agencies are classified as part of operating activities within the unrestricted net asset category and revenue is recognized when earned. PH New England operates under various contracts with government agencies which generally cover a one-year period, subject to annual renewal. The terms of these contracts allow the grantors the right to audit the costs incurred thereunder and adjust contract funding based upon, among other things, the amount of program income received. Any costs disallowed by the grantor would be absorbed by PH New England and any adjustments by grantors would be recorded when amounts are known; however, it is the opinion of management that disallowances, if any, would not be material to the accompanying financial statements.

Client and Third Party Revenue

Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed based on pre-determined rates. Medicaid and managed Medicaid approximated 56% and 33% of total client and third-party revenue for the years ended June 30, 2015 and 2014, respectively. Contracts have been entered into with commercial insurance carriers and reimbursement is based on contracted rates.

Laws and regulations governing healthcare programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near-term. Noncompliance with such laws and regulations could result in fines, penalties, and exclusion from such programs. The federal government and many states have aggressively increased enforcement under Medicaid antifraud and abuse legislation. PH New England believes that it is in compliance, in all material respects, with all applicable laws and regulations and, is not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquires have been made, compliance with such laws and regulations can be subject to future government review and interpretation.

Noncompliance with such laws and regulations could result in repayments of amounts improperly reimbursed, substantial monetary fines, civil and criminal penalties and exclusion from the Medicaid program.

Concentration of Credit Risk

Financial instruments that potentially subject PH New England to concentrations of credit risk consist principally of cash and cash equivalents. PH New England maintains its cash and cash equivalents in various bank deposit accounts that, at times, may exceed federally insured limits. PH New England's cash and cash equivalents have been placed with high credit quality financial institutions at June 30, 2015 and 2014, and PH New England believes the risk of nonperformance by these financial institutions to be remote.

PH New England provides drug and alcohol rehabilitation services through its inpatient and outpatient care facilities. PH New England grants credit without collateral to clients, however, it routinely obtains assignment of (or is otherwise entitled to receive) clients' benefits payable under their respective health insurance programs, plans, or policies (e.g., Medicaid and commercial insurance providers).

Amounts due from government agencies and other receivables by financial class as a percentage of total accounts receivable at June 30, 2015 and 2014, are as follows:

	2015	2014
Medicaid/Managed Medicaid	63 %	18 %
Commercial insurance	27	29
Other third-party payors	10	50
Self-pay	-	3
	100 %	100 %

Income Taxes

Guidance in the area of "*Accounting for Uncertainty in Income Taxes,*" under the Financial Accounting Standards Board ("FASB") Accounting Standard Codification, clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This standard provides that the tax effects from an uncertain tax position can be recognized in the financial statements only if the position is "more-likely-than-not" to be sustained if the position were to be challenged by a taxing authority. The standard also provides guidance on measurement, classification, interest and penalties, and disclosure. The adoption of this standard by PH New England did not have an impact on its financial statements. The tax years ended June 30, 2012, 2013, 2014 and 2015 are still open to audit for both federal and state purposes. PH New England has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and, to identify and evaluate other matters that may be considered tax positions. PH New England has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements.

Subsequent Events

PH New England evaluated its subsequent events through November 16, 2015, the date these financial statements were available to be issued.

3. RELATED PARTY TRANSACTIONS

PH New England is charged for administrative services provided by its Parent based upon a cost allocation plan. The administrative expenses charged by the Parent approximate the federally approved indirect cost rate for the Parent and its affiliates on a consolidated basis, adjusted to reflect PH New England's own administrative expenses. For each of the years ended June 30, 2015 and 2014, such allocated charges totaled $519,000, and are included as part of administrative charges from Parent expense on the accompanying statements of operations and changes in net assets.

The Parent has adopted a cash management strategy with the principal goal of pooling its cash balances with those of its affiliates to maximize returns and reduce short-term borrowings. As a result of this strategy, certain affiliates participating in the cash management program will have corresponding amounts due to/(from) the Parent as of the reporting date. Amounts reflected as due to Parent on the accompanying statements of financial position of approximately $4,620,000 and $2,318,000 as of June 30, 2015 and 2014, respectively, relate to costs incurred by PH New England, but paid for by the Parent.

4. CONTRIBUTIONS RECEIVABLE, NET

At June 30, 2015 and 2014, PH New England's contributions receivable, net, consists approximately of the following:

	2015	2014
Amounts expected to be collected:		
In less than one year	$ 43,900	$ 81,900
In one to three years	15,000	25,000
	58,900	106,900
Less: Discount to present value (at a rate of 4.01%)	(1,400)	(1,400)
	$ 57,500	$ 105,500

Multi-year pledges received are recorded at the present value of their expected future cash flows using a credit adjusted discount rate which articulates with the collection period of the respective pledge. Discount rates assigned to multi-year pledges in the year of origination are not subsequently adjusted.

5. NOTES RECEIVABLE

During May 2012, PH New England entered into a lease, with no stated rental payments due, and a promissory agreement with Central Vermont Community Land Trust ("CVCLT"), a non-profit corporation existing under the laws of the State of Vermont. In conjunction with a new program, PH New England agreed to lease a facility from CVCLT for twenty years. As part of the lease agreement, PH New England entered into a non-interest bearing note of $100,000 payable by CVCLT and secured by a mortgage of and security interest in the property in Barre, Vermont. The principal of this note does not bear interest nor will any principal be due at any time during which the lease between PH New England and CVCLT is in effect and for a period beginning on the date of termination of the lease and ending on the last day of the twelfth calendar month after such date. The principal due shall be reduced by $5,000 each year for the initial twenty year term of the lease, beginning with the commencement of the new program, beginning July 1,

2013. In the event the lease is in effect throughout the entire initial 20 year term, the note shall be deemed paid in full upon the conclusion of such term. In the event the lease terminates prior to the conclusion of the initial lease term, then the remaining principal shall be due and payable on the last day of the twelfth full calendar month following termination of the lease. Interest shall begin to accrue on such remaining principal balance beginning on the first day of the first month following the due date at a rate equal to the U.S. Department of the Treasury One Year Treasury Bill Rate in effect on the due date. At June 30, 2015 and 2014, the balance of this note receivable was $90,000 and $95,000, respectively.

During July 2010, PH New England entered into a lease and promissory agreement with Burlington Housing Authority ("BHA"), a housing authority existing under the laws of the State of Vermont and the City of Burlington. In conjunction with a new program, PH New England agreed to lease a facility from BHA for twenty-five years. As part of the lease agreement, PH New England entered into a non-interest bearing note of $75,000 due and payable by BHA on the last day of the twelfth full calendar month immediately following the termination of the lease. Interest accrues on the principal balance of this note, beginning on the first day of the first month following the Due Date, at a rate equal to the One Year Treasury Bill rate in effect on that date. At June 30, 2015 and 2014, the balance of this note receivable was $75,000. Total rent expense associated with the lease for this space totaled approximately $52,000 for each of the years ended June 30, 2015 and 2014.

The proceeds of the loan were used to purchase and renovate a building in Springfield, MA. Amounts due under the mortgage are secured by the property purchased. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

INDEPENDENT AUDITORS' REPORT

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate as of June 30, 2015 and 2014, and the consolidated changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such

information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 28, 2015 on our consideration of Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting and compliance.

SOUTHEASTERN NEW HAMPSHIRE ALCOHOL & DRUG ABUSE SERVICES AND AFFILIATE

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED JUNE 30, 2015 AND 2014

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Southeastern New Hampshire Alcohol & Drug Abuse Services (the Organization) is a New Hampshire nonprofit organization providing treatment, rehabilitation and intervention services to alcoholics, narcotic addicts, and alcohol and drug abusers, substantially all of whom are residents of New Hampshire. A majority of revenue is derived from contracts with the State of New Hampshire.

Southeastern New Hampshire Alcohol & Drug Abuse Services Foundation (the Affiliate) is also a New Hampshire nonprofit organization that was established to raise funds for the Organization. A majority of the revenue is derived from direct public support.

Basis of Accounting

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles general accepted in the United States of America, as promulgated by the Financial Accounting Standards (FASB) Accounting Standards Codification (ASC).

Principles of Consolidation

The accompanying consolidated financial statements have been prepared for the Organization and the Affiliate due to the Organization being the sole beneficiary of the Affiliate. All material intercompany transactions have been eliminated.

Basis of Presentation

Financial statement presentation follows the recommendations of the FASB ASC No. 958-210 *Financial Statements of Not-for-Profit Organizations*. Under FASB ASC 958-210, the Organization and the Affiliate (as consolidated) are required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. The classes of net assets are determined by the presence or absence of donor restrictions. As of June 30, 2015 and 2014, the Organization had no permanently or temporarily restricted net assets.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Cash Equivalents
Cash equivalents include all highly liquid investments with an original maturity date of three months or less. There were no cash equivalents at June 30, 2015 and 2014.

Accounts Receivable
Accounts receivable is stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on its assessment of the current status of individual receivables from grants, contracts, and others. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the applicable accounts receivable. At June 30, 2015 and 2014, no allowance was deemed necessary.

Property and Equipment
Purchases of property and equipment are recorded at cost. Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Costs for repairs and maintenance are charged against operations. Renewals and betterments, which materially extend the life of the assets, are capitalized. Depreciation is provided for using the straight line method in amounts designed to amortize the cost of the assets over their estimated useful lives as follows:

Leasehold improvements	15 - 39 years
Vehicles, equipment and furniture	3 - 7 years

Property and equipment at June 30, 2015 and 2014 consisted of the following:

	2015	2014
Leasehold improvements	$ 407,730	$ 407,730
Vehicles	-	45,703
Equipment and furniture	228,259	228,259
	635,989	681,692
Less accumulated depreciation	544,191	561,496
	$ 91,798	$ 120,196

Costs Incurred – Future Leasehold Improvements
Certain costs have been incurred relative to future leasehold improvements to the premises currently utilized by the Organization and totaled $22,454 at June 30, 2015. The primary nature of the costs represent architectural fees.

Accrued Vacation
The Organization has accrued liabilities for future compensated leave time that its employees have earned and which is vested with the employees. The amounts totaled $28,306 and $37,045, at June 30, 2015 and 2014, respectively.

Refundable Advances
Revenues received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services are provided or costs are incurred.

Contributed Support
Contributed support is reported as unrestricted or as restricted depending on the existence of donor or time stipulations that limit the use of the support. The Organization records donor-restricted contributions whose restrictions are met in the same reporting period as unrestricted support.

Income Taxes
The Organization and the Affiliate are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service (IRS) has determined them to be other than private foundations.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors
Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate
Dover, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Southeastern New Hampshire Alcohol & Drug Abuse Services and Affiliate (New Hampshire nonprofit organizations), which comprise the consolidated statements of financial position as of June 30, 2015 and 2014, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated October 28, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's and Affiliate's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entities' financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Southeastern New Hampshire Alcohol & Drug Abuse Services' and Affiliate's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entities' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entities' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SOUTHEASTERN NEW HAMPSHIRE ALCOHOL & DRUG ABUSE SERVICES

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Directors
Southeastern New Hampshire Alcohol & Drug Abuse Services
Dover, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs for the year ended June 30, 2015. Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Southeastern New Hampshire Alcohol & Drug Abuse Services' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Southeastern New Hampshire Alcohol & Drug Abuse Services' compliance.

Opinion on Each Major Federal Program

In our opinion, Southeastern New Hampshire Alcohol & Drug Abuse Services complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Southeastern New Hampshire Alcohol & Drug Abuse Services is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Southeastern New Hampshire Alcohol & Drug Abuse Services' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Southeastern New Hampshire Alcohol & Drug Abuse Services' internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION AND OTHER RESPONSIBILITY MATTERS

The Contractor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor's representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS

11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
    11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
    11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
    11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
    11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS

13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:
    13.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any federal department or agency.
    13.2. where the prospective lower tier participant is unable to certify to any of the above, such prospective participant shall attach an explanation to this proposal (contract).

   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

If Covered Entity objects to such disclosure, the Business

Associate shall refrain from disclosing the PHI until Covered Entity has exhausted all remedies.

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

(3) Obligations and Activities of Business Associate.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual's request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual's request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business

Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) Miscellaneous

a. Definitions and Regulatory References. All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. Amendment. Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. Data Ownership. The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. Interpretation. The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.

e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) I, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Tri-County Community Action Program, Inc. and affiliate (a New Hampshire nonprofit organization), which comprise the consolidated statement of financial position as of June 30, 2015, and the related consolidated statements of activities, cash flows, and functional expenses for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tri-County Community Action Program, Inc. as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2015, on our consideration of Tri-County Community Action Program, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Tri-County Community Action Program, Inc.'s internal control over financial reporting and compliance.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2015

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

The financial statements include the accounts of Tri-County Community Action Program, Inc. and its affiliate, Cornerstone Housing North, Inc. The two organizations are consolidated because Tri-County Community Action Program, Inc. controls 100% of the voting power of Cornerstone Housing North, Inc. All significant intercompany items and transactions have been eliminated from the basic financial statements. Tri-County Community Action Program, Inc. (the Organization) is a New Hampshire non-profit corporation that operates a wide variety of community service programs which are funded primarily through grants or contracts from various federal, state, and local agencies. Cornerstone Housing North, Inc. (a New Hampshire nonprofit corporation) was incorporated under the laws of the State of New Hampshire for the acquisition, construction and operation of community based housing for the Elderly.

Nature of activities

The Organization's programs consist of the following:

Agency

Tri-County CAP Administration provides central program management support and oversight to our many individual programs. This includes planning and budget development, bookkeeping and accounting, payroll and HR services, legal and audit services, IT support, management support, financial support and central policy development.

Tri-County CAP Administration is the liaison between Tri-County Community Action Program, Inc., Board of Directors and its programs, ensuring that programs comply with agreements made by the Board to funding sources and vendors.

Other responsibilities include the management and allocation of funding received through a Community Services Block Grant, as well as management of the Organization's real estate property.

Head Start

Head Start serves hundreds of children and their families in multiple classrooms and locations throughout three counties. Research demonstrates that children who are healthy learn better. Due to this fact, parents in our program receive assistance in completing medical and dental exams for their children. To further assist in breaking the cycle of poverty, each family enrolled in Head Start receives assistance in completing a family needs assessment, and subsequent support in achieving their self-sufficiency and personal improvement goals.

Guardianship
The Organization's Guardianship program provides advocacy and guardian services for the vulnerable population of New Hampshire residents (developmentally disabled, chronically mentally ill, traumatic brain injury, and the elderly suffering from Alzheimer's, dementia, and multiple medical issues) who need a guardian and who have no family member or friend willing, able, or suitable to serve in that capacity.

Transportation
The Organization's transit program provides various transportation services: public bus routes, door-to-door service by request, long distance medical travel to medical facilities outside our regular service area, and special trips for the elderly to go shopping and enjoy other activities that are located outside the regular service area. The Organization's fleet of 18 wheelchair accessible vehicles offers transportation options to the elderly and disabled, as well as to the general public.

Volunteer
Coos County Retired & Senior Volunteers Program (RSVP) maintains a minimum corps of 330 volunteers, ages 55 and older. These volunteers share their skills, life experiences, and time with over 50 local non-profit and public agencies throughout Coos County that depend on volunteer assistance to meet the needs of their constituents. Our volunteers donate over 50,000 hours yearly.

Workforce Development
The Organization is assisting transitional and displaced workers as they prepare for new jobs, and also assisting currently-employed workers to gain the skills required for better jobs.

The Organization is helping to implement New Hampshire's Unified State Plan for Workforce Development, in line with the federal Workforce Investment Act. Workforce training programs, with training facilities in three towns, provide temporary assistance for needy family (TANF) recipients with 20-30 hours per week of training in the areas of employment skills, computer skills, and business experience, and also place participating TANF recipients in community-based work experience sites.

Alcohol & Other Drugs (AOD)
Services provided through the AOD program include assisting the alcoholic/addicted person on the road to recovery, through three phases: Crisis Intervention, Sobriety Maintenance, and Assessment and Referral to appropriate treatment facilities. The Residential Treatment Programs (Friendship House) provide chemically dependent individuals with the fundamental tools of recovery, including educational classes, group and individual counseling, work and recreational therapy, and attendance at in-house and community-based alcoholics anonymous and narcotics anonymous meetings. The AOD program also offers assistance with its impaired driver programs.

The Friendship House, in December of 2014, had approximately $130,000 worth of investments and improvements due to assistance from Public Services of New Hampshire.

Carroll County Dental

The Tamworth Dental Center (the Center) offers high quality oral health care to children with NH Medicaid coverage. The Organization also serves uninsured and underinsured children and adults using a sliding fee scale that offers income-based discounts for care. The Center accepts most common dental insurances for those who have commercial dental insurance coverage. A school-based project of the Dental Center, School Smiles, offers oral health education, screening, treatment and referrals for treatment to over 1,000 children in 9 schools in the vicinity of the Center.

Carroll County Restorative Justice

The Organization's restorative justice program provides comprehensive alternatives to traditional court sentencing and dispute resolution within the framework of Balanced and Restorative Justice. Two key components of this process are personal accountability for one's actions (diversion) and alternative conflict resolution (mediation). Services are provided by in-house staff, volunteers, and partnered relations with other local service providers. Subsequent to year end, the Division was suspended.

Support Center

The Organization's Support Center at Burch House provides direct service and shelter to victims and survivors of domestic and sexual violence and stalking in Northern Grafton County. Support Center services are accessible 24 hours a day, 365 days a year. They include: crisis intervention; supportive counseling; court, hospital and policy advocacy and accompaniment; emergency shelter; support groups; community education and outreach; violence prevention programs for students; information, referrals and assistance accessing other community resources.

Homeless

Homeless services include an outreach intervention and prevention project that strives to prevent individuals and families from becoming homeless, and assists the already homeless in securing safe, affordable housing. The Organization provides temporary shelter space for homeless clients. The Organization also provides some housing rehabilitation services to help preserve older housing stock.

Energy and Development, and Community Contact

Energy programs provide fuel assistance, electric assistance, utility conservation, and weatherization measures including insulation, air-sealing, energy efficient lighting and refrigerators, hot water conservation measures, minor home repairs, and replacement windows and doors.

Community Contact sites allow local participants access to energy assistance programs and other emergency services. The offices provide information to the Organizations' clients about their other programs, as well as other programs available through other organizations in the community. The Organization consolidated its eight Community contact Offices to one office per county, located in Berlin (Coos), Ashland (Grafton) and Tamworth (Carroll). Clients may submit applications for assistance via e-mail, mail, phone, fax, or face-to-face intake appointments at one of the three offices. Community Contact has schedule site outreach in Lancaster, Lebanon, Woodsville and Colebrook; a schedule is published in the local papers listing the days and locations on a monthly basis. The Carroll County's office has been successful serving the needs of clients with this model for over ten years.

Elder

The Organization's Elder program provides senior meals in 15 community dining sites, home-delivered meals (Meals on Wheels) to the frail and homebound elderly, and senior nutrition education and related programming. The Coos County ServiceLink Aging & Disability Resource Center assists with Medicare counseling, Medicaid assistance, long-term care counseling services, and caregiver supports.

Housing Services

Cornerstone Housing North, Inc. is subject to a Project Rental Assistance Contract (PRAC) with the United States Department of Housing and Urban Development, and a significant portion of their rental income is received from the Department of Housing and Urban Development. The Organization includes a 12 unit apartment complex in Berlin, New Hampshire for the elderly. This operates under Section 202 of the National Housing Act and is regulated by the U.S. Department of Housing and Urban Development (HUD) with respect to the rental charges and operating methods. Method of accounting

The financial statements of Tri-County Community Action Program, Inc. have been prepared utilizing the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America, as promulgated by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Under this basis, revenue, other than contributions, and expenses are reported when incurred without regard to the date of receipt or payment of cash.

Basis of presentation

Financial statement presentation follows the recommendations of the FASB in its Accounting Standard Codification No. 958 *Financial Statements of Not-For-Profit Organizations*. Under FASB ASC No. 958, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

The Organization had no permanently restricted net assets at June 30, 2015. The Organization had temporarily restricted net assets of $745,910 at June 30, 2015.

Restricted and unrestricted support

Contributions received are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence and/or nature of any donor restrictions. Support that is restricted is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction.

When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Unrestricted net assets include revenues and expenses and contributions which are not subject to any donor imposed restrictions. Unrestricted net assets can be board designated by the Board of Directors for special projects and expenditures.

Temporarily restricted net assets include contributions for which time restrictions or donor-imposed restrictions have not yet been met. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Permanently restricted net assets include gifts which require, by donor restriction, that the corpus be invested in perpetuity and only the income or a portion thereof (excluding capital gains restricted by State statute) be made available for program operations in accordance with donor restrictions. The Organization had no permanently restricted net assets at June 30, 2015.

Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. The accounting standards for fair values establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Organization. Unobservable inputs are inputs that reflect the Organization's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The hierarchy is classified into three levels based on the reliability of inputs as follows:

> ***Level 1***: Valuations based on quoted prices in active markets for identical assets or liabilities that the Organization has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.
>
> ***Level 2***: Valuation is determined from quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in markets that are not active or by model-based techniques in which all significant inputs are observable in the market.
>
> ***Level 3***: Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The degree of judgment exercised in determining fair value is greatest for instruments categorized as Level 3.

The availability of observable inputs can vary and is affected by a wide variety of factors, including, the type of asset/liability, whether the asset/liability is established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, assumptions are required to reflect those that market participants would use in pricing the asset or liability at the measurement date.

As disclosed in **Note 6**, the note payable which bears monthly interest of 69% of the sum of the one month London Interbank Offered Rate (LIBOR) plus 3.25%, when the Organization's debt service coverage ratio is 1.10; or 3.00% when the Organization's debt service coverage ratio is 1.20 includes an interest rate swap agreement. The Organization's purpose in entering into a swap arrangement was to hedge against the risk of interest rate increases on the related variable rate debt and not to hold the instrument for trading purposes. The Organization pays interest at a fixed 3.85%. The arrangement is scheduled to expire on August 2040. The notional amount of the contract was $3,145,412. Accordingly, the swap arrangement, which is a derivative financial instrument, is classified as a cash flow hedge and is valued at the net present value (NPV) of all estimated future cash flows.

For the year ended June 30, 2015, the fair value of the interest rate swap was $7,385 and the unrealized gain was $42,327. The fair value of the swap is included on the balance sheet as a long term liability. No amounts have been reclassified as interest expense and based upon the Organization's intent to hold the derivative until expiration they do not expect to reclassify any unrealized gains or losses to interest expense.

Accounts Receivable

Accounts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Most of the receivables are amounts due from federal and state awarding agencies and are based upon reimbursement for expenditures made under specific grants or contracts. A portion of the accounts receivable balance represents amounts due from patients at Carroll County Dental and participants in the alcohol and other drug treatment programs. Past due receivables are written off at management's discretion using the direct write off method; this is not considered a departure from accounting principles generally accepted in the United State because the effects of the direct write method approximate those of the allowance method. Management selects accounts to be written off after analyzing past payment history, the age of the accounts receivable, and collection rates for receivables with similar characteristics, such as length of time outstanding. The Organization does not charge interest on outstanding accounts receivable.

Property and Depreciation

Acquisitions of buildings, equipment, and improvements in excess of $5,000 and all expenditures for repairs, maintenance, and betterments that materially prolong the useful lives of assets are capitalized. Buildings, equipment, and improvements are stated at cost less accumulated depreciation. Depreciation is provided using the straight-line method over the estimated useful lives of the related assets. Depreciation expense related to assets used solely by an individual program is charged directly to the related program. Depreciation expense for assets used by more than one program is charged to the program based upon a square footage or other similar allocation. Depreciation expense related to administrative assets is included in the indirect cost pool and charged to the programs in accordance with the indirect cost plan. Maintenance and repairs are charged to expense as incurred.

Estimated useful lives are as follows:

Buildings and Improvements	20 to 40 years
Vehicles	5 to 8.5 years
Furniture and Equipment	5 to 15 years

Client Rents and HUD Rent Subsidy

Cornerstone Housing North, Inc.'s rents are approved on an annual basis by the Department of Housing and Urban Development. Rental increases are prohibited without such approval. The clients are charged rent equal to 30% of their income less adjustments allowed by the Department of Housing and Urban Development. Rent subsidies are received from the Department of Housing and Urban Development for the difference between the allowed rents and the amounts received from the clients.

Refundable Advances

Grants received in advance are recorded as refundable advances and recognized as revenue in the period in which the related services or expenditures are performed or incurred. Funds received in advance of grantor conditions being met aggregated $191,343 as of June 30, 2015.

Nonprofit tax status

The Organization is a *not-for-profit* Section 501(c)(3) organization of the Internal Revenue Code. It has been classified as an Organization that is not a private foundation under the Internal Revenue Code and qualifies for a charitable contribution deduction for individual donors. The Organization files information returns in the United States. The Organization is no longer subject to examinations by tax authorities for years prior to 2011.

The Organization follows FASB ASC, *Accounting for Uncertainty in Income Taxes,* which clarifies the accounting for uncertainty in income taxes and prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. The Organization does not believe they have taken uncertain tax positions, therefore, a liability for income taxes associated with uncertain tax positions has not been recognized.

The Organization's Federal Form 990 (Return of Organization Exempt from Income Tax), is subject to examination by the IRS, generally for three years after it is filed.

Cornerstone Housing North, Inc. is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has determined the Organization to be other than a private foundation within the meaning of Section 509(a).

Retirement plan

The Organization maintains a tax sheltered annuity plan under the provisions of Section 403(b) of the Internal Revenue Code. All employees are eligible to contribute to the plan beginning on the date they are employed. Each employee may elect salary reduction agreement contributions in accordance with limits allowed in the Internal Revenue Code. Employer contributions are at the Organization's annual discretion. In January 2013, payments had ceased, therefore as of June 30, 2015, there were no discretionary contributions recorded. Further information can be obtained from the Organization's 403(b) audited financial statements.

Donated services and goods

Contributed noncash assets are recorded at fair value at the date of donation. If donors stipulate how long the assets must be used, the contributions are recorded as restricted support. In the absence of such stipulations, contributions of noncash assets are recorded as unrestricted support.

Donated property and equipment

Donations of property and equipment are recorded as support at their estimated fair value at the date of donation. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Assets donated with explicit restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Organization reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Organization reclassifies temporarily restricted net assets to unrestricted net assets at that time.

Promises to Give

Conditional promises to give are not recognized in the financial statements until the conditions are substantially met. Unconditional promises to give that are expected to be collected within one year are recorded at the net realizable value. Unconditional promises to give that are expected to be collected in more than one year are recorded at fair value, which is measured as the present value of their future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received. Amortization of the discounts is included in the contribution revenue. In the absence of donor stipulations to the contrary, promises with payments due in future periods are restricted to use after the due date. Promises that remain uncollected more than one year after their due dates are written off unless the donors indicate that payment is merely postponed. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

As of June 30, 2015, there were promises to give that were absent of donor stipulations and therefore classified as temporarily restricted in the amount of $247,754. This amount was included in the grants and contracts on the Consolidated Statement of Activities.

Use of estimates
The presentation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Fair Value of Financial Instruments
Accounting Standards Codification No. 825 (ASC 825), *Disclosures of Fair Value of Financial Instruments*, requires the Organization to disclose fair values of its financial instruments. The carrying amount of the Organization's financial instruments which consists of cash, accounts receivable, deposits and accounts payable, approximate fair value because of the short term maturity of those instruments.

Functional allocation of expenses
The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the program services and supporting activities benefited.

Program salaries and related expenses are allocated to the various program and supporting services based on actual or estimated time employees spend on each function as reported on a timesheet.

Workers Compensation expenses are charged to each program based upon the classification of the each employee and allocated to the various program based upon the time employees spend on each function as noted above.

Paid Leave is charged to a leave pool and is allocated to each program as a percentage of total salaries.

Fringe Benefits are charged to a Fringe Benefit Pool. These expenses include employer payroll taxes, pension expenses, health and dental insurance and unemployment compensation. The pool is allocated to each program based upon a percentage of salaries.

Depreciation expense is allocated to each program based upon specific assets used by the program and is reported as depreciation expense on the supplemental statements of functional expenses.

***Other Occupancy expense*:** expenses are applicable to assets which are used by multiple programs, primarily buildings are charged to the benefiting program based upon an analysis of square footage. Costs related to a building include depreciation, insurance, utilities, building maintenance, etc. These costs are reported as space costs on the supplemental statements of functional expenses.

Insurance: automobile insurance is allocated to programs based on vehicle usage; building liability insurance is allocated to programs based on square footage of the buildings; and insurance for furniture and equipment is allocated to programs using the book basis of the insured assets.

The remaining shared expenses are charged to an Indirect Cost Pool and are allocated to each program based upon a percentage of program expenses. The expenses include items such as administrative salaries, general liability insurance, administrative travel, professional fees and other expenses which cannot be specifically identified and charged to a program.

The Organization submits an indirect cost rate proposal for the paid leave, fringe benefits and other indirect costs to the U.S. Department of Health and Human Services. The proposal effective for the fiscal year beginning July 1, 2013 received provisional approval and is effective until amended at a rate of 12.3%. Per an email with a representative from the U.S. Department of Health and Human Services, the Agency reduced the rate to 12.2% for the year ended June 30, 2015.

The Organization records the value of in-kind contributions according to the accounting policy described in **Note 1**. The Head Start, Transportation and Elder Programs rely heavily on volunteers who donate their services to the Organization. These services are valued based upon the comparative market wage for similar paid positions. The Organization is also the beneficiary of a donation of in kind in the form of below market rent for some of the facilities utilized by the Head Start and Elder Programs. The value of the in-kind rent is recorded at the difference between the rental payment and the market rate for the property based upon a recent appraisal.

Many other individuals have donated significant amounts of time to the activities of the Organization. The financial statements do not reflect any value for these donated services since there is no reliable basis for making a reasonable determination.

NOTE 10. CONCENTRATION OF RISK

Tri-County Community Action Program, Inc. receives a large majority of its support from federal and state governments. For the year ended June 30, 2015, approximately $12,900,000 (73%) of the Organization's total revenue was received from federal and state governments. If a significant reduction in the level of support were to occur, it would have a significant effect on the Organization's programs and activities.

Cornerstone Housing North, Inc. receives a large majority of its support from the U.S. Department of Housing and Urban Development. For the year ended June 30, 2015 approximately 69% of the Organizations total revenue was derived from the U.S. Department of Housing and Urban Development. In the absence of additional revenue sources, the future existence of Cornerstone Housing North, Inc. is dependent upon the funding policies of the U.S. Department of Housing and Urban Development.

The majority of Cornerstone Housing North, Inc.'s assets are apartment projects, for which operations are concentrated in the elderly person's real estate market. In addition, the Organization operates in a regulated environment. The operation of the Organization is subject to administrative directives, rules and regulations of federal, state and local regulatory agencies, including, but not limited to, HUD. Such administrative directives, rules and regulations are subject to change by an act of Congress or an administrative change mandated by HUD. If the Organization was found to be noncompliant with the provisions of the grant agreements, the Organization could be liable to the grantor or face discontinuation of funding.

Environmental Contingencies

On March 30, 2009 the Organization's Board of Directors agreed to secure ownership of a 1.2-acre site located in Berlin, New Hampshire. There are 2 buildings on this site designated as the East Wing and West Wing Buildings which were formerly used as a research and development facility for the Berlin Mills Company. The exterior soil and interior parts of the East Wing Building contained contaminants which required environmental remediation. In a letter dated May 2, 2012, the State of New Hampshire Department of Environment Services (the Department) noted that the remedial actions for the exterior soils and parts of the East Wing Building had been completed to the Department's satisfaction.

In addition, the Department noted that the contaminants related to the West Wing Building did not pose an exposure hazard to site occupants, area residents, and the environment provided the West Wing Building is maintained to prevent further structural deterioration. If further deterioration occurs and contaminants are released into the environment, the Organization could be required to take additional action including containment and remediation.

NOTE 13. RELATED PARTY TRANSACTIONS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Directors of
Tri-County Community Action Program, Inc.
Berlin, New Hampshire

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Tri-County Community Action Program, Inc. (a nonprofit organization), which comprise the consolidated statement of financial position as of June 30, 2015, and the related consolidated statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated December 10, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered Tri-County Community Action Program Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of Tri-County Community Action Program Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Tri-County Community Action Program Inc.'s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Tri-County Community Action Program Inc.'s consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidated financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

To the Board of Directors of
Tri-County Community Action Program, Inc.
Berlin, New Hampshire

Report on Compliance for Each Major Federal Program

We have audited Tri-County Community Action Program Inc.'s compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Tri-County Community Action Program Inc.'s major federal programs for the year ended June 30, 2015. Tri-County Community Action Program Inc.'s major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Tri-County Community Action Program Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Tri-County Community Action Program Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Tri-County Community Action Program Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, Tri-County Community Action Program, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of Tri-County Community Action Program, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Tri-County Community Action Program Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Tri-County Community Action Program, Inc.'s internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

TRI-COUNTY COMMUNITY ACTION PROGRAM, INC.

SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS

FOR THE YEAR ENDED JUNE 30, 2014

Financial Statement Audit

FS-2014-001

Condition: The Organization records their monthly receivables based on the invoicing done by the Program Directors. The non-contract billings are recorded as miscellaneous receivables for the year-end balance. Management reviews subsequent cash receipts to capture any payments that may have been overlooked by a Program Director when completing their reports for year end.

A system needs to be developed to ensure that all financial information, including the receivable balances and estimates for allowance for doubtful accounts, is captured and reported in the financial statements.

Recommendation: The Organization should design and implement policies and procedures for the recording, reporting and collection of all receivables.

Prior Year Management Response: Management agrees with this finding. Due to the structure of the Organization, billing needs to be initiated by the program departments after reviewing their monthly results from their records and the Organization's accounting system. The Finance Department reviews the revenue and expense reports to review for flags (such as budget variances) that indicate possible unbilled items due to an unexpected revenue and expense imbalance. Monthly inquiries are made of Department Directors to ask about potential unbilled items. Written procedures will be created for Directors and/or their designees to follow to help prevent missed billings, receivable adjustments, and/or the accrual of as yet unbilled but earned receivables.

Current Status: During our testing, we noted that there were proper policies and procedures in place for the recording, reporting and collection of all receivables. Corrected.

FS-2014-002

Condition: The Organization failed to comply with the requirements to report net assets as unrestricted, temporarily restricted, and permanently restricted.

The Organization needs to have a process in place to identify restrictions on grants and donations, as well as monies received from Federal funds.

Recommendation: The Organization needs to develop a policy to properly record the donations and grants to the appropriate net asset classification.

Prior Year Management Response: Management agrees with this finding. The predecessor auditor and former fiscal management had discussions related to the treatment of the net asset section. The Organization decided to seek and utilize the guidance of the predecessor auditor. Before this finding current management was reviewing and questioning the prior recommended net asset classifications. After review of documentation and consulting with the current auditors, the current management concurs that net assets need to be classified differently and that specific written instructions are required to insure proper classification in the future. Subsequent to June 30, 2014, management analyzed the net asset balances and posted adjustments to properly classify net assets by restriction at June 30 2014.

Current Status: Corrected.

FS-2014-003

Condition: The Organization failed to design and implement procedures to control and monitor the use of a certain bank account and the proper recording of another account.

Controls over the bank accounts must be designed and implemented to prevent, or detect and correct, errors including misappropriations. A lack of internal control procedures over the Organization's bank accounts, noted above, and the reconciliation of those accounts.

One bank account was not properly recorded in the Organization's general ledger, resulting in an adjustment to the trial balance. Another bank account was reported on a cash basis, rather than an accrual basis, and had to be adjusted accordingly.

Recommendation: Management should further improve controls over the bank accounts in order to ensure that they are being reported properly.

Prior Year Management Response: Management agrees with this finding. Although immaterial to the financial statements in this instance, Management agrees that all bank accounts need to be recorded and reconciled properly due to the responsibility related to the custody of these cash assets. The Organization has corrected the issue related to both referenced accounts above and is performing further research to ensure no other such accounts have been omitted.

Current Status: Corrected.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. 5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;

7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. INSTRUCTIONS FOR CERTIFICATION

1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services' (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

   II. As required by law, pursuant to the terms set forth in paragraph d. below; or

e. If the Covered Entity notifies the Business Associate that Covered Entity has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Business Associate shall be bound by such additional restrictions and shall not disclose PHI in violation of such additional restrictions and shall abide by any additional security safeguards.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity's compliance with HIPAA and the Privacy and Security Rule.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) Obligations of Covered Entity

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate's use or disclosure of PHI.

(5) Termination for Cause

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity's knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

Financial Statements

For The Year Ended June 30, 2015

Seelye & Schulz
P.A., Certified Public Accountants

Independent Auditors' Report

To The Board of Directors
The Youth Council, Inc.
Nashua, New Hampshire

We have audited the accompanying financial statements of The Youth Council, Inc., which comprise the statement of financial position as of June 30, 2015 and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

The Agency provides counseling, diversion programs, and onsite services designed to strengthen families, improve decision-making skills, and reduce involvement with the legal system for children, teens, and families struggling with abuse, neglect, substance abuse, behavioral difficulties, and parenting stress. Additional services provided to third parties relating to drug programs and counseling to various schools and organizations.

Accounting Method

Support, revenue and expenses are recorded on the accrual basis of accounting. Contract revenue is recognized when services are rendered. Donations are recorded when unconditionally pledged. Expenses are recorded when the obligation has been incurred.

Contributions of donated non-cash assets are recorded at their fair value in the period received. Contributions of donated services that create or enhance non-financial assets or that require specialized skills, which are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Promises to Give

Contributions are recognized when the donor makes a promise to give to the Agency that is, in substance, unconditional. Contributions that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the fiscal year in which the contributions are recognized. All other donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restrictions. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

Financial Statement Presentation

The Agency reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, and temporarily and permanently restricted net assets.

Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations. All contributions are considered to be available for unrestricted use unless specifically restricted by donor.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Temporarily and permanently restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Agency or the passage of time, or are permanent in nature. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Accounts Receivable

The Agency utilizes the reserve method of accounting for bad debts. Management determines the allowance based on its historical information and a review of the individual balances. A reserve of $500 was required as of June 30, 2015.

Property, Equipment and Depreciation

Property and equipment is recorded at cost (or fair market value if donated) and is depreciated using the straight-line method over estimated useful lives as follows:

Description	Life
Building	30 years
Furniture & fixtures	3-7 years
Building improvements	7-31.5 years

Other Assets

Loan fees are being amortized on the straight line basis over ten years. Amortization expense for the year ended June 30, 2015, was $478.

Cash Flows

For purposes of the statement of cash flows, the Agency considers all short-term securities purchased with a maturity of three months or less to be cash equivalents.

NOTE A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Youth Council, Inc. is generally exempt from income taxes pursuant to the Internal Revenue Code Section 501(c)(3). However, income from certain activities not directly related to the Organization's tax-exempt purpose is subject to taxation as unrelated business income.

The current year unrelated business income tax is zero.

The Agency's income tax filings are subject to audit by various taxing authorities. As of June 30, 2015, the Agency's open audit periods included years ending June 30, 2012 through 2015. The Agency believes it has met all the requirements to maintain its not-for-profit status.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis. Accordingly, costs have been allocated among the programs and supporting services benefited.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

NOTE B. NOTE PAYABLE

The Youth Council, Inc. was obligated on the following note at June 30, 2015:

NOTE C. REVOLVING LINE OF CREDIT

Amounts borrowed on the credit line are payable on demand and carry an interest rate of prime rate plus 1% (4.25% at June 30, 2015). The credit line is secured by a security interest in all The Youth Council, Inc.'s assets and assignment of rents.

NOTE D. SATISFACTION OF USAGE RESTRICTIONS

Net assets are released from donor restrictions by incurring expenses that satisfy use restrictions or the passage of time restrictions.

The following net assets were released from restrictions during the year ended June 30, 2015:

	$ 51,166

NOTE F. PENSION PLAN

The Agency adopted a qualified 403(b) retirement plan for employees who are at least 21 years of age, working at least 30 hours per week, and have completed 30 days of employment. The plan allows for employee contributions in accordance with the Internal Revenue Code. There is no provision for a contribution by the Agency.

NOTE G. RESTRICTED NET ASSETS

Temporarily restricted assets result from funding, which has either a time or usage restriction placed on it by the funding source. The balance consists of the following amounts allocated to the following year:

United Way	$ 14,115
Program support	9,686
City of Nashua	35,000
	$ 58,801

NOTE H. MANAGEMENT SERVICES AFFILIATE

The Agency was engaged by an unrelated party to provide bookkeeping services. Service fees totaling $4,404 were recorded as a reduction of administrative staff payroll in the accompanying Statement of Functional Expenses.

NOTE I. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amounts of financial instruments including cash, accounts receivable, accounts payable and short-term debt approximated fair value as of June 30, 2015, because of the relatively short maturity of these instruments. The recorded values of notes payable and long-term debt approximate their fair values, as interest approximates market rates.

NOTE J. SUBSEQUENT EVENTS

Management has evaluated events through date January 18, 2016, the date that the financial statements were available to be issued.
