EXPLANATION

This project work is the result of 4 flooding events that occurred on October 29, 2017, with a major disaster declaration decreed on January 2, 2018. This project will rehabilitate 5 non-contiguous Tier 3 roadway sections located within District 2, including:

STM77137, Dorchester NH 118: Segment location involves several paving locations between North Dorchester Road and Lebrun Road, for a total length of ~1150 feet.

STM77127, Orford NH 25A: Segment location involves paving near Camp Moosilauke and passes over the Orford Br. No. 217/112, for a total length of ~750 feet.

STM77094, Warren NH 118: Segment location involves excavation and paving near Breezy Point Road, for a total length of ~830 feet.

STM77122, Warren NH 25A: Segment location involves excavation and paving near Petelle Lane and passes over the Warren Br. No. 180/128, for a total length of ~70 feet.

STM77122, Warren NH 25A: Segment location involves excavation and paving west of Ravine Road, for a total length of ~2250 feet.

The primary focus is the permanent rehabilitation of the existing pavement along the five roadway segments to keep them in good condition. Pavement treatments involve full width asphalt overlays for all locations, with the Warren segments requiring excavation of existing pavement and fine grading prior to the overlay.

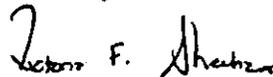

The proposed contingency amount is 5% of the contract amount. The project was not surveyed and therefore items have been quantified based on field observations, as-built plans, and aerial photos only. Field adjustments may be required due to varying field conditions.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

This project funding is 80% federal emergency relief funds with 20% state match.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner
