His Excellency, Governor Christopher T. Sununu  
and The Honorable Council  
State House

**REQUESTED ACTION**

Authorize the Department of Environmental Services to award a Local Source Water Protection grant to Merrimack Village District (VC #160038) in the amount of \$25,000 to complete a project to protect public drinking water supplies, effective upon Governor and Council approval through May 31, 2023. 100% Federal Funds.

Funding is available in the following account:

03-44-44-441018-4718-072-500574

Dept. Environmental Services, DWSRF Administration, Grants- Federal

FY2022  
\$25,000

**EXPLANATION**

The Department of Environmental Services issued a request for proposals for 2022 Local Source Water Protection Grants. These grants are funded by set-asides under the Drinking Water State Revolving Loan Fund. Eighteen proposals were received. The proposals were evaluated and ranked based on criteria included in the request for proposals, such as whether the project fulfills a component of a source water protection program, that the proposed project addresses appropriate threats, and that the project will deliver a valuable and useful product. Based on eligibility and the available loan management fee funding, the Department determined that it could offer grants to ten source protection planning projects and three source security projects. See Attachment A for the full list of grants awarded and list of reviewers.

The Merrimack Village District will use the Source Water Protection Grant funds to identify locations to place signs within each Well Head Protection Area denoting the recharge areas and the need to reduce salt loads in these areas. These grant funds will also be used to purchase and install the signs at the selected strategic locations.

This agreement has been approved as to form, substance, and execution by the Office of the Attorney General. In the event that the federal funds are no longer available, General funds will not be requested to support this program.

We respectfully request your approval of this item.

**SCOPE OF WORK**

The intent of the signs is to ultimately reduce salt load and protect groundwater everywhere within the defined Wellhead Protection Areas (WHPAs). The success of this program can be easily measured as we sample and quantify the sodium and chloride levels in each of the MVD production wells over the next several years

**Task 1: Select strategic locations for signs in MVD WHPAs**

EGGI will coordinate with MVD Personnel, the Town of Merrimack Department of Public Works/Highway Department and local private entities, the best locate and install signs that demonstrate where salt use must be diminished due to being in a Wellhead Protection Area(s) for public water system wells approved by NHDES.

**Task 2: Finalize road-side sign design**

A final design including the size, material and a concise message(s) will be completed with the intent to affect private and public sector road maintenance crews and local residents to limit salt use in the area.

This task will involve selection of the sign construction and sign message. Where state roads are concerned, NHDOT will be consulted as to the sign location/size, etc. prior to finalizing that location. Draft message(s) for signs will be provided to NHDES review prior to installation.

**Deliverable:** A final design with the salt reduction message will be provided to NHDES for review and comment, along with confirmation that NHDOT has been consulted, where a state road is involved.

**Task 3: Meet with vendor/installer on final sign locations**

A meeting will be held to review with the vendor/installer each sign location and confirm the exact sign locations for installation. All signs will be placed and installed in a manner that is compliant with all public safety requirements established by state and local laws or regulations.

**Deliverable:** Summary of the meeting and copy of the information provided to the vendor/installer will be provided to NHDES.

**Task 4: Install Signs at Final Strategic Locations**

All signs will be installed at selected location in compliance with all governmental regulatory requirements.

Grantee Initials

**Deliverable:** A photo of each sign after installation will be sent to NHDES confirming the installation.

**Task 5: Prepare Final GIS Map**
