Commissioner

THE STATE OF NEW HAMPSHIRE
DEPARTMENT OF TRANSPORTATION

William Cass, P.E.
Assistant Commissioner

31B
Beach

Bureau of Construction
April 11, 2017

His Excellency, Governor Christopher T. Sununu
and the Honorable Council
State House
Concord, New Hampshire 03301

REQUESTED ACTION

1. Authorize the Department of Transportation to enter into a contract with SUR Construction, Inc. (Vendor 156303) of Rochester, NH on the basis of a low bid of \$1,426,765.15 for a two-way left turn lane on NH Route 11 in Farmington for the entire length of the project, from the date of Governor and Council approval through October 27, 2017 unless extended by the Department in accordance with the Standard Specifications. 100% Federal Funds.

Funding is available as follows for FY 2017, and is contingent upon the availability and continued appropriation of fund for FY 2018:

Funding is available as follows:	<u>FY 2017</u>	<u>FY 2018</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$426,765.15	\$1,000,000.00

2. Further authorize that a contingency in the amount of \$99,873.57 be approved for payment of latent conditions, which may appear during the construction of the project. The contingency requested is 7% of the contract amount.

Funding is available as follows:	<u>FY 2017</u>	<u>FY 2018</u>
04-96-96-963515-3054		
Consolidated Federal Aid		
400-500870 Highway Contract Payments	\$0.00	\$99,873.57

EXPLANATION

This project is part of the State's Ten Year Transportation Improvement Plan, under the Highway Safety Improvement Program (HSIP). This project constructs a two-way left turn lane on NH Route 11 for the entire length of the project. The project begins approximately 800 feet east of the NH Route 153 intersection and continues east 3,300 feet. The work involves constructing a step box widening along both sides of the roadway and includes a high strength pavement overlay.

Bridge preservation and maintenance work will be performed on Farmington's Br. No. 134/132. The work at this bridge consists of removing the existing asphalt from the top of the culvert, performing partial and full depth repairs to the top slab of the culvert, placing barrier membrane across the top slab of the culvert and down 2' on each side wall of the culvert, placing hand method pavement to rebuild the roadway to existing profile, replacing the bridge rail and the bridge approach rails as outlined in the plans and specifications. This work will extend the useful life of the bridge.

This project is part of the annual Highway Safety Improvement Program and was identified as a high accident location during a Road Safety Audit conducted in September 2010. To improve safety, this project extends the existing two-way left turn lane starting at NH 153. Step box widening on both sides of the roadway is necessary to accomplish the work.

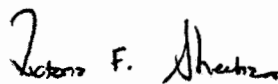

The Contingency amount is proposed to be 7% of the contract amount. The project schedule is aggressive and there is risk of some paving work extending beyond the Fall 2017 completion date into Spring 2018 due to weather. This results into additional costs for mobilization and traffic control. Also, the uncertainty of the partial/full deck bridge repairs may require additional time and costs.

The Contractor has been prequalified by this Department. The Contract has been approved by the Attorney General as to form and execution, and the Department has certified that the necessary funds are available and the bid reasonably conforms to the engineer's estimate in accordance with State procedure. Copies of the fully executed contract are on file at the Secretary of State's Office and the Department of Administrative Service's Office, and subsequent to Governor and Council approval will be on file at the Department of Transportation.

The Construction funding is identified from the Highway Safety Improvement Program (HSIP) and Bridge - T1/T2 - Maintenance & Preservation funds at 90% federal funding, with Turnpike Toll Credits anticipated for the State's 10% match.

A copy of the Tabulation of Bids received for this project is attached along with the Contract Supplemental Sheet and a map indicating the location of the project.

Sincerely,

Victoria F. Sheehan
Commissioner

VFS/md

Department Estimate: \$1,533,322.25
Contract Amount: \$1,426,765.15

SUPPLEMENTAL PROJECT INFORMATION SHEET

DESCRIPTION: This project constructs a two-way left turn lane on NH Route 11 for the entire length of the project. The project begins approximately 800 feet east of the NH Route 153 intersection and continues east 3,300 feet. The work involves constructing a step box widening along both sides of the roadway and includes a high strength pavement overlay.

Bridge preservation and maintenance work will be performed on Farmington's Br. No. 134/132. The work at this bridge consists of removing the existing asphalt from the top of the culvert, performing partial and full depth repairs to the top slab of the culvert, placing barrier membrane across the top slab of the culvert and down 2' on each side wall of the culvert, placing hand method pavement to rebuild the roadway to existing profile, replacing the bridge rail and the bridge approach rails as outlined in the plans and specifications.

FEDERAL FUNDING: The Construction funding is identified from the Highway Safety Improvement Program (HSIP) and Bridge - T1/T2 - Maintenance & Preservation funds at 90% federal funding, with Turnpike Toll Credits anticipated for the State's 10% match.

CONTINGENCY: The Contingency amount is proposed to be 7% of the contract amount. Although this is considered a one season project, some paving work may extend into the spring of 2018, which translates into additional costs for mobilization and traffic control. Also, the uncertainty of the partial/full deck bridge repairs may require additional time and costs.

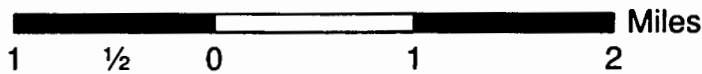

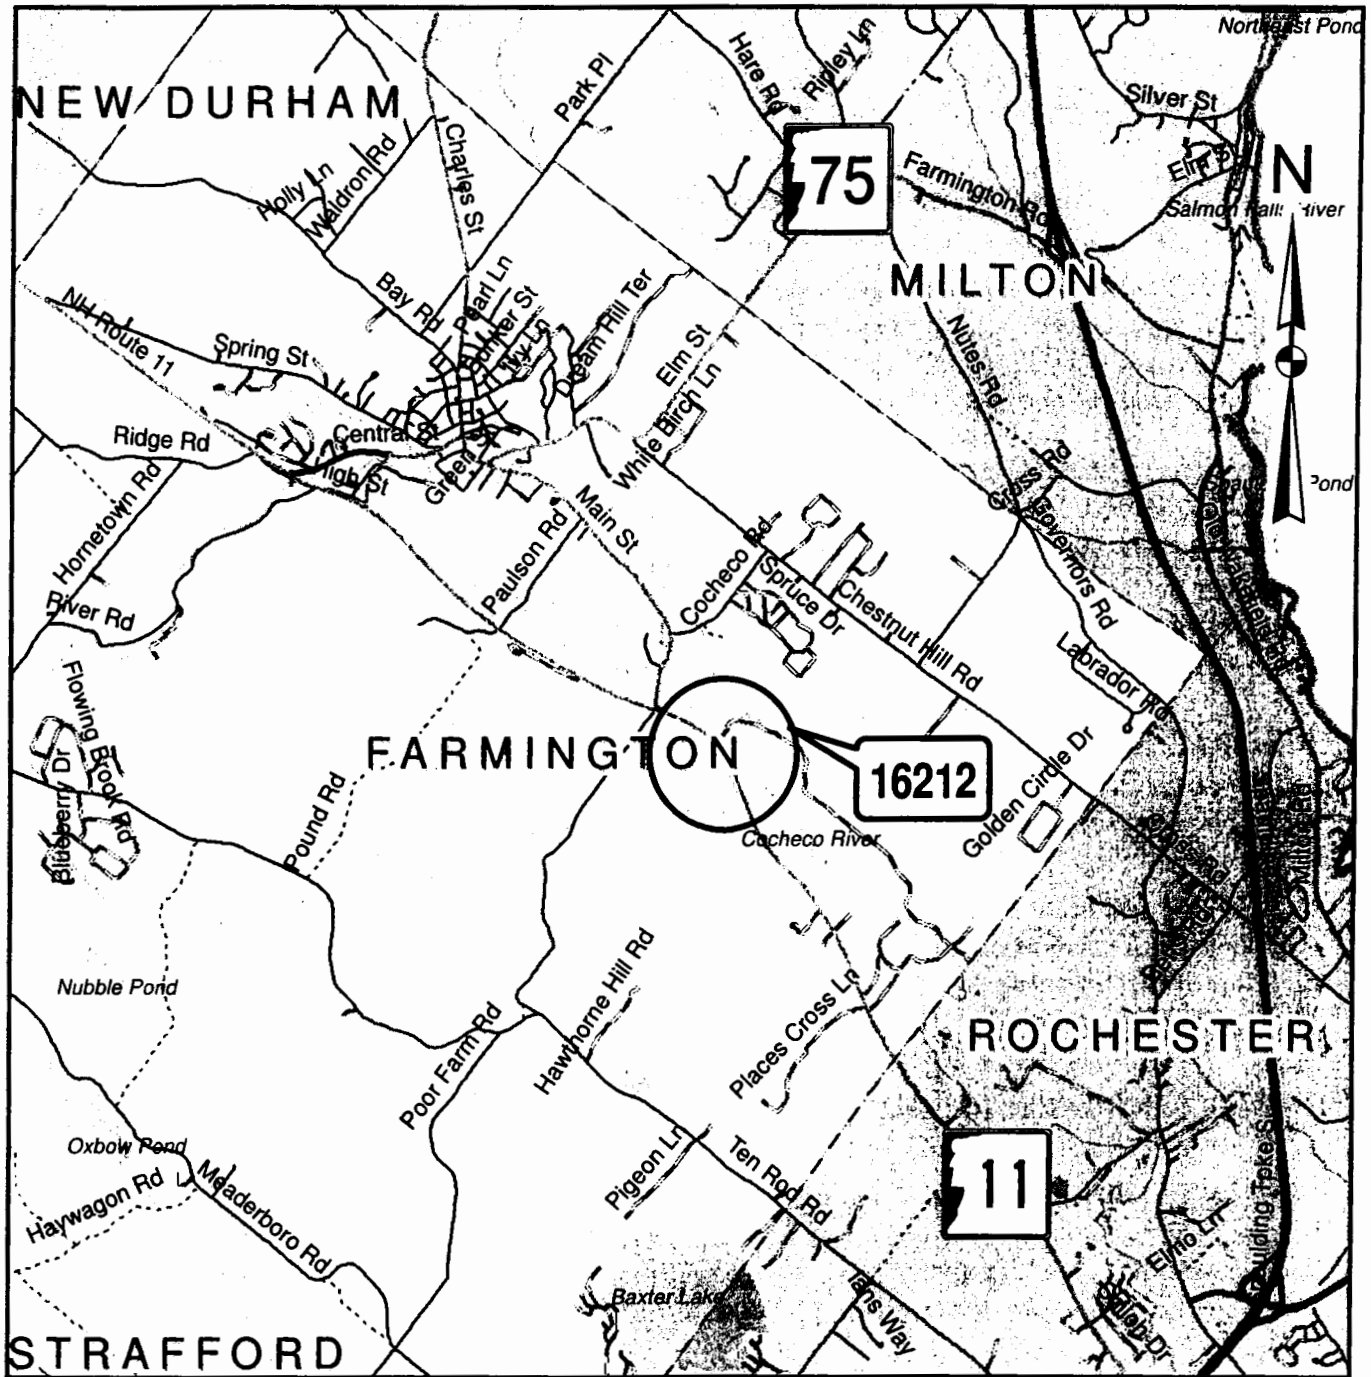

PROJECT INITIATED: State's Ten-Year Transportation Improvement Plan.

PROJECT EXPLANATION: This project is part of the annual Highway Safety Improvement Program and was identified as a high accident location during a Road Safety Audit conducted in September 2010. To improve safety, this project extends the existing two-way left turn lane starting at NH 153. Step box widening on both sides of the roadway is necessary to accomplish the work.

TRAFFIC IMPLICATIONS: Two-way traffic on paved lanes will be maintained at all times, except as otherwise permitted. Lane shifts on existing and new pavement, as well as unpaved (crushed gravel) surfaces, will be utilized to allow phased construction. Traffic will be restricted on unpaved surfaces for no more than 12 days, inclusive of no more than one weekend. One-lane, alternating two-way segments will be allowed if necessary and as long as traffic queues are manageable. Two-way traffic will be restored during non-work hours. Night work may be necessary for final paving and bridge work.
