EXPLANATION

Sandy Goulet is currently a Agency Audit Manager at the New Hampshire Lottery Commission. Managerial Accounting will explore the financial impact of alternative business decisions and financial benefits of new business practices. After completing this course the student will understand how accounting and other productivity information can be used to assess the past and improve the future performance of a business by giving managers essential information they need. The Managerial Accounting course will help Sandy provide financial information to her supervisors in order for them to make informed decisions. In doing audits, Sandy can help charities make better decisions about their financial future. It will also help her to better understand when the Commission asks for financial information about the Games of Chance or charities.

Respectfully submitted,
