## **SUPPLEMENTAL PROJECT INFORMATION SHEET**

**DESCRIPTION:** This project resurfaces eleven (11) sections of various Tier 2, 3 and 4 roads throughout eight (8) towns in Districts 1 and 2. The sections total approximately 25.2 miles in length. See table on following page for information on project segments.

**FEDERAL FUNDING:** 0% (Senate Bill 367 100%)

**CONTINGENCY:** There is no contingency for this project.

**PROJECT INITIATED:** The Pavement Management Section has reviewed the road segments included in this project and identified two (2) sections for Preservation totaling 2.1 miles, and nine (9) sections for Light Capital Paving totaling 23.1 miles. This project will improve the roadway ride and increase safety.

**PROJECT EXPLANATION:** This project is part of the CY 2020 District Resurfacing Program. The sections will be resurfaced via paver shim, spot paver drag shim, leveling course, pavement inlays, and spot inlays. Fourteen (14) existing sidewalk curb ramps in two (2) sections will be improved to comply with the Americans with Disabilities Act. All impacted towns and utilities will be notified.

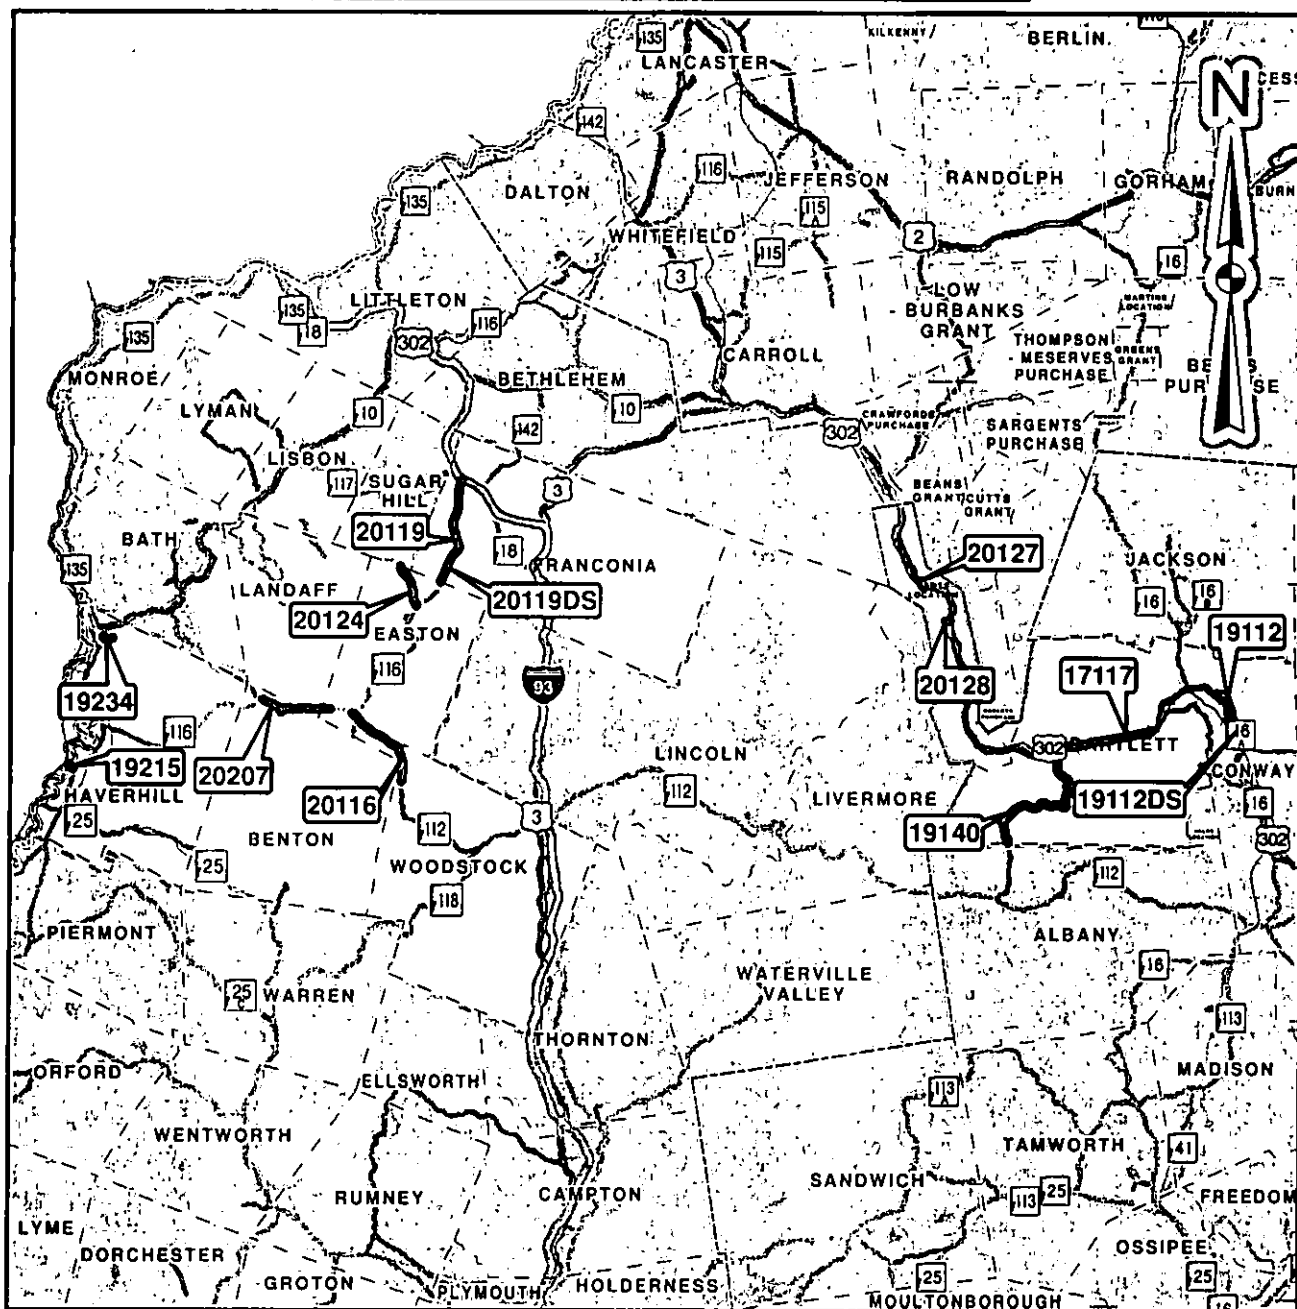

**TRAFFIC IMPLICATION:** This project is expected to have minimal impacts to traffic with short term work zones at individual locations. Traffic impacts are anticipated to be limited to temporary lane closures and short term one-lane, alternating two-way traffic during work hours. Sections 20127 (Willey House Station Road in Hart's Location) and 20128 (Arethusa Falls Road in Hart's Location) will need to be closed to complete construction activities due to narrow lanes. No detours will be necessary. Work zone significance was determined to be non-significant at the December 19, 2019 Traffic Control Committee Meeting.

**FINAL COMPLETION DATE:** September 18, 2020.
