Dept. of Environmental Services, DERA Funds, Grants Federal	

EXPLANATION

Under the Diesel Emission Reduction Act (DERA) the U.S. Environmental Protection Agency (EPA) provides funding to states for projects that reduce harmful emissions produced by older diesel engines, including replacement of vehicles and rebuild of older diesel engines. The new/rebuilt engines must meet more stringent emissions standards. Utilizing federal EPA funds, matched with funding from New Hampshire's Volkswagen Environmental Mitigation Trust Fund, NHDES has \$300,000 available for grants.

A request for proposal (RFP) was conducted from April 9 through June 3, 2020. Sixteen entities applied for funding. Seven proposals were approved for funding (see Attachment A for the scoring results). Requested action is for one project at this time, and a request for five remaining projects will be submitted at a later date. The Fall Mountain Regional School District requested partial funding to replace a diesel school bus.

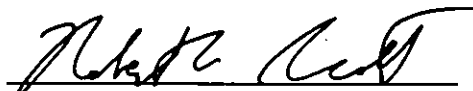

The DERA program has a mandatory minimum cost share requirement for a replacement vehicle project of 75 percent. NHDES will provide the lesser of \$24,375 or 25 percent of the total replacement cost (\$97,500) to Fall Mountain Regional School District for the replacement of the school bus.

His Excellency, Governor Christopher T. Sununu
and the Honorable Council

We respectfully request your approval.
